Sustainable **Event** Certification Checklist v.1

**How to Get Certified**

**Step 1:** Review the checklist in its entirety to familiarize yourself with the framework.
**Step 2:** Fill out each line to reflect your event plan. Remember to start as early in the planning process as you can and *save file often*.
**Step 3:** When you are done filling out this form, you will see your score at the bottom of the page. Review and make any changes.
**Step 4:** Once complete, send form to ces@acg.edu for final review and official sustainable event certification.

Policy

Setting a sustainability policy outright—and then amplifying this policy across all planning areas—will help minimize resource consumption, maximize reuse of materials, and spread awareness of the event's commitment to sustainability.

Implementation

P.1 Event planners confirm adherence to the ACG Sustainable events policy
Event planners have considered sustainability when submitting requests to the Purchasing office and, if appropriate, incorporated into contract language

P.2 Event planners have taken the ACG Sustainability Pledge and have considered the online signing of the pledge by participants during the event

P.3 Promoting
Event planners are confident in their sustainability awareness levels and have committed to educating participants during /after the event (if appropriate)

P.4 Event is promoted, once certified, as a "Sustainable Event"
Giveaways or gifts are eliminated or replaced with environmentally responsible options

Materials

Successful sustainable waste management diverts materials from landfills and incineration by minimizing resource consumption and maximizing reuse.

Paper/Printed Materials/ Promotional

M.1 Pre- and post- event communication is done electronically

M.2 Promotion and advertising of the event is done electronically
### Materials

| M.3 | Event can be labelled as completely PaperLess | Choose Answer | 3 |
| M.4 | Event has minimized total paper use/consumption (if answer above is yes, choose N/A) | Choose Answer | 2 |
| M.5 | Labelling (name badges sleeves, lanyards etc.) is collected at the end of the event for re-use or recycling | Choose Answer | 1 |
| M.6 | Banners and signage are not date or venue/location restricted and can be re-used | Choose Answer | 1 |
| M.7 | Printed materials are printed on recycled material/paper | Choose Answer | 2 |
| M.8 | Printed materials have been printed on both sides, using wide margins and if possible on smaller paper formats | Choose Answer | 2 |
| M.9 | Grayscale printing is preferred over colour printing | Choose Answer | 1 |

#### Waste

- Reusable materials have been used for decorations (including but not limited to centerpieces, tablecloths, decor etc.)
- Attendees RSVP or are registered prior to the event in order to avoid excess procurement and waste
- Waste Streams (recyclables, compostables, residual) are clearly labelled
- Event planners have ensured appropriate access to recycling bins for the entire event
- Unused items at the end of the event are stored for reuse or exchange
- Limit the amount of materials exhibitors can bring in and ask for exhibitors to take-back waste or non-reusable materials
- Ensure any packaging materials are minimal, reusable and/or recyclable

### Catering

Promoting sustainable food practices is integral to the resilience of our planet, its economies, and its people. We can improve human and environmental health by making well-informed, sustainable decisions.

Event planners have ensured for catering according to various social/ethnic/personal dietary restrictions.

C.5 Food offered consists mainly of vegetarian options.

C.6 Catering does not include provision of single use cutlery / dishes / cups / straws.

C.7 Event has no bottled water.

C.8 Food and condiments served in bulk rather than single-serving containers.

If above options cannot be implemented, have the event planners make sure that all materials used are 100% recyclable.

C.9 Attendees emailed prior to event and encouraged to bring own water bottles and/or dishware.

C.10 Food is clearly labelled in terms of ingredients and/or dietary restrictions.

C.11 Event planners have made arrangements for the charitable distribution of leftover food.

C.12 Attendees emailed prior to event and encouraged to bring own water bottles and/or dishware.

Catering Total Score: 18

Energy

More sustainable energy and transportation can help lower event costs, reduce negative ecological impact, and create a healthier, more comfortable event space.

Venue

Event is held in a venue chosen for its energy efficiency and sustainable amenities, i.e., a space with natural lighting, or outdoors.

E.1 Event Planners have considered minimizing heat/cooling loss through choice of venue.

E.2 Lighting and equipment used during the event to be monitored for energy consumption (switched off when not in use/required).

E.3 Events occupying multiple rooms have been restricted to a single unit/level/building to minimize energy consumption.

Transit/Transportation Options

E.5 Venue is accessible by foot, bicycle, or public transportation.

E.6 Attendees encouraged to take public transportation, bike, or walk to event and provided with info, as appropriate.

Score Available Points
E.1 1
E.2 2
E.3 1
E.4 1
E.5 1
E.6 1
Teleconference/telepresence option has been considered for keynote speakers

Virtual attendance provided as an option for off-campus attendees

Shuttle, carpool, group walks, and/or bike rides are arranged for transportation to, from, and/or during events

10

Innovation

Instructions: Did you come up with a creative idea along the way? Describe your innovative sustainable actions that are not covered by the items above. The Office of Sustainability will award points for each innovation item that offers a creative solution to sustainability challenges. Most innovative ideas will be worth 1 point each and will be highlighted on the Sustainable Events webpage. We will add the points to your final score.

Scoring Criteria:

- Bronze Level, "Sustainability Awareness" = Minimum 40% of applicable points
- Silver Level, "Sustainability Best Practices" = Minimum 55% of applicable points
- Gold Level, "Sustainability Excellence" = Minimum 75% of applicable points

You are only scored on actions that are applicable to your event. If the action is not applicable, choose N/A.
