The American College of Greece

Founded in 1875

International in origin and outlook, Deree – ACG offers a distinctive academic ethos rooted in American higher education best practices and integrating American, Greek and European cultures. The College is committed to extending educational opportunities to qualified students of diverse backgrounds and to active, mutually supportive interaction with its alumni. Deree faculty, dedicated to teaching, scholarship and service, cultivate a rich intellectual campus environment, serve numerous external constituencies and contribute to their professional disciplines. Through undergraduate and graduate curricula in the liberal arts and sciences, business and selected professions, as well as through its cocurricular programs, the College enables students:

- to define and pursue their educational and professional goals,
- to develop as critical and creative thinkers and socially aware individuals, and
- to prepare for lives of reflection as well as responsible civic engagement in a complex, global world.

Athens

As the home of Plato's Academy and Aristotle's Lyceum- the two greatest schools in antiquity - Athens can justifiably claim to be an incomparable setting for an institution of higher learning. The birthplace of Western culture and civilization, Athens has come to exemplify what men and women can achieve when allowed to exercise their minds and imaginations in a free and open society.

From its mythical founding by the legendary King Theseus, who united the independent towns of Attica and forged them into a single city-state, or polis, Athens became the center where the Hellenic ideals of the spirit of inquiry, critical thinking, rational discourse, and artistic expression were realized. Socrates, Plato's mentor, engaged his fellow Athenians in dialogues, that constitutes the quintessence of philosophical questioning and reasoning. The great tragic and comic poets, Aeschylus, Sophocles, Aristophanes, and Euripides, produced their supreme works of dramatic art in this city. Thucydides opened his enduring history by proudly identifying himself as an Athenian.

The idea of *demokratia*, or rule by the people, originated in Athens, with the political reforms of sage lawgivers and rulers such as Solon and Cleisthenes. The Athenian ideal was later articulated eloquently by the statesman Pericles in his inspired Funeral Oration, where he paid tribute to his city as the "school of Hellas," which, because of its noble institutions, concern for culture and education, love of discussion, sense of duty and honor, and passion for justice, was a model for the world and "worthy of admiration."

During the Athenian Enlightenment of 2,500 years ago, the city nurtured such master architects as Ictinus, Callicrates, and Mnesicles, and the immortal sculptor Phidias. They adorned the hill overlooking the city, principal sanctuary of the patron goddess, Athena, with the magnificent Parthenon and Erechtheum temples and the splendor of the Propylaea.

The Acropolis, the "high city," is Athens' monumental legacy to the West and to the world. Having withstood the vicissitudes of time and events, it remain an ageless testament to human excellence and to the glory that was Greece.

Today, Athens is the capital of a European Union country, meaning that it belongs to a greater political and geographic entity and shares its vision. Athens is a culturally invigorating urban center of museums, theatres, and concert halls, and has become a twenty-first century computerized metropolis, with a state-of-the-art metro system and airport, ages removed from the antique days of archons and triremes.

And yet, when peoples and nations made their way to Greece for the Olympic Games of 2004, the past echoed, as Athens once again proclaimed, in the proud words of Pericles: "We throw open our city to the world". And when the time came for the city to be thrown open, Athens showed the world what it can nowhere else see.

Introduction - The College

Introduction - The College

The American College of Greece (Deree - ACG) is the oldest and largest, comprehensive, independent, American accredited college in Europe, currently enrolling over 7,000 students in its three educational divisions. The College's more than 65,000 alumni reside in more than 100 countries, occupy leadership positions in areas such as business, the arts, and the sciences, and constitute a vibrant and proud alumni body that promotes Deree - ACG's mission, vision and values.

Founded in 1875 by American Christian missionaries as a primary and secondary school for girls in Smyrna, Asia Minor. Social upheaval in Asia Minor forced its closure in 1922, and the College reopened in Athens in 1923 at the invitation of Eleftherios Venizelos, the internationally renowned statesman. The College expanded into higher education in 1927 and in 1936 the school was named Orlinda Childs Pierce College in memory of the wife of a benevolent supporter.

During the 1960s, the College changed significantly. Pierce College was incorporated in the state of Colorado in 1961 and was authorized to grant bachelor of arts and bachelor of science degrees. In 1963 the secondary school division of Pierce College was recognized by the Greek government as the equivalent of a national public school. In 1965 the College moved to a sixty-four-acre site in Aghia Paraskevi, a northeastern suburb of Athens. The Aghia Paraskevi campus, situated on the western slopes of Mt. Hymettus some ten kilometers from the center of Athens offers a magnificent view of the sprawling city. Its original buildings were designed by the renowned Greek architect Constantine Doxiades. The College's first baccalaureate degrees were awarded in 1969, and in 1973, in honor of a generous benefactor from Chicago, William S. Deree (born Derehanis in the village of Ambelionas in the prefecture of Messenia in the Peloponnese) the College's undergraduate division was renamed Deree - ACG. In 1971, the Downtown Athens campus was established to broaden the College's commitment both to business education and the professional community in Greece. In 1981, the College was accredited by the New England Association of Schools and Colleges, becoming the first international American institution to be accredited by a U.S. accrediting agency. With the help of a challenge grant from the United States Agency for International Development (USAID),

Introduction - The College

funds were raised in both Greece and the United States from businesses, parents, alumni, trustees, and friends to build a five-story facility in Ambelokipi, near the city's business center, in 1993. In 2012 the downtown campus became the home of Alba Graduate Business School at The American College of Greece (Alba). Deree undergraduate classes are offered at the downtown campus during morning hours.

Although a majority of Deree - ACG's undergraduate and graduate enrollment is Greek, students come from more than 70 countries. Admission standards are competitive, and admissions are made without regard to gender, sexual orientation, race, creed, color, or economic background. English is the language of instruction.

Deree - ACG offers undergraduate programs through three schools (Business and Economics; Fine and Performing Arts; Liberal Arts and Sciences) and graduate programs through its Deree School of Graduate and Professional Education. In 2011 the College entered into a partnership with the Open University (UK) through which all Deree undergraduate programs are validated, thereby guaranteeing Deree graduates the professional rights provided by EU and Greek law. Students are able to complete both the American accredited degree and the British validated honors award within the typical timeframe of four years for U.S. undergraduate degrees.

ACG undergraduate and graduate degrees are internationally recognized as the equivalent of corresponding degrees granted by colleges and universities accredited in the United States; however, in Greece, under the provisions of Article 16 of the Constitution, they are not recognized as academically equivalent to degrees granted by Greek Universities.

The American University of Greece (AUG) was founded in 2022 and in 2023, AUG was approved by the New England Commission of Higher Education as the accredited institution, with two instructional locations – Athens, Greece and Boston, Massachusetts. That same year, AUG degrees began being awarded to graduates completing programs of study at ACG – Deree College, Deree School of Graduate and Professional Education and Alba Graduate Business School.

Academic Calendar

Weekly Schedule, Class Periods, Blended (BL) and Online Courses (OL)

The Academic Calendar is issued each academic year by the registrar. Please visit the College website to see the most recently updated calendar.

Instruction time (not including any breaks) for each three US credit hour course (15 UK credits) is 150 minutes per week. For each laboratory session carrying one US credit (5 UK credits), the instruction time is 75 minutes. Laboratory sessions are scheduled Monday, Wednesday, or Friday for one-and-a-half class periods, or Tuesday or Thursday for a full class period.

The College occasionally offers courses via distance learning modes, either as blended or online. Such courses are designated on the course schedule with the section notation of BL for blended or OL for online.

Blended courses are defined as being 35% to 50% online and the rest in scheduled campus face-to-face classrooms. Major examinations for blended courses also take place face-to-face.

Blended courses are those in which 35% to 50% of class meetings are held online and the rest are held face-to-face in campus classrooms. Major examinations for blended courses also take place face-to-face. Online courses meet exclusively online, except for examinations or other in-person assessment, which take place face-to-face on campus. Students enrolling in blended or online courses are required to enroll in an induction or introductory seminar free of charge.

** Blended Learning (BL) and Online Courses (OL) are not available to students on US Federal Financial Aid.*

Tuition and Fees

Payment Procedures

Tuition and fees payment for semesters is payable in three installments. The first payment (deposit) has to be made at least five working days before the registration date. The balance should be settled within 40 days of the first day of classes.

Tuition and fees payment for sessions must be paid in full at least five working days before the date of registration.

Tuition is charged for all courses, whether taken for credit or as non-credit. The College reserves the right to adjust tuition and other fees as the need arises. No such changes will apply to a semester or session in progress, and every effort will be made to maintain the same fees throughout a given academic year. The College will try to announce changes well in advance of the effective date of a change.

Requests for exemption from the above procedure must be made to the Business Office at least one week before registration. Exemptions may be granted for semesters but not for sessions and not for the student’s first semester at the College. Specifically, deferment of payment may be granted for up to 50 percent of the fees due for the semester. Students granted such deferments will be issued a payment-due date by the Business Office and will be required to certify by signature their agreement to abide by the terms stipulated.

Students who have an unpaid balance at the close of a semester will not be issued official records of any kind and will not be permitted to register again until the debt is paid. Students who have defaulted on such payments will be ineligible for further deferments.

Admissions Deposit

An admissions deposit is required of all admitted students. The deposit is credited toward the first full semester’s tuition and is ordinarily non-refundable. Failure to pay the deposit by the required date results in cancellation of admission.

Refunds

Tuition is refundable to students who withdraw from courses for whatever reason on the following pro rata schedule:

Semester

During the late registration and change-of-course period: 75%
(25% of the total amount will be retained)
From the first day after the late registration period through the second week of classes: 50%

Thereafter: no refund.

Sessions

During the late registration and change-of-course period: 75%
(25% of the total amount will be retained)

From the first day after the late registration and change-of-course period
through the fourth day of classes: 50%

Thereafter: no refund.

For the refunds to apply, students should closely follow the withdrawal from courses procedure as described in the Academic Regulations section of this catalog.

The international student fee is not refundable.

Under no circumstances will other arrangements (eg, crediting payments for application to later fees) be made for students withdrawing from the College.

Penalties

It is the responsibility of the student to see that all outstanding obligations to the College are met by the required deadlines.

Outstanding obligations to the Business Office must be cleared in order to obtain grades, transcripts, diplomas, or other official papers.

No student will be allowed to register or graduate if they have overdue Business Office payments.

Academic Policies Governing the US Degree

Regulations, Policies and Procedures

These Academic policies are largely common for both the Deree US degree and the Open University validated award. Differences are pointed out in relevant sections.

The term "the College" refers to Deree - The American College of Greece; "the University" refers to the Open University, UK "Course" designates a unit or module of study and "program" refers to the courses taken by a student in fulfilling the requirements of the academic award for which they registered. "Faculty" indicates academic staff, and "staff" non-academic staff. The term "re-enrollment" refers to a student taking a course that they have previously withdrawn from prior to an assessment having taken place. The term "resi" refers to the re-assessment of a student after an initial failure in one or more assessment components of a course; a "retake" refers to the opportunity to repeat a course (with attendance) if a student has failed a resit. Resits are administered on The American College of Greece campus premises only.

Any change to these regulations must be considered and endorsed initially by the Committee on Academic Standards and Policies (CASP) and then by the Academic Council and the Deree Faculty Assembly. Agreed changes will require the approval of the Open University, UK (for regulations pertaining to validated courses and programs) and the Deree Faculty Assembly. The Faculty Assembly also approves all proposed changes that refer to the programs leading to the Deree US degree.

Any changes to the academic regulations are normally introduced at the start of an academic year. In exceptional circumstances, it may be necessary to introduce a change during that same year. In such circumstances, the students affected by the proposed change will be consulted, and the Committee on Academic Standards and Policies (CASP) and the Academic Council must satisfy themselves that students will not be disadvantaged by the change. Occasionally a program may require a variation from these regulations. In such a case, the required variation concerning a validated course or program must be specifically approved by the Open University at the initial validation or subsequent revalidation of the program.

All student petitions for exemption must be submitted to CASP unless otherwise provided for in these regulations.

In the US system of education, the cumulative index (CI) is the average of all the grades of all semesters of study.

Students are in good academic standing when their CI is 2.00 and above.

Admissions

Deree - ACG follows a rolling admissions enrollment process and applications for admission are accepted throughout the year. Recommended application deadlines are as follows:

Fall Semester	June 15
Spring Semester	December 1
Summer Session I	April 1
Summer Term	April 1
Summer Session II	May 1

Deree's admissions process is selective. Each application is assessed on its individual merits and qualities.

All applications and supporting materials are retained by the Office of Admissions. All materials are kept on file under conditions of security and strict confidence, and in accordance with the provisions of Regulation (EC) 2016/679 of the European Parliament and of the Council ("General Data Protection Regulation") and the Greek legislation on the protection of personal data (Law 4624/2019), as in effect from at any given time (the "Personal Data Legislation"). If an admitted applicant is not registered they remain active for one year before their materials are destroyed.

Applicants can exercise the rights provided by the Personal Data Legislation, subject to the terms and conditions thereof, and in particular the following: right of access, rectification, restriction of processing, objection, erasure, as well as the right to data portability. If data subjects have any queries in relation to the protection of their personal data or wish to exercise their legal rights in relation thereto, they can contact the Data Protection Officer of The American College of Greece at dpo@acg.edu.

Please note that if any of the documents submitted with an application are not in English or Greek, they must be accompanied by certified English or Greek translations. Applicants should ensure that their application contains both the original documents and certified translations, or legally certified copies of such documents.

There is no application fee.

The Admissions Process

To qualify for admission to the academic programs of the College, applicants must demonstrate that they possess the appropriate qualifications to enable them to be successful in the program of their choice. Candidates are evaluated based on their academic performance, proficiency in English, and overall student profile (ie, letter of recommendation, personal statement, personal interview, extracurricular activities and work experience).

All applicants must possess a secondary education completion certificate, such as a Greek High School Apolyterion, an International Baccalaureate Diploma, a French Baccalaureate, a German Abitur or an equivalent secondary education completion certificate as defined in the NAFSA Guide to World Education Systems, or must have passed at least eight IGCSE/GCSE/GCE subjects. Applicants who have completed their secondary education in a school in Greece that does not award an Apolyterion must possess a secondary education completion certificate from one of the schools that are officially recognized by the Greek Ministry of Education.

Moreover, the standard minimum average grade entry requirement shown on the secondary education completion certificate as defined above is the following: 14/20 in the Greek Apolyterion, an overall average grade of 2.5/4.0 in a US curriculum school, 24 and above in the International Baccalaureate or the equivalent of any other educational grading system. Applicants whose grades are between 12/20 and 13.99/20 on a Greek Apolyterion or who have the equivalent grades in a secondary education completion certificate as defined above may be admitted to the College on a provisional basis.

Students admitted on a provisional basis will be required to fulfill the following conditions in order to be allowed to continue on their selected major after the completion of one academic year after their acceptance to Deree.

- Students must meet with an assigned advisor at the Academic Advising Office at least twice every month or whenever the advisor thinks it is necessary. The assigned advisor will monitor the student progress very closely and may require that they seek academic help through the Student Academic Support Services.
- The number of courses students will be allowed to register for will be determined by their English Language Placement (see "Evidence of Proficiency in English" section). However, in no case will they be allowed to register for a total of more than two courses if placed in EAP 1002 or for more than four courses if placed in WP 1010. Students with provisional status who are placed in EAP 1000, EAP 1001 must first complete their English for Academic Purpose courses before they begin taking college-level courses along with EAP 1002.
- Students who have successfully completed only the EAP sequence during their first academic year will be able to continue.
- Students must achieve a minimum cumulative average (CI) of at least 2.0 after one academic year.
- After the completion of one academic year on provisional status, students' performance will be reviewed by the Committee on Academic Standards and Policies (CASP), which will decide on student progression and/or new conditions.
- Students with provisional status are subject to the College probation policy (see "Academic Probation" section).

Academic Policies Governing the Deree US Degree

The following is required for all freshmen applicants:

1. Completed application form
2. Personal statement
3. Letter of recommendation from an academic teacher or professor
4. Official secondary school transcript(s) and diploma(s)
5. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
6. Evidence of proficiency in English.

Candidates will attend an interview with a designated College representative after all application material has been submitted. The interview will consist of a discussion of the candidate's academic and other achievements for the purposes of candidate assessment. The Admissions decision will be communicated to the candidate within 10 working days following the interview.

Evidence of Proficiency in English

All applicants must demonstrate proficiency in the English language either by taking the College's English Placement Test (Oxford Online Placement Test) or by submitting any evidence derived from one of the following tests.

Pearson Test of Academic English (PTE Academic): 58 or greater
Michigan State University Certificate of Language Proficiency (MSU-CELP)
Michigan Proficiency Certificate
Cambridge Proficiency Certificate
Cambridge Advanced English (CAE) with Grade A only
International Baccalaureate Diploma
IELTS: (academic) 6.5 or above
SAT: 450 or above
ACT: 18 or above
TOEFL (paper based): 567 or above
TOEFL (computer based): 227 or above
TOEFL (internet based): 87 or above
GCE higher level English: Grade C or greater
Oxford Online Placement Test: 99 or above*

*Certificate Minor students who do not meet the language requirements can be conditionally admitted and begin taking for-credit courses if they meet the following criteria:

- high school (lyceum) diploma above 18
- student academic index (counselor's interview assessment) above 80
- minimum score of 97 in the Oxford Online English Language Placement test

Such provisionally admitted students can register for their second semester only if they have a first semester grade point average of at least 3.0. Otherwise, they must take and pass the Oxford Placement test with a score of 99 or above.

Applicants presenting a TOEFL score should arrange to have the test results sent directly to the Office of Admissions by the Educational Testing Service (ETS). The College's Institution Code Number is 0925. TOEFL scores are valid for two years.

Students may also qualify to take WP 1010 by submitting evidence of fluency based on graduation from an English-language secondary school or program.

The above listed grades qualify the student for placement directly into WP 1010. Applicants who do not qualify for WP 1010 but who otherwise show academic promise are required to follow the English for Academic Purposes Program (see section "Academic Writing").

Academic Policies Governing the Deree US Degree

Registering for the Placement Tests (English and Mathematics)

The English Language Placement Test

Upon submission of their application to the Office of Admissions, students who have not demonstrated proficiency in English, will also register for the College's English Placement Test. The test is free of charge.

The College uses an online placement test, designed to measure test takers' ability to communicate at different levels of English language proficiency in accordance with the Common European Framework of Reference (CEFR).

The results of the test, which are placed in the student's folder, determine which English course students will be required to take and they are not communicated externally.

The Mathematics Placement Test and waivers

New students who need to enroll in *MA 1008 College Algebra* must take a placement test. The placement test is offered on specified dates before the beginning of each semester or session. Students may take the test more than once, but only on the test dates available during the same semester/session. Students who do not pass the placement test will have to enroll in *MA 1004 Intermediate Algebra* and complete it successfully before registering in *MA 1008 College Algebra*.

Students who believe they may have the verifiable knowledge to waive MA 1004 Intermediate Algebra and possibly MA 1008 College Algebra will need to provide the necessary evidence (eg grades in mathematics in the Panhellenic Exams, International Baccalaureate, SAT, ACT, AP, GCSE, IGCSE, GCE) to the Validation Office for evaluation.

Panhellenic Math Exam

A student with a score of at least 10/20* waives MA 1022 while a student with a score of at least 13/20* waives both MA 1022 and MA 1008.

** Subject to future revision.*

International Baccalaureate (IB) Math Exam

Math IB has four Levels: (i) Math Studies, (ii) Standard Level, (iii) High Level and (iv) Further Math.

- (i) Math Studies (IB): A student with a score of at least 6/7 waives MA 1022.
- (ii) Standard Level (IB): A student with a score of at least 5/7 waives MA 1022, while a student with a score of at least 6/7 waives both MA 1022 and MA 1008.
- (iii) High Level (IB): A student with a score of at least 4/7 waives MA 1022, while a student with a score of at least 5/7 waives both MA 1022 and MA 1008.
- (iv) Further Math (IB): A student with a score of at least 4/7 waives MA 1022, while a student with a score of at least 5/7 waives both MA 1022 and MA 1008.

American College Testing (ACT) Math Exam

A student with a score of at least 20 waives MA 1022 while a student with a score of at least 23 waives both MA 1022 and MA 1008.

Scholastic Assessment Test (SAT) Math Exam

A student with a score of at least 24 waives MA 1022 while a student with a score of at least 26 waives both MA 1022 and MA 1008.

Student Visas and Residence Permit

In accordance with Greek law, citizens of countries that are not members of the European Union or parties to the Schengen Agreement who wish to study in Greece must obtain a student visa or residence permit before enrolling at the College. Please note that you will not be able to enroll as a student at Deree - ACG until you have a valid student visa or residence permit.

Academic Policies Governing the Deree US Degree

The International Student Services (ISS) Office can provide information and paperwork for the issuance of the student visa upon request. Applicants for admission are advised to verify the specific requirements for nationals of their country through the local Greek consular authorities. In order to remain in Greece, students who have valid student visas must then seek a residence permit. The College will provide assistance in obtaining your residence permit.

All students (no matter when their visa expires) should apply for a residence permit **within 3 months from their arrival date**. Failing to apply within this period would automatically lead to a visa hold for the next semester, thus not being able to register.

Concurrent enrollment is **mandatory**. Students should not skip a semester of classes and should have a good academic standing throughout the duration of their studies.

It is the student's responsibility to attend the information session at Orientation and visit the ISS office at the beginning of their semester at ACG in order to start the process, check their emails and follow each step of the process on time.

Permanent Records

The Office of Admissions creates files for students when they apply for admission to Deree. In the course of the students' studies, their files are updated with documents and official records indicating their status at any given time. As long as a student is enrolled at Deree - ACG, the file remains in the registrar's active records. Following graduation, these files are kept in storage for one year after the student completes their studies. The files are kept in accordance with the provisions of the applicable legislation on personal data, namely, the Regulation (EU) 2016/679 of the European Parliament and of the Council (General Data Protection Regulation) as well as the applicable Greek legislation regarding the current protection of personal data.

Transfer Students Admission Procedure

Applicants who have started their college studies elsewhere and intend to become candidates for a degree at Deree - ACG are required to submit the following.

1. Completed application form
2. Personal statement
3. Letter of recommendation from an academic teacher/professor
4. Official College/University transcript or transcript with a catalog (if applying for transfer credits). Transfer students who have completed fewer than 30 credit hours must also submit an official secondary school transcript or transcripts and diploma (see "Admission with Credit" section).
5. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
6. Evidence of proficiency in English. Non-native speakers of English who have not completed 30 semester credit hours or the quarter system equivalent (three quarters) and who do not have a secondary school diploma from a school where the language of instruction is English must meet the English language admissions requirement (see "Evidence of Proficiency in English" section).

Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the applicant's academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

Transfer students who have completed courses at an accredited non-US based post-secondary institution must have a cumulative index (CI) or overall Grade Point Average (GPA) of 2.5 or above. Transfer students who have completed courses at an accredited US post-secondary institution must have a cumulative index (CI) or overall Grade Point Average (GPA) of 2.75 or above. Transfer students must contact the Academic Advising Office and the Validation Office after they are admitted to the College.

There is no application fee.

Academic Policies Governing the Deree US Degree

Non-Degree Students

A student's status is determined on the basis of eligibility for, or intention to pursue, a degree at Deree - ACG. A degree student is one who is working toward a degree; a non-degree student is one who is not working toward a degree.

The following are required for all non-degree applicants:

1. Completed application form
2. Personal statement
3. Official secondary school transcript(s) and diploma(s) or official College/University transcript(s)
4. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
5. Evidence of proficiency in English (see section "Evidence of Proficiency in English")

Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the candidate's academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

If a non-degree student should subsequently decide to pursue a degree at the College, they must request a change of status at the Academic Advising Office. The student will be eligible to follow the Deree US degree. No more than 32 US academic credits earned while the student's status was non-degree may be applied toward the US degree unless special permission is granted by the respective academic dean and CASP. If the student wishes, and is eligible, to pursue a Deree US degree and an Open University validated award, they must follow all rules in effect at the time they become a degree student. Please note that a student may change status from non-degree to degree or vice versa only once and only with regard to the Deree US degree program.

Non-degree students who become degree students must follow the degree programs in effect at the time they become degree students.

Students pursuing degrees at other accredited institutions who wish to take courses at Deree - ACG and transfer the credits back to their home institutions may enroll as non-degree students. They should submit their application form with the required tuition fee(s) to the Office of Admissions. They should also submit a transcript from an accredited institution as evidence of being in good academic standing.

Non-degree students must observe all College academic requirements, including prerequisites and course levels.

Pre-Collegiate Program

Every summer, students ages 16-19 are offered the unique opportunity of taking a College course at Deree - ACG as non-degree students.

The Pre-Collegiate Summer Program, which takes place during Summer Session II, offers students a variety of college level courses to choose from. Upon successful completion of a course, they can earn academic credit toward a future bachelor's degree. During their participation in the program, they can take advantage of all benefits enjoyed by Deree students, including access to the library and use of the athletic facilities.

Students who decide to earn a bachelor's degree at Deree may be eligible for Merit Scholarships.

The following are required for all pre-collegiate program applicants:

1. Completed pre-collegiate application form
2. Personal statement
3. Official secondary school transcript(s)
4. Certified copy of the state identity card
5. Evidence of proficiency in English (see "Evidence of Proficiency in English" section)

Academic Policies Governing the Deree US Degree

Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the candidate's academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

If a student who has completed the pre-collegiate program wishes to enroll at Deree - The American College of Greece, after receiving the Lyceum Apolyterion, then they need to apply to be readmitted from the pre-collegiate program and follow the admissions process for degree-seeking students (see "Admissions Process" section).

Application Process Timeline

Applicants submit their applications either online or directly in person. The application process timeline is as follows:

1. Application is received - applicant receives a response within two working days with information on the application documents they need to submit
2. All application documents are received - applicant receives an interview notification within two working days. The interview can be face-to-face or via phone/Skype. The interview is a 30-minute question-and-answer session conducted to assess an applicant's profile through a discussion on their academic and non-academic achievements)
3. Interview has been conducted - applicant receives the admissions decision no later than 10 working days after the interview. During peak admissions registration periods (July - September for the Fall Semester), when applicants may submit their application and supporting application documents in person, the interview and the communication of the admissions decision can occur on the same working day.

During peak admissions registration periods (July - September for the Fall Semester), where applicants may submit their application and supporting application documents in person, the interview and the communication of the admissions decision could be done on the same working day.

Special Arrangements

Applicants who are experiencing challenges within the educational setting and require assistance should inform their admissions counselor, who then informs the educational psychologist. The education psychologist meets with the applicant to evaluate any learning difficulties and determine remediation to alleviate problems and enhance learning. The educational psychologist also offers psycho-educational intervention, coordination, and referral to other professionals. All services are provided confidentially and free of charge.

Applicant Grievance Procedure

The purpose of the Applicant Grievance Procedure is to ensure openness and fairness for both applicants and the admissions staff. It is an opportunity for applicants to raise matters of concern and for the College to resolve complaints about the admissions process.

General Principles

- Any individual who has submitted an application for undergraduate or graduate studies can use the Applicant Grievance Procedure, which explains how they can make a complaint about the admission process.
- Deree - ACG ensures that all grievances are handled promptly, fairly and with procedural consistency. Deree - ACG does not discriminate against any applicant who makes a complaint. All grievances are dealt with confidentially.
- Every effort is made to resolve an applicant's grievance amicably and to the satisfaction of all concerned without the necessity of a formal complaint. Applicants whose grievances cannot be resolved informally or who wish to appeal an admissions decision should follow the procedure for a formal complaint or appeal.

Procedure for formal complaint / appeal

- All grievances must be addressed on an individual basis to the dean of admissions (contact details are available at www.acg.edu).

Academic Policies Governing the Deree US Degree

- All grievances must be submitted in writing. Candidates should, clearly state their complaint and provide specific facts to support their claim. They should also include their full name and contact information.
- An applicant can submit a grievance for up to 10 working days of the action they are complaining about.
- The dean acknowledges receipt of the complaint and investigates it with relevant staff and any relevant third party, and issues a final response within 14 working days.
- If the applicant is dissatisfied with the dean's decision and wishes to pursue the matter further, they can submit a formal appeal to the senior vice president, whose decision is final.

Dual Degree Programs

All degree-seeking students entering Deree - The American College of Greece will be required to register for both the US, NECHE-accredited, bachelor's degree, and the European - UK award validated by the Open University.

The following students may be exempted from this rule:

- a) Students pursuing parallel studies at a Greek university or TEI.
- b) Transfer students who have transferred 92 US credits or more applicable to their program.
- c) Readmitted students who have interrupted their studies before 2010.

Students who wish to be considered for an exemption must petition the Committee on Academic Standards and Policies through the Student Success Center no later than one month after their initial registration at Deree.

Admitted students with special needs for whom the educational psychologist recommends significant accommodations can request exemption from completing the OU-validated award or opt out of the OU-validated award and a Deree degree only.

The purpose of the latter an exemption is to provide accommodations not easily available within the framework of OU program requirements. The application process must be initiated by the student, who submits all supporting documentation to the College educational psychologist.

All the following steps must be completed before a decision is reached:

- a. Submission of application by the student on a Standard Petition Form with all supporting documentation attached
- b. Evaluation by the educational psychologist
- c. Approval of eligibility by the Disability and Learning Differences Committee
- d. Submission of a letter by the student's academic advisor recommending the student be exempted and complete a special program
- e. Approval by the department head of the student's academic area (major). Such approval must be accompanied by a detailed report on how the US Deree degree (eg, replacement of courses or other special arrangements) can accommodate the student's needs while ensuring that program learning outcomes are met.
- f. Approval by the Committee on Academic Standards and Policies
- g. Approval by the chief academic officer

After the chief academic officer approves the request, the student will be required to meet the specific program requirements as approved and meet all other graduation requirements to be awarded the US Deree degree in the selected and approved major(s).

Undergraduate study at Deree - ACG requires four years (eight regular terms) of continuous and mandatory attendance.

The Deree US program requires that students complete 121 US credits to earn a bachelor's degree. The Open University validated programs require that students complete 360 UK credits to earn an honors bachelor's award (one US credit = five UK credits.) These 360 credits correspond to a total of 24 courses which are evenly distributed

Academic Policies Governing the Deree US Degree

across three levels: 4, 5 and 6 (8 courses at each level.) Although direct comparisons are difficult to make between UK or US credits and the European Credit Transfer and Accumulation System (ECTS), at any given level, 15 UK credits or 3 US credits are roughly equivalent to 7.5 ECTS credits.

Advanced Placement

Advanced placement may be attained by successfully meeting any of the following standards:

1. For subjects passed at the GCE 'A' level (except in languages) with a minimum grade of C: up to 6 US credits per subject for the equivalent Deree - ACG courses (applicable only toward the Deree US degree).
2. For subjects passed in the International Baccalaureate higher level (except in languages) with a grade of 4 or better: up to 6 US credits per subject for the equivalent Deree - ACG courses (applicable only toward the Deree US degree).
3. For certain standard external examinations taken before entering the College, up to 32 US credit hours:
 - a. For subjects passed in the US Advanced Placement Program of the US College Examination Board (except in languages) with a grade of 4 or better: up to 6 US credits per subject for the equivalent Deree - ACG courses which are not included in the student's Open University validated program.
 - b. For the College-Level Examination Program (CLEP-Subject Examinations): up to 6 credits for the equivalent Deree - ACG courses not included in an Open University validated program, with a minimum score of 50.

Students who wish receive credits for advanced placement must contact the Academic Advising Office and the Validation Office before they first register at Deree - The American College of Greece.

Admission with Credit

Subject to the requirements set out above, students may be admitted with exemption from certain elements of a program and with credit towards a Deree US degree, and/or an Open University UK validated award.

The College's decision on exemption shall be governed in all cases by an evaluation of:

- the student's previous learning to determine the maximum amount of credit that they could be awarded at levels 4 and 5 and/or toward the Deree US degree;
- the extent to which they have already met the learning outcomes for the courses from which exemption is sought.

Credit with exemption may be obtained in three ways:

Credit Transfer

Students who have completed all or part of the requirements of a degree validated by a UK university may be granted credit towards a program leading to the Deree US degree and/or an Open University award. Any student wishing to be considered on this basis for credit with exemption must supply the College with evidence of the qualification(s) that they have obtained. This evidence will normally take the form of an award certificate (if applicable), transcript, and details of the syllabus for the student's previous program.

Courses (including online courses) will be accepted for credit if they appear on an accredited higher education institution's transcript (even if they were taken while the student was in high school).

Lower-level courses can be approved for course credit summarily by the Validation Office, usually on the basis of course descriptions, and do not require evaluation by department faculty or syllabi unless they pertain to OU-validated courses. Courses that require additional clarification may be sent for departmental evaluation, where a syllabus may also be needed.

Recognition of Prior Certificated Learning (RPCL)

Credit may also be granted to students who have completed an assessed program offered by a higher education institution that is not validated by a UK university, such as a regionally accredited US institution. Any student wishing to be considered for RPCL must supply the College with evidence of the qualification(s) that they have obtained. This evidence will normally take the form of an award certificate (if applicable) and transcript, and details of the syllabus that she or he had followed. In addition, the College will need to establish to its own satisfaction the standard of achievement required for the qualification obtained by the student, and the reliability of the quality assurance

Academic Policies Governing the Deree US Degree

procedures used by the student's previous institution. The College reserves the right to undertake its own assessment of the student's prior learning by setting one or more waiver examinations with credit.

Recognition of Prior Experiential Learning (Waiver Examinations) (RPEL)

Exemption (with credit) may be granted for learning that has been achieved outside the formal education and training system, or for learning that cannot be verified by the procedures set out in the "RPCL" section. In these cases, students are required to sit one or more waiver examinations with credit. The mode of assessment to be adopted for a waiver examination is proposed by the faculty with responsibility for the course(s) from which exemption is being sought. In cases of performance courses such as in art, theatre, dance, and music, the waiver examination with credit must include a portfolio of work and/or an audition.

Once the application for RPEL via an examination is approved, a fee of 90 Euros per credit hour to be assessed will be charged to the student. Each student is limited to 12 credit hours of RPEL credit.

Other RPCL/RPEL Policies

Students can only be exempted from (or granted credit for) a maximum of 36 US (180 UK) credits for credit transfer (see "RPCL" section) comprising no more than 24 US (120 UK) credits at Level 4 and 12 US (60 UK) credits at Level 5. Students cannot be exempted from (or granted credit for) courses at level 6.

The relevant department head(s) or area coordinator(s) are responsible for the approval of claims for credit with exemption. Approval should not be given without prior consultation with the Advising Office and the Validation Office. The Validation Office maintains a record of all claims that have been approved, and it is responsible for informing the registrar. The Advising Office and the student can view the outcome of a claim through the College student management software.

Transfer credits are not granted toward College-wide English course requirements for courses taken at a college/university where the language of instruction is not English. Transfer credit is not given for foreign language courses in a student's native language except in literature.

Diagnostic examinations are mandatory for foreign languages and are given to all registered students. Credit is not awarded for RPEL in foreign languages. Students are placed appropriately into foreign language courses according to the results of the examinations.

Grades are not assigned to credits awarded under the procedures described in this section. For transfer courses students must have earned a minimum grade which is equivalent to a "C" in the Deree grading scale (see "Grades" section).

Credit by Assessment for Professional Experience

Credit by assessment may be earned for experiential learning (professional experience) by experienced professionals* who wish to begin or complete their studies. Such credit may fulfill up to 36 US credits required for a degree.

No credit by assessment can be awarded for Level 6 courses.

No credit by assessment can be awarded for more than four Level 5 courses.

The method of assessment, the number of credits to be earned and the course(s) for which experiential credit will be given will be decided by the relevant academic department(s) depending on the disciplines for which credit has been requested. The academic department of the student's declared major will report the results of the assessment to the relevant school dean for approval. The Office of the Dean will send the final approved evaluation to the Registrar's Office.

Once the application is approved, a fee of 90 Euros per credit hour to be assessed will be charged to the student.

*Students must submit an application in order to take advantage of the Credit by Assessment program. The application includes an updated resume and a statement that describes knowledge and skills gained through experience-based learning and how they relate directly to course(s) for which credit requested. Students may also submit certificates of training, work samples, and other documents appropriate as evidence of equivalent to college learning.

Academic Policies Governing the Deree US Degree

Evaluation of Transfer Credits Process

The transfer credit process begins immediately after the student's first registration and only after the student has submitted both the official transcript(s) and the course syllabi or descriptions of substantial length from official publications of the institution. Course syllabi may be required for a better evaluation of the student's completed prior academic work. All submitted documents not in English or Greek must be accompanied by certified English or Greek translations and must be submitted to the Validation Office before the end of the student's first semester. The assessment process of the student's prior academic work will be completed no later than two months (excluding vacation period) after the student has submitted a complete folder of the required documents as stated above.

Students cannot be granted credit (or be exempted from) courses at Level 6 and/or for more than four courses (ie 12 US credits or 60 UK credits) at Level 5. All transfer credit requests are handled by the Validation Office. All final decisions on transfer credit are made by the academic departments.

Parallel Studies (Degree Seeking Students)

Degree-seeking students who are attending another accredited higher education institution during the time they are enrolled at Deree - ACG must abide by the "Admission with Credit" section. Parallel studies degree-seeking students may request from the academic departments and via the Validation Office approval (pre-authorization) of courses they wish to take at another accredited institution of higher education in parallel with their studies at Deree. However, regardless of credits transferred, these students must meet the residency requirement of Deree (see "Residency Requirement" section).

Certificate Minor Program

Students or graduates of accredited institutions who do not want to follow a Deree major, may complete a Certificate Minor program. Those students must complete all the requirements of one of the Minors offered at Deree in order to be awarded a Certificate. (See also section Minor). Students who follow the Certificate Minor program are non-degree students.

Deree students or graduates may follow a minor as part of their degree. The minor will be printed on their transcripts.

Academic Advising

All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Academic Advising gives students the opportunity to become acquainted with rules and regulations concerning Deree - ACG and Open University. Effective academic advising provides specific aid to students in considering and completing academic programs, but it goes beyond mere course scheduling; it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters.

The College assigns all entering freshmen an advisor from the Academic Advising Office; these students along with continuing Deree students who have less than 51 credits are required to consult every semester with their academic advisor in order to be able to register for the upcoming semester/session.

Thereafter (more than 50 credits), the advising program is faculty-based and fosters personal contact between students and faculty. Department heads, assistant department Heads and area coordinators act as educational consultants. Students, however, who have more than 50 credits but are on academic probation (CI less than 2.00) are still required to make an appointment each semester with their advisor from the Academic Advising Office.

Students must consult with their advisor regularly and discuss their schedules each semester and session. The College expects that students will follow their advisor's guidance; otherwise they will potentially risk not having fulfilled their programs' requirements by the desired date of graduation.

Academic Policies Governing the Deree US Degree

One must bear in mind that advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Residency Requirement

All students seeking a Deree US degree, regardless of number of credits accumulated through advanced placement, transfer, parallel studies, (see "Parallel Studies" section), or semester/year abroad, must meet Deree's residency requirement by completing at least 36 US (180 UK) credits (beyond the introductory 1000-level courses) from the area of concentration (at least four Level 5 courses and eight Level 6 courses) of their major(s) at Deree - ACG. Moreover, students must complete the capstone course(s) of their major(s) at Deree - ACG and complete their last 30 US credits at Deree - ACG.

Full-Time and Part-Time Students and Student Course Load

For academic purposes all students are assigned either full-time or part-time status. A full-time student is one who registers for at least 12 US credit hours per semester, a part-time student is one who registers for 11 or fewer US credit hours. Students who want to take more than five courses per semester for credit or non-credit must have completed a minimum of 30 US credit hours with a cumulative index (CI) of 3.00 or above. In any event, students may not register for more than six courses and no more than four of these should be toward their validated award in any given semester. In addition, students should not register for more than two courses in summer sessions, of which no more than one course should be toward their validated program. Students should not register for more than 120 UK credits toward their validated award in any given academic year.

Students are strongly urged to plan their schedules with their advisors appropriately if they wish to fulfill the requirements of their major within an optimum period of time.

Student Classification

In the programs leading to the Deree US degree, students are classified according to the number of US credits accumulated as follows: freshman, 0-29; sophomore, 30-59; junior, 60-89; senior, 90 and above. This classification does not apply toward the Open University validated award where student classification relates to Levels 4, 5 and 6 (see "Credit Structure and Award" section).

Academic Writing

The College has established certain requirements in English language proficiency to ensure that students are adequately equipped linguistically to pursue college-level studies. All students must abide by the College's policy regarding placement in English language and writing. For specific information on English proficiency credentials, see "Evidence of Proficiency in English" section.

All students are required to take WP 1010 Introduction to Academic Writing as soon as they qualify for it and to complete the Writing Program sequence WP 1010, WP 1111, and WP 1212 without interruption. In case of withdrawal from one of those required courses, the course must be taken the following term.

Students who do not qualify for WP 1010 are required to follow the English for Academic Purposes Program (EAPP) by enrolling in EAP 1000, EAP 1001, or EAP 1002 (all bearing non-graduation credit), depending on the student's level of English. Students enrolled in EAP 1001 and EAP 1002 may take up to two other courses concurrently after securing the approval of an advisor from the Academic Advising Office. Students may not take EAP 1000, EAP 1001, or EAP 1002 more than twice.

Students who do not satisfactorily complete an EAPP course after registering for it a second time will be dismissed from the College. They will be readmitted to the College only if their score on any one of the English language test accepted by Deree (see "Evidence of Proficiency in English") qualifies them for direct admission into WP 1010, and

Academic Policies Governing the Deree US Degree

if their readmission is approved by the Committee on Academic Standards and Policies. Those students may also retake the College English Language Placement Test no sooner than one semester after their second EAPP course failure and only once every six months.

Non-graduation credits for preparatory courses (EAP 1000, EAP 1001, EAP 1002) are not transferable to a Deree degree.

Dean’s List (applicable toward the Deree US degree only)

Full-time degree seeking students who attain high academic standing in any semester through a GPA of 3.4 or above are placed on the Dean’s List, which is noted on the students transcript, for that particular semester.

Academic Probation (applicable to the US Deree degree only)

If a student’s CI remains below 2.00 for more than two consecutive semesters and sessions, at the end of this period the student’s record will be examined by the Committee on Academic Standards and Policies (CASP). The student will be dismissed for at least one semester and session unless their performance has been affected by mitigating circumstances. A dismissed student may be readmitted only once in order to raise their CI to at least 2.00. CASP will determine whether the student can be readmitted as well as the conditions for readmission to the US Deree degree.

If a student is required to withdraw from an Open University validated award but their CI is at least 2.00, they may continue toward the Deree US degree provided that they will fulfill all the requirements of that degree. All Deree students need to have attained a CI of at least 2.00 in order to be awarded a US Deree degree.

The probation policy applies fully to those students who have been admitted on a provisional basis.

CASP will examine the academic record of students on probation who return from a period of deferral of studies and set conditions for the continuation of their studies or their dismissal.

Students are in good academic standing when their CI is 2.00 and above.

Credit Structure and Awards

Students receive academic credit for the achievement of the learning outcomes of a course. A credit value, specified in terms of the number of credits, is assigned to each course. In the UK system, the basic unit of credit relates to 10 hours of notional learning time. Notional learning time is defined as the reasonable measure of the time it would take a learner, adequately supported, to achieve the learning outcome of the activity; it includes instructional hours, and the time spent in assessment and independent study.

In the US system, one credit hour is roughly equivalent to one hour of instruction per week for 14 weeks (or about 700 minutes). Most courses carry three credit hours. Some courses, however, may require additional work, such as laboratory sessions, tutorials, internships, recitation sessions, or field trips. In the College’s curriculum, one US credit equals five UK credits.

For the purpose of the Open University validated award, (program) courses are distributed into levels 4, 5 and 6. Although these levels do not apply toward the Deree US degree, these courses simultaneously fulfill Deree US degree requirements. However, all programs leading to the Deree US degrees have additional credit requirements.

The programs validated by the Open University comprise courses generating credit at Levels 4, 5 and 6. Levels are conceived progressively, with increasing demands being placed upon learners as they undertake learning at higher levels. The College has adopted generic credit level descriptors as guidance for the design, delivery and assessment of courses.

Learning accredited at each level will reflect the student’s ability to:

Academic Policies Governing the Deree US Degree

Level 4

Develop a rigorous approach to the acquisition of a broad knowledge base; employ a range of specialised skills; evaluate information using it to plan and develop investigative strategies and to determine solutions to a variety of unpredictable problems; operate in a range of varied and specific contexts taking responsibility for the nature and quality of outputs.

Level 5

Generate ideas through the analysis of concepts at an abstract level with a command of specialised skills and the formulation of responses to well defined and abstract problems; analyse and evaluate information; exercise significant judgement across a broad range of functions; accept responsibility for determining and achieving personal and/or group outcomes.

Level 6

Critically review, consolidate and extend a systematic and coherent body of knowledge utilising specialised skills across an area of study; critically evaluate new concepts and evidence from a range of sources; transfer and apply diagnostic and creative skills and exercise significant judgment in a range of situations; accept accountability for determining and achieving personal and/or group outcomes.

The Open University awards offered by the College are Honours awards. In addition, exit awards are offered: Ordinary degrees leading to the BSc Ordinary and BA Ordinary Awards, the Diploma of Higher Education (DipHE) and the Certificate of Higher Education (Cert HE).

** Exit awards are not progress awards; they are awarded to students who find themselves unable to complete the requirements of an Honours award.*

The credit requirements for each of these awards are as follows:

BA/BSc (Hons)	360 credits comprising 120 at Level 6, 120 at Level 5 and 120 at Level 4.
BA/BSc	300 credits, of which a minimum 60 should be at Level 6 with the remainder comprising 120 credits at Level 4 and 120 at Level 5.
Dip HE	240 credits comprising 120 at Level 5 and 120 at Level 4.
Cert HE	120 credits at Level 4.

Deree - ACG awards US Bachelor of Science (BSc) and Bachelor of Arts (BA) degrees upon successful completion of the particular requirements of a program comprising 121 US credits.

Course Level and Number System

All courses are one-semester courses and are assigned a four-digit number. In non-Open University validated courses the first digit indicates the classification of the course in relation to rigor; the second, the number of prerequisites; and the third and fourth, the registrar’s designation. Open University validated award course levels are designated where appropriate according to the “Credit Structure and Awards” section.

Non-Open University validated courses at the 1000-level are designed primarily for freshmen; 2000-level courses are designed for sophomores but may be taken by qualified freshmen; 3000-level courses are intermediate, normally open to students who have completed 1000- or 2000-level courses in the same area; 4000-level courses are upper level, open chiefly to seniors, but also to qualified juniors. These levels do not correspond to Levels 4, 5 and 6 of the Open University validated courses (see above).

Inbound study abroad students are advised to follow the following course selection advice. Level 4 courses are suitable for sophomores, juniors, and seniors. Level 5 courses are suitable for juniors, and seniors. Level 6 courses

Academic Policies Governing the Deree US Degree

are suitable for advanced juniors, and seniors. Non-level-designated courses are normally open to freshmen, sophomores, juniors, and seniors.

The College may, at times, offer courses that are not included in the catalog. Such special topics courses appear in the schedule of classes with a special topic designation letter "X" added to the course rubric (eg. MGX).

The numbers following the course description indicate class hours per week in a normal semester, laboratory, internship or studio hours, and semester credit hours. Thus, 3/2/4 means three hours of class, two hours of laboratory or studio, and four US credit hours for the course. A schedule of classes is available through the student online registration interface. The specific requirements of the various disciplines are listed in the programs.

Prerequisites

Regardless of the program followed, students are not permitted to register for courses for which they have not met the prerequisites as stated in the latest College catalog, whether in the form of credits earned, credits transferred, RPCEL, RPEL (see "Admission with Credit" section) or waivers. Should a student be enrolled in a course for which they have not fulfilled the prerequisite(s), their registration for that course will be cancelled by the Registrar's Office. The number of prerequisites for a course is indicated by the second digit of the course rubric.

Directed Study

Students must consult with their advisor regularly and discuss their schedules each semester and session. The College expects that students will follow their advisor's guidance; otherwise they will potentially risk not having fulfilled their programs' requirements by the desired date of graduation. In very exceptional cases, students may register for the course they need in order to fulfill requirements in their major under directed study, which is given on an individual basis upon the agreement of a supervising instructor. The student must submit to the Registrar's Office a petition bearing the signatures of the instructor who will supervise the directed study, the advisor, and the academic dean who will closely scrutinize the justification for directed study. The credits carried must be equal to those of the course and the course material covered must be as specified in the syllabus.

At the outset of the semester or term, the instructor and student agree on a course outline which specifies scheduled meeting times, course content and deadlines for the submission of assessments. Meeting times may follow the regular semester (3hrs per week of class time), term, or session instruction schedule (10hrs per week of class time), or a combination of modes involving face-to-face meetings, online instruction or other equivalent means of instruction and learning.

The directed study is subject to the same attendance requirements as a regular course and should observe College regulations concerning submission of assessments (including the use of Turnitin). Specifically, the attendance requirements are that at least 80% of the scheduled times for face-to-face instruction, meetings, online engagement and assessments must be met.

To be eligible for directed study, students must be in good academic standing (CI > 2.0) and must have met the prerequisites for the required course.

Supervised Work Experience (Internships)

Specific programs may require supervised work experience that awards academic credit in the context of a specific course in the curriculum. The number of credits to be earned is specified by the particular program. Students must consult with their advisors in order to make internship arrangements.

Auditing

To audit a course is to attend classes without taking the course for credit. Upon the recommendation of the student's advisor, and the approval of the instructor concerned and CASP, students may register to audit courses. Auditing is

Academic Policies Governing the Deree US Degree

permitted only for courses that are not part of the student's degree program. Audited courses are subject to regular tuition fees and follow the College's calendar. The designation NC (Non Credit) is entered on students records for audited courses provided the attendance requirements have been met; otherwise, a W (Withdrawal) is recorded. The same course cannot be retaken for credit.

Registration Policies

Students will register for a non-conferrable Open University award once they have achieved the prerequisites that will enable them to commence their studies at Level 4. For the purpose of initial registration this award will be BA Combined Studies. On completion of their studies at Level 4, students will transfer their registration to one of the conferrable Open University validated awards.

For an Open University award, students may remain registered with the University for a period of three years beyond the expected date of graduation. If a student wishes to complete a program of study after this date they must re-register and pay the appropriate fee. The maximum period of registration for an Open University validated award is ten years.

Students should consult with their advisers if they wish to defer their studies, withdraw from a course, or to transfer registration from one course or award (major) to another. Applications for deferral, withdrawal or transfer should then be lodged either with the Registrar's Office or the Student Success Centre. Applications are then considered by the Committee of Academic Standards and Policies (CASP). Its decisions will be governed by the following regulations:

Students are permitted to change a course within the first two days of teaching. Beyond this period, students may withdraw from a course within the first two weeks of teaching whilst retaining the right to re-enroll in the said course in the future. Changes after this deadline will only be considered in exceptional circumstances. Students shall not be permitted to withdraw from a course and then subsequently re-enroll in a course after the submission or completion of the first summative assessment for the course or courses concerned. Students are not permitted to withdraw from a course for any reason following the end of semester/term/session.

The maximum number of retakes allowed in a program leading to an Open University award is 10. If a student fails a validated course more than two times they may be required to withdraw from the OU validated award unless CASP has accepted the student's petition for mitigating circumstances. The final decision is made by the Board of Examiners. Students have the option of using some of the 10 retakes for nonvalidated courses. However, the total number of retakes allowed toward both the Deree US degree and the OU validated award is 10. When students retake a course, they are required to submit and be assessed on new assessments not used during the previous time(s) they took the course.

The decision to permit a student to transfer from one course or award to another will be governed by the enrolment limits on the course(s) to which the student wishes to transfer, the possession by the student of the necessary prerequisites (see "Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards"), and an assessment of the student's ability to meet the requirements for the award for which they are registered.

If an undergraduate student is inactive for more than two consecutive semesters and wishes to return to Deree - ACG College, they will be required to apply to the Admissions Office for readmission. No deferral of studies petition is necessary if a student does not plan to register for only one semester and/or a summer session(s).

Applications for deferral of studies should be supported by evidence of relevant mitigating or extenuating circumstances (see "Academic Probation" section).

For the Open University award, the Validation Office will be responsible for notifying the University of the number and registration details of all students entering the programs that it has validated. The Validation Office will ensure that the University is also notified of any changes to a student's initial registration.

Academic Policies Governing the Deree US Degree

Students may register for a maximum of 120 UK credits in each academic year. Students may not register for more than four courses validated in their program per semester. Students may not register for more than one course validated in their program per session.

A student’s maximum course load for the combined Deree US degree and Open University award (or toward the Deree US degree only) may not consist of more than five courses (up to 17 US credits) per semester and up to two courses (up to 7 US credits) per session.

Students who fall under the exception of not pursuing an Open University Award must declare their major by the time they have accumulated 50 US credits.

Students admitted on a provisional basis will be required to register according to their English Language Placement test (see “The Admissions Process” section). However, in no case can those students register in more than four courses during a semester or in no more than one during any session.

Students who decide to change their US degree major should consult with their advisor. All credits earned will be computed in the student’s grade average whether they count toward the new major or program or not; the omission of any courses or grades from their transcript is not permitted.

Semester, Session, or Year Abroad for Deree Students

Students who plan to study abroad for one or two semesters and who want to transfer credits earned abroad to Deree - ACG must secure the approval of both the department head(s) and an academic advisor of the Academic Advising Office for the course(s) they intend to take abroad one semester in advance. All students who wish to take courses abroad must submit, along with the petition, a catalog of the accredited college or university they plan to attend or details of the programs they plan to follow and, if possible, syllabi of the courses they intend to take, accompanied by certified English or Greek translations if original transcripts are in a third language.

Students who want to study abroad at an affiliated institution must have attended Deree - ACG for at least one semester, have passed WP1010 with a grade of B or equivalent (see next paragraph), have completed a minimum of 30 US credits with an overall CI of 3.0 or above, and have an exemplary discipline record. Such students are considered to be exchange students and continue to be matriculating at Deree - ACG while studying abroad.

Those interested must contact the Study Abroad Office at least a semester before they intend to begin their study abroad.

Certificate Minor students must submit to the College evidence of English proficiency that places them in WP 1010 or above (see “Evidence of Proficiency in English” section) either before they enter their second semester at Deree or before they start their study abroad program. Those students are advised to have satisfied the English language proficiency requirement before they make any arrangements for studying abroad.

Students cannot be granted credit for, or exempted from, courses at Level 6 unless a course is required in their minor. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see “Grades” section). All transfer credit requests are handled by the Validation Office.

Requirements for the US Deree Bachelor’s Degree (available to students eligible for distance learning classes)

All programs for the US Bachelor of Arts and Bachelor of Science degrees have a Liberal Education (LE) curriculum in common. The LE curriculum comprises of specially designated core and elective courses in a variety of fields. They fulfill competencies that are considered important in providing a broad educational experience to all students across all Schools. The general requirements for concentration in a program leading to a Deree US Bachelor’s degree:

Student Matriculation and Original Program

For the US NECHE-accredited degree students have the right to complete their studies in accordance with the educational programs and requirements in effect at the time they were first admitted to the College. The maximum period of matriculation for a US NECHE-accredited degree is 10 years.

If the degree requirements should change during the student’s period of studies at the College, the student may choose to complete those degree requirements in effect upon entry or any other set of requirements introduced

Academic Policies Governing the Deree US Degree

subsequently and prior to graduation; all the specified requirements for the particular degree chosen must be met.

Students must observe all current prerequisites for courses. Students may stay informed about current prerequisites/co-requisites of courses by consulting annually the latest on line College catalog.

Re-admitted students are required to meet the program requirements in effect of their re-admission.

Two Deree US Bachelor’s Degrees

Students may be awarded a Bachelor of Science and a Bachelor of Arts by completing all requirements for both degrees. Students who pursue a Bachelor of Arts degree and a Bachelor of Science degree for disciplines that are in the same School will receive two US degrees.

Major Requirements

Students at Deree - ACG must select one of the following types of majors:

- a. single major
- b. double major

a. Major

The minimum requirement for a major concentration is 12 courses (36 US semester hours) in a single discipline. All students required to also pursue the validated award must successfully pass the 24 courses (360 UK credits)that correspond to the UK Levels 4, 5 and 6 (see “Residency Requirement” section).

b. Double Major

Students may do a double major by completing all requirements of two majors, but must first secure the approval of the respective academic deans. The minimum requirement for a double major is 12 courses (36 US semester hours) in each of the two disciplines of the double major. Students must satisfy all requirements of both majors. (see the “Residency Requirement” section).

Minor

The College also offers the opportunity for students to select a minor. The minor requirements are specified in the discipline programs.

A minor represents basic yet significant knowledge in an area and consists of a clearly defined set of courses related to a field of study different from that of the student’s major. The requirement for the completion of a minor is a minimum of 15 US credits and a maximum of 19 US credits. To earn a minor, students must maintain a cumulative index (CI) of at least 2.00 in the courses of the minor.

Degree-seeking students, and non-degree-seeking students who enroll in courses outside of Greece as Deree study abroad students, may transfer a maximum of fifty percent of the credits required towards the completion of a minor. Other non-degree-seeking students must complete at least 15 US credits at Deree.

Transfer courses toward a minor are accepted only from accredited institutions. No grades are assigned to credits accepted for transfer. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see “Grades” and “Semester, Session or Year Abroad for Deree Students” sections).

For a minor to be recorded on a student’s transcript, at least fifty percent of the credits required for the minor must be earned from courses not required in the student’s major.

Academic Policies Governing the Deree US Degree

For a minor to be recorded on a student's transcript, at least fifty percent of the credits required for the minor must be earned from courses not required in the student's major.

In addition to existing minors listed in the catalog, students may choose an interdisciplinary minor program. Such a program must comply with the general rules of the College regarding minors. Proposals for minors must be carefully designed by students in cooperation with the relevant departments, before submission to the Curriculum Committee for approval. The same procedure must be followed for a self designed major for the US degree.

Assessment Procedure

Although courses may employ assessment instruments which perform a diagnostic or formative function, credit for the completion of a course can only be obtained on the basis of one or more summative assessments. A summative assessment provides a measure of the extent to which a student has achieved the intended learning outcomes of a course.

The assessment of a student's academic performance requires a judgment of the quality of their work. In all cases, this assessment must be governed by criteria that are explicit and communicated to students.

The general grading criteria employed by the College are set out in the "Grading" section. Faculty have developed rubrics for the assessment of students, and it is the responsibility of department heads or area coordinators to ensure that these rubrics are consistent with the program specification and other documentation approved at validation.

Examination Regulations and Procedures

Student Identity

Students must bring their Deree ID card with them in the examination room. The "Checking of Student Presence Procedure" is available at myACG.

Entering and Leaving the Exam

Students who arrive late may be admitted to the exam but they will receive no additional time. Students should be allowed to enter and take the exam up until a quarter of the allotted time has passed. Students should not be allowed to leave before a quarter of the allotted time has passed.

Materials that can be taken into the exam:

Students should bring as little as possible to the examination room. Any bags, books, or notes should be placed underneath the chair. Food and drink (including coffee) are not permitted in the exam room, with the exception of clear bottles of water.

Students should bring their own pens, pencils, approved calculators, and other materials they need for the exam. Students should not expect exam proctors to supply such materials.

All exams should be written legibly in black or blue ink. Pencil may only be used for diagrams, graphs, etc. Exam answers written in pencil are not acceptable.

Exam Conduct

Students should aim to minimize any disturbance caused to other students in the exam which may affect their performance. Students who arrive late or leave early must bear in mind that their conduct may disturb others. Students should enter and leave an exam quietly.

Mobile Phones & Electronic Devices

Mobile phones and electronic devices must be switched off - not on "silent" - in clear view and placed underneath the

Academic Policies Governing the Deree US Degree

chair. If students use or attempt to use their phone/electronic device during the exam it will be regarded as a disciplinary offence. Students will be held responsible if their mobile phone/electronic device rings/vibrates during the exam. Any student caught using Bluetooth or any electronic device in the exam will be asked to leave immediately and will face disciplinary action.

Student Answers/Examination Paper

All answers must be legibly written on exam paper provided by the exam proctor. Students are not permitted to write answers on the question paper. Students must clearly cross out any (rough) work that is not to be graded. If extra exam paper is needed, it will be provided by the exam proctor.

The only paper that can be used is the paper provided by the College and students should return all paper and exam materials they receive to the proctor at the end of the exam.

Return of Exam Papers

Students must put the exam question paper and all answer papers together and submit both to the exam proctor. It is not the proctor's responsibility to do this. Failing to do so will result in failure in the exam. The "Checking of Student Presence Procedure" is available at myACG.

Asking Proctors for Advice

Students who have attended the course should already be familiar with the structure and expectations of the exam. Students must read the instructions on the question paper and follow them carefully. Asking proctors for advice about how to answer exam questions is not permitted because it gives the student who asks an unfair advantage over their peers.

Student Conduct and Exam Proctor

Student conduct in the exam is at the discretion of the exam proctor and is not negotiable.

Academic Integrity

Once the exam has begun, examination conditions apply - talking or communicating with another student during the exam is not permitted. Failure to observe this requirement will be treated as a disciplinary offence. Cheating or attempting to cheat in the exam by using notes, cards, or any other form of inappropriate content will result in disciplinary action.

Use of Electronic Devices in the Classroom

Instructors have the right to ask students not to use certain electronic devices during class time. Students should always seek permission if they wish to take any photos or video in class. Generally, any recording of the lectures is not allowed unless written permission is granted by the instructor. Violation of any of these rules may lead to disciplinary action.

The Use of Cell Phones in Classes

The use of cell phones and/or similar communication devices in class is disruptive and does not facilitate the teaching and learning process. Therefore, students are not permitted to use such devices in lectures, recitation, or laboratory sessions. Students are required to turn such devices off, or put them on silent mode, while in class. Similarly, to enhance fairness in examinations, students are required to turn off and put away (out of sight) cell phones and/or other communication devices during quizzes, or during midterm and final examinations.

Academic Policies Governing the Deree US Degree

The Use of Calculators During Examinations

Instructors must clearly define, in the course outline, what types of calculators are permitted during quizzes, or during midterm and final examinations.

In general, the definition of a calculator for examination purposes excludes any device that can:

- communicate with other devices
- accept external/removable memory
- store text
- produce graphics
- solve matrix equations
- be programmable

Students must not use such devices during quizzes, or during midterm or final examinations, unless clearly stated otherwise in the course outline.

Assessment, Progression and Awards

Attendance Policy

Class attendance is mandatory. Attendance and performance in class are closely correlated. Lack of attendance necessarily means that a student has not achieved the desired learning experience that course requires.

For purposes of mitigating circumstances, such as illness or other serious matters, the College allows students to miss up to 20% of class time. This applies to all courses. For certain courses instructors could take absences into account and lower a student's grade based on the marking criteria and learning outcomes of the course.

Absence from a class does not exempt a student from completing the work for that class. Students who have exceeded the 20% threshold of absences for serious mitigating circumstances will be referred by the instructor to the Registrar's Office. The registrar will in turn inform the Committee on Academic Standards and Policies (CASP) which, in the light of any evidence of extenuating circumstances supplied by the student, will decide whether the student must withdraw from the course and/or receive an F grade.

The only health-related mitigating circumstance acceptable for excusing absences beyond the maximum is hospitalization. It is the student's responsibility to be aware of the number of absences they have in each of their courses or modules.

Assessment Deadlines

Students must submit work by the deadlines set in the course outline. Where coursework is submitted late and there are no accepted extenuating circumstances it will be penalized in line with the following tariff:

Fall and Spring Semesters: Submission within 6 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 6 calendar days late: submission refused, grade F.

Summer Term: Submission within 4 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 4 calendar days late: submission refused, grade F.

Academic Policies Governing the Deree US Degree

Summer Sessions: Submission within 2 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 2 calendar days late: submission refused, grade F.

Assessment of Students with Special Needs

For students registered for the Open University (OU) Award, the Board of Examiners may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved in advance of the first assessment to which they will apply.

All students, whether they are registered for both the US-accredited NECHE degree and the OU award or not, are responsible for alerting the registrar to a special need and for providing relevant evidence to document it. The registrar will pass the information on to the Committee on Disability and Learning Differences. The committee will decide on the action to be taken to accommodate a student with special needs, having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student. This action must be endorsed by the chair of the relevant Board of Examiners in the case of the OU validated award. Alternative methods of assessment for non-OU validated courses or programs are suggested by the Committee on Disability and Learning Differences in consultation with the instructor.

Assessment of Students with Special Needs and in Exceptional Circumstances

The Committee on Disability and Learning Differences may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved by both the committee and the faculty in advance of the first assessment to which they will apply.

The student is responsible for alerting the registrar to a special need and for providing relevant documentary evidence of it. The registrar will pass the information on to the Committee on Disability and Learning Differences.

The committee will decide on the action to be taken to accommodate a student with special needs, having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student.

If the committee and faculty teaching the course decide that the student should take an oral exam, the procedure described hereafter must be followed. The course professor will inform the student on the venue and the exact time for the oral exam at least two days before the exam. The oral exam should be on the same course material and should have at least the same duration as the scheduled test for the other students of the same course.

A second faculty member from the same academic department must be present during the oral examination, but as an observer only, not as an examiner. The student's answers on the oral exam questions will be assessed by the course professor. The oral exam must be recorded.

After completion of the oral exam, the course professor should inform the Registrar's Office the student's grade, and of the venue, date, exact time, and duration of the exam, and of the name of the second faculty member that who present during the oral examination.

Grading

Grades are reported at the end of each semester and session. The following scale of letter grades and quality point (numerical) equivalents is used toward the US bachelor's degree:

<u>Grade Descriptors</u> These descriptors outline the typical characteristics of the standard of work associated with each grade. They should be used for guidance only.	COURSE	
	LETTER GRADE	POINT GRADE
Excellent: Superior performance; a high level of critical analysis and evaluation; incisive and original; exceptionally well researched; high quality presentation; exceptional clarity of ideas; excellent coherence and logic. Trivial or very minor errors.	A	4
Very Good: Very good performance; a very good level of critical analysis and evaluation; significant originality; well researched; clarity of ideas, thoughtful and effective presentation; very coherent and logical; minor errors only.	A-	3.7
	B +	3.5
Good: A good performance; a good level of critical analysis and evaluation; some evidence of originality; reasonably well researched; ideas generally clear and coherent; some but not significant weaknesses.	B	3.0
Satisfactory: Satisfactory performance -- at least passable; acceptable level of critical analysis and evaluation; little evidence of originality; adequately researched; ideas fairly clear and coherent though some significant weaknesses.	C+	2.5
	C	2.0
Fail: Clearly below the pass standard; lacking substance, knowledge and understanding; ideas confused and incoherent; fundamental weaknesses in most areas. Fails to meet the Learning Outcomes.	F	0

Grade Recalculation for Inbound Study Abroad Non-Degree Students and Resit Opportunity

Inbound study abroad non-degree students in validated courses will have to pass all course assessments in order to pass a course. When an inbound study abroad non-degree student fails an assessment but the overall calculated grade is a passing one, the Registrar's Office will contact the student and verify whether they are able to take the resit for the failed assessment. If the student confirms in writing that they cannot take the resit but have a passing final calculated grade, the student's final grade in the course will be the minimum passing mark (40 UK points, grade C). This policy will apply only to students who have not missed any of the required course assessments.

Under certain extraordinary circumstances, inbound study abroad, non-degree seeking students may request to take a resit at their home institution. This is only available to such students if they have passed at least one of the main course assessments in the designated course, but not if the course has only one assessment, which the student has failed. The request must be received in writing by the Registrar's Office no later than 10 working days after the official publication of term/semester grades in myACG portal.

F (Failure)

The grade of F is computed in the grade-point average (GPA) and in the cumulative index (CI). A student may receive credit for a failed course only by retaking and successfully passing that course at Deree. Retakes are capped at grade C.

E (Credits earned by examination)

Please refer to "Waiver Examinations" in the "Recognition of Prior Experiential Learning" section.

P (Pass)

The grade of P has no quality-point equivalent and is not computed in the student's grade-point average or cumulative index. However, credits earned with the grade of P are included in the total number of credits earned and count toward the completion of the Deree US degree requirements. Students may petition for a Pass/Fail option for elective courses taken outside their major, but, once the option is granted, they may not revert to a letter grade. Petitions for a Pass/Fail option should be addressed to CASP no later than the first week of the semester. No Pass/

Academic Policies Governing the Deree US Degree

Fail option is available in accelerated sessions or toward the Open University award. Certain courses, such as most of Physical Education courses, are graded on a Pass/Fail basis only.

R (Course Retake for Failing Grade Replacement)

The grade replacement policy allows students to retake courses at Deree for change of failing grade. Students may replace an F grade in a course by repeating and passing the same course at Deree. If a student fails a validated course more than two times they may be required to withdraw from the OU validated award, unless CASP has accepted the student's petition for mitigating circumstances. The final decision is made by the Board of Examiners. The maximum number of retakes for both degrees is 10 courses. Retakes are capped at grade C. When students retake a course, they are required to submit and be assessed on new assessments not used the previous time(s) they took the course.

S (Satisfactory)/U (Unsatisfactory)

The grades of S and U may be given for certain developmental courses that do not constitute part of degree programs.

MC (Mitigating Circumstances):

For the designation MC, please see the "Mitigating Circumstances" section.

NC (Non-Credit)

The designation NC indicates that the course was not taken for credit. The same course cannot be retaken for credit.

NR (Non-Report)

The designation NR is automatically recorded in the event final grades are not submitted by the specified deadline. The NR is automatically removed as soon as the grade is submitted by the faculty.

W (Withdrawal)

A W grade indicates that a student withdrew from a course by the date specified in the College calendar. No credit is granted.

Grade Point Average (GPA) and Cumulative Index (CI)

In the US system of education, a grade point average (GPA) is determined for each student at the end of each semester. The cumulative index (CI) is the average of all the grades of all semesters of study. Both averages are computed by multiplying the number of credit hours for each course by the quality point equivalent of the letter grade. The quality points earned for each course are then added and the sum is divided by the total number of credit hours. The credits for a course in which an F is received are included in the divisor, but no quality points are earned. Course credits by transfer are excluded from compilation of the CI at Deree - ACG. Grades reported as MC, NR, S, U, R, and NC are not computed in the average. When the MC or NR is removed, the new grade is then included in the average the semester in which the course was taken. Summer I and II grades are averaged with the grades of the Spring Semester.

Second Marking

All assessed work submitted for credit in validated courses and programs leading to Open University awards shall be subject to the process of second marking and review by External Examiners. This policy extends to all modes of assessment and, where assessed work is not in written form, every effort should be made to apply some appropriate form of moderation. For the implementation of the College's policy on second marking and External Examiners see Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards. Students registered for the Open University award are assessed by the Board of Examiners (see Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards). Student progress toward the US Deree degree is not assessed by a Board of Examiners.

Academic Policies Governing the Deree US Degree

All decisions on grades of validated courses remain provisional until they have been ratified at a meeting of the Board of Examiners attended by the relevant external examiner(s).

Action in the Event of Failure

For each course, students must obtain a minimum of Grade C (40%) in each summative assessment to achieve a pass and obtain the credit for that course (Appendix I - *Regulations for validated awards of The Open University for institutions offering dual awards*).

For the validated award only, three courses of action are available to Boards of Examiners in the event of a student failing one or more assessed components of a course:

Students who fail one or more assessments in a course will be offered the opportunity to be reassessed in, or resit, those components. Only one resit per each assessment component is allowed in each validated course. The maximum grade a student can obtain for the reassessed component of a course is a Grade C (40% UK). If a student fails a resit, they will not receive the credit for that course. The resit policy does not apply to non-validated courses and programs.

Exceptionally, and subject to a recommendation from the Committee on Academic Standards and Policies based on evidence it has received of a student's mitigating circumstances, the Board of Examiners may grant a student a further opportunity for reassessment in a validated course. Students with mitigating/extenuating circumstances will not be subject to a capped grade of C (40% UK). The Committee on Academic Standards and Policies may grant a student further opportunity for reassessment in consultation with the instructor.

A student who has obtained a final fail grade following reassessment(s) in a course validated in their program or an F in a course that is not validated in their program (where the reassessment policy does not apply) may retake the course. The grade of such retake will be subject to a cap of a C (40% UK) grade. A student's program may not comprise more than 10 retakes (see the "Course Retake Policy" section) in total for both the validated and Deree US awards. Students retaking a course will be required to observe the College's attendance requirement (Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards) and complete all the assessments for that course. Following the successful completion of a retake, the grade obtained by the student will replace the original fail grade. This option is not available to students who have already obtained credit and are seeking to improve their grade for a course. If a student withdraws from a course prior to any assessment taking place and then enrolls in that course later, the grade will not be subject to a cap. After repeating the course, the repeat grade will replace the original one. The original F, accompanied by the letter R and the replacement grade will both appear on the student's transcript, but only the replacement grade will be counted in computing the cumulative index (CI). If students withdraw from a course they are repeating for grade replacement, the original grade F assigned for the course remains. Courses transferred from other institutions and courses waived may not be repeated. Students also may not use the policy retroactively after their graduation from the former Junior College (see previous catalogs) or Deree - ACG. Successfully completed courses that are repeated over and above the 10 retakes will appear as NC automatically. Graduates who are re-admitted as non-degree students may only repeat courses as NC (ie, they may only audit courses they have passed.)

Mitigating Circumstances

The following regulations distinguish between factors or circumstances which were known to the student in advance of taking an assessment and which affect their ability to attend an examination or submit work by the published deadline (Appendix I - *Regulations for validated awards of The Open University for institutions offering dual awards*), and those which have not impaired the student's ability to attend for examination or meet a deadline for the submission of work but which may have affected his or her performance (Appendix I - *Regulations for validated awards of The Open University for institutions offering dual awards*). In all cases, it is the responsibility of the student to ensure the timely disclosure of any factors or circumstances which may affect the assessment of their learning

Academic Policies Governing the Deree US Degree

and responsibility for the consideration of these factors and circumstances will lie with the Committee on Academic Standards and Policies.

Students whose circumstances may affect (or may have affected) their ability to meet a program’s assessment requirements must submit a completed Mitigating Circumstances Extension Form together with verifiable documentation to the Registrar’s Office. This form can be completed electronically or in person and may, if necessary, be signed retroactively.

When there are factors or circumstances known to the student in advance of taking an assessment that affect their ability to attend an examination or submit work by the published deadline:

- a. the Committee on Academic Standards and Policies will consider the evidence submitted by the student;
- b. if the mitigating circumstances are accepted by the committee it will determine the extension to be granted to the student or, in the case of examinations, the date on which the student shall be assessed; in such cases the grades will not be capped at C (40% UK).
- c. for the validated award only, the chair of the Board of Examiners, the registrar and the appropriate department head/area coordinator will be informed of the committee’s decision. For students registered only for a Deree US degree, the registrar, the instructors and the relevant department head/area coordinator will be informed of the committee’s decision.

The student will have the right to apply for a further extension, or for a rescheduling of an examination, if the mitigating circumstances persist.

When factors or circumstances have not prevented a student from attending an examination or meeting a deadline for the submission of work, but may have affected their performance:

- a. the Committee on Academic Standards and Policies will review the evidence submitted by the student. For students registered for a validated award the committee will make a recommendation for consideration by the appropriate Board of Examiners; for those students who are registered only for a Deree US degree, the committee will communicate directly with the instructor and the Registrar’s Office.
- b. For students registered for a validated award, the Board of Examiners is responsible for considering what action it should take (see 6.6.1[e], Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards) in the light of the recommendations of the Committee on Academic Standards and Policies.
- c. For students registered for an Open University validated award, the actions available to the Board of Examiners include: the deferral of an assessment to a later date; compensation for the failure in a course (see Appendix I – Regulations for validated awards of The Open University for institutions offering dual awards); agreement that the student should either retake the course or be reassessed with the grade achieved being recorded on the student’s transcript and therefore contributing to the classification of the award; and, exceptionally, a decision that the student be assigned a higher grade for the course or courses on which their performance has been affected. For those students who are registered for the Deree US degree only, appropriate action will be taken by the instructor upon CASP’s recommendations.

Progression Toward the Open University Validated Award

Students must complete at least 60 credits at Level 4 within the Open University validated program as well as all required prerequisites before they progress to Level 5.

Providing that a student has met the necessary prerequisites, they may progress to Level 6 courses when they have completed at least 60 UK credits at Level 5.

Academic Policies Governing the Deree US Degree

Students will not be allowed to study at Level 6 before having completed and passed all their Level 4 courses.

Conferment of Open University Validated Awards

Classification of bachelor degrees will be based on the average mark across all modules within Level 6 and half of the modules in Level 5 at a ratio of 2:1 respectively.

Honours degrees are classified as:

First class	Aggregate mark of 70% or above
Upper Second class	Aggregate mark between 60% and 69%
Lower Second class	Aggregate mark between 50% and 59%
Third class	Aggregate mark between 40% and 49%

If the average achieved by a candidate is not more than one percentage point below a classification band, the board should consider the following.

Performance in work for which an award of credit for prior learning has been made is not taken into account in the calculation of the final award.

Where the final result of the classification calculation creates a mark of 0.5% or greater this will be rounded up to the next full percentage point (eg 69.5% is rounded to 70%; 59.5% to 60%; and so on). Where the calculation creates a mark below 0.5% this will be rounded down to the next full percentage point (eg 69.4% is rounded to 69%; 59.4% to 59%; and so on). For the purposes of rounding up or down, only the first decimal place is used.

The Board of Examiners will take a consensus view on the final classification to be awarded to the student. The chair of the Board of External Examiners and the external examiner(s) must in each case endorse the proposed class of award.

Credit obtained through the credit transfer, RPCL, or RPEL procedures (see Section 4, above) is excluded from the calculation to determine the classification of the degree. In such cases, the grades obtained for the remaining courses taken within the OU framework will be used for the final classification.

Applying for Graduation

When students reach their last semester/session of studies at the College, they must apply for graduation to the Student Success Center. Deadlines for the submission of applications for graduation are announced in advance.

An application for graduation not submitted by the announced deadline will be considered for the next graduation date.

Graduation Requirements

In order to graduate, students must:

- a. Complete satisfactorily the total number of credits and all other requirements set for the degree.
- b. Fulfill the residency requirement.
- c. Attain a minimum cumulative index of 2.0.

A student’s graduation with a Deree US degree will be delayed if they must resit one or more assessments in their last semester of studies.

Graduation with Distinction

The Bachelor’s degree is awarded at three levels of distinction to students who have completed at Deree – ACG at least 72 US credits out of the total number of credits required for graduation and who have obtained exceptionally high grades.

The CI is computed to include all courses completed at Deree – ACG.

Cum Laude	3.30-3.49
Magna Cum Laude	3.50-3.69
Summa Cum Laude	3.70-4.00

Faculty Recommendation for Graduation

Department heads/program coordinators and academic deans evaluate prospective graduates’ records and the registrar confirms the completion of graduation requirements. An official list of prospective graduates, as certified by the registrar, is then presented to the faculty for approval.

The faculty recommendation to graduate students certified by the registrar is obtained by a simple majority vote.

Although degrees are granted only once a year, a student who has been recommended by the faculty for graduation may obtain a certificate signed by the Registrar confirming completion of graduation requirements.

Trustees’ Approval and President’s Conferral

The president of the College presents the faculty recommendation for graduation to the College’s Board of Trustees for approval. The trustees’ approval of the faculty recommendation for graduation gives the president the authority to confer the degrees.

Grade Reports and Official Documents

At any time during the course of their studies students, active or not, may request a transcript of their progress. Each transcript is a copy of the student’s complete record, and any requests for issuing partial transcripts will be denied. When the transcript is given directly to the student or, at the student’s request, to another person, it is labeled “Unofficial”. An “Official Transcript of Record” is sent directly to schools or other authorities only at the student’s request and is not issued to the student. Upon graduation students will be able to obtain a transcript for the Deree US degree and a diploma supplement for the Open University validated award. Official transcripts, certificates and any other official document signed by the relevant Deree official is given to students in printed form only. No transmission by fax or any electronic method of official Deree documents is permitted.

Academic Offences

An academic offence (or breach of academic integrity) includes any action or behavior likely to confer an unfair advantage, whether by advantaging the alleged offender or by disadvantaging another or others. Examples of such misconduct are unauthorized use of Generative Artificial Intelligence tools, including chatbots, such as Chat GPT, and other tools, such as paraphrasers, to generate and / or rewrite material, plagiarism, collusion, cheating, impersonation, supplying false documentation, use of inadmissible material and disruptive behavior during examinations. Responsibility for reviewing breaches of academic integrity is held by the Committee on Standing and Conduct (COSC).

According to College policy all student tests and assignments are submitted through a plagiarism detection software called Turnitin.

Charges against a student for violating academic integrity may originate from any source: a faculty member, an

administrator, a fellow student, as well as External Examiners reviewing assessments for the Subject Boards. Charges are submitted in writing to the COSC chair and accompanied by any further substantiating evidence. If a member of the Committee originates the charge, the member will be recused from the decision-making process, and any other process related to the case, other than those related to the role of plaintiff/witness.

The alleged offender is informed in writing that a report has been submitted against him/her. He/She has the right within five working days of receipt of the notification to submit a written statement of facts he/she believes COSC should know and/or to request a meeting with the Chair and one committee member.

The Committee on Standing and Conduct will either itself investigate the charge or establish from its own membership a panel to conduct the investigation. In establishing whether a breach of academic integrity has occurred, the Committee (or panel) considers oral and/or written evidence supplied by the individual(s) making the charge and any other evidence deemed relevant.

For OU students in validated courses/programs only, once the Committee on Standing and Conduct has considered the allegation and reached a conclusion on whether an offence has occurred, it issues a report with a recommendation regarding the outcome for the student to the Chair of the relevant Board of Examiners. If it has been established that an offence has occurred, the Board will judge the significance of the misdemeanor and exercise its discretion as appropriate to the case. If it is established that a student has attempted to gain an unfair advantage, the examiners shall be given the authority to rule that the student has failed part or all of the assessments, and the authority to determine whether or not the student should be permitted to be reassessed.

Independently of the assessment decisions made by the Board of Examiners on offences pertaining to validated courses/programs, the Committee on Standing and Conduct is empowered to consider a wider range of sanctions that might be applied when a student is found guilty of a breach of academic integrity. The following list of sanctions is indicative and can be imposed by majority vote of the Committee:

Admonishment Letter (or Letter of Warning): The student is advised in writing that their behavior violates rules of academic integrity and that a recurrence will lead to more serious sanctions. The committee will deliberate on whether the letter should or should not appear in the student’s file permanently or for a lesser period of time.

The College does not use disciplinary notations on the student’s transcript; nor does it release information regarding academic integrity violations to other institutions or external agents. However, it reserves the right to consider any academic integrity violations when examining applications for study abroad, internships, scholarships, campus employment, or student awards, or for other internal uses for as long as the student is an active ACG student.

COSC or, on appeal, the Academic Council or Chief Academic Officer may impose additional penalties for academic misconduct affecting the sanctioned student’s ability to hold elected office in student organizations including student government and restricting other non-academic activities.

First Offence File: The student’s name and a description of the offense is recorded in the student information system, and is accessible by the chief academic officer, the academic deans, the dean of students and department heads. Second offences automatically result in a hearing.

Suspension: The student’s relationship with the College will be discontinued for a specified period of time. The student will forfeit any college-related fees .

Academic Policies Governing the Deree US Degree

Dismissal: The student's relationship with the College will be terminated. The right to apply for readmission shall be denied.

COSC observes College policies on academic integrity. When a student is found guilty of a breach of academic integrity, the committee applies the sanction(s) pertinent to the offence. The COSC chair informs the student and the plaintiff of actions to be taken in writing within five working days of the formulation of the final recommendation.

Hearing

Deliberation on a second offence violation requires a hearing. A student may be called to a hearing even in the case of a first offence, depending on the severity of the charge. Once the Committee establishes that the report is complete, the Chair calls for a hearing within eight working days from the receipt of the charge. The Chair informs the student in writing of: the charge(s); the student's rights; and the fact that the student's presence is required at the hearing. The student has the right:

- to attend the hearing alone or with a member of the College community who agrees to speak for the student.
- to answer questions, present evidence and introduce witnesses from the College community for defense against the charge.
- to pose questions to witnesses from the College community.

The Chair notifies the plaintiff in writing when his/her presence is required, of the time and place of the hearing, as well as the plaintiff's rights:

- to be accompanied by a member of the College community who agrees to speak for the plaintiff.
- to introduce witnesses from the College community.
- to pose questions to the student and witnesses from the College community.

At the hearing the chair announces the purpose and the function of the committee and reads the charge(s). The chair opens the floor, inviting parties present to provide additional information and call witnesses, if they so wish. Parties present may pose questions to the student/plaintiff/witness(es). The members of the committee are then given the opportunity to ask questions of the parties present.

When the hearing is over, the chair asks all those present apart from the committee members to leave the room. Committee members then deliberate on the outcomes of the hearing. The committee arrives at a majority judgment on the case and, if necessary, recommends sanctions. If a student does not appear for a hearing and fails to notify the committee of their inability to do so, the committee rules on the case in absentia.

Appeal

Within three working days of receipt of COSC's decision, the student has the right to lodge a formal written appeal against the decision of the committee. The appeal is addressed first to the Academic Council and subsequently to the chief academic officer, and then to the president, whose decision is final.

Any COSC decision and recommendation on a case are subject to the Academic Council's approval, the Board of Examiner's ratification of grades, and the appeals process available to students. The committee recommends sanctions based on majority vote.

For offences made in validated courses/programs, OU students may appeal against the decision of the Board of Examiners in accordance with the regulations for academic appeals as outlined in the *Regulations for validated awards of The Open University for institutions offering dual awards*.

Academic Policies Governing the Deree US Degree

For cases involving OU students, a final report on all the cases is prepared and submitted, via the Academic Council, to the Board of Examiners fourteen days prior to the convening of the board. For cases involving non-OU students, the report is sent to the Academic Council only. Reports include a short statement on the student's breach of academic integrity, the committee's ruling and the sanctions applied.

Students involved in the academic misconduct process should restrict communication on this process to the lines of communication and appeal indicated in this policy. Students should not attempt to contact individual members of relevant committees or other administrators or faculty about an ongoing academic misconduct case outside of the formal avenues of communication and appeal.

Academic Appeals

Students registered in a validated program may appeal a decision of the Board of Examiners. Students' rights of appeal are limited to two grounds:

- either that the candidate's performance in an assessment was adversely affected by illness or factors which they were unable, or for valid reasons unwilling, to divulge before the Board of Examiners reached its decision.
- or that there has been a material administrative error, an assessment was not conducted in accordance with the current regulations for the program or special arrangements formally agreed, or that some other material irregularity relevant to the assessment has occurred.

Disagreement with the academic judgment of a Board of Examiners in assessing the merits of an individual element of assessment does not constitute grounds for an academic appeal. Responsibility for the submission of documentary evidence in support of the appeal rests with the student.

Appeals must be submitted in writing to the registrar no later than 14 days following the publication of Examination Board results. All appeals, including requests for grade change for non-validated courses, must be submitted in writing to the registrar by the end of the second week of the following session/semester.

On receipt of the appeal, the registrar informs the department head/program coordinator and the Academic Council (through the chief academic officer) and submits to them all relevant evidence and correspondence. The academic dean undertakes an initial assessment of the validity of the appeal and advise the student accordingly. In light of this advice the student should decide whether they wish to proceed with the appeal. The student then decides to withdraw their appeal or lodge a complaint in accordance with the College's complaints procedure. Students who attended a non-validated course may appeal a final course grade within 45 days from the last day of classes for courses without a final exam or from the day of the final exam for courses with final exams. For appeals concerning grade assignment in non-validated courses, the department head/program coordinator may form a departmental committee to review the student assessment and propose to the Academic Council a decision on the grade.

In the event that the student decides to proceed with an appeal, the Academic Council will be convened no later than three weeks after receiving the student's decision to do so. The members of the Academic Council shall exclude any member of the faculty or the administration who has been involved in the assessment of the student or who is a member of the relevant Board of Examiners. For non-validated courses, the Academic Council will decide on the student's final grade and will inform the student, the professor and the academic dean.

In cases of validated courses/programs, the Academic Council will hear the appeal. The appellant may be called to appear before the council. The Academic Council may also require the chair of the Board of Examiners to appear separately before it. The appellant and the chair of the board will not be present when the subcommittee considers

Academic Policies Governing the Deree US Degree

the evidence and formulates its decision. In cases of validated courses/programs, the Academic Council must inform the student and the Board of Examiners of its decision within seven days of the hearing. The student has the right to appeal the subcommittee decision, in writing, to the provost. If the appellant wishes to contest the provost's decision, they have the right to lodge an appeal with the Open University. The student will obtain contact details for the provost and the Open University from the registrar.

The Registrar's Office will keep records of outcomes for all appeals cases. The Academic Council will receive annual summary reports regarding all appeals received by the College.

Complaints Procedure

Complaints are related to specific concerns about the delivery of a course (ie, module) or a program of study, or of a related academic or non-academic service. For non-validated courses and programs complaints do not address the review of a decision made by an academic body. When appropriate, a complaint is first resolved through informal discussion with the party or office directly involved. If not resolved at this level, a formal complaint is submitted by the student to the Registrar's office no later than 14 days after the student is informed of the outcome of this discussion. Upon receipt of the complaint the registrar forwards it and all relevant documentation to the Academic Council or the dean of students.

Depending on the nature of the complaint, the academic dean or dean of students will undertake an initial assessment of the validity of the complaint and advise the student accordingly. In light of this advice, the student will decide whether they wish to proceed with the complaint.

In the event that the student decides to proceed with the complaint, the Academic Council will be convened no later than three weeks after receiving the student's decision. The Academic Council shall exclude any member of faculty or the administration who has been involved in the complaint or who is a member of the relevant Board of Examiners.

The Academic Council will hear the complaint. The appellant may be called to appear before the council. The council may also require the relevant member of the faculty or administration, or both, to appear separately before it. The appellant and any member of staff against whom the complaint has been made will not be present when the council considers the evidence and formulates its decision.

The Academic Council must inform the student and the chair of the Board of Examiners (if the complaint concerns a validated course/program) of its decision within seven days of the hearing. The student has the right to subsequently appeal to the provost against the decision of subcommittee. If the appellant wishes to contest the provost's decision for validated courses or programs, they have the right to lodge a complaint with the Open University. The student will obtain contact details for the provost and the Open University from the registrar.

The Registrar's Office will keep records of outcomes of all complaints cases. The Academic Council will receive annual summary reports regarding all complaints received by the College.

Students registered in an OU-validated award may further appeal to the Office of the Independent Adjudicator (OIA).

Academic Enrichment Programs

Academic Enrichment Programs

English for Academic Purposes Program

The English for Academic Purposes Program (EAPP) supports the educational mission of Deree by providing high-quality instruction in academic English to non-native English-speaking students who need to improve their English language skills for study at the institution. EAPP also provides English placement testing to incoming students who are non-native speakers of English. EAPP is designed to:

- provide non-native English-speaking students with the resources and opportunities to develop their reading, writing, listening and speaking skills to a level appropriate for college study.
- equip students with the academic skills needed to help them participate more fully and effectively in college courses.
- offer a well-researched curriculum that addresses the unique and diverse needs of the College's non-native English-speaking students and makes use of educational technology and academic support services.
- provide small, student-centered classes led by dedicated, professionally trained English instructors.

Writing Program

The Writing Program (WP) offers three levels of full-time courses on academic writing: WP 1010 Introduction to Academic Writing, WP 1111 Integrated Academic Writing & Ethics and WP 1212 LE Introduction to Academic Writing and Research. These courses equip students with the critical thinking, reading, writing and research skills necessary for success in an academic environment. Each writing course has a thematic focus as a vehicle to structure thinking and writing.

Students are placed in WP 1010 if they satisfy the College's requirements for proficiency in English (as described in the section "Academic Writing").

Students take all three Writing Program courses in sequence to fulfill part of their general education requirement. All courses are offered for 3 graduation credits.

The Writing Program supports the educational mission of Deree by

- providing high-quality instruction in academic writing and thinking that prepares students for the writing and critical-thinking challenges they will face in their major.
- equipping students with the critical-thinking and communication skills they need to succeed beyond college as flexible, thoughtful and confident writers.
- increasingly challenging students with reading and writing assignments that expose them to a variety of texts, writing and research activities, and disciplinary discourses.
- offering a well-researched curriculum that responds to the unique and diverse needs of the College's students and making use of educational technology and academic support services.
- providing small, student-centered classes led by dedicated, professionally trained English instructors.

International Honors Program

The Deree - ACG International Honors Program (IHP) offers motivated and academically committed honors students educational enrichment through interdisciplinary learning experiences and opportunities for independent scholarship. It seeks to develop students' intellectual and civic leadership skills through dynamic teaching and student involvement that extend beyond the classroom.

Academic Enrichment Programs

The International Honors Program offers:

- challenging and innovative General Education courses taught through the use of the most current pedagogical tools.
- faculty-student research opportunities through the Honors Thesis.
- exposure to international perspectives through study abroad.
- co-curricular activities that cultivate creativity and civic engagement, such as sustainability workshops, lecture series and film series.
- participation in a tightly knit community of high-achieving students.
- financial aid (International Honors scholarship), internship opportunities, and benefits such as early course registration.
- special cultural and academic enrichment events that promote leadership potential, such as participation in the Heritage Greece Program.
- increased career and/or graduate opportunities.

The International Honors Program seeks to produce well-educated, articulate citizens who exemplify the highest standards of academic, professional and personal achievement. It offers an enriched curriculum that integrates knowledge, sharpens academic skills and encourages active involvement in the learning process.

The International Honors Program encompasses an Honors student's undergraduate career and evolves in two stages:

- in the first stage, students benefit from taking four Honors Seminars which fulfill an equivalent number of General Education requirements.
- in the second stage, students apply the creative and intellectual skills they have acquired in the Honors Seminars to produce an Honors Thesis, the capstone requirement of the Honors Program. The Honors Thesis is also a bridge to a student's professional or academic goals beyond college.

The Teaching and Learning Center

Fulfilling the College's mission of fostering academic excellence, the Teaching and Learning Center, an instructional resource for faculty, promotes innovative approaches to student learning. The director of the Teaching and Learning Center provides support and assists in the development of effective educational material. The Teaching and Learning Center organizes frequent training sessions on pedagogy where faculty can exchange ideas and experiences related to their teaching; it encourages faculty to explore developments in teaching technologies and adopt student-centered techniques; through a dedicated Blackboard container full of material related to classroom needs, it facilitates and encourages faculty to keep up with best practices in pedagogy.

An introduction to the basics of the practice, methods and theory of world archaeology. Particular emphasis is given to examples drawn from the broader Mediterranean world.

US CR: 3/0/3

AH 1002 THE ARCHAEOLOGY OF DAILY LIFE

A study of daily life in ancient Athens and Rome through the analysis of archaeological evidence. Survey of all facets of life. Public and private spaces and structures. Government, customs, festivals and entertainment.

US CR: 3/0/3

AH 2027 ASPECTS OF GREEK ART IN ATHENS

An introductory exploration of aspects of Greek art, broadly defined chronologically, through "hands on experience," utilizing the collections available in museums, in galleries and on sites in Athens.

Students who have taken AT 2005 Art and Architecture of Ancient Greece cannot take AH 2027 (previously AT 2027) for credit when it addresses Ancient Greek Art. Similarly, students who have taken AT 2017 (Modern Greek Art) cannot take AH 2027 for credit when the content relates to Modern Greek Art.

Required museum visits - Additional fees apply.

US CR: 3/0/3

The School of Liberal Arts and Sciences

AH 2122 TOPOGRAPHY AND MONUMENTS OF ANCIENT ATHENS

A site-based introduction to the topography and monuments of Athens from the Geometric period up to the Roman period.

Required museum visits - Additional fees apply.

Prerequisite: One course in Ancient, Medieval or Byzantine Art History or History.

US CR: 3/0/3

ASTRONOMY (AS)

AS 1000 LE INTRODUCTION TO ASTRONOMY

This introductory course in astronomy unveils the wonders of the Cosmos such as solar systems and planets, origin and evolution of stars and galaxies, and various cosmological theories. It gives emphasis on modern developments of astronomy and its connections to everyday life.

US CR: 3/0/3

BIOLOGY (BI)

BI 1000 LE INTRODUCTION TO BIOLOGY I - LEVEL 4

An integrated exploration of the fundamentals of biology as a science, the nature of life, biological chemistry, cell biology, metabolism and human body anatomy and function.

UK CREDITS: 20

US CR: 3/2/4

BI 1002 INTRODUCTION TO MOLECULAR BIOLOGY

Principles and applications of molecular biology, with emphasis on recombinant DNA technology, gene isolation and cloning, gene transfer into mammalian cells, transgenic animals, regulation of gene expression, molecular diagnostics, molecular biology of cancer and gene therapy.

US CR: 3/2/4

BI 1007 ENVIRONMENTAL ECOLOGY - LEVEL 4

Fundamentals of the science of ecology, including an introduction to life and the physical environment, adaptations of organisms and evolution, population structure and regulation, species interactions, community ecology, biodiversity, ecosystems and ecological applications.

UK CREDITS: 20

US CR: 3/2/4

BI 1016 LE HUMAN BIOLOGY: GENETIC AND EVOLUTIONARY ASPECTS OF LIFE

An issues-based course designed for non-science majors that takes a fresh approach to the field of biology. Emphasis is put on human genetics, inheritance and human development, molecular biology, evolution, and ecology.

US CR: 3/0/3

The School of Liberal Arts and Sciences

BI 1017 HUMAN BIOLOGY: BODY ANATOMY AND CURRENT ISSUES - LEVEL 4

An issues-based course designed for non-science majors that takes a fresh approach to the field of biology. Emphasis is put on basic biological processes, structure and function of organs and organ systems as well as diseases and infections of the human body.

UK CREDITS: 20

US CR: 3/2/4

BI 1101 INTRODUCTION TO BIOLOGY II - LEVEL 4

An integrated exploration of major principles of biology. Emphasis on diversity of life, development, cell division, molecular biology, genetics, evolution, and ecology. Consideration of issues and applications related to society.

Prerequisites: BI 1000

UK CREDITS: 20

US CR: 3/2/4

BI 3204 HUMAN GENETICS - LEVEL 5

A survey of human genetics for the science and non-science majors. Focuses on fundamental concepts about genome organization, function and variation as well as the study of genetic diseases and technologies.

Prerequisites: BI 1000 BI 1101

US CR: 3/0/3

BI 3215 ENVIRONMENTAL HEALTH - LEVEL 5

This course examines health issues, the scientific understanding of their causes and possible future approaches to control major environmental health problems in industrialized and developing countries.

Prerequisites: BI 1000 OR BI 1006

BI 1101 OR BI 1007

UK CREDITS: 15

US CR: 3/0/3

BI 3232 CELLULAR AND MOLECULAR NEUROBIOLOGY - LEVEL 5

A course on cellular and molecular neurobiology. The course will cover the neural tissue and senses from molecules to the mind, describing basic neuronal processes, sensory receptor systems, and motor systems, development and the biology of higher cognitive function.

Prerequisites: BI 1000 BI 1101

US CR: 3/0/3

BI 3235 CELL AND MOLECULAR BIOLOGY - LEVEL 5

An integrated exploration of the fundamentals of cell and molecular biology as a science, the nature of life, biological chemistry, cell biology, metabolism and genetics.

Prerequisites: BI 1000 BI 1101

UK CREDITS: 20

US CR: 3/2/4

BI 3240 HUMAN ANATOMY AND PHYSIOLOGY - LEVEL 5

An integrated exploration of the fundamentals of human anatomy including tissues, organs and systems with an emphasis on their pathophysiology.

Prerequisites: BI 1000 BI 1101

UK CREDITS: 20

US CR: 3/2/4

BIOMEDICAL SCIENCES (BMS)

BMS 3220 MICROBIOLOGY AND INFECTIOUS DISEASES - LEVEL 5

An analysis of essential microbiology and infectious disease. The course introduces the major classes of micro-organisms and through their biological adaptations relates them to human activity. Their beneficial and harmful roles on humans is discussed through case studies, disease profiles and epidemiological analysis.

Prerequisites: BI 1000 BI 1101

UK CREDITS: 15

US CR: 3/0/3

BMS 3425 HUMAN NUTRITION - LEVEL 5

An integrated overview of the physiological requirements and functions of major nutrients for humans, the connection between nutrition and disease, the role of nutrients in growth and health through the life cycle and in physical activity, dietary requirements, as well as issues of food safety, food security and contemporary challenges of nutrition and the food system.

Prerequisites: BI 1000 BI 1101
CH 1002 CH 2115

UK CREDITS: 15

US CR: 3/0/3

BMS 4055 INTERNSHIP IN BIOMEDICAL AND HEALTH SCIENCES - LEVEL 6

Work-based learning in the field of Biomedical and Health Sciences, such as in a pharmaceutical industry or a clinical setting. Students gain hands-on experience and receive training as they learn to apply knowledge and skills gained in the program in a real life work environment.

Prerequisites: The student must have completed a minimum of 40 credits from the core courses of the Biomedical Sciences program before being able to take this course. All work placements are subject to the formal approval by the Department Head / Programme Coordinator / Internship Administrator (as appropriate).

UK CREDITS: 15

US CR: 3/0/3

BMS 4330 HEALTH INFORMATION SYSTEMS & TECHNOLOGY - LEVEL 6

The course provides an overview of Health Information Technology, Health Informatics and Biomedical Informatics. The student is introduced to the concepts of the discipline, models, and systems including the major areas of the evolving discipline. The course focuses on the application of health information technology for healthcare delivery, education and research as well as the multidisciplinary nature of informatics.

Prerequisites: MA 1008 MA 2021
MA 2130

UK CREDITS: 15

US CR: 3/0/3

BMS 4410 ALLERGY AND IMMUNITY - LEVEL 6

The course provides a detailed review of allergy and immunology and an integrated exploration of molecular, cellular, physiologic and pathologic aspects of the immune system. The pathophysiology of the immune system as it contributes to diseases, autoimmunity is explored together with various treatment strategies for allergic and immune disorders.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240

UK CREDITS: 15

US CR: 3/0/3

BMS 4415 ENVIRONMENTAL BURDEN IN NEURODEVELOPMENT - LEVEL 6

The course focuses on fundamental principles of organogenesis in the nervous system and integrates information from a variety of model systems, relating them to human nervous system development trajectory, including disorders of development. It offers expanded coverage of topics such as neuronal determination, axonal navigation and targeting, neuron survival and death, synapse formation and developmental plasticity. Environmental exposures, epigenetics, gene expression, cell migration and stem cells, sleep and learning/memory, socioeconomic status and development of prefrontal cortex function are considered.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240

UK CREDITS: 15

US CR: 3/0/3

BMS 4435 PHARMACOLOGY IN HEALTH AND DISEASE - LEVEL 6

An integrated exploration of pharmacology in health and disease. Focuses on, principles of pharmacology, including receptor mechanisms, drug distribution and metabolism, and pharmacokinetics in addition to drug discovery, safety and efficacy. The existing and experimental treatment strategies in pharmacology both in health and disease are discussed. Specific cases, research and bioethics questions are explored in a critical and analytical approach.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240

UK CREDITS: 15

US CR: 3/0/3

BMS 4440 TOPICS IN PATHOPHYSIOLOGY - LEVEL 6

An integrated exploration of human pathophysiology. Focuses on molecular, cellular, physiologic and pathologic processes contributing to diseases. Specific cases, research and bioethics questions are explored in a critical and analytical approach including the existing and experimental treatment strategies.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240

UK CREDITS: 15

US CR: 3/0/3

The School of Liberal Arts and Sciences

BMS 4545 RESEARCH METHODS AND ICT TOOLS IN BIOMEDICAL SCIENCES - LEVEL 6

The course provides a guide to the key practical and broader skills needed in biomedical sciences, including comprehensive coverage of: study and examination skills; fundamental laboratory and analytical skills; investigative techniques and evaluation skills; analysis and presentation of data. The capstone proposal is also prepared in this course.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240
MA 2021

UK CREDITS: 15

US CR: 3/0/3

BMS 4650 CAPSTONE IN BIOMEDICAL SCIENCES - LEVEL 6

This course is the culmination of the work in Biomedical Sciences. It involves an individual research project and is designed to provide students with opportunities to research health and biomedical sciences issues from different perspectives. The project topics are selected from a broad spectrum of BMS areas.

Prerequisites: BI 1000 BI 1101
BI 3235 BI 3240
BMS 4545 MA 2021

UK CREDITS: 15

US CR: 4/0/4

CHEMISTRY (CH)

CH 1002 LE PRINCIPLES OF CHEMISTRY - LEVEL 4

An introduction to chemical science and the chemistry of everyday life. The course presents fundamental principles of chemistry such as atomic theory, chemical bonding, chemical reactions, states of matter, nuclear chemistry as well as basic concepts of inorganic and organic chemistry. Focus is given to chemical applications and their relevance to the natural environment.

UK CREDITS: 20

US CR: 3/2/4

CH 1005 LE AN INTRODUCTION TO THE ORGANIC WORLD

An introduction to modern organic and biological structures. An issues based approach that studies biological, environmental, nutritional and material science-related topics via a chemical perspective with an emphasis on the chemistry of living things.

US CR: 3/0/3

CH 2115 GENERAL CHEMISTRY- LEVEL 4

General Chemistry builds upon essential chemical concepts and their applications. It is a systematic study of chemical change and equilibria. Topics include advanced atomic structure and hybridization, thermochemistry and thermodynamics, ionic equilibria, electrochemistry and kinetics.

The School of Liberal Arts and Sciences

Prerequisites: CH 1002

UK CREDITS: 20

US CR: 3/2/4

CH 3220 ORGANIC CHEMISTRY - LEVEL 5

An introduction to organic chemistry, focusing primarily on the basic principles underlying the structure and reactivity of organic molecules. Hydrocarbons, alcohols and ethers, aldehydes, ketones and carboxylic acids are discussed, with emphasis on biomolecular applications of reaction mechanisms, stereochemistry, nomenclature and tools for structure determination, including nuclear magnetic resonance and infrared spectroscopy.

Prerequisites: CH 1002 CH 2115

UK CREDITS: 15

US CR: 3/0/3

CH 3241 ENVIRONMENTAL CHEMISTRY - LEVEL 5

(See ES 3241)

CH 3325 ORGANIC AND BIOLOGICAL CHEMISTRY - LEVEL 5

Organic chemistry with focus on the chemistry of life, examining proteins, carbohydrates lipids, nucleic acids, the relationship between structure and function, as well as metabolism and gene expression.

Prerequisites: CH 1002 CH 2115
CH 3230

UK CREDITS: 15

US CR: 3/0/3

CH 3330 ORGANIC AND BIOLOGICAL CHEMISTRY LAB - LEVEL 5

An introduction to methods of analysis in organic and biological chemistry, with emphasis on laboratory techniques and structure determination. Students get exposed to techniques such as distillation, vacuum filtration, liquid extraction, spectroscopy, chromatography and rotary evaporation; they also learn to apply the scientific method and design an experiment.

Prerequisites: CH 1002 CH 2115
CH 3230 (co-requisite)

UK CREDITS: 10

US CR: 0/3/2

CINEMA STUDIES (CIN)

CIN 1022 MASTERCLASS IN PROFESSIONAL SCREENWRITING.

A hands-on course that introduces students to storytelling practices and techniques. Students explore the importance of character development in screenwriting, both in terms of a story's plot as well as the interrelationships of the story's "family of characters."

Prerequisites: Prospective students may register following academic advising by the Program Coordinator / Department Head

US CR: 1.5/0/1.5

The School of Liberal Arts and Sciences

CIN 2010 FILM ADAPTATION - LEVEL 4

Introduction to theories and concepts of film adaptation. Review of techniques and tools relevant to the particular nature of the medium from a writer's perspective. Case studies and creative work.

UK CREDITS: 15

US CR: 3/0/3

CIN 2015 FILM HISTORY - LEVEL 4

Examination of key phases of film history. Analysis of film's historical development in interaction with socio-economic context. Survey of major cinematic traditions from the silent to the sound era and from post-war and contemporary auteurs to Hollywood blockbuster culture. Analysis of aesthetic, critical and technological innovations in line with institutions, culture and social change. Women directors and cinema's historiography.

UK CREDITS: 15

US CR: 3/0/3

CIN 2227 LE MODERN GREEK CINEMA - LEVEL 4

Introduction to Modern Greek cinema through an analysis of the theoretical, historical and aesthetic elements that have shaped its identity.

Prerequisites: WP 1010 WP 1111

UK CREDITS: 15

US CR: 3/0/3

CIN 3090 SEMINAR IN SELECTED TOPICS IN CINEMA STUDIES

In-depth analysis of one contemporary topic in cinema studies or filmmaking practice. Systematic and critical study of the key ideas and relevant literature or practical applications.

Prerequisite: Students should have completed 36 credits

US CR: 3/0/3

CIN 3120 CINEMATOGRAPHY - LEVEL 5

The aesthetics, techniques, and technology of cinematography in its current practice.

Prerequisite: CN 2005

UK CREDITS: 15

US CR: 3/0/3

CIN 3125 DIGITAL COMPOSITING AND EDITING - LEVEL 5

Principles of layer-based compositing and non-linear editing for the completion of video work.

Prerequisite: CN 2005

UK CREDITS: 15

US CR: 3/0/3

CIN 3130 DIRECTING FUNDAMENTALS - LEVEL 5

This course explores both the leadership and collaborative skills necessary to directors. Script/concept breakdown, pre-visualization, camera blocking, basic scene coverage and rehearsal techniques for specific performance needs. Students direct and edit both a fiction and non-fiction scenario to experiment with the communicative potential of each and to develop the student's own creative voice.

Prerequisite: CN 2005

UK CREDITS: 15

US CR: 3/0/3

The School of Liberal Arts and Sciences

CIN 3140 PRODUCTION DESIGN - LEVEL 5

The course explores the fundamentals of production design-from text and script interpretation, art direction, researching locations, to collaborations with the director, cinematographer and creative teams.

Prerequisite: CN 2005

UK CREDITS: 15

US CR: 3/0/3

CIN 3235 FILM THEORY - LEVEL 5

Examination and analysis of major film theories from the early days of cinema to contemporary developments. Placement of film theories in a broad socio-historical context through the major film theorists. Links to discourses in psychoanalysis, Marxism and Critical Theory, feminism and post-colonialism.

Prerequisite: CIN 2015 CN 2127

UK CREDITS: 15

US CR: 3/0/3

CIN 4045 ACTING AND THE SCREEN - LEVEL 6

The actor's craft in the context of contemporary recorded performance. Students train on relevant acting techniques and acquire respective technical skills.

UK CREDITS: 15

US CR: 3/0/3

CIN 4050 WORLD CINEMA: POWER AND IDENTITY - LEVEL 6

See SO 4050.

CIN 4080 CINEMA STUDIES INTERNSHIP

Experiential learning for students in the Cinema Studies program. Students gain industry experience and training as they apply knowledge gained within the classroom to real-life professional situations.

Prerequisite: Formal approval by the Program Coordinator and Internship Administrator is required

US CR: 3/0/3

CIN 4155 FILM PRODUCING - LEVEL 6

Production practices relevant to the film industry. Treatments and pitching. Budgeting and financing. Distribution.

Prerequisite: CIN 3130

UK CREDITS: 15

US CR: 3/0/3

CIN 4870 CINEMA STUDIES SENIOR THESIS - LEVEL 6

Capstone course for Cinema Studies majors. Students work directly with a faculty supervisor to develop and complete a creative project or thesis.

Prerequisites: WP 1010 WP 1111 CN2005
CN 2127 CIN 3235 CIN 3130
CIN 3120 CN4337

CLASSICAL LITERATURE (CL)

CL1002 ANCIENT GREEK I

An introductory course for students who wish to study elementary ancient Greek. The course covers the essentials of vocabulary, grammar and syntax through oral and written exercises so that students can begin to translate ancient Greek into English. Practice in reading, writing and translating from ancient Greek into English, with excerpts from Greek literature.

US CR: 3/0/3

CL 1004 LE MYTH IN THE ANCIENT GREEK AND ROMAN WORLD

This course introduces students to the rich world of Greek and Roman mythology by examining and assessing their appearance in literature and material culture. The contribution of these mythologies to the construction of identity and ideologies of the Greeks and Romans will be considered.

US CR: 3/0/3

CL1103 ANCIENT GREEK LANGUAGE II

The second part of an introductory course for students who wish to study elementary ancient Greek. The course reviews and reinforces vocabulary, grammar and syntax through oral and written exercises so that students can translate ancient Greek into English at a more advanced level than CL1002. Practice in reading, writing and translating from ancient Greek into English, with excerpts from Greek literature.

Prerequisites: CL1002

US CR: 3/0/3

CL 1115 LATIN II

A second semester introductory course for students who wish to study elementary Latin. The course reviews and reinforces vocabulary, grammar and syntax through oral and written exercises so that students can translate Latin into English. Practice in reading, writing and translating from Latin into English, with excerpts from Latin literature.

Prerequisites: The equivalent of first semester Latin

US CR: 3/0/3

CL 2010 LE ANCIENT GREEK AND ROMAN EPIC POETRY - LEVEL 4

Engagement with three major epics in their entirety, in English translation: the *Iliad*; the *Odyssey*; and Vergil's *Aeneid*; examination of epics as a window into the perspectives of their earliest audiences or readerships, and also with a view to their powerful and ongoing influence on Western thought and literature; attention given to current scholarly debates surrounding the epics.

UK CREDITS: 15

US CR: 3/0/3

CL 2220 READING LATIN

The course strengthens and builds upon the skills learned in a first year Latin sequence by focusing on reading a continuous text by a key author writing in Latin and placing that work in its cultural and literary context. Authors that may be chosen include Virgil, Cicero and Livy amongst others. The course begins with a grammar review.

The course may be repeated for credit as long as a different author is chosen.

Prerequisites: A first year Latin sequence or its equivalent

US CR: 3/0/3

CL 2225 HOMERIC GREEK

Students learn to read and interpret Homer in the original Greek. Class discussion, readings and exercises increase fluency and enable direct experience of dramatic stories and powerful ideas from the dawn of Western civilization.

At least one year of prior training in Ancient Greek at the college level is assumed.

Prerequisites: CL 1002 Ancient Greek I CL 1103 Ancient Greek II
or any college level two-semester sequence of beginning Ancient Greek language.
Requirement may be waived by permission of the instructor.

US CR: 3/0/3

CL 3001 CLASSICAL ROMAN LITERATURE AND CULTURE

A study, in English translation, of some of the most important works of Roman literature placing them within their cultural context. Samples from various genres (drama, lyric and epic poetry, rhetoric) are examined.

US CR: 3/0/3

CL 3022 FROM MYTH TO LIVED EXPERIENCE: THE POWER OF STORY-TELLING

Exploration of how story-telling can shape identities, challenge ideas, and even create radical new modes of thought and expression. Engagement with stories from Homer, Sappho, Euripides, Herodotus, Plato, and others, with emphasis on how myth relates to lived experience, becomes repurposed in new contexts, and still shapes narratives generated in contemporary media.

US CR: 3/0/3

CL 3224 ANCIENT GREEK DRAMA IN TRANSLATION

Aeschylus, Sophocles, Euripides and Aristophanes in translation by modern poets and scholars. Commentary by ancient and modern scholars.

Prerequisites: WP 1010 WP 1111

US CR: 3/0/3

CL 3227 ANCIENT GREEK AND ROMAN COMEDY IN TRANSLATION

3/0/3

Aristophanes, Menander, Plautus, Terence, in English translation by modern poets and scholars. Commentary by ancient and modern scholars.

Prerequisites: WP 1010 WP 1111

US CR: 3/0/3

COMMUNICATION (CN)

CN 2001 LE FOUNDATIONS OF CONTEMPORARY MEDIA - LEVEL 4

Overview of the mass media industry. History of the mass media and their impact on society and the individual. Development of communication technology. Role of mass media in shaping public opinion.
UK CREDITS: 15
US CR: 3/0/3

CN 2005 INTRODUCTION TO DIGITAL VIDEO - LEVEL 4

Introduction to the principles of shooting and editing moving images. Hands-on-course that equips students with video-making and visual storytelling skills.
UK CREDITS: 15
US CR: 3/0/3

CN 2044 LE SOCIAL MEDIA IN AN INTERCONNECTED SOCIETY

See MK 2044.

CN 2103 INTRODUCTION TO PUBLIC RELATIONS - LEVEL 4

Introduction to public relations through the exploration of the evolution of key concepts, theories and practices relevant to the field. Understanding public relations strategies and practices.
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2110 INTRODUCTION TO ADVERTISING - LEVEL 4

Introduction to advertising and its key concepts, principles and theories, including the variety of ways in which advertising is interpreted from a historical, ethical, sociological, psychological, cultural, economic, media-centered and professional perspective
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2127 INTRODUCTION TO FILM AND TELEVISION STUDIES - LEVEL 4

Introduction to film and television as areas of study within the world of media and communication. Theoretical and historical examination of the industries their and cultural and wider social significance.
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2202 WRITING FOR THE MEDIA - LEVEL 4

Understanding media user needs and interest levels as a determining factor in how media messages are crafted. Examination and application of basic media writing techniques.
Prerequisites: WP 1010 WP 1111
UK CREDITS: 15
US CR: 3/0/3

CN 3015 DESIGNING FOR THE WEB - LEVEL 5

See ITC 3015.

CN 3160 DIGITAL STORYTELLING - LEVEL 5.

Development of production storytelling techniques. Treatment of ideas. Storytelling in the digital age.
Prerequisites: CN 2005
UK CREDITS: 15
US CR: 3/0/3

CN 3164 SOUND DESIGN - LEVEL 5

See MU 3164.

CN 3311 FUNDAMENTALS OF JOURNALISM - LEVEL 5

Basic techniques in journalism Finding and determining the credibility of sources, determining the newsworthiness of the stories, interviewing, maintaining accuracy, writing leads, applying the inverted pyramid, and writing on deadline.
Prerequisites: WP 1010 WP 1111
CN 2202
UK CREDITS: 15
US CR: 3/0/3

CN 3316 BROADCAST JOURNALISM AND PUBLIC RELATIONS - LEVEL 5

The differences between print and broadcast radio and television in terms of audience expectations and receptivity. Writing for the voice and the ear. Preparing, writing and delivering news copy and field reports. Taping interviews. Shooting video. Adapting the voice to broadcast.
Prerequisites: WP 1010 WP 1111
CN 2202
UK CREDITS: 15
US CR: 3/0/3

CN 3323 PUBLIC RELATIONS AND SPECIAL EVENTS PLANNING - LEVEL 5

Event management techniques and strategies for planning, promotion, implementation and evaluation of special events in a variety of contexts. Competencies required to perform the complex tasks associated with research, design, planning, production and evaluation of events.
Prerequisites: WP 1010 WP 1111
CN 2103
UK CREDITS: 15

UK CREDITS: 15

US CR: 3/0/3

CN 3412 MEDIA ETHICS - LEVEL 5

Philosophical and practical approaches to understand ethical dilemmas in the media. Analysis of the competing professional, private, employment and social frameworks established in the course. Comparison of ethical standards and practices in different areas in the field of communication.

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2001

UK CREDITS: 15

US CR: 3/0/3

CN 3421 COMMUNICATION THEORIES - LEVEL 5

The basic theoretical paradigms of mass communication. Examination of the history and development of models in communication research and the context in which theories emerged. Exploration of approaches used to understand the influence of mass communication.

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2001

UK CREDITS: 15

US CR: 3/0/3

CN 3425 FILM ANALYSIS - LEVEL 5

Analysis through an examination of filmic elements such as form, narrative, sound, mise-en-scene and cinematography. Survey of different aesthetic styles and genres in the history of cinema.

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2127

UK CREDITS: 15

US CR: 3/0/3

CN 3428 PUBLIC RELATIONS TECHNIQUES - LEVEL 5

Public Relations communication techniques used to reach organizational goals through various channels. Shaping messages for specific target audiences. Analysis of on-the-job situations.

Prerequisites: WP 1010 WP 1111
CN 2202 CN 2103

UK CREDITS: 15

US CR: 3/0/3

CN 3434 ADVERTISING STRATEGY AND CLIENT SERVICES - LEVEL 5

Understanding and creating advertising strategies across media, for different brands and different purposes. Managing agency teams. Liaising with clients. Knowing and applying advertising ethics and self-regulations principles and guidelines

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2110

UK CREDITS: 15

US CR: 3/0/3

CN 3642 DIGITAL CAMPAIGNS - LEVEL 5

The role of online media in shaping interpersonal and organizational communication. Examination of such areas as networking, online communities, sharing and collaborative practices, user-generated content, crowd sourcing, gamification, and social entrepreneurship. Planning and execution of digital campaigns.

Prerequisites: WP 1010 WP 1111 WP 1212
CN 2202 CN 2110 CN 3434

UK CREDITS: 15

US CR: 3/0/3

CN 4207 MULTIMEDIA JOURNALISM AND PUBLIC RELATIONS - LEVEL 6

The use of visuals, sound, and words together to tell true stories in journalism and public relations. Objectivity and balance. Checking sources. Structuring stories. Shot selection. Researching, interviewing, shooting, writing, and producing stories. Writing across the media.

Prerequisites: CN 2005 CN 3160

UK CREDITS: 15

US CR: 3/0/3

CN 4239 MAKING THE SHORT DOCUMENTARY - LEVEL 6

Researching, focusing, planning, shooting, writing, and editing the short documentary, or industrial or public relations, film. Ethical issues and principles. History of the different documentary types.

Prerequisites: CN 2005 CN 3160

UK CREDITS: 15

US CR: 3/0/3

CN 4337 SCREENWRITING - LEVEL 6

Methods of film screenwriting. Examination of the principles of cinematic stories, structure, character and dialogue. Film screenings and script analysis.

Prerequisites: WP 1010 WP 1111
CN 2127

UK CREDITS: 15

US CR: 3/0/3

CN 4338 LEADERSHIP COMMUNICATION - LEVEL 6

Communication styles of business and political leaders. The role of communication in effective leadership, with a focus on techniques used to develop successful public and corporate leadership communication strategies.

Prerequisites: WP 1010 WP 1111
WP 1212

UK CREDITS: 15

US CR: 3/0/3

CN 4404 NEWS CULTURE - LEVEL 6

Critical analysis of the complex processes of news journalism through the examination of how news is collected, processed, communicated and perceived.

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2001

UK CREDITS: 15

US CR: 3/0/3

CN 4413 BRAND BUILDING IN ADVERTISING - LEVEL 6

The importance and impact of brands on a personal and social level. Introduction to fundamental branding principles, such as brand identity, associations and positioning. Brand creation and development through development of associations and appropriate use of communication, in congruence with modern technological and social trends. Developing brand building strategies and integrated communication plans.

Prerequisites: WP 1010 WP 1111
WP 1212 CN 2110

UK CREDITS: 15

US CR: 3/0/3

FRENCH (FR)

FR 1000 FRENCH I

Beginning French: pronunciation, fundamentals of grammar, development of basic vocabulary, and aspects of Francophone culture. Four skills (listening, speaking, reading and writing) are developed in order to communicate in the most familiar situations of everyday life and to understand the main points of simple conversations and texts. (CEFR-A1)

US CR: 3/0/3

The School of Liberal Arts and Sciences

FR 1101 FRENCH II

Further concepts of the French language. Four-skill approach in order to achieve a more efficient use of the language. Francophone culture and civilization are explored through written texts and audiovisual material. (CEFR-A2)

Prerequisites: FR 1000 or equivalent

US CR: 3/0/3

FR 2202 FRENCH III

Intermediate French. Review of French grammar and syntax. More complex aspects of French structure. Readings and discussion in French. Aspects of French civilization, history, social development and the arts. (CEFR-B1)

Prerequisites: FR 1000 FR 1101 or equivalent

US CR: 3/0/3

FR 2210 BUSINESS FRENCH I

French for business and management students and for those who may need to communicate in French in a business environment. (CEFR -B1)

Prerequisites: FR 1000

FR 1101 or equivalent

US CR: 3/0/3

FR 3323 BUSINESS FRENCH II

For business and management students and for those who may need to communicate in French in a business environment. Four language skills (listening, speaking, reading, and writing) are reinforced and expanded (Level B2 of the CEFR).

Prerequisites: FR 1000 FR 1101 FR 2210

GE 2202 GERMAN III

Intermediate German. Further development of four language skills (speaking, reading, listening and writing) so students can use language with some independence. Emphasis on vocabulary building and reading of longer texts.

Communication beyond simple everyday life towards more abstract and professional topics. (CEFR level B1)

Prerequisites: GE 1000 GE 1101 **or** waiver

US CR: 3/0/3

GE 2210 BUSINESS GERMAN

Communication in a German business environment. Specific vocabulary and expressions, cross-cultural training.

Emphasis on oral practice. Topics: Business meetings, on the office phone, workplace descriptions, a visitor's program. (CEFR-B1)

Prerequisites: GE 1000

 GE 1101 **or** equivalent

US CR: 3/0/3

GEOLOGY (GG)

GG 1000 ENVIRONMENTAL GEOLOGY - LEVEL 4

An interdisciplinary approach to studying environmental geosciences. Fundamental geologic concepts such as plate tectonics, geologic time and surficial processes are used as a basis for understanding a variety of natural processes.

Elaboration on topics of physical geology, including the rock cycle and plate tectonics, occurrence and distribution of geologic hazards and resources, interactions between humans and the geologic environment, and the issues associated with the exploitation of geologic resources such as water and air pollution.

US CR: 3/2/4

UK CREDITS: 20

GG 3115 GEOGRAPHIC INFORMATION SYSTEMS - LEVEL 5

An introduction to the field of Geographic Information Systems (GIS), its diversified applications and exploration of basic concepts, principles, approaches and techniques of GIS. Topics include applications of geographic information system; spatial data collection; data accuracy and uncertainty; cartographic principles; data visualization; geographic analysis; legal, economic and ethical issues.

HY 4058 INTERNSHIP IN HISTORY

Internship in History is a specialized class where students enrich their historical education through experiential learning at institution or sites approved by the History Department and the School of Liberal Arts and Sciences. Types of internships may vary, but all students will link their on-site experience to their study of history through reflection-based assignments.

Prerequisites: Normally the student will have completed 70 US credits before embarking on this course.

US CR: 3/0/3

HY 4061 GREECE IN THE 20TH CENTURY – LEVEL 6

The course is devoted to the critical study of Modern Greece from the Balkan Wars to present day. It will examine aspects of Greek society, politics, economics, and foreign policy during the formative twentieth century.

UK CR: 15

US CR: 3/0/3

HY 4155 ADVANCED TOPICS IN HISTORY - LEVEL 6

Sophisticated and in-depth study of a topic in history that is broadly conceived and is informed by the state-of the art literature and research. The thematic concentration varies year to year and is determined by the instructor.

Prerequisite: HY 3146

UK CR: 15

US CR: 3/0/3

HY 4456 DISSERTATION I - LEVEL 6

This course serves as an introductory course in the dissertation methodology writing process. The core objective of the course is to provide guidance and motivation to the student so that a research topic is identified and the relevant research proposal is submitted.

Prerequisite: HY 3146 and completion of 3 Level 6 (4000-level) HY courses

UK CR: 10

US CR: 2/0/2

The School of Liberal Arts and Sciences

HY 4557 DISSERTATION II - LEVEL 6

Dissertation II is the culminating assessment in earning the B.A. in History at ACG. It is meant to demonstrate advanced study and inquiry into a particular facet of history in relation to the experiences of students in the program.

The dissertation is a work of original scholarship designed with guidance from a dissertation supervisor.

INFORMATION TECHNOLOGY (ITC)

ITC 1070 INFORMATION TECHNOLOGY FUNDAMENTALS

Binary numbers and logic operations; computer hardware; operating systems; algorithmic thinking; programming languages; computer networks; the Internet; web development; data management.

Replaces CS 1070 for IT majors. Students will not receive credit for both ITC 1070 and CS 1070.

UK CREDITS: 15

US CR: 3/1.5/3

ITC 1112 LE TURNING DATA INTO DECISIONS

Data protection legislation; ethical use of data; the contribution of data analysis to organizational sustainability; visualizing data using graphs, charts and 3D maps; using functions and analytical tools for what-if analysis; using data reporting tools; linking of worksheets and workbooks; importing and manipulating data.

ITC1112 BL is not available to students on US Federal Financial Aid.

Prerequisites: CS 1070 or ITC 1070

US CR: 3/0/3

ITC 2024 COMPUTER NETWORKS & CYBERSECURITY FUNDAMENTALS - LEVEL 4

Computer communications systems components, models, operation, and applications. Networking standards, protocols and connectivity aspects. Local area networks design, implementation. Wide area networks, emerging technologies. Cybersecurity threats, measures and protocols. Cryptography basics.

UK CREDITS: 15

US CR: 3/0/3

ITC 2039 LE CONCEPTS IN MULTIMEDIA AND WEB DESIGN - LEVEL 4

Multimedia types, elements, and technical components; digital image editing; animation; web site development; sustainable digital media.

UK CREDITS: 15

US CR: 3/0/3

ITC 2053 INTRODUCTION TO GAME PROGRAMMING

Game programming fundamentals; basic 3D graphics concepts; combining and utilizing multimedia content using a game engine; creating and editing scripts using appropriate programming / scripting languages and techniques.

US CR: 3/0/3

ITC 2088 INTRODUCTION TO PROGRAMMING - LEVEL 4

Problem solving; problem analysis; top-down design of algorithms; implementation; testing and debugging techniques; documentation. Structured programming language constructs: data types, variables, constants, parameters, input and output, selection, iteration, file handling, arrays, elementary sorting and searching algorithms. Modular programming.

UK CREDITS: 15

US CR: 3/1.5/3

ITC 2101 PRINCIPLES OF WIRELESS, IoT, AND MOBILE NETWORKS - LEVEL 4

Signals in the time and frequency domains. Propagation of radio frequencies. Noise, large-scale path loss, small scale fading and multipath. Modulation techniques for mobile radio. Capacity of wireless channels. Error correction principles and techniques. Multiple access techniques (TDMA, CDMA, OFDM) and interference in wireless networks. Main subsystems of mobile telephony networks. Examples of existing wireless standards including IEEE 802.11 (WiFi), 3G, 4G.

Prerequisites: ITC 2024

UK CREDITS: 15

US CR: 3/0/3

ITC 2110 DIGITAL TOOLS FOR GRAPHIC DESIGN AND PRODUCTION - LEVEL 4

(same as GD 2110)

Examine core concepts and techniques on digital design workflow for print & digital publishing. Basic colour theory and page composition. Identify vector graphics properties and characteristics. Build complex shapes and trace bitmap images and line art. Design using layers and symbols, edit text, and draw using perspective. Develop well-crafted print publications, interactive documents, digital magazines, and e-books. Create and edit documents, learn how to use master pages and easily format text, objects, and tables using styles. Work with text frames and graphics, add and format tables, build interactive documents and EPUBs. Output work in several formats, learn how to package, print, and export the finished project.

Prerequisites: CS 1070 or ITC 1070

UK CREDITS: 15

US CR: 3/0/3

ITC 2186 COMPUTER SYSTEM ARCHITECTURE - LEVEL 4

Computer architecture. Digital circuits and components. Types of data representation. Computer organisations and design. Logic design.

Prerequisites: ITC 1070

UK CREDITS: 15

US CR: 3/0/3

ITC 2193 OPERATING SYSTEMS CONCEPTS - LEVEL 4

Operating system structures; functions and techniques; Performance; avoidance of deadlock and security issues. Management of Operating System resources and processes.

Prerequisites: ITC 1070

UK CREDITS: 15

US CR: 3/0/3

ITC 2197 OBJECT ORIENTED PROGRAMMING TECHNIQUES - LEVEL 4

Object-oriented concepts and problem solving techniques. GUI components; event handling, collections framework and data structures, data persistence, performance and efficiency issues.

Prerequisites: ITC 2088

UK CREDITS: 15

US CR: 3/1.5/3

ITC 2205 SOFTWARE ENGINEERING PRACTICES - LEVEL 4

Software engineering (SE) major methodologies; sw qualities; sw lifecycle; CI/CD; essential tools; GitHub; concepts in project planning; code of ethics and professional practice.

Prerequisites: ITC 2088 ITC 2197

UK CREDITS: 15

US CR: 3/1/3

ITC 2197 or ITC 2053

UK CREDITS: 15

US CR: 3/1.5/3

ITC 3254 COGNITIVE COMPUTING WITH IBM WATSON

(same as CS 3254)

Natural Language Processing with IBM Watson Platform; Business Intelligence; Question answering; Unstructured Information Processing.

Prerequisites: CS 1070 ITC 2088 or CS 2179

US CR: 3/0/3

ITC 3261 VOICE USER INTERFACES - LEVEL 5

User interfaces; voice commands, conversational UI; chatbots; virtual assistants; methods, tools, and design; challenges and testing; case studies; the role of NLP; applications and services.

Prerequisites: ITC 2088 or equivalent

ITC 3051

UK CREDITS: 15

US CR: 3/0/3

ITC 3287 ADVANCED OBJECT ORIENTED AND FUNCTIONAL PROGRAMMING - LEVEL 5

Advanced object-oriented and functional programming concepts; algorithmic and problem-solving techniques; advanced GUI components; event handling; data structures; data persistence; efficiency issues.

ITC 3319 NETWORK ADMINISTRATION - LEVEL 5

Installation and administration concepts. Management, monitoring, and optimization of system performance, reliability, and availability. Design issues and support in a corporate environment. Troubleshooting and end user support.

Prerequisites: ITC 1070 ITC 2193
ITC 2024 or ITC 3175

UK CREDITS: 15

US CR: 3/1.5/3

ITC 3338 EDGE COMPUTING - LEVEL 5

New computing paradigms; fog, edge infrastructures; slicing, management and orchestrations; IoT integration; applications; IIoT; business models; big data analytics in the fog; GDPR restrictions.

Prerequisites: ITC 1070 or ITC 2088
ITC 2024 ITC 2193

UK CREDITS: 15

US CR: 3/0/3

ITC 3431 CRYPTOGRAPHY & NETWORK SECURITY - LEVEL 5

Basic symmetric encryption algorithms; DES, AES; Public key encryption; hash functions; digital signatures; confidentiality issues; authentication and identity management; SSL/TLS; IP security.

Prerequisites: ITC 2024 ITC 2088
MA 2010 or MA 2021 or MA 2025

Corequisite: ITC 3006

UK CREDITS: 15

ITC 4030 HUMAN COMPUTER INTERACTION - LEVEL 6

Foundations of human computer interaction. Interaction design basics. User Experience (UX). HCI in the software process. Cognitive models and theories. Application of concepts and methodologies of software engineering, human factors and psychology to address ergonomic, cognitive, and social factors in the design and evaluation of interactive computer systems.

UK CREDITS: 15

US CR: 3/0/3

ITC 4035 GAME DESIGN - LEVEL 6

Game design process; player's psychology; media definitions; interactive stories; characters; game worlds; game mechanics; balancing attributes; interface types and design issues; aesthetics; UX; game violence and ethical concerns.

UK CREDITS: 15

US CR: 3/0/3

ITC 4056 ENABLING TECHNOLOGIES - LEVEL 6

IoT and industrial IoT (IIoT) architectures; standards; softwarisation and virtualisation technologies; fifth generation (5G) networks; federated learning AI systems; blockchain; edge computing; virtual and augmented. From conception to completion.

UK CREDITS: 15

US CR: 3/0/3

ITC 4057 PROJECT MANAGEMENT - LEVEL 6

See MG 4057.

ITC 4085 INFORMATION TECHNOLOGY INTERNSHIP

Experiential learning for information Technology majors. Students gain on-the-job experience and training as they learn to apply knowledge gained in the classroom to real life professional situations.

Prerequisites: Normally the student will have completed 70 credits before embarking on this module. Formal approval by the Department Head / Program Coordinator / Internship Administrator (as appropriate) is required.

US CR: 0/0/3

ITC 4140 METHODS IN ICT PROJECT RESEARCH AND MANAGEMENT - LEVEL 6

Integrated methods for ICT projects investigation and planning; problem identification; field review; selected investigative techniques; modelling and evaluation techniques; testing strategies; quality considerations. A comprehensive coverage of the procedure required for the development of a thorough ICT capstone project proposal. Components of this procedure include: (a) identification of the problem; (b) background research (c) objectives and impact of the project; (d) project feasibility and risk assessment; (e) analysis; (f) testing and testing strategies, (g) quality considerations; (h) progress planning & management.

ITALIAN (IT)

IT 1000 ITALIAN I

Four basic language skills (listening, speaking, reading and writing) are developed in order to acquire a general basic ability to communicate in a number of the most familiar situations of everyday life and to understand main points of simple conversations and texts, needed mainly for tourism and basic contacts with an Italian environment (CEFR-A1).

US CR: 3/0/3

IT 1101 ITALIAN II

Four language skills (listening, speaking, reading and writing) are reinforced and expanded in order to gain a more effective command of the language and to interact with greater confidence in a wider range of everyday familiar situations. (CEFR-A2)

Prerequisite: IT 1000 **or** equivalent

US CR: 3/0/3

IT 2202 ITALIAN III

Four language skills (listening, speaking, reading and writing) are thoroughly developed so as to handle the main structure of the language with confidence, to use a wide range of vocabulary and appropriate communicative strategies, and to acquire a certain degree of independence when called upon to use the language in everyday social, work or academic contexts. (CEFR-B1)

Prerequisites: IT 1000 IT 1101 **or** equivalent

US CR: 3/0/3

IT 3352 TRAVEL INTO ITALIAN CINEMA

A tour of Italy through a selection of most famous Italian movies. Important aspects of the Italian cinema with reference to essential cultural aspects of Italy are analyzed and discussed. (CEFR-B1)

Prerequisites: IT 1000 IT 1101
IT 2202 **or** equivalent

US CR: 3/0/3

INTERNATIONAL RELATIONS (IR)

IR 2010 INTRODUCTION TO INTERNATIONAL RELATIONS - LEVEL 4

Introduction to the international system and its evolution from the nation-state toward global governance. Major theories and conceptual frameworks, including integration theory. The nation-state, international organizations, conflict and cooperation.

UK CREDITS: 15

US CR: 3/0/3

IR 2015 MODERN EUROPEAN HISTORY AND POLITICS - LEVEL 4

A thematic approach to the history and politics of Europe, from early ideas of Europe to the contemporary European setting. Introducing ideologies as embedded in particular historical developments and laying the foundations for future study of the impacts of wars in Europe, including the European unification process and challenges facing the latter.

UK CREDITS: 15

US CR: 3/0/3

IR 3117 INTERNATIONAL POLITICAL ECONOMY & GLOBAL MARKETS - LEVEL 5

An overview of recent developments in global economics and politics with special reference to emerging economic and political crises, areas of actual and potential political distress and societal disruption, and the ways the latter will potentially impact the future.

Prerequisites: IR 2010

UK CREDITS: 15

US CR: 3/0/3

IR 3120 RESEARCH METHODS IN INTERNATIONAL RELATIONS - LEVEL 5

The role and significance of research in the domain of international relations. Formulation and clarification of research questions and problems, writing literature review, designing research, data collection and analysis, interpretation of findings, argumentation on problem resolution.

Prerequisites: IR 2010

UK CREDITS: 15

US CR: 3/0/3

IR 3225 FOREIGN POLICY - LEVEL 5

A theoretical and empirical study of foreign policy through the ages. Analysis, interpretation and evaluation of foreign policy theories and actions.

Prerequisites: IR 2010 PO 2004

UK CREDITS: 15

US CR: 3/0/3

IR 4041 THE ROLE OF ENERGY IN THE 21ST CENTURY – LEVEL 6

An in-depth examination of several topics about energy and its importance and sustainability in today's emerging international system, focusing on issues such as economics, diplomacy, security, and the environment.

US CR: 3/0/3

UK CREDITS: 15

IR 4042 CONFLICT RESOLUTION & NEGOTIATION IN IR – LEVEL 6

Examination of the complexities of conflict resolution and its significance in the field of International Relations; active engagement with re-enactments and simulations dealing first-hand with crisis management and the negotiation process.

US CR: 3/0/3

UK CREDITS: 15

IR 4070 INTERNSHIP IN INTERNATIONAL RELATIONS

Experiential learning in the field of international relations. Students gain on-the-job experience and receive training as they learn to apply advanced theoretical frameworks gained through the programme to real life professional situations or diplomacy.

Prerequisites: Normally the student will have completed 70 credits before embarking on this module. Formal approval by the Department Head / Programme Coordinator / Internship Administrator (as appropriate) is required.

US CR: 3/0/3

IR 4130 GLOBAL COMMUNICATION AND THE MEDIA IN INTERNATIONAL RELATIONS – LEVEL 6

The role of media and communication in international relations and global politics. Ideas and debates relating to the ways in which media impact government, policy making, election campaigning, political movements, the rise of terrorism, and the prospects for informed political deliberation. Media and conflict, media and securitization, media, power and the truth.

Prerequisites: IR 2010

UK CREDITS: 15

US CR: 3/0/3

IR 4135 INTERNATIONAL LAW - LEVEL 6

Legal regime of International Law and International relations. International Treaties and European law. Non-governmental Organisations and International Law. Nations and International Law. International Human Rights Law. World Trade and International Law. Global Social Justice and International Law. International Law for Environmental Protection. Customary law, acts of International Organizations and conventional law. Examination of second and supplementary sources and case studies.

Prerequisites: IR 2010

UK CREDITS: 15

US CR: 3/0/3

IR 4140 GREECE AND THE WORLD - LEVEL 6

Greece's external relations. Policy orientation, alliances, partnerships and rivalries. Greece's role and influence in the region and beyond.

Prerequisites: IR 2010

UK CREDITS: 15

US CR: 3/0/3

IR 4145 SENIOR THESIS IN INTERNATIONAL RELATIONS AND EUROPEAN AFFAIRS - LEVEL 6

Research and in-depth analysis of European and international relations problems and developments. Systematic and critical study of its key concepts and arguments. Appreciation of the historical context and the impact on contemporary political reality. Special emphasis on the development of skills required for the analysis and presentation of a position.

Prerequisites: IR 3120

Students must have completed 90 credits

IR 4250 ASIA IN WORLD AFFAIRS - LEVEL 6

Current internal and external factors and issues influencing the foreign, defence and security policy of Asian states, including, but not restricted to, Chinese power consolidation and Asian regional integration efforts. The profound implications, for the international order, of the on-going shift of the global economy's centre of gravity to Asia.

Prerequisites: PO 2004 PO 3131

UK CREDITS: 15

US CR: 3/0/3

IR 4255 STRATEGY AND GEOPOLITICS - LEVEL 6

A theoretical and empirical survey of the history and current discourse of strategy and geopolitics. A critical analysis of the role and actions of the main state and non-state actors as seen through the lenses of strategy and geopolitics in a simultaneously globalizing and regionalizing world.

Prerequisites: IR 3225 PO 3131

UK CREDITS: 15

US CR: 3/0/3

IR 4265 EUROPEAN FOREIGN, SECURITY AND DEFENCE POLICIES - LEVEL 6

Current internal and external forces driving European foreign, security and defence policy designs. Key factors involved in shaping the European security environment. The European Union's presence on the international stage as an economic, diplomatic, military and 'soft' power and future perspectives, particularly following Russia's invasion of Ukraine. Examination of the on-going wider policy debates and challenges through a focused analysis of case-studies.

Prerequisites: EC 3232 IR 3225

UK CREDITS: 15

US CR: 3/0/3

JUSTICE STUDIES (JS)

JS 1001 LE INTRODUCTION TO CRIMINAL JUSTICE - LEVEL 4

Overview of the American criminal justice system. Examination of its various phases: investigation and detection of crimes by the police; prosecution of alleged offenders; adjudication of cases by courts; imprisonment of convicted offenders; re-integration. Overview of relevant Amendments to the U.S. Constitution and of landmark U.S. Supreme Court cases.

UK CREDITS: 15

US CR: 3/0/3

JS 2010 LE LAW AND SOCIETY

Definitions, origins, development, functions, systems and perspectives of law; theories on law and justice; overview of the U.S. judicial and legislative system and the legal profession; interaction between law and society; law and (in) equality, diversity, privacy; and human rights.

US CR: 3/0/3

The School of Liberal Arts and Sciences

JS 3015 INTERNATIONAL AND TRANSNATIONAL CRIME AND JUSTICE

Overview of various types of international and transnational crimes. Analysis of their nature, characteristics, causes and consequences, and dimensions. International and regional organizations responsible for law enforcement and cross border cooperation in criminal matters. International legal instruments. Evolution of international and transnational criminal law and justice and current challenges.

US CR: 3/0/3

JS 3024 CORRUPTION AND ANTI-CORRUPTION

History, concepts and definitions of corruption cross culturally; social causes of corruption and consequences; types of corruption; national and international efforts against corruption; ethics and controversial issues; civil society involvement; cases and best practices.

US CR: 3/0/3

JS 3038 CRIMINOLOGY - LEVEL 5

See SO 3038.

EUROPEAN LITERATURE (LI)

LI 2210 LE VOICES IN EUROPEAN LITERATURE & CULTURE

Selection of texts (in English translation) representing a variety of genres and/or authors in modern and contemporary European Literature. Emphasis on the search for what can be defined as European culture, ie aspects of diversity in unity as expressed in dynamics of literature and other cultural representations.

Prerequisites: WP 1010 WP 1111

US CR: 3/0/3

MATHEMATICS (MA)

MA 1000 MATHEMATICS FOR THE LIBERAL ARTS

Designed to give liberal arts students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make quantitatively-based decisions in their lives. Topics include quantitative information in everyday life, financial management, probability, and statistics.

US CR: 3/0/3

MA 1004 INTERMEDIATE ALGEBRA

A course intended to provide a mathematical background in basic algebra techniques. Real numbers. Fractions. Linear equations and inequalities. Lines and systems of linear equations. Exponents and polynomials. Factoring techniques. Quadratic equations. Rational expressions. Rational exponents and radicals.

This course is offered for non-graduation credit

US CR: 3/0/3

The School of Liberal Arts and Sciences

MA 1008 COLLEGE ALGEBRA

Linear, Quadratic, Polynomial, Rational, Exponential and Logarithmic Functions and their Graphs. Asymptotes and Continuity via Limits. Solution of Systems of Linear Equations. Matrices and Matrix Algebra. Determinants. Sequences and Series.

US CR: 3/0/3

MA 2010 STATISTICS I - LEVEL 4

Organizing and summarizing data. Probability distributions: binomial, Poisson, normal, t-distribution, chi-square. Sampling and sampling distribution of the mean. The central limit theorem.

The course is not open to students who has previously completed an MA-course in statistics.

UK CREDITS: 15

US CR: 3/1/3

MA 2021 APPLIED STATISTICS - LEVEL 4

A comprehensive introduction of statistics for business and economics. Descriptive and inferential statistics, regression analysis and analysis of variance (ANOVA).

UK CREDITS: 15

US CR: 3/1/3

MA 2025 APPLIED STATISTICS FOR SCIENCES - LEVEL 4

A comprehensive introduction of statistics for the natural and physical sciences. Organizing and summarizing data. Descriptive and inferential statistics. Test for independence of two qualitative/categorical variables. Test of differences for related/ unrelated samples using parametric or non-parametric tests. Analysis of variance (ANOVA), correlation relationships and linear regression analysis. Consider applications in the sciences using software.

UK CREDITS: 15

US CR: 3/1/3

MA 2105 APPLIED CALCULUS - LEVEL 4

Introduction to calculus and its application to the solution of problems arising in business, economics, and related fields. Differentiation, Marginal analysis, Integration, Optimization, Partial differentiation, Lagrange multipliers.

Prerequisites: MA 1008

UK CREDITS: 15

US CR: 3/1/3

MA 2130 CALCULUS I - LEVEL 4

An introductory course in differential and integral calculus focusing on science and engineering applications. Differentiation and integration methods are applied to solve problems involving rates of change and optimization of one or two variables functions of various forms including polynomial and transcendental functions.

Prerequisites: MA 1008

UK CREDITS: 20

US CR: 3/1.5/4

MA 2240 CALCULUS II

This course is a continuation of Calculus I and provides a further study of integral calculus techniques for univariate functions with applications of the definite integral, including numerical integration, improper integrals, infinite series, parametric equations and curves in polar coordinates.

Prerequisites: MA 1008 MA 2130 or MA 2105

US CR: 3/1.5/4

MA 3323 ELEMENTARY DIFFERENTIAL EQUATIONS

An introduction to methods for solving (ordinary) differential equations with constant or variable coefficients. First order differential equations including linear, exact, and separable equations. Euler's method for approximate solutions. Solutions of higher order linear differential equations using undetermined coefficients, variation of parameters, power series, and the Laplace Transform. Solutions of systems of linear equations, eigenvalues and eigenvectors, with application to a range of modeling-based applications arising in the context of engineering and sciences.

Prerequisites: MA 1008 MA 2130 or MA 2105
MA 2240

US CR: 3/0/3

MA 3345 CALCULUS III

A continuation of Calculus II. This is a study of multivariable calculus including vector-valued functions and the calculus of curves in space, differential calculus of multivariate functions, integral calculus of multivariate functions, spherical and cylindrical coordinates, line and surface integrals.

Prerequisites: MA 1008 MA 2130 MA 2240

US CR: 3/1.5/4

OCEANOGRAPHY (OC)

OC 1000 OCEANOGRAPHY: PHYSICS AND GEOLOGY OF THE OCEAN BASINS

Principles of oceanography with emphasis on geological and physical processes: history of oceanography as a modern scientific field, the formation of Earth and the solar system, ocean floor topography, continental drifting, plate tectonics, sediments, atmospheric processes, ocean currents, waves and tides.

US CR: 3/1½/4

OC 1001 LIFE IN THE OCEANS

Principles of chemical and biological oceanography with emphasis on chemical and biological processes, the properties and origin of water and salts, major constituents, dissolved gases and nutrients, the carbon dioxide system, coastal processes, the biological productivity of the oceans, ecology, distribution and classification of marine organisms, ocean resources and ocean pollution.

US CR: 3/1½/4

PHILOSOPHY (PH)

PH 1000 LE INTRODUCTION TO PHILOSOPHY - LEVEL 4

Overview of the most influential philosophical answers to 'big' questions about reality, knowledge and ourselves. An introduction to philosophical ways of thinking.

UK CREDITS: 15

US CR: 3/0/3

PH 1001 CRITICAL THINKING – LEVEL 4

Introduction to reasoning with an emphasis on critical thinking. Training in the application of practical decision-making in various domains, such as politics, law, management, science, media and everyday life issues.

UK CREDITS: 15

US CR: 3/0/3

PH 2003 PHILOSOPHY OF TECHNOLOGY IN THE INFORMATION ERA – LEVEL 4

An introduction to philosophical thinking about technology. Issues reviewed include, but are not limited to, minds, machines, and artificial intelligence; contemporary ethical problems in technology; virtual reality; and the online experience. The course is of interest to all students wanting to expand their thinking on, and understanding of, technology.

UK CREDITS: 15

US CR: 3/0/3

PH 2014 LE AESTHETICS - LEVEL 4

An introduction to the philosophy of art and aesthetic appreciation. Overview of theories based on key concepts such as representation, form, artistic expression and creativity, aesthetic experience. Contemporary discussion of the definition and criticism of art, traditional and new arts, artistic institutions and cultural politics.

UK CREDITS : 15

US CR: 3/0/3

PH 2016 PHILOSOPHY AND CINEMA - LEVEL 4

Introduction to philosophical perspectives about cinema and the cinematic experience. Overview of key philosophical ideas on the nature of cinema as art and entertainment, the role of emotion in our film experiences, and the ways in which films engage with philosophical ideas and arguments.

UK CREDITS: 15

US CR: 3/0/3

PH 2020 GREEK PHILOSOPHY - LEVEL 4

At the birth of philosophy, the Presocratic thinkers form our conception of nature, knowledge and man. Examination of their influence on science and philosophy. Comparative study of the views of Socrates and those of the Sophists. Thematic review of ancient Greek thought from Plato's early dialogues, to Neoplatonism.

UK CREDITS: 15

US CR: 3/0/3

PH 2029 PHILOSOPHY OF HUMAN NATURE – LEVEL 4

Examination of the conceptual framework wherein various accounts of "human nature". Philosophical figures to be discussed include: Plato, Thucydides, Aristotle, Augustine, Rousseau, Hobbes, Spinoza, Kant, Hegel, Marx, Nietzsche, Gehlen, Plessner, Lukacs, Landmann, Radin, C.L. Strauss, Heller, Scheler, Sartre, Schmitt, Foucault, Koselleck, Kondylis.

UK CREDITS: 15

US CREDITS: 3/0/3

PH 3005 LE BUSINESS ETHICS - LEVEL 5

Introduction to major theories and basic moral problems in the domain of business. The use of reasoning in moral assessment of business practices. Application of moral theories to specific cases of corporate conduct ranging from the individual to society in general, in the local and the international context.

UK CREDITS : 15

US CR: 3/0/3

PH 3009 EVOLUTION AND REVOLUTION: NIETZSCHE, FREUD, MARX, DARWIN – LEVEL 5

The Examining the main themes of Nietzsche, Freud, Marx and Darwin, whose work played a decisive role in the formation of contemporary philosophical thought, science and art. Comparative study and critical assessment of their main ideas and influence Nietzsche's account of the primacy of art, genealogy and theory of power, Marx's central concept of ideology, Freud's theory of the unconscious, Darwin's natural selection.

UK CREDITS : 15

US CR: 3/0/3

PH 3010 LE ETHICS - LEVEL 5

Introduction to the basic problems and theories of moral philosophy. The use of reasoning in moral assessment of actions and persons. Emphasis on the connection between theory and practice by application of theories to issues that matter.

UK CREDITS : 15

US CR: 3/0/3

PH 3022 SOCIAL AND POLITICAL PHILOSOPHY - LEVEL 5

A systematic introduction to major issues in social and political thought: the origin and nature of political authority, individual freedom and the limits of state intervention, content and ground of individual rights, gender and sexuality, global justice. Emphasis on original texts in the modern Western tradition.

UK CREDITS: 15

US CR: 3/0/3

PH 3023 AMERICAN PHILOSOPHY - LEVEL 5

At the end of the nineteenth century the theory of Pragmatism emerges and puts American philosophy on the map. Examination of its major representatives such as Pierce, James and Dewey. Discussion of contemporary trends in American philosophy as presented in Quine and Rorty. Understanding the factors that shape the American mind and culture.

UK CREDITS: 15

US CR: 3/0/3

PH 3026 EXISTENTIALISM - LEVEL 5

Late nineteenth to twentieth-century movement with an emphasis on the concept of existence as presented in its major representatives such as Kierkegaard, Nietzsche, Heidegger, Sartre, De Beauvoir. Comparative study of literary and philosophical sources: Dostoyevsky, Tolstoy, Kafka, Camus and others.

UK CREDITS: 15

US CR: 3/0/3

PH 3027 THE RISE OF MODERN PHILOSOPHY – LEVEL 5

The earlier part of the formative period of modern Western philosophy (seventeenth and eighteenth centuries) studied through the works of Descartes, Locke, Spinoza, Leibniz, Berkeley, Hume, and others.

UK CREDITS: 15

US CR: 3/0/3

PH 3034 SCIENCE AND ITS METHODS: A PHILOSOPHICAL EXPLORATION – LEVEL 5

A philosophical exploration of scientific methodology through actual cases in the history of science focusing on issues like the nature of scientific theories, the relation of evidence to hypothesis, the issue of theory choice and the universality of the scientific method.

UK CREDITS: 15

US CREDITS: 3/0/3

PH 3036 LE PRIVACY, POLICY, LAW AND TECHNOLOGY - LEVEL 5

See ITC 3036.

PH 3037 MASTER-SLAVE DIALECTIC: FROM ANCIENT TIMES TO THE PRESENT – LEVEL 5

Introduction to the intersubjective nature of recognition emerging from the struggle of negotiation of identities between subjects of unequal power. Regulations for validated awards of the Open University for institutions offering Dual awards

The ***Regulations for validated awards of the Open University for institutions offering Dual awards*** document is an integral part of "The American College of Greece Undergraduate Catalog and Student Handbook" and is located at <http://www.acg.edu/programs>.

In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programs it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programs, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programs. Deree - ACG strives to eliminate unfair bias and stereotyping in the institution.

Academic Calendar

Weekly Schedule, Class Periods, Blended (BL) and Online Courses (OL)

The Academic Calendar is issued each academic year by the registrar, please visit the College website for the most updated calendar.

Instruction time (not including any breaks) for each three US credit hour course (15 UK credits) is 150 minutes per week. For each laboratory session carrying one US credit (5 UK credits), the instruction time is 75 minutes. Laboratory sessions are scheduled Monday, Wednesday, or Friday for one-and-a-half class periods, or Tuesday or Thursday for a full class period.

The College occasionally offers courses via distance learning modes, either as blended or online. Such courses are designated on the course schedule with the section notation of BL for blended or OL for online.

Blended courses are defined as being 35% to 50% online and the rest in scheduled campus face-to-face classrooms. Major examinations for blended courses also take place face-to-face.

Online courses meet exclusively online, except for any summative assessments or examinations, which will take place face-to-face on campus.

Students enrolling in blended or online courses are required to enroll in an induction or introductory seminar free of charge.

** Blended Learning (BL) and Online Courses (OL) are not available to students on US Federal Financial Aid.*

Upon completion of Levels 4 and 5 students should have acquired a deeper understanding of concepts in art after modernism, some knowledge in video art and further competencies in studio practice.

In addition to the Learning Outcomes acquired in Level 4, upon completion of Level 5 students will be able to demonstrate a **deeper knowledge and understanding of**:

- The technological societal, historical and cultural contexts that influence the creation of new art forms (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research)
- The core innovations in the art of the 20th and 21st centuries and the artists involved (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research)
- Evolving ways of art thinking and how this may be applied in a range of contexts (AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).
- The technical foundations of art across a number of art disciplines. (AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).

In addition, they will have the following **cognitive skills**:

- Formulate a language for the critical examination of art and for the development of visual literacy (AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).
- Articulate ideas and navigate through arguments by discussing theoretical texts and by participating in art critiques (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).
- Contribute to the creation and production of group works through collaborative techniques and working methods (AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3019 Video Art, AR 3035 Art Research).
- Demonstrate ability to articulate personal artistic concepts and apply them in a medium appropriate to the concept, though the use of painting, drawing, sculpture, installations, happenings, performances and audio/visual media (AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).

Furthermore, they will have the following **practical/professional and transferable skills**:

- Pursue an artistic idea from conception, research, to final execution on the 2D, 3D, or 4D fields, or through interdisciplinary methods. (AR 3104 Drawing II, AR 3106 Color II AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).
- Utilize appropriate materials, media, techniques, methods, technologies and tools and develop competence with them for the production of artworks and portfolios. (AR 3104 Drawing II, AR 3106 Color II AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research).
- Acquire knowledge to develop and maintain a professional practice in the arts. (AR 3035 Art Research)
- Utilize information technology skills such as word processing and the ability to access electronic data (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research)
- Communicate effectively and persuasively in visual, oral and written forms with people from a wide range of backgrounds using their views, along with your own, in the development or enhancement of work (AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3019 Video Art, AR 3035 Art Research)

II.b. Bachelor of Arts Ordinary in Visual Arts

Upon completion of 300 credits (20 15-credit modules), of which a minimum of 60 should be at Level 6 with the remainder comprising 120 credits at Level 4 and 120 at Level 5, students will have acquired more focused skills in studio art, skills in working with groups through collaborations, and skills in communicating effectively through art projects.

In addition to the Learning Outcomes acquired in Levels 4 and 5, upon completion of 60 credits in Level 6 students will be able to demonstrate a **deeper knowledge and understanding of**:

- The technological societal, historical and cultural contexts that influence the creation of new art forms (AR 4002 Medium and Display, AR 4226 Sculpture III, AR 4130 Contemporary Painting, AR 4233 Contemporary Drawing, AR 4040 Issues in Contemporary Art, MU 4043 Experimental Sound Art)
- The core innovations in the art of the 20th and 21st centuries and the artists involved (AR 4002 Medium and Display, AR 4226 Sculpture III, AR 4130 Contemporary Painting, AR 4233 Contemporary Drawing, AR 4040 Issues in Contemporary Art, MU 4043 Experimental Sound Art).

BIOMEDICAL SCIENCES EXIT AWARDS ‡

I. Certificate of Higher Education in Biomedical Sciences

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Biomedical Sciences will have a sound knowledge of the basic concepts of Biomedical Sciences and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits) in BMS, students will be able to have mastered skills in the following areas:

Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field. (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health. (partially achieved at BI 1000 LE, BI 1101 LE)
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as of the role and limitations of science (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130).

Students acquire the knowledge and skills necessary for further progression in the field-for example, into the second year of a BSc (Hons) programme in Biomedical Sciences.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

Cognitive Skills

Students will be able to:

- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000 LE, BI 1101 LE).
- Use and analyze data and information concerning biomedical and health issues (partially achieved at BI 1000 LE, BI 1101 LE).

Practical and Professional Skills

Students will be able to:

- Plan and conduct practical or practice-based tasks related to biomedical and health sciences in a safe and ethical manner and use appropriate laboratory equipment competently and safely (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225, MA 2130).

Key/Transferable Skills

Students will be able to:

- Locate, record, process and analyze data and information from a variety of sources, using appropriate qualitative and quantitative methods, including the use of statistics, spreadsheets and programs for presenting data visually (CH 1002, CH 2115, PY 2225, MA 2130).
- Collaborate as a member of a team and demonstrate that essential skill in personal and professional development (partially achieved at BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Biomedical Sciences and the ordinary (non-Honours) degree in Biomedical Sciences

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the field of Biomedical Sciences, as well as being in a position to evaluate the applicability of those theories in resolving particular problems or issues in these fields.

II.a. Diploma of Higher Education in Biomedical Sciences

Upon completion of level 4 (120 credits) and level 5 (130 credits) total 250 credits in BMS, students can be awarded a Diploma of Higher Education in Biomedical Sciences and should be able to have mastered skills in the following areas:

Non-Honours degrees are awarded to students who have demonstrated:

Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field. (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3220 OCH, CH 3325 OBCH, CH 3330 OBCH Lab).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health. (BI 1000, BI 1101, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID, CH 3325 OBCH, CH 3330 OBCH Lab) and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425).
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as of the role and limitations of science (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBCH Lab, BI 3240 HAP)
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130).

Students acquire the knowledge and skills necessary for further progression in the field-for example, into the second year of a BSc (Hons) programme in Biomedical Sciences.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

Cognitive Skills

Students will be able to:

- Use and correctly apply knowledge and understanding of biomedical concepts, principles and theories to problem solving (CH 3220 OCH, CH 3330 OBCH, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3232, BI 3204, BI 3215).
- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000, BI 1101, CH 3220 OCH, CH 3325 OBCH, BI 3235 CMB, BI 3240 HAP and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425).
- Use and analyze data and information concerning biomedical and health issues and critically evaluate their reliability, validity and significance (CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Synthesize and integrate several lines of subject-specific evidence towards a given purpose (CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

Practical and Professional Skills

Students will be able to:

- Plan and conduct practical or practice-based tasks related to biomedical and health sciences in a safe and ethical manner, and use appropriate laboratory equipment competently and safely (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP).
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000, BI 1101, CH 1002, CH 2115, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP).
- Use writing and reporting skills related to biomedical scientific literature with appropriate referencing, as well as plan, conduct and present an independent project (CH 3225 OBCH, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

Key/Transferable Skills

Students will be able to:

- Locate, record, process and analyze data and information from a variety of sources, using appropriate qualitative and quantitative methods, including the use of statistics, spreadsheets and programs for presenting data visually (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Communicate scientific information accurately and effectively in written, oral, visual and numerical formats in a style that suits the purpose and the audience, as well as produce detailed and coherent project reports (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Collaborate as a member of a team and demonstrate that essential skill in personal and professional development (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3325 OBCH Lab, BI 3235 CMB, BI 3240 HAP, and BI 3204).

II.b. BSc in Biomedical Sciences

Upon completion of level 4 (120 credits), level 5 (130 credits) and level 6 (60 credits) total 310 credits in BMS, students can be awarded a BSc in Biomedical Sciences and should be able to have mastered skills in the following areas:

Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field. (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3220 OCH, CH 3325 OBCH, CH 3330 OBCH Lab).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health (BI 1000, BI 1101, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID, CH 3325 OBCH, CH 3330 OBCH Lab) and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425; also BMS 4415 EBD or BMS 4410 A&I).
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as of the role and limitations of science (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBCH Lab, BI 3240 HAP, BMS 4545 R M&ICTs_BMS, BMS 4330 HIS&T).
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130, BMS 4330 R M&ICTs_BMS and BMS 4330 HIS&T).
- specializations within the biomedical sciences; the three (15cr) BMS 44XX modules ie BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD

Students acquire the knowledge and skills necessary for further progression in the field-, into the final year of a BSc (Hons) programme in Biomedical Sciences. They need to take the Research Methods in Biomedical Sciences and the three required BMS 44XX level 6 ie BMS BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD modules.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

Cognitive Skills

Students will be able to:

- Use and correctly apply knowledge and understanding of biomedical concepts, principles and theories to problem solving (CH 3220 OCH, CH 3330 OBCH, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3232, BI 3204, BI 3215; also, BMS 4545 R M&ICTs and BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000, BI 1101, CH 3220 OCH, CH 3325 OBCH, BI 3235 CMB, BI 3240 HAP and one of the following courses: BI 3232, BI 3204, BI 3215, BI 3424; also, BMS 4545 R M&ICTs_BMS, BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Use and analyze data and information concerning biomedical and health issues and critically evaluate their reliability, validity and significance (CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Synthesize and integrate several lines of subject-specific evidence towards a given purpose (CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

Practical and Professional Skills

Students will be able to:

- Plan and conduct practical or practice-based tasks related to biomedical and health sciences in a safe and ethical manner, and use appropriate laboratory equipment competently and safely (BI 1000, BI 1101,

CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP and BMS 4545 R M&ICTs_BMS).

- Conduct basic or clinical research in a responsible, safe and ethical manner, considering risk assessment, as well as health and safety regulations. (BMS 4545 R M&ICTs_BMS and BMS 4010 I&A)
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000, BI 1101, CH 1002, CH 2115, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP and BMS 4545 R M&ICTs_BMS).
- Use writing and reporting skills related to biomedical scientific literature with appropriate referencing, as well as plan, conduct and present an independent project (CH 3225 OBCH, BMS 3220 MID and one of the following courses: BI 3204, BI 3215, BI 3425; also, BMS 4545 R M&ICTs_BMS, and).

Key/Transferable Skills

Students will be able to:

- Locate, record, process and analyze data and information from a variety of sources, using appropriate qualitative and quantitative methods, including the use of statistics, spreadsheets and programs for presenting data visually (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following courses: BI 3204, BI 3215, BI 3425; also BMS 4545 R M&ICTs_BMS, BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Communicate scientific information accurately and effectively in written, oral, visual and numerical formats in a style that suits the purpose and the audience, as well as produce detailed and coherent project reports (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3325 OBCH, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following courses: BI 3204, BI 3215, BI 3425; also BMS 4545 R M&ICTs_BMS, BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Collaborate as a member of a team and demonstrate that essential skill in personal and professional development (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBCH Lab, BI 3235 CMB, BI 3240 HAP, BI 3204, BMS 4545 R M&ICTs_BMS, BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).

CINEMA STUDIES EXIT AWARDS ‡

I. Certificate of Higher Education in Cinema Studies

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Cinema Studies will have sound knowledge of the basic concepts relevant to the study of cinema as a medium and institution. They will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits) in Cinema Studies, students will be able to have mastered skills in the following areas:

Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

CYBERSECURITY AND NETWORKS EXIT AWARDS ‡

I. Certificate of Higher Education in Cybersecurity and Networks

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Cybersecurity and Networks will have sound knowledge of the basic concepts of Cybersecurity and Networks, and will have learned how to take different approaches to solving problems. The student will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits), students will have acquired the **knowledge and understanding** necessary for further progression in the field – for example, into the second year of a BSc (Hons) programme in Cybersecurity and Networks, and will be eligible for the **Certificate of Higher Education in Cybersecurity and Networks**. In specific, students will be able to:

- demonstrate knowledge and understanding of current cybersecurity and networking technologies (ITC 2024, ITC 2101)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to cybersecurity approaches and professional practice (ITC 2024, ITC 2101, CS 2179)
- demonstrate knowledge of networking and cybersecurity industry standards (ITC 2024, ITC 2101)
- demonstrate knowledge of theory and tools relevant to ethical hacking, penetration testing, and digital forensics methodologies (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193)
- demonstrate knowledge of emergent networking and cybersecurity technologies (ITC 2024, ITC 2101)

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology in the context of cybersecurity (ITC 2024, CS 2179)
- apply appropriate design and problem-solving techniques within the cybersecurity domain (ITC 2024, ITC 2101)

Practical and professional skills

- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on networking and cybersecurity subjects (ITC 2024, ITC 2101)
- use design, production, and programming tools relevant to cybersecurity in associated areas (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193)
- structure and write reports on various aspects of networking and cybersecurity domains (ITC 2024, ITC 2101)

Key/transferable skills

- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, PS 1001)
- demonstrate ability to work effectively as part of a group (ITC 2101, ITC 2197)
- demonstrate ability to learn independently and reflect on one's own learning needs and achievements (ITC 2101, ITC 2197)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Cybersecurity and Networks, and the ordinary (non-Honours) degree in Cybersecurity and Networks.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the fields of Cybersecurity and Networks, and will be in a position to evaluate the applicability of relevant theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate international relations theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in Cybersecurity and Networks.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate cybersecurity issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the Cybersecurity and Networks studies.

And will have:

- Qualities and transferable skills necessary for employment in terms of communication and decision-making

II a. Diploma of Higher Education in Cybersecurity and Networks

Upon completion of levels 4 and 5 (total of 240 credits), students will have acquired the **knowledge and understanding** necessary for further progression in the field – for example, into the final year of a BSc (Hons) programme in Cybersecurity and Networks, and will be eligible for the **Certificate of Higher Education in Cybersecurity and Networks**. In specific, students will be able to:

- demonstrate knowledge and understanding of current cybersecurity and networking technologies (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to cybersecurity approaches and professional practice (ITC 2024, ITC 2101, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3632)
- demonstrate knowledge of networking and cybersecurity industry standards (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- demonstrate knowledge of theory and tools relevant to ethical hacking, penetration testing, and digital forensics methodologies (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 3431, ITC 3632, ITC 3160, ITC 3006)
- demonstrate knowledge of emergent networking and cybersecurity technologies (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632)

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology in the context of cybersecurity (ITC 2024, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3431, ITC 3632)
- apply appropriate design and problem-solving techniques within the cybersecurity domain (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- critically assess the cybersecurity resilience of an organization and design cybersecurity policy based on current standards (ITC 3121, ITC 3319, ITC 3431, ITC 3632)

Practical and professional skills

- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on networking and cybersecurity subjects (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- use design, production, and programming tools relevant to cybersecurity in associated areas (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3006, ITC 3160)
- structure and write reports on various aspects of networking and cybersecurity domains (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- structure and write in-depth technical reports detailing the concept, design and development of a product or policy relevant to cybersecurity and networking (ITC 3632)
- model security solutions for wireline and wireless networks (ITC 3121, ITC 3319, ITC 3431, ITC 3632)

Key/transferable skills

- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, PS 1001, PH 3005 or PH 3010, ITC/PH 3036, ITC 3121, ITC 3160, ITC 3319, ITC 3431, ITC 3632)
- demonstrate ability to work effectively as part of a group (ITC 2101, ITC 2197, ITC 3121, ITC 3160, ITC 3319, ITC 3431, ITC 3632)
- demonstrate ability to learn independently and reflect on one's own learning needs and achievements (ITC 2101, ITC 2197, PH 3005 or PH 3010, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- demonstrate problem-solving skills and reflect on the process of development of a product in the networking and cybersecurity industry (PH 3005 or PH 3010, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632)

II b.BSc in Cybersecurity and Networks

Upon completion of 300 credits (20 15-credit modules), students will be eligible for the BSc in Cybersecurity and Networks. Students will demonstrate competent knowledge and critical understanding of:

- current cybersecurity and networking technologies (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4344, ITC 4446, ITC 4426, ITC 4447, ITC 4648)
- the ethical, legal, and policy issues related to cybersecurity approaches and professional practice (ITC 2024, ITC 2101, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3632, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4140)
- networking and cybersecurity industry standards (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4140)

- theory and tools relevant to ethical hacking, penetration testing, and digital forensics methodologies (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 3431, ITC 3632, ITC 3160, ITC 3006, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4214)
- emergent networking and cybersecurity technologies (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4140, ITC 4426, ITC 4949)

In addition, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology in the context of cybersecurity (ITC 2024, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3431, ITC 3632, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4140, ITC 4949)
- apply appropriate design and problem-solving techniques within the cybersecurity domain (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4344, ITC 4446, ITC 4447, ITC 4426, ITC 4648, ITC 4140, ITC 4949)

ENGLISH AND AMERICAN LITERATURE EXIT AWARDS ‡

I. Certificate of Higher Education (CertHE) in English and American Literature

Students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in English and American Literature.

Note: Students must complete the required L4 courses: EN 2113, EN 2216, EN 2220, EN 2222, EN 2263.

Students will have a broad knowledge of: 1) the character and conventions of principal literary genres; 2) the ties of literature and language; 3) various functions of language including social and cultural.

Upon completion of eight Level 4 modules (120 credits or eight 15-credit modules), students will be able to:

- demonstrate basic knowledge and understanding of a number of authors and texts, both English and American (EN 2220, EN 2222, EN 2263, EN 2218)
- interpret texts through close reading (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- demonstrate basic knowledge and understanding of the cultural contexts within which texts are produced and interpreted (EN 2220, EN 2222, EN 2263, EN 2218)
- demonstrate basic knowledge of the various functions of language (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Think logically and make reasonable judgments based on and supported by evidence (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Understand the significance of actions/behaviours within cultural contexts (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

- Work effectively independently or in groups (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Utilize information technology skills and the ability to access electronic data (EN 2113, EN 2216, EN 2220, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Plan and write essays that make use of bibliographic skills appropriate to the discipline (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

II.a Diploma of Higher Education (DipHE) in English and American Literature

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in English and American Literature. For both Level 4 and Level 5, students must complete the required courses.

Students will have adequate knowledge to: 1) generate ideas through the analysis of concepts at an abstract level; 2) analyse and evaluate texts as well as make use of literary resources in the discipline.

Upon completion of Level 4 and 5 modules (120 credits at each level), students will be able to:

- demonstrate knowledge and understanding of a number of authors and texts from different periods of literary history, both English and American (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- interpret through close reading a variety of texts, literary and theoretical (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- demonstrate adequate knowledge of the various concepts and principles which govern language, literature and scholarship (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- employ research methods relevant to the discipline to retrieve information (EN 3405)
- demonstrate adequate knowledge and understanding of the theoretical and cultural contexts within which texts are produced and interpreted (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Provide interpretations of texts that are theoretically informed (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Think logically and make reasonable judgments based on and supported by evidence (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Work effectively independently or in groups (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

- Utilize information technology skills and the ability to access electronic data (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Collect, organize and evaluate a variety of print and electronic sources for research (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Plan and write essays and research papers that make use of critical reading and bibliographic skills appropriate to the discipline (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

II.b. Bachelor's – BA(Ord) – in English and American Literature

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor's – BA(Ord) – in English and American Literature. The two L6 courses required are EN 4660 *Criticism: Theory and Practice* and EN 4754 *Selected Topics in Literature*; plus, any two of the following five modules: EN 4428 *English Romanticism*; EN 4429 *Victorian World*; EN 4430 *British Modernism*; EN 4453 *Shakespeare: The Great Tragedies*; EN 4472 *American Modernism*.

Students will be able to critically: 1) evaluate concepts and evidence from a range of sources; 2) demonstrate knowledge across an area of study that contributes to a better understanding and appreciation of the cultural contexts in which literary works come into being.

Specifically, students will be able to:

- demonstrate good knowledge and understanding of a substantial number of authors and texts from different periods of literary history, both English and American, as well as theoretical and cultural contexts within which texts are produced and interpreted (EN 4660, EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- employ research methods relevant to the discipline (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- evaluate and use in a scholarly manner primary and secondary sources in research projects (EN 4660, EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- demonstrate good knowledge and understanding of key theoretical perspectives as applied onto literary analysis (EN 4660, EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources and theoretical writing (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Provide interpretations of texts that are theoretically informed (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Think logically and make reasonable judgments to be tested by evidence (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Work effectively independently or in groups (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Utilize information technology skills and the ability to access electronic data (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Collect and evaluate a variety of research sources (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Plan and write essays and research projects that make use of critical reading and bibliographic skills appropriate to the discipline (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)

ENGLISH LITERATURE WITH LINGUISTICS EXIT AWARDS ‡

I. Certificate of Higher Education (CertHE) in English Literature with Linguistics

Students that exit the programme upon completion at Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in English Literature with Linguistics.

Note: Students must complete the required L4 courses: EN 2113, EN 2216, EN 2220, EN 2222, EN 2263.

Students will have: 1) the ability to employ a range of skills to evaluate information and develop strategies to determine solutions to a variety of problems; 2) the basic knowledge of various functions of language including social and cultural; 3) a broad knowledge of the ties of literature and language.

Upon completion of eight Level 4 modules (120 credits or eight 15-credit modules), students will be able to demonstrate:

- basic knowledge of the underlying concepts and principles associated with the study of language (EN 2113, EN 2216, EN 2103, EN 2102)
- basic knowledge and understanding of a number of authors and texts, both English and American (EN 2220, EN 2222, EN 2263)
- basic knowledge of the various functions of language (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)
- an ability to evaluate the appropriateness of different approaches to solving problems related to the study of language; (EN 2216, EN 2113, EN 2103, EN 2102)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts (EN 2216, EN 2220, EN 2222, EN 2263)
- Provide interpretations of texts and/or analysis of linguistic data that are theoretically informed (EN 2113, EN 2216, EN 2102, EN 2103)
- Think logically and make reasonable judgments/hypotheses to be tested by evidence (EN 2102, EN 2103, EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)

- Understand the significance of actions/behaviours within cultural contexts (EN 2216, EN 2220, EN 2222, EN 2263,

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 2102, EN 2103, EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)
- Work effectively independently or in groups (EN 2113, EN 2102, EN 2103, EN 2216, EN 2220, EN 2222, EN 2263)
- Utilize information technology skills and the ability to access electronic data (EN 2102, EN 2103, EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)
- Plan and write essays that make use of bibliographic skills appropriate to the discipline (EN 2216, EN 2220, EN 2222, EN 2263)

II.a. Diploma of Higher Education (DipHE) in English Literature with Linguistics

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in English Literature with Linguistics. For both Level 4 and Level 5, students must complete the required modules.

Students will have adequate knowledge to 1) generate ideas through the analysis of concepts at an abstract level; 2) analyse and evaluate information as well as make use of literary resources in the discipline; 3) exercise significant judgment across a broad range of functions of language.

Upon completion of Level 4 and 5 modules (120 credits at each level), students will:

- have adequate knowledge of linguistic theory and how to take different approaches to solving problems (EN 3373, EN 3304, EN 3306, EN 3365, EN 3362, EN 3317)
- demonstrate adequate knowledge of the various concepts and principles which govern language, literature and scholarship (EN 3321, EN 3323, EN 3405, EN 3304, EN 3373, EN 3304, EN 3365, EN 3317)
- be able to undertake some analysis of data (EN 3304, EN 3365, EN 3373, EN 3362)
- employ research methods relevant to the discipline to retrieve information (EN 3405, EN 3373)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources (EN 3321, EN 3323, EN 3405, EN 3373, EN 3304, EN 3365, EN 3317, EN 3362, EN 3405)
- Provide interpretations of texts and/or analysis of linguistic data that are theoretically informed (EN 3304, EN 3306, EN 3317, EN 3365, EN 3362, EN 3373, EN 3321, EN 3323, EN 3405)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 3321, EN 3323, EN 3304, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Think logically and make reasonable judgments/hypotheses to be tested by evidence (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Work effectively independently or in groups (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373)
- Utilize information technology skills and the ability to access electronic data (EN 3321, EN 3323, EN 3304, EN

3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405]

- Collect, organize and evaluate a variety of print and electronic sources for research (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Plan and write essays and research papers that make use of critical reading and bibliographic skills appropriate to the discipline (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)

II.b. BA Ordinary BA(Ord) in English Literature with Linguistics

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor's – BA(Ord) – in English Literature with Linguistics. The two L6 courses required are EN 4660 *Criticism: Theory and Practice* and EN 4975 *Selected Topics in Linguistics*; plus, any 2 of the following 3 optional modules: EN 4437 *Fundamentals of Language Teaching and Practicum*; EN 4439 *Discourse Analysis*; EN 4459 *Psycholinguistics*.

Students will be able to critically: 1) evaluate concepts and evidence from a range of sources; 2) demonstrate knowledge across an area of study that contributes to a better understanding of an area of linguistics.

Specifically, students will be able to:

- employ research methods relevant to the discipline (EN 4660, EN 4975, EN 4439, EN 4459)
- evaluate and use in a scholarly manner primary and secondary sources in research projects (EN 4660, EN 4975, EN 4437, EN 4439, EN 4459)
- demonstrate good ability to carry out analysis of data (EN 4975, EN 4439, EN 4459)
- demonstrate good knowledge and understanding of key theoretical perspectives as applied onto analysis (EN 4660, EN 4975, EN 4439, EN 4459)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources and theoretical writing (EN 4660, EN 4975, EN 4439, EN 4459)

ENVIRONMENTAL STUDIES EXIT AWARDS ‡

I. Certificate of Higher Education in Environmental Studies

In accordance with the Framework for Higher Education Qualifications (FHEQ), the holder of a Certificate of Higher Education in Environmental Studies will have a sound knowledge of the basic concepts of Environmental Studies and will have learned how to take different approaches for solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

In accordance with FHEQ, Certificates of Higher Education in Environmental Studies are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with Environmental Studies, and an ability to evaluate and interpret these within the context of that area of study;
- an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of their subject(s) of study.

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to Environmental Studies;
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- undertake further training and develop new skills within a structured and managed environment;

and will have:

- qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Specifically, holders of the Certificate of Higher Education in Environmental Studies of ACG-Deree (120 credits or six 20-credit modules) will be able to demonstrate knowledge and understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules: ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology)
- the social, economic, political, health and ecological implications of human interactions with the environment. (ES 1000, ES 1010)
- the need for an interdisciplinary approach in addressing environmental problems (ES 1000, ES 1010)
- the concepts and dimensions of sustainability and sustainable development (ES 1000, ES 1010)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to collect, process, interpret and communicate data and information on environmental issues and related topics
- They will be able to describe and record materials in the field and laboratory, to interpret practical results in a logical manner and to use appropriate laboratory and field equipment competently and safely
- They will be able to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate.

These skills are attained through all L4 modules (ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Environmental Studies and the ordinary (non-Honours) degree in Environmental Studies.

In accordance with the Framework for Higher Education Qualifications (FHEQ), holders of qualifications at this level will have developed a sound understanding of the principles in Environmental Studies and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

In accordance with FHEQ, non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of Environmental Studies, and of the way in which those principles have developed;
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- knowledge of the main methods of enquiry in their subject(s), and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study;
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;

- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

and will have:

- qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Environmental Studies

Holders of the Diploma of Higher Education in Environmental Studies of ACG-Deree (245 credits or seven 20 credit- and seven 15 credit-modules) will be able to demonstrate detailed knowledge and critical understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules and L5 modules ES/CH 3241 Environmental Chemistry, ES 3232 Climate Change)
- the role of social sciences in analysing and addressing environmental problems and of the social, economic, political, health and ecological implications of human interactions with the environment (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, BI 3215)
- human responses to environmental problems such as the development of environmental policy and law and environmental management, as well as of the importance of temporal and spatial scales in considering the environmental impact of human decisions in different environmental studies fields (ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241, ES 3232)
- the concepts and dimensions of sustainability and sustainable development and of some of their applications in addressing environmental issues in an integrated manner (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, ES 3232)
- basic tools in mathematics and statistics, as well as of quantitative techniques and data processing methods including GIS techniques (ES 3340 Integrated Methods in Environmental Analysis I, GG 3115)

In addition, they will have the following cognitive skills:

- ability to recognize the moral and ethical issues of investigations, appreciate the need for professional codes of conduct and undertake a reasoned moral assessment of actions/persons/business practices (SO/ES 3002, ES 3232 Integrated Methods in Environmental Analysis I, ES 3220)
- ability to collect and analyse data and information on environmental issues using a range of techniques appropriate to the subject (all L4 and L5 modules to some extent)
- ability to critically evaluate the reliability and significance of data and information collected and the evidence provided to support conclusions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES 3232, ES/CH 3241, BI 3215)
- ability to categorize ideas, data and information, reformat and transform them towards a given purpose and propose solutions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215)

the following practical/professional skills:

- ability to describe and record materials in the field and laboratory and to interpret practical results in a logical manner (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)
- ability to use appropriate laboratory and field equipment competently and safely (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)

- ability to select and apply a limited range of methods, including spatial techniques, to study and solve environmental problems (ES 3340 Integrated Methods in Environmental Analysis I, GG 3115)
- ability to plan, conduct and present an independent project effectively and appropriately with reliance on guidance, to relate investigations to prior work and to reference appropriately (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215)

and the following key/transferable skills:

- ability to manage, select and process information from a variety of sources to support findings and hypotheses and develop a critical approach to academic literature and other sources of information (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215)
- ability to communicate effectively to a variety of audiences in written, graphical and verbal forms, engage in debate in a professional manner and produce detailed and coherent project reports (all L4 and L5 modules)
- ability to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate (all L4 modules, ES 3220)
- ability to acquire, process, interpret and present data using appropriate qualitative and quantitative techniques including use of information technology and the internet, mathematics, statistics and GIS (all L4 and L5 modules to some extent)

II.b. BSc in Environmental Studies

Holders of the ordinary BSc in Environmental Studies of ACG-Deree (305 credits or seven 20 credit- and eleven 15 credit-modules) will be able to demonstrate detailed knowledge and critical understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules and ES/CH 3241 Environmental Chemistry, ES 3232 Climate Change)
- the role of social sciences in analysing and addressing environmental problems and of the social, economic, political, health and ecological implications of human interactions with the environment (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, BI 3215, ES 4017)
- human responses to environmental problems such as the development of environmental policy and law and environmental management, as well as of the importance of temporal and spatial scales in considering the environmental impact of human decisions in different environmental studies fields (ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241, ES 3232)
- the concepts and dimensions of sustainability and sustainable development and of some of their applications in addressing environmental issues in an integrated manner (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, ES 3232, most L6 optional modules)
- basic tools in mathematics and statistics, as well as of quantitative techniques and data processing methods including GIS techniques (ES 3340 Integrated Methods in Environmental Analysis I, GG 3115, ES 4443 Integrated Methods in Environmental Analysis II)
- Topics in more specialized fields of environmental studies (such as management and conservation of natural resources, policy and environmental management of corporations) (all L6 optional modules)

In addition, they will have the following cognitive skills:

- ability to recognize the moral and ethical issues of investigations, appreciate the need for professional codes of conduct and undertake a reasoned moral assessment of actions/persons/business practices (SO/ES 3002, ES 3340 Integrated Methods in Environmental Analysis I, ES 4443 Integrated Methods in Environmental Analysis II, ES 3220)

- ability to collect and analyse data and information on environmental issues using a range of techniques appropriate to the subject (all L4 and L5 modules to some extent)
- ability to critically evaluate the reliability and significance of data and information collected and the evidence provided to support conclusions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340; ES 3232, BI 3215; all L6 modules)
- ability to categorize ideas, data and information, reformat and transform them towards a given purpose and propose solutions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340; ES 3232, BI 3215; all L6 modules)
- ability to identify key elements of environmental problems and apply appropriate knowledge and skills to their solution (all L6 modules)

the following practical/professional skills:

- ability to describe and record materials in the field and laboratory and to interpret practical results in a logical manner (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)
- ability to use appropriate laboratory and field equipment competently and safely (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)
- ability to select and apply a limited range of methods, including spatial techniques, to study and solve environmental problems (ES 3340 Integrated Methods in Environmental Analysis I, ES 4443 Integrated Methods in Environmental Analysis II, GG 3115)
- ability to plan, conduct and present an independent project effectively and appropriately with reliance on guidance, to relate investigations to prior work and to reference appropriately (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215; all L6 modules)

and the following key/transferable skills:

- ability to manage, select and process information from a variety of sources to support findings and hypotheses and develop a critical approach to academic literature and other sources of information (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215; all L6 modules)
- ability to communicate effectively to a variety of audiences in written, graphical and verbal forms, engage in debate in a professional manner and produce detailed and coherent project reports (all modules to some extent)
- ability to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate (all L4 modules, ES 3220, ES 4229)
- ability to acquire, process, interpret and present data using appropriate qualitative and quantitative techniques including use of information technology and the internet, mathematics, statistics and GIS (all modules to some extent)
- ability for independent study (ES 4443 Integrated Methods in Environmental Analysis II)

HISTORY EXIT AWARDS ‡

I. Certificate of Higher Education

Upon completion of level 4 (120 credits or 8 15-credit modules), students have 1) a basic grasp of the concepts and principles of History; 2) a series of basic transferable interpersonal, research and writing skills that are applicable to the professional world; 3) the knowledge and skills necessary for further progression in the field—for example, into the second year of a BA (Hons) programme in History such as that at Deree, The American College of Greece.

Specifically, Certificates of Higher Education in History are awarded to students who have demonstrated knowledge and understanding of:

- the skills and tools that a historian uses to study and discuss about past events, issues, figures (HY 2038)
- significant past events in key periods and geographic areas (HY 2034, HY2015, HY 2023, HY 2039, IR 2015)
- the idea of continuities/discontinuities between past and present (HY 2034, HY 2015, HY2023, HY 2039).
- a measure of knowledge in an array of humanities and social sciences (IR 2015 and one level-4 module each in the social sciences and humanities).

In addition, they will have the following cognitive skills:

- a basic understanding of the variety of approaches to interpreting the past (HY 2038)
- a basic exposure to the difficulty in reconstructing the past (HY2038, HY 2034, HY 2015, HY 2023, HY 2039)
- an ability to appreciate continuity and change over extended time periods (HY 2034, HY 2015, HY2023, HY 2039).

Furthermore, they will have the following practical/professional and key/transferable skills:

- communication skills both in oral and in written forms (HY2038, HY 2034, HY 2015, HY 2023, HY 2039)
- ability to frame, develop and sustain reasoned arguments clearly and comprehensively (HY2038, HY 2034, HY 2015, HY 2023, HY 2039, IR 2015)
- ability to conduct basic research and present the findings in the form of short essays, short papers, reports, and presentations (HY2038, HY 2034, HY 2015, HY 2023, HY 2039)
- organization skills by the ability to gather, select, organize, and synthesize a body of information in a timely manner (HY2038, HY 2034, HY 2015, HY 2023, HY 2039)
- digital literacy skills for bibliographic and archival research as well as for the presentation of findings both in oral and in written forms (HY2038, HY 2034, HY 2015, HY 2023, HY 2039)

I.a. Diploma of Higher Education in History

Designed to follow upon the Certificate of Higher Education in History, the Diploma of Higher Education in History, broadens and deepens students' engagement in the field of History through courses that enlist both synchronic and diachronic pathways of study. Upon completion of levels 4 and 5 (240 credits of 16 15-credit modules), students have 1) a solid grasp of the concepts and principles of history; 2) a series of transferable interpersonal research and writing skills that are applicable to the professional world; 3) the knowledge and skills necessary for further progression in the field—for example for The BA (Ord.) and (Hons) of Higher Education in History such as those offered by DERE, the American College of Greece.

Specifically, in addition to the characteristics and associated modules listed under the Certificate above, holders of the Diploma of Higher Education in History will be able to demonstrate detailed knowledge and critical understanding of:

- the development of History as a discipline and the variety of approaches and methodologies to constructing and, interpreting the past as well as a knowledge of concepts and theories derived from humanities and social sciences (HY 3146, PH3022).
- a significant body of historical knowledge and awareness of the diversity of human experiences in different periods, societies, and cultures (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- the ethical dimensions of historical study, writing and research and the interdisciplinary nature of Historical studies (HY3146, PH3022, HY3147, HY3033, HY3021, HY3026)

In addition, they will have the following cognitive skills:

- appreciation of the complexity of reconstructing, understanding, and interpreting the past and the often problematic and varied nature of historical contexts and evidence (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- critical, reflective, and argumentative skills when approaching historical questions and problems, including complex ones to which there is no single solution, through discussion, debate, and written analysis (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- ability to adopt and apply comparative perspectives when investigating different countries, societies, or cultures (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

And the following practical/professional and key/transferable skills:

- critical, analytical, and interpretative skills both in oral and written form, and ability to frame, develop and sustain arguments clearly and comprehensively (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- effective communicative skills, such as clarity, fluency, and concision to engage in debate in academic contexts (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- team-working skills in preparing and contributing to seminar discussions and group presentations in co-operation with other students (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)
- reflexivity by the ability to gather, select, organize, and synthesize a substantial and diverse body of information to produce longer papers (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

II.b. BA (Ordinary) in History

Upon completion of 300 credits (20 15-credit modules), students will have 1) a solid grasp of the concepts and principles of History; 2) acquired skills in historical research, critical thinking, and the written presentation of data and oral expression that are transferable to the professional world; 3) Develop abilities to recognize the continuity and/or discontinuity of past experiences with contemporary ones; 4) the knowledge and skills necessary for further progression in the field—for example, for the final modules of a BA (Hons) programme in History such as that at DERE, The American College of Greece.

In addition to the knowledge and skills and the associated modules listed above under Certificate and Diploma, holders of the BA (Ordinary) in History will be able to demonstrate deepened factual knowledge and critical understanding and engagement with:

- regional of focused histories (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)
- an array of humanities and social sciences (selection of L6 choices from politics and international relations or philosophy modules)

In addition, they will have the following cognitive skills:

- interrogate and reflect critically and contextually upon contemporary texts and a variety of primary sources (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)
- obtain intellectual independence by formulating focused questions about the past and by providing answers to them using valid and relevant evidence and arguments (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)

and the following practical/professional and key/transferable skills:

- effective communicative skills, such as clarity, fluency, and concision to engage in debate both in academic and public contexts (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY4048)
- ability to conduct independent research and produce complex and sophisticated historical arguments both in oral and written forms, including extended pieces of historical writing (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY 4048)
- effective interpersonal skills as well as advanced independence of thought and critical judgement (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY 4048)
- knowledge and application of digital humanities tools to communicate historical awareness in academic and public contexts (HY 4048)

INFORMATION TECHNOLOGY EXIT AWARDS ‡

I. Certificate of Higher Education in Information Technology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Information Technology will have sound knowledge of the basic concepts of Information Technology and will have learned how to take different approaches to solving problems. The student will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits), students will have acquired the knowledge and understanding necessary for further progression in the field – for example, into the second year of a BSc (Hons) programme in Information Technology and will be eligible for the **Certificate of Higher Education in Information Technology**. In specific, students will be able to:

- demonstrate knowledge and understanding of the underlying technology, design methods and programming languages required to practice in ICT domains (ITC 2024, ITC 2186, ITC2193, ITC 2088, ITC 2197, ITC 2205)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to ICT approaches and professional practice (ITC 2024, ITC 2039, ITC 2205)
- demonstrate knowledge of user experience principles and practices (ITC 2039, ITC 2205)
- demonstrate knowledge of theory and tools relevant to data and big data manipulation (ITC 2197, ITC 2205)
- demonstrate knowledge of emergent and enabling technologies (ITC 2024)

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology (ITC 2039, ITC2205)
- apply appropriate design and problem-solving techniques to software, database, user experience, game or intelligent system implementations (ITC 2088, ITC 2197, ITC 2205)

Practical and professional skills

- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on ICT subjects (ITC 2024, ITC 2039, ITC 2088, ITC 2186, ITC 2193, ITC 2197, ITC 2205)
- use design, production, and programming tools relevant to user experience, games, and automation in associated areas (ITC 2088, ITC 2039, ITC 2197, ITC 2205)
- structure and write reports on various aspects of ICT domains (ITC 2024, ITC 2197 ITC 2205)

Key/transferable skills

- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2039, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 2205)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 2197, ITC 2205, PS 1000 or PS 1001)

- demonstrate ability to work effectively as part of a group (ITC 2205)
- demonstrate ability to learn independently and reflect on one's own learning needs and achievements (ITC 2197, ITC 2205)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Information Technology, and the ordinary (non-Honours) degree in Information Technology.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the fields of Information Technology and will be in a position to evaluate the applicability of relevant theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate information technology theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in Information Technology.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate IT issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the Information Technology studies.

And will have:

- Qualities and transferable skills necessary for employment in terms of communication and decision-making

II a. Diploma of Higher Education in Information Technology

Upon completion of levels 4 and 5 (total of 240 credits), students will have acquired the **knowledge and understanding** necessary for further progression in the field – for example, into the final year of a BSc (Hons) programme in Information Technology and will be eligible for the **Certificate of Higher Education in Information Technology**. In specific, students will be able to:

- demonstrate knowledge and understanding of the underlying technology, design methods and programming languages required to practice in ICT domains (ITC 2024, ITC 2186, ITC 2193, ITC 2088, ITC 2197, ITC 2205, ITC 3160, ITC 3051, ITC 3287, ITC 3125, ITC 3163, ITC 3165, ITC 3287, ITC 3237, ITC 3261, ITC 3338, ITC 3431)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to ICT approaches and professional practice (ITC 2024, ITC 2039, ITC 2205, ITC 3051, ITC 3338, ITC 3261, ITC 3125, ITC 3154, ITC 3160, PH 3005, PH 3010)

- demonstrate knowledge of user experience principles and practices (ITC 2039, ITC 2205, ITC 3059, ITC 3163, ITC 3237, ITC 3338, ITC 3261, ITC 3125)
- demonstrate knowledge of theory and tools relevant to data and big data manipulation (ITC 2197, ITC 2205, ITC 3160, ITC 3233, ITC 3338, ITC 3006)
- demonstrate knowledge of emergent and enabling technologies (ITC 2024, ITC 3125, ITC 3338)

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology (ITC2039, ITC 2205, PH 3005, PH 3010, ITC 3051)
- apply appropriate design and problem-solving techniques to software, database, user experience, game or intelligent system implementations (ITC 2088, ITC 2197, ITC 2205, ITC 3051, ITC 3233, ITC 3287, ITC 3237, ITC 3338, ITC 3261, ITC 3125, ITC 3160, ITC 3154, ITC 3213, ITC 3431)
- assess the applicability of ICT infrastructures for a given set of requirements (ITC 3051, ITC 3165, ITC 3163, ITC 3338, ITC 3261, ITC 3125)
- Conduct field research and in-depth investigation related to the requirements for the design or development of ICT product components and solutions (ITC 3154, ITC 3338, ITC 3431)

Practical and professional skills

- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on ICT subjects (ITC 2024, ITC 2039, ITC 2088, ITC 2186, ITC 2193, ITC 2197, ITC 2205, ITC 3059, ITC 3165, ITC 3163, ITC 3125, ITC 3233, ITC 3287, ITC 3237, ITC 3338, ITC 3261, ITC 3006, ITC 3160, ITC 3213, ITC 3154, ITC 3431, MG 3034, MU 3164, PH 3005, PH 3010)
- use design, production, and programming tools relevant to user experience, games, and automation in associated areas (ITC 2088, ITC 2039, ITC 2197, ITC 2205, ITC 3059, ITC 3165, ITC 3163, ITC 3125, ITC 3237, ITC 3261, ITC 3160, ITC 3233, ITC 3154, MU 3164)
- structure and write reports on various aspects of ICT domains (ITC 2024, ITC 2197 ITC 2205, ITC 3051, ITC 3261, ITC 3338, ITC 3154, ITC 3125, ITC 3160, ITC 3287, ITC 3431)
- structure and write in-depth technical reports detailing the concept, design, testing and deployment of complete ICT solutions and enabling technologies (ITC 3154)
- model software-oriented products related to user experience, games, intelligent systems, or industry and business applications (ITC 3154, ITC 3237, ITC 3125, ITC 3160, ITC 3338)

Key/transferable skills

- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2039, ITC 2088, ITC 2186, ITC 2193, ITC 2197, ITC 2205, ITC 3051, ITC 3165, ITC 3163, ITC 3125, ITC 3237, ITC 3261, ITC 3338, ITC 3006, ITC 3160, ITC 3213, ITC 3233, ITC 3154, ITC 3287, ITC 3431, MG 3034, MU 3164, PH 3005, PH 3010)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 2197, ITC 2205, PS 1000, PS 1001, ITC 3059, ITC 3165, ITC 3163, ITC 3125, ITC 3237, ITC 3261, ITC 3338, ITC 3006, ITC 3160, ITC 3213, ITC 3233, ITC 3154, ITC 3287, ITC 3431, MG 3034, MU 3164, PH 3005, PH 3010)
- demonstrate ability to work effectively as part of a group (ITC 2205, ITC 3051, ITC 3233, ITC 3154, ITC 3431)
- demonstrate ability to learn independently and reflect on one's own learning needs and achievements (ITC 2197, ITC 2205, ITC 3051, ITC 3125, ITC 3233, ITC 3154, ITC 3261, ITC 3338, ITC 3287)

- demonstrate problem-solving skills and reflect on the process of development of a product in the ICT industry (ITC 3233, ITC 3213, ITC 3431, ITC 3160, ITC 3237, ITC 3287, ITC 3261, ITC 3338, ITC 3125)

II b.BSc (Ordinary) in Information Technology

Upon completion of 300 credits (20 15-credit modules), students will be eligible for the **BSc in Information Technology**. Students will demonstrate **competent knowledge and critical understanding** of:

- demonstrate knowledge and understanding of the underlying technology, design methods and programming languages required to practice in ICT domains (ITC 2024, ITC 2186, ITC 2193, ITC 2088, ITC 2197, ITC 2205, ITC 3160, ITC 3051, ITC 3287, ITC 3125, ITC 3163, ITC 3165, ITC 3287, ITC 3237, ITC 3261, ITC 3338, ITC 3431, ITC 4056, ITC 4162, ITC 4350, ITC 4558, ITC 4568, ITC 4030, ITC 4035, ITC 4140, ITC 4214, ITC 4344, ITC 4380, ITC 4441, ITC 4426, ITC 4447, ITC 4445, ITC 4648, ITC 4979)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to ICT approaches and professional practice (ITC 2024, ITC 2039, ITC 2205, ITC 3051, ITC 3338, ITC 3261, ITC 3125, ITC 3154, ITC 3160, PH 3005, PH 3010, ITC 4162, ITC 4350, ITC 4558, ITC 4568, ITC 4030, ITC 4035, ITC 4140, ITC 4380, ITC 4344, ITC 4426, ITC 4445, ITC 4441, ITC 4447, ITC 4648, ITC 4979)
- demonstrate knowledge of user experience principles and practices (ITC 2039, ITC 2205, ITC 3059, ITC 3163, ITC 3237, ITC 3338, ITC 3261, ITC 3125, ITC 4056, ITC 4162, ITC 4350, ITC 4030, ITC 4140, ITC 4214, ITC 4979, ITC 4035, ITC 4445)
- demonstrate knowledge of theory and tools relevant to data and big data manipulation (ITC 2197, ITC 2205, ITC 3160, ITC 3233, ITC 3338, ITC 3006, ITC 4056, ITC 4162, ITC 4558, ITC 4568, ITC 4979, ITC 4140, ITC 4214, ITC 4380, ITC 4441, ITC 4447, ITC 4344)
- demonstrate knowledge of emergent and enabling technologies (ITC 2024, ITC 3125, ITC 3338, ITC 4056, ITC 4162, ITC 4350, ITC 4558, ITC 4440, ITC 4979, ITC 4446, ITC 4648, ITC 4140)

In addition, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology (ITC 2039, ITC 2205, PH 3005, PH 3010, ITC 3051, ITC 4035, ITC 4344, ITC 4446, ITC 4447, ITC 4648, ITC 4140, ITC 4162, ITC 4350, ITC 4979)
- apply appropriate design and problem-solving techniques to software, database, user experience, game or intelligent system implementations (ITC 2088, ITC 2197, ITC 2205, ITC 3051, ITC 3233, ITC 3287, ITC 3237, ITC 3338, ITC 3261, ITC 3125, ITC 3160, ITC 3154, ITC 3213, ITC 3431, ITC 4162, ITC 4350, ITC 4558, ITC 4568, ITC 4979, ITC 4030, ITC 4035, ITC 4140, ITC 4214, ITC 4441, ITC 4447, ITC 4648)
- assess the applicability of ICT infrastructures for a given set of requirements (ITC 3051, ITC 3165, ITC 3163, ITC 3338, ITC 3261, ITC 3125, ITC 4056, ITC 4162, ITC 4350, ITC 4558, ITC 4979, ITC 4030, ITC 4035, ITC 4140, ITC 4214, ITC 4380, ITC 4441, ITC 4344, ITC 4447, ITC 4648)
- conduct field research and in-depth investigation related to the requirements for the design or the development of ICT (ITC 3154, ITC 3338, ITC 3431, ITC 4056, ITC 4162, ITC 4350, ITC 4558, ITC 4344, ITC 4426, ITC 4140, ITC 4979)

INTERNATIONAL RELATIONS AND EUROPEAN AFFAIRS EXIT AWARDS ‡

I. Certificate of Higher Education in International Relations and European Affairs (120 CREDITS)

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in International Relations and European Affairs will have a sound knowledge of the basic concepts of International Relations and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 15-credit modules), students will be able to 1/. Demonstrate a basic understanding of political, economic, social, cultural and security implications of multiple co-actors existing in the contemporary European and International environment; 2/. Develop some basic transferable interpersonal, research and writing skills that are applicable to the professional domain, and 3/. Acquire the knowledge and skills necessary for further progression in the field-for example, into the second year of a BA (Hons) programme in International Relations and European Affairs.

Specifically, Certificates of Higher Education in Philosophy are awarded to students who have demonstrated knowledge and understanding of:

- Demonstrate an understanding of the origins, evolution, and contemporary dynamics of the international system, including the nature of cooperation and conflict and the challenges facing the international system today. (IR 2010)
- Identify the key actors in international system – i.e., states, NGOs, intergovernmental organizations, transnational corporations, global civil society, and individuals – and understand how these actors interact and shape international relations. (PO 2000)
- Cultivate a literacy regarding some of the key scholars and thinkers who have shaped our understanding of International Relations and European Affairs. (PO 2004, PO 2001)

- Develop an understanding of the historical evolution of government and society and the way they influence International Relations and European Affairs. (IR 2015)
- Evaluate the multi-dimensional consequences of globalization and regional integration/ disintegration as applied to issues of cooperation and conflict, nationalism, conflict resolution, economic development, energy security, social justice, and human rights. (PO 1015)
- Demonstrate knowledge of the multi-disciplinary nature of international relations by establishing connections with the disciplines that have shaped and continue to influence international relations: politics, history, economics, business, philosophy, and political sociology. (EC 1000, EC 1001, IB 2006)

In addition, holders of the qualification will have the following cognitive, practical/professional, and key/transferable skills:

- Ability to formulate and communicate arguments clearly (IR 2010, PO 1015, PO 2000, PO 2004)
- Ability to locate, extract and analyse data from library and other resources including the acknowledgement and referencing of sources (IR 2015, PO 2001, EC 1000, EC 1001, IB 2006)
- Ability to use Information Technology effectively to retrieve, process, analyse and communicate information with guidance (All modules)
- Ability to reflect self-critically, independently, and as lifelong learners. (All modules)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in International Relations and European Affairs and the ordinary (non-Honours) degree in International Relations and European Affairs

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the field of International Relations and European Affairs, as well as being able to evaluate the applicability of those theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate international relations theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in International Relations and European Affairs.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate international relations issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the International Relations and European Studies.

And will have:

SOCIOLOGY EXIT AWARDS ‡

I. Certificate of Higher Education in Sociology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Sociology will have a sound knowledge of the basic concepts of Sociology and will have learned how to identify, through different theoretical approaches, sociological issues across a range of social contexts and social problems. The holder will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

The Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA's generic specifications of each Level's requirements, as well as the relevant Subject Benchmark Statements corresponding to Sociology.

Certificates of Higher Education in Sociology are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with Sociology, and an ability to evaluate and interpret these within the context of Sociology
- an ability to present and evaluate qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of Sociology.

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different theoretical approaches to discern social problems and issues related to Sociology
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- undertake further training and develop new skills within a structured and managed environment.

and will have:

- qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits), students will be able to i) recognize and be familiar with key sociological concepts that are present in both everyday as well as in macro-level; ii) understand how foundational concepts in sociology apply to key sociological fields like social inequality, family and gender and social problems.

Specifically, holders of the Certificate of Higher Education in Sociology will be able to demonstrate *knowledge and understanding* of:

- Demonstrate knowledge of
- core theoretical models of sociology
- principal social institutions and processes initiated by modernity (SO 1000, SO 1001)
- Understand key areas of sociology like social inequality, gender and social problems and how they apply to other sociology specialisms. (SO 2004, SO 2020, SO 2030)
- Understand globalization and its relation to social change, power, identity and difference, across national, regional and local contexts (SO 1000, SO 1001)
- Become aware of the diversity of theoretical approaches in sociology (from its classical foundations to contemporary paradigms), their claims for explanatory adequacy and how rival sociological theories compare and complement each other (SO1000)

Cognitive Skills

- Apply theoretical tools pertinent to the action-structure dualism in sociological theory (SO 1000, SO 1001).
- Utilise quantitative and skills in sociological research, and recognize the ethical implications of research practice (SO 2441)

Practical and Professional Skills

- Use sampling techniques to obtain data in order to conduct surveys (PS/SO 2260)

Key/Transferable Skills

- Recognize and apply key sociological concepts and sophisticated theoretical reasoning across a range of social issues and problems, being also able to recognize the potentially contested perception and application of sociological knowledge, for researchers and publics alike. (SO 1000, SO 1001, SO 2004, SO 2020, SO 2030)
- Develop information-retrieval and processing skills in relation to different types of sources or data (bibliographical, primary or secondary) (SO2441)
- Use mathematical, statistical skills in order to:
- measure and interpret social data
- interpret graphs and charts
- use distribution functions and hypothesis testing
- conduct independent research (PS/SP 2260)
- Demonstrate a measure of knowledge in an array of different social sciences, exploring inter-disciplinary linkages, thus becoming better informed citizens and professionals, capable also of recognizing forms of abuse and prejudice. (L4 Social Science Options)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Sociology and the ordinary (non-Honours) degree in Sociology.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Sociology and will have learned to apply those principles more widely. Through this, they will have learned how to identify, via different theoretical approaches, sociological issues across a range of social contexts and social problems. They will have the qualities necessary for employment in contexts and situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the foundational principles of Sociology and of the way in which those principles have developed historically
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in across the local, the national, the regional and the global context
- knowledge of the main methods of enquiry in Sociology and ability to evaluate critically the appropriateness of different approaches to interpret issues and problems in Sociology
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of sociological information, and to apply these tools to concrete situations and contexts
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations

and will have:

- qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Sociology

Upon completion of levels 4 and 5 (240 credit), students will be able to i) recognize and be familiar with key sociological concepts that are present in both everyday as well as in professional decision making; ii) apply basic mathematical and qualitative techniques to sociological topics, thus aligning theory to practice; iii) demonstrate detailed knowledge of theoretical paradigms, models, and tools of micro-and macro-sociology; iv) apply the methodological tools associated with sociology's classical founders; v) analyze and evaluate major debates in the context of globalization and social change.

Specifically, holders of the Diploma of Higher Education in Sociology will be able to demonstrate detailed

knowledge and critical understanding of:

- Demonstrate knowledge of
 - core theoretical models of sociology
 - principal social institutions and processes initiated by modernity (SO 1000, SO 1001, SO 3260)
- Understand key areas of sociology like social inequality, gender and social problems and how they apply to other sociology specialisms. (SO2004, SO2020, SO2030)
 - Understand globalization and its relation to social change, power, identity and difference, across national, regional and local contexts (SO1000, SO1001, SO3015, SO3035)
 - Become aware of the diversity of theoretical approaches in sociology (from its classical foundations to contemporary paradigms), their claims for explanatory adequacy and how rival sociological theories compare and complement each other (SO1000, SO3260)
 - Understand and make use of the range of qualitative and quantitative research strategies in sociological methodology and identify the ethical aspects of social research. (SO3411, SO3516)
 - Become aware of the social foundations of sociological knowledge and of the status of sociology as a social science discipline. Enhance reflexive knowledge on the construction of sociological categories and research methods. (SO3411, SO3516)

Cognitive Skills

- Apply theoretical tools pertinent to the action-structure dualism in sociological theory (SO 1000, SO 1001, SO 3260).
- Utilise quantitative skills in sociological research, and recognize the ethical implications of research practice (SO 3411)
- Utilise qualitative skills in sociological research, and recognize the ethical implications of research practice (SO 2441, SO3516)
- Analyze and synthesize, with minimum guidance, issues relating to a variety of fields in sociology and thus become able to reflexively question taken for granted assumptions and bodies of knowledge (L5 Sociology Options)

Practical and Professional Skills

- Use sampling techniques to obtain data in order to conduct surveys (PS/SO 2260, SO 3411)
- Prepare reports, including tables and charts, on research results (SO 3411, SO 3516, SO 3516, SO 3035)
- Use various qualitative techniques to conduct research according to context and situation (SO 3516, SO 4231)
- Write theory and empirical oriented papers suitable for graduate work conveying concepts and methods to lay audiences with clarity and scholarly use of sophisticated sociological terminology, appropriate bibliographical support and evidence (SO 3260, SO 3411, SO 3516, SO 4213, SO 4231)

Key/Transferable Skills

- Recognize and apply key sociological concepts and sophisticated theoretical reasoning across a range of social issues and problems, being also able to recognize the potentially contested perception and application of sociological knowledge, for researchers and publics alike. (SO1000, SO1001, SO2004, SO2020, SO2030, SO3260, SO3015, SO3035, SO 3516)
- Develop information-retrieval and processing skills in relation to different types of sources or data (bibliographical, primary or secondary) (SO2441, SO3260, SO3015, SO3035, SO3516, SO3411, L5 Sociology Options)

FINANCE EXIT AWARDS ‡

The Quality Assurance Agency's Quality Code for Higher Education in relation to the 'Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies' (October 2014) specifies that students who exit a Bachelor's programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor's degree (BSc (Ord)).

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificate of Higher Education is awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles in Finance and financial analysis and an ability to evaluate and interpret financial information (delivered and assessed through, AF 2007, EC 1000, EC 1101, FN 2127, FN 2128)
- an ability to present, evaluate and interpret qualitative and quantitative data (delivered and assessed through all Level 4 modules)

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to finance and business problems (AF 2007, FN 2127, FN 2128, MA 2021, MG 2003)
- undertake further training and develop new skills within a structured and managed environment (AF 2007, EC 1000, EC 1001, FN 2127, FN 2128, MA 2021)

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfillment of all assessment components in Level 4 modules in a responsible and professional manner).

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a **Diploma of Higher Education (DipHE) in Finance**.

Holders of qualifications at this level will have developed a sound understanding of the principles in finance and financial analysis, and will have learned to apply those principles in different business settings. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Diplomas of Higher Education are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles in financial analysis and business structure (delivered and assessed through all Level 4 and Level 5 modules)

- ability to apply underlying concepts and principles outside in unstructured settings (delivered and assessed through EC/FN 3046, EC/AF 3240, EC 3470, FN 3213, MG 3033, PH 3005)
- knowledge of the main methods of enquiry in finance and ability to evaluate critically the appropriateness of different approaches to solving problems (EC/FN 3046, FN 3213, FN 3437, MA 2021, PH 3005)

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (delivered and assessed through all Level 5 modules)
- effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (delivered and assessed through all Level 5 modules)
- undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organizations (delivered and assessed through EC/FN 3046, EC/AF 3240, FN 3213, FN 3437, MG 3033, PH 3005).

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

Bachelor's – BSc (Ord) – in Finance

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor's – BSc(Ord) – in Finance.

Typically, holders of the qualification will be able to:

- Develop a systematic understanding of financial theory (EC 3470, FN 3437 plus two elective courses in Finance)
- An ability to use quantitative techniques in analysing financial data and constructing efficient portfolios (EC 3470, FN 3437 plus two elective courses in Finance)
- An ability to develop arguments (EC 3470, FN 3437 plus two elective courses in Finance)
- An ability to reach decisions in unstructured situations (EC 3470, FN 3437 plus two elective courses in Finance)

INTERNATIONAL TOURISM AND HOSPITALITY MANAGEMENT EXIT AWARDS ‡

The Quality Assurance Agency's Quality Code for Higher Education in relation to the 'Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies' (November 2014) specifies that students who exit a Bachelor's programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor's degree (BSc(Ord)).

This Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA's generic specifications of each Level's requirements, as well as the relevant Subject Benchmark Statements corresponding to International Tourism and Hospitality Management.

According to the latter, an honours graduate in tourism is able to demonstrate an understanding of the concepts and characteristics of tourism as an area of academic and applied study, including being able to:

- analyse and evaluate the concepts and characteristics of tourism as an area of academic and applied study in relation to business, management and wider social science
- explain and challenge theories and concepts which are used to understand tourism in domestic and international contexts
- critique and challenge the definitions, nature and operations of tourism
- use a range of source material in investigating tourism
- critique and challenge the nature and characteristics of tourists and associated behaviour characteristics
- demonstrate an awareness of the dynamic nature of tourism in contemporary societies
- explain, assess and challenge theories of sustainability and ethics in the production and consumption of tourism
- evaluate the intercultural dimensions of tourism

- demonstrate an understanding of technology and media and how these influence and change tourism products, operations, processes and behaviours
- critique the stakeholder relationships involved in destination management, development, policy, governance and strategy
- demonstrate an awareness of security, safety, risk and crisis management on regional, national and international scales
- evaluate the products, structure, operations and interactions within the tourism industry
- professionalising the tourism industry as both processes and structures, and professional identity and business acumen in professional development.

Furthermore an honours graduate in tourism is able to demonstrate understanding of the nature and characteristics of tourists, including being able to:

- explain the patterns and characteristics of tourism demand and the influences on such demand
- understand the ways in which tourists behave at destinations
- understand the cultural significance of tourism for tourists and societies.

Additionally an honours graduate in tourism is able to demonstrate an understanding of the products, structure of and interactions in the tourism industry, including being able to:

- demonstrate an understanding of the structure, operation and organisation of the public, private and not-for-profit sectors and their activities
- evaluate the factors that influence the development of organisations operating in tourism
- analyse relations between consumers of tourism and the providers of tourism services
- analyse the role of government and policy makers in the development and management of destinations.

Finally, an honours graduate in tourism is able to demonstrate understanding of the relationships between tourism and the communities and environments in which it takes place, including being able to:

- evaluate the contribution and impacts of tourism in social, economic, environmental, political, cultural and other terms
- understand and evaluate the approaches to managing the development of tourism through concepts of policy and planning
- appreciate the ethical issues associated with the operation and development of tourism
- understand the issues and principles of sustainability and social responsibility in the context of tourism.

Similarly, according to the same document, an honours graduate in hospitality is able to critically analyse and evaluate the defining characteristics of hospitality as a phenomenon, including being able to:

- critically reflect upon the origin, meanings and development of hospitality management and leadership
- analyse and reflect on the different cultural concepts of hospitality
- demonstrate a critical awareness of the boundaries of hospitality.

Furthermore, an honours graduate in hospitality is able to use technical and interpersonal skills and knowledge to propose and evaluate practical and theoretical solutions to complex problems in the core areas of hospitality, including being able to:

- operate and manage human and technical resources
- apply theory to the solution of complex problems within the core areas of hospitality
- analyse and evaluate food, beverage and/or accommodation service systems, their implementation and operation.

In addition, an honours graduate in hospitality is able to evaluate and apply, within the hospitality context, appropriate theories and concepts from the generic management areas of:

- operations management
- finance and management accounting
- human resources and organisational behaviour
- services marketing, digital marketing and consumer behaviour
- information systems and technology
- strategic management.

Additionally, an honours graduate in hospitality is able to analyse and evaluate the business environment and its impact on the hospitality industry, including being able to:

- display an insight into the structure of the hospitality industry and the contribution that it makes to the global economy
- analyse and reflect upon the environmental influences and sustainability issues which impact on hospitality organisations
- evaluate the factors which influence the development of organisations operating within the hospitality industry
- review and analyse the political, technological, social, and economic factors which affect the supply of and demand for hospitality.

Also, an honours graduate in hospitality is able to recognise and value the centrality of the hospitality consumer and meet and respond to their needs, including being able to:

- understand and apply the theories and concepts underpinning consumer behaviour within the hospitality context
- analyse the needs and expectations of different hospitality consumers and develop appropriate responses
- analyse the quality of the service encounter and its impact on the hospitality consumer and the service provider.

Finally, an honours graduate in hospitality is able to identify and respond appropriately to the diversity that prevails within the hospitality industry in relation to stakeholders, such as:

- hospitality consumers
- hospitality employees
- hospitality organisations
- government and external agencies.

In relation to the above framework, the following paragraphs demonstrate the coverage of these requirements at the different stages of the students' progression in the programme by relating them to the content and assessment of modules delivered at each level of study.

I. Certificate of Higher Education (CertHE) in International Tourism and Hospitality Management

Students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in International Tourism and Hospitality Management.

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificates of Higher Education are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with their area(s) of study, and an ability to evaluate and interpret these within the context of that area of study (HT 1001, HT 2116, HT 2011, MG 2003, BU 2003, IB 2006)
- an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of their subject(s) of study (all Level 4 modules)

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to their area(s) of study and/or work (MA 2021, MG 2003, HT 2010, HT 2116)
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments (all Level 4 modules)
- undertake further training and develop new skills within a structured and managed environment (HT 2116, HT 2010)

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfilment of all assessment components in Level 4 modules in a responsible and professional manner).

II. Diploma of Higher Education (DipHE) in International Tourism and Hospitality Management

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in International Tourism and Hospitality Management.

Holders of qualifications at this level will have developed a sound understanding of the principles in their field of study, and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Their studies may well have had a vocational orientation, for example HNDs, enabling them to perform effectively in their chosen field. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

These degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed (all Level 4 and Level 5 modules)
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context (SO 3009, HT 3113, HT 3115, HT 3139, PH 3005, MG 3034)

- knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study (BU 3233)
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge (BU 3233)

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (all Level 5 modules)
- effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (all Level 5 modules)
- undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organisations (HT 3115, HT 3139, PH 3005).

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

III. Bachelor's – BSc(Ord) – in International Tourism and Hospitality Management

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor's – BSc(Ord) – in International Tourism and Hospitality Management. Typically, students will have obtained at least 60 credits at Level 6 by completing 4 of the compulsory modules, excluding HT 4747 Dissertation in Tourism and Hospitality.

MARKETING EXIT AWARDS ‡

I. Certificate in Higher Education in Marketing

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Marketing will have a sound knowledge of the basic concepts of Marketing and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Marketing are awarded to students who have demonstrated:

- Knowledge of the underlying concepts and principles associated with Marketing, and an ability to evaluate and interpret these within the context of Marketing;
- An ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgements in accordance with basic theories and concepts of Marketing.

Typically, holders of the qualification will be able to:

- Evaluate the appropriateness of different approaches to solving problems related to Marketing;
- Communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- Undertake further training and develop new skills within a structured and managed environment; and will have:
- Qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8x15-credit modules), students will be able to (i) recognize and be familiar with key marketing concepts that are present in both everyday as well as professional decision making; (ii) apply basic mathematical techniques to marketing topics, thus aligning theory to practice.

Specifically, holders of the Certificate of Higher Education in Marketing will be able to demonstrate:

- Knowledge and understanding of the external environment and its impact on business (EC 1101, BU 2003)

- Knowledge and understanding of relevant business functions (MG 2003, MK 2030, AF 2007, CS 2179)

- Ability to demonstrate effective written and oral communication skills in different business settings (MK 2030, CS 2179)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Marketing and the ordinary (non-Honours) degree in Marketing.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Marketing and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- Knowledge and critical understanding of the well-established principles of Marketing and of the way in which those principles have developed;
- Ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- Knowledge of the main methods of enquiry in Marketing and ability to evaluate critically the appropriateness of different approaches to solving problems in Marketing;
- An understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- Effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
- Undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

and will have:

- Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

SPORTS MANAGEMENT EXIT AWARDS ‡

The Quality Assurance Agency's Quality Code for Higher Education in relation to the 'Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies' (November 2014) specifies that students who exit a Bachelor's programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor's degree (BSc(Ord)).

This Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA's generic specifications of each Level's requirements, as well as the relevant Subject Benchmark Statements corresponding to Sports Management.

Specifically, an honours graduate in sport-related courses is able to critically appraise and evaluate sport in its social, health-related, environmental, managerial and/or performance contexts. The following learning outcomes reflect the five areas of focus for courses in sport described in paragraph 3.20. Depending on the nature of their individual course, honours graduates demonstrate achievement of the outcomes from at least one area.

1. An honours graduate in sport-related courses is able to understand and explain human responses to sport and exercise, including being able to:
 - make effective use of knowledge and understanding of the disciplines underpinning human structure and function
 - critically appraise and evaluate the effects of sport and exercise intervention on the participant
 - demonstrate the skills required to monitor and evaluate human responses to sport, exercise and/or rehabilitation
 - critically appreciate the relationship between sport and exercise activity and intervention in a variety of participant groups; this could include special populations such as older adults, disabled people, people with a chronic disease and children.
2. An honours graduate in sport-related courses is able to understand and critically appraise the study of the performance of sport and its enhancement, monitoring and analysis, including being able to:
 - monitor, analyse, diagnose and prescribe action to enhance the learning and performance of the component elements of sport, including, where appropriate, injury diagnosis and treatment, in ways

underpinned by current research

- evidence the skills required to monitor and evaluate sports performance in laboratories and/or field settings
- display a critical appreciation of the integration of the variables involved in the delivery (teaching, instructing and coaching) of enhanced sport performance.

3. An honours graduate in sport-related courses is able to demonstrate an understanding of the health-related and disease management aspects of exercise and physical activity, including being able to:

- display an awareness of current government policy on disease prevention and the relevance of exercise
- demonstrate an ability to monitor health through exercise and prescribe appropriate interventions
- display a broad range of skills, including awareness of health and safety, ethical considerations, exercise prescription, population differences and the role of education, health and sports bodies in improving the health of the nation.

4. An honours graduate in sport-related courses is able to understand the influence of the historical, social, political, economic and cultural diffusion, distribution and impact of sport, including being able to:

- demonstrate a critical insight into the organisations and structures responsible for sport, the political ramifications arising from these and their impact on the funding and delivery of sport
- employ social, economic and political theory to explain the development and differentiation of sport throughout society
- demonstrate the application of the social and cultural meanings attached to sport and their impact on participation and regulation.

5. An honours graduate in sport-related courses is able to recognise, understand and critically reflect upon the policy, planning, management and delivery of sporting opportunities, including being able to:

- understand and apply the theories, concepts and principles of practice from the generic management areas of operations, finance, human resources, economics and marketing to sports facilities and events in the voluntary, public and private sector
- employ strategic planning and development planning skills in analysing, understanding and addressing the development needs and intentions of sport organisations and communities
- demonstrate a critical appreciation of sport development and facilitation principles in at least one vocational context.
- In relation to the above framework, the following paragraphs demonstrate the coverage of these requirements at the different stages of the students' progression in the programme by relating them to the content and assessment of modules delivered at each level of study.

Facilities

Campus

The Aghia Paraskevi Campus

The American College of Greece's main campus is located in Aghia Paraskevi, an eastern suburb of Athens. The campus contains the following buildings and facilities: The Deree main building, the Communication building, the Center for the Arts building, the Library, the Athletic Complex, the College Chapel, the Open Air Theatre, and Residence buildings. In addition, the campus houses Pierce, ACG's high school.

The Athletic Complex

Deree - ACG has an athletic complex of international scope and standards. Its gymnasium is built on three levels and includes on the main level two cross-court basketball /volleyball areas, one game court. A modern fitness center and three dance aerobics studios are located on the lower level of the gym. The top level includes the Office of Athletics and a sports lounge area. The outdoor facilities consist of an Olympic-size heated outdoor swimming pool, 6-lane synthetic 400 meter track, soccer field surfaced with synthetic turf and environmental friendly cork infill, and four acrylic latex tennis courts. All outdoor athletic areas are lighted. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and wellness. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and fitness non-credit classes.

The Black-Box Theatre

The studio theatre is the simplest form of theater space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

The Center for the Arts

The Center for the Arts, a 1,900-square-meter three-story building, includes gallery space for exhibitions, classrooms specially designed for the teaching of painting and sculpture, rooms for music performance practice, a state-of-the-art computer lab, a Starbucks coffee shop and an atrium for outdoor displays and events.

The College Chapel

A Byzantine-style chapel, on a slope overlooking the Aghia Paraskevi campus, serves the College community on occasions such as christenings and weddings. Students may also visit the chapel for meditation and quiet reflection.

The Communication Building

The Communication Building houses a Black box theatre, appropriately designed classrooms, labs and workspaces, and faculty offices. The Black-Box Theatre is the simplest form of theatre space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

ACG Health & Wellness Center

The ACG Health & Wellness Center consists of the Pierce and Deree infirmaries offering first aid, and referral to specialists and wellness coaching in the Wellness Coordinator's office at Deree.

The Irene Bailey Open-Air Theatre

The Irene Bailey Open-Air Theatre, designed to resemble ancient Greek theaters and with a view of the Attica basin, is used for theatrical performances by students as well as for other College community events.

Library

John S. Bailey Library, named in honor of the College's sixth president, provides extensive print, electronic and audio-visual resources in support of the College's academic programs.

The library building features a variety of spaces including a large open reading area, individual and group study rooms, two activity classrooms, individual study carrels, comfortable seating, a café and informal meeting space, offering a welcoming environment for students to do research, study, and connect with peers. In addition, a digital museum showcases the history of the school as well as digital collections and projects.

A wealth of resources including over 115,000 print books; over 620,000 e-books; 69,000 journals and magazines; 780 music CDs, a large collection of digital images, 2 streaming video collections, as well as databases providing access to statistical data, reports, electronic encyclopedias, handbooks, dictionaries and more, is available to all students and academic staff. The library website (library.acg.edu) serves as the main information portal where users can access these resources, as well as an array of online tools and tutorials. A discovery service offers a powerful tool to users to search all library resources through a single search box. Most electronic resources are also available remotely.

Specialized personnel provide individual research assistance and offer training sessions on the use of the library, the library discovery system and the online resources and tools. Information literacy skills workshops are incorporated into Writing Program courses that students are required to complete. Special information literacy sessions are also organized for the needs of specific courses or disciplines.

Library resources are complemented with an extensive document delivery service through libraries around the world as well as pay-per view and document supply services from publishers and vendors.

An array of media services is also available to students and faculty. The Media Center houses the library's audio-visual and multimedia collections and provides equipment for viewing and listening.

The Library provides 32 computer stations with access to the library resources, and the internet as well as software such as Microsoft Office and SPSS Statistics and two multi-function printers with printing, photocopy and scanning facilities. Wireless access is available in all areas of the library for users to connect through their laptops, tablets, or hand-held devices.

STUDENT SERVICES

Orientation

All new students participate in an orientation program as they begin their first semester at the College. The orientation program is designed to introduce them to the campus, the academic system, College regulations and policies, and student life.

Student Success Center (SSC)

The Student Success Center supports students by offering comprehensive, integrated services in the areas of academic advising, OU validation, student records, registration, and payments, all in a one-stop area. The center is committed to providing students with consistent, high-quality service, both in person and through technology. It aims to create the optimum conditions for students to follow the path to academic success.

Students may visit the Student Success Center to pay a bill, request a certificate, obtain a form, arrange to bring a visitor on campus, obtain their transcript, see an academic advisor, ask about OU validation, change a course, and obtain or replace their student ID.

The SSC web page has been set up to reflect the one-stop concept of the Center and includes information from different departments. It may be accessed from "Quick Links" on the ACG homepage (www.acg.edu) and allows students to print forms or view the academic calendar, academic policies, final exams schedule, course schedule, graduation instructions, major requirements, frequently asked questions (FAQs), the e-mail directory, and financial aid and international student information. From the SSC web page students can log on to the myACG portal, where they can print their personal course schedule and their unofficial transcript. To log on, students need to go to the SSC to get their PIN, which is private, should not be shared with anyone, and will be given to students only if they have no obligations (business office, library, or academic advising).

Academic Advising

All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Effective academic advising provides specific aid to students in considering and completing academic programmes, but it goes beyond mere course scheduling: it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters, and exploration. The College assigns all entering freshmen a First-Year advisor from the Office of Academic Advising. Thereafter, the advising program is faculty-based and fosters personal contact between students and faculty. Department heads, assistant department heads and area coordinators act as educational consultants.

New incoming students and continuing Deree - ACG students are required to consult every semester and during the announced advising period with an advisor at the Office of Academic Advising.

Advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Office of the Registrar

The Office of the Registrar is principally responsible for all aspects of the registration process, including the preparation of schedule material, demographic updates, registration, scheduling, and processing of student grades. Such information is available on the College website.

Students become officially registered through the WEB. During designated dates and times, stipulated by the Registrar's Office, students may use their College ID and pin number to log on to the WEB Registration system and register. Students without Internet access off campus may use the campus computers. Students may register late only during the late registration period as stipulated for each semester/session by the Registrar's Office.

The Validation Office

The Validation Office (Deree-OU) is responsible for all logistics regarding validation of Deree College academic programs and modules validated by The Open University, UK. It also functions as the liaison between The Open University, the external examiners, and Deree academic departments, Academic Council, Registrar's Office, Academic Advising, Curriculum Committee, Committee on Academic Standards and Policies (CASP), and program committees. The executive director of the Validation Office in their role as a member of the Academic Council ensures that all policies, processes, and procedures pertaining to validation are followed.

Moreover, the executive director of the Validation Office acts as the first contact person for students wishing to transfer credits from US regionally accredited colleges/universities, UK universities or from other accredited institutions of higher education in Greece and abroad, or request an evaluation of their prior learning for credit (transfer credit). At admissions level, the executive director checks the academic credentials of prospective international incoming or prospective transfer students.

Deree students **must visit** the Validation Office ahead of time when they plan to study for a semester/year abroad and transfer the earned credits back to Deree College.

Services for the Physically Challenged

Services, such as access to parking for the physically challenged, are available to students to assist them while on campus. Please contact the Student Success Center for further information.

The Office of Student Affairs

The Office of Student Affairs is dedicated to promoting student development and to continually improving the quality of student life. Through programmes, services, and activities, the office attempts to assist students in active learning, to help them develop values and ethical standards, and to forge partnerships to advance the learning experience.

Financial Assistance and Planning

In order to assure the continuing quality of our academic programmes as well as access for students and their families to these programmes, the College, through the Office of Financial Assistance and Planning, is committed to supporting students who demonstrate financial need and academic promise.

The Financial Assistance Program at Deree provides several types of financial aid based on need and/or academic achievement. The fundamental philosophy of our Financial Assistance Program is that lack of funds should never prevent academically qualified students from receiving a quality education. Funding for financial assistance comes from the College's own resources and from generous contributions by donors.

Student support, guidance and advice

Financing a college education can be a daunting prospect, and the College is committed to helping students and their families understand the available financial aid programmes and assist in finding ways to meet college expenses.

For detailed information relating to grants, scholarships and other forms of financial assistance please consult the Financial Assistance section of the College's website.

Student Academic Support Services

Student Academic Services (SASS) is an academic service vital to the educational experience of Deree students. Through one-to-one and group workshop-style sessions, SAS learning facilitators support skills development of Deree students across all schools. Through a learner-centered, non-instructional approach, facilitators promote individual development and respond to the needs of each student.

The Office of Career Services

The Office of Career Services assists students and alumni of all the divisions of The American College of Greece in developing fulfilling and rewarding careers. Its goal is to ensure that their academic investment in skills and knowledge is effectively integrated into their future career path. Through individual advising sessions with the staff, special computerized programmes, and an extensive library of resource materials, students who are uncertain about a major or career direction can more sharply define their interests, skills, and personal characteristics to better plan for their future.

Career Services also helps students formulate a strategy to make the most of their studies before they graduate. Such a strategy, encompassing activities like work experience, volunteerism, and campus involvement, can strongly affect a student's employability. Thus, the office encourages all students to begin their career planning early, during their freshmen and sophomore years and prior to declaring a major to ensure there is adequate consideration, planning, and preparation for their career path.

Career Advising: One-to-One Appointments

We provide individual half-hour advising sessions scheduled to talk about career path planning, building a resume, job search strategies, interview preparation, and interview techniques. We work with students by exploring the issues they have and developing strategies and an action plans appropriate to them.

Graduate Studies Advising: One-to-One Appointments

We provide individual half-hour advising appointments scheduled to talk about students' plans for further graduate studies, graduate schools search, application personal statements and the application process

Choosing a Major

If you are undecided about your major or are thinking of adding a second major to your degree, schedule a half-hour session to take an online internationally recognized self-report test that helps identify strengths and personality preferences, and then meet with a career advisor to discuss the results and apply them toward selecting your major.

Skills Workshops

Throughout the academic year we offer interview skills and job search workshops, as well as graduate studies workshops.

Connecting with the Market

Various activities and programmes which connect the students with the job market such as Company Visitation Day, company presentations on campus, mock-interviews, job shadowing program.

Student support, guidance and advice

Career Planning e-Tools

JobBank

A database of a variety of part time and trainee positions offered to current Deree students who wish to enter the job market.

Sigi3

A software that examines key motivators and matches work-related values, interests, personality, and skills to educational and career pathways. Individuals explore a range of options based on their personal choices.

Goinglobal

A database containing country-specific career and employment resources to facilitate finding jobs and internships in 35 countries. Topic areas include: job search resources, work permit/visa regulations, country specific resume guidelines and examples, interview and cultural advice, employment outlook/industry trends, professional and social networking groups.

The Deree Student Association

The Student Association is committed to strengthening the ties between students and their alma mater, creating a heightened sense of school spirit. It strives to provide responsible leadership through fair, democratic representation of students' needs and interests to the College administration and to promote equality and unity on campus among the student population.

Co-Curricular Activities

Co-curricular activities include social, cultural, recreational, and other student pursuits. Events such as exhibits, tournaments, and symposia, as well as dances, plays, and athletic activities, extend into the late afternoon and evening hours.

Social, Cultural, and Recreational Clubs

Clubs are formed according to student interests. The names of clubs are self-defining in both activity and scope: AFCEA Club, Algorithms and Programming Club, Arts and Crafts Club, Astronomy Club, Better Days for Strays Club, Book Club, Broadway Club, Cyber Club, Dance Club, Debate Club, Deree Advertising Club, Diversity & Inclusion Club, Entrepreneurship and Innovation Club, Fashion Club, Film Club, Gaming Club, Inside Autism Club, Investment Club, MUN Club, Music Club, Public Relations Club, SDG – Sustainable Development Goals Student Program, Self-Awareness & Meditation Club, Social Issues Club, Theater in the Making Club, Videography Club, Volunteer Club, Women Empowerment Club, Women in Technology and Science Club. Club activities are coordinated by the Office of Student Affairs. As a rule, an advisor or instructor with expertise in the area concerned offers guidance to each club. Students are free to join one or more of the clubs, depending on their interests and available time, as long as they are in good academic standing.

Educational and Field Trips

Educational and field trips may be planned within the context of any course or area of concentration. In accordance with Greek law, such trips are organized by instructors with the approval of the respective academic dean.

Cultural Events

The College sponsors a variety of cultural events throughout the academic year, including lectures, recitals, and art exhibitions. Lecturers from distinguished universities, diplomats, and scholars residing in Athens are invited to speak by student academic societies. The proximity of the College to the center of Athens provides

Student support, guidance and advice

many opportunities for cultural enrichment. Among these are concerts by the National Symphony Orchestra, performances by the National Opera Company, and concerts and operas at the Megaron Moussikis, the concert hall of Athens. In addition, there are dance and performance pieces that take place in the city's remarkably large number of theatres, as well as at the internationally renowned Summer Festival of Athens. The classical ruins and superb museums in and around the city are an education in themselves.

Athletic Program

The athletic program offers a diversified approach to exercise designed to meet all the physical activity needs of the College community. Intercollegiate athletics (held at the local, national and international levels), intramural sports, physical education (credit and non-credit) and outdoor recreation offer the student a choice of programmes and provide opportunities for the development of sports participation, fitness and healthcare.

The intramural sports program offers a variety of team and individual sports competition between members of the College community. Tournaments last from one day to one semester and emphasize the fun aspect of sports.

Intercollegiate athletics teams offer opportunities to students to compete in basketball (men and women), soccer (men and women), volleyball (women), water polo (men), rugby (men), swimming (men and women), tennis (men and women), and cheerleading. Deree teams compete against other teams from athletic clubs and colleges and universities in Greece and abroad.

Group fitness classes (credit and non-credit) give students the opportunity to learn basic and intermediate skills in a variety of activities: aqua aerobics, pilates, yoga, zumba, total fitness, circuit training, ABS & legs, body sculpting, TRX.

The outdoor recreation program offers opportunities for hiking and camping, climbing outdoors, rafting, mountain biking, paintball, skiing and other alternative athletic activities. It offers students, staff and faculty opportunities to meet Greece's majestic nature and appreciate a natural and simpler way of life.

Special events include a relay marathon, the International Sports Festival and participation in an international tournament.

ACG Health and Wellness Center

The ACG Health and Wellness Center provides accessible, high-quality first aid, advice, referral to specialists, wellness coaching and educational programming to meet the needs of members of the College community. It supports and encourages students, staff and faculty members to realize their optimal physical, emotional, social and intellectual goals through health promotion and disease prevention programs and services. It is the aim of these innovative services to assist members of the College community in cultivating their own healthy lifestyles that will follow them throughout the course of their college experience and beyond.

Through the Health and Wellness Center:

- Nurses are available Monday-Friday from 8:00-22:00 and are also available on skype.
- The wellness coordinator is available for individual and group consultations as well as workshops on topics such as setting exercise goals, understanding eating patterns, making healthy food choices, addressing addictive habits such as smoking and excessive cell phone use, causes of stress and healthy ways to relieve it.
- The ACG Health and Wellness Center also researches developments in the areas of health, wellness and spirituality, fitness, and nutrition, and shares this with the ACG community through the Know the Facts series of brochures, announcements through educational displays and posts on Blackboard, the ACG website, social media.

Student support, guidance and advice

Learning Support Services - The Educational Psychologist

The Educational Psychologist is the head of Learning Support Services at Deree - The American College of Greece and helps young adults who are experiencing problems within the educational setting with the aim of enhancing their learning. Challenges many include social or emotional problems or learning difficulties or other disabilities or other issues that may affect their learning. The educational psychologist offers psycho-educational intervention, coordination, and referral to other professionals. All services are provided confidentially and free of charge. We encourage students to consult the educational psychologist about educational matters that may concern them.

Food Services

The Aghia Paraskevi campus offers students a variety of food choices. There is a comfortable, modern lounge that offers healthy, freshly prepared meals and salads as well as music. There are vending machines for coffee, hot chocolate, and tea. An additional area for coffee and snacks is located on the deck of the Center for the Arts, and in the Black Box Theatre lobby.

The Advancement Office

The Advancement Office's (AO) role is to continuously link the College and its over 65,000 Alumni community and to inform, engage, partner with, and secure financial support from diverse stakeholders through integrated strategically aligned communications, engagement programs, and philanthropic opportunities. Upon completing their first three credits, students automatically become lifetime members of the Alumni community at no cost to them. They are eligible to receive Alumni benefits and services, including invitations to Alumni in person and online events, participation in various programs and international alumni chapter events, access to career services, an alumni-led Mentoring Program, the Alumni platform ACG Connect and more. Students are encouraged to connect with Alumni through the Alumni /Students Communities available on the ACG Connect platform as well as through the mentoring program to establish a professional network early on and get valuable support through the expertise and experience of ACG Alumni.

The Advancement Office's focus is to connect and engage alumni with ACG and each other to support ACG's mission and goals. The Advancement Office is committed to forging strong relationships with the alumni body, increasing alumni giving, involvement, and advocacy, and highlighting alumni successes.

Philanthropic donations secured by the Advancement Office's fundraising efforts help support much of what happens at ACG, including but not limited to student scholarships and financial assistance, student internships, campus renovations, capital projects, faculty research, and curriculum development. The Advancement Office is responsible for cultivating a culture of philanthropy among our students, alumni, families, and community partners that will help attract support and investment critical to the school's long-term financial sustainability. Supporters have historically included Alumni, friends, corporations, U.S. government agencies, foremost USAID-ASHA, and foundations, such as the Stavros Niarchos Foundation, the John S. Latsis Public Benefit Foundation, AEGEAS Non-Profit Civil Company (AEGEAS CNPC) and the A.C. Laskaridis Charitable Foundation.

Note: The ACG CONNECT database and any information collected by ACG (more details on ACG Alumni Privacy Policy) are kept in accordance with the provisions of Regulation (EC) 2016/679 of the European Parliament and the Council («General Data Protection Regulation») and the Greek legislation on the protection of personal data (Law 4624/2019), as in effect from time to time (the «Personal Data Legislation»). Alumni can exercise the rights provided by the Personal Data Legislation. If Alumni have any related queries, they can contact the Data Protection Officer of The American College of Greece at: dpo@acg.edu

Work-Based Learning (Internship) Information

Work-Based Learning (Internship) Information

School of Business and Economics

Scope - Definitions

Work-based learning (Internship) can be defined as learning which normally takes place outside the school but which is credit-bearing within a program of study. Work-based learning is achieved and demonstrated through the designation of appropriate learning outcomes, engagement with a workplace environment, and the assessment of reflective practice.

Successful completion of assessed elements of work-based learning is awarded credit.

Work-Based Learning Student Handbook

The Work-Based Learning Student Handbook summarizes the policies and guides the student through the work-based learning experience.

The Work-Based Learning Administrator (Internship Administrator)

The Work-Based Learning Administrator (Internship Administrator):

- Prepares the students who qualify for a work-based learning experience. This includes advising, checking whether the students wishing to enroll for a work-based learning opportunity have completed the necessary prerequisites, as these are described in the respective work-based learning opportunity module syllabus.
- Provides students with help and advice in securing work-based learning opportunities, including CV drafting and practice interviews. The Internship Administrator works closely with the Office of Career Services to prepare the student for the placement.
- Searches and matches internship openings to students, based on the students' interests and skills, and the requirements of the work-based learning partners.
- Informs students of the openings, their tasks, duties, responsibilities and entitlements during the work-based learning opportunity.
- Informs students of the academic program requirements, progress reports and assessment tools to be used during the work-based learning opportunity, as these are described in the respective module syllabus.
- Informs students on points of contact in case of emergency or complaints.
- Oversees work-based learning placements, making sure that the work-based agreement terms are honored.
- Monitors the assessment of the student's planning and development logs and journals and the evaluation of the students' written projects or reports by the appropriate faculty member. Debriefs students returning from work-based learning opportunities, and advises them on their future educational and professional development.
- Investigates complaints made by the partners or the students and addresses them or refers them to the Work-Based Learning Team, which comprises the chief academic officer, the academic dean of the respective school, the respective department head or area coordinator, the internship administrator, and the controller, who acts as a resource person.

Academic Rights and Academic Integrity

Academic Rights and Academic Integrity

ACADEMIC RIGHTS

Right to Pursue Knowledge and the Right to Free Expression

The student's right to pursue knowledge and to express views responsibly is of the utmost importance in an academic institution and it is so recognized by the College.

Right of Confidentiality

No information or document referring to a student's academic or personal life (such as the student's address, college e-mail address, grade report card, or transcript of record) is released to anybody outside the College without the written permission of the student, subject to legal requirements. Should students, ex-students, or graduates want information from their personal files to be released to persons outside the College, such requests must be made in writing and include the student's signature.

Right to Know and Participate

Students have a right to be informed about policies and procedures that affect their academic progress. Detailed information regarding all course offerings is available to students in course syllabi, deposited in the libraries.

Students have the right to make recommendations for changes to the existing rules through their representatives. Such recommendations, when referring to the academic area, must be submitted to the respective academic dean, who will channel the suggested changes to the proper administrative or academic body for consideration.

Right to Organize and Associate

Students may organize and assemble to pursue their common interests, subject to the guidelines established by the College's governing bodies. Such gatherings, however, should not interfere with the physical operations of the campus, neither should they impinge on the rights of others to conduct their work, and they must not conflict with regularly scheduled programmes.

INTEGRITY

Honesty is an integral part of the learning process. Breaches of academic integrity and personal integrity undermine that process. Maintaining high ethical standards is the responsibility of both students and instructors.

Breaches of Academic Integrity

Responsibility of Students

For students, a valuable and enriching academic experience begins with personal integrity and the commitment to taking examinations, writing papers, and carrying out all other required assignments based on independent thinking and without improper or unauthorized assistance. The fair and accurate evaluation of a student's performance is possible only if the work is truly that of the student. When a grade is assigned, instructors are, in effect, attesting that, to the best of their knowledge, the grade is a true indication of the student's achievement. Offenses against academic integrity include not only misrepresenting one's own work but also aiding fellow students to do the same.

Cheating

Cheating is defined as the use of (or the attempted use of) unauthorized or inappropriate assistance, material, or study aids in examinations or other academic work. The use of books, notes, calculators and conversation

Academic Rights and Academic Integrity

with others is forbidden in certain academic exercises and work; their use in these cases constitutes cheating. Similarly, students must not request others to conduct research for them or prepare any work for them; this includes, but is not limited to, the services of commercial term paper companies. Cheating also involves giving or receiving unauthorized help before, during, or after an examination. Examples of cheating include, but are not limited to, the use of prepared notes, "crib sheets," or electronic aids during an examination (unless specifically approved by the instructor); attempting to observe another student's paper or giving or receiving oral or visual information; intentionally allowing another student to view one's own examination; copying the work of another student during an examination or other academic exercise or permitting another student to copy one's work; and taking an examination for another student or allowing another student to take one's examination. Taking an exam by proxy for someone else is an infraction of academic integrity on the part of both the student enrolled in the course and the proxy or substitute (see "Facilitating Academic Dishonesty"). Cheating also includes doing a take-home exam for another student.

Facilitating Academic Dishonesty

Knowingly helping or attempting to help another violate any provision of the academic integrity code is a breach of that code. Students who knowingly or negligently allow their work to be used by other students or who otherwise aid others in academic dishonesty are violating the College's code of academic integrity. Such students are as guilty of intellectual dishonesty as the student who receives the material even though they may not themselves benefit academically from that dishonesty.

Falsification and Fabrication

Misrepresenting material or fabricating information in an assignment is a breach of academic integrity. Examples include, but are not limited to, false citations of sources, use of invented information, or falsification of data. Fabrication includes submitting false documents for the purpose of being excused from a scheduled examination or other academic assignment. Altering the answers given on an exam or changing the letter and/or numerical grade after the instructor has graded the examination and has distributed it to students for review constitutes falsification. Committing or attempting to commit forgery or alteration of College or personal documents or records, and furnishing false information to the College or its instructors are considered violations of academic integrity and must be reported to the respective academic dean for disciplinary action.

Multiple Submissions

It is a violation of academic integrity to submit the same work or substantial portions of it for academic credit more than once, or for more than one student to submit the same work, without the prior approval or authorization of the instructor. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing that the current work submitted for academic credit is cumulative in nature.

Plagiarism

A form of academic theft, plagiarism is the act of using another's words, ideas, or organizational patterns without crediting or acknowledging the source. It includes any paraphrasing or summarizing of another's work without acknowledgment as well as the failure to acknowledge the quotation of paragraphs, sentences, or even phrases written or spoken by someone else. Any use of published (books, magazines, newspapers, websites, photos, textbooks, etc.) and unpublished sources (class lectures or notes, handouts, speeches, other students' papers, or material from a research service) without acknowledgment is plagiarism. Moreover, the use of charts, pictures, graphs, diagrams, data, websites or other communication or recording media without acknowledgment constitutes plagiarism. The submission of research, completed papers or projects prepared by someone

Academic Rights and Academic Integrity

else also constitutes plagiarism, as does the unacknowledged use of research sources gathered by someone else. The resubmission of the student's own work in a previous class or as a resit/retake may also constitute self-plagiarism. Students resitting assessments or retaking courses must clarify with the instructor what is permitted in terms of resubmission of prior work. Students are responsible for understanding the legitimate use of sources, the appropriate ways of crediting sources (both print and electronic) through documentation, and the consequences of violating this responsibility.

Unauthorized Collaboration

Students may not collaborate on course work that will be graded unless they have faculty authorization.

Unauthorized collaboration means working with others without the specific permission of the instructor on assignments that will be submitted for a grade. This rule applies to in-class or take-home tests, papers, or homework assignments. Examples of unauthorized collaboration can include, but are not limited to, jointly calculating homework problems, checking homework answers with other students, having another help one (re)write a paper, and sharing sources for a take-home examination. Submission for academic credit of work represented as one's own effort but which has been developed with substantial assistance from another person is a violation of academic honesty. It is also a violation of academic honesty to provide such assistance. Unauthorized collaboration can even occur within the context of group projects when the degree or type of collaboration exceeds the parameters of what an instructor has expressly authorized. The purpose of a particular assignment and the acceptable method of completing it are determined by the instructor, not the student.

Unauthorized Possession of Academic Materials

Unauthorized possession of academic materials includes the selling or purchasing of examinations, papers, reports or other academic work; taking another student's academic work without permission; and possessing examinations, papers, reports, or other assignments not released by the instructor. Unauthorized removal of an examination or quiz from a classroom, faculty office, or other facility also constitutes a violation of academic integrity.

Use of Generative Artificial Intelligence tools in the preparation of assessments

Unauthorized use of Generative Artificial Intelligence tools, including chatbots, such as Chat GPT, and other tools, such as paraphrasers, to generate and / or rewrite material is strictly prohibited. This act constitutes deliberate cheating and falls under the category of academic misconduct.

Any student found to have committed academic misconduct will be reported to the Committee on Academic Standing and Conduct (COSC) and be subject to the penalties specified in the Regulations for validated awards of The Open University for Institutions offering Dual Awards, (Appendix 9, Schedule of Student Academic Misconduct Penalties). These penalties aim to uphold the principles of academic integrity and maintain a fair and equitable learning environment for all students.

Breaches of Personal Integrity

Computer Misuse

The framework of responsible, considerate, and ethical behavior expected by the College extends to cover the use of computers. The College expects that students use the College's and their own personal information technology resources responsibly and comply with all applicable College policies as well as local and international laws. The College provides electronic resources and services in support of its educational, research, and service mission. Use that threatens or interferes with the mission of the College, the integrity of the network, the privacy or safety of others, or that are illegal, is prohibited and subject to penalty.

Academic Rights and Academic Integrity

Unacceptable activities and behaviors include, but are not limited to, misrepresentation (including forgery) of the identity of the sender or source of electronic communication; alteration of the content of a message originating from another person or computer with the intent to deceive; unauthorized use or attempted use of restricted-access computer resources or accounts; electronic theft of computer programmes, data, or text belonging to another; and commercial use of the College's electronic resources.

Computer misuse consists of, but is not limited to, creation, use, storage, or transmission of information, programmes, or any other data that can reasonably be judged to be inappropriate or offensive to other users. The College's policy on harassment applies to electronic displays or communications. No member of the College community may display or transmit images, sounds, or messages that are threatening, abusive, or offensive.

Discrimination and Harassment

It is the College's policy that all employees and students work in an educational environment free from harassment of any nature. Therefore, sexual, racial, or religious harassment or other forms of an abuse of a power relationship, or bullying or threatening behavior are not tolerated. Harassment is defined as verbal (including harassment by phone, mail, Internet, or e-mail) or physical conduct that shows hostility toward an individual and has the purpose or effect of creating an intimidating, hostile, or offensive educational environment, or has the purpose or effect of interfering with an individual's academic performance.

Lying

Lying consists of, but is not limited to, communicating untruths to gain an unfair academic or employment advantage. This includes requesting classmates to sign attendance registers on your behalf or giving a false reason to a faculty member when requesting a change in an examination date or an extension on a paper or project.

Responsibility of Instructors

Instructors are similarly responsible for ensuring that the College's rules and regulations are enforced. When academic honesty is breached, instructors are obliged to detect and then report the violation. Laxity on the part of instructors includes having tests or test items exposed where they can be seen by students; returning tests and then using the same test again; reading, correcting papers, leaving the room, or conversing or giving help to students during an examination; and ignoring attempts to cheat.

Laxity or negligence in monitoring exams, preventing plagiarism, or guarding against other violations of academic integrity may result in disciplinary action.

Failure to report cases of academic dishonesty to the Committee on Standing and Conduct will be considered as evidence of negligence and may result in disciplinary action.

To initiate a charge against an instructor, a signed statement must be submitted to the academic dean or to the chief academic officer.

The academic dean, after assessing the seriousness of the charge, may issue an informal warning (not part of the record) or a reprimand (to be included in the instructor's dossier). In more serious cases, or in the case of repeated charges, the College president or the chief academic officer may appoint a committee of faculty members and administrators to hear the charges and the defence and to make recommendations.

Policy Concerning Copyright and the Use of Images for Students

Students are required to comply with copyright laws and general data protection regulations regarding use of

Academic Rights and Academic Integrity

images. Disregard for intellectual property and privacy issues constitutes infringement of ethical standards and violation of laws, involving potential legal action. "Copyright-protected works" range from literary works, to recordings, musical scores, plays, films, visual works of art, choreographic works, typographical works, photographs and more. As not everything available on the web is free to use, students must keep in mind that images are likely protected by copyright. It's better not to use images whose copyright has not been ascertained. We encourage students to use images which are in the public domain or available through subscription resources. However, there is less rigidity involved when material protected by copyright is used for educational purposes, especially in non-profit institutions. This is referred to as "fair use": students may exceptionally use relevant material for a class project, but must acknowledge the source and the creator/author if appropriate. Fair use does not apply when the project is made known to parties other than the instructor and classmates eg through social media or publications. Images in the public domain are not subject to copyright laws. Ethical issues should be taken into consideration when manipulating/changing an image. Furthermore, fair use is not free of any limits whatsoever, eg students cannot photocopy their entire textbook (s). Generally, one may make one copy of up to 10% of a book or one chapter.

In addition, students must secure written permission/consent from:

- a) anyone who has been the subject in a photograph, video or other medium even taken/made by the student who intends to use this material in an educational or other manner
- b) anyone who has participated in a performance should the student wish to publicize, record or display such recordings to others.

STUDENTS ARE REQUIRED TO FILL OUT RELEVANT RELEASE AND CONSENT FORMS AND OBTAIN SIGNATURES BY ALL PARTIES INVOLVED.

Definition of public domain

The term "public domain" refers to creative materials that are not protected by intellectual property laws such as copyright, trademark, or patent laws. The public owns these works, not an individual author or artist. Anyone can use a public domain work without obtaining permission, but no one can ever own it.

An important wrinkle to understand about public domain material is that, while each work belongs to the public, collections of public domain works may be protected by copyright. If, for example, someone has collected public domain images in a book or on a website, the collection as a whole may be protectable even though individual images are not. You are free to copy and use individual images but copying and distributing the complete collection may infringe what is known as the "collective works" copyright...

Student Conduct

PURPOSE STATEMENT

In order to create an environment whereby students can live safely, succeed academically, and develop skills for life, leadership, and service, the College relies upon students to know and adhere to standards of behavior pertaining to personal and academic integrity, guided by the Student Honor Pledge, College policies and Greek laws. Students are expected to respect the rights and privileges of others and to exhibit both inside and outside the classroom conduct becoming of a student in both manner and attitude. To this end, the College has developed its own standards for student conduct as well as procedures for disciplinary action.

INTERPRETATION AND REVISION

Any question of interpretation or application of the Student Code of Conduct or the ACG Housing Regulations should be referred to the Office of the Dean of Students or the Offices of International Student Services and Housing & Residential Services. The Office of Student Affairs reviews the Student Code of Conduct on an annual basis. Students have the right to be informed about changes in a timely manner.

STUDENT RIGHTS

The choice to become a member of the Deree community implies the commitment to accept the rights and responsibilities of that membership. These stem from the understanding that the individual is responsible to the community and the community is equally responsible to the individual. As such, all student members of the Deree community have certain rights:

- The right to learn, including the right of access to ideas, the right of access to facts and opinions, the right to express ideas, and the right to discuss those ideas with others;
- The right to be treated as an individual member of the community, including the right to be free of discrimination based on age, sex, religion, ethnic or national origin, handicap, sexual orientation, and the right to be free from harassment of any type;
- The right of peaceful coexistence, including the right to be free from violence, force, threats, and abuse, and the right to move about freely;
- The right to be free of any action that unduly interferes with student rights and/or the learning environment;
- The right to express an opinion, which includes the right to state an agreement or disagreement with the opinions of others and the right to an appropriate forum for the expression of that opinion;

STUDENT RESPONSIBILITIES

All students of Deree – The American College of Greece [Deree-ACG] are responsible for reading and upholding the College Policies available on the website and blackboard container:

- [Academic Appeals](#)
- [Acceptable Use of College Technology Resources](#)
- [ACG Equality, Diversity and Inclusion Policy](#)
- [ACG Harassment and Sexual Misconduct Policy](#)
- [ACG Housing Regulations](#)
- [ACG Non-Discrimination, Anti-Harassment, Sexual Misconduct, Relationship Violence and Stalking Policy](#)

- [ACG Safeguarding Policy](#)
- [Applicant Grievance Procedure](#)
- [Computer Ethics Policy](#)

- [Password Policy](#)
- [Personal Data Protection Policy](#)
- [Regulations for Validated Awards](#)
- [Student Code of Conduct](#)
- [Student Privacy Policy](#)
- [Undergraduate Catalog & Student Handbook](#)

Once admitted at Deree – ACG, students are expected to comply with and sign the Student Honor Pledge.

Deree-ACG expects that its students comply with the Greek law. In addition to imposing disciplinary sanctions, the College may refer students for prosecution for conduct prohibited in accordance with the Greek law, such as discrimination; assault; harassment; sexual violence/assault/harassment; theft; possession and/or use of weapons or explosives; possession, sale, purchase, use or distribution of illegal substances; such violations are marked with an asterisk (*).

Student Participation and Evaluation

Student Participation and Evaluation

Deree - ACG has several mechanisms through which students may offer input on a variety of issues affecting the governance of the College.

Student Representation on Committees

One of the primary mechanisms through which students may influence College governance is through their participation on College and Faculty standing committees. The following committees have student representation: Committee on Standing and Conduct, Library Committee, Committee on Disability and Learning Differences, Committee on Academic Standards and Policies, Curriculum Committee and Program Committees.

Library Committee

This Committee assists the College Librarian in developing the Library collection, and in formulating Library policies. The Committee has two student representatives selected by the Student Council.

Committee on Disability and Learning Differences

This Committee monitors and recommends policies and procedures in order to accommodate individuals with disabilities and learning differences. The Committee has one student representative recommended by the Educational Psychologist and approved by the Director of Student Affairs, with a minimum CI of 2.50, with at least 60 credits earned, who attends policy meetings only.

Committee on Academic Standards and Policies

This Committee studies, clarifies and proposes academic policies and procedures. The Committee has one student representative (from the junior or senior classes, with a C. I. of 3.0 at least) to attend policy making sessions, only, with full voting rights selected by the student government.

Curriculum Committee

This Committee studies, monitors and improves College curricula and academic programmes, and makes recommendations to the Faculty Assembly. The Committee has three senior students (without voting rights) (one from the School of Arts and Sciences, one from the School of Fine and Performing Arts and one from the School of Business, each with a C. I. of 3.0 or above, to be selected by the student government and to be present only during the presentation of new programmes).

Program Committees

The Presidents of student academic societies are members of the Programme Committees which among other things have responsibility for the routine monitoring of programmes, including the consideration of student feedback, performance data and external examiners' reports.

Student Evaluation

Students are encouraged to actively provide constructive feedback on their experiences at Deree - ACG, and thereby contribute to enhancing those learning experiences for themselves and for future students at the College.

Student Module (Course) Evaluation

Near the end of each semester/session, students are given the opportunity to assess the effectiveness of each course and its instructor, by anonymously completing an online evaluation form for each course in which they are enrolled. Instructors use this information for course improvement. The results of these evaluations are processed and disseminated electronically to each Instructor, Department Head, Academic Dean, the Executive Dean, the

Student Participation and Evaluation

Senior Vice President, Administration & Pierce and the President. This information is taken into consideration during the College's formal performance appraisal for each instructor. Summarized results are published online to students. The OpenUniversity (OU) receives feedback on the student evaluation results through the OU Annual Monitoring Report (AMR).

Senior Exit Survey

Students who are graduating at the end of a session or semester are asked to provide their feedback on the academic curricula and academic support services they experienced during their course of study at Deree - ACG. The senior exit survey is administered at the departmental level, and summarized by department and by school. Deans and Department Heads share the summary information with the relevant department faculty and with Administration. The information from the surveys is used by Program Committees for curricula and academic support services improvement.

Other Forms of Student Feedback

From time- to- time, the College may invite students to provide their feedback on a variety of issues affecting student learning experiences and College life in general. This may take the form, for example, of student participation on ad hoc committees or student participation in opinion surveys on a particular topic eg organizing debates or panel discussions on academic integrity in collaboration with the Committee on Standing and Conduct.

Student Opportunity for Input

Deree – ACG, frequently seeks student feedback and input. Online surveys are used to gather information on any number of subjects. In addition, paper surveys are occasionally used to gather data as well.

Career Services Survey

Career Services performs an annual survey at the conclusion of the academic year for all graduating seniors on the day of Academic Regalia Gown distribution. Information is gathered regarding the use of Career Services, employment data, graduate studies, career planning, etc.

Clubs and Student Organizations

Clubs and organizations are part of the vibrant student life available at Deree. There is a wide variety of clubs ranging from those that are academic or theoretical in nature to those that are more practical, all of which contribute to community life at the College. There are also student organizations that support activities and events that originate from administration offices of the College. Overall students join a club or organization because they share a common interest and wish to develop that interest through group discussions, presentations, competitions, exhibitions and much more.

The Clubs & Student Organization Guidebook, located on blackboard under Student Life and Athletics, serves as a handbook for the governing bodies of clubs and organizations. Student learn how to form a new club, retain recognition, amend their constitutions, elect new governing bodies, manage finances, plan and promote events and much more.

All Deree students in good academic standing (C.I. 2.0 and above) are eligible to join college clubs. The Office of Student Affairs (OSA) oversees all clubs and organizations. Clubs, however, must attain and continue to receive official recognition and budget allocation by the Student Government.

Should you wish to find out more about any student club or organization come by the Office of Student Affairs, the Office of the Student Government Association, or contact its members directly through email.

Student Participation and Evaluation

Student Organizations

ACG Choir

The Music Department has launched a College Choir to provide opportunities to students, faculty and staff to share the pleasure of singing and to participate in cultural, collaborative and service activities. The Choir functions in the context of an “academic” organization, is open to students, and to faculty, staff and alumni as associate members with no audition or experience required and meets and rehearses on campus. It participates in college events, community outreach and inter-institutional events and collaborations and focuses on enjoyment of singing, aiming to help its members learn and improve along the way.

ACG Peer Alumni Network

The ACG Peers Alumni Network is a network of people who have participated and served as ACG Peers for a Heritage Greece Program session. They are proud advocates for the College from a position of leadership and service. They foster the mission and the vision of Deree, introduce new ACG Peers to the Heritage Greece Program and community, and represent the College and the ACG Peers at official events promoting the Program. The ACG Peers Alumni network seeks to connect both past American participants and ACG Peer alumni across the years of the Heritage Greece Program. The database of the Network will offer both parties the opportunity to meet and connect whilst travelling, working or studying abroad.

ACG Sustainability Leaders

The ACG Sustainability Leaders is a dedicated volunteer student organization launched in 2018 following US best practices in the context of peer-to-peer education. Its members engage with sustainability-related initiatives both on and off-campus and they promote a sustainability culture among ACG members.

Career Readiness Team

The Career Readiness Team (CRT) team of students works under the supervision and guidance of the Office of Career Services (OCS) to promote services offered by the OCS and implement pre-determined projects such as Promotion for the Job & Internship Coaching Program, the Libra Internship, the career portal app and many more.

Deree College Ambassadors

The Deree Ambassadors are undergraduate students of high academic standing who are advocates for Deree from a position of leadership and service. Ambassadors are guided by their desire to serve, commitment to improve, and attitude of selflessness. They assist in events organized by the College.

Deree Orientation Leaders

The Deree Orientation Leaders are highly motivated students whose main purpose is to assist new students in their transition to academic and social life at Deree. This organization helps plan the student orientations held before each semester. During orientation, they lead small groups, serving as mentors for new students; providing information, and having fun!

Deree Student Activities Board (Deree SAB)

The Deree Student Activities Board (Deree SAB) provides programming that complements, reflects and responds to the College community. These programmes are designed to be both fun and provide an educational experience for those involved in planning and presenting the programmes.

Deree Student Association

Through hard work and dedication, the Deree Student Association aims to empower the voice of the students

Student Participation and Evaluation

and actively promote a vibrant campus community at Deree – The American College of Greece. Acting as liaison between the undergraduate student body and the administration, faculty and staff of Deree – The American College of Greece, they strive to provide responsible leadership and fair, democratic representation of the students in an official capacity while promoting equality and unity among the student body.

Stavros Niarchos Foundation Scholars

The purpose of this organization is to empower a new generation of young scholars to improve their social and professional skills and integrate better into ACG. They do this by

- creating and maintaining strong relations among the scholars
- organizing academic activities and social events
- strengthening the interaction between the ACG and the public Institutions in which the scholars are enrolled
- promoting cooperation between the College and the Foundation
- supporting SNF Orientation by informing prospective SNF students about ACG opportunities
- promoting Career opportunities, workshops and trainings related to their studies at the Greek university and Deree
- promoting SNF Study Abroad program
- organizing an annual event with important topics related to their studies and future professions

Student Emergency Response Force (S.E.R.F)

Student Emergency Response Force, better known as S.E.R.F., is Deree’s emergency response team. Organized in 1998, team members are trained to assist in emergency situations on campus (earthquakes, medical emergencies, and evacuations) and escort students from campus to the bus stop or their cars. Team members are trained in CPR (cardiopulmonary resuscitation) and first aid, self-defense, climbing/rappel, the use of scuba equipment, orienteering, wilderness survival, fire fighting, using two-way radios, self defense, and other skills. The spirit of the team is one of unity, service, and volunteerism.

ACG Institute of Global Affairs

The Institute of Global Affairs (IGA) is a center of scholarship in public and international affairs, established at the American College of Greece in 2008. The Institute regularly hosts round tables, presentations, panel discussions, conferences, workshops or webinars. Through the participation of high-level academics, politicians, economists, diplomats, policy-makers and other opinion leaders, the Institute aims at enhancing the understanding of contemporary regional and international complex issues as well as promoting a sincere and open dialogue.

The Institute focuses on the study of six thematic areas: (i) European Affairs, (ii) Middle East and North Africa, (iii) East-West and Eurasian Relations, (iv) Energy Security and International Markets, (v) The Emerging New Strategic and Economic World Order, and (vi) The Rise of Populism and the challenges to Democracy. The study of these areas is policy-oriented and complemented by an identification and analysis of regional complexities and global developments. The relations between states, international organizations, intergovernmental agencies, NGOs and individual actors, are a key component of IGA's objects of study.

The Institute is managed by a Director and operates under the Office of Public Affairs. An Academic Advisory Board, comprising Deree faculty members with relevant expertise, works closely with the VP of Public Affairs and the Institute's Director in setting its strategy and planning its activities.

In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programmes it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programmes, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programmes. ACG strives to eliminate unfair bias and stereotyping in the institution.
