The American College of Greece

Founded in 1875

International in origin and outlook, Deree - ACG offers a distinctive academic ethos rooted in American higher education best practices and integrating American, Greek and European cultures. The College is committed to extending educational opportunities to qualified students of diverse backgrounds and to active, mutually supportive interaction with its alumni. Deree faculty, dedicated to teaching, scholarship and service, cultivate a rich intellectual campus environment, serve numerous external constituencies and contribute to their professional disciplines. Through undergraduate and graduate curricula in the liberal arts and sciences, business and selected professions, as well as through its cocurricular programs, the College enables students:

• to define and pursue their educational and professional goals,
• to develop as critical and creative thinkers and socially aware individuals, and
• to prepare for lives of reflection as well as responsible civic engagement in a complex, global world.

Athens

As the home of Plato’s Academy and Aristotle’s Lyceum— the two greatest schools in antiquity – Athens can justifiably claim to be an incomparable setting for an institution of higher learning. The birthplace of Western culture and civilization, Athens has come to exemplify what men and women can achieve when allowed to exercise their minds and imaginations in a free and open society.

From its mythical founding by the legendary King Theseus, who united the independent towns of Attica and forged them into a single city-state, or polis, Athens became the center where the Hellenic ideals of the spirit of inquiry, critical thinking, rational discourse, and artistic expression were realized. Socrates, Plato’s mentor, engaged his fellow Athenians in dialogues, recorded by his pupil, that constitutes the quintessence of philosophical questioning and reasoning. The great tragic and comic poets, Aeschylus, Sophocles, Aristophanes, and Euripides, produced their supreme works of dramatic art in this city. Thucydides opened his enduring history by proudly identifying himself as an Athenian.

The idea of demokratia, or rule by the people, had its origins in Athens, with the political reforms of sage lawgivers and rulers such as Solon and Cleisthenes. The Athenian ideal was later articulated with surpassing eloquence by the statesman Pericles in his inspired Funeral Oration, where he paid tribute to his city as the “school of Hellas,” which, because of its noble institutions, concern for culture and education, love of discussion, sense of duty and honor, and passion for justice, was a model for the world and “worthy of admiration.”

During the Athenian Enlightenment of 2,500 years ago, the city nurtured such master architects as Ictinus, Callicrates, and Mnesicles, and the immortal sculptor Phidias. They adorned the hill overlooking the city, principal sanctuary of the patron goddess, Athena, with the magnificent Parthenon and Erechtheum temples and the splendor of the Propylaea.

The Acropolis, the “high city,” is Athens’ monumental legacy to the West and to the world and, having withstood the vicissitudes of time and events, remains an ageless testament to human excellence and to the “glory that was Greece.”

Today, Athens is the capital of a country that is a member of the European Union. Greece now belongs to a greater political and geographic entity and partakes in an expanded and hopeful vision. Athens is a culturally invigorating urban center of museums, theaters, and music halls and has become a twenty-first century computerized metropolis, with a state-of-the-art metro system and airport, all ages removed from the antique days of archons and triremes.

And yet, when peoples and nations wended their way to Greece for the Olympic Games of 2004, the past echoed, as Athens once again proclaimed, in the proud words of Pericles: “We throw open our city to the world.” And when the time came for the city to be thrown open, Athens showed the world what it can see nowhere else.

Introduction - The College
The American College of Greece (ACG) is the oldest and largest, comprehensive, independent, American sponsored college in Europe, currently enrolling over 4000 students in all of its educational divisions. The College’s 34,000 alumni reside in 40 countries and are prominent in public life, business, the arts, and the professions.

Founded in 1875 by American Christian missionaries as a primary and secondary school for girls in Smyrna, Asia Minor, the College expanded into higher education in 1885. Social upheaval in Asia Minor forced its closure in 1922, and the College reopened in Athens in 1923 at the invitation of Eleftherios Venizelos, the internationally renowned statesman. In 1936 the School was named Orinda Childs Pierce College in memory of the wife of a benevolent supporter.

During the 1960s, the College changed significantly. Pierce College (PIERCE) was incorporated in the state of Colorado in 1961 and was authorized to grant bachelor of arts and bachelor of science degrees. In 1963 the secondary school division of Pierce College was recognized by the Greek government as the equivalent of a national public school. In 1965 the College moved to a sixty-four acre site in Aghia Paraskevi, a northeastern suburb of Athens. The Aghia Paraskevi campus, situated on the western slopes of Mt. Hymettus, some ten kilometers from the center of Athens, offers a magnificent view of the sprawling city. Its original buildings were designed by the renowned Greek architect, Constantine Doxiades. The College’s first baccalaureate degrees were awarded in 1969, and in 1973 in honor of a generous benefactor from Chicago, William S. Dereen (born Derehanis in the village of Ambelias in the prefecture of Messenia in the Peloponnese) the College’s undergraduate division was renamed Deree College (Deree).

Today Deree offers undergraduate programs through three schools (Business; Fine and Performing Arts; Liberal arts and Sciences) and graduate programs through its Graduate School of Arts and Sciences. In 2011, the College implemented a partnership with the Open University (UK) through which all undergraduate programs are validated. Students are able to complete both the “American” degree and the British honours award within the typical timeframe for US undergraduate degrees (i.e. four years), thereby being assured the professional rights provided by European Union law.

In 1971, a Downtown Athens campus was established to broaden the College’s commitment both to business education and the professional community in Greece. With the help of a challenge grant from the United States Agency for International Development (USAID), funds were raised in both Greece and the United States from businesses, parents, alumni, trustees, and friends to build a five-story facility in Ambelokipi, near the city’s business center, in 1993. In 2012 the Downtown campus became the home of ALBA Graduate Business School at The American College of Greece (ALBA).

Although a majority of ACG’s undergraduate and graduate enrollment is Greek, students come from more than 50 countries. Admissions standards are competitive, without regard to gender, sexual orientation, race, creed, color, or economic background. English is the language of instruction.

ACG’s undergraduate and graduate programs are based on the American system of higher education. ACG degrees do not correspond to those granted by Greek educational institutions and are not recognized by Greek authorities as the equivalent in all respects of Greek public university degrees. Nonetheless, ACG undergraduate and graduate degrees are internationally recognized as the equivalent of corresponding degrees granted by colleges and universities accredited in the United States. As a result of provisions related to Article 16 of the Greek Constitution, which provides that all university-level education in Greece must be public (i.e. sponsored by the Greek State), ACG, as an independent institution, is recognized by the Greek government as a College.
Academic Calendar

Weekly Schedule and Class Periods

The Academic Calendar is issued each academic year by the Registrar, please visit the College website for the most updated calendar.

Instruction time for each three US credit hour course (15 UK credits) is 150 minutes per week, normally distributed as follows: for courses scheduled on Monday, Wednesday, and Friday, each instruction period is 50 minutes; for courses scheduled on Tuesday and Thursday, each instruction period is 75 minutes. On Mondays and Wednesdays, classes continuing after 6:00 p.m. follow the 75-minute Tuesday - Thursday schedule.

For each laboratory session carrying one US credit (5 UK credits), the instruction time is 75 minutes. Laboratory sessions are scheduled Monday, Wednesday, or Friday for one-and-a-half class periods, or Tuesday or Thursday for a full class period.

Tuition and Fees
Payment Procedures
Tuition and fees payment for semesters is payable in two installments. The first payment (deposit) has to be made at least 5 working days before the registration dates. The balance should be settled 40 days from the first day of classes.

Tuition and fees payment for sessions is paid in full at least 5 working days before the day of registration.

Tuition is charged for all courses, whether taken for credit or non-credit.

The College reserves the right to adjust tuition and other fees as the need arises. No such changes will apply to the semester or session in progress, and every effort will be made to maintain the same fees throughout any given academic year. The College will try to announce changes well in advance of the effective dates of change.

Requests for exemption from the above procedure must be made to the Business Office at least one week before registration. Exemptions may be granted for semesters but not for sessions and not for the student's first semester at the College. Specifically, deferment of payment may be granted for up to 50 percent of the fees due for the semester. Students granted such deferments will be issued a payment-due date by the Business Office and will be required to certify by signature their agreement to abide by the terms stipulated.

Students who have an unpaid balance at the close of a semester will not be issued official records of any kind and will not be permitted to register again until the debt is paid. Students who have defaulted on such payments will be ineligible for further deferments.

Admissions Deposit
An admissions deposit is required of all students accepted for admission. The deposit is credited toward the first full semester's tuition and is ordinarily non-refundable. Failure to pay the deposit by the required date results in cancellation of admission.

Refunds
Tuition is refundable to students who withdraw from courses for whatever reason on the following pro rata schedule:

Semester
During the late registration and change-of-course period ............................................ 75%
(25% of the total amount will be retained)
From the first day after the late registration period through the second week of classes ............. 50%
Thereafter .................................................................................. no refund.

Sessions
During the late registration and change-of-course period ............................................. 75%
Academic Policies
Governing the US Degree
Academic Policies Governing the Deree US Degree

Regulations, Policies and Procedures
These Academic policies are largely common for both the Deree US degree and the Open University validated award. Differences are pointed out in relevant sections.

The term ‘the College’ refers to Deree – the American College of Greece. ‘the University’ is used for references to the Open University, UK. ‘Course’ designates a unit or module of study and ‘program’ is used to refer to the courses taken by a student in fulfilling the requirements of the academic award for which she or he is registered. ‘Faculty’ indicates academic staff, and ‘staff’ non academic staff. The term ‘re-enrolment’ is used when a student takes a course having previously withdrawn from that course prior to the assessment having taken place. The term ‘resit’ is the re-assessment of a student after an initial failure in one or more assessment elements for a course, a retake refers to the opportunity to repeat a course (with attendance) if a student has failed a resit. Resits are administered on the American College of Greece campus premises only.

Any change to these regulations must be considered and endorsed initially by the Committee on Academic Standards and Policies (CASP) and then by the Academic Council and the Deree Faculty Assembly. Agreed changes will require the approval of the Open University UK (for regulations pertaining to validated courses and programs) and the Deree Faculty Assembly. The Faculty Assembly also approves all proposed changes that refer to the programs leading to the Deree US degree.

Any changes to the academic regulations are normally introduced at the start of an academic year. In exceptional circumstances, it may be necessary to introduce a change during the year. In these circumstances, the students affected by the proposed change will be consulted, and the Committee on Academic Standards and Policies (CASP) and the Academic Council must satisfy themselves that students will not be disadvantaged by the change.

Occasionally a program may require a variation from these regulations. In such a case, the required variation concerning a validated course or program must be specifically approved by the University at the initial validation or subsequent revalidation of the program.

All student petitions for exemption must be submitted to CASP unless it is otherwise provided in these regulations.

In the US system of education, the cumulative index (CI) is the average of all the grades of all semesters of study.

Admissions
Applications for admission are accepted throughout the year. Recommended application deadlines for Deree – ACG are as follows:

- **Fall Semester** July 25
- **Spring Semester** December 15
- **Summer Session I** April 15
- **Summer Term** April 15
- **Summer Session II** May 15

Deree’s admissions process is selective. Each application is reviewed for its individual merits and qualities.

All applications and supporting materials are retained by the Office of Admissions; once submitted no materials or copies of them will be returned, nor copies given, to the applicant. All materials are kept on file, under conditions of security and strict confidence, as provided by the data protection legislation and, if the admitted applicant is not registered they remain active for one year before they are destroyed. Applicants are entitled to the rights provided under article 11-14 of the Greek Law No 2472/1997.

Please note that if any of the documents submitted with the application are not in English or Greek, they must be accompanied by certified English or Greek translations. Be sure that your application contains both the original documents and certified translations, or legally certified copies of such documents.

There is no application fee.

For international students (i.e., students from non-EU countries) there is an international student fee due when the student registers.

The Admissions Process
To qualify for admission to the academic programs of the College, applicants must demonstrate that they possess the appropriate qualifications to enable them to be successful in the program of their choice. To this end, applicants must meet the following requirements:

All admitted students must possess a secondary education completion Certificate such as a Greek High School Apolyterion, an International Baccalaureate Diploma, a French Baccalaureate, a German “Abitur” or an equivalent secondary education completion Certificate as defined in the NAFSA Guide to World Education Systems or must have passed at least 8 IGCSE/GCSE/GCE subjects. Admitted students who have completed their secondary education in a school in Greece that does not award an Apolyterion must possess a secondary education completion Certificate from one of the Schools that are officially recognized by the Greek Ministry of Education.

Moreover, the standard minimum average grade entry requirement shown on the secondary education completion Certificate as defined above is the following: 14/20 in the Greek Apolyterion, an overall average grade of 2.5/4.0 in a US style school, 24 and above in the International Baccalaureate or the equivalent of any other educational grading system. Applicants whose grades are between 12/20 and 13.99/20 on a Greek Apolyterion or the equivalent grades for students who hold a secondary education completion Certificate as defined above, may be admitted to the College on a Provisional basis.

Students admitted on a provisional basis will be required to fulfill the following conditions in order to be allowed to continue on their selected major after the completion of one academic year after their acceptance to Deree.

- Meet with an assigned advisor at the Academic Advising Office at least twice every month or whenever the advisor thinks it is necessary. The assigned advisor will monitor the student progress very closely and may require that they seek academic help through the Student Academic Support Services.
- The number of courses students will be allowed to register for will be determined by their English Language Placement (see section “English Language Requirements”). However, in no case will they be allowed to register for a total of more than 2 courses if placed in EAP 1002 or for more than 4 courses if placed in WP 1010. Students with provisional status who are placed in EAP 999, EAP 1000, EAP 1001 must first complete their English for Academic Purpose courses before they begin taking College level courses along with EAP 1002.
- Students who have successfully completed only the EAP sequence during their first academic year will be able to continue.
- Achieve a minimum cumulative average (CI) of at least 2.0 after one academic year.
- After the completion of one academic year on provisional status, students’ performance will be reviewed by
the Committee on Academic Standards and Policies (CASP), which will decide on student progression and/or new conditions.

- Students on provisional status are subject to the College probation policy (see section 'Academic Probation').

The following is required for all freshmen applicants:
1. A completed application form.
2. A letter of recommendation from an academic teacher or professor.
3. An official secondary school transcript and an official copy of a secondary diploma, both legally certified.
4. A certified copy of their identification card for Greek citizens or a valid passport for non-Greek citizens.
5. An interview with an admissions counselor.
6. Evidence of proficiency in English.

Evidence of Proficiency in English
All applicants must demonstrate proficiency in the English language either by taking the College’s English Placement Test (Oxford Online) or by submitting any evidence derived from one of the following tests.

- Pearson test of Academic English (PTE Academic): 58 or greater
- Michigan State University Certificate of Language Proficiency (MSU CELP)
- Michigan Proficiency Certificate
- Cambridge Proficiency Certificate
- Cambridge Advanced English (CAE) with Grade A only
- International Baccalaureate Diploma
- IELTS: (academic) 6.5 or above
- SAT: 450 or above
- ACT: 18 or above
- TOEFL (paper based): 567 or above
- TOEFL (computer based): 227 or above
- TOEFL (internet based): 87 or above
- GCE higher level English: Grade C or greater
- Oxford Online Placement Test: 99 or above

Applicants presenting a TOEFL score should arrange to have the test results sent directly to the Office of Admissions by the Educational Testing Service (ETS). The College’s Institution Code Number is 0925. TOEFL scores are valid for 2 years.

Students may also qualify to take WP 1010 by submitting evidence of fluency based on graduation from an English speaking secondary school or program.

The above listed grades qualify the student for placement directly into WP 1010. Applicants who do not qualify for WP 1010 but who otherwise show academic promise may be admitted conditionally (see section 'The Admissions Process') and placed in the English for Academic Purposes Program (see section 'Academic Writing').

Registering for the Placement Test
Upon submission of their application to the Office of Admissions, students who have not demonstrated proficiency in English, will also register for the College’s English Placement Test. The test is free of charge.

The College uses an online placement test, designed to measure test takers’ ability to function communicatively at different levels of English language proficiency according to the Common European Framework of Reference (CEFR).

The results of the test, which are placed in the student’s folder, determine which English course students will be required to take and they are not communicated externally.

Student Visas
In accordance with Greek law, citizens of countries that are not members of the European Union or Schengen Agreement who wish to study in Greece must obtain a student visa or residence permit before enrolling at the College. Please note that you will not be able to enroll as a student at Deree - ACG until you have a valid student visa or residence permit.

The Study Abroad Office can provide information and paperwork for the issuance of the student visa upon request. Applicants for admission are advised to verify the specific requirements for nationals of their country through the local Greek consular authorities. In order to remain in Greece, students who have valid student visas must then seek a residence permit. The College will provide assistance in obtaining your residence permit.

Permanent Records
The Office of Admissions creates files for students at the point that they apply for admission to Deree. In the course of the students’ studies, their files are updated with documents and official records indicating students’ status at any given time in their academic careers. All documents submitted by applicants before their first registration or by students throughout their studies are not returned. Students will not receive copies of documents they have already submitted to Deree. As long as the student is enrolled at Deree - ACG, the file remains in the Registrar’s active records. Following graduation, these files are kept in storage for at least one year after completion of their studies. The files are kept in accordance with the provisions of the data protection legislation. Students and/or graduates are entitled to exercise the rights provided to them by article 11-14 of the Greek Law No 2472/1997.

Transfer Students Admission Procedure
Applicants who have started their college studies elsewhere and now intend to become candidates for a degree at Deree - ACG are required to submit the following.
1. A completed application form.
2. One letter of recommendation from an academic teacher/professor.
3. An official college/university transcript with catalog. Transfer students who have completed fewer than 30 credit hours must also submit their high school diploma and high school transcript (see also section “Admission with Credit”).
4. Evidence of proficiency in English. Non-native speakers of English who have not completed 30 semester credits or the quarter system equivalent (three quarters) and who do not have a secondary school diploma from a school where the language of instruction is English must meet the English language admissions requirement (see “Academic Writing”).
5. A certified copy of their identification card for Greek citizens, or of a valid passport for non-Greek citizens.
6. Candidates are also required to schedule an interview with an admissions counselor.

Students who transfer must be in Good Academic Standing at their previous institution. Students who wish to transfer from U.S. institutions must have a cumulative index (CI) or overall Grade Point Average (GPA) of 2.75 or above. Transfer students must contact the Academic Advising Office and the Validation Office after they are admitted to the College.

There is no application fee.
Academic Policies Governing the Deree US Degree

For international students (i.e., students from non-EU countries) there is an international student fee due when the student registers.

Non-Degree Students
A student's status is determined on the basis of eligibility for or intention to pursue a degree at Deree – ACG. A degree student is one who is working toward a degree; a non-degree student is one who is not working toward a degree.

The following are required for all non-degree applicants:
1. A completed application form.
2. An official secondary school transcript and an official copy of a secondary diploma, both legally certified.
3. An official college/university transcript from an accredited institution.
4. A certified copy of their identity card for Greek citizens or a valid passport for non-Greek citizens.
5. An interview with an admissions counselor.
6. Evidence of proficiency in English.

A non-degree student should subsequently decide to pursue a degree at the College, he or she must request a change of status at the Advising Office. The student will be eligible to follow the Deree US degree. No more than 32 US academic credits earned in non-degree status may be applied to degree status toward the US degree unless special permission is granted by the respective academic dean and CASP. In case the student wishes and is eligible to pursue in addition to a Deree US degree an Open University validated award, (s)he must follow all relevant rules in effect at the time (s)he becomes a degree student. Please note that a student may change status from non-degree to degree or vice versa only once and only to the Deree US degree program.

Non-degree students who become degree students must follow the degree programs in effect at the time they become degree students.

Students pursuing degrees at other accredited institutions who wish to take courses at Deree – ACG and transfer the credits back to their home institutions may enroll as non-degree students. They should submit their application form with the required tuition fee(s) to the Office of Admissions. They should also submit a transcript from an accredited institution as evidence of being in good academic standing.

Non-degree students must observe all College academic requirements, including prerequisites and course levels.

Pre-Collegiate Program
Every summer, 2nd Lyceum class students are offered the unique opportunity of taking a College course at Deree – The American College of Greece as non-degree students.

The Pre-Collegiate Summer Program, which takes place during Summer Session II, offers students a variety of college level courses to choose from. Upon successful completion of the course, they can earn academic credit for a future Bachelor’s degree. During their participation in the program, they can take advantage of all benefits enjoyed by Deree students including access to the library and use of the world-class athletic facilities.

Students who decide to continue at Deree for their Bachelor’s degree may be eligible for the Merit Scholarships.

The following are required for all Pre-Collegiate program applicants:
1. A Completed Pre Collegiate Application Form
2. 2nd lyceum official high school transcript(s)
3. Evidence of proficiency in English (see section Evidence of Proficiency in English)
4. Certified copy of state identification card

Candidates will attend an interview with a designated College representative after all application materials have been submitted.

Once a student who has completed the Pre-Collegiate program, wishes to enroll at Deree – The American College of Greece, after receiving the Lyceum Apolyterion, then he/she needs to apply as a Readmitted from the Pre-Collegiate program student, and follow the admissions process for degree-seeking students (see section The Admissions Process).

Dual Degree Programs
All degree seeking students entering Deree- The American College of Greece (Deree-ACG) will be required to register for both the US, NEASC accredited bachelor’s degree, and the European – UK award validated by the Open University.

The following may be exempted from this rule:
- a) Students pursuing parallel studies at the Greek University/TEI.
- b) Transfer students who have transferred 92 US credits or above applicable to their program.
- c) Readmitted students who have interrupted their studies before 2010 will have the option of pursuing only a Deree US degree.

Students who wish to be considered for these exemptions must petition the Committee on Academic Standards and Policies (CASP) through the Student Success Center during the first month after their initial registration at Deree.

Admitted students with special needs, for whom the Educational Psychologist recommends significant accommodations, can request to be exempted from completing the OU validated award or opt out of the OU validated award and switch to a Deree only degree.

The purpose of such a request is to allow for accommodations that are not easily furnished within the OU program requirements but could be furnished within the Deree US degree requirements. The application process must be initiated by the student who will submit all supporting documentation to the College Educational Psychologist. All the following steps must be completed before a decision is reached:
- a) Application by the student on a Standard Petition Form with all supporting documentation attached
- b) Evaluation by the Educational Psychologist
- c) Approval by the Disability and Learning Differences Committee for eligibility
- d) Recommendation letter by the student’s academic advisor for eligibility regarding a special program for the student
- e) Approval by the Department Head of the student’s academic area (major). Such approval must be accompanied by a detailed report on how the US Deree degree (e.g., replacement of courses or various special arrangements) can accommodate the student’s needs while ensuring that program learning outcomes are met.
- f) Approval by the Committee on Academic Standards and Policies
- g) Approval by the Chief Academic Officer

After the Chief Academic Officer has approved the request, the student will be required to follow the specific program requirements set for him/her as well as all other requirements for graduation in order to be awarded the US Deree degree in the selected and approved major(s).
Undergraduate study at Deree - The American College of Greece requires in principle four years (eight regular terms) of continuous and mandatory attendance.

The Deree US program requires that students complete 121 US credits towards a bachelor’s degree. The Open University validated programs require that students complete 360 UK credits toward an honors bachelor’s award specified in the relevant curricula (one US credit = five UK credits.) These 360 credits correspond to a total of 24 courses which are evenly distributed in three levels 4, 5, and 6 (each comprises 8 courses.) Although direct comparisons are difficult to make between UK or US credits and European Credit Transfer and Accumulation System (ECTS), broadly and at any given level, 15 UK credits or 3 US credits would be equivalent to 7.5 ECTS credits.

**Admission with Credit**

Advanced placement may be attained by successfully meeting any of the following standards:

1. For subjects passed at the GCE 'A' level (except in languages) with a minimum grade of C: up to 6 US credits per subject for the equivalent Deree - ACG courses (applicable only toward the Deree US degree).
2. For subjects passed in the International Baccalaureate higher level (except in languages) with a grade of 4 or better: up to 6 US credits per subject for the equivalent Deree - ACG courses (applicable only toward the Deree US degree).
3. For certain standard external examinations taken before entering the College, up to a limit of 32 US credit hours:
   a. For subjects passed in the US Advanced Placement Program of the US College Examination Board (except in languages) with a grade of 4 or better: up to 6 US credits per subject for the equivalent Deree – ACG courses which are not included in the student’s Open University validated program.
   b. For the College-Level Examination Program (CLEP-Subject Examinations): up to 6 credits for the equivalent Deree - ACG courses not included in an Open University validated program with a minimum score of 50.

Students who will receive credits for advanced placement must contact the Academic Advising Office and the Validation Office before their first registration at Deree - The American College of Greece.

**Credit Transfer**

Students who have completed all or part of the requirements of a degree validated by a UK university may be granted credit towards a program leading to the Deree US degree or an Open University award. Any student wishing to be considered on this basis for credit with exemption must supply the College with evidence of the qualification(s) that she or he has obtained. This evidence will normally take the form of an award certificate (if applicable), transcript, and details of the syllabus for the student’s previous program.

**Accreditation of Prior Certificated Learning (APCL)**

Credit may also be granted to students who have completed an assessed program offered by a higher education institution that is not validated by a UK university, such as a regionally accredited US institution. Any student wishing to be considered for APCL must supply the College with evidence of the qualification(s) that she or he has obtained. This evidence will normally take the form of an award certificate (if applicable) and transcript, and details of the syllabus that she or he had followed. In addition, the College will need to establish to its own satisfaction the standard of achievement required for the qualification obtained by the student, and the reliability of the quality assurance procedures utilised by the student’s previous institution. The College reserves the right to undertake its own assessment of the student’s prior learning by setting one or more waiver examinations with credit.

**Accreditation of Prior Experiential Learning (Waiver Examinations) (APEL)**

Exemption (with credit) may be granted for learning that has been achieved outside the formal education and training system, or for learning that cannot be verified by the procedures set out in the «APCL» section. In these cases, students are required to sit one or more waiver examinations with credit. The mode of assessment to be adopted for a waiver examination is proposed by the faculty with responsibility for the course(s) from which exemption is being sought.

**Other APCL/APEL Policies**

Students can only be exempted from (or granted credit for) a maximum of 36 US (180 UK) credits for credit transfer (see “APCL” section) comprising no more than 24 US (120 UK) credits, exceptionally as may be the case in the specific programs 125 credits, e.g. Psychology, at Level 4 and 12 US (120 UK) credits at Level 5. Students cannot be exempted from (or granted credit for) courses at level 6.

The relevant department head(s) or area coordinator(s) are responsible for the approval of claims for credit with exemption. Approval should not be given without prior consultation with the Advising Office and the Validation Office. The Validation Office maintains a record of all claims that have been approved, and it is responsible for informing the Registrar. The Advising Office and the student can view the outcome of a claim through the College student management software.

Transfer credits are not granted toward College wide English course requirements for courses taken at a College/University where the language of instruction is not English. Transfer credit is not given for foreign language courses in a student’s native language except in literature.

Diagnostic examinations are mandatory for foreign languages and are given to all registered students. Credit is not awarded for APEL in foreign languages. Students are placed appropriately into foreign language courses according to the results of the examinations.

Grades are not assigned to credits awarded under the procedures described in this section. For transfer courses students must have earned a minimum grade which is equivalent to a “C” in the Deree grading scale (see section “Grades”).

**Credit by Assessment for Professional Experience**

Credit by assessment may be earned for experiential learning (professional experience) by experienced professionals* who wish to begin or complete their studies. Such credit may fulfill up to 36 US credits required for a degree.

No credit by assessment can be awarded for Level six (6) courses, except for validated internship courses.
Academic Advising

All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Academic Advising gives students the opportunity to become acquainted with rules and regulations concerning Deree College and Open University. Effective academic advising provides specific aid to students in considering and completing academic programs, but it goes beyond mere course scheduling: it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters.

The College assigns an entering freshman an advisor from the Academic Advising Office; these students along with continuing Deree students who have less than 51 credits are required to consult every semester with their academic advisor in order to be able to register for the upcoming semester/session.

Thereafter, (more than 50 credits) the advising program is faculty-based and fosters personal contact between students and faculty. Department Heads, assistant Department Heads and Area Coordinators act as educational consultants. Students however who have more than 50 credits but are on academic probation (CI less than 2.00) are still required to make an appointment each semester with their advisor from the Academic Advising Office.

One must bear in mind that advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Residency Requirement

All students seeking a Deree US degree, regardless of number of credits accumulated through advanced placement, transfer, parallel studies, see “Parallel Studies” section, or semester/year abroad, must meet Deree’s residency requirement by completing at least 36 US (180 UK) credits (beyond the introductory 1000-level courses) from the area of concentration (at least four Level 5 courses and eight Level 6 courses) of their major(s) at DEREER - ACG. Moreover, students must complete the capstone course(s) of their major(s) at DEREER – ACG and complete their last 30 US credits at Deree College.

Full-Time and Part-Time Students and Student Course Load

For academic purposes, all students are assigned either full-time or part-time status. A full-time student is one who registers for at least 12 US credit hours per semester, a part-time student is one who registers for 11 or fewer US credit hours. Students who want to take more than five courses per semester for credit or non-credit must have a completed minimum of 30 US credit hours with a cumulative index (CI) of 3.00 or above. In any event, students may not register for more than six courses and no more than four of these should be toward their validated award in any given semester. In addition, students should not register for more than two courses in summer sessions, of which no more than one course should be toward their validated program. Students should not register for more than 120 UK credits toward their validated award in any given academic year.

Students are strongly urged to plan their schedules with their advisors appropriately if they wish to fulfill the requirements of their major within an optimum period of time.

Student Classification

In the programs leading to the Deree US degree, students are classified according to the number of US credits accumulated as follows:

- Freshman, 0-29
- Sophomore, 30-59
- Junior, 60-89
- Senior, 90 and above

This classification does not apply toward the Open University validated award where student classification relates to Levels 4, 5 and 6 (see section “Credit Structure and Award”).

No credit by assessment can be awarded for more than four (4) Level 5 courses.

The method of assessment, the number of credits to be earned as well as the course(s) for which experiential credit will be given will be decided by the relevant academic department(s) depending on the disciplines for which credit has been requested. The academic department of the student’s declared major will report the results of the assessment to the relevant School Dean for approval. The Office of the Dean will send the final approved evaluation to the Registrar’s Office.

Once the application is approved a fee of 90 Euros per credit hour to be assessed will be charged to the student.

Students must submit an application in order to take advantage of the Credit by Assessment program. The application includes an updated resume and a statement that describes knowledge and skills gained through experience-based learning and how they relate directly to course(s) for which credit requested. Students may also submit certificates of training, work samples, and other documents appropriate as evidence of equivalent to college learning.

Evaluation of Transfer Credits Process

The transfer credit process begins immediately after the student’s first registration and only after the student has submitted both the official transcript(s) and the course syllabi or descriptions of substantial length from official publications of the institution. Course syllabi may be required for a better evaluation of the student’s completed prior academic work. All submitted documents not in English or Greek must be accompanied by certified English or Greek translations and must be submitted to the Validation Office before the end of the student’s first semester. The assessment process of the student’s prior academic work will be completed no later than two months (excluding vacation period) after the student has submitted a complete folder of the required documents as stated above.

Students cannot be granted credit (or be exempted from) courses at Level 6 and/or for more than 4 courses (i.e. 12 US credits or 60 UK credits) at Level 5. All transfer credit requests are handled by the Validation Office. All final decisions on transfer credit are made by the Academic Departments.

Parallel Studies (Degree Seeking Students)

Degree seeking students who are attending another accredited higher education institution during the time they are enrolled at DEREER - ACG must abide by the “Admission with Credit” section. Parallel studies degree seeking students may request from the Academic Departments and via the Validation Office approval (pre-authorization) of courses they wish to take at another accredited institution of higher education in parallel with their studies at DEREER. However, regardless of credits transferred, these students must meet the residency requirement of DEREER (see section “Residency Requirement”).

Certificate Minor Program

Students or graduates of accredited institutions who do not want to follow a Deree major, may complete a Certificate Minor program. Those students must complete all the requirements of one of the Minor(s) offered at Deree in order to be awarded a Certificate. (See also section Minor). Students who follow the Certificate Minor program are non-degree students.

Deree students or graduates may follow a minor as part of their degree. The minor will be printed on their transcripts.

Student Classification

In the programs leading to the Deree US degree, students are classified according to the number of US credits accumulated as follows:

- Freshman, 0-29
- Sophomore, 30-59
- Junior, 60-89
- Senior, 90 and above

This classification does not apply toward the Open University validated award where student classification relates to Levels 4, 5 and 6 (see section “Credit Structure and Award”).
Academic Policies Governing the Deree US Degree

Academic Writing
The College has established certain requirements in English language proficiency to ensure that students are adequately equipped linguistically to pursue college-level studies. All students must abide by the College’s policy regarding placement in English language and writing. For specific information on English proficiency credentials, please see Admissions “Evidence of Proficiency in English”.

All students are required to take the WP 1010 LE Introduction to Academic Writing as soon as they qualify for it and to complete the Writing Program sequence WP 1010, WP 1111, and WP 1212 without interruption. In case of withdrawal from one of those required courses, the course must be taken the following term.

Students who do not qualify for WP 1010 are required to follow the English for Academic Purposes Program (EAPP) by enrolling in EAP 999, EAP 1000, EAP 1001, or EAP 1002 (all bearing non-graduation credit), depending on the student’s level of English. Students enrolled in EAP 1001 and EAP 1002 may take up to two other courses concurrently after securing the approval of an advisor from the Academic Advising Office. Students may not take EAP 999, EAP 1000, EAP 1001, or EAP 1002 more than twice.

Students who do not satisfactorily complete an EAPP course after registering for it a second time will be dismissed from the College. They will be readmitted to the College only if their score on any one of the English language tests accepted by Deree (see “Evidence of Proficiency in English”) qualifies them for direct admission into WP 1010, and if their readmission is approved by the Committee on Academic Standards and Policies. Those students may also retake the College English Language Placement Test no sooner than one semester after their second EAPP course failure and only once every six months.

Non-graduation credits for preparatory courses (EAP 999, EAP 1000, EAP 1001, EAP 1002) are not transferable to a Deree degree.

Dean’s List (applicable toward the Deree US degree only)
Full-time degree seeking students who attain high academic standing in any semester through a GPA of 3.4 or above are placed on the Dean’s List, which is noted on the students transcript, for that particular semester.

Academic Probation (applicable to the US Deree degree only)
If a student’s CI remains below 2.00 for more than two consecutive semesters and sessions, at the end of this period, the student’s record will be examined by the Committee on Academic Standards and Policies (CASP). The student will be dismissed for at least one semester and session unless his/her performance has been affected by mitigating circumstances. A dismissed student may be readmitted only once in order to raise his/her CI to at least 2.00. CASP will determine whether the student can be readmitted as well as the conditions for readmission to the US Deree degree.

If a student is required to withdraw from an Open University validated award (OUva) but his/her CI is at least 2.00, s/he may continue toward the Deree US degree provided that s/he will fulfill all the requirements of that degree. All Deree students need to have attained a CI of at least 2.00 in order to be awarded a US Deree degree.

The probation policy applies fully to those students who have been admitted on a provisional basis.

CASP will examine the academic record of students on probation who return from a period of deferral of studies and set conditions for the continuation of their studies or their dismissal.

Students are in good academic standing when their CI is 2.00 and above.

Credit Structure and Awards
Students receive academic credit for the achievement of the learning outcomes of a course. A credit value, specified in terms of the number of credits, is assigned to each course. In the UK system, the basic unit of credit relates to 10 hours of notional learning time. Notional learning time is defined as the reasonable measure of the time it would take a learner, adequately supported, to achieve the learning outcome of the activity; it includes instructional hours, and the time spent in assessment and independent study.

In the US system, one credit hour is roughly equivalent to one hour of instruction per week for 14 weeks (or about 700 minutes). Most courses carry three credit hours. Some courses, however, may require additional work, such as laboratory sessions, tutorials, internships, recitation sessions, or field trips. In the College’s curriculum, one US credit equals five UK credits.

For the purpose of the Open University validated award, program courses are distributed into levels 4, 5 and 6. Although these levels do not apply toward the Deree US degree, these courses simultaneously fulfill Deree US degree requirements. However, all programs leading to the Deree US degrees have additional credit requirements.

The programs validated by the Open University comprise courses generating credit at Levels 4, 5 and 6. Levels are conceived progressively, with increasing demands being placed upon learners as they undertake learning at higher levels. The College has adopted generic credit level descriptors as guidance for the design, delivery and assessment of courses.

Learning accredited at each level will reflect the student’s ability to:

Level 4
Develop a rigorous approach to the acquisition of a broad knowledge base; employ a range of specialised skills, evaluate information using it to plan and develop investigative strategies and to determine solutions to a variety of unpredictable problems; operate in a range of varied and specific contexts taking responsibility for the nature and quality of outputs.

Level 5
Generate ideas through the analysis of concepts at an abstract level with a command of specialised skills and the formulation of responses to well defined and abstract problems; analyse and evaluate information; exercise significant judgement across a broad range of functions; accept responsibility for determining and achieving personal and/or group outcomes.

Level 6
Critically review, consolidate and extend a systematic and coherent body of knowledge utilising specialised skills across an area of study; critically evaluate new concepts and evidence from a range of sources; transfer and apply diagnostic and creative skills and exercise significant judgment in a range of situations; accept accountability for determining and achieving personal and/or group outcomes.

The Open University awards offered by the College are Honours awards. In addition, exit awards are offered: Ordinary degrees leading to the BSc Ordinary and BA Ordinary Awards, the Diploma of Higher Education (DipHE) and the Certificate of Higher Education (Cert HE).

* Exit awards are not progress awards; they are awarded to students who find themselves unable to complete the requirements of an Honours award.

Deree - The American College of Greece awards US Bachelor of Science (BS) and Bachelor of Arts (BA) degrees upon successful completion of the particular requirements of a program comprising 121 US credits.

Course Level and Number System

All courses are one-semester courses and are assigned a four-digit number. In non Open University validated courses, the first digit indicates the classification of the course in relation to rigor; the second, the number of prerequisites, and the third and fourth, the Registrar’s designation. Open University validated award course levels are designated where appropriate according to the “Credit Structure and Awards” section.

Non Open University validated courses at the 1000-level are designed primarily for freshmen. 2000-level courses are designed for sophomores but may be taken by qualified freshmen. 3000-level courses are intermediate, normally open to students who have completed 1000- or 2000-level courses in the same area. 4000-level courses are upper level, open chiefly to seniors, but also to qualified juniors. These levels do not correspond to Levels 4, 5 and 6 of the Open University validated courses (see above).

Inbound Study Abroad students are advised to follow the following course selection advice. Level 4 courses are suitable for sophomores, juniors, and seniors. Level 5 courses are suitable for juniors, and seniors. Level 6 courses are suitable for advanced juniors, and seniors. Non level designated courses are normally open to freshmen, sophomores, juniors, and seniors.

The College may, at times, offer courses that are not included in the catalog. Such special topics courses appear in the schedule of classes with a special topic designation letter “X” added to the course rubric (e.g., MGTX).

The numbers following the course description indicate class hours per week in a normal semester, laboratory, internship or studio hours, and semester credit hours. Thus, 3/2/4 means three hours of class, two hours of laboratory or studio, and four US credit hours for the course. A schedule of classes is available through student on line registration web interface. The specific requirements of the various disciplines are listed in the program of those disciplines.

Prerequisites

Regardless of the program followed, students are not permitted to register for courses for which they have not met the prerequisites as stated in the latest College catalog, whether in the form of credits earned, credits transferred, APCEL, APEL (see Admission with Credit section) or waivers. Should a student be enrolled on a course for which she or he has not met the prerequisite(s), his or her registration for that course will be cancelled by the Registrar’s Office. The number of prerequisites for a course is indicated by the second digit of the course rubric.

Directed Study

Students must consult with their advisor regularly and receive instructions as to their schedules each semester and session. The College expects that students will follow their advisor’s guidance; otherwise they will potentially risk not having fulfilled their programs’ requirements by the desired date of graduation. In very exceptional cases, students may register for the course they need in order to fulfill requirements in their major under Directed Study, which is given on an individual basis upon the agreement of a supervising instructor. The student must submit a petition to the Registrar’s office bearing the signatures of the instructor who will supervise the Directed Study, the advisor, and the academic dean who will closely scrutinize it with regard to the student’s justification for not having taken this particular course when it was offered. The credits carried must be equal to those of the regular course, and the hours of supervised study must be equal to the regular hours of instruction. To be eligible for Directed Study, students must be in good academic standing and must have met the prerequisites for the required course.

Supervised Work Experience (Internships)

Specific programs may require supervised Work Experience that awards academic credit in the context of a specific course in the curriculum. The number of credits to be earned is specified by the particular program. Students must consult with their advisors in order to make relevant arrangements.

Auditing

To audit a course is to attend classes without taking the course for credit. Upon the recommendation of the student’s advisor, the approval of the instructor concerned and CASP, students may register to audit courses. Auditing is permitted only for courses that are not part of the student’s degree program. Audited courses are subject to regular tuition fees and follow the College’s calendar. The designation NC (Non Credit) is entered on students records for audited courses provided the attendance requirements have been met; otherwise, a W (Withdrawal) is recorded. The same course cannot be retaken for credit.

Registration Policies

Students will register for a non-conferrable Open University award once they have achieved the prerequisites that will enable them to commence their studies at Level 4. For the purpose of initial registration this award will be BA Combined Studies. On completion of their studies at Level 4, students will transfer their registration to one of the conferrable Open University validated awards.

For an Open University award, students may remain registered with the University for a period of three years beyond the expected date of graduation. If a student wishes to complete a program of study after this date she or he must re-register and pay the appropriate fee. The maximum period of registration for an Open University validated award is ten years.

Students should consult with their advisers if they wish to defer their studies, withdraw from a course, or to transfer registration from one course or award (major) to another. Applications for deferral, withdrawal or transfer should then be lodged either with the Registrar’s Office or the Student Success Centre. Applications are then considered by the Committee of Academic Standards and Policies (CASP). Its decisions will be governed by the following regulations:

Students are permitted to change a course within the first two days of teaching. Beyond this period, students may withdraw from a course within the first two weeks of teaching whilst retaining the right to re-enroll in the said course in the future. Changes after this deadline will only be considered in exceptional circumstances. Students
shall not be permitted to withdraw from a course and then subsequently re-enroll in a course after the submission or completion of the first summative assessment for the course or courses concerned.

The maximum number of retakes allowed in a program leading to an Open University award is ten (10). If a student fails a validated course more than two times s/he may be required to withdraw from the OU validated award unless CASP has accepted the student’s petition for mitigating circumstances. The final decision is made by the Board of Examiners. Students have the option of using some of the 10 retakes for non validated courses. However, the total number of retakes allowed toward both the Deree US degree and the OU validated award is 10. When students retake a course, they are required to submit and be assessed on new assessments not used during the previous time(s) they took the course.

The decision to permit a student to transfer from one course or award to another, will be governed by the enrolment limits on the course(s) to which the student wishes to transfer, the possession by the student of the necessary prerequisites (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards), and an assessment of the student’s ability to meet the requirements for the award for which she or he is registered.

Applications for deferral of studies should be supported by evidence of relevant mitigating or extenuating circumstances (see also section “Academic Probation”).

For the Open University award, the Validation Office will be responsible for notifying the University of the number and registration details of all students entering the programs that it has validated. The Validation Office will ensure that the University is also notified of any changes to a student’s initial registration.

Students may register for a maximum of 120 UK credits in each academic year. Students may not register for more than four (4) courses validated in their program per session. Students may not register for more than one (1) course validated in their program per session.

A student’s maximum course load for the combined Deree US degree and Open University award (or toward the Deree US degree only) may not consist of more than five (5) courses (up to 17 US credits) per semester and up to two (2) courses (up to 7 US credits) per session.

Students, who fall under the exception of not pursuing an Open University Award, must declare their major by the time they have accumulated 50 US credits.

Students admitted on a provisional basis will be required to register according to their English Language Placement test (see section 'The Admissions Process'). However, in no case, can those students register in more than four courses during a semester and in no more than one during any session.

Students who decide to change their major toward the US degree should consult with their advisor. All credits earned will be computed in the student’s average, whether or not they count toward the new major or program, the omission of any courses or grades is not permitted.

Students who want to study abroad at an affiliated institution must have attended Deree – ACG for at least three consecutive semesters, have passed WP1010, WP1111, and WP1212 with a B average, have completed a minimum of 40 US credits with an overall CI of 3.0 or above, as well as have an exemplary discipline record. Such students are considered to be exchange students and continue to be matriculating at Deree - ACG while studying abroad. Those interested must contact the Study Abroad Office at least a semester before they intend to begin their study abroad.

Certificate Minor students must submit to the College evidence of English proficiency that places them in WP 1010 or above (see section Evidence of Proficiency in English) either before they enter their second semester at Deree or before they start their study abroad program. Those students are advised to have satisfied the English language proficiency requirement before they make any arrangements for studying abroad.

Students cannot be granted credit for (or be exempted from) courses at level 6 unless a course is required in their minor. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see section "Grades"). All transfer credit requests are handled by the Validation Office.

Requirements for the US Deree Bachelor’s Degree

All programs for the US Bachelor of Arts and Bachelor of Science degrees have a Liberal Education (LE) curriculum in common. The LE curriculum comprises of specially designated core and elective courses in a variety of fields. They fulfill competencies that are considered important in providing a broad educational experience to all students across all Schools.

**Minor**

The College also offers the opportunity for students to select a minor. The specific requirements are listed in the programs of those disciplines.

**Student Matriculation and Original Program**

For the US NEASC accredited degree students have the right to complete their studies in accordance with the educational programs and requirements in effect at the time they were first admitted to the College. The maximum period of matriculation for a US NEASC accredited degree is 10 years.

If the degree requirements should change during the student’s period of studies at the College, the student may choose to complete those degree requirements in effect upon entry or any other set of requirements introduced subsequently and prior to graduation; all the specified requirements for the particular degree chosen must be met.

Students must observe all current prerequisites for courses. Students may stay informed about current prerequisites/co-requisites of courses by consulting annually the latest online College Catalog.

Re-admitted students are required to follow the program requirements in effect of their re-admission.

**Two Deree US Bachelor’s Degrees**

Students may be awarded a Bachelor of Science and a Bachelor of Arts by completing all requirements for both degrees. Students who pursue a Bachelor of Arts degree and a Bachelor of Science degree for disciplines that are in the same School will receive two US degrees.

**Major Requirements**

Students at Deree - AOD must select one of the following types of majors:

- a. single major
- b. double major

**a. Major**

The minimum requirement for a major concentration is 12 courses (36 US semester hours) in a single discipline. All students required to also pursue the validated award, must successfully fulfill the requirements of 24 courses (360 UK credits) which correspond to the UK levels 4, 5 and 6 (see also the section Residency Requirement).

**b. Double Major**

Students may do a double major by completing all requirements of two majors. Students must secure the approval of the respective academic deans. The minimum requirement for a double major is 12 courses (36 US semester hours) in each of the two disciplines of the double major. Students must satisfy all requirements of both majors. (see also the section Residency Requirement)

**Minor**

The College also offers the opportunity for students to select a minor. The specific requirements are listed in the programs of those disciplines.

A minor represents basic yet significant knowledge in an area and consists of a clearly defined set of courses related to a field of study different from that of the student’s major. The requirement for the completion of a minor is a minimum of 15 US credits and a maximum of 19 US credits. To earn a minor, students must maintain a cumulative index (CI) of at least 2.00 in the courses of the minor. Students may transfer a maximum of fifty percent (50%) of the credits required towards the completion of a minor. Transfer courses toward a minor are accepted only from accredited institutions. No grades are assigned to credits accepted for transfer. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see section ‘Grades’), (see section “Semester, Session or Year Abroad for Deree Students”).

In addition to existing minors listed in the catalog, students may choose an interdisciplinary minor program. Such a program must comply with the general rules of the College regarding minors. Proposals for minors must be carefully designed by students in cooperation with the relevant departments, before submission to the Curriculum
Committee for approval. The same procedure must be followed for a self designed major for the US degree.

Assessment Procedure
Although courses may employ assessment instruments which perform only a diagnostic or formative function, credit for the completion of a course can only be obtained on the basis of one or more summative assessments. A summative assessment provides a measure of the extent to which a student has achieved the intended learning outcomes of a course. The assessment of a student’s academic performance requires a judgment of the quality of his or her work. In all cases, this assessment must be governed by criteria which are explicit and communicated to students. The general grading criteria employed by the College are set out in the following table. Faculty have developed rubrics for the assessment of students, and it is the responsibility of department heads or area coordinators to ensure that these rubrics are consistent with the program specification and other documentation approved at validation.

Examination Regulations and Procedures
Student Identity
Students must carry with them their Deree ID card in the examination room. The Checking of Student Presence Procedure is published in myACG.

Entering and Leaving the Exam
Students who arrive late may be admitted to the exam but no additional time will be given. Students should be allowed to enter and take the exam up until a quarter of the allotted time has passed. Students should not be allowed to leave before a quarter of the allotted time has passed.

Materials that can be taken into the exam:
Students should bring as little as possible to the examination room. Any bags, books, notes, should be placed underneath the chair. Food and drink (including coffee) are not permitted in the exam room with the exception of clear bottles of water.

Students should bring their own pens, pencils, approved calculators, and other materials needed for the course. Students should not expect exam proctors to supply such materials.

All exams should be written legibly in black or blue ink. Pencil may only be used for diagrams, graphs, etc. Exam answers written in pencil are not acceptable.

Exam Conduct
Students should aim to minimize any disturbance caused to other students in the exam which may affect their performance. Students who arrive late or leave early must bear in mind that their conduct may disturb others. Entry/leaving an exam should be done as quietly as possible.

Mobile Phones & Electronic Devices
Mobile phones and electronic devices must be switched off – not on “silent” – in clear view and placed underneath the chair. If students use or attempt to use their phone/electronic device during the exam it will be regarded as a disciplinary offence. Students will be held responsible if their mobile phone/electronic device rings/vibrates during the exam. Any student caught using Bluetooth or any electronic device in the exam will be asked to leave immediately and will face disciplinary action.

Student Answers/Examination Paper
All answers must be legibly written on exam paper provided by the exam proctor. Students are not permitted to write answers on the question paper. Students must clearly cross out any (rough) work that is not to be graded. If extra exam paper is needed, it will be provided by the exam proctor. The only paper that can be used is the paper provided by the College and should all be returned to the proctor at the end of the exam.

Return of Exam Papers
Students must put the exam question paper and all answer papers together and submit both to the exam proctor. It is not the proctor’s responsibility to do this. Failing to do so will result in failure in the exam. The Checking of Student Presence Procedure is published in myACG.

Asking Proctors for Advice
Students who have attended the course should already be familiar with the structure and expectations of the exam. Students must read the instructions on the question paper and follow them carefully. Asking proctors for advice in answering exam questions is not permitted because it gives a student an unfair advantage over his/her peers.

Student Conduct and Exam Proctor
Student conduct in the exam is at the discretion of the exam proctor and is not negotiable.

Academic Integrity
Once the exam has begun, examination conditions apply – talking or communicating with another student during the exam is not permitted. Failure to observe this requirement will be treated as a disciplinary offence. Cheating or attempting to cheat in the exam by using notes, cards, or any other form of inappropriate content will result in disciplinary action.

Use of Communication Devices and Calculator
The Use of Cell Phones in Classes
The use of cell phones and/or similar communication devices in class is disruptive and does not facilitate the teaching and learning process. Therefore, students are not permitted to use such devices in lectures, recitation or laboratory sessions. Students are required to turn such devices off, or put them in a silent mode, while in class. Similarly, to enhance fairness in examinations, students are required to turn off and put away out of sight cell phones and/or other communication devices during quizzes, midterm and final examinations.

The Use of Calculators During Examinations
Instructors must clearly define, in the course outline, what types of calculators are permitted in quizzes, midterm and final examinations. In general, the definition of a calculator for examination purposes excludes any device that can:

- communicate with other devices
- accept external/removable memory
- store text
- produce graphics
- solve matrix equations
- be programmable

Students must not use such devices in quizzes, midterm or final examinations, unless clearly stated otherwise in the course outline.

Assessment, Progression and Awards

Attendance Policy
All students must meet the College’s attendance requirements.
All students are required to attend 80% of instructional class time. Some programs may impose a stricter attendance requirement.

Absence from a class does not exempt a student from completing the work for that class. Students who have exceeded the allowed threshold of absences will be referred by the instructor to the Registrar’s Office. The Registrar will in turn inform the Committee on Standards and Policies (CASP) which, in the light of any evidence of extenuating circumstances submitted by the student, will decide whether the student must withdraw from the course (and receive an F grade). In any case, the final decision is made by the Committee on Academic Standards and Policies (CASP).

Assessment Deadlines
Students must submit work by the deadlines set in the course outline. Work submitted after but within seven days of the deadline will receive a maximum grade of C. Students will fail the assessment if work is submitted later than seven days after the deadline.

The Assessment of Students with Special Needs
For students registered for the Open University Award: the Board of Examiners may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved in advance of the first assessment to which they will apply.

All students whether or not registered for both awards, are responsible for alerting the Registrar to a special need, and for providing relevant documentary evidence. The Registrar will then pass on this information to the Committee on Disability and Learning Differences.

The Committee on Disability and Learning Differences will decide the action to be taken to accommodate a student with special needs having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student. This action must be endorsed by the Chair of the relevant Board of Examiners in the case of the validated award. Alternative methods of assessment for non validated courses or programs are suggested by the Committee on Disability and Learning Differences in consultation with the instructor.

The Assessment of Students with Special Needs and in Exceptional Circumstances
The Committee on Disability and Learning Differences may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved by the above Committee in cooperation with the faculty in advance of the first assessment to which they will apply.

The student is responsible for alerting the Registrar to a special need, and for providing relevant documentary evidence. The Registrar will then pass on this information to the Committee on Disability and Learning Differences.

The Committee on Disability and Learning Differences will decide the action to be taken to accommodate a student with special needs having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student.

In case the above Committee in consultation with the student’s course(s) faculty decide that the student needs to take an oral exam, the procedure described hereafter must be followed. The course professor will inform the student on the venue and the exact time for the oral exam at least 2 days before the exam. The oral exam should be on the same course material and should have at least the same duration as the scheduled test for the other students of the same course.

A second faculty member from the same academic department must be present during the oral examination as an observer only, not as an examiner. The student’s answers on the oral exam questions will be assessed by the course professor. The oral exam must be recorded.

After the completion of the oral exam, the course professor should inform in writing or by e-mail the registrar’s office about the student’s grade, venue, date, exact time, exam duration, and the name of the second faculty member that was present during the oral examination.

Grading
Grades are reported at the end of each semester and session. The following scale of letter grades and quality point (numerical) equivalents is used toward the US bachelor’s degree:

F (Failure)
The grade of F is computed in the grade-point average (GPA) and in the cumulative index (CI). A student may receive credit for a failed course only by retaking and successfully passing that course at Deree. Retakes are capped at grade ‘C’.

E (Credits earned by examination)
Please refer to the section on Accreditation of Prior Experiential Learning (Waiver Examinations).

P (Pass)
The grade of P has no quality-point equivalent and is not computed in the student's grade-point average or cumulative index. However, credits earned with the grade of P are included in the total number of credits earned and count toward the completion of the Deree US degree requirements. Students may petition for a Pass/Fail option for elective courses taken outside their major, but, once the option is granted, they may not revert to a letter grade.

Petitions for a Pass/Fail option should be addressed to CASP no later than the first week of the semester. No Pass/Fail option is available in accelerated sessions or toward the Open University award. Certain courses, such as most of Physical Education courses, are graded on a Pass/Fail basis only.

R (Course Retake for Failing Grade Replacement)
The Grade Replacement policy allows students to retake courses at Deree for change of failing grade. Students may replace an ‘F’ grade in a course by repeating and passing successfully the same course at Deree. If a student fails a validated course more than two times s/he may be required to withdraw from the OU validated award unless CASP has accepted the student’s petition for mitigating circumstances. The final decision is made by the Board of Examiners. The maximum number of retakes for both degrees is 10 courses. Retakes are capped at grade ‘C’. When students retake a course, they are required to submit and be assessed on new assessments not used during the previous time(s) they took the course.

S (Satisfactory)/U (Unsatisfactory)
The grades of S and U may be given for certain developmental courses that do not constitute part of degree programs.

MC (Mitigating Circumstances): For the designation MC, please see the section on Mitigating Circumstances

NC (Non-Credit)
The designation NC indicates that the course was not taken for credit. The same course cannot be retaken for credit.

NR (Non-Report)
The designation NR is automatically recorded in the event final grades are not submitted by the specified deadline. The NR is automatically removed as soon as the grade is submitted by the Faculty.

W (Withdrawal)
A W grade indicates that a student withdrew from a course by the date specified in the College calendar. No credit is granted.

Grade Recalculation for Inbound Study Abroad Non-Degree Students and Resit Opportunity
Inbound study abroad non-degree students in validated courses will have to pass all course assessments in order to pass a course. In case an inbound study abroad non-degree student fails an assessment but the overall calculated grade is a passing one, the Registrar’s Office will contact the student and verify whether s/he is able to take the resit for the failed assessment. If the student confirms in writing that s/he cannot take the resit and has a passing final calculated grade, that student’s final grade in the course will be the minimum passing mark (60 UK points, grade ‘C’). This policy will apply only to students who have not missed any of the required course assessments.

Under certain extraordinary circumstances, inbound study abroad, non-degree seeking students may request to take a resit at their home institution. This is only available to such students if they have passed at least one of the course assessments in the designated course, but not if the course has only one assessment, which the student has failed. The request must be received in writing by the Registrar’s Office no later than 10 working days after the official publication of term/semester grades in myACG portal.

F (Failure)
The grade of F is computed in the grade-point average (GPA) and in the cumulative index (CI). A student may receive credit for a failed course only by retaking and successfully passing that course at Deree. Retakes are capped at grade ‘C’.

E (Credits earned by examination)
Please refer to the section on Accreditation of Prior Experiential Learning (Waiver Examinations).

A W grade indicates that a student withdrew from a course by the date specified in the College calendar. No credit is granted.
Grade Point Average (GPA) and Cumulative Index (CI)

In the US system of Education, a grade point average (GPA) is determined for each student at the end of each semester. The cumulative index (CI) is the average of all the grades of all semesters of study. Both averages are computed by multiplying the number of credit hours for each course by the quality point equivalent of the letter grade. The quality points earned for each course are then added and the sum is divided by the total number of credit hours. The credits for a course in which an F is received are included in the divisor, but no quality points are earned. Course credits by transfer are excluded from compilation of the CI at Deree - ACG. Grades reported as MC, NR, S, U, R, and NC are not computed in the average. When the MC or NR is removed, the new grade is then averaged in the semester in which the course(s) was/were taken. Summer I and II grades are averaged with the grades of the Spring Semester.

Second Marking

All assessed work submitted for credit in validated courses and programs leading to Open University awards shall be subject to the process of second marking and review by External Examiners. This policy extends to all modes of assessment and, where assessed work is not in written form, every effort should be made to apply some appropriate form of moderation. For the implementation of the College's policy on second marking and External Examiners (please see Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards). Students registered for the Open University award are assessed by the Board of Examiners (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards). Student progress toward the US Deree degree is not assessed by a Board of Examiners.

Action in the Event of Failure

For each course, students must obtain a minimum of Grade C (40%) in each summative assessment to achieve a pass and obtain the credit for that course (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards).

For the validated award only, three courses of action are available to Boards of Examiners in the event of a student failing one or more assessments components of a course. Students who fail one or more assessments in a course will be offered the opportunity to be reassessed (to resit) in the element(s) that comprises the overall assessment of that course. Only one resit per each assessment element is allowed in each validated course. The maximum grade a student can obtain for the reassessed component of the course is a pass (Grade C-40%). If the student fails the resit, s/he will not receive the credit for that course. The resit policy does not apply to non validated courses and programs.

Exceptionally, and subject to a recommendation from the Committee of Academic Standards and Policies based on evidence it has received of a student’s mitigating circumstances, the Board of Examiners may grant a student a further opportunity for reassessment in a validated course. Students with mitigating/extenuating circumstances will not be subject to a capped grade of ‘C’ (40% UK). The Committee on Academic Standards and Policies may grant a student further opportunity for reassessment in consultation with the instructor.

A student who has obtained a final fail grade following reassessment(s) in a course validated in his/her program or an F in a course that is not validated in his/her program (where the reassessment policy does not apply), may retake the course. The grade of such retake will be subject to a cap of a “C” (40% UK) grade. A student’s program may not comprise more than 10 retakes (refer to ‘Course Retake Policy’) in total for both the validated and Deree US degrees. Students retaking a course will be required to observe the College’s attendance requirement (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards) and complete all the assessments for that course. Following the successful completion of a retake, the grade obtained by the student will replace the original fail grade. This option is not available to students who have already obtained credit and are seeking to improve their grade for a course. A student’s program may not comprise more than 10 retakes. If a student withdraws from a course, prior to any assessment taking place, and if the student re-enrolls on the said course, the grade will not be subject to a cap. After repeating the course, the repeat grade will replace the original one. The original ‘F’, accompanied by the letter ‘R’, and the replacement grade will both appear on the student’s transcript, but only the replacement grade will be counted in computing the cumulative index (CI). If students withdraw from the course they are repeating for grade replacement, the original grade ‘F’ assigned for the course remains. Courses transferred from other institutions, as well as courses waived may not be repeated. Students also may not use the policy retroactively after their graduation from the former Junior College (see previous catalogs) or Deree - ACG. Successfully completed courses that are repeated over and above the ten retakes will appear as NC automatically. Graduates who are re-admitted as non-degree may only repeat courses as NC (i.e., they may only audit courses they have passed.)

Mitigating Circumstances

The following regulations distinguish between factors or circumstances which were known to the student in advance of taking an assessment and which affect his or her ability to attend an examination or submit work by the published deadline (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards), and those which have not impaired the student’s ability to attend for examination or meet a deadline for the submission of work but which may have affected his or her performance (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards). In all cases, it is the responsibility of the student to ensure the timely disclosure of any factors or circumstances which may affect the assessment of his or her learning and responsibility for the consideration of these factors and circumstances will lie with the Committee of Academic Standards and Policies.

Students whose circumstances may affect (or may have affected) their ability to meet a program’s assessment requirements must submit a completed Mitigating Circumstances Extension Form together with verifiable documentation to the Registrar’s Office. This form can be completed electronically or in person and may, if necessary, be signed retroactively.

In the case of factors or circumstances which were known to the student in advance of taking an assessment and which affect his or her ability to attend an examination or submit work by the published deadline: a. the Committee of Academic Standards and Policies will consider the evidence submitted by the student; b. if the mitigating circumstances are accepted by the Committee it will determine the extension to be granted to the student or, in the case of examinations, the date on which the student shall be assessed; in such cases the grades will not be capped at “C” (40% UK); c. for the validated award only, the Chair of the Board of Examiners, the Registrar and the appropriate department head/area coordinator will be informed of the Committee’s decision. For students registered only for a Deree US degree, the Registrar, the instructors and the relevant department head/area coordinator will be informed of the Committee’s decision.

The student will have the right to apply for a further extension, or for a rescheduling of an examination, if the mitigating circumstances persist.
Academic Policies Governing the Deree US Degree

In the case of factors or circumstances that have not prevented a student from attending for examination or meeting a deadline for the submission of work but which may have affected his or her performance:

a. the Committee of Academic Standards and Policies will review the evidence submitted by the student. For students registered for a validated award the Committee will make a recommendation for consideration by the appropriate Board of Examiners, for those students who are registered only for a Deree US degree, the Committee will communicate directly with the instructor and the Registrar’s Office.

b. For students registered for a validated award, the Board of Examiners is responsible for considering that action that it should take (4.6.1.e), Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards in the light of the recommendations of the Committee of Academic Standards and Policies;

c. For students registered for an Open University validated award, the actions available to the Board of Examiners include: the deferral of an assessment to a later date; compensation for the failure in a course (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards), agreement that the student should either retake the course or be reassessed with the grade achieved being recorded in the student’s transcript and therefore contributing to the classification of the award; and, exceptionally, a decision that the student be assigned a higher grade for the course or courses on which his or her performance has been affected. For those students who are registered for the Deree US degree only, appropriate action will be taken by the instructor upon CASP’s recommendations.

Progression Toward the Open University Validated Award

Students must complete all Level 4 courses within the Open University validated program before they progress to Level 5.

Providing that a student has obtained the necessary prerequisites, s/he may progress to Level 6 courses having gained at least 60 UK credits at Level 5.

Conferment of Open University Validated Awards

In order to qualify for an Open University validated award the student must have satisfied both:

• The general credit requirements for the award (Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards); and

• The learning outcomes set out in the program specification for the award for which the student is registered. A Bachelor’s Degree with Honours will be awarded to a student who has passed 360 credits that is, (120 credits at Level 4, 120 credits at Level 5 and 120 credits at Level 6)

Classification will be based initially on the average percentage mark across all modules at Level 6 and Level 5 at a ratio of 2:1 respectively. If the student’s average percentage mark falls within the boundaries of the classifications defined below, s/he is entitled to that award.

First Class Honours 70% or above
Second Class Honours, Upper Division 60% - 69%
Second Class Honours, Lower Division 50% - 59%
Third Class Honours 40% - 49%

If the average percentage achieved by a candidate is not more than 1 percentage point below a classification band, the Board should consider the following.

a. the student has received a grade at or above the level of the higher class of award in at least one of the capstone courses

Academic Policies Governing the Deree US Degree

and/or

b. the majority of Level 5 and 6 modules must be graded at or above the proposed class of award

The Board of Examiners will take a consensus view on the final classification to be awarded to the student. The Chair of the Board of External Examiners and the External Examiner(s) must in each case endorse the proposed class of award.

Credit obtained through the credit transfer, APCL or APEL procedures (Section 4, above) is excluded from the calculation to determine the classification of the degree. For these candidates, the grades obtained for the remaining courses studied under the OU framework will be used for the final classification.

Applying for Graduation

When students reach their last semester/session of studies at the College, they must apply for graduation to the Registrar’s Office. Deadlines for the submission of applications for graduation are announced in advance.

An application for graduation which fails to be submitted by the announced deadline will move to the next graduation cohort.

Graduation Requirements

In order to graduate, students must:

a. Complete satisfactorily the total number of credits and all other requirements set for the degree.

b. Fulfill the residency requirement.

c. Attain a minimum cumulative index of 2.0.

A student’s graduation with a Deree US degree will be delayed if (s)he must retake one or more assessments in his/her last semester of studies.

Graduation with Distinction

The Bachelor’s degree is awarded at three levels of distinction to students who have completed at Deree – ACG at least 72 US credits out of the total number of credits required for graduation and who have obtained exceptionally high grades.

The CI is computed to include all courses completed at Deree - ACG.

Faculty Recommendation for Graduation

Department heads / program coordinators and academic deans evaluate prospective graduates’ records and the Registrar confirms the completion of graduation requirements. An official list of prospective graduates, as certified by the Registrar, is then presented to the faculty for approval.

The faculty recommendation to graduate students certified by the Registrar is obtained by a simple majority vote.

Although degrees are granted only once a year, a student who has been recommended by the faculty for graduation may obtain a certificate signed by the Registrar confirming completion of graduation requirements.
Academic Policies Governing the Deree US Degree

Trustees’ Approval and President’s Conferral

The President of the College presents the faculty recommendation for graduation to the College’s Board of Trustees for approval. The trustees’ approval of the faculty recommendation for graduation gives the president the authority to confer the degrees.

Grade Reports and Official Documents

At any time during the course of their studies, students active or not, may request a transcript of their progress. Each transcript is a copy of the student’s complete record, and any requests for issuing partial transcripts will be denied. When the transcript is given directly to the student or, at the student’s request, to another person, it is labeled ‘Unofficial.’ An ‘Official Transcript of Record’ is sent directly to schools or other authorities only at the student’s request and is not issued to the student. Upon graduation students will be able to obtain a transcript for the Deree US degree and a diploma supplement for the Open University validated award.

Official Transcripts, Certificates and any other official document signed by the relevant Deree Official is given to students in printed form only. No transmission by fax or any electronic method of official Deree documents is permitted.

Academic Offences

An academic offence (or breach of academic integrity) includes any action or behavior likely to confer an unfair advantage, whether by advantaging the alleged offender or by disadvantaging another or others. Examples of such misconduct are plagiarism, collusion, cheating, impersonation, supplying false documentation, use of inadmissible material and disruptive behavior during examinations. Responsibility for reviewing breaches of academic integrity is held by the Committee on Standing and Conduct (COSC).

According to College policy all student tests and assignments are submitted through a plagiarism detection software called Turnitin.

Charges against a student for violating academic integrity may originate from any source: a faculty member, an administrator, a fellow student, as well as External Examiners reviewing assessments for the Subject Boards. Charges are submitted in writing to the COSC chair and accompanied by any further substantiating evidence. If a member of the Committee originates the charge, the member will be recused from the decision-making process, and any other process related to the case, other than those related to the role of plaintiff/witness.

The alleged offender is informed in writing that a report has been submitted against him/her. He/She has the right within five working days of receipt of the notification to submit a written statement of facts he/she believes COSC should know and/or to request a meeting with the Chair and one committee member.

The Committee on Standing and Conduct will either itself investigate the charge or establish from its own membership a panel to conduct the investigation. In establishing whether a breach of academic integrity has occurred, the Committee (or panel) considers oral and/or written evidence supplied by the individual(s) making the charge and any other evidence deemed relevant.

For OU students in validated courses/programs only, once the Committee on Standing and Conduct has considered the allegation and reached a conclusion on whether an offence has occurred, it issues a report with a recommendation regarding the outcome for the student to the Chair of the relevant Board of Examiners. If it has been established that an offence has occurred, the Board will judge the significance of the misdemeanor and exercise its discretion as appropriate to the case. If it is established that a student has attempted to gain an unfair advantage, the examiners shall be given the authority to rule that the student has failed part or all of the assessments, and the authority to determine whether or not the student should be permitted to be reassessed.

Independently of the assessment decisions made by the Board of Examiners on offences pertaining to validated courses/programs, the Committee on Standing and Conduct is empowered to consider a wider range of sanctions that might be applied when a student is found guilty of a breach of academic integrity. The following list of sanctions is indicative and can be imposed by majority vote of the Committee:

Admonishment Letter (or Letter of Warning): The student is advised in writing that her/his behavior violates rules of academic integrity and that a recurrence will lead to more serious sanctions. The Committee will deliberate on whether the letter should or should not appear in the student’s file permanently or for a lesser period of time.

First Offence File: The student’s name and a description of the offense is recorded in the student information system, and is accessible by the Chief Academic Officer, the academic Deans, the Dean of Students and department heads. Second offences automatically result in a hearing.

Suspension: The student’s relationship with the College will be terminated and shall be denied. COSC observes College policies on academic integrity. When a student is found guilty of a breach of academic integrity, the committee applies the sanction(s) pertinent to the offence. The COSC chair informs the student and the plaintiff in writing within five working days of the final recommendation and actions to be taken.

Hearing

Deliberation on a second offence violation requires a hearing. A student may be called to a hearing even in the case of a first offence, depending on the severity of the charge. Once the Committee establishes that the report is complete, the Chair calls for a hearing within eight working days from the receipt of the charge. The Chair informs the student in writing of the charge(s), the student’s rights, and the fact that the student’s presence is required at the hearing. The student’s rights include:

- to attend the hearing alone or with a member of the College community who agrees to speak for the student
- to answer questions, present evidence and introduce witnesses from the College community for defense against the charge
- to pose questions to witnesses from the College community

The Chair notifies the plaintiff in writing when his/her presence is required, of the time and place of the hearing, as well as the plaintiff’s rights:

- to be accompanied by a member of the College community who agrees to speak for the plaintiff
- to introduce witnesses from the College community
- to pose questions to the student and witnesses from the College community

At the hearing the Chair announces the purpose and the function of the Committee and reads the charge(s). The Chair opens the floor, inviting parties present to supply additional information and witnesses, if they so wish. Parties present may pose questions to the student/plaintiff/witnesses. The members of the Committee are then given the opportunity to ask questions of the parties present.

When the hearing is over, the Chair asks all those present apart from the committee members to leave the room. Committee members then deliberate on the outcomes of the hearing. The Committee arrives at a majority judgment...
Academic Policies Governing the Deree US Degree

Appeal

Within three working days of receipt of COSC's decision, the student has the right to make a formal written appeal against the decision of the Committee. The appeal is addressed first to the Academic Council, and subsequently to the Chief Academic Officer, and then the President, whose decision is final. Any COSC decision and recommendation on a case are subject to the Academic Council’s approval, the Board of Examiners’ ratification of grades, and the appeals process available to students. The Committee recommends sanctions based on majority vote.

For offences made in validated courses/programs, OU students may appeal against the decision of the Board of Examiners in accordance with the regulations for academic appeals as outlined in the Regulations for validated awards of The Open University for institutions offering dual awards.

A final report on a case-by-case basis is prepared biannually fourteen (14) days prior to the Board of Examiners and submitted to the Boards via the Academic Council for those cases related to validated awards. For cases on non-OU students, the report is sent to the Academic Council only. Reports include a short statement on the student’s breach of academic integrity, the Committee’s judgment and the sanctions applied per case.

Academic Appeals

Students registered in a validated program, may appeal against a decision of the Board of Examiners. Students’ rights of appeal are limited to two grounds:

• either that the candidate’s performance in an assessment was adversely affected by illness or factors which s/he was unable, or for valid reasons unwilling, to divulge before the Board of Examiners reached its decision.

• or that there has been a material administrative error, an assessment was not conducted in accordance with the current regulations for the program or special arrangements formally agreed, or that some other material irregularity relevant to the assessment has occurred.

Disagreement with the academic judgment of a Board of Examiners in assessing the merits of an individual element of assessment does not constitute grounds for an academic appeal. Responsibility for the submission of documentary evidence in support of the appeal rests with the student.

Appeals must be submitted in writing to the Registrar no later than 14 days following the publication of Examination Board results. All appeals including request for grade change for non validated courses/programs must be submitted in writing to the Registrar by the end of the second week of the following session/semester.

On receipt of the appeal, the Registrar informs the department head/program coordinator and the Academic Council (through the Chief Academic Officer) and submits to them all relevant evidence and correspondence. The Academic Dean will undertake an initial assessment of the validity of the appeal and advise the student accordingly. In the light of this advice, the student should decide whether s/he wishes to proceed with the appeal. Alternatively, the student may decide to withdraw his or her appeal and/or lodge a complaint in accordance with the College’s complaints procedure. Students who attended a non validated course may appeal a final course grade within 45 days from the last day of classes for courses without a final exam or from the day of the final exam for courses with final exams. For appeals concerning grade assignment in non validated courses, the department head/program coordinator may form a departmental committee to review the student assessment and propose to the Academic Council a decision on the grade.

In the event that the student decides to proceed with the appeal, the Academic Council will be convened no later than three weeks after receiving the student’s decision to continue with the appeal. The membership of the Academic Council shall exclude any member of faculty or the administration who has been involved in the assessment of the student or who is a member of the relevant Board of Examiners. For non-validated courses, the Academic Council will decide on the student’s final grade and will inform the student, the professor and the academic dean.

In cases of validated courses/programs, the Academic Council will hear the appeal. The appellant may be called to appear before the Council. The Academic Council may also require the Chair of the Board of Examiners to appear separately before it. The appellant and the Chair of the Board will not be present when the subcommittee considers the evidence and formulates its decision.

In cases of validated courses/programs, the Academic Council must inform the student and the Board of Examiners of its decision within seven days of the hearing. The student has the right to subsequently appeal to the Provost in writing against the decision of the subcommittee. If the appellant wishes to contest the Provost decision s/he has the right to lodge an appeal with the Open University. The student will obtain contact details for the Provost and the Open University from the Registrar.

The Registrar’s Office will keep records of outcomes for all appeals cases. The Academic Council will receive annual summary reports regarding all appeals received by the College.

Complaints Procedure

Complaints are specific concerns about the provision of a course/module or a program of study or related academic or non-academic service. For non validated courses/programs complaints do not address the review of a decision made by an academic body. When appropriate, a complaint is first resolved through informal discussion with the party/office directly involved. If not resolved at this level, a formal complaint is submitted by the student to the Registrar’s office within 14 days from the day the outcome of this discussion is made known to the student. Upon receipt of the complaint the Registrar forwards the complaint with all relevant documentation to the Academic Council or the Dean of Students.

Depending on the nature of the complaint, the academic Dean or Dean of Students will undertake an initial assessment of the validity of the complaint and advise the student accordingly. In the light of this advice, the student should decide whether s/he wishes to proceed with the complaint.

In the event that the student decides to proceed with the complaint, the Academic Council will be convened no later than three weeks after receiving the student’s decision. The Academic Council shall exclude any member of faculty or the administration who has been involved in the complaint or who is a member of the relevant Board of Examiners.

The Academic Council will hear the complaint. The appellant may be called to appear before the Council. The Council may also require the relevant member of faculty and/or Administration to appear separately before it. The appellant and any member of staff against whom the complaint has been made will not be present when the Council considers the evidence and formulates its decision.
The Academic Council must inform the student and the Chair of the Board of Examiners (if the complaint concerns a validated course/program) of its decision within seven days of the hearing. The student has the right to subsequently appeal to the Provost against the decision of subcommittee. If the appellant wishes to contest the Provost’s decision for validated programs/programs, s/he has the right to lodge a complaint with the Open University. The student will obtain contact details for the Provost and the Open University from the Registrar.

The Registrar’s Office will keep records of outcomes for all complaints cases. The Academic Council will receive annual summary reports regarding all complaints received by the College.

Students registered in an OU validated award may further appeal to the Office of the Independent Adjudicator (OIA).
Academic Enrichment Programs

English for Academic Purposes Program
The English for Academic Purposes Program (EAPP) supports the educational mission of Deree by providing high quality instruction in academic English to non-native English-speaking students who need to improve their English language skills for study at the institution. EAPP also provides English placement testing to incoming students who are non-native speakers of English. EAPP is designed to:

- provide non-native English-speaking students with the resources and opportunities to develop their reading, writing, listening and speaking skills to a level appropriate for college study;
- equip students with the academic skills needed to help them participate more fully and effectively in college courses;
- offer a well-researched curriculum that responds to the unique and diverse needs of the College’s non-native English speaking student population and makes use of educational technology as well as academic support services;
- provide small, student-centered classes led by dedicated, professionally trained English instructors.

Writing Program
The Writing Program (WP) offers three levels of full-time courses on academic writing: WP 1010 LE Introduction to Academic Writing, WP 1111 Integrated Academic Writing & Ethics and WP 1212 LE Academic Writing and Research. These courses equip students with the critical thinking, reading, writing and research skills necessary for success in an academic environment. Each writing course has a thematic focus as a vehicle to structure thinking and writing.

Students are placed in WP 1010 if they satisfy the College’s requirements for proficiency in English (as described in the section “Academic Writing”). Students take all three Writing Program courses in sequence to fulfill part of their general education requirement. All courses are offered for 3 graduation credits.

The Writing Program supports the educational mission of Deree by

- providing high quality instruction in academic writing and thinking that prepares students for the writing and critical thinking challenges they will face in their major.
- equipping students with the necessary critical thinking and communication skills so that they can succeed beyond college as flexible, thoughtful and confident writers.
- increasingly challenging students with reading and writing assignments that expose them to a variety of texts, writing and research activities, and disciplinary discourses.
- offering a well-researched curriculum that responds to the unique and diverse needs of the College’s student population and makes use of educational technology as well as academic support services.
- providing small, student-centered classes led by dedicated, professionally trained English instructors.

International Honors Program
The Deree-ACG International Honors Program (IHP) offers motivated and academically-committed Honors students educational enrichment through interdisciplinary learning experiences and opportunities for independent scholarship. It seeks to develop students’ intellectual and civic leadership skills through dynamic teaching and student involvement that extend beyond the classroom.

The International Honors Program offers:

- challenging and innovative General Education courses taught through the use of the most current pedagogical tools
- faculty-student research opportunities through the Honors Thesis
- exposure to international perspectives through study abroad
- co-curricular activities that cultivate creativity and civic engagement, such as sustainability workshops, lecture series, film series, etc.
- participation in a tightly-knit community of high-achieving students
- financial aid (International Honors scholarship), internship opportunities, and benefits such as early course registration
- special cultural and academic enrichment events that promote leadership potential, such as participation in the Heritage Greece Program
- increased career and/or graduate opportunities

The International Honors Program seeks to produce well-educated, articulate citizens who exemplify the highest standards of academic, professional and personal achievement. It offers an enriched curriculum that integrates knowledge, sharpens academic skills and encourages active involvement in the learning process.

The International Honors Program encompasses an Honors student’s undergraduate career and evolves in two stages:

- in the first stage, students benefit from taking four Honors Seminars which fulfill an equivalent number of General Education requirements;
- in the second stage, students apply the creative and intellectual skills they have acquired in the Honors Seminars to produce an Honors Thesis, the capstone requirement of the Honors Program. The Honors Thesis is also a bridge to a student’s professional or academic goals beyond college.

The Teaching and Learning Center
Fulfilling the College’s mission of fostering academic excellence, the Teaching and Learning Center, an instructional resource for faculty, promotes innovative approaches to student learning. The Director of the Teaching and Learning Center provides support and assists in the development of effective educational material. The Teaching and Learning Center organizes frequent training sessions on pedagogy where faculty can exchange ideas and experiences related to their teaching. It encourages faculty to explore developments in teaching technologies and adopt student-centered techniques, through a dedicated Blackboard container full of material related to classroom needs. It facilitates and encourages faculty to keep up with best practices in pedagogy.

periods and geographic areas of their choosing. 
Prerequisites: 12 History Credits (At least one 4000 level course)
UK CREDITS: 15
US CREDITS: 3/0/3
ITC 2276  C LANGUAGE PROGRAMMING - LEVEL 4
C language logic and code structure; data types, scalars and aggregates, pointers and address arithmetic; files and
devices; programming and debugging techniques.
Prerequisites:  ITC 1070  or  CS 1070
UK CREDITS:  15
US CREDITS:  3/0/3

ITC 2293  OPERATING SYSTEMS CONCEPTS - LEVEL 4
Operating system structures, functions and techniques. Performance, avoidance of deadlock and security issues.
Prerequisites:  ITC 1070  or  CS 1070
UK CREDITS:  15
US CREDITS:  3/0/3

ITC 3015  DESIGNING FOR THE WEB - LEVEL 5
A brief history of the web, web standards, browser standards, choosing a domain name; hosting management tools;
web publishing; web design and development tools; website architecture; using image editing software to design
web layouts, HTML, CSS, search engine optimization; social media integration; interface design standards; user
interaction experience.
Prerequisites:  ITC 1070
UK CREDITS:  15
US CR:  3/0/3

ITC 3106  MATHEMATICS FOR COMPUTING – LEVEL 5
Prerequisites:  MA 1009
UK CREDITS:  15
US CREDITS:  3/0/3

ITC 3120  DIGITAL VIDEO AND AUDIO TECHNOLOGIES – LEVEL 5
Digital video and audio technologies, file formats, compression strategies, codecs, editing techniques, transitions,
effects, titling, motion graphics, recorded audio, processing and transformation. Methods of audio/video hardware
and software integration.
Prerequisites:  ITC 1070  or  CS 1070
UK CREDITS:  10
US CR:  2/1/2

ITC 3121  COMPUTER NETWORKS, MODELING AND ANALYSIS - LEVEL 5
Data communications technologies. Computer network systems. Network convergence architectures. Connectivity
Prerequisites:  MA 1009
UK CREDITS:  15
US CREDITS:  3/0/3
ITC 3275  INTRODUCTION TO COMPUTER NETWORKS – LEVEL 5
Computer communications systems components, models, operation, and applications. Networking standards, protocols and connectivity aspects. Local area networks design, implementation. Wide area networks, emerging technologies.
Prerequisites:  ITC 1070  or  CS 1070
MA 1009
UK CREDITS:  15
US CREDITS:  3/0/3

ITC 3319  NETWORK ADMINISTRATION – LEVEL 5
Installation and administration concepts. Management, monitoring, and optimization of system performance, reliability, and availability. Design issues and support in a corporate environment. Troubleshooting and end user support.
Prerequisites:  CS 1070  or  ITC 1070
MA 1009  ITC 3275
UK CREDITS:  15
US CREDITS:  3/1.5/3

ITC 3333  DATA MINING AND BIG DATA
Data and feature selection, cleaning, extracting patterns from structured and unstructured data, evaluation, big data, tools, applications
Prerequisites:  ITC 1070  or  CS 1070
ITC 2188
MA 2010
US CR:  3/0/3

ITC 3387  DATA STRUCTURES AND ANALYSIS OF ALGORITHMS – LEVEL 5
Algorithmic design, interaction between algorithm and data structure in creating efficient code. Common types of algorithms and data structures, data structures usage and implementation. Lists, stacks, queues, hash tables and trees. Algorithmic mechanisms and problem solving techniques.
Prerequisites:  CS 1070  or  ITC 1070
MA 1009
UK CREDITS:  15
US CR:  3/0/3

ITC 3397  OBJECT ORIENTED PROGRAMMING WITH C++
(Same as CS 3397)
C++ as a superset to the C language. Object oriented techniques to software problems using C++. Classes, encapsulation, overloading, inheritance. Small scale programs in C++.
Prerequisites:  CS 1070  or  ITC 1070
ITC 2188
ITC 2276
US CR:  3/0/3

ITC 3413  ALGORITHMS AND COMPLEXITY – LEVEL 5
ITC 4322 NETWORK SECURITY AND CRYPTOGRAPHY - LEVEL 6
Security trends and solutions, encryption techniques and standards; symmetric and public key encryption; hash functions; confidentiality issues, authentication and identity management; system security issues.
Prerequisites: MA 1009 ITC 3106 ITC 3121
UK CREDITS: 15
US CREDITS: 3/0/3

ITC 4371 INTERACTIVE MULTIMEDIA SYSTEMS - LEVEL 6
Prerequisites: ITC 1070 or CS 1070 ITC 3128 ITC 3120
UK CREDITS: 15
US CREDITS: 3/1.5/3

ITC 4416 SOFTWARE ENGINEERING – LEVEL 6
Prerequisites: ITC 1070 or CS 1070 ITC 2188 ITC 3234 ITC 3260
UK CREDITS: 15
US CR: 3/0/3

ITC 4417 GAME PROGRAMMING – LEVEL 6
Prerequisites: ITC 1070 or CS 1070 ITC 2188 ITC 3234 MA 1009
UK CREDITS: 15
US CREDITS: 3/1.5/3

ITC 4426 DISTRIBUTED SYSTEMS – LEVEL 6
Prerequisites: ITC 1070 or CS 1070 MA 1009 ITC 3106 ITC 3275
UK CREDITS: 15
US CR: 3/0/3

ITC 4443 VIRTUALIZATION CONCEPTS AND APPLICATIONS LEVEL 6
Virtualization architectures, techniques, applications and virtualization at server, client, desktop and application level.
Prerequisites: ITC 1070 or CS 1070 MA 1009 ITC 3106 ITC 3275
UK CREDITS: 15
US CREDITS: 3/0/3

Prerequisites: MA 1009  
UK CREDITS: 15  
US CR: 3/1/3
MA 2010  STATISTICS I – LEVEL 4
Organizing and summarizing data. Probability distributions: binomial, Poisson, normal, t-distribution, chi-square. Sampling and sampling distribution of the mean. The central limit theorem. The course is not open to students who has previously completed an MA-course in statistics.
UK CREDITS: 15
US CR: 3/1/3

MA 2021  APPLIED STATISTICS - LEVEL 4
Organizing and summarizing data. Probability distributions: binomial, Poisson, normal, t-distribution, chi-square. Sampling and sampling distribution of the mean. The central limit theorem. Parametric tests for one mean and for the difference between two means. Test for independence of two qualitative/categorical variables. Simple and multiple correlation and regression.
UK CREDITS: 15
US CR: 3/1/3

MA 2118  STATISTICS FOR BUSINESS AND ECONOMICS I – LEVEL 4
Organizing and summarizing Data. Probability distributions: binomial, hypergeometric, Poisson, normal, t-distribution, chi-square. Sampling and sampling distribution of the mean. Confidence intervals for the population mean, standard deviation and proportion. Prerequisites: MA 1009
UK CREDITS: 15
US CR: 3/0/3

MA 2219  STATISTICS FOR BUSINESS AND ECONOMICS II – LEVEL 5
Hypotheses testing. Parametric and nonparametric tests for one mean and for the difference between two means. Parametric tests for one standard deviation and for the difference between two standard deviations. Parametric tests for one proportion and for the difference between two proportions. Test for homogeneity. Test for independence. Analysis of variance. Regression and correlation. Prerequisites: MA 1009 MA 2118
UK CREDITS: 15
US CR: 3/1/3

MA 3111  STATISTICS II - LEVEL 5
Confidence interval for one mean, one variance, and one proportion. Hypotheses testing. Parametric tests for one mean and for the difference between two means. Parametric tests for one standard deviation and for the difference between two standard deviations. Parametric tests for one proportion and for the difference between two proportions. Test for independence of two qualitative/categorical variables. One way analysis of variance. Simple and multiple correlation and regression. Prerequisites: MA 2010
UK CREDITS: 15

INTERNATIONAL HONORS PROGRAM (IHP)

HFP 2202  LE DOCUMENTARY PHOTOGRAPHY
The course teaches students to develop a meaningful relationship with lived experience through documentary photography, a form of visual storytelling that chronicles historical events and/or significant scenes of life. Through readings as well as hands-on experience, students will be guided to explore the cultural, aesthetic, political, and ethical issues involved in this artistic and journalistic genre. Major emphasis is placed on experiential learning of the subject, and for this reason much of the course is taught on site. The course presupposes only basic knowledge of photography, as well as ownership of a digital camera.
Prerequisites:  WP 1010  WP 1111
US CR: 3/0/3

HEL 2301  HONORS THESIS I
This course can be used as a general Elective.
Prerequisites:  Three Honors Seminars
US CR: 1/0/1

HEL 2402  HONORS THESIS II
Independent study course in which students work directly with their Thesis Advisor to develop and complete the capstone project of their Honors education, the Honors Thesis.
This course can be used as a general Elective.
Prerequisites:  WP 1010  WP 1111
US CR: 2/0/2

HHU 2201  SOUND POETRY AND SONIC ART
This course will lead students to explore the aesthetic, creative and cultural issues involved in sonic art. It will ask them to listen, research and discuss aspects of sonic art, while at the same time offering them extensive practical opportunities to explore the use of computer-based technology to make their own sonic art. The course does not assume prior knowledge of music, nor special musical ability. Emphasis is placed on experiential learning, and for this reason class meetings take place in a computer lab.
Prerequisites:  WP 1010  WP 1111
US CR: 3/0/3

HHU 2202  ELECTR(A)FYING PASSIONS: THE TRANSFORMATIONS OF THE ELECTRA MYTH FROM ANTIQUITY TO CONTEMPORARY CULTURE
(Same as HSS 2202)
An interdisciplinary course focusing on the ancient myth of Electra and its transformations from antiquity to contemporary culture, combining textual analysis of ancient and modern texts, study of contemporary performance traditions and of filmic, musical, and popular representations of the myth in 20th century culture. The course offers students the opportunity to visit selected ancient sites in and around Athens (Ancient Theater of Dionysus, Ancient Theater of Epidaurus, Mycenae, Ancient Theater of Argos, Ancient Corinth). It will appeal to students of Theater, music, classics, ancient history and cultural studies, since it examines the theme of Electra from different points of view and reaches theoretical and practical conclusions applicable to many different disciplines.
Prerequisites:  WP 1010  WP 1111
US CR: 3/0/3

HHU 2203  LE IN THE MOUTH OF MADNESS: DEPICTIONS OF INSANITY IN WESTERN CULTURE
(Same as HSS 2203)
An interdisciplinary study of the representations of madness across history, with specific emphasis on film, Theater, literature, autobiography and pop culture. The course will also examine madness in the context of philosophy, politics, critical theory and gender studies, and will explore the formation of individual, social and political identities in classical, modern and contemporary Western cultures.
Prerequisites:  WP 1010  WP 1111

US CR: 3/0/3

HHU 2208  POVERTY AS SPECTACLE FROM THE ODYSSEY TO THE GREEK CRISIS
(same as HSS 2208)
This course will explore the ways in which poverty is not only represented but also constructed in/through various media, ranging from ancient literary texts to social history, political theory, and contemporary film. It seeks to enquire into the preconditions and cultural assumptions that inform representations of poverty, with special emphasis on the 20th and 21st centuries.
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

HHU 2209  THE CITY OF ATHENS AS MYTH. LANDSCAPE, NARRATIVE, AND URBAN MEMORY
This course will offer students the opportunity to unearth the hidden myths in the city of Athens, and study the interrelationship between ancient mythic narratives and contemporary urban development. Focusing on specific myths, students will be able to study and experience first-hand the complex mythic nexus that was responsible for the construction of urban identity in ancient Athens and which still functions as a subterranean "network" of cultural referents.
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

HHU 2210  LE BETWEEN REALITY AND IMAGINATION: CONSTRUCTIONS OF MODERN CITYSCAPES
(Same as HSS 2210)
This Honors seminar will offer students the opportunity to study different ways of experiencing and understanding the material (social, political and historic) as well as imaginary dimensions of modern urban spaces. Emphasis upon city imaginaries aims to expose students to various discourses (sociological, aesthetic, literary, etc.) as tools for the study of modern cityscapes.
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

HHU 2211  LE PRIVATE STORIES, PUBLIC STORIES: PERSONAL NARRATIVES IN SOCIAL/HISTORICAL PERSPECTIVES
(same as HSS 2211)
The course explores the interrelationship of private stories and public experience through study of the characteristics and function of oral story-telling. Focus is placed on the connection between story-telling, personal memory, and social/historical experience. Students are exposed to the techniques and processes of oral history, such as researching the subject, conducting interviews, handling materials ethically and responsibly; preserving personal narratives; and composing and editing research documents and projects.
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

HHU 2214  LE LAUGHING IT OFF: FORMS AND USES OF MODERN POLITICAL SATIRE
(same as HSS 2214)
This Honors seminar invites students to engage in a critical exploration of political satire in art, literature and film. Students will be exposed to different types of satirical expression, and will be led to consider satire as a gesture of political resistance. Students also examine satire in connection with issues such as the limits to freedom of expression, censorship, and social responsibility.
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

HHU 2216  LE GAMING THE PAST
This interdisciplinary course introduces students to thinking critically about reconstructing and interpreting the historical past using the experiential role-playing and debating pedagogy of Reacting to the Past. The course combines history, classics, and archaeology to examine Athens of the 5th century BC. The course includes site visits.
Prerequisites: WP 1010  WP 1111

HHU 2221 LE PERFORMING MASCULINITIES
See HSS 2221.

HHU 2286 LE FAIRY TALES FORMED AND TRANSFORMED
The course will investigate retellings of classic fairy tales in various art forms and media (i.e., text, image, film, music, Theater). Students will explore the purpose and means through which artists mine the cultural unconscious to produce the transformations of well-known bedtime stories. Informed by the practices of cultural studies, this interdisciplinary course will approach the subject holistically, encouraging students to place the works within their socio-historical context and to analyze the ways in which meaning is produced both in the classic tales and in their transformations.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HSS 2201 CAREER BUILDING THROUGH SOCIAL MEDIA
This Honors course will investigate the latest trends in human resources development and career building. The course will teach students how to create a professional profile using social media, but will also help them develop consciousness of the extent to which social media are shaping their view of themselves as future professionals in a world where new professional codes of conduct and communication have spread. Using their knowledge of the function of social media in the broader social and professional arena, students, in consultation with the instructor, will design a cause-related campaign that they will create and promote through social media.
Prerequisites: WP 1010 WP 1111

See HHU 2210.

HSS 2209 LE PRIVATE STORIES, PUBLIC STORIES: PERSONAL NARRATIVES IN SOCIAL/HISTORICAL PERSPECTIVES
See HHU 2211.

HSS 2210 THE FUTURE OF CAPITALISM
An interdisciplinary approach to the historic origins of the free-market system, aka capitalism, with emphasis on the history of capitalism, past and current critiques and pressures for change, as well as cultural/ideological manifestations of the capitalist mindset.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3
### HSS 2213  FROM BALLROOM TO HIP HOP: READING THE LANGUAGE OF DANCE
The course explores the relationship between popular dance, culture, and identity. It aims to increase students' knowledge and understanding of the different ways in which popular dance functions as a social activity. Students will gain embodied knowledge of various forms of popular dance in order to develop their understanding of a range of different cultural experiences of dance, dance-based philosophies, training methods and techniques. To attend this course no prior dance experience is required.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2214  LE LAUGHING IT OFF: FORMS AND USES OF MODERN POLITICAL SATIRE
See HHU 2214.

### HSS 2215  REBELS WITHOUT A CAUSE: CULTURAL EXPRESSIONS OF 20TH AND 21ST - CENTURY YOUTH SUBCULTURES
This Honors seminar guides students through an exploration of the social impacts and cultural expressions of radical youth subcultures in the 20th and 21st centuries. Emphasis is placed on the ways in which radical youth subcultures have expressed rejection or resistance to the mainstream, thus challenging or transforming the Western normative structure.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2217  GAME ON: GAME DESIGN AND SOCIAL INTERACTIONS
An interdisciplinary course that introduces students to principles of gaming which inform a broad spectrum of human behaviors and practices. By uncovering the analogies between games and social interactions and practices, the course provides a conceptual toolkit that can be applied towards navigating our increasingly gamified world.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2220  LE STROLLING INCOGNITO IN ATHENS: THE ART OF CITY WALKABOUTS
In this Honors seminar students will engage in structured walkabouts which will enable them to become active readers as well as writers of the text of the city of Athens. Emphasis upon the cityscape as a palimpsest exposes students to various discourses and urban morphologies (sociological, political, historical, aesthetic, etc.), and invites them to consider the semiotics of everyday social interactions in the city of Athens. Much of the course is taught on site.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2221  LE PERFORMING MASCULINITIES
(Same as HHU 2221)  
The course explores the construction of masculinities across different historical settings, and in the contexts of race, nationality, and sexuality. Adopting an interdisciplinary approach, the course offers students the opportunity to interrogate assumptions concerning maleness, rethink masculine identities, and develop awareness of masculinity as performance. Readings and material will be drawn from the humanities and social sciences, and popular culture.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2225  LE INNOVATION IN ACTION: A DESIGN-THINKING LABORATORY
A hands-on interdisciplinary course that introduces students to a fertile synthesis of Innovation Management theory and Design Thinking, a methodology that draws upon logic, imagination, intuition, and systemic reasoning to produce innovation in various business and social contexts. Bringing theory and practice together, the course will guide students to tackle a social, business, ecological, or cultural challenge of their choice through application of innovative problem-solving based on the principles of Design Thinking.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

### HSS 2285  NEW MEDIA AND THEIR AUDIENCES
Transition from the mainstream conventional media to the new media of the global age. Media in the 21st century and their social implications. Emphasis on the internet (Facebook, YouTube, blogs, search engines, Wikipedia), the emergence of convergence culture, new forms of networking and communities of cyberspace, transnational media and global audiences, alternative media, media power debates, cyberactivism and cyberprotest, the rise of a global public sphere.  
**Prerequisites:** WP 1010 WP 1111  
**US CR:** 3/0/3

**Regulations for validated awards of the Open University for institutions offering Dual awards**

The Regulations for validated awards of the Open University for institutions offering Dual awards document is an integral part of “The American College of Greece Undergraduate Catalog and Student Handbook” and is located at http://www.acg.edu/programs.
In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programs it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programs, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programs. ACG strives to eliminate unfair bias and stereotyping in the institution.

**ENGLISH EXIT AWARDS ‡ (English and American Literature)**

### I. Certificate of Higher Education (Cert HE)

The Certificate of Higher Education is awarded after one year of full-time study and requires that the student has successfully completed 120 credits at Level 4.

Students who have enrolled for a BA in Combined Studies (Regulatory Framework 5.1) with intention to transfer their registration to one of the conferrable OU-validated awards in English and American Literature will have completed the following eight courses to be awarded a Certificate of Higher Education (Cert HE).

Upon completion of eight Level 4 modules (120 credits or eight 15-credit modules), students will be able to:

- Demonstrate basic knowledge and understanding of a number of authors and texts from early periods of literary history, both English and American;
- Interpret texts through close reading;
- Demonstrate basic knowledge and understanding of the cultural contexts within which texts are produced and interpreted;
- Demonstrate basic knowledge of the various functions of language.

The Certificate of Higher Education (Cert HE) is awarded to students who can:

- Analyse and interpret texts;
- Structure and communicate ideas effectively orally and in writing;
- Produce clear responses under timed conditions.
II.a. Diploma of Higher Education in English and American Literature (DipHE)

The Diploma of Higher Education is awarded after two years of full-time study and requires that the student has successfully completed 240 credits of which 120 credits at Level 4 and 120 credits at Level 5.

Students who have enrolled for a BA in Combined Studies (Regulatory Framework 5.1) with intention to transfer their registration to one of the conferrable OU-validated awards in English and American Literature will have completed the following sixteen courses to be awarded a Diploma of Higher Education in English and American Literature (DipHE):

Upon completion of sixteen Level 4 and Level 5 modules (240 credits, that is 120 credits or eight 15-credit modules at Level 4 and 120 credits or eight 15-credit modules at Level 5), students will be able to:

- Demonstrate knowledge and understanding of a number of authors and texts from different periods of literary history, both English and American;
- Interpret through close reading a variety of texts, literary and theoretical;
- Demonstrate adequate knowledge of the various concepts and principles which govern language, literature and scholarship on literary texts;
- Employ research methods relevant to the discipline to retrieve information;
- Demonstrate adequate knowledge and understanding of the theoretical and cultural contexts within which texts are produced and interpreted.

The Diploma of Higher Education in English and American Literature (DipHE) is awarded to students who can:

- Reason critically;
- Analyse and interpret texts;
- Discuss scholarly views on literary works;
- Produce clear responses under timed conditions;
- Structure and communicate ideas effectively orally and in writing.

II.b. BA Ordinary in English and American Literature

The BA is awarded after three years of full-time study and requires that the student has successfully completed 300 credits of which 120 credits at Level 4, 120 credits at Level 5, and a minimum of 60 at Level 6.

Students who have enrolled for a BA in Combined Studies (Regulatory Framework 5.1) with intention to transfer their registration to one of the conferrable OU-validated awards in English and American Literature will have completed the following twenty courses to be awarded a BA in English and American Literature:

- BI 1101 Introduction to Biology II

### TOTAL: CREDITS = 60; MODULES = 4; EXIT AWARD: BA English Literature with Linguistics
In accordance with FHEQ, Certificates of Higher Education in Environmental Studies are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with Environmental Studies, and an ability to evaluate and interpret these within the context of that area of study;
- an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of their subject(s) of study.

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to Environmental Studies;
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- undertake further training and develop new skills within a structured and managed environment; and will have:
  - qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Specifically, holders of the Certificate of Higher Education in Environmental Studies of ACG-Deree (120 credits or six 20-credit modules) will be able to demonstrate knowledge and understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules: ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology, ES/CH 3241);
- the social, economic, political, health and ecological implications of human interactions with the environment. (ES 1000, ES 1010);
- the need for an interdisciplinary approach in addressing environmental problems (ES 1000, ES 1010);
- the concepts and dimensions of sustainability and sustainable development (ES 1000, ES 1010).

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to collect, process, interpret data and information on environmental issues and related topics.
- They will be able to describe and record materials in the field and laboratory, to interpret practical results in a logical manner and to use appropriate laboratory and field equipment competently and safely.
- They will be able to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate.

These skills are attained through all L4 modules (ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology, ES/CH 3241).

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Environmental Studies and the ordinary (non-Honours) degree in Environmental Studies.

In accordance with the Framework for Higher Education Qualifications (FHEQ), holders of qualifications at this level will have developed a sound understanding of the principles in Environmental Studies and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

In accordance with FHEQ, non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of Environmental Studies, and of the way in which those principles have developed;
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- knowledge of the main methods of enquiry in their subject(s), and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study;
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;
School of Liberal Arts and Sciences

and will have:
• qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Environmental Studies
Holders of the Diploma of Higher Education in Environmental Studies of ACG-Deree (240 credits or six 20 credit- and eight 15 credit-modules) will be able to demonstrate detailed knowledge and critical understanding of:
• core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules and ES/CH 3241 Environmental Chemistry)
• the role of social sciences in analysing and addressing environmental problems and of the social, economic, political, health and ecological implications of human interactions with the environment (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, BI 3215, ES 4017)
• human responses to environmental problems such as the development of environmental policy and law and environmental management, as well as of the importance of temporal and spatial scales in considering the environmental impact of human decisions in different environmental studies fields (ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241)
• the concepts and dimensions of sustainability and sustainable development and of some of their applications in addressing environmental issues in an integrated manner (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139)
• basic tools in mathematics and statistics, as well as of quantitative techniques and data processing methods including GIS techniques (ES 3240 Integrated Methods in Environmental Analysis I, GG 3115, MA 3111)

In addition, they will have the following cognitive skills:
• ability to recognize the moral and ethical issues of investigations, appreciate the need for professional codes of conduct and undertake a reasoned moral assessment of actions/persons/business practices (SO/ES 3002, ES 3240 Integrated Methods in Environmental Analysis I, ES 3220)
• ability to collect and analyse data and information on environmental issues using a range of techniques appropriate to the subject (all L4 and L5 modules to some extent)
• ability to critically evaluate the reliability and significance of data and information collected and the evidence provided to support conclusions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241)
• ability to categorize ideas, data and information, reformat and transform them towards a given purpose and propose solutions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3240)

the following practical/professional skills:
• ability to describe and record materials in the field and laboratory and to interpret practical results in a logical manner (all L4 modules, as they have a lab component, ES 3240 Integrated Methods in Environmental Analysis I)
• ability to use appropriate laboratory and field equipment competently and safely (all L4 modules, as they have a lab component, ES 3240 Integrated Methods in Environmental Analysis I)
• ability to select and apply a limited range of methods, including spatial techniques, to study and solve environmental problems (ES 3240 Integrated Methods in Environmental Analysis I, GG 3115, MA 3111)
• ability to plan, conduct and present an independent project effectively and appropriately with reliance

**HISTORY EXIT AWARDS**

### I. Certificate of Higher Education

Upon completion of level 4 (120 credits or 8 15-credit modules), students have 1) a basic grasp of the concepts and principles of History; 2) a series of basic transferable interpersonal, research and writing skills that are applicable to the professional world; 3) the knowledge and skills necessary for further progression in the field—for example, into the second year of a BA (Hons) programme in History such as that at Deree, The American College of Greece.

Specifically, Certificates of Higher Education in History are awarded to students who have demonstrated:

- Basic knowledge of significant past events in key periods and geographic areas. (all HY courses)
- Exposure to the idea of continuities/discontinuities between past and present.
- Exposure to both primary and secondary sources.
- A measure of knowledge in an array of humanities and social sciences (one level-4 module each in the social sciences and humanities).

In addition, they will have the following cognitive skills:

- A basic understanding of the variety of approaches to interpreting the past. (all HY courses)
- A basic exposure to the difficulty in reconstructing the past. (all HY courses)

Furthermore, they will have the following practical/professional and key/transferable skills:

- They will be able to produce basic, reasoned presentations of problems in timed situations. (all HY courses)
- They will be able to participate in group discussions. (all courses)
- They will be able to work to deadline. (all courses)

### II. Intermediate level

The Intermediate level includes the Diploma of Higher Education in History and the BA Ordinary (non-Honours) degree in History.
II.a. Diploma of Higher Education in History

Designed to follow upon the Certificate of Higher Education in History, the Diploma of Higher Education in History, broadens and deepens students’ engagement in the field of History through courses that enlist both synchronic and diachronic pathways of study. Upon completion of levels 4 and 5 (150 credits of 15-credit modules), students have 1) a solid grasp of the concepts and principles of history, 2) a series of transferable interpersonal research and writing skills that are applicable to the professional world, 3) the knowledge and skills necessary for further progression in the field—for example for The BA (Ord.) and (Hons) of Higher Education in History such as those offered by Deree, the American College of Greece.

Specifically, in addition to the characteristics listed under the Certificate above, holders of the Diploma of Higher Education in History will be able to demonstrate detailed knowledge and critical understanding of:

- Broadened and deepened factual knowledge of the history of specific areas and periods. (all HY courses)
- Engagement with diachronic runs of history (HY 3002, HY 3005, HY 3007, HY 3032)
- Engagement with regional or focused histories (HY 3009, HY 3019, HY 3021, HY 3030, HY 3040, HY 3060, HY 3061)
- A broadened and deepened knowledge of an array of humanities and social sciences (one level-5 module each in the social sciences and humanities)

In addition, they will have the following cognitive skills:

- The ability to analyze in a basic manner historical texts and other source material (all HY courses)
- A broadened understanding of the variety of ways of interpreting the past. (all HY courses)

And the following practical/professional and key/transferable skills:

- They will be able to communicate effectively in group discussions (all courses)
- They will have respect for the diversity of human cultures and achievements.
- They will be able to research with the basic capacity for effective and verifiable information retrieval and organization. (ALL COURSES WITH PAPERS)
- They will be able to construct basic relevant arguments from a body of evidence, including primary and secondary sources. (all HY courses and some of the Humanities courses—ie courses that have essay exams or papers)

II.b. BA Ordinary in History

Upon completion of 300 credits (20 15-credit modules), students will have 1) a solid grasp of the concepts and principles of History; 2) acquired skills in historical research, critical thinking, and the written presentation of data and oral expression that are transferable to the professional world; 3) Develop abilities to recognize the continuity and/or discontinuity of past experiences with contemporary ones; 4) the knowledge and skills necessary for further progression in the field—for example, for the final modules of a BA (Hons) programme in History such as that at Deree, The American College of Greece.

In addition to the knowledge and skills listed above under Certificate and Diploma, holders of the BA (Ordinary) in History will be able to demonstrate detailed knowledge and critical understanding of:

- Broadened and deepened knowledge of the History for specific geographic areas and periods. (HY 4041, HY 4074, HY 4050, HY 4051, HY 4052, HY 4053, HY 4072)
- In-depth knowledge of specific subjects/methodologies associated with History
- Understand the development of history as a discipline and an awareness of different historical methodologies. (HY4391)

In addition, they will have the following cognitive skills:

- They will be able to think creatively, self-critically and present, in both oral and written forms, historical arguments in a clear and comprehensive way.
- They will be able to manage and process complex body of information and data.
- They will be able to evaluate the limitations and partiality of all historical knowledge.

and the following practical/professional and key/transferable skills:

- Construct relevant arguments from a body of evidence, including primary and secondary sources.
- Do effective research with the capacity for critical, effective, and verifiable information retrieval and organization.
- Exercise skills of critical judgment in evaluating arguments.
- Use interpersonal skills, i.e. oral and written communication skills in English to work effectively in a professional environment.
- Manage information resources, selecting data from a range of sources and developing appropriate research techniques.

I. Certificate of Higher Education in Information Technology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Information Technology will have a sound knowledge of the basic concepts of Information Technology and will have learned how to apply different IT functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Typically, holders of the qualification will be able to:

- Apply a wide variety of computing functions to address basic problems;
- Communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;
- Undertake further training and develop new skills within a structured and managed environment;

And will have:

- Qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

- Apply the basic principles and concepts of programming;
- Apply basic mathematical and statistical techniques;
- Understand the basic psychological principles useful in the development of any IT solution.

Specifically, holders of the Certificate of Higher Education in Information Technology will be able to demonstrate knowledge and understanding of:

- Basic psychological principles (PS1000, PS1001)
- Basic tools in statistics (MA 2010)
- Basic mathematics (MA 1105)
- Structured and object-oriented computer programming (ITC 2188, ITC 2276)
- Basic design of computer hardware (ITC 2186)
- The fundamental concepts of operating systems (ITC 2293)

In addition, they will have the following cognitive, practical/ professional and key/transferable skills:

- They will be able to interpret, analyze, and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (MA2010)
- They will be able to apply appropriate theory, practices and tools to address design and implementation issues of information technology related problems. (ITC 2188, ITC 2186, ITC 2276, ITC 2293)
- They will be able to use numeric skills, including quantitative techniques in problem solving. (MA2010, MA1105, ITC 2186)
- They will be able to use Information Technology effectively to retrieve, process, analyze and communicate information with guidance. (all courses)
- They will be able to specify, design and construct solutions involving programming to given problems. (ITC 2188, ITC 2276)
- They will be able to determine the risks, controls and safety measures in the use of computing technologies (ITC 2293)
- They will be able to communicate ideas successfully orally and in writing. (PS1000, PS1001)
- They will be able to work effectively with others in small groups or teams. (ITC 2188)
- They will be able to reflect intellectual and function as an independent, self-managed lifelong learner. (all courses)

II. Intermediate level

The intermediate level includes the:

- Diploma of Higher Education in Information Technology

and the ordinary (non-Honours) degrees in:

- Information Technology

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of computing and a more specialized understanding of at least one function under Information Technology. Through this, they will have learned to apply different computing functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- Knowledge and critical understanding of the well-established principles of Information Technology
- Ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- Specialized knowledge of one Information Technology function and the ability to apply this knowledge, in combination with other computing functions, to meet the needs of a wide variety of applications;

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences;
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations.

And will have:

- Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.
II. a. Diploma of Higher Education in Information Technology

Upon completion of levels 4 and 5 (240 credits or 16 modules), students will be able to:

- Apply the basic principles and concepts of programming.
- Apply mathematical and statistical techniques.
- Understand the basic psychological principles useful in the development of any IT solution.
- Apply their knowledge of computing functions, ethics, and professional communication to solving complex IT related problems.

Holders of the Diploma of Higher Education in Information Technology will demonstrate knowledge and understanding of:

- Basic psychological principles (PS1001, PS1000)
- Basic design of computer hardware (ITC 2186)
- The fundamental concepts of operating systems (ITC 2293)

Additionally, holders of the Diploma of Higher Education in Information Technology will be able to demonstrate detailed knowledge and critical understanding of:

- IT related statistical and mathematical tools and techniques (MA 2010, MA 1105, ITC 3106)
- Moral theories and ethical issues which have an impact on decision making (PH 3005)
- Structured and object-oriented computer programming (ITC 2188, ITC 2276, ITC 3234)
- Tools, and techniques for database design, development and implementation. (ITC 3260)
- The principles of computer communications (ITC 3275)
- A measure of knowledge in an array of IT subjects (two level-5 modules from Software Development, Network Technologies or Digital Media Technologies)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to locate, extract, and analyze data from library and other resources including the acknowledgement and referencing of sources. (ITC 3275)
- They will be able to apply critical thinking in order to evaluate arguments and identify assumption to interpret, analyze, and solve structured problems as well as unstructured/complex problems, from a generated data set. (MA 2010, ITC 3260 and ITC 3413, ITC 3225, ITC 3413, ITC3121)
- They will be able to analyze and evaluate ethical choices. (PH 3005)
- They will be able to analyze various aspects of professional communication and evaluate effectiveness of oral as well as written communication. (EN 3942)
- They will be able to apply appropriate theory, practices and tools to address design and implementation issues of information technology related problems. (ITC 2188, ITC 2186, ITC 2276, ITC 3275, ITC 3234, ITC 2293, ITC 3260)
- They will be able to exhibit reasoning ability and creativity to address a given problem. (all modules)
- They will be able to use numeric skills, in solving complex problems. (MA 2010, MA 1105, ITC3106, ITC 2186)
- They will be able to use Information Technology effectively to retrieve, process, analyze and communicate information with guidance. (all modules)
- They will be able to specify, design and construct solutions involving programming to given problems. (ITC 2188, ITC 3240, ITC 2276, ITC 3234 and ITC 3225)
- They will be able to determine the risks, controls and safety measures in the use of computing technologies. (ITC 3260, ITC 3275, ITC 2293)

LIBERAL STUDIES EXIT AWARDS

The Liberal Studies programme is structured to be fairly balanced between the two subject areas selected by students. Compulsory modules are chosen such that they enable students to create an effective interdisciplinary synthesis between the two subject areas selected. In the same spirit, there is sufficient room for optional modules, thus enriching and deepening the students’ perception of the two subject areas selected. In its entirety, the Liberal Studies programme promotes the development of initiative, responsibility and independence in the pursuit of undergraduate study and, by implication, in personal life. It equips students with transferrable skills necessary for employment progression to other qualifications requiring exercise of personal responsibility and decision-making. Moreover, its embedded flexibility provides students with the theoretical foundation for undertaking further training and becoming lifelong learners.

I. Certificate of Higher Education in Liberal Studies

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Liberal Studies will have a sound knowledge of the basic concepts of the two subject areas selected and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. Certificates of Higher Education in Liberal Studies are awarded to students who have demonstrated:

1. knowledge of the underlying concepts and principles associated with the two subject areas selected, and an ability to evaluate and interpret these within the context of the two subject areas selected;
2. an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of the two subject areas selected.

Typically, holders of the qualification will be able to:

a. evaluate the appropriateness of different approaches to solving problems related to the two subject areas selected;
b. communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
c. undertake further training and develop new skills within a structured and managed environment.
and will have:

d. qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Liberal Studies students are awarded the Certificate of Higher Education in Liberal Studies upon completion of 120 credits at level 4, where they learn to define notions, as well as to formulate basic issues and themes in the two subject areas selected, mainly through introductory and historical modules in the respective areas.

Specifically, holders of the Certificate of Higher Education in Liberal Studies will have knowledge and understanding of:

- key concepts and notions in the two subject areas selected that are present in both everyday and/or in professional decision making where appropriate
- application of basic methodological techniques to topics in the two subject areas selected, thus aligning theory to practice

Moreover, holders of the Certificate of Higher Education in Liberal Studies will have the following key/transferable and practical/professional skills acquired through modules taken at level 4 in each of the subject areas selected:

- They will be able to effectively communicate information, arguments, and analysis, both orally and in writing
- They will have the basis for undertaking further training, as well as for developing existing and acquiring new competences

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Liberal Studies and the ordinary (non-Honours) degree in Liberal Studies.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in the two subject areas selected and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i. knowledge and critical understanding of the well-established principles of the two subject areas selected and of the way in which those principles have developed;
ii. ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
iii. knowledge of the main methods of enquiry in the two subject areas selected and ability to evaluate critically the appropriateness of different approaches to solving problems in the two subject areas selected;
iv. an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the two subject areas selected effectively;
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

and will have:

- qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Liberal Studies

Liberal Studies students are awarded the Diploma of Higher Education in Liberal Studies upon completion of 240 credits (120 at level 4 and 120 at level 5). At level 4, students learn to define notions, as well as to formulate basic issues and themes in the two subject areas selected, mainly through introductory and historical modules in the respective areas. At level 5, through a mix of relevant compulsory and optional modules, students acquire analytical skills and the ability to develop the argumentation of different perspectives, views and/or schools of thought in each of the two subject areas selected.

Specifically, holders of the Diploma of Higher Education in Liberal Studies will have detailed knowledge and understanding of:

- key concepts and notions in the two subject areas selected that are present in both everyday and/or in professional decision making where appropriate
- application of basic methodological techniques to topics in the two subject areas selected, thus aligning theory to practice
- theories, models and tools in the two subject areas selected
- major debates in the two subject areas selected

In addition, holders of the Diploma of Higher Education in Liberal Studies will have the following cognitive skills:

- They will be able to create an effective interdisciplinary synthesis between the two subject areas selected
- They will be able to analyze and synthesize issues relating to various fields in the two subject areas selected
- Finally, holders of the Diploma of Higher Education in Liberal Studies will have the following key/transferable and practical/professional skills:
  - They will be able to effectively communicate information, arguments, and analysis, both orally and in writing
  - They will have enhanced knowledge of the main methods of enquiry in the two subject areas selected, equipping them the basis for undertaking further training, as well as for developing existing and acquiring new competences
  - They will have the theoretical foundation for undertaking further training and becoming lifelong learners

II.b. BA in Liberal Studies

Liberal Studies students are awarded the BA in Liberal Studies upon completion of 300 credits (120 at level 4, 120 at level 5, and 60 at level 6). At level 4, students learn to define notions, as well as to formulate basic issues and themes in the two subject areas selected, mainly through introductory and historical modules in the respective areas. At level 5, through a mix of relevant compulsory and optional modules, students acquire analytical skills and the ability to develop the argumentation of different perspectives, views and/or schools of thought in each of the two subject areas selected. At level 6, through a mix of optional modules (two in each of the subject areas selected), students acquire the ability to use a range of established techniques to initiate and undertake critical analysis of information in each of the two subject areas selected.

Specifically, holders of the BA in Liberal Studies will have detailed knowledge and critical understanding of:

- key concepts and notions in the two subject areas selected that are present in both everyday and/or in professional decision making where appropriate
- application of basic methodological techniques to topics in the two subject areas selected, thus aligning theory to practice
- theories, models and tools in the two subject areas selected
- the interrelationships between the conceptual frameworks that distinguish the two subject areas selected

In addition, holders of the ordinary BA in Liberal Studies will have the following cognitive skills:

- They will be able to create an effective interdisciplinary synthesis between the two subject areas selected
- They will be able to analyze and synthesize issues relating to various fields in the two subject areas selected
- They will be able to critically evaluate information and material relevant to the two subject areas selected and in a style appropriate to these subject areas
Finally, holders of the ordinary BA in Liberal Studies will have the following key/transferable and practical/professional skills:

- They will be able to effectively communicate information, arguments, and analysis, both orally and in writing
- They will have enhanced knowledge of the main methods of enquiry in the two subject areas selected, equipping them the basis for undertaking further training, as well as for developing existing and acquiring new competences
- They will be able to use a range of established techniques to initiate and undertake critical analysis of information and to propose solutions to problems arising from that analysis in the two subject areas selected
- They will have the theoretical foundation for undertaking further training and becoming lifelong learners
- They will have the ability to demonstrate a measure of knowledge in two different disciplines, thus becoming better informed citizens and professionals

I. Certificate of Higher Education in Sociology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Sociology will have a sound knowledge of the basic concepts of Sociology and will have learned how to identify, through different theoretical approaches, sociological issues across a range of social contexts and social problems. The holder will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Sociology are awarded to students who have demonstrated:

• knowledge of the underlying concepts and principles associated with Sociology, and an ability to evaluate and interpret these within the context of Sociology;
• an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of Sociology;

Typically, holders of the qualification will be able to:

• evaluate the appropriateness of different theoretical approaches to discern social problems and issues related to Sociology;
• communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
• undertake further training and develop new skills within a structured and managed environment; and will have:
• qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 15-credit modules), students will be able to i) recognize and be familiar with key sociological concepts that are present in both everyday as well as in macro-level; ii) understand how foundational concepts in sociology apply to key sociological fields like social inequality, family and gender and social problems.

Specifically, holders of the Certificate of Higher Education in Sociology will be able to demonstrate knowledge and understanding of:

• Core sociological concepts and principles (SO 1000, SO 1001)
• Basic tools in analysis of behavioural data (SO 2047)
• The importance of inequality and gender across modern social institutions, applied also to a variety of social problems (SO 2004, SO 2020, SO 2030)
• A measure of knowledge in an array of social sciences (two level-4 modules in social sciences)

In addition, they will have the following practical/professional and key/transferable skills:

• They will be able to learn sampling techniques to obtain data in order to conduct surveys (SO 2047)
• They will be able to use statistical skills to measure and interpret social inequality magnitudes (SO 2047, SO 2030)
• Recognize and apply key sociological concepts and sophisticated theoretical reasoning across a range of social issues and problems (SO 1000, SO 1001, SO 2004, SO 2020, SO 2030)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Sociology and the ordinary (non-Honours) degree in Sociology.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Sociology and will have learned to apply those principles more widely. Through this, they will have learned how to identify, via different theoretical approaches, sociological issues across a range of social contexts and social problems. They will have the qualities necessary for employment in contexts and situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

• knowledge and critical understanding of the foundational principles of Sociology and of the way in which those principles have developed historically;
• ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in across the local, the national, the regional and the global context;
• knowledge of the main methods of enquiry in Sociology and ability to evaluate critically the appropriateness of different approaches to interpret issues and problems in Sociology;
• an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

• use a range of established techniques to initiate and undertake critical analysis of sociological information, and to apply these tools to concrete situations and contexts;
• effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
• undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations; and will have:
• qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Sociology

Upon completion of levels 4 and 5 (240 credits or sixteen [16] 15-credit modules), students will be able to i) recognize and be familiar with key sociological concepts that are present in both everyday as well as in professional decision making; ii) apply basic mathematical techniques to sociological topics, thus aligning theory to practice; iii) demonstrate detailed knowledge of theoretical paradigms, models, and tools of micro-and macro-sociology; iv) apply the methodological tools associated with sociology’s classical founders, v) analyze and evaluate major debates in the context of globalization and social change.

Specifically, holders of the Diploma of Higher Education in Sociology will be able to demonstrate detailed knowledge and critical understanding of:

• Core sociology concepts and principles (SO 1000, SO 1001)
• Basic tools in analysis of behavioural data (SO 2047)
• The importance of inequality and gender across modern social institutions, applied also to a variety of social problems (SO 2004, SO 2020, SO 2030)
In addition, they will have the following cognitive skills:

- They will be able to apply the theories and methodological tools associated with classical founders (SO 3260)
- They will be able to analyze and synthesize issues relating to various fields in Sociology (three level-5 modules in Sociology)

and the following practical/professional and key/transferable skills:

- They will be able to use an array of quantitative tools in order to conduct surveys and to measure data relevant to sociological methodology (SO 3511)
- They will be able to use mathematical and statistical skills to measure and interpret sociological magnitudes, including social inequality (SO 2047, SO 2004, SO 3411)
- They will be able to apply and use micro- and macro-sociology, including social inequality (SO 2047, SO 2004, SO 3411)
- They will be able to apply a wide range of qualitative techniques to sociological issues (SO 3416)
- They will be able to prepare theory oriented papers with application on a variety of sociological topics and charts on research results (three level-5 modules in Sociology)

II.b. BA in Sociology

Upon completion of 300 credits (twenty (20) 15-credit modules), students will be able to

1. recognize and be familiar with key sociological concepts that are present in both everyday as well as in professional decision making;
2. apply basic mathematical techniques to sociological topics, thus aligning theory to practice; iii. demonstrate detailed knowledge of theoretical paradigms, models, and tools of micro- and macro-sociology;
4. apply the methodological tools associated with sociology’s classical founders and how these are reconstructed across a variety of sociological specialisms;
5. analyze and evaluate major debates in the context of globalization and social change;
6. analyze and synthesize with minimum guidance issues relating to diverse fields in Sociology

Specifically, holders of the ordinary BA in Sociology will be able to demonstrate detailed knowledge and critical understanding of:

- Core sociology concepts and principles (SO 1000, SO 1001)
- Basic tools in analysis of behavioural data (SO 2047)
- The importance of inequality and gender across modern social institutions, applied also to a variety of social problems (SO 2004, SO 2020, SO 2030)
- A measure of knowledge in an array of social sciences (two level-4 modules in social sciences)
- Classical sociology’s explanation of modernity and of the epistemological backdrop of the methodological approaches set by its founding thinkers (SO 3260)
- Major globalization debates (SO 3115, SO 3235) and of social movements along with their theoretical diversity and collective scope (SO 4313)
- The application of sociological theory across sociology specialisms (Four 50 Level 6 Options)

In addition, they will have the following cognitive skills:

- They will be able to apply the theories and methodological tools associated with classical founders and contemporary theorists in sociology (SO 3260)

They will be able to use Information Technology effectively to retrieve, process, analyze and communicate information with guidance (all courses).

They will be able to make use of qualitative and/or quantitative tools in analysing and solving financial and managerial problems (MA 2021).

They will be able to communicate ideas effectively orally and/or in writing. (BU 2002, MK 2030, IB 2006, MG 2003)

II. Intermediate level
The intermediate level includes the Diploma of Higher Education in Business Administration and the ordinary (non-Honours) degree in Business Administration (Accounting with Finance).

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of General Business and Management and a more specialized understanding of one function under Business Administration. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) knowledge and critical understanding of the well-established principles of General Business and Management;

ii) ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;

iii) specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations;

Typically, holders of the qualification will be able to:

a) use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;

I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with management and all business administration functions, and an ability to evaluate and interpret these within internal and external business contexts;
- an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

- apply a wide variety of business functions to solving basic business-related problems;
- communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;
- undertake further training and develop new skills within a structured and managed environment; and will have:
- qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

- Core entrepreneurship management concepts, principles and practices (MG 2062)
- Basic tools in statistics (MA 2021)
- The legal environment for business (BU 2002)
- The evolving international business environment (IB 2006)
- Management theories, concepts, principles and practices (MG 2003)
- The fundamentals of marketing research, consumer behavior and marketing strategy (MK 2030)

I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with management and all business administration functions, and an ability to evaluate and interpret these within internal and external business contexts,

ii) an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

a) apply a wide variety of business functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment; and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

• Core economic concepts and principles (EC 1101)

• Basic tools in statistics (MA 2021)

• The legal environment for business (BU 2002)

• The evolving international business environment (IB 2006)

• Management theories, concepts, principles and practices (MG 2003)

• The fundamentals of marketing research, consumer behavior and marketing strategy (MK 2030)

• Accounting transactions and non-complex financial statements (AF 2006)

• Business functional and cross-functional information systems (CS 2179)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

• They will be able to locate, extract, and analyze data from library and other resources including the acknowledgement and referencing of sources. (MK 2030)

• They will be able to analyze and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (BU 2002, MG 2003, MK 2030, CS 2179, MA 2021, EC 1101, AF 2006, IB 2006)

• They will be able to analyze ethical choices in business. (MG 2003, CS 2179, IB 2006)

• They will be able to use numeric skills in solving problems of increasing complexity and, depending on the course level, with increasing autonomy. (CS 2179, MA 2021, AF 2006, MK 2030)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Business Administration and the ordinary (non-Honours) degree in Business Administration (Human Resource Management).

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of General Business and Management and a more specialized understanding of one function under Business Administration. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) knowledge and critical understanding of the well-established principles of General Business and Management;

ii) ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;

iii) specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations.

Typically, holders of the qualification will be able to:

a) use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;

b) effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences;

c) undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with all Business Administration functions, and an ability to evaluate and interpret these within internal and external business contexts;
- an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of General Business and Management.

Typically, holders of the qualification will be able to:

- apply a wide variety of business functions to solving basic business-related problems;
- communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;
- undertake further training and develop new skills within a structured and managed environment; and will have:
  - qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

- Core economic concepts and principles (EC 1101)
- Tools and techniques in applied statistics (MA 2021)
- The legal environment for business (BU 2002)
- The evolving international business environment (IB 2006)
- Management theories, concepts, principles and practices (MG 2003)

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with management and all business administration functions, and an ability to evaluate and interpret these within internal and external business contexts;

ii) an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

a) apply a wide variety of business functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment;

and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

- Core economic concepts and principles (EC 1101)
- Basic tools in statistics (MA 2021)
- The legal environment for business (BU 2002)
- The evolving international business environment (IB 2006)
- Management theories, concepts, principles and practices (MG 2003)

OPERATIONS MANAGEMENT EXIT AWARDS

I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with management and all business administration functions, and an ability to evaluate and interpret these within internal and external business contexts;

ii) an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

a) apply a wide variety of business functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment; and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

- The principles, functions, role and impact of operations in a high performance business system (MG 2063)
- Basic tools in statistics (MA 2021)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to locate, extract, and analyze data from library and other resources including the acknowledgement and referencing of sources. (MG 2063, MK 2030)
- They will be able to analyze and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (BU 2002, MG 2003, MK 2030, CS 2179, MA 2021, MG 2063, AF 2006, IB 2006)
- They will be able to analyze ethical choices in business. (MG 2063, MG 2003, CS 2179, IB 2006)
- They will be able to use numeric skills in solving problems of increasing complexity. (CS 2179, MA 2021, AF 2006, MG 2063, MK 2030)
- They will be able to use information technology effectively to retrieve, process, analyze and communicate information with guidance. (CS 2179)
- They will be able to use qualitative and/or quantitative tools in analyzing and solving financial and managerial problems. (MG 2063, MA 2021, AF 2006)
- They will be able to communicate ideas effectively orally and/or in writing in a professional context. (MG 2063, MK 2030)
- They will be able to reflect intellectual and function as an independent, self-managed lifelong learner. (all courses)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Business Administration and the ordinary (non-Honours) degree in Business Administration (Operations Management).

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of General Business and Management and a more specialized understanding of one function under Business Administration. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) knowledge and critical understanding of the well-established principles of General Business and Management;

ii) ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;

iii) specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations.

Typically, holders of the qualification will be able to:

a) use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis.
b) effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences;
c) undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;
and will have:
d) qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

The Quality Assurance Agency’s Quality Code for Higher Education in relation to the ‘Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies’ (October 2014) specifies that students who exit a Bachelor’s programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BSc(Ord)).

I. Certificate of Higher Education in Finance

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificate of Higher Education is awarded to students who have demonstrated:
• knowledge of the underlying concepts and principles in Finance and financial analysis and an ability to evaluate and interpret financial information (delivered and assessed through AF 2006, EC 1000, EC 1101, FN 2028, FN 2127)
• an ability to present, evaluate and interpret qualitative and quantitative data (delivered and assessed through all Level 4 modules)

Typically, holders of the qualification will be able to:
• evaluate the appropriateness of different approaches to solving problems related to finance and business problems (AF 2006, FN 2028, FN 2127, MA 2021, MG 2003)
• undertake further training and develop new skills within a structured and managed environment (AF 2006, EC 1000, EC 1001, FN 2028, FN 2127, MA 2021)

And holders will have:
• the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfillment of all assessment components in Level 4 modules in a responsible and professional manner).

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Finance and the ordinary (non-Honours) degree in Finance.

II.a. Diploma of Higher Education in Finance

Students that exit the programme upon completion of Level 4 and Level 5 [having obtained 120 credits at each level] will be eligible for the award of a Diploma of Higher Education (DipHE) in Finance.

Holders of qualifications at this level will have developed a sound understanding of the principles in finance and financial analysis, and will have learned to apply those principles in different business settings. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.
Diplomas of Higher Education are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles in financial analysis and business structure (delivered and assessed through all Level 4 and Level 5 modules)
- ability to apply underlying concepts and principles outside in unstructured settings (delivered and assessed through EC 3240, FN 3137, FN 3232, FN 3319, PH 3005, MG 3133)
- knowledge of the main methods of enquiry in finance and ability to evaluate critically the appropriateness of different approaches to solving problems (FN 3137, FN 3232, FN 3319, MA 3005, PH 3005)

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (delivered and assessed through all Level 5 modules)
- effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (delivered and assessed through all Level 5 modules)
- undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organizations (delivered and assessed through MG 3133, PH 3005, EC 3240, FN 3137, FN 3232, FN 3319).

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

II.b. BSc in Finance

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BSc (Ord) – in Finance.

Typically, holders of the qualification will be able to:

- Develop a systematic understanding of financial theory (FN 4452, FN 4535, plus two elective courses in Finance)
- An ability to use quantitative techniques in analysing financial data and constructing efficient portfolios (FN 4452, FN 4535, plus two elective courses in Finance)
- An ability to develop arguments (FN 4452, FN 4535, plus two elective courses in Finance)
- An ability to reach decisions in unstructured situations (FN 4452, FN 4535, plus two elective courses in Finance)

HEALTH CARE MANAGEMENT EXIT AWARDS

The Quality Assurance Agency’s Quality Code for Higher Education in relation to the ‘Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies’ (October 2014) specifies that students who exit a Bachelor’s programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BScOrd).

As explained in other parts of the documentation, there are currently no specified QAA benchmark statements for the subject area of Healthcare Management. Therefore in devising the programme’s content and quality assurance features, the team relied (as applicable) on the generic Business and Management subject benchmark statements. Section 2.1 of this document provides a specification of the programme-level objectives and learning outcomes. Therefore a combination of the above sets of guidelines has been used in specifying the requirements that must be met by students exiting the programme at various points prior to its full completion so that they can qualify for an Exit Award.

I. Certificate of Higher Education in Health Care Management

According to the above frameworks, students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in Health Care Management.

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificates of Higher Education are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with their area(s) of study, and an ability to evaluate and interpret these within the context of that area of study (delivered and assessed through ‘Introduction to Healthcare Management’, MG 2003, BU 2002, IB 2006)
- an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of their subject(s) of study (delivered and assessed through all Level 4 modules)

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to their area(s) of study and/or work (MA 2021, MG 2003, AF 2006, CS 2179)
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments (delivered and assessed through all Level 4 modules)
- undertake further training and develop new skills within a structured and managed environment (AF 2006, MA 2021)

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfillment of all assessment components in Level 4 modules in a responsible and professional manner).

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Health Care Management and the ordinary (non-Honours) degree in Health Care Management.

II.a. Diploma of Higher Education in Health Care Management

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in Health Care Management.

Holders of qualifications at this level will have developed a sound understanding of the principles in their field of study, and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Diplomas of Higher Education are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed (delivered and assessed through all Level 4 and Level 5 modules)
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context (SO 3007, PH 3005, MG 3034, ‘Foundations of Corporate Finance’, ‘Delivery of Healthcare Quality Services’, ‘Healthcare Marketing’, ‘Healthcare Information Systems’)
- knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study (delivered and assessed through ‘Business Research Methods’)
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge (delivered and assessed through ‘Business Research Methods’)

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (delivered and assessed through all Level 5 modules)
- effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (delivered and assessed through all Level 5 modules)
- undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organizations (delivered and assessed through MG 3034, PH 3005, ‘Healthcare Marketing’, ‘Delivery of Healthcare Quality Services’).

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

II.b. BSc in Health Care Management

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BSc – in Healthcare Management (HM 4200, HM 4250, HM 4141, HM 4045).

Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BSc(Ord)).

This section details the exact requirements for the award of one of the above exit qualifications based on QAA’s generic specifications of each Level’s requirements, as well as the relevant Subject Benchmark Statements corresponding to Tourism and Hospitality Management.

According to the latter, an honours graduate in tourism will be able to demonstrate an understanding of the concepts and characteristics of tourism as an area of academic and applied study, including being able to:
• understand and appreciate the potential contributions of disciplines that help to explain the nature and development of tourism
• explain and challenge theories and concepts which are used to understand tourism
• explain and challenge the definitions, nature and operations of tourism
• demonstrate an understanding of the domestic and international nature and dimensions of tourism
• utilise a range of source material in investigating tourism
• demonstrate an awareness of the dynamic nature of tourism in modern societies
• understand the intercultural dimensions of tourism.

Furthermore, an honours graduate in tourism will be able to demonstrate understanding of the nature and characteristics of tourists and, in particular:
• be able to explain the patterns and characteristics of tourism demand and the influences on such demand
• have an understanding of the ways in which tourists behave at destinations
• understand the cultural significance of tourism for tourists and societies.

Additionally, an honours graduate in tourism will be able to demonstrate an understanding of the products, structure and interactions in the tourism industry, including being able to:
• demonstrate an understanding of the structure, operation and organisation of the public, private and not-for-profit sectors and their activities
• evaluate the factors that influence the development of organisations operating in tourism
• analyse relations between consumers of tourism and the providers of tourism services.

Finally, an honours graduate in tourism will be able to demonstrate understanding of the relationships between tourism and the communities and environments in which it takes place, in particular:
• being able to evaluate the contribution and impacts of tourism in social, economic, environmental, political, cultural and other terms
• having an understanding of, and being able to evaluate, the approaches to managing the development of tourism through concepts of policy and planning
• appreciating the ethical issues associated with the operation and development of tourism.
• having an understanding of the issues and principles of sustainability and social responsibility in the context of tourism.

Similarly, according to the same document, an honours graduate in hospitality will be able to analyse and evaluate the defining characteristics of hospitality as a phenomenon, including being able to:
• critically reflect upon the origin, meanings and development of hospitality
• analyse and reflect on the different cultural concepts of hospitality
• demonstrate a critical awareness of the boundaries of hospitality.

Furthermore, an honours graduate in hospitality will be able to use technical and interpersonal skills and knowledge to propose and evaluate practical and theoretical solutions to complex problems in the core areas of hospitality, including being able to:
• operate and manage human and technical resources
• apply theory to the solution of complex problems within the core areas of hospitality
• analyse and evaluate food, beverage and/or accommodation service systems, their implementation and operation.

In addition, an honours graduate in hospitality will be able to evaluate and apply, within the hospitality context, appropriate theories and concepts from the generic management areas of:
• operations management
• finance and management accounting
• human resources and organisational behaviour
• services marketing
• information systems and technology
• strategic management.

Additionally, an honours graduate in hospitality will be able to analyse and evaluate the business environment and its impact on the hospitality industry, including being able to:
• display an insight into the structure of the hospitality industry and the contribution that it makes to the global economy
• analyse and reflect upon the environmental influences which impact on hospitality organisations
• evaluate the factors which influence the development of organisations operating within the hospitality industry
• review and analyse the political, technological, social and economic factors which affect the supply of and demand for hospitality.

Also, an honours graduate in hospitality will be able to recognise and value the centrality of the hospitality consumer and meet and respond to their needs, including being able to:
• understand and apply the theories and concepts underpinning consumer behaviour within the hospitality context
• analyse the needs and expectations of different hospitality consumers and develop appropriate responses
• analyse the quality of the service encounter and its impact on the hospitality consumer and the service provider.

Finally, an honours graduate in hospitality will be able to identify and respond appropriately to the diversity that prevails within the hospitality industry in relation to stakeholders, such as:
• hospitality consumers
• hospitality employees
• hospitality organisations
• government and external agencies.

In relation to the above framework, the following paragraphs demonstrate the coverage of these requirements at the different stages of the students’ progression in the programme by relating them to the content and assessment of modules delivered at each level of study.

I. Certificate of Higher Education in International Tourism and Hospitality Management

Students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in International Tourism and Hospitality Management.

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificates of Higher Education are awarded to students who have demonstrated:
• knowledge of the underlying concepts and principles associated with their area(s) of study, and an ability to evaluate and interpret these within the context of that area of study (HT 1001, HT 2116, HT 2010, MG 2003, BU 2002, IB 2006)
• an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of their subject(s) of study (all Level 4 modules)

Typically, holders of the qualification will be able to:
• evaluate the appropriateness of different approaches to solving problems related to their area(s) of study and/or work (MA 2021, MG 2003, HT 2010, HT 2116)
• communicate the results of their study/work accurately and reliably, and with structured and coherent arguments (all Level 4 modules)
• undertake further training and develop new skills within a structured and managed environment (HT 2116, HT 2010)

And holders will have:
• the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfilment of all assessment components in Level 4 modules in a responsible and professional manner).

II. Intermediate level
The Intermediate level includes the Diploma of Higher Education in International Tourism and Hospitality Management and the ordinary (non-Honours) degree in International Tourism and Hospitality Management.
II.a. Diploma of Higher Education in International Tourism and Hospitality Management
Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in International Tourism and Hospitality Management.

Holders of qualifications at this level will have developed a sound understanding of the principles in their field of study, and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Their studies may well have had a vocational orientation, for example HNDs, enabling them to perform effectively in their chosen field. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

These degrees are awarded to students who have demonstrated:
• knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed (all Level 4 and Level 5 modules)
• ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context (SO 3009, HT 3113, HT 3115, PH 3005, MG 3034A)
• knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study (BU 3233)
• an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge (BU 3233)

Typically, holders of the qualification will be able to:
• use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (all Level 5 modules)
• effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (all Level 5 modules)
• undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organisations (HT 3115, HT 3131, HT3118, PH 3005).

And holders will have:
• the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

II.b. BSc in International Tourism and Hospitality Management
Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BSc – in International Tourism and Hospitality Management.

MANAGEMENT INFORMATION SYSTEMS EXIT AWARDS

I. Certificate of Higher Education in Management Information Systems

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Management Information Systems will have a sound knowledge of the basic concepts of Management Information Systems and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Management Information Systems are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with all Management Information Systems functions, and an ability to evaluate and interpret these within internal and external business contexts;

ii) an ability to retrieve, analyse, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of Management Information Systems.

Typically, holders of the qualification will be able to:

a) apply a wide variety of Management Information Systems functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment;

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

i) recognize and be familiar with key Management Information Systems functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Management Information Systems will be able to demonstrate knowledge and understanding of:

• Core economic concepts and principles (EC 1101)

• Basic tools in statistics (MA 2010)

• The legal environment for business (BU 2002)

• Management theories, concepts, principles and practices (MG 2003, IB 2006)

• The fundamentals of marketing research, consumer behaviour and marketing strategy (MK 2030)

• Accounting transactions and non-complex financial statements (AF 2006)

• Business functional and cross-functional information systems (CS 2179)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

• They will be able to locate, extract, and analyse data from library and other resources including the acknowledgement and referencing of sources. (MG 2003, MK 2030)

• They will be able to interpret, analyse, and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (MA 2010, EC 1101, AF 2006, BU 2002, MG 2003, MK 2030, CS 2179)

They will be able to develop and critically evaluate arguments and evidence including identifying assumptions and detecting false logic. (IB 2006)

They will be able to analyse and evaluate ethical choices in business. (BU 2002, MG 2003, CS 2179, IB 2006)

They will be able to recognize and analyse the requirements and practical constraints of different types of information systems. (CS 2179)

They will be able to use numeric skills, including quantitative financial techniques, in solving complex problems. (EC 1101, CS 2179, MA 2010, AF 2006, MK 2030)

They will be able to use Information Technology effectively to retrieve, process, analyse and communicate information with guidance. (all courses)

They will be able to relate the importance of people management within projects in terms of resource allocation, leadership, teamwork, and motivation. (CS 2179)

They will be able to communicate ideas successfully orally and in writing, and to adapt message content to a particular audience and medium of communication in a professional context. (BU 2002, MG 2003, MK 2030, IB 2006)

They will be able to develop interpersonal, teamwork and/or leadership skills and work effectively with others in small groups or teams. (MG 2003, IB 2006, MK 2030)

They will be able to reflect intellectual and function as an independent, self-managed lifelong learner. (all courses)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Management Information Systems and the ordinary (non-Honours) degree in Management Information Systems.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of Management Information Systems. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) knowledge and critical understanding of the well-established principles of Management Information Systems,

ii) ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context,

iii) specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations.

Typically, holders of the qualification will be able to:

a) use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis,

b) effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences,

c) undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

d) qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Studies are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with all business administration functions, and an ability to evaluate and interpret these functions within internal and external business contexts;

ii) an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

a) apply a wide variety of business functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment;

and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Studies will be able to demonstrate knowledge and understanding of:

- Core economic concepts and principles (EC 1101)
- Basic tools in statistics (MA 2118)
- The legal environment for business (BU 2002)
- The evolving international business environment (IB 2006)
- Management theories, concepts, principles and practices (MG 2003)
- The fundamentals of marketing research, consumer behavior and marketing strategy (MK 2050)
- Accounting transactions and non-complex financial statements (AF 2006)
- Business functional and cross-functional information systems (CS 2179)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to locate, extract and analyze data from library and other resources including the acknowledgement and referencing of sources. (MG 2003, MK 2050)
- They will be able to interpret, analyze and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (BU 2002, MG 2003, MK 2050, CS 2179, MA 2118, EC 1101, AF 2006, IB 2006)
- They will be able to analyze ethical choices in business. (BU 2002, MG 2003, CS 2179, IB 2006)

I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with all Business Administration functions, and an ability to evaluate and interpret these within internal and external business contexts;
- an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of General Business and Management.

Typically, holders of the qualification will be able to:

- apply a wide variety of business functions to solving basic business-related problems;
- communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;
- undertake further training and develop new skills within a structured and managed environment; and will have:
- qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business. Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

- Core economic concepts and principles (EC 1101)
- Basic tools in statistics (MA 2118)
- The legal environment for business (BU 2002)
- Structured and object-oriented computer programming (CS 2188)
- Management theories, concepts, principles and practices (MG 2003)
- The fundamentals of marketing research, consumer behavior and marketing strategy (MK 2050)
- Accounting transactions and non-complex financial statements (AF 2006)
- Business functional and cross-functional information systems (CS 2179)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to locate, extract, and analyze data from library and other resources including the acknowledgement and referencing of sources. (MG 2003, MK 2050)
- They will be able to interpret, analyze, and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (BU 2002, MG 2003, MK 2050, CS 2179, MA 2118, EC 1101, AF 2006)
- They will be able to analyze ethical choices in business. (BU 2002, MG 2003, CS 2179)

- They will be able to apply appropriate theory, practices and tools to address design and implementation issues of information technology related problems. (CS 2188)
- They will be able to specify, design and construct solutions involving programming to given problems. (CS 2188)
- They will be able to use Information Technology effectively to retrieve, process, analyze and communicate information with guidance. (all courses)
- They will be able to communicate ideas successfully orally and in writing. (BU 2002, MG 2003, MK 2050)
- They will be able to work effectively with others in small groups or teams. (MG 2003, CS 2179, MK 2050)
- They will be able to reflect intellectual and function as an independent, self-managed lifelong learner. (all courses)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Business Administration and the ordinary (non-Honours) degree in Business Administration (Computer Information Systems).

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of General Business and Management and a more specialized understanding of one function under Business Administration. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of General Business and Management;
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences;
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations; and will have:
- qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

School of Business
I. Certificate of Higher Education in Business Administration

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Business Administration will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Business Administration are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with management and all business administration functions, and an ability to evaluate and interpret these within internal and external business contexts;

ii) an ability to retrieve, analyze, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of general business and management.

Typically, holders of the qualification will be able to:

a) apply a wide variety of business functions to solving basic business-related problems;

b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;

c) undertake further training and develop new skills within a structured and managed environment; and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 modules), students will be able to:

i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business.

Specifically, holders of the Certificate of Higher Education in Business Administration will be able to demonstrate knowledge and understanding of:

• Core economic concepts and principles (EC 1101)
• Basic tools in statistics (MA 2118)
• The legal environment for business (BU 2002)
• The evolving international business environment (IB 2006)
• Management theories, concepts, principles and practices (MG 2003)
• The fundamentals of shipping management and the concepts concerning the physical, economic and regulatory environment in which shipping operates (MG 1010)
• Accounting transactions and non-complex financial statements (AF 2006)
• Business functional and cross-functional information systems (CS 2179)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

• They will be able to locate, extract, and analyze data from library and other resources including the acknowledgement and referencing of sources. (MG 2003)
• They will be able to interpret, analyze, and solve structured problems, and to a limited extent unstructured problems, from a generated data set. (BU 2002, MG 1010, MG 2003, CS 2179, MA 2118, EC 1101, AF 2006, IB 2006)
• They will be able to analyze ethical choices in business. (BU 2002, MG 2003, CS 2179, IB 2006)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Business Administration and the ordinary (non-Honours) degree in Business Administration (Shipping Management).

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of General Business and Management and a more specialized understanding of one function under Business Administration. Through this, they will have learned to apply different business functions to solving a wider array of increasingly complex problems with increasing autonomy. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) knowledge and critical understanding of the well-established principles of General Business and Management,

ii) ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context,

iii) specialised knowledge of one business function and the ability to apply this knowledge, in combination with other business functions, to meet the administrative needs of a wide variety of organisations.

Typically, holders of the qualification will be able to:

a) use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;

b) effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences;

c) undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations; and will have:

d) qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

CAMPUS

The Aghia Paraskevi Campus

The American College of Greece’s main campus is located in Aghia Paraskevi, an eastern suburb of Athens. The campus contains the following buildings and facilities: The Deree main building, the Communication building, the Center for the Arts building, the Library, the Athletic Complex, the College Chapel, the Open Air Theatre, and Residence buildings. In addition, the campus houses PIERCE, ACG’s high school.

The Athletic Complex

Deree-ACG has an athletic complex of international scope and standards. Its gymnasium is built on three levels and includes on the main level two cross-court basketball/volleyball areas, one game court, and a climbing wall. A modern fitness center and three dance aerobics studios are located on the lower level of the gym. The top level includes the Office of Athletics and a sports lounge area. The outdoor facilities consist of an Olympic-size heated indoor/outdoor swimming pool, 6-lane synthetic 400 meter track, two-star UEFA soccer field surfaced with synthetic turf, and four acrylic latex tennis courts. All outdoor athletic areas are lighted. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and wellness. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and wellness.

The Black-Box Theatre

The studio theatre is the simplest form of theater space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

The Center for the Arts

The Center for the Arts, a 1,700-square-meter three-story building, includes gallery space for exhibitions, classrooms specially designed for the teaching of painting and sculpture, rooms for music performance practice, a state-of-the-art computer lab, a Starbucks coffee shop and an atrium for outdoor displays and events.

The College Chapel

A Byzantine-style chapel, on a slope overlooking the Aghia Paraskevi campus, serves the College community on occasions such as christenings and weddings. Students may also visit the chapel for meditation and quiet reflection.

The Communication Building

The Communication Building houses a Black box theatre, appropriately designed classrooms, labs and workspaces, and faculty offices. The Black-Box Theatre is the simplest form of theatre space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

ACG Health & Wellness Center

The ACG Health & Wellness Center offers Health and Wellness Coaching Services.

LIBRARY

John S. Bailey Library, named in honor of the College’s sixth president, provides extensive print, electronic and audio-visual resources in support of the College’s academic programmes. The attractive, quiet and modern environment offers an ideal setting for students to study, conduct research, connect with peers, or read for pleasure.

Available resources include:

- 129,000 books
- 132,000 e-books
- 12 million academic articles
- 1.6 million digital images
- 1,550 educational DVDs and videocassettes
- 780 music CDs

The electronic library (library.acg.edu) provides access to full text articles, abstracts, financial and statistical data, business reports, company and industry profiles, market analyses, balance sheets, as well as electronic encyclopedias and dictionaries. Most electronic resources are also available remotely.

Specialized personnel provide individual research assistance and offer training sessions on the use of the library, the online resources and tools and the online catalog. Information literacy skills workshops are incorporated for the needs of specific courses or disciplines.

The Library offers document delivery services through the union catalog of serials of the National Network of Academic and Scientific Libraries. Pay-per-article and document delivery services are also available from a variety of document suppliers and publishers from around the world.

An array of media services is also available to students and faculty. The Media Center houses the library’s audio-visual and multimedia collections and provides equipment for viewing and listening. Furthermore, the Media Center offers assistance to students and faculty in integrating the latest audiovisual technologies into their research.

The Library provides 28 computer research stations, viewing and listening stations, ample space for studying, individual study carrels and comfortable seating. A wireless network allows users to access all online resources from their laptops, tablets or hand-held devises. Printing and photocopy facilities are also available.
Student support, guidance and advice
STUDENT SERVICES

Orientation
All new students participate in an orientation program as they begin their first semester at the College. The orientation program is designed to introduce them to the campus, the academic system, College regulations and policies, and student life.

Student Success Center (SSC)
The Student Success Center supports students by offering comprehensive, integrated services in the areas of academic advising, OU validation issues, student records, registration, and payments in a one-stop area. The Center is committed to providing students with consistent, high-quality service, both in person and through technology. The Student Success Center aims to create the optimum conditions so that students can follow the path to academic success.

Students may visit the Student Success Center to pay a bill, request a certificate, obtain a form, arrange to bring a visitor on campus, obtain their transcript, see an academic advisor, ask about OU validation, change a course, and obtain or replace their student ID.

The SSC web page has been set up to reflect the one-stop concept of the Center and includes information from different departments. It may be accessed from the “Quick Links” on the ACG homepage (www.acg.edu) and it allows students to print forms or view the academic calendar, academic policies, final exams schedule, course schedule, graduation instructions, major requirements, frequently asked questions (FAQs), the e-mail directory, and financial aid and international student information. From the SSC web page students may choose to log on to the myACG portal, where they can print their personal course schedule and their unofficial transcript. To log on, students need to go to the SSC and get their PIN, which is private, should not be shared with anyone, and will be given to the students only if they have no obligations (business office, library, or academic advising).

Academic Advising
All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Effective academic advising provides specific aid to students in considering and completing academic programmes, but it goes beyond mere course scheduling; it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters, and exploration. The College assigns all entering freshmen a First-Year advisor from the Office of Academic Advising. Thereafter, the advising program is faculty-based and fosters personal contact between students and faculty. Department Heads, assistant Department Heads and Area Coordinators act as educational consultants.

New incoming students and continuing Deree-ACG students are required to consult every semester and during the announced advising period with an advisor at the Office of Academic Advising.

Advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Office of the Registrar
The Office of the Registrar is principally responsible for all aspects of the registration process, including the preparation of schedule material, demographic updates, registration, scheduling, and processing of student grades. Such information is available on the College website.

Students become officially registered through the WEB. During designated dates and times, stipulated by the Registrar’s Office, students may use their College ID and pin number to log on to the WEB Registration system and register. Students without Internet access off campus may use the campus computers. Students may register late only during the late registration period as stipulated for each semester/session by the Registrar’s Office.

The Validation Office
The Validation Office (Deree-OU) is responsible for all logistics regarding validation of Deree College academic programs and modules by The Open University, UK. Also, it functions as the liaison between The Open University, the External Examiners, and Deree Academic Departments, Academic Council, Registrar’s Office, Academic Advising, Curriculum Committee, Committee on Academic Standards and Policies (CASP), Program Committees. The Executive Director of the Validation Office in his role as a member of the Academic Council ensures that all policies, processes, and procedures pertaining to validation are followed.

Moreover, the Executive Director of the Validation Office acts as the first contact person for students wishing to transfer credits from U.S. regionally accredited Colleges/Universities, UK Universities or from other accredited institutions of higher education in Greece and abroad or request an evaluation of their prior learning (transfer credit). At Admissions level, the Executive Director checks the academic credentials of prospective international incoming or prospective transfer students.

Deree students must visit the Validation Office ahead of time when they plan to study for a semester/year abroad and transfer the earned credits back to Deree College.

Services for the Physically Challenged
Services, such as access to parking for the physically challenged, are available to students to assist them while on campus. Please contact the Student Success Center for further information.

The Office of Student Affairs
The Office of the Dean of Students is dedicated to promoting student development and to continually improving the quality of student life. Through programmes, services, and activities, the office attempts to assist students in active learning, to help them develop values and ethical standards, and to forge partnerships to advance the learning experience.

Financial Assistance and Planning
In order to assure the continuing quality of our academic programmes as well as access for students and their families to these programmes, the College, through the Office of Financial Assistance and Planning, is committed to supporting students who demonstrate financial need and academic promise.

The Financial Assistance Program at Deree provides several types of financial aid based on need and/or academic achievement. The fundamental philosophy of our Financial Assistance Program is that lack of funds should never prevent academically qualified students from receiving a quality education. Funding for financial assistance comes from the College’s own resources and from generous contributions by donors.
Financing a college education can be a daunting prospect, and the College is committed to helping students and their families understand the available financial aid programmes and assist in finding ways to meet college expenses.

For detailed information relating to grants, scholarships and other forms of financial assistance please consult the Financial Assistance section of the College’s website.

**Student Support, Guidance and Advice**

**Student Academic Support Services**

Student Academic Support Services (SASS) is an academic service vital to the educational experience of Deree students. Through one-to-one and group workshop-style sessions, SAS learning facilitators support skills development of Deree students across all schools. Through a learner-centered, non-instructional approach, facilitators promote individual development and respond to the needs of each student.

**The Office of Career Services**

The Office of Career Services assists students and alumni of all the divisions of The American College of Greece in developing fulfilling and rewarding careers. Its goal is to ensure that their academic investment in skills and knowledge is effectively integrated into their future career path. Through individual advising sessions with the staff, special computerized programmes, and an extensive library of resource materials, students who are uncertain about a major or career direction can more sharply define their interests, skills, and personal characteristics to better plan for their future.

Career Services also helps students formulate a strategy to make the most of their studies before they graduate. Such a strategy, encompassing activities like work experience, volunteerism, and campus involvement, can strongly affect a student’s employability. Thus, the office encourages all students to begin their career planning early, during their freshmen and sophomore years and prior to declaring a major to ensure there is adequate consideration, planning, and preparation for their career path.

**Career Advising: One2One appointments**

Individual half-hour advising appointments scheduled to talk about career path planning, building a resume, job search strategies, interview preparation, interview techniques, hints and tips. We are working with you by exploring the issues you have and developing the appropriate strategies and an action plan.

**Graduate Studies Advising: One2One appointments**

Individual half-hour advising appointments scheduled to talk about your plans on further graduate studies, graduate school search, the personal statement and the application process.

**Choosing a Major**

If you are undecided about your major or are thinking of adding a second major to your degree, schedule a half-hour session to take an online internationally recognized self-report test that helps identify strengths and personality preferences, and then meet with a career advisor to discuss the results and apply them toward selecting your major.

**Skills Workshops**

Throughout the academic year we offer Interview skills and job search workshops, as well as graduate studies workshops.

**Connecting with the Market**

Various activities and programmes which connect the students with the job market such as Company Visitation Day, company presentations on campus, mock-interviews, job shadowing program.

**Career Planning e-Tools**

**JobBank**

A database of a variety of part time and trainee positions offered to current Deree students who wish to enter the job market.

**Sigi3**

A software that examines key motivators and matches work-related values, interests, personality, and skills to educational and career pathways. Individuals explore a range of options based on their personal choices.

**Goinglobal**

A database containing country-specific career and employment resources to facilitate finding jobs and internships in 35 countries. Topic areas include: job search resources, work permit/visa regulations, country specific resume guidelines and examples, interview and cultural advice, employment outlook/industry trends, professional and social networking groups.

**The Deree Student Association**

The Student Association is committed to strengthening the ties between students and their alma mater, creating a heightened sense of school spirit, and motivating students to attain responsibility, integrity and passion in their College life. It strives to provide responsible leadership through fair, democratic representation of students’ needs and interests to the College administration and to promote equality and unity on campus among the student population.

**Co-Curricular Activities**

Co-curricular activities include social, cultural, recreational, and other student pursuits. Events such as exhibits, tournaments, and symposia, as well as dances, plays, and athletic activities, extend into the late afternoon and evening hours.

**Social, Cultural, and Recreational Clubs**

Clubs are formed according to student interests. The names of clubs are self-defining in both activity and scope: Biology Club, Cultures & Languages Club, Graphics Design & Entertainment Club, Debate Club, Drama Club, Film Club, Health and Social Awareness Club, Music Club, Photography Club. Club activities are coordinated by the Office of Student Affairs. As a rule, an advisor or instructor with expertise in the area concerned offers guidance to each club. Students are free to join one or more of the clubs, depending on their interests and available time, as long as they are in good academic standing.

**Educational and Field Trips**

Educational and field trips may be planned within the context of any course or area of concentration. In accordance with Greek Law, such trips are organized by instructors with the approval of the respective academic dean.

**Cultural Events**

The College sponsors a variety of cultural events throughout the academic year, including lectures, music recitals, and art exhibitions. Lecturers from distinguished universities, diplomats, and scholars residing in Athens, are
invited to speak by student academic societies. The proximity of the College to the center of Athens provides many opportunities for cultural enrichment. Among these are concerts of the National Symphony Orchestra, performances by the National Opera Company, and concerts and operas at the Megaron Moussikis, the concert hall of Athens. In addition, there are dance and performance pieces that take place in the city’s remarkably large number of theatres, as well as the internationally renowned Summer Festival of Athens. The classical ruins and superb museums in and around the city are an education in themselves.

**Athletic Program**
The athletic program is a diversified approach to exercise designed to meet all the physical activity needs of the College community. Intercollegiate athletics (held at the local, national and international levels), intramural sports, physical education (credit and non-credit) and outdoor recreation offer the student a choice of programmes and provide opportunities for the development of sports participation, fitness and healthcare.

The Intramural Sports program offers a variety of team and individual sports competition between members of the College community. Tournaments last from one day to one semester and emphasize the fun aspect of sports.

Intercollegiate Athletics teams offer opportunities to students to compete in Basketball (men and women), Soccer (men and women), Volleyball (women) and Water Polo (men) with the College representative teams against other teams, Colleges and Universities in Greece and abroad.

Group Fitness classes (credit and non-credit) give students the opportunity to learn basic and intermediate skills in a variety of lifetime activities: aqua aerobics, pilates, yoga, total fitness, circuit training, ABS & legs, body sculpt.

The Outdoor recreation program offers opportunities for hiking and camping, climbing indoors and outdoors, rafting, mountain biking, paintball, skiing and other alternative athletic activities. It offers students, staff and faculty opportunities to meet Greece’s majestic nature and appreciate a natural and simpler way of life.

Special events include a Relay Marathon, an International Sports Festival and participation at an International tournament abroad.

**ACG Health and Wellness Center**
The ACG Health & Wellness Center provides first aid services and health education. It disseminates information about the concept of health & wellness and organizes programmes on current health issues and disease prevention.

Services offered include:

- First Aid and Advice: The College nurse and doctor are available to students, faculty and staff to provide first aid as well as to offer advice and referral to specialists.
- Health Checks: This service provides the user with quick and easy checks on a variety of health parameters including cholesterol, blood pressure, blood sugar and vision.
- Skype with your physician
- The Wellness Coach is available to discuss your unique situation and to explore together what really works for you in order to reach your wellness goals.

**Educational Psychologist**
The Educational Psychologist at Deree-The American College of Greece helps young adults who are experiencing problems within the educational setting with the aim of enhancing their learning. Challenges many include social, or emotional problems or learning difficulties and disabilities.

The Educational Psychologist provides diagnostic and psycho-educational assessment, psychological counseling in educational matters to students, teachers, parents and academic authorities. The Educational Psychologist also offers psycho-educational intervention, coordination, and referral to other professionals.

All services are provided confidentially and free of any charge. We encourage students to consult the Educational Psychologist about any educational matter that may concern them.

**Food Services**
The Aghia Paraskevi campus offers students a variety of food choices. There is a comfortable, modern lounge that offers healthy, freshly prepared meals, and salads, as well as music. Vending machines for coffee, hot chocolate, and tea. An additional area for coffee and snacks is located on the deck of the Center for the Arts, and at the Black box theatre lobby area.

**The Office of Alumni Relations**
The Office of Alumni Relations is the communication link between The American College of Greece and the 33,000-plus alumni of all ACG divisions. The office is part of Institutional Advancement and is located on the Aghia Paraskevi campus. Its mission is to enhance, strengthen, and promote mutual understanding and support between ACG alumni and their alma mater, as well as among alumni themselves.

**The Office of Alumni Relations**:
- Manages the master database of all alumni contact details
- Plans for all alumni activity and implements a regular program including a variety of events such as reunions, lectures, dinners, sports-homecomings, exhibitions, alumni book presentations, and networking gatherings in order for alumni to reconnect with their College and former classmates.
- Coordinates and supports additional events and activities organized by the Alumni Association
- Manages the ACG Alumni Center in Plaka, hosting alumni events and gatherings.
- Coordinates alumni activity and contacts with alumni all over Greece and abroad.
- Co-edits the ACG alumni magazines and is responsible for gathering material regarding alumni news and success stories.
- Invites alumni to campus to meet and share their valuable professional expertise with ACG students.
- Engages alumni in promoting the College.
- Helps alumni locate former classmates or professors.
- Assists alumni with any queries related to The American College of Greece.

All ACG students, upon graduation, are automatically enlisted in the ACG alumni database without fee and for life and are entitled to select privileges and services, including invitations to alumni events, participation in various educational, social and cultural programmes, free access to career services, free subscription to the alumni magazines, and use of the College libraries.

The database and any information collected are subject to the provisions of the Greek data protection legislation. Alumni are entitled to all rights provided to them under article 11-14 of Greek Law No 2471/1997.

Work-Based Learning (Internship) Information
Scope - Definitions

Work-based learning (Internship) can be defined as learning which normally takes place outside the school but which is credit-bearing within a program of study. Work-based learning is achieved and demonstrated through the designation of appropriate learning outcomes, engagement with a workplace environment, and the assessment of reflective practice.

Successful completion of assessed elements of work-based learning is awarded credit.

Work-based learning Student Handbook

The Work-based learning Student Handbook summarizes the policies and guides the student through the work-based learning experience.

The Work-Based Learning Administrator (Internship Administrator)

The Work-Based Learning Administrator (Internship Administrator):

- Prepares the students who qualify for a work-based learning experience. This includes advising, checking whether the students wishing to enroll for a work-based learning opportunity have completed the necessary prerequisites, as these are described in the respective work-based learning opportunity module syllabus.
- Provides students with help and advice in securing work-based learning opportunities, including C.V. drafting and practice interviews. The Internship Administrator works closely with the Office of Career Services to prepare the student for the placement.
- Searches and matches internship openings to students, based on the students' interests and skills, and the requirements of the work-based learning partners.
- Informs students of the openings, their tasks, duties, responsibilities and entitlements during the work-based learning opportunity.
- Informs students of the academic program requirements, progress reports and assessment tools to be used during the work-based learning opportunity, as these are described in the respective module syllabus.
- Informs students on points of contact in case of emergency, or complaints.
- Oversees work-based learning placements, making sure that the work-based agreement terms are honored.
- Monitors the assessment of the student's planning and development logs and journals and the evaluation of the students' written projects or reports by the appropriate faculty member. Debriefs students returning from work-based learning opportunities, and advises them on their future educational and professional development.
- Investigates complaints made by the partners and/or the students and addresses them or refers them to the Work-based Learning Team, which is comprised of the Chief Academic Officer, the Academic Dean of the respective School, the respective Department Head/Area Coordinator, the Internship Administrator, and the Controller who acts as a resource person.
Academic Rights and Academic Integrity

ACADEMIC RIGHTS

Right to Pursue Knowledge and the Right to Free Expression
The student’s right to pursue knowledge and to express views responsibly is of the utmost importance in an academic institution and it is so recognized by the College.

Right of Confidentiality
No information or document referring to a student’s academic or personal life (such as the student’s address, college e-mail address, grade report card, or transcript of record) is released to anybody outside the College without the written permission of the student, subject to legal requirements. Should students, ex-students, or graduates want information from their personal files to be released to persons outside the College, such requests must be made in writing and include the student’s signature.

Right to Know and Participate
Students have a right to be informed about policies and procedures that affect their academic progress. Detailed information regarding all course offerings is available to students in course syllabi, deposited in the libraries.

Students have the right to make recommendations for changes to the existing rules through their representatives. Such recommendations, when referring to the academic area, must be submitted to the respective academic dean, who will channel the suggested changes to the proper administrative or academic body for consideration.

Right to Organize and Associate
Students may organize and assemble to pursue their common interests, subject to the guidelines established by the College’s governing bodies. Such gatherings, however, should not interfere with the physical operations of the campus, neither should they impinge on the rights of others to conduct their work, and they must not conflict with regularly scheduled programmes.

INTEGRITY

Honesty is an integral part of the learning process. Breaches of academic integrity and personal integrity undermine that process. Maintaining high ethical standards is the responsibility of both students and instructors.

Breaches of Academic Integrity

Responsibility of Students
For students, a valuable and enriching academic experience begins with personal integrity and the commitment to taking examinations, writing papers, and carrying out all other required assignments based on independent thinking and without improper or unauthorized assistance. The fair and accurate evaluation of a student’s performance is possible only if the work is truly that of the student. When a grade is assigned, instructors are, in effect, attesting that, to the best of their knowledge, the grade is a true indication of the student’s achievement. Offenses against academic integrity include not only misrepresenting one’s own work but also aiding fellow students to do the same.

Cheating
Cheating is defined as the use of or the attempted use of unauthorized or inappropriate assistance, material, or study aids in examinations or other academic work. The use of books, notes, calculators and conversation with others is forbidden in certain academic exercises, and work; their use in these cases constitutes cheating. Similarly, students must not request others to conduct research for them or prepare any work for them; this includes, but is not limited to, the services of commercial term paper companies. Cheating also involves giving or receiving unauthorized help before, during, or after an examination. Examples of cheating include, but are not limited to, the use of prepared notes, “crib sheets,” or electronic aids during an examination (unless specifically approved by the instructor), attempting to observe another student’s paper or giving or receiving oral or visual information, intentionally allowing another student to view one’s own examination, copying the work of another student during an examination or other academic exercise or permitting another student to copy one’s work, and taking an examination for another student or allowing another student to take one’s examination. Taking an exam by proxy for someone else is an infraction of academic integrity on the part of both the student enrolled in the course and the proxy or substitute (see “Facilitating Academic Dishonesty”). Cheating also includes doing a take-home exam for another student.

Facilitating Academic Dishonesty
Knowingly helping or attempting to help another violate any provision of the academic integrity code is a breach of that code. Students who knowingly or negligently allow their work to be used by other students or who otherwise aid others in academic dishonesty are violating the College’s code of academic integrity. Such students are as guilty of intellectual dishonesty as the student who receives the material even though they may not themselves benefit academically from that dishonesty.

Falsification and Fabrication
Misrepresenting material or fabricating information in an assignment is a breach of academic integrity. Examples include, but are not limited to, false citations of sources, use of invented information, or falsification of data. Fabrication includes submitting false documents for the purpose of being excused from a scheduled examination or other academic assignment. Altering the answers given on an exam or changing the letter and/or numerical grade after the instructor has graded the examination and has distributed it to students for review constitutes falsification. Committing or attempting to commit forgery or alteration of College or personal documents or records, and furnishing false information to the College or its instructors are considered violations of academic integrity and must be reported to the respective academic dean for disciplinary action.

Multiple Submissions
It is a violation of academic integrity to submit the same work or substantial portions of it for academic credit more than once, or for more than one student to submit the same work, without the prior approval or authorization of the instructor. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing that the current work submitted for academic credit is cumulative in nature.

Plagiarism
A form of academic theft, plagiarism is the act of using another’s words, ideas, or organizational patterns without crediting or acknowledging the source. It includes any paraphrasing or summarizing of another’s work without acknowledgment as well as the failure to acknowledge the quotation of paragraphs, sentences, or even phrases written or spoken by someone else. Any use of published (books, magazines, newspapers, websites, photos, textbooks, etc.) and unpublished sources (class lectures or notes, handouts, speeches, other students’
papers, or material from a research service) without acknowledgment is plagiarism. Moreover, the use of charts, pictures, graphs, diagrams, data, websites or other communication or recording media without acknowledgment constitutes plagiarism. The submission of research, completed papers or projects prepared by someone else also constitutes plagiarism, as does the unacknowledged use of research sources gathered by someone else. The resubmission of the student’s own work in a previous class or as a result/retake may also constitute self-plagiarism. Students resubmitting assessments or retaking courses must clarify with the instructor what is permitted in terms of resubmission of prior work. Students are responsible for understanding the legitimate use of sources, the appropriate ways of crediting sources (both print and electronic) through documentation, and the consequences of violating this responsibility.

Unauthorized Collaboration

Students may not collaborate on course work that will be graded unless they have faculty authorization. Unauthorized collaboration means working with others without the specific permission of the instructor on assignments that will be submitted for a grade. This rule applies to in-class or take-home tests, papers, or homework assignments. Examples of unauthorized collaboration can include, but is not limited to, jointly calculating homework problems, checking homework answers with other students, having another help one (re)write a paper, and sharing sources for a take-home examination. Submission for academic credit of work represented as one’s own effort but which has been developed with substantial assistance from another person is a violation of academic honesty. It is also a violation of academic honesty to provide such assistance. Unauthorized collaboration can even occur within the context of group projects when the degree or type of collaboration exceeds the parameters of what an instructor has expressly authorized. The purpose of a particular assignment and the acceptable method of completing it are determined by the instructor, not the student.

Unauthorized Possession of Academic Materials

Unauthorized possession of academic materials includes the selling or purchasing of examinations, papers, reports or other academic work, taking another student’s academic work without permission; and possessing examinations, papers, reports, or other assignments not released by the instructor. Unauthorized removal of an examination or quiz from a classroom, faculty office, or other facility also constitutes a violation of academic integrity.

Breaches of Personal Integrity

Computer Misuse

The framework of responsible, considerate, and ethical behavior expected by the College extends to cover the use of computers. The College expects that students use the College’s and their own personal information technology resources responsibly and comply with all applicable College policies as well as local and international laws. The College provides electronic resources and services in support of its educational, research, and service mission. Use that threatens or interferes with the mission of the College, the integrity of the network, the privacy or safety of others, or that are illegal, is prohibited and subject to penalty.

Unacceptable activities and behaviors include, but are not limited to, misrepresentation (including forgery) of the identity of the sender or source of electronic communication, alteration of the content of a message originating from another person or computer with the intent to deceive; unauthorized use or attempted use of restricted-access computer resources or accounts; electronic theft of computer programmes, data, or text belonging to another; and commercial use of the College’s electronic resources.

Computer misuse consists of, but is not limited to, creation, use, storage, or transmission of information, programmes, or any other data that can reasonably be judged to be inappropriate or offensive to other users. The College’s policy on harassment applies to electronic displays or communications. No member of the College community may display or transmit images, sounds, or messages that are threatening, abusive, or offensive.

Discrimination and Harassment

It is the College’s policy that all employees and students work in an educational environment free from harassment of any nature. Therefore, sexual, racial, or religious harassment or other forms of an abuse of a power relationship, or bullying or threatening behavior are not tolerated. Harassment is defined as verbal (including harassed by phone, mail, Internet, or e-mail) or physical conduct that shows hostility toward an individual and has the purpose or effect of creating an intimidating, hostile, or offensive educational environment, or has the purpose or effect of interfering with an individual’s academic performance.

Lying

Lying consists of, but is not limited to, communicating untruths to gain an unfair academic or employment advantage. This includes requesting classmates to sign attendance registers on your behalf or giving a false reason to a faculty member when requesting a change in an examination date or an extension on a paper or project.

Responsibility of Instructors

Instructors are similarly responsible for ensuring that the College’s rules and regulations are enforced. When academic honesty is breached, instructors are obliged to detect and then report the violation. Laxity on the part of instructors includes having tests or test items exposed where they can be seen by students; returning tests and then using the same test again; reading, correcting papers, leaving the room, or conversing or giving help to students during an examination; and ignoring attempts to cheat.

Laxity or negligence in monitoring exams, preventing plagiarism, or guarding against other violations of academic integrity may result in disciplinary action. Failure to report cases of academic dishonesty to the Committee on Standing and Conduct will be considered as evidence of negligence and may result in disciplinary action.

To initiate a charge against an instructor, a signed statement must be submitted to the academic dean or to the Chief Academic Officer. The academic dean, after assessing the seriousness of the charge, may issue an informal warning (not part of the record) or a reprimand (to be included in the instructor’s dossier). In more serious cases, or in the case of repeated charges, the College president or the Chief Academic Officer may appoint a committee of faculty members and administrators to hear the charges and the defence and to make recommendations.

Discrimination and Harassment

It is the College’s policy that all employees and students work in an educational environment free from harassment of any nature. Therefore, sexual, racial, or religious harassment or other forms of an abuse of a power relationship, or bullying or threatening behavior are not tolerated. Harassment is defined as verbal (including harassed by phone, mail, Internet, or e-mail) or physical conduct that shows hostility toward an individual and has the purpose or effect of creating an intimidating, hostile, or offensive educational environment, or has the purpose or effect of interfering with an individual’s academic performance.

Lying

Lying consists of, but is not limited to, communicating untruths to gain an unfair academic or employment advantage. This includes requesting classmates to sign attendance registers on your behalf or giving a false reason to a faculty member when requesting a change in an examination date or an extension on a paper or project.

Responsibility of Instructors

Instructors are similarly responsible for ensuring that the College’s rules and regulations are enforced. When academic honesty is breached, instructors are obliged to detect and then report the violation. Laxity on the part of instructors includes having tests or test items exposed where they can be seen by students; returning tests and then using the same test again; reading, correcting papers, leaving the room, or conversing or giving help to students during an examination; and ignoring attempts to cheat.

STUDENT CONDUCT

In order to create an environment whereby students can live safely, succeed academically, and develop skills for life, leadership, and service, the College relies upon students to know and adhere to standards of behavior pertaining to personal and academic integrity, guided by the Student Honor Pledge, College policies and Greek laws. Students are expected to respect the rights and privileges of others and to exhibit both inside and outside the classroom conduct becoming of a student in both manner and attitude. To this end, the College has developed its own standards for student conduct as well as procedures for disciplinary action.

Deree - The American College of Greece reserves the right to amend or supplement the Student Conduct Code at any time upon such notice to students as it deems appropriate. The Director of Student Affairs is responsible for the publication of the Student Conduct Code. Suggestions for amendments may be addressed to the Office of Student Affairs.

Student Responsibilities

All students of Deree – The American College of Greece (Deree-ACG) are responsible for reading and upholding the Student Conduct Code, the Student Honor Pledge, the Academic Policies and Procedures, the Exam Rules and Regulations, the Student Clubs & Organizations Guidebook, the IT Policies, the Residences Rules and Regulations, the Intramurals Sports Handbook, and other College policies.

Once admitted at Deree-ACG, students are expected to comply with and sign the Student Honor Pledge.

Student Honor Pledge

As an entering student at Deree – The American College of Greece, I recognize that this institution offers me an opportunity for a unique transformational experience. The purpose of this experience is to help students become exemplary and reflective citizens of Greece and the world, who contribute to the improvement of people’s lives. I recognize and accept personal responsibility for honesty in all of my interactions while a member of this community of scholars. Such honesty is a vital part of my academic career and is the foundation of my work here as a student. I pledge that I will uphold the academic integrity and student conduct policies of the institution and will encourage my peers and others in the community to respect and observe such policies. Furthermore, I pledge to only present my own work as my own and to present to Deree – The American College of Greece authorities, committees, faculty, staff and students only valid and truthful documents. I realize that violations of College policies, as listed in the catalog, and other misconduct could result in various penalties and even expulsion from the College.

Students must keep the Office of the Registrar informed of their current address and telephone number, both local and permanent, and inform the Registrar’s office of any changes.

Students are expected to use English in all official communications, written and oral, with members of the College community.

Students are required to use their College e-mail account in all their correspondence with the faculty and administration.

Students must keep the College premises in neat working order by using the facilities with due respect, by discarding all refuse in the appropriate receptacles provided, and by handling College equipment and educational materials with care.

Students are expected to maintain their personal appearance and behave in a manner appropriate to an academic institution and environment.

Students are expected to be aware of what constitutes a violation of the Student Conduct Code and behave in a manner which is consistent with College standards.

Student Conduct Code Violations

Academic Misconduct

- Influencing or attempting to influence another person to commit an abuse of the student code of conduct system.

Littering
Throwing objects and cigarette butts on the ground causing an un tidy and environmentally unfriendly condition.

Loitering
Loitering on PIERCE College premises or violating established College closing times is prohibited.

Sexual Harassment/Sexual Misconduct
Any sexual activity without prior clear and voluntary consent; sexual activity with someone who is incapable of giving such consent, intimate partner violence or stalking; any act of sexual harassment and sexual misconduct. Sexual harassment includes nonconsensual sexual activity, requests for sexual favors, or verbal or physical conduct of sexual nature. Sexual misconduct includes nonphysical actions such as digital media stalking, cyberbullying, and nonconsensual recording of sexual activity.

Smoking
Smoking in instructional, athletic recreational and residential areas on campus at all times. Ashtray stands are located in designated outdoor smoking areas and at the entrances to all buildings.

Theft
Theft, unauthorized use, destruction of, or damage to the property of others or College property. This includes possessing, duplicating or using keys to any College premises or services without authorization. Deree-ACG is not responsible for any loss of an individual’s personal property.
Use of College Name and Emblem
The College name and emblem, or any part thereof, shall not be used by any student or group of students in connection with any public performance or for any other purpose except as authorized by the Office of Integrated Marketing and Communications. Any request for the use of the College name and emblem must also have the approval of the Director of Student Affairs.

Vandalism
Acts of destruction (e.g., damaging, misusing, or defacing of property) committed deliberately or in disregard of the possible harm to others.

Weapons/Explosives
Possession and/or use of firearms, explosives, ammunition, fireworks, weapons including, but not limited to, catapults, knives (except sharp blades required by academic class e.g.: Art), paintball guns, pellet guns [including any ‘toy’ gun that discharges any object], or other deadly weapons or dangerous chemicals.

Deree-ACG expects that its students comply with the Greek law. In addition to imposing disciplinary sanctions, the College may refer students for prosecution for conduct prohibited in accordance with the Greek law, such as discrimination; assault; harassment, sexual harassment/misconduct; theft; possession and/or use of weapons or explosives; possession, sale, purchase, use and/or distribution of illegal substances.

Residences Rules and Regulations
All individuals staying in the College Residence Complex are required to adhere to the Student Conduct Code, these Residences Rules and Regulations, all policies published by the Study Abroad, and the Greek law.

Deree - The American College of Greece reserves the right to amend or supplement the Residences Rules and Regulations at any time upon such notice to residents as it deems appropriate. The Director of Residential and International Student Services is responsible for the publication of the Residences Rules and Regulations. Suggestions for amendments may be addressed to the Office of Study Abroad.

Each resident agrees to observe all rules and regulations affecting his/her stay with the College. Residence visitors are also required to follow the College Residences Rules and Regulations.

Alcohol
Deree-ACG expects residents to refrain from possession or consumption of alcoholic beverages in all areas of the Residence Complex, including outdoor common areas.

Balconies
No individual is permitted to climb on balcony railings or to attempt to pass from one apartment balcony to another. Any such action is unsafe, and, therefore, strictly prohibited. In addition, residents are not to throw anything from the balconies or windows onto the grounds below. Violating this policy could lead to dismissal from the Residence Complex and Deree-ACG. Such incidents will be reported to the home institutions of study abroad students.

BBQ
Barbecues or any other incendiary device are not allowed in or around the Residence Complex. Barbecue events may be held in designated barbecue areas only, and only with prior permission from the Study Abroad Office. The presence of a Study Abroad Office staff member is required.

Building Entrance
Any person entering or leaving the Residence Complex must use the main entrance door and may not use the windows, balconies or emergency exits. Emergency exits are to be used strictly in cases of emergency as directed by Residence Complex staff.

Check-in
Upon check-in, an Apartment Inventory Checklist that includes a bedroom and apartment inventory should be signed and submitted to Residents’ Assistants (RAs). This inventory serves as a record of the contents and the condition of the apartment. The inventory serves as the basis for assessing the condition of the apartment when the resident moves out.

Check-out
All residents must check out with an RA. The RAs will provide residents with sign-up times for check-out during final examinations week.

During check-out, the RAs will inspect the apartments, record any damages using the Apartment Inventory Checklist, collect keys and obtain the signature of the resident on the Apartment Inventory Checklist. The cost of any damages to the bedroom/apartment will be charged at the time of check-out.

Residents are required to return the apartment key, the RA cards and plug adapters, clean their apartments, and throw out their garbage.

Cleaning
Residents are responsible for maintaining a reasonable standard of cleanliness in their apartments and keeping the common areas, such as the Fitness area, Laundry area and Lobby area, clean and tidy. Residence Complex staff reserves the right to inspect apartments and common areas. If Residence Complex staff assess that the condition of the apartment does not meet the required reasonable standard of cleanliness, the responsible resident(s) will be expected to take all necessary steps towards cleaning and tidying up within 48 hours. If the resident(s) fail to meet to do so within this time-frame, the College will carry out cleaning, and the cost of this service will be covered by the resident(s).

Conduct
Study Abroad/International students are expected to comply with the Deree-ACG Student Conduct Code. The document may be obtained at the Office of Student Affairs.

Cooking
Residents are permitted to cook in their apartments using the utensils and cookware provided. All kitchens are equipped with a cooking-ventilation unit, placed above the stove. The cooking-ventilator should be used every time residents cook. For any questions about the proper use of the oven or microwave, residents are asked to contact the RAs. Barbeque grills or other cooking devices not provided by Deree-ACG are prohibited.
Damages
Residents shall compensate Deree-ACG for any damages caused to the Residence Complex or furniture/equipment in common areas and apartments for which they are held responsible. Residents are required to report damages or normal wear-and-tear occurring during residents’ stay to the RAs immediately. Tampering with, disabling, obstructing, vandalizing, or interfering with the normal functioning of any portion of a security monitoring system or monitored door, including, but not limited to, door alarms, cameras, or card readers, is strictly prohibited.

Decorations
Nails, screws, double-stick tape, or duct tape on or in the walls, ceilings, furniture, or fixtures are prohibited. White poster putty is permitted for hanging posters and other decorations.

Fighting
Any individuals engaged in a physical fight in or near any building owned or operated by Deree-ACG may be referred for prosecution.

Fire Alarms
Smoke detectors are located throughout the building. In the event of an alarm, all residents should exit the building. Residents must have regard to the safety of themselves and other residents and observe the Fire Regulations applicable to Residences (see Emergency Evacuation Procedures that are posted on apartment doors).

In particular, residents must not tamper with any fire-fighting equipment or any other safety equipment, block sounders, prop open any fire-proof door or disengage any door closure mechanisms. Corridors, doorways, staircases and entrances must not be obstructed in any way. This includes placing items outside, around and beside doors (e.g. bins).

The use of candles or any other open flame devices is not permitted within the Residence Complex premises.

Fitness Center
The Residence Complex is equipped with fitness areas. Equipment in the fitness areas is used at residents’ own risk. Residents are encouraged to seek instruction regarding the proper use of the equipment from the Deree-ACG Gym staff.

Garbage
Garbage should be placed into plastic bags and taken to the garbage bins outside the building. Blue garbage bins are for recyclables. Green garbage bins are for refuse. Garbage may not be left in common areas such as hallways. It is the responsibility of each resident to remove garbage and maintain a clean apartment.

Illegal Substances
The possession, sale, purchase, use and/or distribution of illegal substances and paraphernalia is strictly prohibited. In addition to imposing the disciplinary sanction of expulsion from the Residence Complex, the Residence Complex staff may refer residents for prosecution.

Internet
Peer-to-peer sharing, use of torrents, or any illegal downloading of media or any other materials is prohibited. Residents are expected to comply with College IT Policies.

Modifications to the Apartment
No college-owned furniture or equipment may be removed from the apartment.

Noise and Music
Residents and Residence Complex visitors may use musical instruments at the lobby area. Excessive noise (e.g. speakers operated at excessive volume, playing a musical instrument during quiet hours) is prohibited and may result in sanctions. Residents are kindly asked you to use common sense on this matter.

Non-Discrimination
Any discrimination based on any ground such as sex, gender, race, color, ethnic or social origin, genetic features, language, nationality, religion or belief, political or any other opinion, membership of a national minority, property, birth, disability, age, marital status or sexual orientation is not tolerated. The College strives to maximize valuable talent and potential, and eliminate unconscious bias, prejudice and stereotyping.

All residents have the responsibility to safeguard and the right to expect a friendly and hospitable environment free of any form of harassment, discrimination and actions or behavior that interfere with the residents’ privacy, study habits or sleep.

Personal Property and Theft
Residents must have respect for the property and belongings of others and not use, ‘borrow’, take or damage any items which belong to others without the owner’s permission. Deree-ACG is not responsible for any loss of an individual’s personal property. Apartment doors should be kept shut at all times.

Theft, unauthorized use, destruction of, or damage to the property of others or College property is not tolerated. This includes possessing, duplicating or using keys to any College premises or services without authorization.

Pets
Pets are not allowed in the Residence Complex. Deree-ACG generally allows students with disabilities to bring Service and Assistance Animals to campus to perform work or tasks related to a disability or, if shown to be necessary, to afford a student with a documented disability an equal opportunity to use and enjoy the Residence Complex.

Quiet Hours
All residents must observe quiet hours regulations in the apartments, common areas, lounges, building entrances and back patio. Quiet hours are reserved for study and sleep.

Quiet hours are:
- 3:30 p.m. to 5:30 p.m. and 10:00 p.m. to 7:30 a.m. in the winter (October - March)
- 3:00 p.m. to 5:30 p.m. and 11:00 p.m. to 7:00 a.m. in the summer (April - September).

Room Entry
Deree-ACG staff reserve the right to enter residents' rooms for maintenance repairs with prior notice, in case of emergency and if there is sufficient reason to believe that a violation of ACG policy is occurring in the room for any other reasonable purpose. Should entrance to apartments be deemed necessary, advance notice will be given if possible.
Room Keys
Room keys are assigned to students upon checking into their room. Keys are not to be duplicated. Individuals are urged to exercise caution in safeguarding their keys. Residents must not hand over the keys to any person other than a member of Residence or Study Abroad Office staff. Individuals who lose a key or return a key that is damaged are billed 50 Euros for a replacement.

Residents are reminded to:
- Not loan keys to anyone for any reason.
- Not mark keys with room number or any other identifiable markings.
- Never leave keys unattended.

If residents accidentally lock themselves out of their room, they should contact the Residents’ Assistant or call one of the staff members.

Smoking
All apartments, common areas and balconies are smoke free. Should evidence of smoking be found in an apartment, a cleaning charge will be assessed against the resident. Violating the smoking policy will result in sanctions that may lead to removal from the building.

Unauthorized Entrance
Entrance is prohibited to unauthorized or authorized individuals who gain access to the Residence Complex as a result of tailgating* or the use of a propped** or compromised doors. Tailgating and door propping are prohibited.

*The term “tailgating” is used to describe the situation where one or more people follow an authorized person through an access-controlled door when the authorized person opens the door legitimately. This can be done either with or without the authorized person’s knowledge and/or consent. Tailgating to gain entry to any residential facility is prohibited. The prohibition of tailgating also applies to authorized persons who have forgotten or lost their access card.

**The term “door propping” is used to describe the placement of any object in, near or around the apartment door or entrance door of the building in an effort to prevent the door from closing or block door closure. Door propping is prohibited.

Visitation Policy
Visitation is defined as the time period within which residents’ guests may visit the Residence Complex (8:00 a.m. to 11:00 p.m.). No visitors may enter or remain in the Residence Complex between 11:00 p.m. and 8:00 a.m. Visitation Policy is applicable to all Residence Complex areas (apartments, common use areas or building entrances). No overnight guests are allowed.

Visitors must always be accompanied by their hosts/residents while in the Residence Complex. Residents not complying with the Visitation Policy will be held responsible for damages and Rules and Regulations violations attributed to their guests.

Violating the Residences Rules and Regulations or the Deree-ACG Student Conduct Code will result in sanctions that may lead to removal from the Residence Complex.

Deree-ACG expects that residents comply with the Greek law. In addition to imposing disciplinary sanctions, the College may refer residents for prosecution for conduct prohibited in accordance with the Greek law, such as discrimination, assault, harassment; sexual harassment/misconduct, theft, possession and/or use of weapons or explosives, possession, sale, purchase, use and/or distribution of illegal substances.

Reporting, Hearing and Appeals Process
Any member of the College community may file charges against a student for alleged violations of the Student Conduct Code. Charges can be submitted as follows:

Charges can be communicated verbally or in writing to the Director of Student Affairs or the Residents’ Assistants and the Director of Residential and International Student Services if the violation occurred at the Residence Complex, immediately following the incident. The student will receive immediate notification of a charge of an alleged violation of the Student Conduct Code or the Residences Rules and Regulations. The student will be advised to visit the Office of Student Affairs or the Study Abroad Office to discuss the incident.

Students can use the Incident Report Form available at the Office of Student Affairs, the gym, the library circulation desk, the Office of Study Abroad and at the Residence Complex help-desk if the violation took place at the Residence Complex, immediately following the incident. The student will receive notification of a charge of an alleged violation of the Student Conduct Code or the Residences Rules and Regulations within five working days of submission of this form. The student will be advised re next steps.

For first violation cases, the Director of Student Affairs or the Director of Residential and International Student Services, if the violation involves a resident, or a study abroad/international student, invites the student for an Administrative Meeting with one staff member from the Office of Student Affairs, Operations, or the Study Abroad Office. The student is required to attend this meeting. The student may request to reschedule it once, within five working days from the date of notification. If the student does not engage with this process, the process will continue in absentia and sanctions will be issued accordingly.

The Administrative Meeting is headed by the Director of Student Affairs or the Director of Residential and International Student Services with the purpose of investigating the case. The charged student has the opportunity to review and comment on the documentation of the case, to present evidence on his/her own behalf, and to present witnesses. The student will be asked whether or not he/she takes responsibility for his/her actions.

Within five working days the Director of Student Affairs or the Director of Residential and International Student Services will make a final decision based on the facts of the case and the outcome of the Administrative Meeting, whether or not to hold the student responsible for the alleged violation, and will issue sanctions respectively (see the section Sanctions for Violations of the Student Conduct Code and the Residences Rules and Regulations).

For second violation cases, life-threatening events, or serious allegations that warrant consideration of suspension or expulsion (e.g. issues involving safety and security, illegal substances, harassment, vandalism, assault, weapons) the Dean of Students invites the student to attend an Administrative Hearing Board consisting of the Director of Student Affairs, the Educational Psychologist, the Chair of the Committee on Standing and Conduct
and the Director of Residential and International Student Services in the cases of residents or study abroad/ international students. The student is required to attend this meeting. The student may request to reschedule it once, within five working days from the date of notification. If the student does not engage with the process, the process will continue in absentia and sanctions will be issued accordingly.

The Administrative Hearing Board is headed by the Director of Student Affairs with the purpose of investigating the case. The charged student has the opportunity to review and comment on the documentation of the case, to present evidence on his/her own behalf, and to present witnesses. The student will be asked whether or not he/she takes responsibility for his/her actions.

Within five working days the Director of Student Affairs will communicate the final decision based on the facts of the case and the outcome of the Administrative Hearing Board whether or not to hold the student responsible for the alleged violation, and will issue sanctions (see the section Sanctions for Violations of the Student Conduct Code and the Residences Rules and Regulations).

In all cases, the Director of Student Affairs may assign the Associate Director of Student Affairs to act as his/her designee.

Appeals Process

A student has the right to appeal issued sanctions (see Sanctions for Violations of the Student Conduct Code and the Residences Rules and Regulations). Appeals are not re-hearings and they are granted on the basis of disagreement with the decision of the Administrative Meeting or the Administrative Hearing Board based on the following grounds:

- The Administrative Meeting and the Administrative Hearing Board was not conducted according to the Student Conduct Code Reporting & Hearing process.
- There is new and substantial evidence that exonerates, clears the student, or puts the conduct situation into a different context.
- The student experienced bias or discrimination during the hearing process.

A student in order to appeal needs to write a letter to the Vice President of Administration within five working days of the receipt of the sanction. The Vice President of Administration may choose to extend the deadline for the submission of appeals in unusual circumstances.

Within ten working days upon receipt, the appeal will be reviewed by the Vice President of Administration. In some instances, students appealing a decision may be asked to an appeal’s meeting to discuss their situation; however, such meetings are not necessary for an appeal to be considered and decided upon. The appeal may result in one of the following actions:

- The appeal is granted, and the sanctions are overturned.
- The appeal is granted, and the sanctions are modified.
- The appeal is denied, and the sanctions remain in effect.
- The appeal is denied and additional sanctions are imposed.

The student will receive written notification from the Vice President of Administration regarding the decision on the appeal.

Sanctions for Violations of the Student Conduct Code and the Residences Rules and Regulations

Sanctions for violations of the Student Conduct Code are given by the Director of Student Affairs following the above mentioned Reporting Process.

Sanctions for violations of the Residences Rules and Regulations may be also given by the Director of Residential and International Student Services.

Repeated violations or single incidents comprising multiple violations will result in more severe sanctions.

Reprimand

Verbal reprimands for inappropriate behavior amounting to a violation of the Student Conduct Code or the Residences Rules and Regulations are given by the Director of Student Affairs or the Director of Residential and International Student Services if the violation occurred at the Residence Complex or involved a study abroad/ international student. Reprimands are registered in internal records.

Written Warning

The Director of Student Affairs or the Director of Residential and International Student Services in cases of Residence Complex residents or study abroad/international students may admonish the student(s) involved in the violation, notifying him/her with an Admonishment Letter that further misconduct/violation(s) could result in additional conduct proceedings and sanctions.

Disciplinary Sanctions

All Disciplinary Sanctions are communicated to the student(s) through an Admonishment Letter.

Reflective Work: Along with a written warning, students may be asked to complete educational activities intended to involve the student in a positive learning experience related to the student’s unacceptable behavior. Educational activities allow students to reflect upon their inappropriate behavior, to understand why their behavior was inappropriate, and to educate other students, so they do not find themselves in similar circumstances. These may include, but are not limited to:

- A campus service project: Hours for restitution will range from 5 to 15 hours, depending on the severity of the offense and the students’ conduct history.
- A personal assessment, mediation, or counseling. A student may be required to complete a specified assessment relative to the violation committed; all assessment reports shall be submitted to the Director of Student Affairs and will become part of the students’ conduct record.
- A reflection paper: A student may be asked to write a paper related to the implications of the student’s conduct.
Restriction of College Privileges: The student may lose the privilege of participating in activities that include, but are not limited to, participation in athletic, musical and theatrical productions, clubs, societies and organizations and other College sponsored events for a specified or indefinite period of time and may be denied the use of facilities such as the gym, the pool and the Residence Complex.

Parental Notification: The College respects and protects the confidentiality of student records. In extraordinary circumstances such as serious injury to a student, a violent crime committed by or upon a student, serious concerns or threats to a student’s physical or emotional health, and other sufficiently grave incidents, which cannot be exhaustively enumerated or described in the nature of things, the College may notify parents or guardians. The College is committed to the student’s best interest and, in special circumstances, will discuss the matter with the student to assess whether such notification is undesirable or inappropriate. The Director of Student Affairs may send a notification or a copy of the student’s Admonishment Letter to the address on file for parents/guardians of students. Whenever possible, a conversation in person will be held with both the student and the student’s parent or legal guardian.

Removal from the Residence Complex: The student may lose the privilege of living at the Residence Complex and parents/guardians or the partner institution may be notified accordingly. This sanction is issued by the Director of Residential and International Student Services.

Student Conduct Probation: An Admonishment Letter for student conduct probation should be understood to mean that any further violation(s), even of a minor nature, could warrant immediate suspension or expulsion from the College. The duration of the student conduct probation, typically not less than one semester, affects the non-academic status of the student. During this time, the student cannot hold an elected or appointed office in any student organization, club or society registered with the College, represent the College in any extra/co-curricular activity or official function, work at the College through the Work Study program, or apply for a position to the International Internship and Study Abroad Program. Any student placed on conduct probation may lose scholarships (e.g. academic scholarship or other merit based institutional gift aid).

Temporary Suspension: The student is suspended from taking classes, using the College facilities and taking part in any College event, pending conduct proceedings, for a specified period of time at the discretion of the Director of Student Affairs where it is believed the student would constitute serious disruption or danger to the health, safety or welfare of the College, others, or oneself. Temporary suspension will remain pending until the completion of the conduct process.

Suspension: The student is suspended from taking classes and or living in the Residence Complex for a specified or indefinite period of time. The student must comply with all sanctions prior to readmission.

Note: Students suspended from the College and/or Residence Complex, regardless of the amount of time remaining in the semester, are not eligible for refunds or rebates for charges associated with housing, tuition or fees.

Expulsion: The student is permanently expelled and cannot be readmitted to the College.

Note: Students expelled from the College, regardless of the amount of time remaining in the semester, are not eligible for refunds or rebates for charges associated with housing, tuition, or fees.

Other Institutional Policies and Regulations

Non-Discrimination Policy
The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programmes. ACG strives to eliminate unfair bias and stereotyping in the institution.

Data Protection

Computer Ethics Policy
The American College of Greece is committed to free and open inquiry and discussion, fair allocation of College resources, and the provision of a working environment free of needless disruption. To advance these goals, ACG has adopted policies on computer usage that are summarized here.

- ACG computers and computer networks are to be used only by persons authorized by the College, and only for College purposes. College purposes include the educational programmes of the College, as well as its research, administrative, and outreach activities. Use of College facilities for other purposes requires prior authorization.
- No one shall knowingly endanger the security of any College computer or network facility, nor willfully interfere with others’ authorized computer usage.
- No one shall use the College’s communication facilities to attempt unauthorized use, nor to interfere with others’ legitimate use, of any computer or network facility anywhere.
- No one shall connect any computer to any of the College’s networks unless it meets technical and security standards set by ACG’s Information Resources Management administration.
- All users shall share computing resources in accordance with policies set for the computers involved, giving priority to more important work and cooperating fully with the other users of the same equipment.
- No one without specific authorization shall use any College computer or network facility for non-College business.
- No one shall give a computer password to an unauthorized person, nor obtain another person’s computer password by any unauthorized means whatsoever. No one except the system administrator in charge of a computer is authorized to issue passwords for that computer.
- No one shall engage in, encourage, or conceal from authorities any «cracking,» unauthorized tampering, or other unauthorized use or deliberate disruption of computers.
- No one without specific authorization shall read, alter, or delete any other person’s computer files or electronic mail, even if the operating system of the computer permits them to do so.
- No one shall copy or use software or data in violation of copyright laws, license agreements, or the basic requirements of academic honesty.
- No one shall create, install, or knowingly distribute a computer virus, «Trojan horse,» or other surreptitiously destructive program on any College computer or network facility, regardless of whether any demonstrable harm results.
- No one without proper authorization shall modify or reconfigure the software or hardware of any College computer or network facility.
- Users shall not place confidential data into computers without protecting it appropriately. The College cannot guarantee the privacy or authenticity of computer files or electronic communications unless special arrangements are made.
- Users shall take full responsibility for messages that they transmit through the College’s computers and network facilities and shall obey the policies of discussion forums in which they participate. Laws and rules against fraud, harassment, obscenity, and the like apply to electronic communications no less than other media.
- Those who publish World Wide Web pages or similar information resources on College computers shall take full responsibility for what they publish; shall respect the acceptable-use conditions for the computer on which the material resides; shall obey all applicable laws; and shall not publish commercial advertisements without prior authorization. References and links to commercial sites are permitted, but advertisements, and especially paid advertisements, are not. Users shall not accept payments, discounts, free merchandise or services, or any other remuneration in return for placing anything on their web pages or similar facilities.
- Users shall comply with the regulations and policies of newsgroups, mailing lists, and other public forums through which they disseminate messages.
- Those who administer computers and network facilities shall perform their duties fairly, in accordance with College policies, and shall refer all disciplinary matters to appropriate authorities through the VP for Information Resources Management.
- Electronic mail (e-mail) is intended for communication between individuals and clearly identified groups of interested individuals, not for mass broadcasting. No one without prior authorization shall use the College’s facilities to distribute the same or substantially the same e-mail message to more than one person without prior evidence that they wish to receive it, or to distribute chain letters (messages asking the recipient to distribute copies further). ACG reserves the right to discard incoming mass mailings («spam») without notifying the sender or intended recipient. For its own protection, the College reserves the right to block all Internet communications from sites that are involved in extensive spamming or other disruptive practices, even though this may leave College Computer users unable to communicate with those sites.

Acceptable Use of E-mail Policy

Terms and Conditions of Use
User should carefully read this document as well as ‘The American College of Greece Computer Ethics Policy’ posted on the ACG website. Deree-ACG has several mechanisms through which students may offer input on a variety of issues affecting the governance of the College.

Student Representation on Committees

One of the primary mechanisms through which students may influence College governance is through their participation on College and Faculty standing committees. The following committees have student representation:
- Committee on Standing and Conduct
- Library Committee
- Committee on Disability and Learning Differences
- Committee on Academic Standards and Policies
- Curriculum Committee
- Green Campus Committee
- Program Committees

Library Committee
This Committee assists the College Librarian in developing the Library collection, and in formulating Library policies. The Committee has two student representatives selected by the Student Council.

Committee on Disability and Learning Differences
This Committee monitors and recommends policies and procedures in order to accommodate individuals with disabilities and learning differences. The Committee has one student representative recommended by the Educational Psychologist and approved by the Director of Student Affairs, with a minimum CI of 2.50, with at least 60 credits earned, who attends policy meetings only.

Committee on Academic Standards and Policies
This Committee studies, clarifies and proposes academic policies and procedures. The Committee has one student representative (from the junior or senior classes, with a C.I. of 3.0 or above) to attend policy making sessions, only, with full voting rights selected by the student government.

Curriculum Committee
This Committee studies, monitors and improves College curricula and academic programmes, and makes recommendations to the Faculty Assembly. The Committee has three senior students (without voting rights) (one from the School of Arts and Sciences, one from the School of Fine and Performing Arts and one from the School of Business, each with a C.I. of 3.0 or above, to be selected by the student government and to be present only during the presentation of new programmes).

Green Campus Committee
This Committee identifies, addresses and promotes issues related to a sustainable future for The American College of Greece in the areas of campus operations, education and institutional policy. The Committee has two student representatives (one from the Deree Student Government, with a C.I. of at least 3.0 and one from the Environmental Studies Society, with a C.I. of at least 3.0).

Program Committees
The Presidents of student academic societies are members of the Programme Committees which among other things have responsibility for the routine monitoring of programmes, including the consideration of student feedback, performance data and external examiners’ reports.

Student Evaluation

Students are encouraged to actively provide constructive feedback on their experiences at Deree-ACG, and thereby contribute to enhancing those learning experiences for themselves and for future students at the College.

Student Module (Course) Evaluation
Near the end of each semester/session, students are given the opportunity to assess the effectiveness of each course and its instructor, by anonymously completing an online evaluation form for each course in which they are enrolled. Instructors use this information for course improvement. The results of these evaluations are processed and disseminated electronically to each Instructor, Department Head, Academic Dean, the Provost, the Vice President of Human Resources and the President. This information is taken into consideration during the College’s formal performance appraisal for each instructor. Summarized results are published online to students. The Open University (OU) receives feedback on the student evaluation results through the OU Annual Monitoring Report (AMR).

Senior Exit Survey
Students who are graduating at the end of a session or semester are asked to provide their feedback on the academic curricula and academic support services they experienced during their course of study at Deree-ACG. The senior exit survey is administered at the departmental level, and summarized by department and by school. Deans and Department Heads share the summary information with the relevant department faculty and with Administration. The information from the surveys is used by Program Committees for curricula and academic support services improvement.

Other Forms of Student Feedback
From time- to- time, the College may invite students to provide their feedback on a variety of issues affecting student learning experiences and College life in general. This may take the form, for example, of student participation on ad hoc committees or student participation in opinion surveys on a particular topic e.g. organizing debates or panel discussions on academic integrity in collaboration with the Committee on Standing and Conduct.

Student Opportunity for Input
Deree – ACG, frequently seeks student feedback and input. Online surveys are used to gather information on any number of subjects. In addition, paper surveys are occasionally used to gather data as well.

Career Services Survey
Career Services performs an annual survey at the conclusion of the academic year for all graduating seniors on the day of Academic Regalia Gown distribution. Information is gathered regarding the use of Career Services, employment data, graduate studies, career planning, etc.

Clubs and Student Organizations

Clubs and organizations are part of the vibrant student life available at Deree. There is a wide variety of clubs ranging from those that are academic or theoretical in nature to those that are more practical, all of which contribute to community life at the College. There are also student organizations that support activities and events that originate from administration offices of the College. Overall students join a club or organization because
they share a common interest and wish to develop that interest through group discussions, presentations, competitions, exhibitions and much more.

The Clubs & Student Organization Guidebook, located on blackboard under Student Life and Athletics, serves as a handbook for the governing bodies of clubs and organizations. Student learn how to form a new club, retain recognition, amend their constitutions, elect new governing bodies, manage finances, plan and promote events and much more.

All Deree students in good academic standing (C.I. 2.0 and above) are eligible to join college clubs. The Office of Student Affairs (OSA) oversees all clubs and organizations. Clubs, however, must attain and continue to receive official recognition and budget allocation by the Student Government.

Should you wish to find out more about any student club or organization come by the Office of Student Affairs, the Office of the Student Government Association, or contact its members directly through email.

Student Organizations

ACG Cares
ACG Cares offers the members of the ACG community the opportunity to engage in service-related activities that enhance the quality of life of others in the community, as well as their own. In providing such opportunities, ACG Cares seeks to uphold the College mission of empowering its members to develop as critical and creative thinkers and socially aware individuals, while preparing for lives of reflection and responsible civic engagement in a complex, global world.

Deree Orientation Leaders
The Deree Orientation Leaders are highly motivated students whose main purpose is to assist new students in their transition to academic and social life at Deree. This organization helps plan the student orientations held before each semester. During orientation, they lead small groups, serving as mentors for new students, providing information, and having fun!

Deree Student Activities Board (Deree SAB)
The Deree Student Activities Board (Deree SAB) provides programming that complements, reflects and responds to the College community. These programs are designed to be both fun and provide an educational experience for those involved in planning and presenting the programs.

Deree Student Association
Through hard work and dedication, the Deree Student Association aims to empower the voice of the students and actively promote a vibrant campus community at Deree - The American College of Greece. Acting as liaison between the undergraduate student body and the administration, faculty and staff of Deree – The American College of Greece, they strive to provide responsible leadership and fair, democratic representation of the students in an official capacity while promoting equality and unity among the student body.

Student Emergency Response Force (S.E.R.F.)
Student Emergency Response Force, better known as S.E.R.F., is Deree’s emergency response team. Organized in 1998, team members are trained to assist in emergency situations on campus (earthquakes, medical emergencies, and evacuations) and escort students from campus to the bus stop or their cars. Team members are trained in CPR (cardiopulmonary resuscitation) and first aid, self-defense, climbing/rappel, the use of scuba equipment, orienteering, wilderness survival, fire fighting, using two-way radios, self-defense, and other skills. The spirit of the team is one of unity, service, and volunteerism.

Deree College Ambassadors
The Deree Ambassadors are undergraduate students of high academic standing who are advocates for Deree from a position of leadership and service. Ambassadors are guided by their desire to serve, commitment to improve, and attitude of selflessness. They assist in events organized by the College.

Together for Sustainability
‘Together for Sustainability’ involves Deree undergraduate and graduate students and works to promote the vision of ACG to become a sustainable campus and a sustainable learning community. ‘Together for Sustainability’ offers the members of the ACG community the opportunity to engage in environmental activities that help promote sustainability, a vision that would enhance the community by integrating environmental, cultural, social, economic aspects. In providing such opportunities, the organization seeks to uphold the College mission of empowering its members to develop as critical and creative thinkers and as socially and environmentally responsible individuals that appreciate the value of teamwork and solidarity in a complex interconnected world.

The Institute for Diplomacy and Global Affairs (IDGA) has been established to focus primarily on current world affairs considering them within their historical context and with respect to their immediate application. The connection between events and people along with their long term effects upon stability, welfare and international cooperation and understanding comprise the overall aim of the IDGA.

The IDGA is a center of scholarship in public and international affairs. The Institute’s programmes address international events and attempt to influence the domestic environment towards understanding the multiple texture of an unfolding new global reality.

In 1994, the College established the Kimon Friar Lectureship in Modern Greek Arts and Letters to honor the memory of the distinguished Greek-American translator, poet, and anthologist. The lectureship brings renowned scholars to the College and fulfills the terms of Kimon Friar’s bequest to the Attica Tradition Educational Foundation of all his property in Greece, including his library and manuscripts, now deposited in the Special Collections, Rare Books and Archives division at the College library.

In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programmes it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programmes, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programmes. ACG strives to eliminate unfair bias and stereotyping in the institution.
