

DEREE COLLEGE SYLLABUS FOR: LM 3025 LOGISTICS SYSTEMS

(Updated Fall 2021)

UK LEVEL: 5
UK CREDITS: 15
US CREDITS: 3/0/3

PREREQUISITES:	None
CATALOG DESCRIPTION:	Demand forecasting, demand management, customer service, warehouse management, green, reverse and global logistics. Material flows in supply chain management. Logistics as a set of key processes and functions essential to strategic and operational success.
RATIONALE:	As future professionals in supply chain and logistics students need to become familiar with fundamental analytical tools for designing and operating logistics systems, technological changes and developments in logistics. By taking this module students will be able to decide where and how the available tools/techniques can be used for improving the overall performance of the supply chain. Students will have the opportunity to solve real problems occurring in logistics systems through various industry examples.
LEARNING OUTCOMES:	As a result of taking this module, the student should be able to: <ol style="list-style-type: none">1. Analyze performance drivers related to warehouse management, green, reverse and, global logistics.2. Explain current logistics and supply chain management trends and discuss the impact of innovation on related operations.3. Collect and analyse data, diagnose challenges and identify effective and innovative solutions to facilitate operations related to logistics systems.4. Build teamwork skills and develop collaborative competences by identifying opportunities and challenges associated with logistics systems.
METHOD OF TEACHING AND LEARNING:	In congruence with the teaching and learning strategy of the college, the following tools are used: <ul style="list-style-type: none">➤ Classes consist of lectures, discussions, collaborative in-class small projects and case presentations.➤ Office Hours: Students are encouraged to make full use of the office hours of their instructor in order to consult and discuss issues related to the course's content.➤ Use of blackboard site, where instructors post lecture notes, assignments instructions, timely announcements, as well as additional resources.

<p>ASSESSMENT:</p>	<p>Summative:</p> <table border="1" data-bbox="646 239 1503 378"> <tr> <td>First Assessment: Written Project (group, 4,000-5,000 words)</td> <td>60%</td> </tr> <tr> <td>Final Assessment: Written Examination (Essay-type questions)</td> <td>40%</td> </tr> </table> <p>Formative:</p> <table border="1" data-bbox="646 445 1503 583"> <tr> <td>In-class, 1-hour, "diagnostic" test (Essay-type questions)</td> <td>0</td> </tr> <tr> <td>Coursework (Case studies, experiential exercises, in class quizzes)</td> <td>0</td> </tr> </table> <p>The formative test aims to prepare students for the summative assessments.</p> <p>The Written Project tests Learning Outcomes 3 and 4. The Final Examination tests Learning Outcomes 1 and 2.</p> <p>Students are required to resit failed assessments in this module.</p>	First Assessment: Written Project (group, 4,000-5,000 words)	60%	Final Assessment: Written Examination (Essay-type questions)	40%	In-class, 1-hour, "diagnostic" test (Essay-type questions)	0	Coursework (Case studies, experiential exercises, in class quizzes)	0
First Assessment: Written Project (group, 4,000-5,000 words)	60%								
Final Assessment: Written Examination (Essay-type questions)	40%								
In-class, 1-hour, "diagnostic" test (Essay-type questions)	0								
Coursework (Case studies, experiential exercises, in class quizzes)	0
