(Updated Fall 2021)

**UK LEVEL: 5  
UK CREDITS: 15  
US CREDITS: 3/0/3**

**PREREQUISITES:**

None

**CATALOG DESCRIPTION:**

Managing innovation in start-ups and in existing organizations. Skills for introducing, analyzing, and managing the offering of break-through products and services. Practical application of innovation inside corporations.

**RATIONALE:**

This module provides knowledge and understanding necessary for the effective management of innovation in start-ups and in existing organizations. Through an understanding of contemporary approaches and best practices to the management of innovation, students are likely to be more successful in their future business endeavors, whether in a start-up or in an established business organization.

**LEARNING OUTCOMES:**

- As a result of taking this course, the student should be able to:
1. Explain the nature and scope of business innovation and demonstrate its impact on organizations.
  2. Analyze theories of business innovation and corporate entrepreneurship.
  3. Apply theories of innovation management to existing enterprises and to start-up firms.

**METHOD OF TEACHING AND LEARNING:**

- In congruence with the teaching and learning strategy of the college, the following tools are used:
- Class lectures, interactive learning (class discussions), case studies and practical problems solved in class.
  - Office hours: students are encouraged to make full use of the office hours of their instructor, where they can ask questions, see their exam paper, and/or go over lecture material.
  - Use of blackboard, where instructors post lecture notes, assignments instructions, timely announcements, as well as additional resources.

**ASSESSMENT:**

<b>Summative:</b>	
First Assessment: Mid-term Examination (1-hour, essay-type)	<b>40%</b>
Final Assessment: Written Project (group, 4,000-4,500 words)	<b>60%</b>
<b>Formative:</b>	
Short project proposal	<b>0%</b>
Research articles discussion, Case-studies	<b>0%</b>

The formative assessments aim to prepare students for the

	<p>written project and for the examination.  The mid-term examination tests Learning Outcomes 1 and 2.  The written project tests Learning Outcome 1, 2 and 3.</p> <p>The final grade for this module will be determined by averaging all summative assessment grades, based on the predetermined weights for each assessment. If students pass the comprehensive assessment that tests all Learning Outcomes for this module and the average grade for the module is 40 or higher, students are not required to resit any failed assessments.</p>
