| PREREQUISITES: | LM 2020 Introduction to Logistics & Supply Chain Management LM 3025 Logistics Systems MA 2021 Applied Statistics MG 2003 Management Principles | | | | |
| CATALOG DESCRIPTION: | Contemporary issues in supply chain management in the digital era. Impact of artificial intelligence, blockchain, Internet of Things, robotics and 3D printing on supply chain. | | | | |
| RATIONALE: | In the current era of global digital transformation where new business models appear and extensive opportunities are generated, understanding of technology becomes imperative for the successful management of supply chain operations. Students need to be able to appreciate the effects of technological evolution on contemporary supply chains. Through case study analysis students will acquire hands-on knowledge of the application of the 4.0 revolution on contemporary supply chains. | | | | |
| LEARNING OUTCOMES: | On successful completion of this module, the student will be able to: <ol style="list-style-type: none"> 1. Assess contemporary developments in supply chains and analyse the opportunities offered within an ethical and socially responsible context. 2. Evaluate different supply chain 4.0 theoretical frameworks in light of current supply chain developments. 3. Synthesize and apply the knowledge gained to improve customer satisfaction, supply chain efficiency and increase profit potential. | | | | |
| METHOD OF TEACHING AND LEARNING: | In congruence with the teaching and learning strategy of the college, the following tools are used: <ul style="list-style-type: none"> ➤ Class lectures, interactive learning (class discussions, case studies) and practical problems solved in class. ➤ Office hours: Students are encouraged to make full use of the office hours of their instructor in order to consult and discuss issues related to the course's content. Also, students may contact the instructor via e-mail for any questions relevant to the lectures. ➤ Use of Blackboard: The instructor will post lecture notes, additional teaching material and readings, as well as assignments instructions and announcements. | | | | |
