

GREEN ROOFS COURSE @ DERE

The Center of Excellence for Sustainability (CES) invites you to a “Green Roofs course” that will take place at DERE College. It will last 90 contact hours, between February and May, mainly weekends and the week after spring semester finals. This program will be the first to provide the required know-how and certified skills for people able to install green roofs in Greece and Europe. The workshop is free and open to everybody, but priority will be given to the ACG community members. On completion of the course, participants will receive a certificate that will verify their expertise in installing quality green roofs.
