Professional Education on Covid-19

Based on the instructions and guidelines given by EODY and the Greek Health Care system, ACG is applying all necessary Personal Hygiene & Cleaning Guidelines to secure the health and safety of our community. Offices, classrooms, labs, common areas and bathrooms are cleaned with increased frequency using approved chlorine-based cleaning products appropriate for disinfection. We have also taken measures in order to reassure that distancing requirements are being kept within the classrooms.

All individuals should monitor their health for symptoms of COVID-19 on a daily basis and before entering the ACG campus. Specific guidelines have been developed to ensure the safety of our campus community:

- Wear a face cover mask in all indoor and semi-open spaces (e.g. main corridor) at all times
- Keep a physical distance of at least 1.5 m from others.
- Wash hands frequently for at least 20 seconds, using soap and water.
- Use hand sanitizer frequently when soap and water are not available.
- Avoid touching eyes, nose or mouth with unwashed hands.
- Avoid large gatherings when feasible.
- Eliminate physical contact with others (e.g., hand-shaking, hugging).
- Avoid sharing foods and drinks.
- Use the stairs and avoid elevators: As directed by public authorities, the use of elevators is limited to individuals who are unable to use the stairs (physically handicapped/health condition).

Program participants should stay home immediately and follow instructions given by their physician and EODY if any of the below apply:

- Have symptoms of COVID-19 (see list of symptoms below)
- Have been in close contact (within 2 m for 15 minutes or more) with someone who has tested positive for COVID-19
- Have been in close contact with someone who is symptomatic (patient under investigation) who has been tested for COVID-19 and is awaiting test results
- Are symptomatic and been tested for COVID-19 and are awaiting results or have been told the test was positive.

Symptoms of COVID-19

- Fever and/or chills or feeling hot (if no thermometer available)
- New cough not related to chronic condition
- Difficulty breathing, shortness of breath
- Sudden onset of loss of taste and smell
- Headache unrelated to chronic condition
- Muscle aches
- Fatigue
- Nausea and/or vomiting, diarrhea with or without respiratory symptoms
- Sore throat

Please note that if you by any chance suffer from any of the above symptoms, you have a legal obligation to immediately notify the School of Graduate and Professional Education in order for the rest of the participants to be informed in time.
