

**DEREE COLLEGE SYLLABUS FOR:
PS 4751 ADULT PSYCHOPATHOLOGY**

3/0/3

(Previously PS 4751 ABNORMAL PSYCHOLOGY - L6)
(Updated Spring 2022)

**LEVEL 6
UK CREDITS: 15**

PREREQUISITES:

PS 1000 Psychology as a Natural Science – L 4
PS 1001 Psychology as a Social Science – L 4
PS 2236 Human Learning & Memory – L4
PS 2260 Introduction to Statistical Thinking – L4
PS 2347 Analysis of Quantitative Data – L 4
PS 3630 Biological Psychology – L5
BI 1000 Introduction to Biology I – L4

**CATALOG
DESCRIPTION:**

Major theories of and research in the study of psychopathology. A scientist-practitioner approach to the study of the major psychological disorders, based on the DSM-5, along with their assessment, sociocultural implications, and treatment. Diverse cultural perspectives in the understanding of mental health disorders.

RATIONALE:

An advanced-level module familiarizing students with basic clinical concepts, including assessment of psychopathology, different theoretical perspectives, and research. For the future clinical, counselling, forensic and school psychologist, as well as social scientist who wants to gain insight into the dynamics of adult psychopathology.

LEARNING OUTCOMES:

Upon completion of this module, the student should be able to:

1. Critically evaluate assumptions underlying definitions of abnormality/disorder, according to different theoretical perspectives.
2. Consider the complex interplay of factors that contribute to the development and maintenance of psychological and behavioural dysfunction.
3. Describe the symptoms of the different types of psychopathological and behavioural dysfunction and evaluate current knowledge of treatments and outcomes.
4. Critically evaluate and use the classification system of psychopathology to arrive at differential diagnoses for different cases.

**METHOD OF TEACHING AND
LEARNING:**

In line with the teaching and learning strategy of the college, the following tools are used:

- Office hours
- Use of Blackboard Site
- Lectures
- Class experiential activities and group discussions

ASSESSMENT:

Summative:

1st assessment: Critical Review Paper Critical review/argumentative paper on recent empirical findings on controversial diagnostic and treatment issues of psychopathology	50%
2nd assessment: Application Assignments	10%
Final assessment: Examination Essay questions	40%

The 1st assessment tests Learning Outcomes: 1 and 2.
The 2nd assessment tests all Learning Outcomes 1,2,3,4.
The final assessment tests Learning Outcomes: 2, 3, 4.

Students are required to resit failed assessments in this module.
