To Whom It May Concern:

Zeta Psi Headquarters has received interest from students studying at the Deree, The American College of Greece to start a local chapter of our International Fraternity.

Zeta Psi is a fraternal organization that started in 1847 and now operates at 52 Campuses across 5 countries on 2 different continents. The Fraternity has always been ambitious with where our organization recognized chapters, starting with going international in 1879 at the University of Toronto and expanding to England in 2008. We are dedicated to developing leadership, character and intellect in each of our young men and every individual we come in contact with. Deree, the American College of Greece fits the expansion mindset that Zeta Psi has, and we would be happy to partner with you.

Zeta Psi would be interested in working with Deree, to understand the Fraternal structure and how we can help your students better themselves, the campus and greater Athens community.

The plan is to help the potential members create a student society that lasts as long as the 172 years that our organization has been a productive member of Zeta Psi.

I'm happy to have any conversations that will help in your recognition decision and process. You can reach me at boisvert@zetapsi.org.

Fraternally yours,

Tyler Boisvert
Executive Director
Zeta Psi Fraternity
