AP 6478 FIELDWORK

1 US CREDIT

Prerequisites

AP 6077 THEORIES OF LEARNING & HUMAN DEVELOPMENT

AP 6073 CONSULTATION

AP 6174 BEHAVIOR MANAGEMENT & ABA

AND

AP 6071 CHILD & ADOLESCENT PSYCHOLOGICAL ASSESSMENT

OR

AP 6072 CHILDHOOD & ADOLESCENT THERAPEUTIC INTERVENTIONS

OR

AP 6075 LEARNING DISABILITIES ASSESSMENT & REMEDIATION

Fieldwork is designed much like a practicum and provides students with a structured opportunity to gain real-world, hands-on experience in a child and adolescent educational/therapeutic setting. It allows students to apply concepts and practices learned in coursework as they assist in professional-level work under the formal guidance from a qualified supervisor. Students typically pursue tasks and projects that constitute entry-level professional work. In addition, since fieldwork is meant to be a learning opportunity for students, fieldwork tasks usually involve skills and knowledge that the student has already begun to develop through coursework but for which the student has not yet developed a high level of expertise. Finally, the taught component of the class helps students develop case conceptualization skills by integrating theoretical knowledge and applying it to real case material for treatment/remediation planning and evaluation. Topics examined through the consultation process include: case conceptualization, professional development, peer supervision, quality assurance, legal and ethical considerations, institutional dynamics, consultation and communication of assessment results.

A Thesis is undertaken by all students working individually and in consultation with a selected instructor who acts as their thesis advisor. The dissertation must convey scholarly and/or professional analysis informed by sustained and appropriate application of methodology. The dissertation is a significant analytical piece of work: it represents work of a higher standard of what is normally expected from a term paper and provides an opportunity for students to draw on their methodological, analytical and substantive learning in a comprehensive written study.
