The mission of The American College of Greece is to add distinctive and sustainable value to our students as well as Greece, American education, Hellenic heritage, and the global community through transformative teaching, professional engagement, academic research, and service.

The achievement of this mission is not possible without philanthropy. The trustees, alumni, friends, corporations, associations, foundations, church bodies, and US government agencies listed here enabled ACG in 2013-14 to:

- provide need and merit-based aid, international internships and study abroad opportunities for students;
- support faculty scholarship;
- enhance academic and co-curricular facilities.

We are pleased to honor all those who contributed over the last year either to ACG or to the ALBA Association to support ALBA Graduate Business School at The American College of Greece. We thank these donors for their generous endorsement of the College’s mission, students and faculty in challenging times.

---
