2023-2024
International in origin and outlook, Deree - ACG offers a distinctive academic ethos rooted in American higher education best practices and integrating American, Greek and European cultures. The College is committed to extending educational opportunities to qualified students of diverse backgrounds and to active, mutually supportive interaction with its alumni. Deree faculty, dedicated to teaching, scholarship and service, cultivate a rich intellectual campus environment, serve numerous external constituencies and contribute to their professional disciplines. Through undergraduate and graduate curricula in the liberal arts and sciences, business and selected professions, as well as through its cocurricular programs, the College enables students:

- to define and pursue their educational and professional goals,
- to develop as critical and creative thinkers and socially aware individuals, and
- to prepare for lives of reflection as well as responsible civic engagement in a complex, global world.

Athens

As the home of Plato’s Academy and Aristotle’s Lyceum— the two greatest schools in antiquity - Athens can justifiably claim to be an incomparable setting for an institution of higher learning. The birthplace of Western culture and civilization, Athens has come to exemplify what men and women can achieve when allowed to exercise their minds and imaginations in a free and open society.

From its mythical founding by the legendary King Theseus, who united the independent towns of Attica and forged them into a single city-state, or polis, Athens became the center where the Hellenic ideals of the spirit of inquiry, critical thinking, rational discourse, and artistic expression were realized. Socrates, Plato’s mentor, engaged his fellow Athenians in dialogues, that constitutes the quintessence of philosophical questioning and reasoning. The great tragic and comic poets, Aeschylus, Sophocles, Aristophanes, and Euripides, produced their supreme works of dramatic art in this city. Thucydides opened his enduring history by proudly identifying himself as an Athenian.

The idea of demokratia, or rule by the people, originated in Athens, with the political reforms of sage lawgivers and rulers such as Solon and Cleisthenes. The Athenian ideal was later articulated eloquently by the statesman Pericles in his inspired Funeral Oration, where he paid tribute to his city as the “school of Hellas,” which, because of its noble institutions, concern for culture and education, love of discussion, sense of duty and honor, and passion for justice, was a model for the world and “worthy of admiration.”

During the Athenian Enlightenment of 2,500 years ago, the city nurtured such master architects as Ictinus, Callicrates, and Mnesicles, and the immortal sculptor Phidias. They adorned the hill overlooking the city, principal sanctuary of the patron goddess, Athena, with the magnificent Parthenon and Erechtheum temples and the splendor of the Propylaea.

The Acropolis, the “high city,” is Athens’ monumental legacy to the West and to the world. Having withstood the vicissitudes of time and events, it remain an ageless testament to human excellence and to the glory that was Greece.

Today, Athens is the capital of a European Union country, meaning that it belongs to a greater political and geographic entity and shares its vision. Athens is a culturally invigorating urban center of museums, theatres, and concert halls, and has become a twenty-first century computerized metropolis, with a state-of-the-art metro system and airport, ages removed from the antique days of archons and triremes.

And yet, when peoples and nations made their way to Greece for the Olympic Games of 2004, the past echoed, as Athens once again proclaimed, in the proud words of Pericles: “We throw open our city to the world”. And when the time came for the city to be thrown open, Athens showed the world what it can nowhere else see.

Introduction - The College
The American College of Greece (Deree - ACG) is the oldest and largest, comprehensive, independent, American accredited college in Europe, currently enrolling over 7,000 students in its three educational divisions. The College's more than 65,000 alumni reside in more than 100 countries, occupy leadership positions in areas such as business, the arts, and the sciences, and constitute a vibrant and proud alumni body that promotes Deree - ACG's mission, vision and values.

Founded in 1875 by American Christian missionaries as a primary and secondary school for girls in Smyrna, Asia Minor. Social upheaval in Asia Minor forced its closure in 1922, and the College reopened in Athens in 1923 at the invitation of Eleftherios Venizelos, the internationally renowned statesman. The College expanded into higher education in 1927 and in 1936 the school was named Orlinda Childs Pierce College in memory of the wife of a benevolent supporter.

During the 1960s, the College changed significantly. Pierce College was incorporated in the state of Colorado in 1961 and was authorized to grant bachelor of arts and bachelor of science degrees. In 1963 the secondary school division of Pierce College was recognized by the Greek government as the equivalent of a national public school. In 1965 the College moved to a sixty-four-acre site in Aghia Paraskevi, a northeastern suburb of Athens. The Aghia Paraskevi campus, situated on the western slopes of Mt. Hymettus some ten kilometers from the center of Athens, offers a magnificent view of the sprawling city. Its original buildings were designed by the renowned Greek architect Constantine Doxiades. The College’s first baccalaureate degrees were awarded in 1969, and in 1973, in honor of a generous benefactor from Chicago, William S. Deree (born Derehanis in the village of Ambelionas in the prefecture of Messenia in the Peloponnesse) the College’s undergraduate division was renamed Deree - ACG. In 1971, the Downtown Athens campus was established to broaden the College’s commitment both to business education and the professional community in Greece. In 1981, the College was accredited by the New England Association of Schools and Colleges, becoming the first international American institution to be accredited by a U.S. accrediting agency. With the help of a challenge grant from the United States Agency for International Development (USAID), funds were raised in both Greece and the United States from businesses, parents, alumni, trustees, and friends to build a five-story facility in Ambelokipi, near the city’s business center, in 1993. In 2012 the downtown campus became the home of Alba Graduate Business School at The American College of Greece (Alba). Deree undergraduate classes are offered at the downtown campus during morning hours.

Although a majority of Deree - ACG’s undergraduate and graduate enrollment is Greek, students come from more than 70 countries. Admission standards are competitive, and admissions are made without regard to gender, sexual orientation, race, creed, color, or economic background. English is the language of instruction.

Deree - ACG offers undergraduate programs through three schools (Business and Economics; Fine and Performing Arts; Liberal Arts and Sciences) and graduate programs through its Deree School of Graduate and Professional Education. In 2011 the College entered into a partnership with the Open University (UK) through which all Deree undergraduate programs are validated, thereby guaranteeing Deree graduates the professional rights provided by EU and Greek law. Students are able to complete both the American accredited degree and the British validated honors award within the typical timeframe of four years for U.S. undergraduate degrees.

ACG undergraduate and graduate degrees are internationally recognized as the equivalent of corresponding degrees granted by colleges and universities accredited in the United States; however, in Greece, under the provisions of Article 16 of the Constitution, they are not recognized as academically equivalent to degrees granted by Greek Universities.

The American University of Greece (AUG) was founded in 2022 and in 2023, AUG was approved by the New England Commission of Higher Education as the accredited institution, with two instructional locations – Athens, Greece and Boston, Massachusetts. That same year, AUG degrees began being awarded to graduates completing programs of study at ACG – Deree College, Deree School of Graduate and Professional Education and Alba Graduate Business School.
Academic Calendar

Weekly Schedule, Class Periods, Blended (BL) and Online Courses (OL)

The Academic Calendar is issued each academic year by the registrar. Please visit the College website to see the most recently updated calendar.

Instruction time (not including any breaks) for each three US credit hour course (15 UK credits) is 150 minutes per week. For each laboratory session carrying one US credit (5 UK credits), the instruction time is 75 minutes. Laboratory sessions are scheduled Monday, Wednesday, or Friday for one-and-a-half class periods, or Tuesday or Thursday for a full class period.

The College occasionally offers courses via distance learning modes, either as blended or online. Such courses are designated on the course schedule with the section notation of BL for blended or OL for online.

Blended courses are defined as being 35% to 50% online and the rest in scheduled campus face-to-face classrooms. Major examinations for blended courses also take place face-to-face.

Blended courses are those in which 35% to 50% of class meetings are held online and the rest are held face-to-face in campus classrooms. Major examinations for blended courses also take place face-to-face. Online courses meet exclusively online, except for examinations or other in-person assessment, which take place face-to-face on campus. Students enrolling in blended or online courses are required to enroll in an induction or introductory seminar free of charge.

* Blended Learning (BL) and Online Courses (OL) are not available to students on US Federal Financial Aid.

Payment Procedures
Tuition and fees payment for semesters is payable in three installments. The first payment (deposit) has to be made at least five working days before the registration date. The balance should be settled within 40 days of the first day of classes.

Tuition and fees payment for sessions must be paid in full at least five working days before the date of registration.

Tuition is charged for all courses, whether taken for credit or as non-credit. The College reserves the right to adjust tuition and other fees as the need arises. No such changes will apply to a semester or session in progress, and every effort will be made to maintain the same fees throughout a given academic year. The College will try to announce changes well in advance of the effective date of a change.

Requests for exemption from the above procedure must be made to the Business Office at least one week before registration. Exemptions may be granted for semesters but not for sessions and not for the student’s first semester at the College. Specifically, deferment of payment may be granted for up to 50 percent of the fees due for the semester. Students granted such deferments will be issued a payment-due date by the Business Office and will be required to certify by signature their agreement to abide by the terms stipulated.

Students who have an unpaid balance at the close of a semester will not be issued official records of any kind and will not be permitted to register again until the debt is paid. Students who have defaulted on such payments will be ineligible for further deferments.

Admissions Deposit
An admissions deposit is required of all admitted students. The deposit is credited toward the first full semester’s tuition and is ordinarily non-refundable. Failure to pay the deposit by the required date results in cancellation of admission.

Refunds
Tuition is refundable to students who withdraw from courses for whatever reason on the following pro rata schedule:

**Semester**
- During the late registration and change-of-course period: 75% (25% of the total amount will be retained)
- From the first day after the late registration period through the second week of classes: 50%
- Thereafter: no refund.

**Sessions**
- During the late registration and change-of-course period: 75% (25% of the total amount will be retained)
- From the first day after the late registration and change-of-course period through the fourth day of classes: 50%
- Thereafter: no refund.

For the refunds to apply, students should closely follow the withdrawal from courses procedure as described in the Academic Regulations section of this catalog.

The international student fee is not refundable.

Under no circumstances will other arrangements (eg. crediting payments for application to later fees) be made for students withdrawing from the College.

Penalties
It is the responsibility of the student to see that all outstanding obligations to the College are met by the required deadlines.

Outstanding obligations to the Business Office must be cleared in order to obtain grades, transcripts, diplomas, or other official papers.

No student will be allowed to register or graduate if they have overdue Business Office payments.
Academic Policies Governing the Deree US Degree

Regulations, Policies and Procedures
These Academic policies are largely common for both the Deree US degree and the Open University validated award. Differences are pointed out in relevant sections.

The term “the College” refers to Deree - The American College of Greece; “the University” refers to the Open University, UK “Course” designates a unit or module of study and “program” refers to the courses taken by a student in fulfilling the requirements of the academic award for which they registered. “Faculty” indicates academic staff, and “staff” non-academic staff. The term “re-enrollment” refers to a student taking a course that they have previously withdrawn from prior to an assessment having taken place. The term “resi” refers to the re-assessment of a student after an initial failure in one or more assessment components of a course, a “relate” refers to the opportunity to repeat a course (with attendance) if a student has failed a resi. Results are administered on The American College of Greece campus premises only.

Any change to these regulations must be considered and endorsed initially by the Committee on Academic Standards and Policies (CASP) and then by the Academic Council and the Deree Faculty Assembly. Agreed changes will require the approval of the Open University, UK (for regulations pertaining to validated courses and programs) and the Deree Faculty Assembly. The Faculty Assembly also approves all proposed changes that refer to the programs leading to the Deree US degree.

Any changes to the academic regulations are normally introduced at the start of an academic year. In exceptional circumstances, it may be necessary to introduce a change during that same year. In such circumstances, the students affected by the proposed change will be consulted, and the Committee on Academic Standards and Policies (CASP) and the Academic Council must satisfy themselves that students will not be disadvantaged by the change. Occasionally a program may require a variation from these regulations. In such a case, the required variation concerning a validated course or program must be specifically approved by the Open University at the initial validation or subsequent revalidation of the program.

All student petitions for exemption must be submitted to CASP unless otherwise provided for in these regulations.

In the US system of education, the cumulative index (CI) is the average of all the grades of all semesters of study.

Students are in good academic standing when their CI is 2.00 and above.

Admissions
Deree - ACG follows a rolling admissions enrollment process and applications for admission are accepted throughout the year. Recommended application deadlines are as follows.

<table>
<thead>
<tr>

Deree’s admissions process is selective. Each application is assessed on its individual merits and qualities.

All applications and supporting materials are retained by the Office of Admissions. All materials are kept on file under conditions of security and strict confidence, and in accordance with the provisions of Regulation (EC) 2016/679 of the European Parliament and of the Council ("General Data Protection Regulation") and the Greek legislation on the protection of personal data (Law 4424/2019), as in effect from any given time (the “Personal Data Legislation”).

If an admitted applicant is not registered they remain active for one year before their materials are destroyed.
Academic Policies Governing the Deree US Degree

The following is required for all freshmen applicants:
1. Completed application form
2. Personal statement
3. Letter of recommendation from an academic teacher or professor
4. Official secondary school transcript(s) and diploma(s)
5. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
6. Evidence of proficiency in English.

Candidates will attend an interview with a designated College representative after all application material has been submitted. The interview will consist of a discussion of the candidate’s academic and other achievements for the purposes of candidate assessment. The Admissions decision will be communicated to the candidate within 10 working days following the interview.

Evidence of Proficiency in English
All applicants must demonstrate proficiency in the English language either by taking the College’s English Placement Test (Oxford Online Placement Test) or by submitting any evidence derived from one of the following tests:
- Pearson Test of Academic English (PTE Academic): 58 or greater
- Michigan State University Certificate of Language Proficiency (MSU-CELP)
- Michigan Proficiency Certificate
- Cambridge Proficiency Certificate
- Cambridge Advanced English (CAE) with Grade A only
- International Baccalaureate Diploma
- IELTS: (academic) 6.5 or above
- SAT: 450 or above
- ACT: 18 or above
- TOEFL (paper based): 567 or above
- TOEFL (internet based): 87 or above
- TOEFL (computer based): 227 or above
- GCE higher level English: Grade C or greater
- Oxford English Placement Test: 99 or above

*Certificate Minor students who do not meet the language requirements can be conditionally admitted and begin taking for-credit courses if they meet the following criteria:
- high school (lyceum) diploma above 18
- student academic index (counselor’s interview assessment) above 80
- minimum score of 97 in the Oxford Online English Language Placement test

Such provisionally admitted students can register for their second semester only if they have a first semester grade point average of at least 3.0. Otherwise, they must take and pass the Oxford Placement test with a score of 99 or above.

Applicants presenting a TOEFL score should arrange to have the test results sent directly to the Office of Admissions by the Educational Testing Service (ETS). The College’s Institute Code Number is 0925. TOEFL scores are valid for two years.

Students may also qualify to take WP 1010 by submitting evidence of fluency based on graduation from an English-language secondary school or program.

The above listed grades qualify the student for placement directly into WP 1010. Applicants who do not qualify for WP 1010 but who otherwise show academic promise are required to follow the English for Academic Purposes Program (see section “Academic Writing”).

Academic Policies Governing the Deree US Degree

Registering for the Placement Tests (English and Mathematics)

The English Language Placement Test
Upon submission of their application to the Office of Admissions, students who have not demonstrated proficiency in English, will also register for the College’s English Placement Test. The test is free of charge.

The College uses an online placement test, designed to measure test takers’ ability to communicate at different levels of English language proficiency in accordance with the Common European Framework of Reference (CEFR).

The results of the test, which are placed in the student’s folder, determine which English course students will be required to take and they are not communicated externally.

The Mathematics Placement Test and waivers

New students who need to enroll in MA 1008 College Algebra must take a placement test. The placement test is offered on specified dates before the beginning of each semester or session. Students may take the test more than once, but only on the test dates available during the same semester/session. Students who do not pass the placement test will have to enroll in MA 1004 Intermediate Algebra and complete it successfully before registering in MA 1008 College Algebra.

Students who believe they may have the verifiable knowledge to waive MA 1004 Intermediate Algebra and possibly MA 1008 College Algebra will need to provide the necessary evidence (e.g., grades in mathematics in the Panhellenic Exams, International Baccalaureate, SAT, ACT, AP, GCSE, IGCSE, GCE) to the Validation Office for evaluation.

Panhellenic Math Exam
A student with a score of at least 10/20* waves MA 1004 while a student with a score of at least 13/20* waves both MA 1004 and MA 1008.
* Subject to future revision.

International Baccalaureate (IB) Math Exam
Math IB has four levels: (i) Math Studies, (ii) Standard Level, (iii) High Level and (iv) Further Math.
- (i) Math Studies IB: A student with a score of at least 6/7 waves MA 1022.
- (ii) Standard Level (IB): A student with a score of at least 5/7 waves MA 1022, while a student with a score of at least 6/7 waves both MA 1022 and MA 1008.
- (iii) High Level (IB): A student with a score of at least 4/7 waves MA 1022, while a student with a score of at least 5/7 waves both MA 1022 and MA 1008.
- (iv) Further Math (IB): A student with a score of at least 4/7 waves MA 1022, while a student with a score of at least 5/7 waves both MA 1022 and MA 1008.

American College Testing (ACT) Math Exam
A student with a score of at least 20 waves MA 1004 while a student with a score of at least 23 waves both MA 1002 and MA 1008.

Scholastic Assessment Test (SAT) Math Exam
A student with a score of at least 24 waves MA 1002 while a student with a score of at least 26 waves both MA 1002 and MA 1008.

Student Visas and Residence Permit

In accordance with Greek law, citizens of countries that are not members of the European Union or parties to the Schengen Agreement who wish to study in Greece must obtain a student visa or residence permit before enrolling at the College. Please note that you will not be able to enroll as a student at Deree - ACG until you have a valid student visa or residence permit.
Concurrent enrollment is not being able to register. Failing to apply within this period would automatically lead to a visa hold for the next semester, thus not being able to register.

Concurrent enrollment is mandatory. Students should not skip a semester of classes and should have a good academic standing throughout the duration of their studies. It is the student’s responsibility to attend the information session at Orientation and visit the ISS office at the beginning of their semester at ACG in order to start the process, check their emails and follow each step of the process on time.

Permanent Records
The Office of Admissions creates files for students when they apply for admission to Deree. In the course of the students’ studies, their files are updated with documents and official records indicating their status at any given time. As long as a student is enrolled at Deree - ACG, the file remains in the registrar’s active records. Following graduation, these files are kept in storage for one year after the student completes their studies. The files are kept in accordance with the provisions of the applicable legislation on personal data, namely, the Regulation (EU) 2016/679 of the European Parliament and of the Council (General Data Protection Regulation) as well as the applicable Greek legislation regarding the current protection of personal data.

Transfer Students Admission Procedure
Applicants who have started their college studies elsewhere and intend to become candidates for a degree at Deree - ACG are required to submit the following.

1. Completed application form
2. Personal statement
3. Letter of recommendation from an academic teacher/professor
4. Official College/University transcript or transcript with a catalog (if applying for transfer credits). Transfer students who have completed fewer than 30 credit hours must also submit an official secondary school transcript or transcripts and diploma (see “Admission with Credit” section).
5. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
6. Evidence of proficiency in English. Non-native speakers of English who have not completed 30 semester credit hours or the quarter system equivalent (three quarters) and who do not have a secondary school diploma from a school where the language of instruction is English must meet the English language admissions requirement (see “Evidence of Proficiency in English” section).

Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the candidate’s academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

The following are required for all non-degree applicants:

1. Completed application form
2. Personal statement
3. Official secondary school transcript(s) and diploma(s) or official College/University transcript(s)
4. Certified copy of the state identity card or a valid passport for non-Greek citizens (and residence permit, if applicable)
5. Evidence of proficiency in English (see section “Evidence of Proficiency in English”)

Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the candidate’s academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

If a non-degree student should subsequently decide to pursue a degree at the College, they must request a change of status at the Academic Advising Office. The student will be eligible to follow the Deree US degree. No more than 32 US academic credits earned while the student’s status was non-degree may be applied to toward the US degree unless special permission is granted by the respective academic dean and CASP. If the student wishes, and is eligible, to pursue a Deree US degree and an Open University validated award, they must follow all rules in effect at the time they become a degree student. Please note that a student may change status from non-degree to degree or vice versa only once and only with regard to the Deree US degree program.

Non-degree students who become degree students must follow the degree programs in effect at the time they become degree students.

Students pursuing degrees at other accredited institutions who wish to take courses at Deree - ACG and transfer the credits back to their home institutions may enroll as non-degree students. They should submit their application form with the required tuition fee(s) to the Office of Admissions. They should also submit a transcript from an accredited institution as evidence of being in good academic standing.

Non-degree students must observe all College academic requirements, including prerequisites and course levels.

Pre-Collegiate Program
Every summer, students ages 16-19 are offered the unique opportunity of taking a College course at Deree - ACG as non-degree students.

The Pre-Collegiate Summer Program, which takes place during Summer Session II, offers students a variety of college level courses to choose from. Upon successful completion of a course, they can earn academic credit toward a future bachelor’s degree. During their participation in the program, they can take advantage of all benefits enjoyed by Deree students, including access to the library and use of the athletic facilities.

Students who decide to earn a bachelor’s degree at Deree may be eligible for Merit Scholarships.

The following are required for all pre-collegiate program applicants:

1. Completed pre-collegiate application form
2. Personal statement
3. Official secondary school transcript(s)
4. Certified copy of the state identity card
5. Evidence of proficiency in English (see “Evidence of Proficiency in English” section)
Candidates will attend an interview with a designated College representative after all application material has been submitted. The purpose of the interview is to assess the candidate’s academic and other achievements. The admissions decision will be communicated to the candidate no more than 10 working days after the interview.

If a student who has completed the pre-collegiate program wishes to enroll at Deree - The American College of Greece, after receiving the Lyceum Apolyterion, then they need to apply to be readmitted from the pre-collegiate program and follow the admissions process for degree-seeking students (see “Admissions Process” section).

Application Process Timeline
Applicants submit their applications either online or directly in person. The application process timeline is as follows:

1. Application is received - applicant receives a response within two working days with information on the application documents they need to submit.
2. All application documents are received - applicant receives an interview notification within two working days. The interview can be face-to-face or via phone/Skype. The interview is a 30-minute question-and-answer session conducted to assess an applicant’s profile through a discussion on their academic and non-academic achievements.
3. Interview has been conducted - applicant receives the admissions decision no later than 10 working days after the interview. During peak admissions registration periods (July - September for the Fall Semester), when applicants may submit their application and supporting application documents in person, the interview and the communication of the admissions decision can occur on the same working day.

During peak admissions registration periods (July - September for the Fall Semester), where applicants may submit their application and supporting application documents in person, the interview and the communication of the admissions decision could be done on the same working day.

Special Arrangements
Applicants who are experiencing challenges within the educational setting and require assistance should inform their admissions counselor, who then informs the educational psychologist. The educational psychologist meets with the applicant to evaluate any learning difficulties and determine remediation to alleviate problems and enhance learning. The educational psychologist also offers psycho-educational intervention, coordination, and referral to other professionals. All services are provided confidentially and free of charge.

Applicant Grievance Procedure
The purpose of the Applicant Grievance Procedure is to ensure openness and fairness for both applicants and the admissions staff. It is an opportunity for applicants to raise matters of concern and for the College to resolve complaints about the admissions process.

General Principles
- Any individual who has submitted an application for undergraduate or graduate studies can use the Applicant Grievance Procedure, which explains how they can make a complaint about the admission process.
- Deree - ACG ensures that all grievances are handled promptly, fairly and with procedural consistency. Deree - ACG does not discriminate against any applicant who makes a complaint. All grievances are dealt with confidentially.
- Every effort is made to resolve an applicant’s grievance amicably and to the satisfaction of all concerned without the necessity of a formal complaint. Applicants whose grievances cannot be resolved informally or who wish to appeal an admissions decision should follow the procedure for a formal complaint or appeal.

Procedure for formal complaint / appeal
- All grievances must be addressed on an individual basis to the dean of admissions (contact details are available at www.acg.edu).

• All grievances must be submitted in writing. Candidates should clearly state their complaint and provide specific facts to support their claim. They should also include their full name and contact information.
• An applicant can submit a grievance for up to 10 working days of the action they are complaining about.
• The dean acknowledges receipt of the complaint and investigates it with relevant staff and any relevant third party, and issues a final response within 14 working days.
• If the applicant is dissatisfied with the dean’s decision and wishes to pursue the matter further, they can submit a formal appeal to the senior vice president, whose decision is final.

Dual Degree Programs
All degree-seeking students entering Deree - The American College of Greece will be required to register for both the US, NECHE-accredited, bachelor’s degree, and the European - UK award validated by the Open University.

The following students may be exempted from this rule:
- a) Students pursuing parallel studies at a Greek university or TEI.
- b) Transfer students who have transferred 92 US credits or more applicable to their program.
- c) Readmitted students who have interrupted their studies before 2010.

Students who wish to be considered for an exemption must petition the Committee on Academic Standards and Policies through the Student Success Center no later than one month after their initial registration at Deree.

Admitted students with special needs for whom the educational psychologist recommends significant accommodations can request exemption from completing the OU-validated award or opt out of the OU-validated award and a Deree degree only.

The purpose of the latter an exemption is to provide accommodations not easily available within the framework of OU program requirements. The application process must be initiated by the student, who submits all supporting documentation to the College educational psychologist.

All the following steps must be completed before a decision is reached:
- a. Submission of application by the student on a Standard Petition Form with all supporting documentation attached.
- b. Evaluation by the educational psychologist.
- c. Approval of eligibility by the Disability and Learning Differences Committee.
- d. Submission of a letter by the student’s academic advisor recommending the student be exempted and complete a special program.
- e. Approval by the department head of the student’s academic area (major). Such approval must be accompanied by a detailed report on how the US Deree degree (eg, replacement of courses or other special arrangements) can accommodate the student’s needs while ensuring that program learning outcomes are met.
- f. Approval by the Committee on Academic Standards and Policies.
- g. Approval by the chief academic officer.

After the chief academic officer approves the request, the student will be required to meet the specific program requirements as approved and meet all other graduation requirements to be awarded the US Deree degree in the selected and approved major(s).

Undergraduate study at Deree - ACG requires four years (eight regular terms) of continuous and mandatory attendance.

The Deree US program requires that students complete 121 US credits toward a bachelor’s degree. The Open University validated programs require that students complete 360 UK credits toward an honors bachelor’s award (one US credit = five UK credits). These 360 credits correspond to a total of 24 courses which are evenly distributed...
Academic Policies Governing the Deree US Degree

Academic Policies Governing the Deree US Degree

Subject to the requirements set out above, students may be admitted with exemption from certain elements of a syllabus that she or he had followed. In addition, the College will need to establish to its own satisfaction the standard of achievement required for the qualification obtained by the student, and the reliability of the quality assurance procedures used by the student’s previous institution. The College reserves the right to undertake its own assessment of the student’s prior learning by setting one or more waiver examinations with credit.

Recognition of Prior Experiential Learning (Waiver Examinations) [RPEL]
Exemption (with credit) may be granted for learning that has been achieved outside the formal education and training system, or for learning that cannot be verified by the procedures set out in the “RPCL” section. In these cases, students are required to sit one or more waiver examinations with credit. The mode of assessment to be adopted for a waiver examination is proposed by the faculty with responsibility for the course(s) from which exemption is being sought. In cases of performance courses such as in art, theatre, dance, and music, the waiver examination with credit must include a portfolio of work and/or an audition.

Once the application for RPEL via an examination is approved, a fee of 90 Euros per credit hour to be assessed will be charged to the student. Each student is limited to 12 credit hours of RPEL credit.

Other RPCL/RPEL Policies
Students can only be exempted from (or granted credit for) a maximum of 34 US (180 UK) credits for credit transfer (see “RPCL” section) comprising no more than 24 US (120 UK) credits at Level 4 and 12 US (60 UK) credits at Level 5. Students cannot be exempted from (or granted credit for) courses at level 6.

The relevant department head(s) or area coordinator(s) are responsible for the approval of claims for credit with exemption. Approval should not be given without prior consultation with the Advising Office and the Validation Office. The Validation Office maintains a record of all claims that have been approved, and it is responsible for informing the registrar. The Advising Office and the student can view the outcome of a claim through the College student management software.

Transfer credits are not granted toward College-wide English course requirements for courses taken at a college/university where the language of instruction is not English. Transfer credit is not given for foreign language courses in a student’s native language except in literature.

Diagnostic examinations are mandatory for foreign languages and are given to all registered students. Credit is not awarded for RPEL in foreign languages. Students are placed appropriately into foreign language courses according to the results of the examinations.

Grades are not assigned to credits awarded under the procedures described in this section. For transfer courses students must have earned a minimum grade which is equivalent to a “C” in the Deree grading scale (see “Grades” section).

Credit by Assessment for Professional Experience
Credit by assessment may be earned for experiential learning (professional experience) by experienced professionals* who wish to begin or complete their studies. Such credit may fulfill up to 36 US credits required for a degree.

No credit by assessment can be awarded for Level 6 courses. No credit by assessment can be awarded for more than four Level 5 courses.

The method of assessment, the number of credits to be earned and the course(s) for which experiential credit will be given will be decided by the relevant academic department(s) depending on the disciplines for which credit has been requested. The academic department of the student’s declared major will report the results of the assessment to the relevant school dean for approval. The Office of the Dean will send the final approved evaluation to the Registrar’s Office.

Once the application is approved, a fee of 90 Euros per credit hour to be assessed will be charged to the student.

*Students must submit an application in order to take advantage of the Credit by Assessment program. The application includes an updated resume and a statement that describes knowledge and skills gained through experience-based learning and how they relate directly to course(s) for which credit requested. Students may also submit certificates of training, work samples, and other documents appropriate as evidence of equivalent to college learning.
Evaluation of Transfer Credits Process

The transfer credit process begins immediately after the student’s first registration and only after the student has submitted both the official transcript(s) and the course syllabi or descriptions of substantial length from official publications of the institution. Course syllabi may be required for a better evaluation of the student’s completed prior academic work. All submitted documents not in English or Greek must be accompanied by certified English or Greek translations and must be submitted to the Validation Office before the end of the student’s first semester. The assessment process of the student’s prior academic work will be completed no later than two months (excluding vacation period) after the student has submitted a complete folder of the required documents as stated above.

Students cannot be granted credit (or be exempted from) courses at Level 6 and/or for more than four courses (ie 12 US credits or 60 UK credits) at Level 5. All transfer credit requests are handled by the Validation Office. All final decisions on transfer credit are made by the academic departments.

Parallel Studies (Degree Seeking Students)

Degree-seeking students who are attending another accredited higher education institution during the time they are enrolled at Deree - ACG must abide by the “Admission with Credit” section. Parallel studies degree-seeking students may request from the academic departments and via the Validation Office approval (pre-authorization) of courses they wish to take at another accredited institution of higher education in parallel with their studies at Deree. However, regardless of credits transferred, these students must meet the residency requirement of Deree (see “Residency Requirement” section).

Certificate Minor Program

Students or graduates of accredited institutions who do not want to follow a Deree major, may complete a Certificate Minor program. Those students must complete all the requirements of one of the Minors offered at Deree in order to be awarded a Certificate. [See also section Minor]. Students who follow the Certificate Minor program are non-degree students.

Deree students or graduates may follow a minor as part of their degree. The minor will be printed on their transcripts.

Academic Advising

All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Academic Advising gives students the opportunity to become acquainted with rules and regulations concerning Deree - ACG and Open University. Effective academic advising provides specific aid to students in considering and completing academic programs, but it goes beyond mere course scheduling; it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters.

The College assigns all entering freshmen an advisor from the Academic Advising Office; these students along with continuing Deree students who have less than 51 credits are required to consult every semester with their academic advisor in order to be able to register for the upcoming semester/session.

Thereafter (more than 50 credits), the advising program is faculty-based and fosters personal contact between students and faculty. Department heads, assistant department Heads and area coordinators act as educational consultants. Students, however, who have more than 50 credits but are on academic probation (CI less than 2.00) are still required to make an appointment each semester with their advisor from the Academic Advising Office.

Students must consult with their advisor regularly and discuss their schedules each semester and session. The College expects that students will follow their advisor’s guidance; otherwise they will potentially risk not having fulfilled their programs’ requirements by the desired date of graduation.

One must bear in mind that advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Residency Requirement

All students seeking a Deree US degree, regardless of number of credits accumulated through advanced placement, transfer, parallel studies, (see “Parallel Studies” section), or semester/year abroad, must meet Deree’s residency requirement by completing at least 36 US (180 UK) credits (beyond the introductory 1000-level courses) from the area of concentration (at least four Level 3 courses and eight Level 6 courses) of their major(s) at Deree - ACG. Moreover, students must complete the capstone course(s) of their major(s) at Deree - ACG and complete their last 30 US credits at Deree - ACG.

Full-Time and Part-Time Students and Student Course Load

For academic purposes all students are assigned either full-time or part-time status. A full-time student is one who registers for at least 12 US credit hours per semester, a part-time student is one who registers for 11 or fewer US credit hours. Students who want to take more than five courses per semester for credit or non-credit must have completed a minimum of 30 US credit hours with a cumulative index (CI) of 3.00 or above. In any event, students may not register for more than six courses and no more than four of these should be toward their validated award in any given semester. In addition, students should not register for more than two courses in summer sessions, of which no more than one course should be toward their validated program. Students should not register for more than 120 UK credits toward their validated award in any given academic year.

Students are strongly urged to plan their schedules with their advisors appropriately if they wish to fulfill the requirements of their major within an optimum period of time.

Student Classification

In the programs leading to the Deree US degree, students are classified according to the number of US credits accumulated as follows: freshman, 0-29; sophomore, 30-59; junior, 60-89; senior, 90 and above. This classification does not apply toward the Open University validated award where student classification relates to Levels 4, 5 and 6 (see “Credit Structure and Award” section).

Academic Writing

The College has established certain requirements in English language proficiency to ensure that students are adequately equipped linguistically to pursue college-level studies. All students must abide by the College’s policy regarding placement in English language and writing. For specific information on English proficiency credentials, see “Evidence of Proficiency in English” section.

All students are required to take WP 1010 Introduction to Academic Writing as soon as they qualify for it and to complete the Writing Program sequence WP 1010, WP 1111, and WP 1212 without interruption. In case of withdrawal from one of those required courses, the course must be taken the following term.

Students who do not qualify for WP 1010 are required to follow the English for Academic Purposes Program (EAPP) by enrolling in EAP 1000, EAP 1001, or EAP 1002 (all bearing non-graduation credit), depending on the student’s level of English. Students enrolled in EAP 1001 and EAP 1002 may take up to two other courses concurrently after securing the approval of an advisor from the Academic Advising Office. Students may not take EAP 1000, EAP 1001, or EAP 1002 more than twice.

Students who do not satisfactorily complete an EAPP course after registering for it a second time will be dismissed from the College. They will be readmitted to the College only if their score on any one of the English language test accepted by Deree (see “Evidence of Proficiency in English”) qualifies them for direct admission into WP 1010, and
Academic Policies Governing the Deree US Degree

if their readmission is approved by the Committee on Academic Standards and Policies. Those students may also retake the College English Language Placement Test no sooner than one semester after their second EAPP course failure and only once every six months.

Non-graduation credits for preparatory courses (EAP 1000, EAP 1001, EAP 1002) are not transferable to a Deree degree.

Dean’s List (applicable toward the Deree US degree only)

Full-time degree seeking students who attain high academic standing in any semester through a GPA of 3.4 or above are placed on the Dean’s List, which is noted on the students transcript, for that particular semester.

Academic Probation (applicable to the US Degree only)

If a student’s CI remains below 2.00 for more than two consecutive semesters and sessions, at the end of this period the student’s record will be examined by the Committee on Academic Standards and Policies (CASP). The student will be dismissed for at least one semester and session unless their performance has been affected by mitigating circumstances. A dismissed student may be readmitted only once in order to raise their CI to at least 2.00. CASP will determine whether the student can be readmitted as well as the conditions for readmission to the US Deree degree.

If a student is required to withdraw from an Open University validated award but their CI is at least 2.00, they may continue toward the Deree US degree provided that they will fulfill all the requirements of that degree. All Deree students need to have attained a CI of at least 2.00 in order to be awarded a US Deree degree.

The probation policy applies fully to those students who have been admitted on a provisional basis.

CASP will examine the academic record of students on probation who return from a period of deferral of studies and set conditions for the continuation of their studies or their dismissal.

Students are in good academic standing when their CI is 2.00 and above.

Credit Structure and Awards

Students receive academic credit for the achievement of the learning outcomes of a course. A credit value, specified in terms of the number of credits, is assigned to each course. In the UK system, the basic unit of credit relates to 10 hours of notional learning time. Notional learning time is defined as the reasonable measure of the time it would take a learner, adequately supported, to achieve the learning outcome of the activity; it includes instructional hours, and the time spent in assessment and independent study.

In the US system, one credit hour is roughly equivalent to one hour of instruction per week for 14 weeks (or about 700 minutes). Most courses carry three credit hours. Some courses, however, may require additional work, such as laboratory sessions, tutorials, internships, recitation sessions, or field trips. In the College’s curriculum, one US credit equals five UK credits.

For the purpose of the Open University validated award, [program] courses are distributed into levels 4, 5 and 6. Although these levels do not apply toward the Deree US degree, these courses simultaneously fulfill Deree US degree requirements. However, all programs leading to the Deree US degrees have additional credit requirements.

The programs validated by the Open University comprise courses generating credit at Levels 4, 5 and 6. Levels are conceived progressively, with increasing demands being placed upon learners as they undertake learning at higher levels. The College has adopted generic credit level descriptors as guidance for the design, delivery and assessment of courses.

Learning accredited at each level will reflect the student’s ability to:

Level 4
Develop a rigorous approach to the acquisition of a broad knowledge base; employ a range of specialised skills, evaluate information using it to plan and develop investigative strategies and to determine solutions to a variety of unpredictable problems; operate in a range of varied and specific contexts taking responsibility for the nature and quality of outputs.

Level 5
Generate ideas through the analysis of concepts at an abstract level with a command of specialised skills and the formulation of responses to well defined and abstract problems, analyse and evaluate information, exercise significant judgement across a broad range of functions, accept responsibility for determining and achieving personal and/or group outcomes.

Level 6
Critically review, consolidate and extend a systematic and coherent body of knowledge utilising specialised skills across an area of study; critically evaluate new concepts and evidence from a range of sources; transfer and apply diagnostic and creative skills and exercise significant judgment in a range of situations, accept accountability for determining and achieving personal and/or group outcomes.

The Open University awards offered by the College are Honours awards. In addition, exit awards are offered. Ordinary degrees leading to the BSc Ordinary and BA Ordinary Awards, the Diploma of Higher Education (DipHE) and the Certificate of Higher Education (Cert HE).

* Exit awards are not progress awards, they are awarded to students who find themselves unable to complete the requirements of an Honours award.

The credit requirements for each of these awards are as follows:

Deree - ACG awards US Bachelor of Science (BSc) and Bachelor of Arts (BA) degrees upon successful completion of the particular requirements of a program comprising 121 US credits.

Course Level and Number System

All courses are one-semester courses and are assigned a four-digit number. In non-Open University validated courses the first digit indicates the classification of the course in relation to rigor; the second, the number of prerequisites; and the third and fourth, the registrar’s designation. Open University validated award course levels are designated where appropriate according to the “Credit Structure and Awards” section.

Non-Open University validated courses at the 1000-level are designed primarily for freshmen; 2000-level courses are designed for sophomores but may be taken by qualified freshmen; 3000-level courses are intermediate, normally open to students who have completed 1000- or 2000-level courses in the same area; 4000-level courses are upper level, open chiefly to seniors, but also to qualified juniors. These levels do not correspond to Levels 4, 5 and 6 of the Open University validated courses (see above).

Inbound study abroad students are advised to follow the following course selection advice. Level 4 courses are suitable for sophomores, juniors, and seniors. Level 5 courses are suitable for juniors, and seniors. Level 6 courses
are suitable for advanced juniors, and seniors. Non-level-designated courses are normally open to freshmen, sophomores, juniors, and seniors.

The College may, at times, offer courses that are not included in the catalog. Such special topics courses appear in the schedule of classes with a special topic designation letter ‘X’ added to the course rubric (eg. MGX).

The numbers following the course description indicate class hours per week in a normal semester, laboratory, internship or studio hours, and semester credit hours. Thus, 3/2/4 means three hours of class, two hours of laboratory or studio, and four US credit hours for the course. A schedule of classes is available through the student online registration interface. The specific requirements of the various disciplines are listed in the programs.

Prerequisites
Regardless of the program followed, students are not permitted to register for courses for which they have not met the prerequisites as stated in the latest College catalog, whether in the form of credits earned, credits transferred, RPCEL, RPEL (see “Admission with Credit” section) or waivers. Should a student be enrolled in a course for which they have not fulfilled the prerequisite(s), their registration for that course will be cancelled by the Registrar’s Office.

The number of prerequisites for a course is indicated by the second digit of the course rubric.

Directed Study
Students must consult with their advisor regularly and discuss their schedules each semester and session. The College expects that students will follow their advisor’s guidance, otherwise they will potentially risk not having fulfilled their programs’ requirements by the desired date of graduation. In very exceptional cases, students may register for the course they need in order to fulfill requirements in their major under directed study, which is given on an individual basis upon the agreement of a supervising instructor. The student must submit to the Registrar’s Office a petition bearing the signatures of the instructor who will supervise the directed study, the advisor, and the academic dean who will closely scrutinize the justification for directed study. The credits carried must be equal to those of the course and the course material covered must be as specified in the syllabus.

At the outset of the semester or term, the instructor and student agree on a course outline which specifies scheduled meeting times, course content and deadlines for the submission of assessments. Meeting times may follow the regular semester [3hrs per week of class time], term, or session instruction schedule [10hrs per week of class time], or a combination of modes involving face-to-face meetings, online instruction or other equivalent means of instruction and learning.

The directed study is subject to the same attendance requirements as a regular course and should observe College regulations concerning submission of assessments (including the use of Turnitin). Specifically, the attendance requirements are that at least 80% of the scheduled times for face-to-face instruction, meetings, online engagement and assessments must be met.

To be eligible for directed study, students must be in good academic standing (CI > 2.0) and must have met the prerequisites for the required course.

Supervised Work Experience (Internships)
Specific programs may require supervised work experience that awards academic credit in the context of a specific course in the curriculum. The number of credits to be earned is specified by the particular program. Students must consult with their advisors in order to make internship arrangements.

Auditing
To audit a course is to attend classes without taking the course for credit. Upon the recommendation of the student’s advisor, and the approval of the instructor concerned and CASP, students may register to audit courses. Auditing is permitted only for courses that are not part of the student’s degree program. Audited courses are subject to regular tuition fees and follow the College’s calendar. The designation NC (Non Credit) is entered on students records for audited courses provided the attendance requirements have been met; otherwise, a W (Withdrawal) is recorded. The same course cannot be retaken for credit.

Registration Policies
Students will register for a non-conferrable Open University award once they have achieved the prerequisites that will enable them to commence their studies at Level 4. For the purpose of initial registration this award will be BA Combined Studies. On completion of their studies at Level 4, students will transfer their registration to one of the conferrable Open University validated awards.

For an Open University award, students may remain registered with the University for a period of three years beyond the expected date of graduation. If a student wishes to complete a program of study after this date they must re-register and pay the appropriate fee. The maximum period of registration for an Open University validated award is ten years.

Students should consult with their advisors if they wish to defer their studies, withdraw from a course, or to transfer registration from one course or award (major) to another. Applications for deferral, withdrawal or transfer should then be lodged either with the Registrar’s Office or the Student Success Centre. Applications are then considered by the Committee of Academic Standards and Policies (CASP). Its decisions will be governed by the following regulations:

Students are permitted to change a course within the first two days of teaching. Beyond this period, students may withdraw from a course within the first two weeks of teaching whilst retaining the right to re-enroll in the said course in the future. Changes after this deadline will only be considered in exceptional circumstances. Students shall not be permitted to withdraw from a course and then subsequently re-enroll in a course after the submission or completion of the first summative assessment for the course or courses concerned. Students are not permitted to withdraw from a course for any reason following the end of semester/term/session.

The maximum number of retakes allowed in a program leading to an Open University award is 10. If a student fails a validated course more than two times they may be required to withdraw from the OU validated award unless CASP has accepted the student’s petition for mitigating circumstances. The final decision is made by the Board of Examiners. Students have the option of using some of the 10 retakes for nonvalidated courses. However, the total number of retakes allowed toward both the Deree US degree and the OU validated award is 10. When students take a course, they are required to submit and be assessed on new assessments not used during the previous time(s) they took the course.

The decision to permit a student to transfer from one course or award to another will be governed by the enrolment limits on the course(s) to which the student wishes to transfer, the possession by the student of the necessary prerequisites (see “Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards”), and an assessment of the student’s ability to meet the requirements for the award for which they are registered.

If an undergraduate student is inactive for more than two consecutive semesters and wishes to return to Deree - ACG College, they will be required to apply to the Admissions Office for readmission. No deferral of studies petition is necessary if a student does not plan to register for only one semester and/or a summer session(s).

Applications for deferral of studies should be supported by evidence of relevant mitigating or extenuating circumstances (see “Academic Probation” section).

For the Open University award, the Validation Office will be responsible for notifying the University of the number and registration details of all students entering the programs that it has validated. The Validation Office will ensure that the University is also notified of any changes to a student’s initial registration.
The general requirements for concentration in a program leading to a Deree US Bachelor’s degree:

- All programs for the US Bachelor of Arts and Bachelor of Science degrees have a Liberal Education (LE) curriculum in common. The LE curriculum comprises specially designated core and elective courses in a variety of fields. They fulfill competencies that are considered important in providing a broad educational experience to all students across all Schools.

- The LE curriculum comprises of specially designated core and elective courses in a variety of fields. They fulfill competencies that are considered important in providing a broad educational experience to all students across all Schools.

- Students admitted on a provisional basis will be required to register according to their English Language Placement test (see ‘The Admissions Process’ section). However, in no case can those students register in more than four courses during a semester or in no more than one during any session.

- Students who decide to change their US degree major should consult with their advisor. All credits earned will be computed in the student’s grade average whether they count toward the new major or program or not, the omission of any courses or grades from their transcript is not permitted.

- Students who plan to study abroad for one or two semesters and who want to transfer credits earned abroad to Deree - ACG must secure the approval of both the department head(s) and an academic advisor of the Academic Advising Office for the course(s) they intend to take abroad one semester in advance. All students who wish to take courses abroad must submit, along with the petition, a catalog of the accredited college or university they plan to attend or details of the programs they plan to follow and, if possible, syllabi of the courses they intend to take. Accompanied by certified English or Greek translations if original transcripts are in a third language.

- Students who want to study abroad at an affiliated institution must have attended Deree - ACG for at least one semester, have passed WP1010 with a grade of B or equivalent (see next paragraph), have completed a minimum of 30 US credits with an overall CI of 3.0 or above, and have an exemplary discipline record. Such students are considered to be exchange students and continue to be matriculating at Deree - ACG while studying abroad.

- Those interested must contact the Study Abroad Office at least a semester before they intend to begin their study abroad.

- Certificate Minor students must submit to the College evidence of English proficiency that places them in WP 1010 or above (see ‘Evidence of Proficiency in English’ section) either before they enter their second semester at Deree or before they start their study abroad program. Those students are advised to have satisfied the English language proficiency requirement before they make any arrangements for studying abroad.

- Students cannot be granted credit for, or exempted from, courses at Level 6 unless a course is required in their minor. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see “Grades” section). All transfer credit requests are handled by the Validation Office.

- Requirements for the US Deree Bachelor’s Degree (available to students eligible for distance learning classes)

  - All programs for the US Bachelor of Arts and Bachelor of Science degrees have a Liberal Education (LE) curriculum in common. Student Matriculation and Original Program

For the US NECHE-accredited degree students have the right to complete their studies in accordance with the educational programs and requirements in effect at the time they were first admitted to the College. The maximum period of matriculation for a US NECHE-accredited degree is 10 years.

If the degree requirements should change during the student’s period of studies at the College, the student may choose to complete those degree requirements in effect upon entry or any other set of requirements introduced subsequently and prior to graduation, all the specified requirements for the particular degree chosen must be met.

Students must observe all current prerequisites for courses. Students may stay informed about current prerequisites/co-requisites of courses by consulting annually the latest online College catalog.

Re-admitted students are required to meet the program requirements in effect of their re-admission.

Two Deree US Bachelor’s Degrees

Students may be awarded a Bachelor of Science and a Bachelor of Arts by completing all requirements for both degrees. Students who pursue a Bachelor of Arts degree and a Bachelor of Science degree for disciplines that are in the same School will receive two US degrees.

Major Requirements

Students at Deree - ACD must select one of the following types of majors:
- a. single major
- b. double major

a. Major

The minimum requirement for a major concentration is 12 courses (36 US semester hours) in a single discipline. All students required to also pursue the validated award must successfully pass the 24 courses (360 UK credits) that correspond to the UK Levels 4, 5 and 6 (see “Residency Requirement” section).

b. Double Major

Students may do a double major by completing all requirements of two majors, but must first secure the approval of the respective academic deans. The minimum requirement for a double major is 12 courses (36 US semester hours) in each of the two disciplines of the double major. Students must satisfy all requirements of both majors. (see the “Residency Requirement” section).

Minor

The College also offers the opportunity for students to select a minor. The minor requirements are specified in the discipline programs.

A minor represents basic yet significant knowledge in an area and consists of a clearly defined set of courses related to a field of study different from that of the student’s major. The requirement for the completion of a minor is a minimum of 15 US credits and a maximum of 19 US credits. To earn a minor, students must maintain a cumulative index (CI) of at least 2.00 in the courses of the minor.

Degree-seeking students, and non-degree-seeking students who enroll in courses outside of Greece as Deree study abroad students, may transfer a maximum of fifty percent of the credits required towards the completion of a minor. Other non-degree-seeking students must complete at least 15 US credits at Deree.

Transfer courses toward a minor are accepted only from accredited institutions. No grades are assigned to credits accepted for transfer. For transfer courses students must earn a minimum grade which is equivalent to a “C” in the Deree grading scale (see “Grades” and “Semester, Session or Year Abroad for Deree Students” sections).

For a minor to be recorded on a student’s transcript, at least fifty percent of the credits required for the minor must be earned from courses not required in the student’s major.
Academic Policies Governing the Deree US Degree

For a minor to be recorded on a student’s transcript, at least fifty percent of the credits required for the minor must be earned from courses not required in the student’s major.

In addition to existing minors listed in the catalog, students may choose an interdisciplinary minor program. Such a program must comply with the general rules of the College regarding minors. Proposals for minors must be carefully designed by students in cooperation with the relevant departments, before submission to the Curriculum Committee for approval. The same procedure must be followed for a self designed major for the US degree.

Assessment Procedure
Although courses may employ assessment instruments which perform a diagnostic or formative function, credit for the completion of a course can only be obtained on the basis of one or more summative assessments. A summative assessment provides a measure of the extent to which a student has achieved the intended learning outcomes of a course.

The assessment of a student’s academic performance requires a judgment of the quality of their work. In all cases, this assessment must be governed by criteria that are explicit and communicated to students. The general grading criteria employed by the College are set out in the “Grading” section. Faculty have developed rubrics for the assessment of students, and it is the responsibility of department heads or area coordinators to ensure that these rubrics are consistent with the program specification and other documentation approved at validation.

Examination Regulations and Procedures
Student Identity
Students must their Deree ID card with them in the examination room. The “Checking of Student Presence Procedure” is available at myACG.

Entering and Leaving the Exam
Students who arrive late may be admitted to the exam but they will receive no additional time. Students should be allowed to enter and take the exam up until a quarter of the allotted time has passed. Students should not be allowed to leave before a quarter of the allotted time has passed.

Materials that can be taken into the exam:
- Students should bring as little as possible to the examination room. Any bags, books, or notes should be placed underneath the chair.
- Food and drink (including coffee) are not permitted in the exam room, with the exception of clear bottles of water.
- Students should bring their own pens, pencils, approved calculators, and other materials they need for the exam.
- Students should not expect exam proctors to supply such materials.
- All exams should be written legibly in black or blue ink. Pencil may only be used for diagrams, graphs, etc. Exam answers written in pencil are not acceptable.

Exam Conduct
Students should aim to minimize any disturbance caused to other students in the exam which may affect their performance. Students who arrive late or leave early must bear in mind that their conduct may disturb others. Students should enter and leave an exam quietly.

Mobile Phones & Electronic Devices
Mobile phones and electronic devices must be switched off - not on “silent” - in clear view and placed underneath the chair. If students use or attempt to use their phone/electronic device during the exam it will be regarded as a disciplinary offence. Students will be held responsible if their mobile phone/electronic device rings/vibrates during the exam. Any student caught using Bluetooth or any electronic device in the exam will be asked to leave immediately and will face disciplinary action.

Student Answers/Examination Paper
All answers must be legibly written on exam paper provided by the exam proctor. Students are not permitted to write answers on the question paper. Students must clearly cross out any (rough) work that is not to be graded. If extra exam paper is needed, it will be provided by the exam proctor.

Return of Exam Papers
Students must put the exam question paper and all answer papers together and submit both to the exam proctor. It is not the proctor’s responsibility to do this. Failing to do so will result in failure in the exam. The ‘Checking of Student Presence Procedure’ is available at myACG.

Instructors have the right to ask students not to use certain electronic devices during class time. Students should always seek permission if they wish to take any photos or video in class. Generally, any recording of the lectures is not allowed unless written permission is granted by the instructor. Violation of any of these rules may lead to disciplinary action.

Use of Electronic Devices in the Classroom
The use of cell phones and/or similar communication devices in class is disruptive and does not facilitate the teaching and learning process. Therefore, students are not permitted to use such devices in lectures, recitation, or laboratory sessions. Students are required to turn such devices off, or put them on silent mode, while in class. Similarly, to enhance fairness in examinations, students are required to turn off and put away (out of sight) cell phones and/or other communication devices during quizzes, or during midterm and final examinations.
The Use of Calculators During Examinations
Instructors must clearly define, in the course outline, what types of calculators are permitted during quizzes, or during midterm and final examinations.

In general, the definition of a calculator for examination purposes excludes any device that can:

• communicate with other devices
• accept external/removable memory
• store text
• produce graphics
• solve matrix equations
• be programmable

Students must not use such devices during quizzes, or during midterm or final examinations, unless clearly stated otherwise in the course outline.

Assessment, Progression and Awards

Attendance Policy
Class attendance is mandatory. Attendance and performance in class are closely correlated. Lack of attendance necessarily means that a student has not achieved the desired learning experience that course requires.

For purposes of mitigating circumstances, such as illness or other serious matters, the College allows students to miss up to 20% of class time. This applies to all courses. For certain courses instructors could take absences into account and lower a student’s grade based on the marking criteria and learning outcomes of the course.

Absence from a class does not exempt a student from completing the work for that class. Students who have exceeded the 20% threshold of absences for serious mitigating circumstances will be referred by the instructor to the Registrar’s Office. The registrar will in turn inform the Committee on Academic Standards and Policies (CASP) which, in the light of any evidence of extenuating circumstances supplied by the student, will decide whether the student must withdraw from the course and/or receive an F grade.

The only health-related mitigating circumstance acceptable for excusing absences beyond the maximum is hospitalization. It is the student’s responsibility to be aware of the number of absences they have in each of their courses or modules.

Assessment Deadlines
Students must submit work by the deadlines set in the course outline. Where coursework is submitted late and there are no accepted extenuating circumstances it will be penalized in line with the following tariff:

Fall and Spring Semesters: Submission within 6 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 6 calendar days late: submission refused, grade F.

Summer Term: Submission within 6 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 4 calendar days late: submission refused, grade F.

Summer Sessions: Submission within 2 calendar days: a 10% reduction of the awarded grade for each calendar day late down to the 40 UK points (C grade). Submission that is more than 2 calendar days late: submission refused, grade F.

Assessment of Students with Special Needs

For students registered for the Open University (OU) Award, the Board of Examiners may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved in advance of the first assessment to which they will apply.

All students, whether they are registered for both the US-accredited NECHE degree and the OU award or not, are responsible for alerting the registrar to a special need and for providing relevant evidence to document it. The registrar will pass the information on to the Committee on Disability and Learning Differences. The committee will decide on the action to be taken to accommodate a student with special needs, having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student. This action must be endorsed by the chair of the relevant Board of Examiners in the case of the OU validated award. Alternative methods of assessment for non-OU validated courses or programs are suggested by the Committee on Disability and Learning Differences in consultation with the instructor.

Assessment of Students with Special Needs and in Exceptional Circumstances

The Committee on Disability and Learning Differences may make special arrangements for the examination or assessment of students with disabilities or learning differences. These arrangements must be approved by both the committee and the faculty in advance of the first assessment to which they will apply.

The student is responsible for alerting the registrar to a special need and for providing relevant documentary evidence of it. The registrar will pass the information on to the Committee on Disability and Learning Differences.

The committee will decide on the action to be taken to accommodate a student with special needs, having ensured that there has been full consultation with faculty in the department(s) responsible for the assessment of that student.

If the committee and faculty teaching the course decide that the student should take an oral exam, the procedure described hereafter must be followed. The course professor will inform the student on the venue and the exact time for the oral exam at least two days before the exam. The oral exam should be on the same course material and should have at least the same duration as the scheduled test for the other students of the same course.

A second faculty member from the same academic department must be present during the oral examination, but as an observer only, not as an examiner. The student’s answers on the oral exam questions will be assessed by the course professor. The oral exam must be recorded.

After completion of the oral exam, the course professor should inform the Registrar’s Office the student’s grade, and of the venue, date, exact time, and duration of the exam, and of the name of the second faculty member that who present during the oral examination.

Grade Recalculation for Inbound Study Abroad Non-Degree Students and Resit Opportunity

Inbound study abroad non-degree students in validated courses will have to pass all course assessments in order to pass a course. When an inbound study abroad non-degree student fails an assessment but the overall calculated grade is a passing one, the Registrar’s Office will contact the student and verify whether they are able to take the resit for the failed assessment. If the student confirms in writing that they cannot take the resit but have a passing final calculated grade, the student’s final grade in the course will be the minimum passing mark (40 UK points, grade C).

This policy will apply only to students who have not missed any of the required course assessments.

Under certain extraordinary circumstances, inbound study abroad, non-degree seeking students may request to take a resit at their home institution. This is only available to such students if they have passed at least one of the main course assessments in the designated course, but not if the course has only one assessment, which the student has failed. The request must be received in writing by the Registrar’s Office no later than 10 working days after the official publication of term/semester grades in myACG portal.

F (Failure)
The grade of F is computed in the grade-point average (GPA) and in the cumulative index (CI). A student may receive credit for a failed course only by retaking and successfully passing that course at Deree. Retakes are capped at grade C.

E (Credits earned by examination)
Please refer to “Waiver Examinations” in the “Recognition of Prior Experiential Learning” section.

P (Pass)
The grade of P has no quality-point equivalent and is not computed in the student’s grade-point average or cumulative index. However, credits earned with the grade of P are included in the total number of credits earned and count toward the completion of the Deree US degree requirements. Students may petition for a Pass/Fail option for elective courses taken outside their major, but, once the option is granted, they may not revert to a letter grade. Petitions for a Pass/Fail option should be addressed to CASP no later than the first week of the semester. No Pass/
Academic Policies Governing the Deree US Degree

Fail option is available in accelerated sessions or toward the Open University award. Certain courses, such as most of Physical Education courses, are graded on a Pass/Fail basis only.

R (Course Retake for Failing Grade Replacement)
The grade replacement policy allows students to retake courses at Deree for change of failing grade. Students may replace an F grade in a course by repeating and passing the same course at Deree. If a student fails a validated course more than two times they may be required to withdraw from the OU validated award, unless CASP has accepted the student’s petition for mitigating circumstances. The final decision is made by the Board of Examiners.

The maximum number of retakes for both degrees is 10 courses. Retakes are capped at grade C. When students retake a course, they are required to submit and be assessed on new assessments not used the previous time(s) they took the course.

S (Satisfactory)/U (Unsatisfactory)
The grades of S and U may be given for certain developmental courses that do not constitute part of degree programs.

MC (Mitigating Circumstances):
For the designation MC, please see the “Mitigating Circumstances” section.

NC (Non-Credit)
The designation NC indicates that the course was not taken for credit. The same course cannot be retaken for credit.

NR (Non-Report)
The designation NR is automatically recorded in the event final grades are not submitted by the specified deadline. The NR is automatically removed as soon as the grade is submitted by the faculty.

W (Withdrawal)
A W grade indicates that a student withdrew from a course by the date specified in the College calendar. No credit is granted.

Grade Point Average (GPA) and Cumulative Index (CI)
In the US system of education, a grade point average (GPA) is determined for each student at the end of each semester. The cumulative index (CI) is the average of all the grades of all semesters of study. Both averages are computed by multiplying the number of credit hours for each course by the quality point equivalent of the letter grade. The quality points earned for each course are then added and the sum is divided by the total number of credit hours. The credits for a course in which an F is received are included in the divisor; but no quality points are earned. Course credits by transfer are excluded from compilation of the CI at Deree - ACG. Grades reported as MC, NR, S, U, R, and NC are not computed in the average. When the MC or NR is removed, the new grade is then included in the average the semester in which the course was taken. Summer I and II grades are averaged with the grades of the Spring Semester.

Second Marking
All assessed work submitted for credit in validated courses and programs leading to Open University awards shall be subject to the process of second marking and review by External Examiners. This policy extends to all modes of assessment and, where assessed work is not in written form, every effort should be made to apply some appropriate form of moderation. For the implementation of the College’s policy on second marking and External Examiners see Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards. Students registered for the Open University award are assessed by the Board of Examiners (see Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards). Student progress toward the US Deree degree is not assessed by a Board of Examiners.

Academic Policies Governing the Deree US Degree

All decisions on grades of validated courses remain provisional until they have been ratified at a meeting of the Board of Examiners attended by the relevant external examiner(s).

Action in the Event of Failure
For each course, students must obtain a minimum of Grade C (40%) in each summative assessment to achieve a pass and obtain the credit for that course (Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards).

For the validated award only, three courses of action are available to Boards of Examiners in the event of a student failing one or more assessed components of a course:

Students who fail one or more assessments in a course will be offered the opportunity to be reassessed in, or resit, those components. Only one resit per each assessment component is allowed in each validated course. The maximum grade a student can obtain for the reassessed component of a course is a Grade C (40% UK). If a student fails a resit, they will not receive the credit for that course. The resit policy does not apply to non-validated courses and programs.

Exceptionally, and subject to a recommendation from the Committee on Academic Standards and Policies based on evidence it has received of a student’s mitigating circumstances, the Board of Examiners may grant a student a further opportunity for reassessment in a validated course. Students with mitigating/extenuating circumstances will not be subject to a capped grade of C (40% UK). The Committee on Academic Standards and Policies may grant a student further opportunity for reassessment in consultation with the instructor.

A student who has obtained a final fail grade following reassessment(s) in a course validated in their program or an F in a course that is not validated in their program (where the reassessment policy does not apply) may retake the course. The grade of such retake will be subject to a cap of a C (40% UK) grade. A student’s program may not comprise more than 10 retakes (see the “Course Retake Policy” section) in total for both the validated and Deree US awards. Students retaking a course will be required to observe the College’s attendance requirement (Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards) and complete all the assessments for that course. Following the successful completion of a retake, the grade obtained by the student will replace the original fail grade. This option is not available to students who have already obtained credit and are seeking to improve their grade for a course. If a student withdraws from a course prior to any assessment taking place and then enrolls in that course later, the grade will not be subject to a cap. After repealing the course, the repeat grade will replace the original one. The original F, accompanied by the letter R and the replacement grade will both appear on the student’s transcript, but only the replacement grade will be counted in computing the cumulative index (CI). If students withdraw from a course they are repeating for grade replacement, the original grade F assigned for the course remains. Courses transferred from other institutions and courses waived may not be repeated. Students also may not use the policy retroactively after their graduation from the former Junior College (see previous catalogs) or Deree - ACG. Successfully completed courses that are repeated over and above the 10 retakes will appear as NC automatically. Graduates who are re-admitted as non-degree students may only repeat courses as NC (ie, they may only audit courses they have passed.)

Mitigating Circumstances
The following regulations distinguish between factors or circumstances which were known to the student in advance of taking an examination and which affect their ability to attend for examination or meet a deadline for the submission of work but which may have affected his or her performance (Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards). In all cases, it is the responsibility of the student to ensure the timely disclosure of any factors or circumstances which may affect the assessment of their learning.
and responsibility for the consideration of these factors and circumstances will lie with the Committee on Academic Standards and Policies.

Students whose circumstances may affect (or may have affected) their ability to meet a program’s assessment requirements must submit a completed Mitigating Circumstances Extension Form together with verifiable documentation to the Registrar’s Office. This form can be completed electronically or in person and may, if necessary, be signed retroactively.

When there are factors or circumstances known to the student in advance of taking an assessment that affect their ability to attend an examination or submit work by the published deadline:

a. the Committee on Academic Standards and Policies will consider the evidence submitted by the student;

b. if the mitigating circumstances are accepted by the committee it will determine the extension to be granted to

the student or, in the case of examinations, the date on which the student shall be assessed; in such cases the

grades will not be capped at C (40% UK).

c. for the validated award only, the chair of the Board of Examiners, the registrar and the appropriate department

head/area coordinator will be informed of the committee’s decision. For students registered only for a Deree

US degree, the registrar, the instructors and the relevant department head/area coordinator will be informed of

the committee’s decision.

The student will have the right to apply for a further extension, or for a rescheduling of an examination, if the

mitigating circumstances persist.

When factors or circumstances have not prevented a student from attending an examination or meeting a deadline

for the submission of work, but may have affected their performance:

a. the Committee on Academic Standards and Policies will consider the evidence submitted by the student. For

students registered for a validated award, the Board of Examiners is responsible for considering what

action it should take [see 6.6.1(e), Appendix I - Regulations for validated awards of The Open University for

institutions offering dual awards] in the light of the recommendations of the Committee on Academic Standards

and Policies.

b. For students registered for an Open University validated award, the Board of Examiners will communicate directly with the instructor and the Registrar’s Office.

c. For students registered for an Open University validated award, the actions available to the Board of Examiners include: the deferral of an assessment to a later date; compensation for the failure in a course (see Appendix I - Regulations for validated awards of The Open University for institutions offering dual awards); agreement that the student should either retake the course or be reassessed with the grade achieved being recorded on the student’s transcript and therefore contributing to the classification of the award; and, exceptionally, a decision that the student be assigned a higher grade for the course or courses on which their performance has been

affected. For those students who are registered for the Deree US degree only, appropriate action will be taken by the instructor upon CASP’s recommendations.

Progression Toward the Open University Validated Award

Students must complete at least 60 credits at Level 4 within the Open University validated program as well as all

required prerequisites before they progress to Level 5.

Providing that a student has met the necessary prerequisites, they may progress to Level 6 courses when they have

completed at least 60 UK credits at Level 5.

Students will not be allowed to study at Level 6 before having completed and passed all their Level 4 courses.

Conferment of Open University Validated Awards

Classification of bachelor degrees will be based on the average mark across all modules within Level 6 and half of

the modules in Level 5 at a ratio of 2:1 respectively.

Honours degrees are classified as:

- First class: Aggregate mark of 70% or above
- Upper Second class: Aggregate mark between 60% and 69%
- Lower Second class: Aggregate mark between 50% and 59%
- Third class: Aggregate mark between 40% and 49%

If the average achieved by a candidate is not more than one percentage point below a classification band, the board

should consider the following.

Performance in work for which an award of credit for prior learning has been made is not taken into account in the

calculation of the final award.

Where the final result of the classification calculation creates a mark of 0.5% or greater this will be rounded up to

the next full percentage point (eg 69.5% is rounded to 70%; 59.5% to 60%; and so on). Where the calculation creates

a mark below 0.5% this will be rounded down to the next full percentage point (eg 69.4% is rounded to 69%; 59.4% to

59%; and so on). For the purposes of rounding up or down, only the first decimal place is used.

The Board of Examiners will take a consensus view on the final classification to be awarded to the student. The

chair of the Board of External Examiners and the external examiner(s) must in each case endorse the proposed

class of award.

Credit obtained through the credit transfer, RPCL, or RPEL procedures (see Section 4, above) is excluded from

the calculation to determine the classification of the degree. In such cases, the grades obtained for the remaining

courses taken within the OU framework will be used for the final classification.

Applying for Graduation

When students reach their last semester/session of studies at the College, they must apply for graduation to the

Student Success Center. Deadlines for the submission of applications for graduation are announced in advance.

An application for graduation not submitted by the announced deadline will be considered for the next graduation
date.

Graduation Requirements

In order to graduate, students must:

- Complete satisfactorily the total number of credits and all other requirements set for the degree.
- Fulfill the residency requirement.
- Attain a minimum cumulative index of 2.0.

A student’s graduation with a Deree US degree will be delayed if they must resit one or more assessments in their

last semester of studies.
Graduation with Distinction
The Bachelor’s degree is awarded at three levels of distinction to students who have completed at Deree - ACG at least 72 US credits out of the total number of credits required for graduation and who have obtained exceptionally high grades.

The CI is computed to include all courses completed at Deree - ACG.

Cum Laude 3.00-3.49
Magna Cum Laude 3.50-3.69
Summa Cum Laude 3.70-4.00

Faculty Recommendation for Graduation
Department heads/program coordinators and academic deans evaluate prospective graduates’ records and the registrar confirms the completion of graduation requirements. An official list of prospective graduates, as certified by the registrar, is then presented to the faculty for approval.

The faculty recommendation to graduate students certified by the registrar is obtained by a simple majority vote.

Although degrees are granted only once a year, a student who has been recommended by the faculty for graduation may obtain a certificate signed by the Registrar confirming completion of graduation requirements.

Trustees’ Approval and President’s Conferral
The president of the College presents the faculty recommendation for graduation to the College’s Board of Trustees for approval. The trustees’ approval of the faculty recommendation for graduation gives the president the authority to confer the degrees.

Grade Reports and Official Documents
At any time during the course of their studies students, active or not, may request a transcript of their progress. Each transcript is a copy of the student’s complete record, and any requests for issuing partial transcripts will be denied. When the transcript is given directly to the student or, at the student’s request, to another person, it is labeled “Unofficial”. An ‘Official Transcript of Record’ is sent directly to schools or other authorities only at the student’s request and is not issued to the student. Upon graduation students will be able to obtain a transcript for the Deree US degree and a diploma supplement for the Open University validated award. Official transcripts, certificates and any other official document signed by the relevant Deree official is given to students in printed form only. No transmission by fax or any electronic method of official Deree documents is permitted.

Academic Offences
An academic offence (or breach of academic integrity) includes any action or behavior likely to confer an unfair advantage, whether by advantaging the alleged offender or by disadvantaging another or others. Examples of such misconduct are unauthorized use of Generative Artificial Intelligence tools, including chatbots, such as Chat GPT, and other tools, such as paraphrasers, to generate and / or rewrite material, plagiarism, collusion, cheating, impersonation, supplying false documentation, use of inadmissible material and disruptive behavior during examinations. Responsibility for reviewing breaches of academic integrity is held by the Committee on Standing and Conduct (COSC).

According to College policy all student tests and assignments are submitted through a plagiarism detection software called Turnitin.

Charges against a student for violating academic integrity may originate from any source: a faculty member, an administrator, a fellow student, as well as External Examiners reviewing assessments for the Subject Boards. Charges are submitted in writing to the COSC chair and accompanied by any further substantiating evidence. If a member of the Committee originates the charge, the member will be recused from the decision-making process, and any other process related to the case, other than those related to the role of plaintiff/witness.

The alleged offender is informed in writing that a report has been submitted against him/her. He/She has the right within five working days of receipt of the notification to submit a written statement of facts he/she believes COSC should know and/or to request a meeting with the Chair and one committee member.

The Committee on Standing and Conduct will either itself investigate the charge or establish from its own membership a panel to conduct the investigation. In establishing whether a breach of academic integrity has occurred, the Committee (or panel) considers oral and/or written evidence supplied by the individual(s) making the charge and any other evidence deemed relevant.

For OU students in validated courses/programs only, once the Committee on Standing and Conduct has considered the allegation and reached a conclusion on whether an offence has occurred, it issues a report with a recommendation regarding the outcome for the student to the Chair of the relevant Board of Examiners. If it has been established that an offence has occurred, the Board will judge the significance of the misdemeanor and exercise its discretion as appropriate to the case. If it is established that a student has attempted to gain an unfair advantage, the examiners shall be given the authority to rule that the student has failed part or all of the assessments, and the authority to determine whether or not the student should be permitted to be reassessed.

Independently of the assessment decisions made by the Board of Examiners on offences pertaining to validated courses/programs, the Committee on Standing and Conduct is empowered to consider a wider range of sanctions that might be applied when a student is found guilty of a breach of academic integrity. The following list of sanctions is indicative and can be imposed by majority vote of the Committee:

Admonishment Letter (or Letter of Warning): The student is advised in writing that their behavior violates rules of academic integrity and that a recurrence will lead to more serious sanctions. The committee will deliberate on whether the letter should or should not appear in the student’s file permanently or for a lesser period of time.

The College does not use disciplinary notations on the student’s transcript; nor does it release information regarding academic integrity violations to other institutions or external agents. However, it reserves the right to consider any academic integrity violations when examining applications for study abroad, internships, scholarships, campus employment, or student awards, or for other internal uses for as long as the student is an active ACG student.

COSC or, on appeal, the Academic Council or Chief Academic Officer may impose additional penalties for academic misconduct affecting the sanctioned student’s ability to hold elected office in student organizations including student government and restricting other non-academic activities.

First Offence File: The student’s name and a description of the offense is recorded in the student information system, and is accessible by the chief academic officer, the academic deans, the dean of students and department heads. Second offences automatically result in a hearing.

Suspension: The student’s relationship with the College will be discontinued for a specified period of time. The student will forfeit any college-related fees.
dismissal. The student’s relationship with the College will be terminated. The right to apply for readmission shall be denied.

COSC observes College policies on academic integrity. When a student is found guilty of a breach of academic integrity, the committee applies the sanction(s) pertinent to the offence. The COSC chair informs the student and the plaintiff of actions to be taken in writing within five working days of the formulation of the final recommendation.

hearing

Deliberation on a second offence violation requires a hearing. A student may be called to a hearing even in the case of a first offence, depending on the severity of the charge. Once the Committee establishes that the report is complete, the Chair calls for a hearing within eight working days from the receipt of the charge. The Chair informs the student in writing of the charge(s), the student’s rights, and the fact that the student’s presence is required at the hearing. The student has the right:

• to attend the hearing alone or with a member of the College community who agrees to speak for the student.
• to answer questions, present evidence and introduce witnesses from the College community for defense against the charge.
• to pose questions to witnesses from the College community.

The Chair notifies the plaintiff in writing when his/her presence is required, of the time and place of the hearing, as well as the plaintiff’s rights:

• to be accompanied by a member of the College community who agrees to speak for the plaintiff.
• to introduce witnesses from the College community.
• to pose questions to the student and witnesses from the College community.

At the hearing the chair announces the purpose and the function of the committee and reads the charge(s). The chair opens the floor, inviting parties present to provide additional information and call witnesses, if they so wish. Parties present may pose questions to the student/plaintiff/witness(es). The members of the committee are then given the opportunity to ask questions of the parties present.

When the hearing is over, the chair asks all those present apart from the committee members to leave the room. Committee members then deliberate on the outcomes of the hearing. The committee arrives at a majority judgment on the case and, if necessary, recommends sanctions. If a student does not appear for a hearing and fails to notify the committee of their inability to do so, the committee rules on the case in absence.

appeal

Within three working days of receipt of COSC’s decision, the student has the right to lodge a formal written appeal against the decision of the committee. The appeal is addressed first to the Academic Council and subsequently to the chief academic officer, and then to the president, whose decision is final.

Any COSC decision and recommendation on a case are subject to the Academic Council’s approval, the Board of Examiner’s ratification of grades, and the appeals process available to students. The committee recommends sanctions based on majority vote.

For offences made in validated courses/programs, OU students may appeal against the decision of the Board of Examiners in accordance with the regulations for academic appeals as outlined in the Regulations for validated awards of The Open University for institutions offering dual awards.

For cases involving OU students, a final report on all the cases is prepared and submitted, via the Academic Council, to the Board of Examiners fourteen days prior to the convening of the board. For cases involving non-OU students, the report is sent to the Academic Council only. Reports include a short statement on the student’s breach of academic integrity, the committee’s ruling and the sanctions applied.

Students involved in the academic misconduct process should restrict communication on this process to the lines of communication and appeal indicated in this policy. Students should not attempt to contact individual members of relevant committees or other administrators or faculty about an ongoing academic misconduct case outside of the formal avenues of communication and appeal.

academic appeals

Students registered in a validated program may appeal a decision of the Board of Examiners. Students’ rights of appeal are limited to two grounds:

• either that the candidate’s performance in an assessment was adversely affected by illness or factors which they were unable, or for valid reasons unwilling, to divulge before the Board of Examiners reached its decision.
• or that there has been a material administrative error, an assessment was not conducted in accordance with the current regulations for the program or special arrangements formally agreed, or that some other material irregularity relevant to the assessment has occurred.

Disagreement with the academic judgment of a Board of Examiners in assessing the merits of an individual element of assessment does not constitute grounds for an academic appeal. Responsibility for the submission of documentary evidence in support of the appeal rests with the student.

Appeals must be submitted in writing to the registrar no later than 14 days following the publication of Examination Board results. All appeals, including requests for grade change for non-validated courses, must be submitted in writing to the registrar by the end of the second week of the following session/semester.

On receipt of the appeal, the registrar informs the department head/program coordinator and the Academic Council (through the chief academic officer) and submits to them all relevant evidence and correspondence. The academic dean undertakes an initial assessment of the validity of the appeal and advise the student accordingly. In light of this advice the student should decide whether they wish to proceed with the appeal. The student then decides to withdraw their appeal or lodge a complaint in accordance with the College’s complaints procedure. Students who attended a non-validated course may appeal a final course grade within 45 days from the last day of classes for courses without a final exam or from the day of the final exam for courses with final exams. For appeals concerning grade assignment in non-validated courses, the department head/program coordinator may form a departmental committee to review the student assessment and propose to the Academic Council a decision on the grade.

In the event that the student decides to proceed with an appeal, the Academic Council will be convened no later than three weeks after receiving the student’s decision to do so. The members of the Academic Council shall exclude any member of the faculty or the administration who has been involved in the assessment of the student or who is a member of the relevant Board of Examiners. For non-validated courses, the Academic Council will decide on the student’s final grade and will inform the student, the professor and the academic dean.

In cases of validated courses/programs, the Academic Council will hear the appeal. The appellant may be called to appear before the council. The Academic Council may also require the chair of the Board of Examiners to appear separately before it. The appellant and the chair of the board will not be present when the subcommittee considers
the evidence and formulates its decision. In cases of validated courses/programs, the Academic Council must inform the student and the Board of Examiners of its decision within seven days of the hearing. The student has the right to appeal the subcommittee decision, in writing, to the provost. If the appellant wishes to contest the provost’s decision, they have the right to lodge an appeal with the Open University. The student will obtain contact details for the provost and the Open University from the registrar.

The Registrar’s Office will keep records of outcomes for all appeals cases. The Academic Council will receive annual summary reports regarding all appeals received by the College.

Complaints Procedure
Complaints are related to specific concerns about the delivery of a course (i.e., module) or a program of study, or of a related academic or non-academic service. For non-validated courses and programs complaints do not address the review of a decision made by an academic body. When appropriate, a complaint is first resolved through informal discussion with the party or office directly involved. If not resolved at this level, a formal complaint is submitted by the student to the Registrar’s office no later than 14 days after the student is informed of the outcome of this discussion. Upon receipt of the complaint the registrar forwards it and all relevant documentation to the Academic Council or the dean of students.

Depending on the nature of the complaint, the academic dean or dean of students will undertake an initial assessment of the validity of the complaint and advise the student accordingly. In light of this advice, the student will decide whether they wish to proceed with the complaint.

In the event that the student decides to proceed with the complaint, the Academic Council will be convened no later than three weeks after receiving the student’s decision. The Academic Council shall exclude any member of faculty or the administration who has been involved in the complaint or who is a member of the relevant Board of Examiners.

The Academic Council will hear the complaint. The appellant may be called to appear before the council. The council may also require the relevant member of the faculty or administration, or both, to appear separately before it. The appellant and any member of staff against whom the complaint has been made will not be present when the council considers the evidence and formulates its decision.

The Academic Council must inform the student and the chair of the Board of Examiners (if the complaint concerns a validated course/program) of its decision within seven days of the hearing. The student has the right to subsequently appeal to the provost against the decision of subcommittee. If the appellant wishes to contest the provost’s decision for validated courses or programs, they have the right to lodge a complaint with the Open University. The student will obtain contact details for the provost and the Open University from the registrar.

The Registrar’s Office will keep records of outcomes of all complaints cases. The Academic Council will receive annual summary reports regarding all complaints received by the College.

Students registered in an OU-validated award may further appeal to the Office of the Independent Adjudicator (OIA).

Writing Program

The Writing Program (WP) offers three levels of full-time courses on academic writing: WP 1010 Introduction to Academic Writing, WP 1111 Integrated Academic Writing & Ethics and WP 1212 LE Introduction to Academic Writing and Research. These courses equip students with the critical thinking, reading, writing and research skills necessary for success in an academic environment. Each writing course has a thematic focus as a vehicle to structure thinking and writing.

Students are placed in WP 1010 if they satisfy the College’s requirements for proficiency in English (as described in the section ‘Academic Writing’).

Students take all three Writing Program courses in sequence to fulfill part of their general education requirement. All courses are offered for graduation credits.

The Writing Program supports the educational mission of Deree by

- providing high-quality instruction in academic writing and thinking that prepares students for the writing and critical-thinking challenges they will face in their major.
- equipping students with the critical-thinking and communication skills they need to succeed beyond college as flexible, thoughtful and confident writers.
- increasing challenging students with reading and writing assignments that expose them to a variety of texts, writing and research activities, and disciplinary discourses.
- offering a well-researched curriculum that responds to the unique and diverse needs of the College’s students and makes use of educational technology and academic support services.
- providing small, student-centered classes led by dedicated, professionally trained English instructors.

International Honors Program

The Deree - ACG International Honors Program (IHP) offers motivated and academically committed honors students educational enrichment through interdisciplinary learning experiences and opportunities for independent scholarship. It seeks to develop students’ intellectual and civic leadership skills through dynamic teaching and student involvement that extend beyond the classroom.

The International Honors Program offers:

- challenging and innovative General Education courses taught through the use of the most current pedagogical tools.
- faculty-student research opportunities through the Honors Thesis.
- exposure to international perspectives through study abroad.
- co-curricular activities that cultivate creativity and civic engagement, such as sustainability workshops, lecture series and film series.
- participation in a tightly knit community of high-achieving students.
- financial aid (International Honors scholarship), internship opportunities, and benefits such as early course registration.
- special cultural and academic enrichment events that promote leadership potential, such as participation in the Heritage Greece Program.
- increased career and/or graduate opportunities.

The International Honors Program seeks to produce well-educated, articulate citizens who exemplify the highest standards of academic, professional and personal achievement. It offers an enriched curriculum that integrates knowledge, sharpens academic skills and encourages active involvement in the learning process.

The International Honors Program encompasses an Honors student’s undergraduate career and evolves in two stages:

- in the first stage, students benefit from taking four Honors Seminars which fulfill an equivalent number of General Education requirements.
- in the second stage, students apply the creative and intellectual skills they have acquired in the Honors Seminars to produce an Honors Thesis, the capstone requirement of the Honors Program. The Honors Thesis is also a bridge to a student’s professional or academic goals beyond college.

The Teaching and Learning Center

Fulfilling the College’s mission of fostering academic excellence, the Teaching and Learning Center, an instructional resource for faculty, promotes innovative approaches to student learning. The director of the Teaching and Learning Center provides support and assists in the development of effective educational material. The Teaching and Learning Center organizes frequent training sessions on pedagogy where faculty can exchange ideas and experiences related to their teaching, it encourages faculty to explore developments in teaching technologies and adopt student-centered techniques, through a dedicated Blackboard container full of material related to classroom needs, it facilitates and encourages faculty to keep up with best practices in pedagogy.

Prerequisites: MU 2014 MU 2159
UK CREDITS: 15
US CR: 3/0/3

MU 4440 MODERNISM - LEVEL 6
In this course students will develop an understanding of the stylistic diversity that emerged in the revolutionary time of musical Modernism in relation to the traditional continuum and to other forms of artistic expression. The plurality of musical and aesthetic construction will be captured through selected works and scores and will be discussed in relation to independent texts, literature and visual arts of the time.
Prerequisites: WP 1010 WP 1111
WP 1212 MU 3324
UK CREDITS: 15
US CR: 3/0/3

MU 4457 APPLIED MUSIC VII AND MUSIC FORUM PERFORMANCE LAB - LEVEL 6
The course offers advanced individual instrumental or vocal instruction, further developing musical understanding, creativity and a range of technical and interpretive skills. In addition to weekly lessons, students gain valuable performance and presentation experience at the Music Forum Performance Lab.
Prerequisites: MU 2053 MU 2154
MU 3255 MU 3356
UK CREDITS: 15
US CR: 1/2/3

MU 4469 SELECTED TOPICS IN COMPOSITION - LEVEL 6
An exploration of creative musical techniques and practice through the study of compositional ideas, techniques and example works as chosen by the instructor. A full range of compositional styles and methods is open for investigation, together with approaches that integrate composition into new media practices.
Prerequisites: MU 2014 MU 2159
MU 3215 MU 3329
UK CREDITS: 15
US CR: 3/0/3

MU 4488 COMPOSING AND ARRANGING FOR SMALL ENSEMBLES – LEVEL 6
Students will learn how to compose and arrange music for small to medium-sized ensembles in “modern music” genres from jazz to an assortment of popular music styles. They will be encouraged to cultivate creativity and the development of a personal voice. The course will focus on the development of advanced skills in music cognition and the integration of music theory with practice.
Prerequisites: MU 2014 MU 2159
MU 3215 MU 3329
UK CREDITS: 15
US CREDITS: 3/0/3

MU 4489 SELECTED TOPICS IN MUSIC ANALYSIS – LEVEL 6
An in-depth investigation of a musicological topic. The topic of the seminar will bring to focus selected musical issues
Prerequisites: MU 2014 MU 2159
MU 3215
UK CREDITS: 15
US CR: 3/0/3

MU 4490 SELECTED TOPICS IN MUSICOLOGY – LEVEL 6
In-depth investigation of a musicological topic. The topic of the seminar will bring to focus selected musical issues leading to further investigation and research.
Prerequisites: WP 1010 WP 1111
WP 1212 MU 2014
MU 2159 MU 3324
UK CREDITS: 15
US CREDITS: 3/0/3
MU 4848  MUSIC CAPSTONE - LEVEL 6

Students undertake an extended piece of independent project work that engages with a musical issue of their own choosing, ranging across the whole scope of music studies from musicology through to creative composition. This project will act as a showcase for their studies on the music program. The course is designed around structured tutorial support that aims to further develop in students the skills of planning, implementation, evaluation and critical reflection as applied to a project in progress.

This course is offered over two consecutive assessment periods.
Prerequisites: WP 1010  WP 1111  WP 1212  MU 2014

**ANTHROPOLOGY (AN)**

**AN 1000 LE INTRODUCTION TO ANTHROPOLOGY - LEVEL 4**
An introductory course that examines the biological, archaeological, linguistic, and cultural basis of anthropology as it was developed in the USA. Overview of theories and methods used in anthropological study.
UK CREDITS: 15  
US CR: 3/0/3

**AN 1003 LE CULTURAL ANTHROPOLOGY - LEVEL 4**
Introduction to the field of cultural and social anthropology. Comparative examination of cultural, economic, religious, and political dimensions in societies across time and space. The anthropological perspective, main methods and theoretical approaches in cultural anthropology.
UK CREDITS: 15  
US CR: 3/0/3

**AN 2010 GREEK FOLKLORE AND ETHNOGRAPHY - LEVEL 4**
UK CREDITS: 15  
US CR: 3/0/3

**AN 2011 ANTHROPOLOGY IN GREECE TODAY**
Greek socio/cultural anthropology in twentieth and twenty-first centuries. A critical appreciation of writings about identity, gender and politics in Greece from an anthropological perspective.
US CR: 3/0/3

**AN 2025 LE STUDYING EVERYDAY LIFE: ETHNOGRAPHIC PERSPECTIVES AND CROSSCULTURAL EXPLORATIONS – LEVEL 4**
Study of the everyday life as a window for understanding the cultural, political, socioeconomic structures that shape human life. Cross cultural exploration of everyday practices from an ethnographic perspective.
UK CREDITS: 15  
US CR: 3/0/3

**AN 2215 RELIGION IN THE MEDITERRANEAN WORLD**
An overview of three major religions: Judaism, Christianity and Islam. The influence of these religions on Mediterranean cultures, especially Greece. Religion considered as having a major impact on cultural heritage and civilization in the Mediterranean world. Site and museum visits also included.
Prerequisites: WP 1010  WP 1111  
US CR: 3/0/3

**ARCHAEOLOGY (AH)**

**AH 1000 LE INTRODUCTION TO ARCHAEOLOGY**
An introduction to the basics of the practice, methods and theory of world archaeology. Particular emphasis is given to examples drawn from the broader Mediterranean world.
US CR: 3/0/3

**AH 1002 THE ARCHAEOLOGY OF DAILY LIFE**
US CR: 3/0/3

**AH 2027 ASPECTS OF GREEK ART IN ATHENS**
An introductory exploration of aspects of Greek art, broadly defined chronologically, through “hands on experience,” utilizing the collections available in museums, in galleries and on sites in Athens.  
Students who have taken AT 2005 Art and Architecture of Ancient Greece cannot take AH 2027 (previously AT 2027) for credit when it addresses Ancient Greek Art. Similarly, students who have taken AT 2017 (Modern Greek Art) cannot take AH 2027 for credit when the content relates to Modern Greek Art.
Required museum visits - Additional fees apply.
US CR: 3/0/3
**BI 1017  HUMAN BIOLOGY: BODY ANATOMY AND CURRENT ISSUES - LEVEL 4**
An issues-based course designed for non-science majors that takes a fresh approach to the field of biology. Emphasis is put on basic biological processes, structure and function of organs and organ systems as well as diseases and infections of the human body.
UK CREDITS: 20
US CR: 3/2/4

**BI 1101  INTRODUCTION TO BIOLOGY II - LEVEL 4**
Prerequisites: BI 1000
UK CREDITS: 20
US CR: 3/2/4

**BI 3204  HUMAN GENETICS - LEVEL 5**
A survey of human genetics for the science and non-science majors. Focuses on fundamental concepts about genome organization, function and variation as well as the study of genetic diseases and technologies.
Prerequisites: BI 1000 BI 1101
US CR: 3/0/3

**BI 3215  ENVIRONMENTAL HEALTH - LEVEL 5**
This course examines health issues, the scientific understanding of their causes and possible future approaches to control major environmental health problems in industrialized and developing countries.
Prerequisites: BI 1000 OR BI 1006
BI 1101 OR BI 1007
UK CREDITS: 15
US CR: 3/0/3

**BI 3232  CELLULAR AND MOLECULAR NEUROBIOLOGY - LEVEL 5**
A course on cellular and molecular neurobiology. The course will cover the neural tissue and senses from molecules to the mind, describing basic neuronal processes, sensory receptor systems, and motor systems, development and the biology of higher cognitive function.
Prerequisites: BI 1000 BI 1101
US CR: 3/0/3

**BI 3235  CELL AND MOLECULAR BIOLOGY - LEVEL 5**
An integrated exploration of the fundamentals of cell and molecular biology as a science, the nature of life, biological chemistry, cell biology, metabolism and genetics.
Prerequisites: BI 1000 BI 1101
UK CREDITS: 20
US CR: 3/2/4

**BI 3240  HUMAN ANATOMY AND PHYSIOLOGY - LEVEL 5**
An integrated exploration of the fundamentals of human anatomy including tissues, organs and systems with an emphasis on their pathophysiology.
Prerequisites: BI 1000 BI 1101
UK CREDITS: 20
US CR: 3/2/4
BMS 4410  ALLERGY AND IMMUNITY - LEVEL 6
The course provides a detailed review of allergy and immunology and an integrated exploration of molecular, cellular, physiologic and pathologic aspects of the immune system. The pathophysiology of the immune system as it contributes to diseases, autoimmunity is explored together with various treatment strategies for allergic and immune disorders.
Prerequisites: BI 1000  BI 1101  BI 3235  BI 3240
UK CREDITS: 15
US CR: 3/0/3

BMS 4415  ENVIRONMENTAL BURDEN IN NEURODEVELOPMENT - LEVEL 6
The course focuses on fundamental principles of organogenesis in the nervous system and integrates information from a variety of model systems, relating them to human nervous system development trajectory, including disorders of development. It offers expanded coverage of topics such as neuronal determination, axonal navigation and targeting, neuron survival and death, synapse formation and developmental plasticity. Environmental exposures, epigenetics, gene expression, cell migration and stem cells, sleep and learning/memory, socioeconomic status and development of prefrontal cortex function are considered.
Prerequisites: BI 1000  BI 1101
UK CREDITS: 15
US CR: 3/0/3

BMS 4435  PHARMACOLOGY IN HEALTH AND DISEASE - LEVEL 6
An integrated exploration of pharmacology in health and disease. Focuses on, principles of pharmacology, including receptor mechanisms, drug distribution and metabolism, and pharmacokinetics in addition to drug discovery, safety and efficacy. The existing and experimental treatment strategies in pharmacology both in health and disease are discussed. Specific cases, research and bioethics questions are explored in a critical and analytical approach.
Prerequisites: BI 1000  BI 1101
UK CREDITS: 15
US CR: 3/0/3

BMS 4440  TOPICS IN PATHOPHYSIOLOGY - LEVEL 6
An integrated exploration of human pathophysiology. Focuses on molecular, cellular, physiologic and pathologic processes contributing to diseases. Specific cases, research and bioethics questions are explored in a critical and analytical approach including the existing and experimental treatment strategies.
Prerequisites: BI 1000  BI 1101
UK CREDITS: 15
US CR: 3/0/3
**CHEMISTRY (CH)**

**CH 1002  LE PRINCIPLES OF CHEMISTRY - LEVEL 4**
An introduction to chemical science and the chemistry of everyday life. The course presents fundamental principles of chemistry such as atomic theory, chemical bonding, chemical reactions, states of matter, nuclear chemistry as well as basic concepts of inorganic and organic chemistry. Focus is given to chemical applications and their relevance to the natural environment.

UK CREDITS: 20  
US CR: 3/2/4

**CH 1005  LE AN INTRODUCTION TO THE ORGANIC WORLD**
An introduction to modern organic and biological structures. An issues based approach that studies biological, environmental, nutritional and material science-related topics via a chemical perspective with an emphasis on the chemistry of living things.

US CR: 3/0/3

**CH 2115  GENERAL CHEMISTRY- LEVEL 4**
General Chemistry builds upon essential chemical concepts and their applications. It is a systematic study of chemical change and equilibria. Topics include advanced atomic structure and hybridization, thermochemistry and thermodynamics, ionic equilibria, electrochemistry and kinetics.

US CR: 3/0/3

---

**BMS 4545  RESEARCH METHODS AND ICT TOOLS IN BIOMEDICAL SCIENCES - LEVEL 6**
The course provides a guide to the key practical and broader skills needed in biomedical sciences, including comprehensive coverage of: study and examination skills, fundamental laboratory and analytical skills, investigative techniques and evaluation skills, analysis and presentation of data. The capstone proposal is also prepared in this course.

Prerequisites: CH 1002  
UK CREDITS: 15  
US CR: 3/0/3

**BMS 4650  CAPSTONE IN BIOMEDICAL SCIENCES - LEVEL 6**
This course is the culmination of the work in Biomedical Sciences. It involves an individual research project and is designed to provide students with opportunities to research health and biomedical sciences issues from different perspectives. The project topics are selected from a broad spectrum of BMS areas.

Prerequisites: BI 1000  CH 1101  
BI 3235  CH 3240  
BMS 4545  MA 2021  
UK CREDITS: 15  
US CR: 4/0/4

---

**CINEMA STUDIES (CIN)**

**CIN 1022  MASTERCLASS IN PROFESSIONAL SCREENWRITING.**
A hands-on course that introduces students to storytelling practices and techniques. Students explore the importance of character development in screenwriting, both in terms of a story’s plot as well as the interrelationships of the story’s “family of characters.”

Prerequisites: Prospective students may register following academic advising by the Program Coordinator / Department Head

US CR: 1.5/0/1.5

---

**BMS 4545  RESEARCH METHODS AND ICT TOOLS IN BIOMEDICAL SCIENCES - LEVEL 6**
The course provides a guide to the key practical and broader skills needed in biomedical sciences, including comprehensive coverage of: study and examination skills, fundamental laboratory and analytical skills, investigative techniques and evaluation skills, analysis and presentation of data. The capstone proposal is also prepared in this course.

Prerequisites: CH 1002  
UK CREDITS: 20  
US CR: 3/2/4

**CH 3220  ORGANIC CHEMISTRY - LEVEL 5**
An introduction to organic chemistry, focusing primarily on the basic principles underlying the structure and reactivity of organic molecules. Hydrocarbons, alcohols and ethers, aldehydes, ketones and carboxylic acids are discussed, with emphasis on biomolecular applications of reaction mechanisms, stereochemistry, nomenclature and tools for structure determination, including nuclear magnetic resonance and infrared spectroscopy.

Prerequisites: CH 1002  CH 2115  
UK CREDITS: 15  
US CR: 3/0/3

**CH 3241  ENVIRONMENTAL CHEMISTRY - LEVEL 5**
(See ES 3241)

**CH 3325  ORGANIC AND BIOLOGICAL CHEMISTRY - LEVEL 5**
Organic chemistry with focus on the chemistry of life, examining proteins, carbohydrates lipids, nucleic acids, the relationship between structure and function, as well as metabolism and gene expression.

Prerequisites: CH 1002  CH 2115  
CH 3230  
UK CREDITS: 15  
US CR: 3/0/3

**CH 3330  ORGANIC AND BIOLOGICAL CHEMISTRY LAB - LEVEL 5**
An introduction to methods of analysis in organic and biological chemistry, with emphasis on laboratory techniques and structure determination. Students get exposed to techniques such as distillation, vacuum filtration, liquid extraction, spectroscopy, chromatography and rotary evaporation; they also learn to apply the scientific method and design an experiment.

Prerequisites: CH 1002  CH 2115  
CH 3230 [co-requisite]  
UK CREDITS: 10  
US CR: 0/3/2
CIN 2010   FILM ADAPTATION - LEVEL 4
Introduction to theories and concepts of film adaptation. Review of techniques and tools relevant to the particular nature of the medium from a writer's perspective. Case studies and creative work.
UK CREDITS: 15
US CR: 3/0/3

CIN 2015   FILM HISTORY - LEVEL 4
Examination of key phases of film history. Analysis of film's historical development in interaction with socio-economic context. Survey of major cinematic traditions from the silent to the sound era and from post-war and contemporary auteurs to Hollywood blockbuster culture. Analysis of aesthetic, critical and technological innovations in line with institutions, culture and social change. Women directors and cinema's historiography.
UK CREDITS: 15
US CR: 3/0/3

CIN 2227   LE MODERN GREEK CINEMA - LEVEL 4
Introduction to Modern Greek cinema through an analysis of the theoretical, historical and aesthetic elements that have shaped its identity.
Prerequisites:  WP 1010 WP 1111
UK CREDITS: 15
US CR: 3/0/3

CIN 3090   SEMINAR IN SELECTED TOPICS IN CINEMA STUDIES
In-depth analysis of one contemporary topic in cinema studies or filmmaking practice. Systematic and critical study of the key ideas and relevant literature or practical applications.
Prerequisite:  Students should have completed 36 credits
US CR: 3/0/3

CIN 3120   CINEMATOGRAPHY - LEVEL 5
The aesthetics, techniques, and technology of cinematography in its current practice.
Prerequisite:  CN 2005
UK CREDITS: 15
US CR: 3/0/3

CIN 3125   DIGITAL COMPOSITING AND EDITING - LEVEL 5
Principles of layer-based compositing and non-linear editing for the completion of video work.
Prerequisite:  CN 2005
UK CREDITS: 15
US CR: 3/0/3

CIN 3130   DIRECTING FUNDAMENTALS - LEVEL 5
This course explores both the leadership and collaborative skills necessary to directors. Script/concept breakdown, pre-visualization, camera blocking, basic scene coverage and rehearsal techniques for specific performance needs. Students direct and edit both a fiction and non-fiction scenario to experiment with the communicative potential of each and to develop the student's own creative voice.
Prerequisite:  CN 2005
UK CREDITS: 15
US CR: 3/0/3

CIN 3140   PRODUCTION DESIGN - LEVEL 5
The course explores the fundamentals of production design—from text and script interpretation, art direction, researching locations, to collaborations with the director, cinematographer and creative teams.
Prerequisite:  CN 2005
UK CREDITS: 15
US CR: 3/0/3

CIN 3235   FILM THEORY - LEVEL 5
Examination and analysis of major film theories from the early days of cinema to contemporary developments. Placement of film theories in a broad socio-historical context through the major film theorists. Links to discourses in psychoanalysis, Marxism and Critical Theory, feminism and post-colonialism.
Prerequisite:  CIN 2015 CN 2127
UK CREDITS: 15
US CR: 3/0/3

CIN 4045   ACTING AND THE SCREEN - LEVEL 6
The actor’s craft in the context of contemporary recorded performance. Students train on relevant acting techniques and acquire respective technical skills.
UK CREDITS: 15
US CR: 3/0/3

CIN 4050   WORLD CINEMA: POWER AND IDENTITY - LEVEL 6
See SO 4050.

CIN 4080   CINEMA STUDIES INTERNSHIP
Experiential learning for students in the Cinema Studies program. Students gain industry experience and training as they apply knowledge gained within the classroom to real-life professional situations.
Prerequisite:  Formal approval by the Program Coordinator and Internship Administrator is required
US CR: 3/0/3

CIN 4155   FILM PRODUCING - LEVEL 6
Prerequisite:  CIN 3130
UK CREDITS: 15
US CR: 3/0/3

CIN 4870   CINEMA STUDIES SENIOR THESIS - LEVEL 6
Capstone course for Cinema Studies majors. Students work directly with a faculty supervisor to develop and complete a creative project or thesis.
Prerequisites:  WP 1010 WP 1111 CN2005 CN 2127 CN 3120 CN337
UK CREDITS: 15
US CR: 3/0/3
CLASSICAL LITERATURE (CL)

CL 1002  ANCIENT GREEK I
An introductory course for students who wish to study elementary ancient Greek. The course covers the essentials of vocabulary, grammar and syntax through oral and written exercises so that students can begin to translate ancient Greek into English. Practice in reading, writing and translating from ancient Greek into English, with excerpts from Greek literature.
US CR: 3/0/3

CL 1004  LE MYTH IN THE ANCIENT GREEK AND ROMAN WORLD
This course introduces students to the rich world of Greek and Roman mythology by examining and assessing their appearance in literature and material culture. The contribution of these mythologies to the construction of identity and ideologies of the Greeks and Romans will be considered.
US CR: 3/0/3

CL 1103  ANCIENT GREEK LANGUAGE II
The second part of an introductory course for students who wish to study elementary ancient Greek. The course reviews and reinforces vocabulary, grammar and syntax through oral and written exercises so that students can translate ancient Greek into English at a more advanced level than CL 1002. Practice in reading, writing and translating from ancient Greek into English, with excerpts from Greek literature.
Prerequisites: CL 1002
US CR: 3/0/3

CL 1115  LATIN II
A second semester introductory course for students who wish to study elementary Latin. The course reviews and reinforces vocabulary, grammar and syntax through oral and written exercises so that students can translate Latin into English. Practice in reading, writing and translating from Latin into English, with excerpts from Latin literature.
Prerequisites: The equivalent of first semester Latin
US CR: 3/0/3

CL 2010  LE ANCIENT GREEK AND ROMAN EPIC POETRY – LEVEL 4
Engagement with three major epics in their entirety, in English translation: the Iliad, the Odyssey, and Vergil’s Aeneid; examination of epics as a window into the perspectives of their earliest audiences or readerships, and also with a view to their powerful and ongoing influence on Western thought and literature; attention given to current scholarly debates surrounding the epics.
UK CREDITS: 15
US CR: 3/0/3

CL 2220  READING LATIN
The course strengthens and builds upon the skills learned in a first year Latin sequence by focusing on reading a continuous text by a key author writing in Latin and placing that work in its cultural and literary context. Authors that may be chosen include Virgil, Cicero and Livy amongst others. The course begins with a grammar review. 
The course may be repeated for credit as long as a different author is chosen.
Prerequisites: A first year Latin sequence or its equivalent
US CR: 3/0/3
COMMUNICATION (CN)

CN 2001 LE FOUNDATIONS OF CONTEMPORARY MEDIA - LEVEL 4
Overview of the mass media industry. History of the mass media and their impact on society and the individual. Development of communication technology. Role of mass media in shaping public opinion.
UK CREDITS: 15
US CR: 3/0/3

CN 2005 INTRODUCTION TO DIGITAL VIDEO - LEVEL 4
Introduction to the principles of shooting and editing moving images. Hands-on course that equips students with video-making and visual storytelling skills.
UK CREDITS: 15
US CR: 3/0/3

CN 2044 LE SOCIAL MEDIA IN AN INTERCONNECTED SOCIETY
See MK 2044.

CN 2103 INTRODUCTION TO PUBLIC RELATIONS - LEVEL 4
Introduction to public relations through the exploration of the evolution of key concepts, theories and practices relevant to the field. Understanding public relations strategies and practices.
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2110 INTRODUCTION TO ADVERTISING - LEVEL 4
Introduction to advertising and its key concepts, principles and theories, including the variety of ways in which advertising is interpreted from a historical, ethical, sociological, psychological, cultural, economic, media-centered and professional perspective
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2127 INTRODUCTION TO FILM AND TELEVISION STUDIES - LEVEL 4
Introduction to film and television as areas of study within the world of media and communication. Theoretical and historical examination of the industries their cultural and wider social significance.
Prerequisites: WP 1010
UK CREDITS: 15
US CR: 3/0/3

CN 2202 WRITING FOR THE MEDIA - LEVEL 4
Understanding media user needs and interest levels as a determining factor in how media messages are crafted. Examination and application of basic media writing techniques.
Prerequisites: WP 1010 WP 1111
UK CREDITS: 15
US CR: 3/0/3

CN 3015 DESIGNING FOR THE WEB - LEVEL 5
See ITC 3015.

CN 3160 DIGITAL STORYTELLING – LEVEL 5.
Prerequisites: CN 2005
UK CREDITS: 15
US CR: 3/0/3

CN 3164 SOUND DESIGN - LEVEL 5
See MU 3164.

CN 3311 FUNDAMENTALS OF JOURNALISM - LEVEL 5
Basic techniques in journalism Finding and determining the credibility of sources, determining the newsworthiness of the stories, interviewing, maintaining accuracy, writing leads, applying the inverted pyramid, and writing on deadline.
Prerequisites: WP 1010 WP 1111
CN 2202
UK CREDITS: 15
US CR: 3/0/3

CN 3316 BROADCAST JOURNALISM AND PUBLIC RELATIONS - LEVEL 5
The differences between print and broadcast radio and television in terms of audience expectations and receptivity. Writing for the voice and the ear. Preparing, writing and delivering news copy and field reports. Taping interviews. Shooting video. Adapting the voice to broadcast.
Prerequisites: WP 1010 WP 1111 CN 2202
UK CREDITS: 15
US CR: 3/0/3

CN 3323 PUBLIC RELATIONS AND SPECIAL EVENTS PLANNING - LEVEL 5
Event management techniques and strategies for planning, promotion, implementation and evaluation of special events in a variety of contexts. Competencies required to perform the complex tasks associated with research, design, planning, production and evaluation of events.
Prerequisites: WP 1010 WP 1111 CN 2103
UK CREDITS: 15
US CR: 3/0/3

CN 3408 ISSUES IN CONTEXT - LEVEL 5
Historical observation, social theory, and examination of media texts as tools for understanding social change. The retreat of tradition and its impact on institutions, individuals and relationships at different levels of society.

Issues of power, environmental justice (distributive and participative), resource colonization, environmental insecurity and just sustainability are also analyzed.
UK CREDITS: 15
US CR: 3/0/3

ES 4115  ENERGY AND ENVIRONMENT - LEVEL 6
The course provides an overview of different energy resources with an analysis of main fossil fuels, nuclear, and renewable energy resources, energy management aspects with supply and demand technologies and practices, and finally key energy policies and associated energy transition challenges.
Prerequisites: ES 1010
UK CREDITS: 15
US CR: 3/0/3

ES 4124  AIR QUALITY AND GLOBAL ATMOSPHERIC CHANGES - LEVEL 6
Discussion of the structure of the atmosphere, urban air pollution, acid deposition, stratospheric ozone depletion, global climate change and their impacts. Policy issues, international legislation, energy options and solutions towards a more sustainable future are examined.
Prerequisites: ES 1010
UK CREDITS: 15
US CR: 3/0/3

ES 4125  SUSTAINABLE FOOD PRODUCTION: SOIL AND ENVIRONMENT - LEVEL 6
An integrated approach to soil fertility and sustainable food production. The principles of soil formation and self-sustaining soil systems, biodiversity, biologically grown food, irrigation, water management and social values are also discussed. Focus on crops and livestock management cases, minimizing the severe irreversible soil damages to Mediterranean ecosystems. Sustainable food production and organic farming for the society. Food as a product, food policies.
Prerequisites: ES 1000
UK CREDITS: 15
US CR: 3/0/3

ES 4126  CONSERVATION OF WILDLIFE AND MEDITERRANEAN ECOSYSTEMS - LEVEL 6
An analysis of terrestrial, aquatic and marine Mediterranean ecosystems and wildlife with emphasis on endangered and protected species, conservation and management techniques.
Prerequisites: ES 1000
UK CREDITS: 15
US CR: 3/0/3

ES 4135  SUSTAINABLE USE OF RESOURCES AND WASTE MANAGEMENT - LEVEL 6
Integrated Solid Waste Management with emphasis on Waste Prevention, Reuse, Recycling and Composting. Discussion of principles and policies aiming at Zero Waste societies. Discussion of Municipal Solid Waste Management Systems based on current Environmental E.U Policy. Economic and regulatory tools applied in order to promote prevention, reuse and recycling strategies and implementation of the "polluter pays principle". Discussion of disposal options, landfills and incinerators, with emphasis on their environmental impacts.
Prerequisites: ES 1010
UK CREDITS:15
US CR: 3/0/3

ES 4223  WATER RESOURCES: THREATS AND SUSTAINABLE MANAGEMENT - LEVEL 6
The course examines world water resources and their major threats such as the increasing demand for water, overuse and depletion of freshwater resources, changes to the hydrologic cycle and water pollution. It also discusses current legislation on water and sustainable management of water resources.
Prerequisites: ES 1000 ES 1010
UK CREDITS:15
US CR: 3/0/3

ES 4229  SUSTAINABLE CITIES LEVEL 6
This course studies cities and how these can be sustainable. It addresses the political, social and physical dimensions of sustainable cities. It explores why and how to plan living environments that are attractive, functional, appropriately scaled and enjoyable, while reducing their environmental impacts and the energy it takes to build them and operate them.
Prerequisites: ES 1000 ES 1010
UK CREDITS:15
US CR: 3/0/3

ES 4242  EDUCATION FOR THE ENVIRONMENT AND SUSTAINABILITY - LEVEL 6
This course aims to provide students with knowledge and skills on how to teach about / for / in the environment and for sustainability in order to engage students in the learning process and mobilize them towards a sustainable society. The history of Education for Sustainable Development, pedagogy and teaching methods will be discussed.
Prerequisites: ES 1000 ES 1010
UK CREDITS: 15
US CR: 3/0/3
FR 1101  FRENCH II
Further concepts of the French language. Four-skill approach in order to achieve a more efficient use of the language. Francophone culture and civilization are explored through written texts and audiovisual material. (CEFR-A2)
Prerequisites: FR 1000 or equivalent
US CR: 3/0/3

FR 2202  FRENCH III
Prerequisites: FR 1000 FR 1101 or equivalent
US CR: 3/0/3

FR 2210  BUSINESS FRENCH I
French for business and management students and for those who may need to communicate in French in a business environment. (CEFR -B1)
Prerequisites: FR 1000 FR 1101 or equivalent
US CR: 3/0/3

FR 3323  BUSINESS FRENCH II
For business and management students and for those who may need to communicate in French in a business environment. Four language skills (listening, speaking, reading, and writing) are reinforced and expanded (Level B2 of the CEFR).
Prerequisites: FR 1000 FR 1101 FR 2210
US CR: 3/0/3

GERMAN (GE)

GE 1000  GERMAN I
Fundamental concepts of the German language and aspects of German culture. Essentials of German structure and basic vocabulary used to communicate in everyday situations. Four-skill-approach (listening, reading, speaking, writing) with emphasis on communicative competence. (CEFR-A1)
US CR: 3/0/3

GE 1101  GERMAN II
Further concepts of German language and culture. Extended sentence structure and vocabulary used to communicate in everyday situations. Four-skill approach with emphasis on communicative competence. Reading of longer texts. (CEFR-A2)
Prerequisite: GE 1000 or equivalent
US CR: 3/0/3
GREEK (GR)

GR 1000  MODERN GREEK I
The course develops student’s listening, speaking, reading and writing skills in the Modern Greek language at the A1 Level of the Common European Framework of Reference for Languages (CEFR).
US CR: 3/0/3

GR 1101  MODERN GREEK II
The course develops student’s listening, speaking, reading and writing skills in the Modern Greek language at the A1+ Level of the Common European Framework of Reference for Languages (CEFR). Students acquire the ability to understand main points of simple narrative or informational texts on familiar topics, and communicate in a large variety of formal/informal everyday interactions in a Greek-speaking environment.
Prerequisites: GR 1000 or waiver
US CR: 3/0/3

GR 2202  MODERN GREEK III
The course develops student’s listening, speaking, reading and writing skills in the Modern Greek language at the A2 Level of the Common European Framework of Reference for Languages (CEFR). Students acquire the ability to understand elementary-level narrative or expository texts, and communicate with ease in a large variety of formal/informal everyday interactions in a Greek-speaking environment.
Prerequisites: GR 1000 or waiver
GR 1101 or waiver
GR 2202 or waiver
US CR: 3/0/3

GE 2202  GERMAN III
Intermediate German. Further development of four language skills (speaking, reading, listening and writing) so students can use language with some independence. Emphasis on vocabulary building and reading of longer texts. Communication beyond simple everyday life towards more abstract and professional topics. (CEFR level B1)
Prerequisites: GE 1000 GE 1101 or waiver
US CR: 3/0/3

GE 2210  BUSINESS GERMAN
Communication in a German business environment. Specific vocabulary and expressions, cross-cultural training. Emphasis on oral practice. Topics: Business meetings, on the office phone, workplace descriptions, a visitor’s program. (CEFR-B1)
Prerequisites: GE 1000 GE 1101 or equivalent
US CR: 3/0/3

GEOLOGY (GG)

GG 1000  ENVIRONMENTAL GEOLOGY - LEVEL 4
An interdisciplinary approach to studying environmental geosciences. Fundamental geologic concepts such as plate tectonics, geologic time and surficial processes are used as a basis for understanding a variety of natural processes. Elaboration on topics of physical geology, including the rock cycle and plate tectonics, occurrence and distribution of geologic hazards and resources, interactions between humans and the geologic environment, and the issues associated with the exploitation of geologic resources such as water and air pollution.
US CR: 3/2/4
UK CREDITS: 20

GG 3115  GEOGRAPHIC INFORMATION SYSTEMS - LEVEL 5
An introduction to the field of Geographic Information Systems (GIS), its diversified applications and exploration of basic concepts, principles, approaches and techniques of GIS. Topics include applications of geographic information system; spatial data collection; data accuracy and uncertainty; cartographic principles; data visualization; geographic analysis; legal, economic and ethical issues.
Prerequisites: CS 1070
UK CREDITS: 15
US CR: 3/0/3
GREEK LITERATURE (GL)

GL 2221  MODERN GREEK POETRY
Prerequisites: WP 1010  WP 1111
US CR: 3/0/3

GL 2224  CURRENTS IN MODERN GREEK LITERATURE
Survey of Modern Greek literature (in English translation) from the late nineteenth century to the present. Focus on the prose and poetry of major authors. Works examined for their individual stylistic and thematic elements within the context of literary and cultural movements.
Prerequisites: WP 1010  WP 1111
US CR: 3/0

HUMAN COMMUNICATION (HC)

HC 2300  PROFESSIONAL COMMUNICATION
Communication in professional and organizational settings, online and offline; oral and written etiquette; structure, content, and formatting; informative and persuasive documents and presentations; verbal and non-verbal communication.
Prerequisites: WP 1010  WP 1111  WP 1212
US CR: 3/0/3

HC 2306  INTERPERSONAL COMMUNICATION
A practical approach to interpersonal communication focusing on organizational and social settings, emphasizing teamwork and conflict management; helping the students understand themselves as communicating and communicated constructs.
Prerequisites: WP 1010  WP 1111  WP 1212
US CR: 3/0/3

HISTORY (HY)

HY 1000  LE SURVEY OF WORLD CIVILIZATIONS I
Broad historical account of past civilizations around the world from the ancient river-valley civilizations of southwest Asia to the dawn of the modern age in Western Europe (3,500 BCE-1,500 CE); survey of every major historical epoch and geographical region; focus on sociocultural and economic affairs; prioritization on long-term processes that reflect both chronological and global themes in world history.
US CR: 3/0/3

HY 1001  LE SURVEY OF WORLD CIVILIZATIONS II
Broad historical account of the development of the world since 1500 CE; survey of major historical events and geographical regions; focus on socio-political and economic affairs; prioritization on long-term processes that reflect both chronological and global themes in world history.
US CR: 3/0/3

UK CREDITS: 15
US CR: 3/0/3

HY 3026  MIDDLE EAST: POWER AND IDEOLOGY – LEVEL 5
The course is intended to provide an analysis of the regional politics of the Middle East since the Ottoman empire, and of their interaction with issues of international security, global resources, and great power politics.
UK CREDITS: 15
US CR: 3/0/3

HY 3033  EUROPE AND ISLAM (CE 700-1500) – LEVEL 5
Examination of the rich and complex relations between Western Europe, Byzantium, and the Islamic world from the early Islamic conquests of Christian lands in the seventh century to the Ottoman conquest of Constantinople in the fifteenth, comparison with the parallel historical development of the Christian polities in Western Europe, the Byzantine empire, and the Islamic states; exploration of their political, economic, and cultural interaction across space and time; emphasis on trade networks and commercial exchanges, court diplomacy and religious polemics.
UK CR: 15
US CR: 3/0/3

HY 3040  HISTORY OF RUSSIA TO 1900 – LEVEL 5
A broad survey beginning with medieval Russia; concentration on the rise of Muscovy, Peter the Great, and developments leading to the Revolution of 1905.
UK CREDITS: 15
US CR: 3/0/3

HY 3044  EUROPEAN EMPIRES AND DECOLONIZATION – LEVEL 5
Comparative history of the British, French, Dutch, Belgian and Portuguese empires. Examination of the driving forces behind geographical expansion of these empires. Discussion of imperial administration as well as issues of race and segregation; covering how this imperial world impacted the lives of millions of colonial civilians. Focus on the indigenous anti-colonial movements and subsequent decolonization process from the end of the Second World War, during the Cold War until the 1970s.
UK CR: 15
US CR: 3/0/3

HY 3060  GREECE: THE BIRTH OF A MODERN NATION – LEVEL 5
Historical, political and cultural developments in Greece from the Revolution of 1821 to the age of Venizelos. The birth and building of the modern Greek state.
UK CREDITS: 15
US CR: 3/0/3

HY 3146  INVESTIGATING HISTORY - LEVEL 5
Examination of the various ways in which history has been studied and written from antiquity to the present day; emphasis on the assumptions and methods which have shaped the reconstruction and interpretation of the past; future challenges of the discipline.
Prerequisites: HY 2038
UK CR: 15
US CR: 3/0/3

HY 3147  TOPICS IN HISTORY – LEVEL 5
The Understanding of the conceptual, historiographical, and methodological dimensions of a broad theme in comparative history; investigation of continuities and changes over time; exploration of historical debates of the topic under examination, and discussion of primary sources.
Prerequisite: HY 2038
UK CR: 15
US CR: 3/0/3

HY 4048  PUBLIC HISTORY – LEVEL 6
Overview of public history or the many and diverse ways in which history is represented and debated ‘in public’; examination of the theory and practice of public history through a variety of sources, including historical novels, websites, apps, social media feeds, documentaries, films, exhibits, material culture, graphic novels, computer games, guest speakers, and physical sites; history-related professional opportunities available outside of academia.
UK CR: 15
US CR: 3/0/3

HY 4049  LATE ANTIQUE CULTURES – LEVEL 6
Exploration of the political and cultural transformation of the ancient Mediterranean world from the third to the seventh centuries CE; transition of the Later Roman Empire into the Byzantine Empire in the east and the Germanic kingdoms in the west; the rise and expansion of Christianity and the pervasive impact of ‘Christianisation’ across societies and cultures; the transformation of urban landscapes and lives across the Mediterranean basin along with and the development of new communities and identities.
UK CR: 15
US CR: 3/0/3
HY 4053  GLOBAL HISTORY OF THE COLD WAR - LEVEL 6
A thorough examination of the key topics in the international history of the Cold War, centering on the period between the end of World War II and the revolutions of 1989; meaning and significance of the Cold War for World history, possibilities and difficulties of writing about recent events drawing on a combination of primary and secondary material.
UK CREDITS: 15
US CR: 3/0/3

HY 4054  THUCYDIDES AND WAR STRATEGIES - LEVEL 6
Exploration of the discipline of Military History and War Studies, examination of various methodological approaches used by Thucydides to describe and explain the behaviour of ancient Greek city-states and consequently great powers; students will identify the skills of analysis and interpretation of primary and secondary sources and the tools necessary to comprehend Thucydides’ contribution to the study of strategy.
UK CR: 15
US CR: 3/0/3

HY 4058  INTERNSHIP IN HISTORY
Internship in History is a specialized class where students enrich their historical education through experiential learning at institution or sites approved by the History Department and the School of Liberal Arts and Sciences. Types of internships may vary, but all students will link their on-site experience to their study of history through reflection-based assignments.
Prerequisites: Normally the student will have completed 70 US credits before embarking on this course.
UK CR: 15
US CR: 3/0/3

HY 4061  GREECE IN THE 20TH CENTURY -- LEVEL 6
The course is devoted to the critical study of Modern Greece from the Balkan Wars to present day. It will examine aspects of Greek society, politics, economics, and foreign policy during the formative twentieth century.
UK CR: 15
US CR: 3/0/3

HY 4155  ADVANCED TOPICS IN HISTORY - LEVEL 6
Sophisticated and in-depth study of a topic in history that is broadly conceived and is informed by the state-of-the-art literature and research. The thematic concentration varies year to year and is determined by the instructor.
Prerequisite: HY 3146
UK CR: 15
US CR: 3/0/3

HY 4456  DISSERTATION I - LEVEL 6
This course serves as an introductory course in the dissertation methodology writing process. The core objective of the course is to provide guidance and motivation to the student so that a research topic is identified and the relevant research proposal is submitted.
Prerequisite: HY 3146 and completion of 3 Level 6 (4000-level) HY courses
UK CR: 10
US CR: 2/0/2

HY 4557  DISSERTATION II - LEVEL 6
Dissertation II is the culminating assessment in earning the B.A. in History at ACG. It is meant to demonstrate advanced study and inquiry into a particular facet of history in relation to the experiences of students in the program. The dissertation is a work of original scholarship designed with guidance from a dissertation supervisor.
Prerequisite: HY 4456
UK CR: 20
US CR: 4/0/4

HY 4053  GLOBAL HISTORY OF THE COLD WAR - LEVEL 6
A thorough examination of the key topics in the international history of the Cold War, centering on the period between the end of World War II and the revolutions of 1989; meaning and significance of the Cold War for World history, possibilities and difficulties of writing about recent events drawing on a combination of primary and secondary material.

INFORMATION TECHNOLOGY (ITC)

ITC 1070  INFORMATION TECHNOLOGY FUNDAMENTALS
Binary numbers and logic operations; computer hardware; operating systems; algorithmic thinking; programming languages; computer networks; the Internet; web development; data management.
Replaces CS 1070 for IT majors. Students will not receive credit for both ITC 1070 and CS 1070.
UK CREDITS: 15
US CR: 3/1.5/3

ITC 1112  LE TURNING DATA INTO DECISIONS
Data protection legislation; ethical use of data; the contribution of data analysis to organizational sustainability; visualizing data using graphs, charts and 3D maps; using functions and analytical tools for what-if analysis; using data reporting tools; linking of worksheets and workbooks; importing and manipulating data.
ITC1112 BL is not available to students on US Federal Financial Aid.
Prerequisites: CS 1070 or ITC 1070
US CR: 3/0/3

ITC 2024  COMPUTER NETWORKS & CYBERSECURITY FUNDAMENTALS - LEVEL 4
UK CREDITS: 15
US CR: 3/0/3

ITC 2039  LE CONCEPTS IN MULTIMEDIA AND WEB DESIGN - LEVEL 4
Multimedia types, elements, and technical components; digital image editing; animation; web site development; sustainable digital media.
UK CREDITS: 15
US CR: 3/0/3

ITC 2053  INTRODUCTION TO GAME PROGRAMMING
Game programming fundamentals; basic 3D graphics concepts; combining and utilizing multimedia content using a game engine; creating and editing scripts using appropriate programming / scripting languages and techniques.

ITC 3254  COGNITIVE COMPUTING WITH IBM WATSON
(same as CS 3254)
Natural Language Processing with IBM Watson Platform; Business Intelligence; Question answering. Unstructured
Information Processing.
Prerequisites: CS 1070 ITC 2088 or CS 2179
UK CREDITS: 15
US CR: 3/0/3

ITC 3261  VOICE USER INTERFACES - LEVEL 5
User interfaces, voice commands, conversational UI, chatbots; virtual assistants; methods, tools, and design,
challenges and testing, case studies, the role of NLP, applications and services.
Prerequisites: ITC 2088 or equivalent
ITC 3051
UK CREDITS: 15
US CR: 3/0/3

ITC 3287  ADVANCED OBJECT ORIENTED AND FUNCTIONAL PROGRAMMING - LEVEL 5
Advanced object-oriented and functional programming concepts; algorithmic and problem-solving techniques;
advanced GUI components; event handling; data structures; data persistence; efficiency issues.
Prerequisites: ITC 2088 or ITC 2197
UK CREDITS: 15
US CR: 3/1/3

ITC 3215  MOBILE APPLICATION DEVELOPMENT - LEVEL 5
Programming mobile devices, user interface design, user interface building, input methods, data storage; motion
sensing; memory management; exception handling.
Prerequisites: ITC 1070 or CS 1070
UK CREDITS: 15
US CR: 3/0/3

ITC 3233  DATA MINING AND BIG DATA - LEVEL 5
Data and feature selection, cleaning, extracting patterns from structured and unstructured data, evaluation, big data,
tools, applications
Prerequisites: ITC 1070 or ITC 2088
Corequisites: MA 2010 or MA 2021 or MA 2025
UK CREDITS: 15
US CR: 3/0/3

ITC 3237  GAME DEVELOPMENT - LEVEL 5
Game development approaches, tools and techniques. Manipulation of visual effects and sound. Object animation.
Movement control. Worlds. Interactive environments.
Prerequisites: ITC 2088
UK CREDITS: 15
US CR: 2197 or ITC 2053

ITC 3254  COGNITIVE COMPUTING WITH IBM WATSON

Prerequisites: ITC 2088 or ITC 2197
UK CREDITS: 15
US CR: 3/1/3
ITC 3319  NETWORK ADMINISTRATION - LEVEL 5
Installation and administration concepts. Management, monitoring, and optimization of system performance, reliability, and availability. Design issues and support in a corporate environment.Troubleshooting and end user support.
Prerequisites: ITC 1070  ITC 2193
ITC 2024  or  ITC 3175
UK CREDITS: 15
US CR: 3/1.5/3

ITC 3338  EDGE COMPUTING - LEVEL 5
New computing paradigms: fog, edge infrastructures, slicing, management and orchestrations. IoT integration, applications, lIoT, business models, big data analytics in the fog, GDPR restrictions.
Prerequisites: ITC 1070  or  ITC 2088
ITC 2024  or  ITC 2193
UK CREDITS: 15
US CR: 3/0/3

ITC 3431  CRYPTOGRAPHY & NETWORK SECURITY - LEVEL 5
Basic symmetric encryption algorithms: DES, AES. Public key encryption, hash functions, digital signatures, confidentiality issues, authentication and identity management, SSL/TLS, IP security.
Prerequisites: ITC 2024  ITC 2088
MA 2010  or  MA 2021  or  MA 2025
Corequisite: ITC 3006
UK CREDITS: 15

ITC 4035  GAME DESIGN - LEVEL 6
Game design process; player’s psychology; media definitions, interactive stories, characters, game worlds; game mechanics, balancing attributes; interface types and design issues; aesthetics; UX; game violence and ethical concerns.
UK CREDITS: 15
US CR: 3/0/3

ITC 4056  ENABLING TECHNOLOGIES - LEVEL 6
IoT and industrial IoT (iIoT) architectures; standards, softwarisation and virtualisation technologies, fifth generation (5G) networks, federated learning AI systems, blockchain, edge computing, virtual and augmented. From conception to completion.
UK CREDITS: 15
US CR: 3/0/3

ITC 4057  PROJECT MANAGEMENT - LEVEL 6
See MG 4057.

ITC 4085  INFORMATION TECHNOLOGY INTERNSHIP
Experiential learning for information Technology majors. Students gain on-the-job experience and training as they learn to apply knowledge gained in the classroom to real life professional situations.
Prerequisites: Normally the student will have completed 70 credits before embarking on this module. Formal approval by the Department Head / Program Coordinator / Internship Administrator (as appropriate) is required.
UK CREDITS: 0/0/3
US CR: 0/0/3

ITC 4140  METHODS IN ICT PROJECT RESEARCH AND MANAGEMENT - LEVEL 6
Integrated methods for ICT projects investigation and planning; problem identification; field review; selected investigative techniques; modelling and evaluation techniques; testing strategies; quality considerations. A comprehensive coverage of the procedure required for the development of a thorough ICT capstone project proposal. Components of this procedure include: (a) identification of the problem, (b) background research (c) objectives and impact of the project, (d) project feasibility and risk assessment, (e) analysis, (f) testing and testing strategies, (g) quality considerations, (h) progress planning & management.
Prerequisites: MA 2010  or  MA 2021  or  MA 2025
Corequisite: ITC 3431
UK CREDITS: 15
US CR: 3/0/3

ITC 4161  TECHNOLOGY INNOVATION AND ENTREPRENEURSHIP - LEVEL 6
See CS 4161.

ITC 4162  DIGITAL TRANSFORMATION - LEVEL 6
Digital ecosystems and industry transformation; types and approaches. User interface evolution; Lean UX methodology, distribution platforms; business ecosystems, learning ecosystems, intelligent assistants; platform design, UX in IoT.
Prerequisites: ITC 3051
UK CREDITS: 15
US CR: 3/0/3
ITC 4214  INTERNET PROGRAMMING - LEVEL 6
Internet standards and infrastructure. Client and server technologies. Rich Internet applications. Scripting
Prerequisites: ITC 2088      ITC 3160
UK CREDITS: 15
US CR: 3/1.5/3

ITC 4344  DIGITAL FORENSICS - LEVEL 6
Computer crime and the forensic investigation process; principles and practices; digital evidence on computer
systems, hardware storage, the Internet, mobile devices. Computer forensics on data analysis, operating systems
forensics, assisting cryptographic techniques; event timing, forensic disk imaging; data recovery, file reconstruction.
Rules of evidence and standards, principles of evidential management; the expert witness; standards and ethics.
Prerequisites: ITC 1070      ITC 2024
ITC 2193
ITC 3051
UK CREDITS: 15
US CR: 3/0/3

ITC 4350  IMMERSIVE COMPUTING - LEVEL 6
Virtual, augmented and mixed realities; concepts in immersion, presence, and flow; approaches, tools and
techniques, immersive technologies and paradigms; perceptual, cognitive, and symbolic aspects of the experience
of VR and AR; impact on the user experience.
Prerequisites: ITC 2088
ITC 2197  or  ITC 2053
ITC 3051
UK CREDITS: 15
US CR: 3/0/3

ITC 4380  ARTIFICIAL INTELLIGENCE PRINCIPLES - LEVEL 6
State space search, knowledge representation, probabilistic reasoning, machine learning.
Prerequisites: ITC 2088
ITC 2197  or  ITC 3234
ITC 3006
UK CREDITS: 15
US CR: 3/0/3

ITC 4426  DISTRIBUTED SYSTEMS - LEVEL 6
Distributed systems principles; communication; processes; naming; synchronization; fault tolerance; security;
consistency and replication; object-based systems; document-based systems; distributed file systems; coordination-
based systems; payment systems; Internet and web protocols; scalability.
Prerequisites: ITC 1070      ITC 2013
ITC 3006  ITC 2024  or  ITC 3175
UK CREDITS: 15

ITC 4445  GAMES PORTFOLIO - LEVEL 6
Application of game design and development skills on small-scale games using a variety of tools, game engines,
game programming, game design, planning and managing a portfolio of games.
Prerequisites: ITC 2088      ITC 2197  or  ITC 2053
ITC 3051  ITC 3237
ITC 4035
UK CREDITS: 15
US CR: 3/0/3

ITC 4446  INTRUSION DETECTION & INCIDENT RESPONSE - LEVEL 6
Intrusion prevention, detection, and response; defensive and offensive techniques and tools, network traffic analysis.
Prerequisites: ITC 2024      ITC 2088  ITC 3121
MA 2010  or  MA 2021  or  MA 2025
UK CREDITS: 15
US CR: 3/0/3

ITC 4447  SECURE SOFTWARE DEVELOPMENT - LEVEL 6
Best practices for developing secure software; coding techniques for data validation, session management, exception
handling, data encryption; configuration techniques. Mitigating security risk from external and internal sources.
Prerequisites: ITC 2088      ITC 2197  or  ITC 3234
ITC 3160
Corequisite: ITC 4214
UK CREDITS: 15
US CR: 3/0/3

ITC 4448  HIGH PERFORMANCE COMPUTING - LEVEL 6
Big data challenges, multi-core programming, shared and distributed memory; concurrency models, synchronization
and coordination; distributed algorithms and frameworks; GPU programming.
Prerequisites: ITC 1070      ITC 2008
ITC 2186  ITC 2193

ITALIAN (IT)

IT 1000  ITALIAN I
Four basic language skills (listening, speaking, reading and writing) are developed in order to acquire a general basic ability to communicate in a number of the most familiar situations of everyday life and to understand main points of simple conversations and texts, needed mainly for tourism and basic contacts with an Italian environment (CEFR-A1).
UK CR: 3/0/3

IT 1101  ITALIAN II
Four language skills (listening, speaking, reading and writing) are reinforced and expanded in order to gain a more effective command of the language and to interact with greater confidence in a wider range of everyday familiar situations. (CEFR-A2)
Prerequisite: IT 1000 or equivalent
UK CR: 3/0/3

IT 2202  ITALIAN III
Four language skills (listening, speaking, reading and writing) are thoroughly developed so as to handle the main structure of the language with confidence, to use a wide range of vocabulary and appropriate communicative strategies, and to acquire a certain degree of independence when called upon to use the language in everyday social, work or academic contexts. (CEFR-B1)
Prerequisites: IT 1000 or equivalent
IT 1101 or equivalent
UK CR: 3/0/3

IT 3352  TRAVEL INTO ITALIAN CINEMA
A tour of Italy through a selection of most famous Italian movies. Important aspects of the Italian cinema with reference to essential cultural aspects of Italy are analyzed and discussed. (CEFR-B1)
Prerequisites: IT 1000 or equivalent
IT 1101 or equivalent

IR 2015  MODERN EUROPEAN HISTORY AND POLITICS - LEVEL 4
A thematic approach to the history and politics of Europe, from early ideas of Europe to the contemporary European setting. Introducing ideologies as embedded in particular historical developments and laying the foundations for future study of the impacts of wars in Europe, including the European unification process and challenges facing the latter.
Prerequisites: IR 2010
UK CREDITS: 15
US CR: 3/0/3

IR 3117  INTERNATIONAL POLITICAL ECONOMY & GLOBAL MARKETS - LEVEL 5
An overview of recent developments in global economics and politics with special reference to emerging economic and political crises, areas of actual and potential political distress and societal disruption, and the ways the latter will potentially impact the future.
Prerequisites: IR 2010
UK CREDITS: 15
US CR: 3/0/3

IR 3120  RESEARCH METHODS IN INTERNATIONAL RELATIONS - LEVEL 5
The role and significance of research in the domain of international relations. Formulation and clarification of research questions and problems, writing literature review, designing research, data collection and analysis, interpretation of findings, argumentation on problem resolution.
Prerequisites: IR 2010
UK CREDITS: 15
US CR: 3/0/3

IR 3225  FOREIGN POLICY - LEVEL 5
A theoretical and empirical study of foreign policy through the ages. Analysis, interpretation and evaluation of foreign policy theories and actions.
Prerequisites: IR 2010  PO 2004
UK CREDITS: 15
US CR: 3/0/3

IR 4041  THE ROLE OF ENERGY IN THE 21ST CENTURY – LEVEL 6
An in-depth examination of several topics about energy and its importance and sustainability in today’s emerging international system, focusing on issues such as economics, diplomacy, security, and the environment.
Prerequisites: IR 3120  PO 2004
UK CREDITS: 15

IR 4042  CONFLICT RESOLUTION & NEGOTIATION IN IR – LEVEL 6
Examination of the complexities of conflict resolution and its significance in the field of International Relations; active engagement with re-enactments and simulations dealing first-hand with crisis management and the negotiation process.
Prerequisites: IR 3120
UK CREDITS: 15

IR 4070  INTERNSHIP IN INTERNATIONAL RELATIONS
Experiential learning in the field of international relations. Students gain on-the-job experience and receive training as they learn to apply advanced theoretical frameworks gained through the programme to real life professional situations or diplomacy.
Prerequisites: Normally the student will have completed 70 credits before embarking on this module. Formal approval by the Department Head / Programme Coordinator / Internship Administrator (as appropriate) is required.
US CR: 3/0/3

IR 4130  GLOBAL COMMUNICATION AND THE MEDIA IN INTERNATIONAL RELATIONS – LEVEL 6

US CR: 3/0/3

MA 1000  MATHEMATICS FOR THE LIBERAL ARTS
Designed to give liberal arts students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make quantitatively-based decisions in their lives. Topics include quantitative information in everyday life, financial management, probability, and statistics.
US CR: 3/0/3

MA 1004  INTERMEDIATE ALGEBRA
This course is offered for non-graduation credit
US CR: 3/0/3
MA 3323  ELEMENTARY DIFFERENTIAL EQUATIONS
An introduction to methods for solving (ordinary) differential equations with constant or variable coefficients. First order differential equations including linear, exact, and separable equations. Euler’s method for approximate solutions. Solutions of higher order linear differential equations using undetermined coefficients, variation of parameters, power series, and the Laplace Transform. Solutions of systems of linear equations, eigenvalues and eigenvectors, with application to a range of modeling-based applications arising in the context of engineering and sciences.
Prerequisites: MA 1008 MA 2130 or MA 2105
US CR: 3/0/3

MA 3345  CALCULUS III
A continuation of Calculus II. This is a study of multivariable calculus including vector-valued functions and the calculus of curves in space, differential calculus of multivariate functions, integral calculus of multivariate functions, spherical and cylindrical coordinates, line and surface integrals.
Prerequisites: MA 1008 MA 2130 MA 2240
US CR: 3/1.5/4

OCEANOGRAPHY (OC)
OC 1000  OCEANOGRAPHY: PHYSICS AND GEOLOGY OF THE OCEAN BASINS
Principles of oceanography with emphasis on geological and physical processes: history of oceanography as a modern scientific field, the formation of Earth and the solar system, ocean floor topography, continental drifting, plate tectonics, sediments, atmospheric processes, ocean currents, waves and tides.
US CR: 3/1.5/4

OC 1001  LIFE IN THE OCEANS
Principles of chemical and biological oceanography with emphasis on chemical and biological processes, the properties and origin of water and salts, major constituents, dissolved gases and nutrients, the carbon dioxide system, coastal processes, the biological productivity of the oceans, ecology, distribution and classification of marine organisms, ocean resources and ocean pollution.
US CR: 3/1.5/4
PHILOSOPHY (PH)

PH 1000  LE INTRODUCTION TO PHILOSOPHY – LEVEL 4
Overview of the most influential philosophical answers to ‘big’ questions about reality, knowledge and ourselves. An introduction to philosophical ways of thinking.
UK CREDITS: 15
US CR: 3/0/3

PH 1001  CRITICAL THINKING – LEVEL 4
Introduction to reasoning with an emphasis on critical thinking. Training in the application of practical decision-making in various domains, such as politics, law, management, science, media and everyday life issues.
UK CREDITS: 15
US CR: 3/0/3

PH 2003  PHILOSOPHY OF TECHNOLOGY IN THE INFORMATION ERA – LEVEL 4
An introduction to philosophical thinking about technology. Issues reviewed include, but are not limited to, minds, machines, and artificial intelligence; contemporary ethical problems in technology; virtual reality; and the online experience. The course is of interest to all students wanting to expand their thinking on, and understanding of, technology.
UK CREDITS: 15
US CR: 3/0/3

PH 2014  LE AESTHETICS – LEVEL 4
An introduction to the philosophy of art and aesthetic appreciation. Overview of theories based on key concepts such as representation, form, artistic expression and creativity, aesthetic experience. Contemporary discussion of the definition and criticism of art, traditional and new arts, artistic institutions and cultural politics.
UK CREDITS: 15
US CR: 3/0/3

PH 2016  PHILOSOPHY AND CINEMA – LEVEL 4
Introduction to philosophical perspectives about cinema and the cinematic experience. Overview of key philosophical ideas on the nature of cinema as art and entertainment, the role of emotion in our film experiences, and the ways in which films engage with philosophical ideas and arguments.
UK CREDITS: 15
US CR: 3/0/3

PH 2020  GREEK PHILOSOPHY – LEVEL 4

Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2205  | “PYGMALION’S CREATIVE DREAM”: TRANSFORMATIONS OF THE BODY FROM MYTH TO MODERNITY
An interdisciplinary study of changing representations of the body across a variety of periods, genres and media. It aims to explore moral, philosophical, and aesthetic issues associated with the body, as concept, as embodied experience, and as object of artistic representation. Using as a case study the myth of Pygmalion in its varied expressions in literature, philosophy, music and the visual arts, the course offers an introduction to the body and its transformations from antiquity to the present.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2206  | LE MEDIATED LIVES: AVATARS, CYBORGS, AND VIRTUAL REALITIES
(Same as HSS 2206)
The course considers the ethical, social, and aesthetic implications of virtual reality and artificial life in 21st-century technology-dominated culture. It aims to promote students’ awareness of the potential outcomes—epistemological, psychological, ethical, and social—of technological advances that are based on virtual simulations, augmented realities, and intelligent machines.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2207  | LE CONSTRUCTIONS OF DESIRE. REPRESENTATIONS OF EROTISM IN WESTERN CULTURE
(Same as HSS 2207)
This course will explore the construction and representation of erotic desire across Western art and thought, as well as the precarious dialogue between eroticism and cultural orthodoxies.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2208  | LE POVERTY AS SPECTACLE FROM THE ODYSSEY TO THE GREEK CRISIS
(Same as HSS 2208)
This course explores the ways in which poverty is not only represented but also constructed in/through various media, ranging from ancient literary texts to social history, political theory, and contemporary film. It seeks to enquire into the preconditions and cultural assumptions that inform representations of poverty, with special emphasis on the 20th and 21st centuries.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2209  | THE CITY OF ATHENS AS MYTH: LANDSCAPE, NARRATIVE, AND URBAN MEMORY
This course will offer students the opportunity to unearth the hidden myths in the city of Athens, and study the interrelationship between ancient mythic narratives and contemporary urban development. Focusing on specific myths, students will be able to study and experience first-hand the complex mythic nexus that was responsible for the construction of urban identity in ancient Athens and which still functions as a subterranean ‘network’ of cultural referents.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2210  | LE BETWEEN REALITY AND IMAGINATION: CONSTRUCTIONS OF MODERN CITYSCAPES
(Same as HSS 2210)
This Honors seminar will offer students the opportunity to study different ways of experiencing and understanding the material (social, political and historic) as well as imaginary dimensions of modern urban spaces. Emphasis upon city imaginaries aims to expose students to various discourses (sociological, aesthetic, literary, etc.) as tools for the study of modern cityscapes.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

HHU 2211  | LE PRIVATE STORIES, PUBLIC STORIES. PERSONAL NARRATIVES IN SOCIAL/HISTORICAL PERSPECTIVES
(Same as HSS 2211)
The course explores the interrelationship of private stories and public experience through study of the characteristics and function of oral story-telling. Focus is placed on the connection between story-telling, personal memory, and social/historical experience. Students are exposed to the techniques and processes of oral history, such as researching the subject, conducting interviews, handling materials ethically and responsibly, preserving personal narratives, and composing and editing research documents and projects.
Prerequisites: WP 1010 WP 1111  
US CR: 3/0/3

Academic Enrichment Programs
HHU 2214  LE LAUGHING IT OFF: FORMS AND USES OF MODERN POLITICAL SATIRE
(same as HSS 2214)
This Honors seminar invites students to engage in a critical exploration of political satire in art, literature and film. Students will be exposed to different types of satirical expression, and will be led to consider satire as a gesture of political resistance. Students also examine satire in connection with issues such as the limits to freedom of expression, censorship, and social responsibility.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2215  WAR, PEACE AND IDENTITY IN THE BALKANS
The course focuses on the construction of ethnic identities in the Balkan region from the Ottoman times all the way to the present. It aims to guide students to reconsider their views on nationhood, while developing a more informed understanding of the uniqueness of the Balkan societies and cultures and the ways in which the historical origins of Balkan countries have shaped inter-state relations.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2216  LE GAMING THE PAST
This interdisciplinary course introduces students to thinking critically about reconstructing and interpreting the historical past using the experiential role-playing and debating pedagogy of Reacting to the Past. The course combines history, classics, and archaeology to examine Athens of the 5th century BC. The course includes site visits.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2218  LE FOOD IN/AS CULTURE: PERSPECTIVES ON GREEK CULINARY TRADITIONS
(same as HSS 2218)
An interdisciplinary treatment of food as key element of political, social, and cultural dimensions of Greek experience. Combining theoretical and methodological approaches in archaeology and anthropology, and focusing on the Greek context, the course guides students through an exploration of culinary practices from the prehistoric to the present days, placing emphasis on food as a sign of ethnic, gender, religious, local, trans-local and multicultural identities. Short field trips in the city center and museums unveil the long culinary history of the city of Athens, highlighting multicultural influences in the development of Greece’s distinctive culinary culture.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2219  LE WHAT IT MEANS TO BE GREEK: PERSPECTIVES OF GREEK IDENTITY AND NATIONHOOD
A historical treatment of the evolving ideas of Greekness from the Greek revolution to the present. The course explores changing notions of Greek identity articulated by both Greeks and non-Greeks. Focusing on different texts, from historical documents and literary works as well as films and electronic media, the course helps students explore different perspectives on Greek identity, articulated by both Greeks and non-Greeks. As a result, students develop awareness of the contingent and shifting nature of Greekness, and reflect on the ideological significance of representations of Greekness, both within and outside Greece.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2221  LE PERFORMING MASCULINITIES
See HSS 2221.

HHU 2222  LE FLUID BODIES IN CONTEMPORARY ART
See HFP 2222.

HHU 2225  LE IDENTITY AND MOBILITY IN THE AEGEAN: PERSPECTIVES FROM GREECE AND TURKEY
The course focuses on experiences of mobility and conceptualizations of identity in the Aegean in the context of historical, social, and cultural interfaces between Greeks and Turks. Emphasis on instances of displacement and intercultural contact between Greece and Turkey from the Ottoman times all the way to the present.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2227  PROMETHEUS UNBOUND OR THE FALL OF ICARUS? MACHINES THAT CHANGED THE WORLD

Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2230  LE ANTIGONE’S DILEMMA: CITIZENSHIP AND RESISTANCE IN THE CONTEMPORARY WORLD
This course uses Sophocles’ Antigone and its multiple readings, adaptations, and enactments, as springboard in order to explore the problematic of communal belonging and individuality, especially in its contemporary manifestations. Antigone, an emblematic figure of civil disobedience, offers us a way to reflect on the underpinnings of citizenship, resistance, and ethical responsibility. The course invites an interdisciplinary engagement with Antigone, one that brings together philosophy, literary theory, aesthetics, political theory, and gender studies. Readings and material will be drawn from the humanities and art.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HHU 2235  LE THE SOCIETY OF SPECTACLE: IMAGE AS POWER IN ART, POLITICS AND TECHNOLOGY

Academic Enrichment Programs

HSE 2286  LE FAIRY TALES FORMED AND TRANSFORMED
The course will investigate retellings of classic fairy tales in various art forms and media (ie. text, image, film, music, Theatre). Students will explore the purpose and means through which artists mine the cultural unconscious to produce the transformations of well-known bedtime stories. Informed by the practices of cultural studies, this interdisciplinary course will approach the subject holistically, encouraging students to place the works within their socio-historical context and to analyze the ways in which meaning is produced both in the classic tales and in their transformations.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HNS 2250  LE DEBUNKING PSEUDOSCIENCE: A SCIENTIFIC APPROACH
A provocative and integrative examination of introductory natural science and the application of its principles in the debunking of popular conspiracies and controversies. Combining physics, chemistry and biology, the seminar applies theoretical and laboratory practices to put to rigorous testing pseudo-scientific beliefs and disciplines. Engaging in interdisciplinary explorations of historical, philosophical and social perspectives on scientific methodology, the course aims to develop students' awareness of the dangers of pseudo-scientific thought and assist them in the making of rational and healthy decisions in their everyday life.
Prerequisite: WP 1010 WP 1111
US CR: 3/1.5/4

HNS 2285  LE GREENING THE CAMPUS: WASTE AND WATER
An introduction to sustainability and the science of selected environmental issues. This will be a field study course focusing on selected environmental aspects of campus life. Through field work, the students will not only gain practical knowledge of sustainability but also strengthen the campus culture in support of environmental issues. The course will focus on selected environmental topics / aspects and will connect / be coordinated with ongoing sustainability activities on campus.
Prerequisites: WP 1010 WP 1111
US CR: 3/1/3/4

HSE 2205  LE MATHEMATICS AND HUMAN EXPERIENCE
An interdisciplinary course that aims to expose students to the ways in which mathematical principles and laws underlie, inform, and help explain various facets of human experience. Using as starting points natural phenomena, forms of popular culture and elements of social life, the course exposes students to various mathematical concepts and their applications, in order to demonstrate the centrality of mathematical laws and the importance of mathematical consciousness.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HSE 2210  LE THE WHITE RIDER: THE NATURE AND CHARACTER OF INFECTIOUS DISEASE IN SOCIETY
An interdisciplinary, thought-provoking and integrative discussion on the topic of Infectious Disease. The course focuses on the biological basis of infection and the various pathogens that cause disease, as well as its socio-political aspects and how infectious disease has been a major driving force of historic events through epidemics that have shaped the world as we know it today. Attention will be given to the development of various strategies [both pseudoscientific and scientific] for combating disease from a joint biological and ethical perspective.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HSE 2215  LE HUMAN CONSCIOUSNESS: FROM BRAIN TO SUBJECTIVITY
A lively, engaging introduction to a hot area of increasing popular interest which is currently a rapidly expanding domain of scientific inquiry and is ideal for students of biology, neuroscience, psychology, philosophy as well as literature and the arts. In this interdisciplinary course students are exposed to basic human brain anatomy, functions and neuroscience principles contributing to debates regarding the nature of perception and consciousness. An integration of biophysiological, neuroscientific, evolutionary, cognitive, and philosophical perspectives is explored in connection with the phenomenon of consciousness.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HSE 2220  LE HUNGRY BRAIN AND THINKING STOMACH: EATING, FEEDING AND “SATIETY”
An interdisciplinary overview of eating behaviour from the perspectives of natural and social sciences. Drawing from basic principles of neuroscience and biopsychology, the course focuses on underlying brain mechanisms of metabolism and food perception, which are also mediated by human subjectivity and cultural norms.
Prerequisites: WP 1010 WP 1111
US CR: 3/0/3

HSE 2224  HOT POLITICS: THE PSYCHOLOGY AND NEUROSCIENCE OF POLITICS AND POWER
The course combines perspectives from political science, social psychology and cognitive neuroscience in examining the way in which emotions are connected to perceptions of political content and decision-making.

Regulations for validated awards of the Open University for institutions offering Dual awards

The Regulations for validated awards of the Open University for institutions offering Dual awards document is an integral part of “The American College of Greece Undergraduate Catalog and Student Handbook” and is located at http://www.acg.edu/programs.
In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programs it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programs, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programs. Deree - ACG strives to eliminate unfair bias and stereotyping in the institution.

Academic Calendar

Weekly Schedule, Class Periods, Blended (BL) and Online Courses (OL)

The Academic Calendar is issued each academic year by the registrar, please visit the College website for the most updated calendar.

Instruction time (not including any breaks) for each three US credit hour course (15 UK credits) is 150 minutes per week. For each laboratory session carrying one US credit (5 UK credits), the instruction time is 75 minutes. Laboratory sessions are scheduled Monday, Wednesday, or Friday for one-and-a-half class periods, or Tuesday or Thursday for a full class period.

The College occasionally offers courses via distance learning modes, either as blended or online. Such courses are designated on the course schedule with the section notation of BL for blended or OL for online. Blended courses are defined as being 35% to 50% online and the rest in scheduled campus face-to-face classrooms. Major examinations for blended courses also take place face-to-face. Online courses meet exclusively online, except for any summative assessments or examinations, which will take place face-to-face on campus.

Students enrolling in blended or online courses are required to enroll in an induction or introductory seminar free of charge.

* Blended Learning (BL) and Online Courses (OL) are not available to students on US Federal Financial Aid.

- Ability to work with deadlines and to reflect on one’s own learning (All level 5 modules).

II.b. BA in Art History

Upon completion of 300 credits, students will have acquired:

- in-depth knowledge and understanding of specific topics and related scholarly debates, (ii) knowledge of curatorial theory; (iii) developed critical and research skills.

Specifically, holders of the ordinary BA in Art History will be able to demonstrate detailed knowledge and critical understanding of:

- special subjects and related scholarly debates (AT 4034 Topics in Medieval Art, AT 4037 Topics in Renaissance Art, AT 4038 Topics in Modern Art);
- art objects within professional contexts beyond academia (AT 4039 History and Theory of Curating).

In addition, they will have the following cognitive skills:

- Analysis and critical evaluation of scholarly arguments;
- Ability to discriminate between alternative arguments and critical approaches (AT 4034 Topics in Medieval Art, AT 4037 Topics in Renaissance Art, AT 4038 Topics in Modern Art).

Furthermore, they will have the following practical/professional and transferable skills:

- Ability to engage in independent research: identify and select relevant sources (AT 4034 Topics in Medieval Art, AT 4037 Topics in Renaissance Art, AT 4038 Topics in Modern Art);
- Communicate ideas effectively in a variety of forms (All level 6 modules),
- Ability to work with deadlines and ability to work independently (All level 6 modules).
I. Certificate of Higher Education in Graphic Design

In accordance with the framework for higher education qualifications the Certificate of Higher Education in Graphic Design (Cert HE) is awarded to students who have completed 120 credits at Level 4 (120 credits, 8 15-credit modules). Upon completion of Level 4 students will have a basic knowledge of mass communication and visual literacy concepts as well as visual arts and digital skills. They will also have a basic grasp of important Graphic Design concepts and practices.

More specifically upon completion of Level 4 students will demonstrate knowledge and understanding of:

- Basic terminology and concepts of Graphic Design and visual communication (GD 2203 Graphic Design I, GD/AR 2001 Visual Literacy, CN 2110 Introduction to Advertising, GD 2002 Research-Concept-Design)
- The professional areas where Graphic Design could be applied (GD 2203 Graphic Design I)

In addition, they will have the following cognitive skills:

- Demonstrate the ability to discuss Graphic Design and Visual Communication issues (GD/AR 2001 Visual Literacy, CN 2110 Introduction to Advertising, GD 2203 Graphic Design I, AR 2017 Digital Image)
- Demonstrate the ability to communicate basic ideas about Graphic Design concepts (GD/AR 2001 Visual Literacy, GD 2002 Research-Concept-Design, GD 2203 Graphic Design I)

Furthermore, they will have the following practical/professional and transferable skills:

- Demonstrate the ability to use some new digital technologies that relate to Graphic Design or Visual Arts (ITC/GD 2110 Digital Tools for Graphic Design and Production, AR 2017 LE Digital Image).

II. Intermediate level

The Intermediate level includes the Diploma in Higher Education in Graphic Design and the Bachelor Ordinary (non-Honours) degree in Graphic Design.

II a. Diploma of Higher Education in Graphic Design

In accordance with the framework for higher education qualifications the Diploma of Higher Education in Graphic Design (Cert HE) is awarded to students who have completed 240 credits comprising of 120 credits at Level 4 (120 credits, 8 15-credit modules) and 120 at Level 5 (120 credits, 8 15-credit modules). Upon completion of Levels 4 and 5 students should have acquired (i) a broader understanding of the concepts and practices in Graphic Design (ii) a deeper understanding of the applications of digital technology in the field and (iii) further competencies in studio practice.

In addition, they will have the following practical/professional and transferable skills:

- Demonstrate the ability to discuss Graphic Design and Visual Communication issues (GD/AR 2001 Visual Literacy, CN 2110 Introduction to Advertising, GD 2203 Graphic Design I, AR 2017 Digital Image)
- Demonstrate the ability to communicate basic ideas about Graphic Design concepts (GD/AR 2001 Visual Literacy, GD 2002 Research-Concept-Design, GD 2203 Graphic Design I)
- Demonstrate the ability to use some new digital technologies that relate to Graphic Design or Visual Arts (ITC/GD 2110 Digital Tools for Graphic Design and Production, AR 2017 LE Digital Image).

II b. B.A. (Honours) Graphic Design

In accordance with the framework for higher education qualifications the B.A. (Honours) Graphic Design (Cert HE) is awarded to students who have completed 360 credits comprising of 120 credits at Level 4 (120 credits, 8 15-credit modules), 120 at Level 5 (120 credits, 8 15-credit modules) and 120 at Level 6 (120 credits, 8 15-credit modules). Upon completion of Levels 4, 5 and 6 students should have acquired (i) a broader understanding of the concepts and practices in Graphic Design (ii) a deeper understanding of the applications of digital technology in the field and (iii) further competencies in studio practice.

In addition, they will have the following practical/professional and transferable skills:

- Demonstrate the ability to discuss Graphic Design and Visual Communication issues (GD/AR 2001 Visual Literacy, CN 2110 Introduction to Advertising, GD 2203 Graphic Design I, AR 2017 Digital Image)

B.A. (Honours) Music

In addition they will have the following cognitive skills:
• Demonstrate ability to engage in research and critically evaluate information and ideas (3111 History of Graphic Design, GD 3412 Graphic Design II, GD 3313 Typographic I, GD 3333 Digital Design I, GD 3131 Design Approaches).
• Formulate and defend ideas and creative concepts (GD 3412 Graphic Design II, GD 3333 Digital Design I).

Furthermore, they will have the following practical/professional and transferable skills:
• Identify problems and provide solutions (GD 3412 Graphic Design II, GD 3313 Design Approaches, GD 3313 Typographic I, GD 3333 Digital Design I).
• Apply new technologies for the completion of projects (GD 3333 Digital Design I, GD 3131 Design Approaches).

II b. Bachelor of Arts Ordinary in Graphic Design

• Upon completion of 300 credits (20 15-credit modules) of which a minimum of 60 should be at level 6 with the remainder comprising 120 credits at Level 4 and 120 at level 5 students will have acquired (i) more focused skills in Graphic Design (ii) further skills in critically evaluating concepts and (iii) greater competency in presenting creative projects through specialized Graphic Design modules.

In addition to the Learning Outcomes acquired in Levels 4 and 5, upon completion of 60 credits in Level 6 students will be able to demonstrate a deeper knowledge and understanding of:
• How Graphic Design graduates can be involved in specific professional areas (CN 4413 Brand Building in Advertising, GD 4622 Typographic II, GD 4466 Digital Design II).

In addition, they will have the following cognitive skills:
• Demonstrate very good written and oral communication skills related to Graphic Design ideas and concepts (GD 4623 Graphic Design III, CN 4413 Brand Building in Advertising, GD 4767 Branding Ecosystems).

Furthermore, they will have the following practical/professional and transferable skills:
• Recommend solutions to problems (GD 4747 Branding Ecosystems, GD 4623 Graphic Design III, CN 4413 Brand Building in Advertising).
• Utilize appropriate tools to create a comprehensive body of work and portfolio (GD 4623 Graphic Design III, GD 4466 Digital Design II, GD 4622 Typographic II, CN 4413 Brand Building in Advertising).
• Demonstrate high level of proficiency and professionalism when undertaking Graphic Design projects (GD 4747 Branding Ecosystems, GD 4623 Graphic Design III, GD 4466 Digital Design II, GD 4622 Typographic II, CN 4413 Brand Building in Advertising).
• Develop a design concept and a coherent visual language across a variety of touch-points: print, digital, and spatial (GD 4623 Graphic Design III, GD 4747 Branding Ecosystems).

Personal and Transferable key skills (Generic).
Students successfully completing the Music Performance programme will be able to demonstrate skills in the areas of self-management, communication and interaction, including the ability to:
• design projects, working independently to find solutions and solve problems.
• demonstrate the ability to deliver effective oral presentations.
• apply knowledge of current information and communication technology.
• demonstrate interpersonal skills as a leaders and collaborators working toward common objectives.
• apply understanding of professional ethics, academic integrity, codes of conduct, time management and personal responsibility.
• discuss ideas and concepts, communicating effectively in the English language.
Furthermore, they will have the following practical/professional and transferable skills:

- Demonstrate knowledge of the principles and terminology of health & safety protocols (DR 2032 Introduction to Theatre Production).
- Organize time and tasks effectively (DR 2010 Movement for the Stage, DR 2012 Introduction to the Craft of Acting, DR 2032 Introduction to Theatre Production, DR 2111 The Space of Performance, DR 2336 Introduction to Performance).

II. Intermediate level

The Intermediate level includes the Diploma in Higher Education in Theatre Arts and the Bachelor Ordinary (non-Honours) degree in Theatre Arts.

II a. Diploma of Higher Education in Theatre Arts

In accordance with the framework for higher education qualifications the Diploma of Higher Education in Theatre Arts (Dip HE) is awarded to students who have completed 240 credits comprising of 120 credits at Level 1 (FHEQ Level 4) (120 credits, 8 15-credit modules) and 120 at Level 2 (FHEQ Level 5) (120 credits, 8 15-credit modules).

Upon completion students should have acquired (i) a broader understanding of various modes of Practice within contemporary performance (performance, design and directing) (ii) a deeper understanding of the applications of technology and interdisciplinary Practice in the field and (iii) further competencies in studio Practice.

In addition to the Learning Outcomes acquired in Level 1 (FHEQ Level 4), upon completion of Level 2 (FHEQ Level 5) students will be able to demonstrate a deeper knowledge and understanding of:

- Various professional areas of theatre and performance practice and the terminology used in them (DR 3116 Voice and Speech II, DR 3118 Stage Lighting, DR 3140 Acting the Scene, DR 3201 Movement for the Performer, DR 3327 The Scenographic Space of Performance, DR 3328 The Directing Process, DR 3346 Performance as A Political and Social Act, DR 3339 Dramaturgy, DR 3344 Re-reading Greek Tragedy and the American Drama).
- Introduction to applied modes of Practice (DR 3201 Movement for the Performer, DR 3316 Voice and Speech II, DR 3118 Stage Lighting, DR 3140 Acting the Scene, DR 3327 The Scenographic Space of Performance, DR 3246 Performance as a Political and Social Act).
- Areas of interdisciplinary creative activity and related professional Practice (DR 3118 Stage Lighting, DR 3327 The Scenographic Space of Performance, DR 3962 Collaborative Performance Practice, DR 3142 Improvisation for Acting, DR 3243 Portfolio Design).

II b. Bachelor of Arts Ordinary in Theatre Arts

- Upon completion of 300 credits (20 15 credit modules) of which a minimum of 60 should be at Level 3 (FHEQ Level 6) students will have acquired (i) more focused skills in performance Practice (ii) further skills in critically evaluating concepts and (iii) greater competency in presenting creative projects through specialized theatre performance and production modules.

In addition to the Learning Outcomes acquired in Levels 4 and 5, upon completion of 60 credits in Level 3 (FHEQ Level 4) students will be able to demonstrate a deeper knowledge and understanding of:

- A wider range of professional outcomes stemming from or related to contemporary theatre and performance practice (DR 4330 Costume Design, DR 4241 Advanced Acting, DR 4429 Advanced Directing, DR 4819 Senior Production Practicum, DR 4455 Digital Performance, DR 4570 New Spatialities: Contemporary Performance and Public /Outdoor Space, DR 4351 Physical Play and devising, DR 4349 Performing Objects.)

VISUAL ARTS EXIT AWARDS

I. Certificate of Higher Education in Visual Arts

In accordance with the framework for higher education qualifications, the Certificate of Higher Education in Visual Arts is awarded to students who have completed 120 credits at Level 4 (120 credits, 8 15–credit modules). Upon completion of Level 4 students will have the basic knowledge of visual literacy and modern art concepts. They will also have a basic grasp of studio practice in drawing, color, sculpture, digital image and time-based media.

More specifically upon completion of Level 4 students will demonstrate knowledge and understanding of:

- Evolving ways of art thinking and how this may be applied in a range of contexts (AR 2001 Visual Literacy, AR 2017 Digital Image, AT 2013 Modern Art, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)
- The technical foundations of art across a number of art disciplines (AR 2017 Digital Image, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)
- Contribute to the creation and production of group works through collaborative techniques and working methods (AR 2003 Drawing I, AR 2007 Sculpture I, AR 2009 Time Based Media II)
- Demonstrate ability to articulate personal artistic concepts and apply them in a medium appropriate to the concept, though the use of painting, drawing, sculpture, installations, happenings, performances and audio/visual media (AR 2017 Digital Image, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)

Furthermore, they will have the following practical/professional and transferable skills:

- Pursue an artistic idea from conception, research, to final execution on the 2D, 3D, 4D fields, or through interdisciplinary methods. (AR 2017 Digital Image, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)
- Utilize appropriate materials, media, techniques, methods, technologies and tools and develop competence with them for the production of artworks and portfolios. (AR 2017 Digital Image, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)
- Utilize information technology skills such as word processing and the ability to access electronic data (AR 2001 Visual Literacy, AR 2017 Digital Image, AR 2003 Drawing I, AR 2005 Color I, AR 2007 Sculpture I, AR 2009 Time Based Media I, AR 2023 Figure Drawing)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Visual Arts and the BA Ordinary (non-Honours) degree in Visual Arts

II.a. Diploma of Higher Education in Visual Arts

In accordance with the framework for higher education qualifications, the Diploma of Higher Education in Visual Arts is awarded to students who have completed 240 credits comprising of 120 credits at Level 4 (120 credits, 8 15–credit modules) and 120 credits at Level 5 (120 credits, 8 15–credit modules). Upon completion of Levels 4 and 5 students should have acquired a deeper understanding of concepts in art after modernism, some knowledge in video art and further competencies in studio practice.

In addition to the Learning Outcomes acquired in Level 4, upon completion of Level 5 students will be able to demonstrate a deeper knowledge and understanding of:

- The technological societal, historical and cultural contexts that influence the creation of new art forms (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II, AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research)
- The core innovations in the art of the 20th and 21st centuries and the artists involved (AT 3018 Art after Modernism, AR 3104 Drawing II, AR 3106 Color II AR 3108 Sculpture II, AR 3110 Time Based Media II, AR 3025 Painting, AR 3019 Video Art, AR 3035 Art Research)

I. Certificate of Higher Education in Biomedical Sciences

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Biomedical Sciences will have a sound knowledge of the basic concepts of Biomedical Sciences and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits) in BMS, students will be able to have mastered skills in the following areas:

**Knowledge and Understanding**

Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field. (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health. (partially achieved at BI 1000 LE, BI 1101 LE)
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as of the role and limitations of science (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130).

Students acquire the knowledge and skills necessary for further progression in the field—for example, into the second year of a BSc (Hons) programme in Biomedical Sciences.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

**Cognitive Skills**

Students will be able to:

- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000 LE, BI 1101 LE).
- Use and analyze data and information concerning biomedical and health issues (partially achieved at BI 1000 LE, BI 1101 LE).

**Practical and Professional Skills**

Students will be able to:

- Plan and conduct practical or practice-based tasks related to biomedical and health sciences in a safe and ethical manner and use appropriate laboratory equipment competently and safely (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225, MA 2130).
Key/Transferable Skills
Students will be able to:

- Locate, record, process and analyze data and information from a variety of sources, using appropriate qualitative and quantitative methods, including the use of statistics, spreadsheets and programs for presenting data visually (CH 1002, CH 2115, PY 2225, MA 2130).
- Collaborate as a member of a team and demonstrate that essential skill in personal and professional development (partially achieved at BI 1000 LE, BI 1101 LE, CH 1002, CH 2115, PY 2225).

II. Intermediate level
The intermediate level includes the Diploma of Higher Education in Biomedical Sciences and the ordinary (non-Honours) degree in Biomedical Sciences.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the field of Biomedical Sciences, as well as being in a position to evaluate the applicability of those theories in resolving particular problems or issues in these fields.

II.a. Diploma of Higher Education in Biomedical Sciences

Upon completion of level 4 (120 credits) and level 5 (130 credits) total 250 credits in BMS, students can be awarded a Diploma of Higher Education in Biomedical Sciences and should be able to have mastered skills in the following areas:

Knowledge and Understanding
Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field. (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3220 OCH, CH 3325 OBC, CH 3330 OBC Lab).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health. (BI 1000, BI 1101, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID, CH 3330 OBC, CH 3330 OBC Lab) and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425).
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as of the role and limitations of science (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBC Lab, BI 3240 HAP).
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130).

Students acquire the knowledge and skills necessary for further progression in the field-for example, into the second year of a BSc (Hons) programme in Biomedical Sciences.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

Cognitive Skills
Students will be able to:

- Use and correctly apply knowledge and understanding of biomedical concepts, principles and theories to problem solving (CH 3220 OCH, CH 3330 OBC, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3232, BI 3204, BI 3215).
- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000, BI 1101, CH 3220 OCH, CH 3325 OBC, BI 3235 CMB, BI 3240 HAP and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425).
- Use and analyze data and information concerning biomedical and health issues and critically evaluate their reliability, validity and significance (CH 3325 OBC, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Synthesize and integrate several lines of subject-specific evidence towards a given purpose (CH 3325 OBC, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

Practical and Professional Skills
Students will be able to:

- Plan and conduct practical or practice-based tasks related to biomedical and health sciences in a safe and ethical manner, and use appropriate laboratory equipment competently and safely (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP).
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000, BI 1101, CH 1002, BI 2115, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP).
- Use writing and reporting skills related to biomedical scientific literature with appropriate referencing, as well as plan, conduct and present an independent project (CH 3225 OBC, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

Key/Transferable Skills
Students will be able to:

- Locate, record, process and analyze data and information from a variety of sources, using appropriate qualitative and quantitative methods, including the use of statistics, spreadsheets and programs for presenting data visually (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3330 OBC, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425).
- Communicate scientific information accurately and effectively in written, oral, visual and numerical formats in a style that suits the purpose and the audience, as well as produce detailed and coherent project reports (CH 1002, CH 2115, PY 2225, MA 2130, PY 3330, CH 3330 OBC, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
- Synthesize and integrate several lines of subject-specific evidence towards a given purpose (CH 3325 OBC, CH 3330 OBC Lab, BI 3235 CMB, BI 3240 HAP, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).

II.b. BSc in Biomedical Sciences

Upon completion of level 4 (120 credits), level 5 (130 credits) and level 6 (60 credits) total 310 credits in BMS, students can be awarded a BSc in Biomedical Sciences and should be able to have mastered skills in the following areas:

- Use writing and reporting skills related to biomedical scientific literature with appropriate referencing, as well as plan, conduct and present an independent project (CH 3225 OBC, BMS 3220 MID and one of the following modules: BI 3204, BI 3215, BI 3425).
Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

- core concepts, principles, theories, tools and practice in biology, chemistry and physics that provide an essential foundation of knowledge in the biomedical and health sciences field (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3220, CH 3225, OBCH, CH 3330, OBCH Lab).
- human physiology, as well as human genetic, metabolic and developmental processes, brain function, and the impact of environmental exposures on living functions and human health (BI 1000, BI 1101, BI 3235, CM, BI 3240, HAP, BMS 3220, MID, CH 3225, OBCH, CH 3330, OBCH Lab) and one of the following modules: BI 3232, BI 3204, BI 3215, BI 3425; also BMS 4415 EBD or BMS 4410 A&I.
- appropriate methods for acquiring, analyzing and interpreting scientific data and information, as well as the role and limitations of science (BI 1000, BI 1101, CH 1002, CH 2115, PY 2225, PY 3330, CH 3330, OBCH Lab, BI 3240 HAP, BMS 4545, R M&ICTs, BMS, BMS 4330 HIS&T).
- basic tools in mathematics, as well as of quantitative and qualitative techniques and data processing methods including use of various ICT tools to acquire, analyze and interpret information related to biomedical and health sciences (MA 2130, BMS 4320, M&ICTs, BMS and BMS 4330 HIS&T).
- specializations within the biomedical sciences; the three (15cr) BMS 44XX modules in BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD.

Students acquire the knowledge and skills necessary for further progression in the field, into the final year of a BSc (Hons) programme in Biomedical Sciences. They need to take the Research Methods in Biomedical Sciences and the three required BMS 44XX level 6 ie BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD modules.

In addition, holders of the qualification will have the following cognitive, practical/professional and key transferable skills.

Cognitive Skills

Students will be able to:

- Use and correctly apply knowledge and understanding of biomedical concepts, principles and theories to problem solving (CH 3220, CH 3330, OBCH, BI 3235, CM, BI 3240 HAP, BMS 3220, MID and one of the following modules: BI 3232, BI 3204, BI 3215, also, BMS 4545, R M&ICTs and BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Explain moral and ethical issues of investigations and the need for professional codes of conduct (BI 1000, BI 1101, CH 3220, CH 3330, OBCH, BI 3235, CM, BI 3240 HAP and one of the following courses: BI 3232, BI 3204, BI 3215, BI 3424; also, BMS 4545 R M&ICTs, BMS, BMS 4410 A&I, BMS 4440 TP and BMS 4435 PHD).
- Use and analyze data and information concerning biomedical and health issues and critically evaluate their reliability, validity and significance (CH 3325, OBCH, CH 3330 OBCH Lab, BI 3235, CM, BI 3240 HAP, BMS 3220, MID and one of the following modules: BI 3204, BI 3215, BI 3425).

- Conduct basic or clinical research in a responsible, safe and ethical manner, considering risk assessment, as well as health and safety regulations (BMS 4545, R M&ICTs, BMS and BMS 4410 A&I).
- Select and apply a range of methods, including ICTs, to study and address biomedical and health problems (BI 1000, BI 1101, CH 1002, CH 2115, CH 3330 OBCH Lab, BI 3235 CM, BI 3240 HAP and BMS 4545 R M&ICTs, BMS).
- Use writing and reporting skills related to biomedical scientific literature with appropriate referencing, as well as plan, conduct and present an independent project (CH 3225, OBCH, BMS 3220, MID and one of the following courses: BI 3204, BI 3215, BI 3425; also, BMS 4545 R M&ICTs, BMS, and).
I. Certificate of Higher Education in Cinema Studies

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Cinema Studies will have sound knowledge of the basic concepts relevant to the study of cinema as a medium and institution. They will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits) in Cinema Studies, students will be able to have mastered skills in the following areas:

Knowledge and Understanding

Students should demonstrate knowledge and understanding of:

- major theories and concepts relevant to film study and practice. (CN 2127, CIN 2015 Film History, CIN 2227, PH 2016, CIN 2010 Film Adaptation).
- the diversity of approaches to the study of film in both past and contemporary contexts. (CN 2127, CIN 2015 Film History, CIN 2227, PH 2016, CIN 2010 Film Adaptation, MU 2030).
- of production processes and professional practices in the film industry (CN 2127, AR 1017, CIN 2005).
- how visual media shape and are shaped by ethical, cultural and social attitudes (CIN 2015 Film History, CIN 2227, PH 2016, CIN 2010).

Students acquire the knowledge and skills necessary for further progression in the field—for example, into the second year of a BA (Hons) programme in Cinema Studies.

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

Cognitive Skills

Students will be able to:

- compare the various techniques and styles of the moving image (AR 1017, CIN 2005).
- discuss ethical problems and various challenges that affect film production, distribution and reception (CIN 2015 Film History, PH 2016, AR 1017).
- apply research tools relevant to the field (CIN 2005).
School of Liberal Arts and Sciences

**Practical and Professional Skills**

Students will be able to:
- Communicate using appropriate and relevant language and terminology to reach a wide range of different audiences (CIN 2127, CIN 2015 Film History, CIN 2127; CIN 2015 Film Adaptation)
- Produce work showing capability and knowledge of professional practice and production technologies (AR 1017; CN 2005)
- Produce work that shows understanding of different forms, genres, creative disciplines, cultural industries and audiences (CN 2127; CIN 2015 Film History, AR 1017; CN 2005)
- Bring creativity and originality to bear in conceiving, producing and delivering visual image projects (MU 2030, AR 1017; CN 2005)

**Key/Transferable Skills**

Students will be able to:
- Demonstrate understanding of cinema as a product of culture as well as knowledge of cinema’s impact on culture and society, thus showing themselves to be broadly informed citizens and professionals (CN 2127; CIN 2015 Film History; CIN 2227; PH 2016)
- Possess the oral and written communication skills to work successfully in a professional environment (CIN 2015 Film History; CIN 2100 Film Adaptation)
- Apply digital storytelling techniques in creating works for various types of distribution (AR 1017; CN 2005)
- Carry out various forms of research for essays, projects, and creative productions (CN 2127; CIN 2015 Film History; CIN 2227; CIN 2010 Film Adaptation, MU 2030; AR 1017; CN 2005)

**II. Intermediate level**

The intermediate level includes the Diploma of Higher Education in Cinema Studies and the ordinary (non-Honours) degree in Cinema Studies.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks as well as creative work, and are in a position to evaluate the applicability of such theories in resolving particular problems or issues in the various fields of cinema studies.

**II.a. Diploma of Higher Education in Cinema Studies**

Upon completion of level 4 (120 credits) and level 5 (120 credits) total 240 credits in Cinema Studies, students can be awarded a Diploma of Higher Education in Cinema Studies and should be able to have mastered skills in the following areas:

Non-Honours degrees are awarded to students who have demonstrated:

**Knowledge and Understanding**

Students should demonstrate knowledge and understanding of:
- major theories and concepts relevant to film study and practice (CIN 3235 Film Theory; CN 3425; SO 3012).
- the diversity of approaches to the study of film in both past and contemporary contexts. (CIN 3120 Cinematography; CN 3425)

**Practical and Professional Skills**

Students will be able to:
- Carry out various forms of research for essays, projects, and creative productions (CIN 3120 Cinematography; CIN 3120 Cinematography; AR 3019; MU 3164; CIN 3140; CIN 3125 Digital Compositing and Editing; CN 3160 Digital Storytelling).
- how visual media shape and are shaped by ethical, cultural and social attitudes (CIN 3235 Film Theory; CN 3425; SO 3012, AR 3019)

In addition, holders of the qualification will have the following cognitive, practical/professional and key/transferable skills:

**Cognitive Skills**

Students will be able to:
- compare the various techniques and styles of the moving image (CIN 3130 Directing Fundamentals, CIN 3120 Cinematography; CN 3425; AR 3019)
- discuss ethical problems and various challenges that affect film production, distribution and reception CIN 3235 Film Theory; SO 3012 Contemporary Cinema and Society)
- apply research tools relevant to the field (AR 3019; MU 3164; CIN 3130, CIN 3120, CIN 3140 Digital Storytelling)
- evaluate diverse forms, genres and styles, both historically and in contemporary practice (CIN 3235 Film Theory; CIN 3130 Directing Fundamentals; CIN 3120 Cinematography, CN 3425; AR 3019; MU 3164; CIN 3140 Production Design)

**Key/Transferable Skills**

Students will be able to:
- Communicate using appropriate and relevant language and terminology to reach a wide range of different audiences (CIN 3235 Film Theory; CN 3160 Digital Storytelling)
- Produce work showing capability and knowledge of professional practice and production technologies (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography, AR 3019 Video Art; MU 3164 Sound Design, CIN 3140 Production Design; CIN 3125 Digital Compositing and Editing; CN 3160 Digital Storytelling)
- Produce work that shows understanding of different forms, genres, creative disciplines, cultural industries and audiences (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography, AR 3019, MU 3164, CIN 3140 Production Design, CIN 3125 Digital Compositing and Editing, CN 3160 Digital Storytelling)
- Bring creativity and originality to bear in conceiving, producing and delivering visual image projects (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography, AR 3019, MU 3164, CIN 3140 Production Design, CIN 3125 Digital Compositing and Editing; CN 3160 Digital Storytelling)
- Demonstrate skills necessary in producing works of video/film, such as funding, budgeting, promotion, and distribution (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography)

**Key/Transferable Skills**

Students will be able to:
- Demonstrate understanding of cinema as a product of culture as well as knowledge of cinema’s impact on culture and society, thus showing themselves to be broadly informed citizens and professionals (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography, AR 3019; MU 3164; CIN 3140 Digital Compositing and Editing; CN 3160 Digital Storytelling)
- Possess the oral and written communication skills to work successfully in a professional environment (CIN 3130 Directing Fundamentals; CIN 3120 Cinematography; AR 3019; MU 3164; CIN 3140 Digital Compositing and Editing; CN 3160 Digital Storytelling)
- Carry out various forms of research for essays, projects, and creative productions (CIN 3120 Cinematography;
Students will be able to:

**Knowledge and Understanding**

Students should demonstrate knowledge and understanding of:

- Demonstrate an understanding of major theories and concepts relevant to film study and practice (CN 4465 American Cinema; CIN/SO 4050 World Cinema: Power and Identity)
- Demonstrate an understanding of the diversity of approaches to the study of film in both past and contemporary contexts (CN 4465 American Cinema; CIN/SO 4050 World Cinema: Power and Identity)
- Demonstrate knowledge of production processes and professional practices in the film industry (CN 4337, CN 4545, CN 4239; DR 4030, CIN 4045 Acting and the Screen; CIN 4155 Film Producing)
- Critically discuss how visual media shape and are shaped by ethical, cultural and social attitudes (CIN 4870 Cinema Studies Senior Thesis; CN 4465 American Cinema; CIN/SO 4050 World Cinema: Power and Identity)

Students acquire the knowledge and skills necessary for further progression in the field-, into the final year of a BA (Hons) programme in Cinema Studies.

In addition, holders of the qualification will have the following **cognitive, practical/professional and key/transferable skills**.

I. Certificate of Higher Education in Communication

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Communication will have a sound knowledge of the basic concepts of Communication and learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. Certificates of Higher Education in Communication are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with Communication, and an ability to evaluate and interpret these within the context of Communication;
ii) an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgements in accordance with basic theories and concepts of Communication.

Typically, holders of the qualification will be able to:

a) evaluate the appropriateness of different approaches to solving problems related to Communication;
b) communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
c) undertake further training and develop new skills within a structured and managed environment;
and will have:
d) qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits, or eight 15-credit modules), students will be able to:

i) recognize and be familiar with key communication concepts that are present in both everyday and professional decision making; ii) apply basic communication techniques, thus aligning theory to practice.

Specifically, holders of the Certificate of Higher Education in Communication will be able to:

- demonstrate knowledge and understanding of:
  - Core media and communication concepts and principles (CN 2001, CN 2202, CN 2103, CN 2127, CN 2110)
  - Basic communication tools (CN 2202, CN 2005, CS 1070)
  - The role of the communication industry in society (CN 2001, CN 2110, 2227, 2203)
  - A measure of knowledge in a social science (one level 4 module in a social science).

In addition, they will have the following practical/professional and key/transferable skills:

- They will be able to write news articles, press releases and feature stories (CN 2202)
- They will be able to use computer application packages relevant to the field (CS 1070)
- They will be able to produce multimedia projects (CN 2005).

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Communication and the ordinary (non-Honours) degree in Communication.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles of communication in the media industries and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- An ability to analyze and synthesize issues related to communication practices (CN 3408, CN 3421, CN 3412/PH 3010)
- An ability to analyze and synthesize issues as a step in the process of solving problems and achieving communication goals (the five optional Level 5 modules in Communication)
- The techniques and practices commonly used in the different fields of communication (CN 3412 and the five optional Level 5 Communication modules)
- A measure of knowledge in a social science (one Level 4 module in a social science).

In addition, they will have the following cognitive skills:

- An ability to apply theories in analyzing and synthesizing issues related to communication practices (CN 3408, CN 3421, CN 3412/PH 3010)
- An ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- Knowledge of the main methods of enquiry in Communication and ability to evaluate critically the appropriateness of different approaches to solving problems in Communication;
- An understanding of the limits of their knowledge, and how this influences analysis and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- Effectively communicate information, arguments, and analysis in a variety of forms to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
- Undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;
- Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Communication

Upon completion of Levels 4 and 5 (240 credits, or eight 15-credit modules at each Level), students will be able to:

i) recognize and demonstrate familiarity with key communication concepts that are relevant to professional decision making; ii) demonstrate detailed knowledge of major concepts and theories used to explain the dynamics of the communication industries and the relationships between the individual, the media, and society;
iii) apply appropriate communication styles and structures in solving problems and achieving goals in the areas of advertising, film and television, journalism, and public relations; and iv) use ethical standards to judge communication practices.

Specifically, holders of the Diploma of Higher Education in Communication will be able to:

- Demonstrate detailed knowledge of the principles practices of Communication;
- The ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- Knowledge of the main methods of enquiry in Communication and ability to evaluate critically the appropriateness of different approaches to solving problems in Communication;
- An understanding of the limits of their knowledge, and how this influences analysis and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
- Effectively communicate information, arguments, and analysis in a variety of forms to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
- Undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;
- Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.
II.b. BA in Communication

Upon completion of Levels 4 and 5 (240 credits, or eight 15-credit modules at each Level), and completion of four Level 6 modules (15 credits each), students will be able to: i) recognize and demonstrate familiarity with key communication concepts that are relevant to professional decision making; ii) demonstrate detailed knowledge of major concepts and theories used to explain the dynamics of the communication industries and the relationships between the individual, the media, and society; iii) apply appropriate communication styles and structures in solving problems and achieving goals in the areas of advertising, film and television, journalism, and public relations; iv) use ethical standards to judge communication practices; v) apply communication research methods and write a literature review; and vi) produce applied communication projects that demonstrate an ability to conceive, plan and execute with minimal guidance complicated communication tasks that require a synthesis of knowledge and skills. Specifically, holders of the ordinary BA in Communication will be able to demonstrate detailed knowledge and critical understanding of:

- Core media and communication concepts and principles (CN 2001, CN 2202, CN 2103, CN 2127, CN 2110)
- Basic communication tools (CN 2202, CN 2005, CS 1070)
- The role of the communication industry in society (CN 2001, CN 3408, CN 4404)
- A measure of knowledge in a social science (one Level 4 module in a social science)
- Major theories used to analyse the dynamics and impact of communication (CN 3421, CN 3408)
- The techniques and practices commonly used in the different fields of communication (CN 3412/PH 3010, the five optional Level 5 Communication modules and the three optional Level 6 modules)
- The research methods often used by communication researchers (CN 4532)

and

- A measure of knowledge in a social science (one Level 4 module in a social science).

In addition, they will have the following cognitive skills:

- An ability to apply theories and research methods in analyzing and synthesizing issues related to communication practices (CN 3408, CN 3521, CN 3412/PH 3010 and the four Level 6 modules)
- An ability to analyze and synthesize issues as a step in the process of solving problems and achieving communication goals (the five optional Level 5 modules in Communication; and four Level 6 modules)

and the following practical/professional and key/transferable skills:

- An ability to produce work using language and other applied techniques appropriate to different types of media and media audiences (the optional Level 5 modules in Communication: CN 3311, CN 3323, CN 3409, CN 3316, CN 3434, CN 3428, CN 3642, CN 3160)
- An ability to produce work using language and other applied techniques with minimal guidance (three optional Level 6 modules).

Total: 360 UK Credits
The intermediate level includes the Diploma of Higher Education in Cybersecurity and Networks, and the ordinary (non-Honours) degree in Cybersecurity and Networks.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the fields of Cybersecurity and Networks, and will be in a position to evaluate the applicability of relevant theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate international relations theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in Cybersecurity and Networks.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate cybersecurity issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the Cybersecurity and Networks studies.

And will have:

- Qualities and transferable skills necessary for employment in terms of communication and decision-making.

II. Diploma of Higher Education in Cybersecurity and Networks

Upon completion of levels 4 and 5 (total of 240 credits), students will have acquired the knowledge and understanding necessary for further progression in the field - for example, into the final year of a BSc (Hons) programme in Cybersecurity and Networks, and will be eligible for the Certificate of Higher Education in Cybersecurity and Networks.

Typically, holders of the qualification will be able to:

- Demonstrate knowledge and understanding of current cybersecurity and networking technologies (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632).
- Demonstrate knowledge and understanding of the ethical, legal, and policy issues related to cybersecurity approaches and professional practice (ITC 2024, ITC 2101, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3632).
- Demonstrate knowledge of networking and cybersecurity industry standards (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632).
- Demonstrate knowledge of theory and tools relevant to ethical hacking, penetration testing, and digital forensics methodologies (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193).
- Demonstrate knowledge of emerging networking and cybersecurity technologies (ITC 2024, ITC 2101).

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- Discuss social, ethical, and legal issues related to the impact of information technology in the context of cybersecurity (ITC 2024, CS 2179).
- Apply appropriate design and problem-solving techniques within the cybersecurity domain (ITC 2024, ITC 2101).
- Analyze and synthesize major theoretical and conceptual frameworks in the Cybersecurity and Networks studies.

Practical and professional skills

- Communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on networking and cybersecurity subjects (ITC 2024, ITC 2101).
- Use design, production, and programming tools relevant to cybersecurity in associated areas (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193).
- Structure and write reports on various aspects of networking and cybersecurity domains (ITC 2024, ITC 2101).

Key/transferable skills

- Be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179).
- Possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, PS 1001).
- Demonstrate ability to work effectively as part of a group (ITC 2101, ITC 2197).
- Demonstrate ability to learn independently and reflect on one's own learning needs and achievements (ITC 2101, ITC 2197).
Moreover, holders of the qualification will have developed the following skills:

### Cognitive skills
- discuss social, ethical, and legal issues related to the impact of information technology in the context of cybersecurity (ITC 2024, CS 2179, PH 3005 or PH 3010, ITC/PH 3036, ITC 3431, ITC 3632)
- apply appropriate design and problem-solving techniques within the cybersecurity domain (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- critically assess the cybersecurity resilience of an organization and design cybersecurity policy based on current standards (ITC 3121, ITC 3319, ITC 3431, ITC 3632)

### Practical and professional skills
- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on networking and cybersecurity subjects (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- use design, production, and programming tools relevant to cybersecurity in associated areas (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3006, ITC 3160)
- structure and write reports on various aspects of networking and cybersecurity domains (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- structure and write in-depth technical reports detailing the concept, design and development of a product or policy relevant to cybersecurity and networking (ITC 3632)
- model security solutions for wireline and wireless networks (ITC 3121, ITC 3319, ITC 3431, ITC 3632)

### Key/transferable skills
- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, PS 1001, PH 3005 or PH 3010, ITC/PH 3036, ITC 3121, ITC 3160, ITC 3319, ITC 3431, ITC 3632)
- demonstrate ability to work effectively as part of a group (ITC 2101, ITC 2197, ITC 3121, ITC 3160, ITC 3319, ITC 3431, ITC 3632)
- demonstrate ability to learn independently and reflect on one’s own learning needs and achievements (ITC 2101, ITC 2197, PH 3005 or PH 3010, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3160, ITC 3319, ITC 3431, ITC 3632, all level 6 modules)
- demonstrate ability to learn independently and reflect on one’s own learning needs and achievements (ITC 2101, ITC 2197, PH 3005 or PH 3010, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632, all level 6 modules)
- conduct field research and in-depth investigation related to the development of a networking and cybersecurity solution (ITC 3434, ITC 4426, ITC 4440, ITC 4449)

### Practical and professional skills
- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on networking and cybersecurity subjects (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3434, ITC 4426, ITC 4446, ITC 4447, ITC 4468, ITC 4440, ITC 4449)
- use design, production, and programming tools relevant to cybersecurity in associated areas (ITC 2024, ITC 2101, ITC/PH 3036, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4426, ITC 4446, ITC 4447, ITC 4468, ITC 4440, ITC 4449)
- structure and write reports on various aspects of networking and cybersecurity domains (ITC 2024, ITC 2101, ITC 3121, ITC 3319, ITC 3431, ITC 3632, all level 6 modules)
- structure and write in-depth technical reports detailing the concept, design and development of a product or policy relevant to cybersecurity and networking (ITC 3632, ITC 4426, ITC 4440, ITC 4449)
- model security solutions for wireline and wireless networks (ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 4214, ITC 4446, ITC 4447, ITC 4468, ITC 4440, ITC 4449)

### Key/transferable skills
- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, CS 2179, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3434, ITC 4426, ITC 4446, ITC 4447, ITC 4468, ITC 4440, ITC 4449)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2101, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 3121, ITC 3319, ITC 3431, ITC 3632, ITC 3006, ITC 3160, ITC 4214, ITC 4446, ITC 4447, ITC 4468, ITC 4440, ITC 4449)
- demonstrate ability to work effectively as part of a group (ITC 2101, ITC 2197, ITC 3121, ITC 3160, ITC 3319, ITC 3431, ITC 3632, all level 6 modules)
- demonstrate ability to learn independently and reflect on one’s own learning needs and achievements (ITC 2101, ITC 2197, PH 3005 or PH 3010, ITC/PH 3036, ITC 3006, ITC 3160, ITC 3121, ITC 3319, ITC 3431, ITC 3632, all level 6 modules)

### ENGLISH AND AMERICAN LITERATURE EXIT AWARDS

#### 1. Certificate of Higher Education (CertHE) in English and American Literature

Students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in English and American Literature. Note: Students must complete the required L4 courses: EN 2113, EN 2216, EN 2220, EN 2222, EN 2263.

Students will have a broad knowledge of: 1) the character and conventions of principal literary genres; 2) the ties of literature and language; 3) various functions of language including social and cultural.

Upon completion of eight Level 4 modules (120 credits or eight 15-credit modules), students will be able to:

- demonstrate basic knowledge and understanding of a number of authors and texts, both English and American (EN 2220, EN 2222, EN 2263, EN 2218)
- interpret texts through close reading (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- demonstrate basic knowledge of the cultural contexts within which texts are produced and interpreted (EN 2220, EN 2222, EN 2263, EN 2218)
- demonstrate basic knowledge of the various functions of language (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Think logically and make reasonable judgments based on and supported by evidence (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Understand the significance of actions/behaviours within cultural contexts (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
School of Liberal Arts and Sciences

- Work effectively independently or in groups (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Utilize information technology skills and the ability to access electronic data (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)
- Plan and write essays that make use of bibliographic skills appropriate to the discipline (EN 2216, EN 2220, EN 2222, EN 2263, EN 2218, EN 2271)

II.a Diploma of Higher Education (DipHE) in English and American Literature

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in English and American Literature. For both Level 4 and Level 5, students must complete the required courses.

Students will have adequate knowledge to: 1) generate ideas through the analysis of concepts at an abstract level, 2) analyse and evaluate texts as well as make use of literary resources in the discipline.

Upon completion of Level 4 and 5 modules (120 credits at each level), students will be able to:

- demonstrate knowledge and understanding of a number of authors and texts from different periods of literary history, both English and American (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- interpret through close reading a variety of texts, literary and theoretical (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- demonstrate adequate knowledge of the various concepts and principles which govern language, literature and scholarship (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- employ research methods relevant to the discipline to retrieve information (EN 3405)
- demonstrate adequate knowledge and understanding of the theoretical and cultural contexts within which texts are produced and interpreted (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Provide interpretations of texts that are theoretically informed (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Think logically and make reasonable judgments based on and supported by evidence (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)
- Work effectively independently or in groups (EN 3321, EN 3323, EN 3405, EN 3357, EN 3358, EN 3366, EN 3367, EN 3370, EN 3374, EN 3376, EN 3426)

II.b Bachelor’s – BA(Ord) – in English and American Literature

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BA(Ord) – in English and American Literature. The two L6 courses required are EN 4660 Criticism: Theory and Practice and EN 4754 Selected Topics in Literature; plus, any two of the following five modules: EN 4428 English Romanticism; EN 4429 Victorian World; EN 4430 British Modernism; EN 4453 Shakespeare: The Great Tragedies; EN 4472 American Modernism.

Students will be able to critically: 1) evaluate concepts and evidence from a range of sources, 2) demonstrate knowledge across an area of study that contributes to a better understanding and appreciation of the cultural contexts in which literary works come into being.

Specifically, students will be able to:

- demonstrate good knowledge and understanding of a substantial number of authors and texts from different periods of literary history, both English and American, as well as theoretical and cultural contexts within which texts are produced and interpreted (EN 4460, EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4448 )
- employ research methods relevant to the discipline to retrieve information (EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- demonstrate good knowledge and understanding of key theoretical perspectives as applied onto literary analysis (EN 4460, EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)

In addition, students will have the following cognitive skills:

- Read and analyse a variety of texts, including secondary sources (EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Provide interpretations of texts that are theoretically informed (EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Think logically and make reasonable judgments based on and supported by evidence (EN 4754, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
Furthermore, they will have the following professional and key/transferable skills:

- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Work effectively independently or in groups (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Utilize information technology skills and the ability to access electronic data (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Collect and evaluate a variety of research sources (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
- Plan and write essays and research projects that make use of critical reading and bibliographic skills appropriate to the discipline (EN 4754, EN 4660, EN 4428, EN 4429, EN 4430, EN 4472, EN 4453, EN 4445, EN 4477, EN 4452, EN 4468)
ENGLISH LITERATURE WITH LINGUISTICS EXIT AWARDS

I. Certificate of Higher Education (CertHE) in English Literature with Linguistics
Students that exit the programme upon completion at Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in English Literature with Linguistics.

Note: Students must complete the required L4 courses: EN 2113, EN 2216, EN 2220, EN 2222, EN 2263.

Students will have: 1) the ability to employ a range of skills to evaluate information and develop strategies to determine solutions to a variety of problems; 2) the basic knowledge of various functions of language including social and cultural; 3) a broad knowledge of the ties of literature and language.

Upon completion of eight Level 4 modules (120 credits or eight 15-credit modules), students will be able to demonstrate:
- basic knowledge of the underlying concepts and principles associated with the study of language (EN 2113, EN 2216, EN 2210, EN 2102)
- basic knowledge and understanding of a number of authors and texts, both English and American (EN 2220, EN 2222, EN 2263)
- basic knowledge of the various functions of language (EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)
- an ability to evaluate the appropriateness of different approaches to solving problems related to the study of language (EN 2216, EN 2113, EN 2103, EN 2102)

In addition, students will have the following cognitive skills:
- Read and analyse a variety of texts (EN 2216, EN 2220, EN 2222, EN 2263)
- Provide interpretations of texts and/or analysis of linguistic data that are theoretically informed (EN 2113, EN 2216, EN 2202, EN 2103)
- Think logically and make reasonable judgments/hypotheses to be tested by evidence (EN 2102, EN 2103, EN 2113, EN 2216, EN 2220, EN 2222, EN 2263)
- Understand the significance of actions/behaviours within cultural contexts (EN 2216, EN 2220, EN 2222, EN 2263)

Furthermore, they will have the following professional and key/transferable skills:
- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 2102, EN 2103, EN 2216, EN 2220, EN 2222, EN 2263)
- Work effectively independently or in groups (EN 2113, EN 2216, EN 2222, EN 2220, EN 2263)
- Utilize information technology skills and the ability to access electronic data (EN 2102, EN 2216, EN 2220, EN 2222, EN 2263)
- Plan and write essays that make use of bibliographic skills appropriate to the discipline (EN 2216, EN 2220, EN 2222, EN 2263)

II. Diploma of Higher Education (DipHE) in English Literature with Linguistics
Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in English Literature with Linguistics.

For both Level 4 and Level 5, students must complete the required modules.

Students will have adequate knowledge to 1) generate ideas through the analysis of concepts at an abstract level, 2) analyse and evaluate information as well as make use of literary resources in the discipline. 3) exercise significant judgment across a broad range of functions of language.

Upon completion of Level 4 and 5 modules (120 credits at each level), students will:
- have adequate knowledge of linguistic theory and how to take different approaches to solving problems (EN 3373, EN 3304, EN 3306, EN 3365, EN 3362, EN 3317)
- demonstrate adequate knowledge of the various concepts and principles which govern language, literature and scholarship (EN 3321, EN 3323, EN 3405, EN 3304, EN 3373, EN 3306, EN 3365, EN 3317)
- be able to undertake some analysis of data (EN 3304, EN 3365, EN 3373, EN 3362)
- employ research methods relevant to the discipline to retrieve information (EN 3405, EN 3373)

In addition, students will have the following cognitive skills:
- Read and analyse a variety of texts, including secondary sources (EN 3321, EN 3323, EN 3405, EN 3373, EN 3304, EN 3365, EN 3317, EN 3362, EN 3405)
- Provide interpretations of texts and/or analysis of linguistic data that are theoretically informed (EN 3304, EN 3306, EN 3317, EN 3365, EN 3362, EN 3373, EN 3321, EN 3323, EN 3405)
- Synthesize knowledge and ideas from a variety of sources and evaluate them critically (EN 3321, EN 3323, EN 3304, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Think logically and make reasonable judgments/hypotheses to be tested by evidence (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)

Furthermore, they will have the following professional and key/transferable skills:
- Communicate effectively and persuasively orally and in a variety of written forms using appropriate style & register (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373)

**Compulsory Modules**

- Collect, organize and evaluate a variety of print and electronic sources for research (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Plan and write essays and research papers that make use of critical reading and bibliographic skills appropriate to the discipline (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)

**Optional Modules**

- One of the following: 20
  - BI 1000 LE Introduction to Biology I
  - BI 1017 Human Biology: Body Anatomy and Current Issues
- One of the following: 20
  - BI 1101 Introduction to Biology II
  - BI 1007 Environmental Ecology

**Compulsory Modules**

- Collect, organize and evaluate a variety of print and electronic sources for research (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
- Plan and write essays and research papers that make use of critical reading and bibliographic skills appropriate to the discipline (EN 3321, EN 3323, EN 3304, EN 3306, EN 3317, EN 3362, EN 3365, EN 3373, EN 3405)
In accordance with FHEQ, Certificates of Higher Education in Environmental Studies are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with Environmental Studies, and an ability to evaluate and interpret these within the context of that area of study;
- an ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of their subject(s) of study.

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to Environmental Studies;
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- undertake further training and develop new skills within a structured and managed environment, and will have:

• qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Specifically, holders of the Certificate of Higher Education in Environmental Studies of ACG-Deree (120 credits or six 20-credit modules) will be able to demonstrate knowledge and understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules: ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology);
- the social, economic, political, health and ecological implications of human interactions with the environment. (ES 1000, ES 1010)
- the need for an interdisciplinary approach in addressing environmental problems (ES 1000, ES 1010)
- the concepts and dimensions of sustainability and sustainable development (ES 1000, ES 1010)

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

- They will be able to collect, process, interpret data and interpret information on environmental issues and related topics
- They will be able to describe and record materials in the field and laboratory, to interpret practical results in a logical manner and to use appropriate laboratory and field equipment competently and safely
- They will be able to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate.

These skills are attained through all L4 modules (ES 1000, ES 1010, CH 1002, GG 1000, two modules in biology)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Environmental Studies and the ordinary (non-Honours) degree in Environmental Studies.

In accordance with the Framework for Higher Education Qualifications (FHEQ), holders of qualifications at this level will have developed a sound understanding of the principles in Environmental Studies and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

In accordance with FHEQ, non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of Environmental Studies, and of the way in which those principles have developed;
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
- knowledge of the main methods of enquiry in their subject(s), and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study;
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis.

**ENVIRONMENTAL STUDIES EXIT AWARDS ±**

### I. Certificate of Higher Education in Environmental Studies

In accordance with the Framework for Higher Education Qualifications (FHEQ), the holder of a Certificate of Higher Education in Environmental Studies will have a sound knowledge of the basic concepts of Environmental Studies and will have learned how to take different approaches for solving problems. II.a. Diploma of Higher Education in Environmental Studies

Holders of the Diploma of Higher Education in Environmental Studies of ACG-Deree (245 credits or seven 20 credit- and seven 15 credit-modules) will be able to demonstrate detailed knowledge and critical understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules and L5 modules ES/CH 3241 Environmental Chemistry, ES 3222 Climate Change)
- the role of social sciences in analysing and addressing environmental problems and of the social, economic, political, health and ecological implications of human interactions with the environment (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, BI 3215)
- human responses to environmental problems such as the development of environmental policy and law and environmental management, as well as of the importance of temporal and spatial scales in considering the environmental impact of human decisions in different environmental studies fields (ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241, ES 3232)
- the concepts and dimensions of sustainability and sustainable development and of some of their applications in addressing environmental issues in an integrated manner (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, ES 3232)
- basic tools in mathematics and statistics, as well as of quantitative techniques and data processing methods including GIS techniques (ES 3340 Integrated Methods in Environmental Analysis I, GG 3115)

In addition, they will have the following cognitive skills:

- ability to recognize the moral and ethical issues of investigations, appreciate the need for professional codes of conduct and undertake a reasoned moral assessment of actions/persons/business practices (SO/ES 3002, ES 3232 Integrated Methods in Environmental Analysis I, ES 3220)
- ability to collect and analyse data and information on environmental issues using a range of techniques appropriate to the subject (all L4 and L5 modules to some extent)
- ability to critically evaluate the reliability and significance of data and information collected and the evidence provided to support conclusions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES 3232, ES/CH 3241, BI 3215)
- ability to categorize ideas, data and information, reformat and transform them towards a given purpose and propose solutions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215)

the following practical/professional skills:

- ability to describe and record materials in the field and laboratory and to interpret practical results in a logical manner (all L4 modules, as they have a lab component, ES 3340 Integrated Methods in Environmental Analysis I)
- ability to use appropriate laboratory and field equipment competently and safely (all L4 modules, as they have a lab component, ES 3340 Integrated Methods in Environmental Analysis I)

II.b. BSc in Environmental Studies

Holders of the ordinary BSc in Environmental Studies of ACG-Deree (305 credits or seven 20 credit- and eleven 15 credit-modules) will be able to demonstrate detailed knowledge and critical understanding of:

- core concepts, principles and tools in natural sciences, of the structure and functioning of natural systems and of their role in supporting life and human activities (all L4 modules and ES/CH 3241 Environmental Chemistry, ES 3232 Climate Change)
- the role of social sciences in analysing and addressing environmental problems and of the social, economic, political, health and ecological implications of human interactions with the environment (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, BI 3215, ES 4017)
- human responses to environmental problems such as the development of environmental policy and law and environmental management, as well as of the importance of temporal and spatial scales in considering the environmental impact of human decisions in different environmental studies fields (ES 3216, ES 3220, ES 3139, BI 3215, ES/CH 3241, ES 3232)
- the concepts and dimensions of sustainability and sustainable development and of some of their applications in addressing environmental issues in an integrated manner (ES 1000, ES 1010, SO/ES 3002, ES 3216, ES 3220, ES 3139, ES 3232, most L6 optional modules)
- basic tools in mathematics and statistics, as well as of quantitative techniques and data processing methods including GIS techniques (ES 3340 Integrated Methods in Environmental Analysis I, GG 3115, ES 4443 Integrated Methods in Environmental Analysis II)
- Topics in more specialized fields of environmental studies (such as management and conservation of natural resources, policy and environmental management of corporations) (all L6 optional modules)

In addition, they will have the following cognitive skills:

- ability to recognize the moral and ethical issues of investigations, appreciate the need for professional codes of conduct and undertake a reasoned moral assessment of actions/persons/business practices (SO/ES 3002, ES 3340 Integrated Methods in Environmental Analysis I, ES 4443 Integrated Methods in Environmental Analysis II, ES 3220)
• ability to collect and analyse data and information on environmental issues using a range of techniques appropriate to the subject (all L4 and L5 modules to some extent)

• ability to critically evaluate the reliability and significance of data and information collected and the evidence provided to support conclusions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215, all L6 modules)

• ability to categorize ideas, data and information, reformat and transform them towards a given purpose and propose solutions (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215, all L6 modules)

• ability to identify key elements of environmental problems and apply appropriate knowledge and skills to their solution (all L6 modules)

the following practical/professional skills:

• ability to describe and record materials in the field and laboratory and to interpret practical results in a logical manner (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)

• ability to use appropriate laboratory and field equipment competently and safely (all L4 modules, as they have a lab component; ES 3340 Integrated Methods in Environmental Analysis I)

• ability to select and apply a limited range of methods, including spatial techniques, to study and solve environmental problems (ES 3340 Integrated Methods in Environmental Analysis I, ES 4443 Integrated Methods in Environmental Analysis II, GG 3115)

• ability to plan, conduct and present an independent project effectively and appropriately with reliance on guidance, to relate investigations to prior work and to reference appropriately (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215, all L6 modules)

and the following key/transferable skills:

• ability to manage, select and process information from a variety of sources to support findings and hypotheses and develop a critical approach to academic literature and other sources of information (all L5 modules with a research project: SO/ES 3002, GG 3115, ES 3216, ES 3220, ES 3139, ES/CH 3241, ES 3340, ES 3232, BI 3215, all L6 modules)

• ability to communicate effectively to a variety of audiences in written, graphical and verbal forms, engage in debate in a professional manner and produce detailed and coherent project reports (all modules to some extent)

• ability to interact effectively within a team/learning group, giving and receiving information and ideas and modifying responses when appropriate (all L4 modules, ES 3220, ES 4229)

• ability to acquire, process, interpret and present data using appropriate qualitative and quantitative techniques including use of information technology and the internet, mathematics, statistics and GIS (all modules to some extent)

• ability for independent study (ES 4443 Integrated Methods in Environmental Analysis II)
I. Certificate of Higher Education

Upon completion of level 4 (120 credits or 8 15-credit modules), students have 1) a basic grasp of the concepts and principles of History; 2) a series of transferable interpersonal, research and writing skills that are applicable to the professional world; 3) the knowledge and skills necessary for further progression in the field—for example for The BA (Ord.) and (Hons) of Higher Education in History such as those offered by DEREE, the American College of Greece.

Specifically, Certificates of Higher Education in History are awarded to students who have demonstrated knowledge and understanding of:

- the skills and tools that a historian uses to study and discuss about past events, issues, figures ([HY 2038]
- significant past events in key periods and geographic areas ([HY 2034, HY 2015, HY 2023, HY 2039, IR 2015]
- the idea of continuities/discontinuities between past and present ([HY 2034, HY 2015, HY 2023, HY 2039]
- a measure of knowledge in an array of humanities and social sciences (IR 2015 and one level-4 module each in the social sciences and humanities).

In addition, they will have the following cognitive skills:

- a basic understanding of the variety of approaches to interpreting the past ([HY 2038]
- a basic exposure to the difficulty in reconstructing the past ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039]
- an ability to appreciate continuity and change over extended time periods ([HY 2034, HY 2015, HY 2023, HY 2039].

Furthermore, they will have the following practical/professional and key/transferable skills:

- communication skills both in oral and in written forms ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039]
- ability to frame, develop and sustain reasoned arguments clearly and comprehensively ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039, IR 2015]
- ability to conduct basic research and present the findings in the form of short essays, short papers, reports, and presentations ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039]
- organization skills by the ability to gather, select, organize, and synthesize a body of information in a timely manner ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039]
- digital literacy skills for bibliographic and archival research as well as for the presentation of findings both in oral and in written forms ([HY 2038, HY 2034, HY 2015, HY 2023, HY 2039]

I.a. Diploma of Higher Education in History

Designed to follow upon the Certificate of Higher Education in History, the Diploma of Higher Education in History, broadens and deepens students’ engagement in the field of History through courses that enlist both synchronic and diachronic pathways of study. Upon completion of levels 4 and 5 (240 credits of 16 15-credit modules), students have 1) a solid grasp of the concepts and principles of history; 2) a series of transferable interpersonal research and writing skills that are applicable to the professional world; 3) the knowledge and skills necessary for further progression in the field—for example for The BA (Ord.) and (Hons) of Higher Education in History such as those offered by DEREE, the American College of Greece.

Specifically, in addition to the characteristics and associated modules listed under the Certificate above, holders of the Diploma of Higher Education in History will be able to demonstrate detailed knowledge and critical understanding of:

- the development of History as a discipline and the variety of approaches and methodologies to constructing and, interpreting the past as well as a knowledge of concepts and theories derived from humanities and social sciences ([HY 3146, PH3022]
- a significant body of historical knowledge and awareness of the diversity of human experiences in different periods, societies, and cultures ([HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033]
- the ethical dimensions of historical study, writing and research and the interdisciplinary nature of Historical studies ([HY 3146, PH3022, HY 3147, HY 3033, HY 3021, HY 3026]

In addition, they will have the following cognitive skills:

- appreciation of the complexity of reconstructing, understanding, and interpreting the past and the often problematic and varied nature of historical contexts and evidence ([HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033]
- critical, reflective, and argumentative skills when approaching historical questions and problems, including complex ones to which there is no single solution, through discussion, debate, and written analysis ([HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033]
- ability to adopt and apply comparative perspectives when investigating different countries, societies, or cultures ([HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033]
And the following practical/professional and key/transferable skills:

- critical, analytical, and interpretative skills both in oral and written form, and ability to frame, develop and sustain arguments clearly and comprehensively (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

- effective communicative skills, such as clarity, fluency, and concision to engage in debate in academic contexts (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

- team-working skills in preparing and contributing to seminar discussions and group presentations in cooperation with other students (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

- reflexivity by the ability to gather, select, organize, and synthesize a substantial and diverse body of information to produce longer papers (HY 3147, HY 3005, HY 3021, HY 3026, HY 3044, HY 3040, HY 3060, HY 3033)

II.b. BA (Ordinary) in History

Upon completion of 300 credits (20 15-credit modules), students will have 1) a solid grasp of the concepts and principles of History; 2) acquired skills in historical research, critical thinking, and the written presentation of data and oral expression that are transferable to the professional world; 3) developed abilities to recognize the continuity and/or discontinuity of past experiences with contemporary ones; 4) the knowledge and skills necessary for further progression in the field—for example, for the final modules of a BA (Hons) programme in History such as that at DEREE, The American College of Greece.

In addition to the knowledge and skills and the associated modules listed above under Certificate and Diploma, holders of the BA (Ordinary) in History will be able to demonstrate deepened factual knowledge and critical understanding and engagement with:

- regional of focused histories (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)

- an array of humanities and social sciences (selection of L6 choices from politics and international relations or philosophy modules)

In addition, they will have the following cognitive skills:

- interrogate and reflect critically and contextually upon contemporary texts and a variety of primary sources (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)

- obtain intellectual independence by formulating focused questions about the past and by providing answers to them using valid and relevant evidence and arguments (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053)

and the following practical/professional and key/transferable skills:

- effective communicative skills, such as clarity, fluency, and concision to engage in debate both in academic and public contexts (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY 4048)

- ability to conduct independent research and produce complex and sophisticated historical arguments both in oral and written forms, including extended pieces of historical writing (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY 4048)

- effective interpersonal skills as well as advanced independence of thought and critical judgement (HY 4061, HY 4055, HY 4054, HY 4049, HY 4053, HY 4048)

- knowledge and application of digital humanities tools to communicate historical awareness in academic and public contexts (HY 4048)

**Total: 360 UK Credits**
I. Certificate of Higher Education in Information Technology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Information Technology will have sound knowledge of the basic concepts of Information Technology and will have learned how to take different approaches to solving problems. The student will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits), students will have acquired the knowledge and understanding necessary for further progression in the field - for example, into the second year of a BSc (Hons) programme in Information Technology and will be eligible for the Certificate of Higher Education in Information Technology. In specific, students will be able to:

- demonstrate knowledge and understanding of the underlying technology, design methods and programming languages required to practice in ICT domains (ITC 2024, ITC 2186, ITC 2193, ITC 2088, ITC 2197, ITC 2205)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to ICT approaches and professional practice (ITC 2024, ITC 2039, ITC 2205)
- demonstrate knowledge of user experience principles and practices (ITC 2039, ITC 2205)
- demonstrate knowledge of theory and tools relevant to data and big data manipulation (ITC 2197, ITC 2205)
- demonstrate knowledge of emergent and enabling technologies (ITC 2024)

Moreover, holders of the qualification will have developed the following skills:

Cognitive skills

- discuss social, ethical, and legal issues related to the impact of information technology (ITC 2039, ITC 2205)
- apply appropriate design and problem-solving techniques to software, database, user experience, game or intelligent system implementations (ITC 2088, ITC 2197, ITC 2205)

Practical and professional skills

- communicate using appropriate and relevant language and terminology to reach a wide range of different audiences on ICT subjects (ITC 2024, ITC 2039, ITC 2088, ITC 2186, ITC 2193, ITC 2197, ITC 2205)
- use design, production, and programming tools relevant to user experience, games, and automation in associated areas (ITC 2088, ITC 2039, ITC 2197, ITC 2205)
- structure and write reports on various aspects of ICT domains (ITC 2024, ITC 2197 ITC 2205)

Key/transferable skills

- be able to demonstrate personal and time management skills appropriate to professional conduct (ITC 2024, ITC 2039, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 2205)
- possess the oral and written communication skills to work successfully in a professional environment (ITC 2024, ITC 2088, ITC 2197, ITC 2186, ITC 2193, ITC 2197, ITC 2205, PS 1000 or PS 1001)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Information Technology, and the ordinary (non-Honours) degree in Information Technology.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the fields of Information Technology and will be in a position to evaluate the applicability of relevant theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate information technology theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in Information Technology.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate IT issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the Information Technology studies.

And will have:

- Qualities and transferable skills necessary for employment in terms of communication and decision-making

II a. Diploma of Higher Education in Information Technology

Upon completion of levels 4 and 5 (total of 240 credits), students will have acquired the knowledge and understanding necessary for further progression in the field - for example, into the final year of a BSc (Hons) programme in Information Technology and will be eligible for the Certificate of Higher Education in Information Technology. In specific, students will be able to:

- demonstrate knowledge and understanding of the underlying technology, design methods and programming languages required to practice in ICT domains (ITC 2024, ITC 2186, ITC 2193, ITC 2088, ITC 2197, ITC 2205, ITC 3051, ITC 3287, ITC 3125, ITC 3163, ITC 3145, ITC 3287, ITC 3237, ITC 3261, ITC 3338, ITC 3431)
- demonstrate knowledge and understanding of the ethical, legal, and policy issues related to ICT approaches and professional practice (ITC 2024, ITC 2039, ITC 2205, ITC 3051, ITC 3338, ITC 3261, ITC 3125, ITC 3154, ITC 3160, PH 3005, PH 3010)
School of Liberal Arts and Sciences
		 • demonstrate knowledge of user experience principles and practices (ITC 2039, ITC 2205, ITC 3059, ITC 3163,
ITC 3237, ITC 3338, ITC 3261, ITC 3125)

School of Liberal Arts and Sciences
		 • demonstrate problem-solving skills and reflect on the process of development of a product in the ICT
industry (ITC 3233, ITC 3213, ITC 3431, ITC 3160, ITC 3237, ITC 3287, ITC 3261, ITC 3338, ITC 3125)

### INTERNATIONAL RELATIONS AND EUROPEAN AFFAIRS EXIT AWARDS

1. **Certificate of Higher Education in International Relations and European Affairs (120 CREDITS)**

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in International Relations and European Affairs will have a sound knowledge of the basic concepts of International Relations and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 15-credit modules), students will be able to 1/. Demonstrate a basic understanding of political, economic, social, cultural and security implications of multiple co-actors existing in the contemporary European and International environment; 2/. Develop some basic transferable interpersonal, research and writing skills that are applicable to the professional domain, and 3/. Acquire the knowledge and skills necessary for further progression in the field—for example, into the second year of a BA (Hons) programme in International Relations and European Affairs.

Specifically, Certificates of Higher Education in Philosophy are awarded to students who have demonstrated knowledge and understanding of:

- Demonstrate an understanding of the origins, evolution, and contemporary dynamics of the international system, including the nature of cooperation and conflict and the challenges facing the international system today. (IR 2010)
- Identify the key actors in international system – i.e., states, NGOs, intergovernmental organizations, transnational corporations, global civil society, and individuals – and understand how these actors interact and shape international relations. (PO 2000)
- Cultivate a literacy regarding some of the key scholars and thinkers who have shaped our understanding of International Relations and European Affairs. (PO 2004, PO 2001)
II. Intermediate level

The intermediate level includes the Diploma of Higher Education in International Relations and European Affairs and the ordinary (non-Honours) degree in International Relations and European Affairs.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the field of International Relations and European Affairs, as well as being able to evaluate the applicability of those theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:
- Ability to understand and evaluate international relations theories and arguments.
- Ability to apply underlying concepts and evaluate their significance for problem solving in International Relations and European Affairs.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:
- Articulate international relations issues or problems and elaborate solutions on them.
- Construct and effectively arguments in various audiences or contexts.
- Analyze and synthesize major theoretical and conceptual frameworks in the International Relations and European Studies.

And will have:
- Qualities and transferrable skills necessary for employment in terms of communication and decision-making.

II.a. Diploma of Higher Education in International Relations and European Affairs (240 CREDITS)

Upon completion of levels 4 and 5 (240 credits of 16 15-credit modules), students will be able to:
- Demonstrate a competent understanding and critical evaluation of central theories and arguments in International Relations and European Affairs.
- Apply moral theories as tools of decision-making in any field of human activity.
- Develop a series of transferrable interpersonal research and writing skills that are applicable to the professional world.
- Acquire the knowledge and skills necessary for progression in the field-for example for the BA Ordinary or BA (Hons) of Higher Education in International Relations and European Affairs.

Specifically, holders of the Diploma of Higher Education in International Relations and European Affairs will have demonstrated knowledge and critical understanding of:
- The origins, evolution, and contemporary dynamics of the European and international system, including the nature of cooperation and conflict and the challenges facing the international system today. (PO 2000, IR 2015, HY 3026, HY 4053, HY 4054, IB 4118)
- Central theories or issues and relevant arguments in the fields of moral, social, and political philosophy. (PH 3010, PH 3022)
- The implications for the world political, economic security, and social justice. (PO 1015, PH 3015, PO 3033, AN 3007, HY 4053, HY 4054)
- The multi-disciplinary nature of international relations by establishing connections with the disciplines that have shaped and continue to influence international relations: politics, economics, business, philosophy, and political sociology. (EC 1000, EC 1001, IB 2006, PO 2000, HY 3026, HY 4053, HY 4054)

In addition, holders of the qualification will have the following cognitive, practical/professional, and key transferable skills:
- Use moral theories as tools of decision-making in any field of human activity.
- Develop argumentation skills and be able to defend and substantiate one’s inferences and conclusions using various theoretical approaches (PH 3010, PH 3022, SO 3035).
- Prepare papers, reports, or proposals based on research results. (All modules with research paper)
- Use library effectively (All modules with research paper)

II.b. BA in International Relations and European Affairs (300 CREDITS)

Upon completion of 300 credits (20 15-credit modules), students will be able to:
- (i) recognize and be familiar with key theories, concepts and techniques from the areas of politics, economics, history and socio-cultural that apply to International Relations and European Affairs.
- (ii) demonstrate advanced knowledge and understanding of key theories and concepts in the field of International Relations and European Affairs.
- (iii) demonstrate awareness of moral theories and issues and be able to apply them as tools for ethical decision-making in International Relations and European Affairs.

PHILOSOPHY EXIT AWARDS

I. Certificate of Higher Education in Philosophy
In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Philosophy will have a sound knowledge of the basic concepts of Philosophy and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 15-credit modules), students will be able to: 1. Demonstrate a basic knowledge of the major philosophical schools and thinkers, 2. Develop some basic transferable interpersonal, research and writing skills that are applicable to the professional domain, and 3. Acquire the knowledge and skills necessary for further progression in the field—for example, into the second year of a BA (Hons) programme in Philosophy.

Specifically, Certificates of Higher Education in Philosophy are awarded to students who have demonstrated knowledge and understanding of:

- The arguments and theories corresponding to the major philosophical schools from antiquity to this day. (PH 1000, PH 2014, PH 2020)
- How to define, analyze and use basic philosophical terms and concepts. (PH 1000, PH 2003, PH 2029, PH 2014, PH 2016)
- A measure of knowledge in an array of humanities and social sciences (one level-4 module each in the humanities and the social sciences)

In addition, holders of the qualification will have the following cognitive skills:

- Construct rationally persuasive arguments for or against specific claims in a wide variety of fields, as well as identify invalid reasoning. (PH 1001)
- Apply the methodological skills of abstraction, induction and deduction. (PH 1000, PH 1001)

Furthermore, they will have the following practical/professional and key/transferable skills:

- Ability to present, in both oral and written forms, philosophical concepts or abstract terms in a clear and meaningful way. (PH 2003, PH 2014, PH 2016, PH 2020)
- Ability to think creatively, self-critically and independently. (PH 2016)
- Ability to develop argumentation and debating skills [All modules]
- Ability to participate in group discussions. [All modules]

II. Intermediate level
The intermediate level includes the Diploma of Higher Education in Philosophy and the ordinary (non-Honours) degree in Philosophy

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a deeper understanding of conceptual and theoretical frameworks and argumentation in the field of Philosophy, as well as being in a position to evaluate the applicability of those theories in resolving particular problems or issues in these fields.

Non-Honours degrees are awarded to students who have demonstrated:

- Ability to understand and evaluate philosophical theories and arguments in any branch of philosophy.
- Ability to interpret particular philosophical texts, apply underlying concepts, and evaluate their significance for problem solving.
- Ability to exhibit self-directed research activity.

Typically, holders of the qualification will be able to:

- Articulate philosophical ideas or problems and elaborate solutions on them.
- Construct sound arguments in any field of reasoning.
- Analyze and synthesize major theoretical and conceptual frameworks in any branch of philosophy

And will have:

- Qualities and transferable skills necessary for employment in terms of communication and decision-making

II. a. Diploma of Higher Education in Philosophy
Upon completion of levels 4 and 5 (240 credits of 16 15-credit modules), students will be able to: (a) Demonstrate a competent understanding and critical evaluation of central theories and arguments in specific fields of philosophy. (b) Use moral theories and arguments as tools of decision-making and evaluate their impact on the domain of moral action. (c) Develop a series of transferable interpersonal research and writing skills that are applicable to the professional world. (d) Acquire the knowledge and skills necessary for progression in the field—for example for the BA Ordinary or BA (Hons) of Higher Education in Philosophy.

Specifically, holders of the Diploma of Higher Education in Philosophy will have demonstrated knowledge and critical understanding of:

- Basic philosophical terms, arguments and theories. (PH 1000)
- Central theories or issues and relevant arguments in the fields of moral, social, and political philosophy. (PH 3005, PH 3006, PH 3022)
- Central theories in the fields of logic, metaphysics, and epistemology, as well as the ability to use and criticize the specialized philosophical terminology. (PH 3009, PH 3026, PH 3027, PH 3118, PH 4040)
- The ideas and arguments of major philosophers in the history of the subject on the basis of their own writings. (PH 3023, PH 3026, PH 3027, PH 30XX).

In addition, holders of the qualification will have the following cognitive skills:

- Use moral theories and arguments as tools of decision-making and evaluate their impact on the domain of moral action. (PH 3005, PH 3010)
- Apply the methodological skills of abstraction, induction and deduction. (PH 1001, PH 3118)
- Formulate and analyze complex and controversial problems, as well as apply appropriate solutions. (PH 2003, PH 2029, PH 3022, PH 3026, PH 3036)

Furthermore, they will have the following practical/professional and key/transferable skills:

- Prepare papers, reports or proposals on the basis of research results. [All modules with papers]
- Develop argumentation and debating skills. (PH 1001, PH 3005, PH 3010)
- Use library effectively [All modules with research paper]
II. b. BA in Philosophy

Upon completion of 300 credits (20 15-credit modules), students will be able to: (a) Demonstrate an understanding of terms and arguments corresponding to major philosophical schools or positions and how they evolved in the process of history. (b) Demonstrate a competent understanding of central theories in the fields of logic, metaphysics, aesthetics, epistemology, philosophy of science, and philosophy of mind, as well as the ability to use and criticize specialized philosophical terminology. (c) Interpret philosophical texts and critically evaluate their arguments as an independent scholar. (d) Demonstrate an understanding and evaluate the multi-dimensional aspect of philosophy as related to contemporary issues (or, as related to technology, global citizenship and the environment)

Specifically, holders of the ordinary BA in Philosophy will be able to demonstrate competent knowledge and critical understanding of:

- In depth analysis of philosophical terms, arguments and theories. (PH 3027, PH 3118, PH 4121, PH 4141)
- Competent understanding of the development of philosophical thought from antiquity to this day. (PH 2020, PH 3027, PH 3034, PH 4031, PH 4032, PH 4121)
- Interpret philosophical texts, which are primary sources. (PH 4031, PH 4032, PH 4121)

In addition, holders of the qualification will have the following cognitive skills:

- Analyze philosophical theories and problems in depth as well as synthesize different theoretical perspectives on them. (PH 3022, PH 3026, PH 3027, PH 3118, PH 4121, PH 4135, PH 4143)
- Manage and process a complex body of information. [PH 3118, PH 4121]
- Construct rationally persuasive arguments for or against specific claims in a wide variety of fields, as well as identify invalid reasoning (PH 4040)
- Apply advanced research skills (PH 4031, PH 4032, PH 4121, PH 4141)

In addition, holders of the qualification will have the following practical/professional and key-transferable skills:

- Demonstrate basic knowledge in an array of different disciplines in humanities and social sciences, thus becoming broadly informed citizens and professionals (CN 2001, PO 1015, AN 2025, SO 1001, PH 2003, PH 3036, PH 4143)
- Reflect on knowledge and theory and become an independent life-long learner. (All modules in Level 5 and Level 6)
- Use interpersonal skills, i.e. oral and written communication skills in English to work effectively in a professional manner. (All modules)
- Apply advanced research skills. (All modules in Level 6)
- Perform a critical evaluation of the body of knowledge acquired through the programme, by means of their own analysis [All modules]
- Use libraries effectively. (All modules with research paper)

I. Certificate of Higher Education in Sociology

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Sociology will have a sound knowledge of the basic concepts of Sociology and will have learned how to identify, through different theoretical approaches, sociological issues across a range of social contexts and social problems. The holder will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

The Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA’s generic specifications of each Level’s requirements, as well as the relevant Subject Benchmark Statements corresponding to Sociology.

Certificates of Higher Education in Sociology are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with Sociology, and an ability to evaluate and interpret these within the context of Sociology.
- an ability to present and evaluate qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of Sociology.

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different theoretical approaches to discern social problems and issues related to Sociology.
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
- undertake further training and develop new skills within a structured and managed environment.
- and will have:
- qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits), students will be able to:

- recognize and be familiar with key sociological concepts that are present in both everyday as well as in macro-level; ii) understand how foundational concepts in sociology apply to key sociological fields like social inequality, family and gender and social problems.

Specifically, holders of the Certificate of Higher Education in Sociology will be able to demonstrate knowledge and understanding of:

- Demonstrate knowledge of
- core theoretical models of sociology
- principal social institutions and processes initiated by modernity (SO1000, SO 1001)
- Understand key areas of sociology like social inequality, gender and social problems and how they apply to other sociology specialisms. (SO 2004, SO 2020, SO 2030)
- Understand globalization and its relation to social change, power, identity and difference, across national, regional and local contexts (SO 1000, SO 1001)
- Become aware of the diversity of theoretical approaches in sociology (from its classical foundations to contemporary paradigms), their claims for explanatory adequacy and how rival sociological theories compare and complement each other (SO1000)

Cognitive Skills

- Apply theoretical tools pertinent to the action-structure dualism in sociological theory (SO 1000, SO 1001).
- Utilise quantitative and skills in sociological research, and recognize the ethical implications of research practice (SO 2641)

Practical and Professional Skills

- Use sampling techniques to obtain data in order to conduct surveys (PS/SO 2260)

Key/Transferable Skills

- Recognize and apply key sociological concepts and sophisticated theoretical reasoning across a range of social issues and problems, being also able to recognize the potentially contested perception and application of sociological knowledge, for researchers and publics alike. (SO 1000, SO 1001, SO 2004, SO 2020, SO 2030)
- Develop information-retrieval and processing skills in relation to different types of sources or data (bibliographical, primary or secondary) (SO2441)
- Use mathematical, statistical skills in order to:
- measure and interpret social data
- interpret graphs and charts
- use distribution functions and hypothesis testing
- conduct independent research (PS/SP 2260)
- Demonstrate a measure of knowledge in an array of different social sciences, exploring inter-disciplinary linkages, thus becoming better informed citizens and professionals, capable also of recognizing forms of abuse and prejudice. (L4 Social Science Options)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Sociology and the ordinary (non-Honours) degree in Sociology.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Sociology and will have learned to apply those principles more widely. Through this, they will have learned how to identify, via different theoretical approaches, sociological issues across a range of social contexts and social problems. They will have the qualities necessary for employment in contexts and situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the foundational principles of Sociology and of the way in which those principles have developed historically
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in across the local, the national, the regional and the global context
- knowledge of the main methods of enquiry in Sociology and ability to evaluate critically the appropriateness of different approaches to interpret issues and problems in Sociology
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.
Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of sociological information, and to apply these tools to concrete situations and contexts
- effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively
- undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations

and will have:
- qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II. a. Diploma of Higher Education in Sociology

Upon completion of levels 4 and 5 (240 credit), students will be able to:

1. recognize and be familiar with key sociological concepts that are present in both everyday as well as in professional decision making;
2. apply basic mathematical and qualitative techniques to sociological topics, thus aligning theory to practice;
3. demonstrate detailed knowledge of theoretical paradigms, models, and tools of micro- and macro-sociology;
4. apply the methodological tools associated with sociology’s classical founders;
5. analyze and evaluate major debates in the context of globalization and social change.

Specifically, holders of the Diploma of Higher Education in Sociology will be able to demonstrate detailed knowledge and critical understanding of:

- core theoretical models of sociology
- principal social institutions and processes initiated by modernity (SO 1000, SO 1001, SO 3260)
- understand key areas of sociology like social inequality, gender and social problems and how they apply to other sociology specialisms. (SO2004, SO2020, SO2030)
- understand globalization and its relation to social change, power, identity and difference, across national, regional and local contexts (SO1000, SO1001, SO3015, SO3035)
- become aware of the diversity of theoretical approaches in sociology (from its classical foundations to contemporary paradigms), their claims for explanatory adequacy and how rival sociological theories compare and complement each other (SO1000, SO3260)
- understand and make use of the range of qualitative and quantitative research strategies in sociological methodology and identify the ethical aspects of social research. (SO3411, SO3516)
- become aware of the social foundations of sociological knowledge and of the status of sociology as a social science discipline. Enhance reflexive knowledge on the construction of sociological categories and research methods. (SO3411, SO3516)

Cognitive Skills

- apply theoretical tools pertinent to the action-structure dualism in sociological theory (SO 1000, SO 1001, SO3260);
- utilize quantitative skills in sociological research, and recognize the ethical implications of research practice (SO 3411);
- utilize qualitative skills in sociological research, and recognize the ethical implications of research practice (SO 2441, SO 3516);
- analyze and synthesize, with minimum guidance, issues relating to a variety of fields in sociology and thus become able to reflexively question taken for granted assumptions and bodies of knowledge (LS Sociology Options)

Practical and Professional Skills

- use sampling techniques to obtain data in order to conduct surveys (PS/SO 2260, SO 3411)
- prepare reports, including tables and charts, on research results (SO 3411, SO 3516, SO 3035, SO 3039)
- use various qualitative techniques to conduct research according to context and situation (SO 3516, SO 4231)
- write theory and empirical oriented papers suitable for graduate work conveying concepts and methods to lay audiences with clarity and scholarly use of sophisticated sociological terminology, appropriate bibliographical support and evidence (SO 3320, SO 3411, SO 3516, SO 4213, SO 4231)

Key/Transferable Skills

- recognize and apply key sociological concepts and sophisticated theoretical reasoning across a range of social issues and problems, being also able to recognize the potentially contested perception and application of sociological knowledge, for researchers and publics alike. (SO1000, SO1001, SO2004, SO2020, SO2030, SO3260, SO3015, SO3035, SO 3516)
- develop information-retrieval and processing skills in relation to different types of sources or data (bibliographical, primary or secondary) (SO2441, SO3260, SO3015, SO3035, SO3516, SO3411, LS Sociology Options)
- use mathematical, statistical skills in order to:
  - measure and interpret social data
  - interpret graphs and charts
  - use distribution functions and hypothesis testing
  - conduct independent research (PS/SO2260, SO3411, SO3516)
- demonstrate a measure of knowledge in an array of different social sciences, exploring inter-disciplinary linkages, thus becoming better informed citizens and professionals, capable also of recognizing forms of abuse and prejudice. (L4 Social Science Options, LS Social Science Options)

II. b. Bachelor’s - BA (Ord) in Sociology

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BA(Ord) – in Sociology. Typically, students will have obtained at least 60 credits at Level 6 by completing 4 of the compulsory modules, excluding SO 4790 Senior Year Thesis in Sociology.

ECONOMICS EXIT AWARDS

I. Certificate of Higher Education in Economics

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Economics will have a sound knowledge of the basic concepts of Economics and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Economics are awarded to students who have demonstrated:

i) Knowledge of the underlying concepts and principles associated with Economics, and an ability to evaluate and interpret these within the context of Economics.

ii) An ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgements in accordance with basic theories and concepts of Economics.

Typically, holders of the qualification will be able to:

a) Evaluate the appropriateness of different approaches to solving problems related to Economics;

b) Communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;

c) Undertake further training and develop new skills within a structured and managed environment;

d) Qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8 15-credit modules), students will be able to:

i) Recognize and be familiar with key economic concepts that are present in both everyday as well as professional decision making;

ii) Apply basic mathematical techniques to economic topics, thus aligning theory to practice.

Specifically, holders of the Certificate of Higher Education in Economics will be able to demonstrate:

- Knowledge and understanding of Economic principles and tools and their application to economic reasoning and topics (EC 1000, EC 1101)
- Knowledge and understanding of basic mathematical and statistical techniques and their application in economics (MA 2105, MA 2021, EC 2350)
- Knowledge and understanding of the importance of economic institutions in the evolution of European society (EC 2011)
- Knowledge and understanding of principles of accounting and finance (AF 2007, FN 2128)
- A measure of knowledge and understanding of the notion of sustainability as it pertains to economic and environmental issues (EC 1000, EC 1101)

In addition, they will have the following cognitive skills:

- Ability to apply economic reasoning to address everyday problems in real world situations (EC 1000, EC 1101)
- Ability to comprehend current events and evaluate specific policy proposals (EC 1000, EC 1101)

Holders of the Certificate of Higher Education in Economics will also have the following practical/professional skills:

- Ability to use sampling techniques to obtain data in order to conduct research (MA 2021)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Economics and the ordinary (non-Honours) degree in Economics.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Economics and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

i) Knowledge and critical understanding of the well-established principles of Economics and of the way in which those principles have developed;

ii) Ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;

iii) Knowledge of the main methods of enquiry in Economics and ability to evaluate critically the appropriateness of different approaches to solving problems in Economics;

iv) An understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

a) Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;

b) Effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;

c) Undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations;

and will have:

- Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Economics

Upon completion of levels 4 and 5 (240 credits or 8 15-credit modules), students will be able to:

FINANCE EXIT AWARDS

The Quality Assurance Agency’s Quality Code for Higher Education in relation to the ‘Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies’ (October 2014) specifies that students who exit a Bachelor’s programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BSc Ord).

Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificate of Higher Education is awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles in Finance and financial analysis and an ability to evaluate and interpret financial information (delivered and assessed through, AF 2007, EC 1000, EC 1101, FN 2127, FN 2128)
- an ability to present, evaluate and interpret qualitative and quantitative data (delivered and assessed through all Level 4 modules)

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to finance and business problems (AF 2007, FN 2127, FN 2128, MA 2021, MG 2003)
- undertake further training and develop new skills within a structured and managed environment (AF 2007, EC 1000, EC 1101, FN 2127, FN 2128, MA 2021)

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfillment of all assessment components in Level 4 modules in a responsible and professional manner).

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in Finance.

Holders of qualifications at this level will have developed a sound understanding of the principles in finance and financial analysis, and will have learned to apply those principles in different business settings. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Diplomas of Higher Education are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles in financial analysis and business structure (delivered and assessed through all Level 4 and Level 5 modules)

**INTERNATIONAL TOURISM AND HOSPITALITY MANAGEMENT EXIT AWARDS ‡**

The Quality Assurance Agency’s Quality Code for Higher Education in relation to the ‘Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies’ (November 2014) specifies that students who exit a Bachelor’s programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BSc[Ord]).

This Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA’s generic specifications of each Level’s requirements, as well as the relevant Subject Benchmark Statements corresponding to International Tourism and Hospitality Management.

According to the latter, an honours graduate in tourism is able to demonstrate an understanding of the concepts and characteristics of tourism as an area of academic and applied study, including being able to:

- analyse and evaluate the concepts and characteristics of tourism as an area of academic and applied study in relation to business, management and wider social science
- explain and challenge theories and concepts which are used to understand tourism in domestic and international contexts
- critique and challenge the definitions, nature and operations of tourism
- use a range of source material in investigating tourism
- critique and challenge the nature and characteristics of tourists and associated behaviour characteristics
- demonstrate an awareness of the dynamic nature of tourism in contemporary societies
- explain, assess and challenge theories of sustainability and ethics in the production and consumption of tourism
- evaluate the intercultural dimensions of tourism
• demonstrate an understanding of technology and media and how these influence and change tourism products, operations, processes and behaviours
• critique the stakeholder relationships involved in destination management, development, policy, governance and strategy
• demonstrate an awareness of security, safety, risk and crisis management on regional, national and international scales
• evaluate the products, structure, operations and interactions within the tourism industry
• professionalising the tourism industry as both processes and structures, and professional identity and business acumen in professional development.

Furthermore an honours graduate in tourism is able to demonstrate understanding of the nature and characteristics of tourists, including being able to:
• explain the patterns and characteristics of tourism demand and the influences on such demand
• understand the ways in which tourists behave at destinations
• understand the cultural significance of tourism for tourists and societies.

Additionally an honours graduate in tourism is able to demonstrate an understanding of the products, structure of and interactions in the tourism industry, including being able to:
• demonstrate an understanding of the structure, operation and organisation of the public, private and not-for-profit sectors and their activities
• evaluate the factors that influence the development of organisations operating in tourism
• analyse relations between consumers of tourism and the providers of tourism services
• analyse the role of government and policy makers in the development and management of destinations.

Finally, an honours graduate in tourism is able to demonstrate understanding of the relationships between tourism and the communities and environments in which it takes place, including being able to:
• evaluate the contribution and impacts of tourism in social, economic, environmental, political, cultural and other terms
• understand and evaluate the approaches to managing the development of tourism through concepts of policy and planning
• appreciate the ethical issues associated with the operation and development of tourism
• understand the issues and principles of sustainability and social responsibility in the context of tourism.

Similarly, according to the same document, an honours graduate in hospitality is able to critically analyse and evaluate the defining characteristics of hospitality as a phenomenon, including being able to:
• critically reflect upon the origin, meanings and development of hospitality management and leadership
• analyse and reflect on the different cultural concepts of hospitality
• demonstrate a critical awareness of the boundaries of hospitality.

Furthermore, an honours graduate in hospitality is able to use technical and interpersonal skills and knowledge to propose and evaluate practical and theoretical solutions to complex problems in the core areas of hospitality, including being able to:
• operate and manage human and technical resources
• apply theory to the solution of complex problems within the core areas of hospitality
• analyse and evaluate food, beverage and/or accommodation service systems, their implementation and operation.

In addition, an honours graduate in hospitality is able to evaluate and apply, within the hospitality context, appropriate theories and concepts from the generic management areas of:
• operations management
• finance and management accounting
• human resources and organisational behaviour
• services marketing, digital marketing and consumer behaviour
• information systems and technology
• strategic management.

Additionally, an honours graduate in hospitality is able to analyse and evaluate the business environment and its impact on the hospitality industry, including being able to:
• display an insight into the structure of the hospitality industry and the contribution that it makes to the global economy
• analyse and reflect upon the environmental influences and sustainability issues which impact on hospitality organisations
• evaluate the factors which influence the development of organisations operating within the hospitality industry
• review and analyse the political, technological, social, and economic factors which affect the supply of and demand for hospitality.

Also, an honours graduate in hospitality is able to recognise and value the centrality of the hospitality consumer and meet and respond to their needs, including being able to:
• understand and apply the theories and concepts underpinning consumer behaviour within the hospitality context
• analyse the needs and expectations of different hospitality consumers and develop appropriate responses
• analyse the quality of the service encounter and its impact on the hospitality consumer and the service provider.

Finally, an honours graduate in hospitality is able to identify and respond appropriately to the diversity that prevails within the hospitality industry in relation to stakeholders, such as:
• hospitality consumers
• hospitality employees
• hospitality organisations
• government and external agencies.

In relation to the above framework, the following paragraphs demonstrate the coverage of these requirements at the different stages of the students’ progression in the programme by relating them to the content and assessment of modules delivered at each level of study.

I. Certificate of Higher Education (CertHE) in International Tourism and Hospitality Management

Students that exit the programme upon completion of Level 4 (having obtained 120 L4 credits) will be eligible for the award of a Certificate of Higher Education (CertHE) in International Tourism and Hospitality Management.
Holders of a Certificate of Higher Education will have a sound knowledge of the basic concepts of a subject, and will have learned how to take different approaches to solving problems. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility. The Certificate of Higher Education may be a first step towards obtaining higher level qualifications.

Certificates of Higher Education are awarded to students who have demonstrated:

- knowledge of the underlying concepts and principles associated with their area(s) of study, and an ability to evaluate and interpret these within the context of that area of study (HT 1001, HT 2116, HT 2011, MG 2003, BU 2003, IB 2006)
- an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of their subject(s) of study (all Level 4 modules)

Typically, holders of the qualification will be able to:

- evaluate the appropriateness of different approaches to solving problems related to their area(s) of study and/or work (MA 2021, MG 2003, HT 2010, HT 2116)
- communicate the results of their study/work accurately and reliably, and with structured and coherent arguments (all Level 4 modules)
- undertake further training and develop new skills within a structured and managed environment (HT 2116, HT 2010)

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility (demonstrated through the fulfilment of all assessment components in Level 4 modules in a responsible and professional manner).

II. Diploma of Higher Education (DipHE) in International Tourism and Hospitality Management

Students that exit the programme upon completion of Level 4 and Level 5 (having obtained 120 credits at each level) will be eligible for the award of a Diploma of Higher Education (DipHE) in International Tourism and Hospitality Management.

Holders of qualifications at this level will have developed a sound understanding of the principles in their field of study, and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. Their studies may well have had a vocational orientation, for example HNDs, enabling them to perform effectively in their chosen field. Holders of qualifications at this level will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

These degrees are awarded to students who have demonstrated:

- knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed (all Level 4 and Level 5 modules)
- ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context (SO 3009, HT 3113, HT 3115, HT 3139, PH 3005, MG 3034)

III. Bachelor’s – BSc(Ord) – in International Tourism and Hospitality Management

Students that exit the programme upon completion of Levels 4 and 5 (having obtained 120 credits at each level) and have obtained a minimum of 60 credits at Level 6 will be eligible for the award of an ordinary Bachelor’s – BSc(Ord) – in International Tourism and Hospitality Management. Typically, students will have obtained at least 60 credits at Level 6 by completing 4 of the compulsory modules, excluding HT 4747 Dissertation in Tourism and Hospitality.

Holders of the qualification will have:

- knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study (BU 3233)
- an understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge (BU 3233)

Typically, holders of the qualification will be able to:

- use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis (all Level 5 modules)
- effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively (all Level 5 modules)
- undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organisations (HT 3115, HT 3139, PH 3005).

And holders will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making (all Level 5 modules).

- Basic principles, functions, context, importance and impact of logistics and supply chain management (LM 2020)
In addition, holders of the Certificate of Higher Education in Logistics and Supply Chain Management will have the following cognitive, practical/professional and key/transferable skills:

• Locate, extract, evaluate and analyse data from academic and non-academic resources, and acknowledge source material in the appropriate academic convention. (IB 2006, MG 2063, MK 2030)
• Assess the moral and ethical dimensions of actions, persons, and business practices and develop an awareness of, and framework for, ethical decision-making. (BU 2003, IB 2006, LM 2020, MG 2030)
• Apply numeric skills in solving problems of increasing complexity and with increasing autonomy as students progress through the curriculum. (AF 2006, MA 2021)
• Make use of Information Technology effectively to retrieve, process, analyze and communicate information. (AF 2007, MA 2021)
• Apply qualitative and/or quantitative methods and tools in analyzing and solving financial and managerial problems. (MA 2021)
• Communicate ideas effectively orally and/or in writing in a professional context. (IB 2006, MG 2063, MK 2030)
• Apply self-management skills including a capacity to plan, organize and manage time. (All modules)
• Take responsibility for own actions in an academic and professional context. (All modules)
• Reflect on the broader scope and value of learning and become an independent lifelong learner. (All modules)

II. Diploma of Higher Education in Logistics and Supply Chain Management

Upon completion of levels 4 and 5 (240 credits or 16 modules), students will be able to i) recognize and be familiar with key theories, concepts and techniques from the generic business management area and their application to the management of supply chains, ii) apply basic statistical techniques to business, iii) be familiar with the basic concepts and principles in Logistics and Supply Chain Management, iv) demonstrate awareness of moral theories and ethical issues and evaluate their impact on business decision making, v) demonstrate knowledge of the international environment in which the logistics business operates and of the implications that this brings to business management, vi) apply their knowledge of business functions and business ethics to solving complex problems in business administration.

Holders of the Diploma of Higher Education in Logistics and Supply Chain Management will be able to:

• Demonstrate knowledge and understanding of the external business environment.
• Demonstrate knowledge and understanding of business functions.
• Demonstrate knowledge and understanding of logistics and supply chain management as a distinct area of economic activity.
• Analyse business concepts, functions and processes and relate them to the logistics and supply chain management sector.
• Demonstrate ability to apply quantitative and qualitative research and analysis in dealing with business situations.
• Analyse ethical issues in business.
• Make use of knowledge, skills and tools in making decisions across a broad range of issues related to logistics and supply chain management.

Specifically, holders of the Diploma of Higher Education in Logistics and Supply Chain Management will be able to demonstrate knowledge and understanding of:

• Key operational concepts and principles (MG 2063)

In addition, holders of the Diploma of Higher Education in Logistics and Supply Chain Management will have the following cognitive, practical/professional and key/transferable skills:

• Articulate and explain terms, concepts and theories in a relevant knowledge area effectively. (All modules)
• Locate, extract, evaluate and analyse data from academic and non-academic resources, and acknowledge source material in the appropriate academic convention. (IB 2006, MG 2063, MK 2030, BU 2003, CS 2051, LM 3025, LM 3030, LM 3045, MG 3034)
• Assess the moral and ethical dimensions of actions, persons, and business practices and develop an awareness of, and framework for, ethical decision-making. (BU 2003, IB 2006, LM 2020, MG 2003, LM 3030, LM 3045, MG 3034, PH 3005)
• Critically analyse, evaluate and apply a range of options for resolving complex issues or problems. (BU 3233, CS 3051, FN 3105, LM 3025, LM 3030, LM 3045)
• Apply numeric skills in solving problems of increasing complexity and with increasing autonomy as students progress through the curriculum. (AF 2007, MA 2021, FN 3105)
• Make use of Information Technology effectively to retrieve, process, analyze and communicate information. (AF 2007, MA 2021, BU 3233, CS 3051, FN 3105)
• Apply qualitative and/or quantitative methods and tools in analyzing and solving financial and managerial problems. (MA 2021, BU 3233, CS 3051, FN 3105)
• Communicate ideas effectively orally and/or in writing in a professional context. (IB 2006, MG 2063, MK 2030, BU 3233, CS 3051, LM 3025, LM 3030, LM 3045, MG 3034)
• Demonstrate interpersonal, teamwork and/or leadership skills and the ability to work effectively with others. (BU 3233, LM 3025, LM 3030)
• Apply self-management skills including a capacity to plan, organize and manage time. (All modules)
• Take responsibility for own actions in an academic and professional context. (All modules)
• Reflect on the broader scope and value of learning and become an independent lifelong learner. (All modules)

III. BSc in Logistics and Supply Chain Management

Upon completion of 300 credits (20 modules, including four Level 6 modules), students will be able to i) recognize and be familiar with key theories, concepts and techniques from the generic business management and economic areas and their application to the management of supply chains, ii) demonstrate specialized knowledge of the field of Logistics and Supply Chain Management, iii) demonstrate specialized knowledge of key management functions, processes and operations, iv) demonstrate awareness of moral theories and ethical issues and evaluate their impact on business decision making, vii) demonstrate knowledge of the international environment in which the logistics business operate and of the implications that this brings to business management, vii) demonstrate basic knowledge and understanding of quantitative and qualitative methods and tools used to conduct research in the field of Logistics and Supply Chain Management, viii) demonstrate critical awareness of and sensitivity to ethical issues in logistics, along with a strong sense of personal integrity and social responsibility, ix) apply their detailed knowledge of business functions to evaluating and solving complex, unstructured problems in Logistics and Supply Chain Management with minimum guidance.

Holders of the B.Sc in Logistics and Supply Chain Management will be able to:
• Demonstrate knowledge and understanding of the external business environment.
• Demonstrate knowledge and understanding of business functions.
• Demonstrate knowledge and understanding of logistics and supply chain management as a distinct area of economic activity.
• Analyse business concepts, functions and processes and relate them to the logistics and supply chain management sector.
• Demonstrate ability to apply quantitative and qualitative research and analysis in dealing with business situations.
• Analyse ethical issues in business.
• Make use of knowledge, skills and tools in making decisions across a broad range of issues related to logistics and supply chain management.
• Integrate and evaluate theoretical concepts and paradigms with particular reference to logistics and supply chain management.
• Evaluate information from a variety of sources in and related to the logistics and supply chain sector, assess its relevance and application to practical problems and formulate, recommend and implement solutions under diverse circumstances.
• Design and carry out research related to logistics and supply chain management.

Specifically, holders of the B.Sc. in Logistics and Supply Chain Management will be able to demonstrate knowledge and understanding of:
• Key operational concepts and principles (MG 2063)
• Basic tools in statistics (MA 2021)
• The legal environment for business (BU 2003)
• The evolving international business environment and key theories and concepts of international trade (IB 2006)
• Management theories, concepts, principles and practices (MG 2003)

• Accounting transactions and non-complex financial statements (AF 2007)
• Marketing theories, concepts and principles (MK 2030)
• Basic principles, functions, context, importance and impact of logistics and supply chain management (LM 2020)

Additionally, holders of the B.Sc. in Logistics and Supply Chain Management will be able to demonstrate detailed knowledge and critical understanding of:
• Organizational Behavior and Human Resource Management theories and practices (MG 3034)
• Moral theories and ethical issues which have an impact on business decision making (PH 3005)
• Key elements, processes and functions of logistics systems (LM 3025)
• Theories, processes and practices related to procurement (LM 3045)
• Financial management tools and their applications to practical problems (FN 3105)
• The role of information systems in business decision making (CS 3051)
• Key elements of transportation systems and intermodal shipping networks (LM 3030)
• Research design, methods and tools (BU 3233)

Finally, holders of the B.Sc. in Logistics and Supply Chain Management will be able to demonstrate in-depth knowledge and critical understanding of:
• The nature, role and use of supply chains to create competitive advantage (LM 4242)
• Decision making techniques in an uncertain environment and evaluation of decisions and/or recommendations made by specialists (MG 4129)
• Contemporary issues in supply chain management in the digital era (LM 4447)
• Project management principles and techniques (MG 4057)

In addition, holders of the B.Sc. in Logistics and Supply Chain Management will have the following cognitive, practical/professional and key/transferable skills:
• Articulate and explain terms, concepts and theories in a relevant knowledge area effectively. (All modules)
• Locate, extract, evaluate and analyse data from academic and non-academic resources, and acknowledge source material in the appropriate academic convention. (IB 2006, MG 2063, MK 2030, BU 3233, CS 3051, LM 3025, LM 3030, LM 3045, MG 3034, LM 4242, LM 4447, MG 4057, MG 4129)
• Assess the moral and ethical dimensions of actions, persons, and business practices and develop an awareness of, and framework for, ethical decision-making. (BU 2003, IB 2006, LM 2020, MG 3025, LM 3030, LM 3045, MG 3034, PH 3005, LM 4242, LM 4447, MG 4129)
• Critically analyse, evaluate and apply a range of options for resolving complex issues or problems. (BU 3233, CS 3051, FN 3105, LM 3025, LM 3030, LM 3045, LM 4242, LM 4447, MG 4057, MG 4129)
• Evaluate the connections and interrelationships that exist across different subject areas. (LM 4447, MG 4057, MG 4129)
• Judiciously employ qualitative and/or quantitative reasoning in supporting evidence-based decision-making. (MG 4057, MG 4129)
• Apply numeric skills in solving problems of increasing complexity and with increasing autonomy as students' progress through the curriculum. (AF 2007, MA 2021, FN 3105)
• Make use of Information Technology effectively to retrieve, process, analyze and communicate information. (AF 2007, MA 2021, BU 3233, CS 3051, LM 4242, LM 4447, MG 4057)
• Apply qualitative and/or quantitative methods and tools in analyzing and solving financial and managerial problems. (MA 2021, BU 3233, CS 3051, FN 3105, MG 4057, MG 4129)

School of Business and Economics
I. Certificate in Higher Education (CertHE) in Management Information Systems

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Management Information Systems will have a sound knowledge of the basic concepts of Management Information Systems and will have learned how to apply different technologies to solving problems required in business functions. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of personal responsibility.

Certificates in Higher Education in Management Information Systems are awarded to students who have demonstrated:

i) knowledge of the underlying concepts and principles associated with all Management Information Systems functions, and an ability to evaluate and interpret these within internal and external business contexts;
ii) an ability to retrieve, analyse, interpret, and present qualitative and quantitative data, to develop lines of argument and make sound judgments in accordance with basic theories and concepts of Management Information Systems.

Typically, holders of the qualification will be able to:

- a) apply a wide variety of Management Information Systems theories and concepts to solving basic business-related problems;
- b) communicate the results of their study/work accurately and reliably, with coherent arguments, orally and in writing;
- c) undertake further training and develop new skills within a structured and managed environment; and
- d) qualities and transferable skills necessary for employment requiring the exercise of personal responsibility.

Specifically, holders of the Certificate in Higher Education in Management Information Systems will be able to demonstrate knowledge and understanding of:
- Core economic concepts and principles
- Basic tools in statistics
- The legal environment for business
- Management theories, concepts, principles and practices
- The fundamentals of marketing research and marketing strategy
- Accounting transactions and non-complex financial statements
- Business functional and cross-functional information systems.

In addition, they will have the following cognitive, practical/professional and key/transferable skills:
- Locate, extract, and analyse data from library and other resources including the acknowledgement and referencing of sources
- Interpret, analyse, and solve structured problems, and to a limited extent unstructured problems
- Develop and critically evaluate arguments and evidence including identifying assumptions and detecting false logic
- Analyse and evaluate ethical choices in business
- Recognize and analyse the requirements and practical constraints of different types of information systems
- Use numeric skills, including quantitative financial techniques, in solving complex problems
- Use information technology effectively to retrieve, process, analyse and communicate information with guidance

II. Diploma in Higher Education (DipHE) in Management Information Systems

Upon completion of levels 4 and 5 (240 credits or 16 modules), students will be able to:

i) recognize and be familiar with key business functions and the impact of the external environment on business,
ii) apply basic statistical techniques to business,
iii) demonstrate detailed knowledge of theories, models, tools, and practices of finance and accounting, management, and information systems,
iv) apply their detailed knowledge of business functions to evaluating and solving complex, unstructured problems in information systems.

Holders of the Diploma in Higher Education in Management Information Systems will be able to demonstrate knowledge and understanding of diverse business functions and environments as well as detailed knowledge and critical understanding of specific fields like economics, law and marketing.

Additionally, holders of the Diploma in Management Information Systems will be able to demonstrate detailed knowledge and critical understanding of statistical techniques and tools, management theories, concepts, principles and practices, financial accounting as well as finance theories, concepts, principles and practices and their applications to practical problems, moral theories and ethical issues which have an impact on business decision making, and information systems to support operations and processes with customers, suppliers, partners and employees.

In addition, they will have the following cognitive, practical/professional and key/transferable skills:
- Locate, extract, and analyse data from library and other resources including the acknowledgement and referencing of sources
- Interpret, analyse, and solve structured problems, and to a limited extent unstructured problems, from a generated data set
- Develop and critically evaluate arguments and evidence including identifying assumptions and detecting false logic
- Analyse and evaluate ethical choices in business
- Apply critical thinking to create, evaluate and assess a range of options in solving complex problems
- Recognize and analyse the requirements and practical constraints of different types of information systems
- Apply appropriate theory, practices and tools to address design and implementation issues of information technology related problems
- Exhibit reasoning ability and creativity to address a given problem
- Use numeric skills, including quantitative financial techniques, in solving complex problems
- Use information technology effectively to retrieve, process, analyse and communicate information with guidance
- Relate the importance of people management within projects in terms of resource allocation, leadership, teamwork, and motivation
- Specify, design and construct solutions involving programming to given problems
• Determine the risks, controls and safety measures in the use of computing technologies.
• Communicate ideas successfully orally and in writing, and to adapt message content to a particular audience and medium of communication in a professional context.
• Develop interpersonal, teamwork and/or leadership skills and work effectively with others in small groups or teams.
• Reflect intellectual and function as an independent, self-managed lifelong learner.

III. B.Sc. (Ord) in Management Information Systems

Upon completion of 300 credits (20 modules, including four Level 6 modules), students will be able to: i) recognize and be familiar with key business functions and the impact of the external environment on business, ii) apply basic statistical techniques to business, iii) demonstrate detailed knowledge of theories, models, tools, and practices of finance and accounting, management, and information systems, iv) apply their detailed knowledge of business functions to evaluating and solving complex, unstructured problems in information systems with minimum guidance.

Holders of the ordinary BSc in Management Information Systems will be able to demonstrate knowledge and understanding of diverse business functions and environments as well as detailed knowledge and critical understanding of specific fields like economics, law and marketing.

Additionally, holders of the ordinary BSc in Management Information Systems will be able to demonstrate detailed knowledge and critical understanding of:

• Statistical techniques and tools
• Logistics and management theories, concepts, principles and practices
• Financial accounting; as well as finance theories, concepts, principles and practices and their applications to practical problems
• Moral theories and ethical issues which have an impact on business decision making
• Application of tools, technological aspects, and techniques for information systems analysis and design
• Use of information systems to support operations and processes with customers, suppliers, partners and employees
• Selection, design, and application of several interdisciplinary project management techniques in order to ensure highly effective and efficient project outcomes.

In addition, they will have the following cognitive, practical/professional and key/transferable skills:

• Locate, extract, and analyse data from library and other resources including the acknowledgement and referencing of sources
• Interpret, analyse, and solve structured problems, and to a limited extent unstructured problems
• Develop and critically evaluate arguments and evidence including identifying assumptions and detecting false logic
• Analyse and evaluate ethical choices in business
• Apply critical thinking to create, evaluate and assess a range of options in solving complex problems
• Recognize and analyse the requirements and practical constraints of different types of information systems
• Analyse the extent to which an information system meets the requirements defined for its current use and sustainability
• Apply appropriate theory, practices and tools to address design and implementation issues of information technology related problems
• Exhibit reasoning ability and creativity to address a given problem

• Use numeric skills, including quantitative financial techniques, in solving complex problems
• Use information technology effectively to retrieve, process, analyse and communicate information with guidance
• Use quantitative tools in analysing and solving financial and managerial problems
• Relate the importance of people management within projects in terms of resource allocation, leadership, teamwork, and motivation
• Specify, design and construct solutions involving programming to given problems
• Determine the risks, controls and safety measures in the use of computing technologies
• Synthesise prior acquired knowledge to analyse and design information systems for business
• Communicate ideas successfully orally and in writing, and to adapt message content to a particular audience and medium of communication in a professional context
• Develop interpersonal, teamwork and/or leadership skills and work effectively with others in small groups or teams.
• Reflect intellectual and function as an independent, self-managed lifelong learner.
## MARKETING EXIT AWARDS

### I. Certificate in Higher Education in Marketing

In accordance with the framework for higher education qualifications, the holder of a Certificate of Higher Education in Marketing will have a sound knowledge of the basic concepts of Marketing and will have learned how to take different approaches to solving problems. He or she will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

Certificates of Higher Education in Marketing are awarded to students who have demonstrated:

1. Knowledge of the underlying concepts and principles associated with Marketing, and an ability to evaluate and interpret these within the context of Marketing;
2. An ability to present, evaluate, and interpret qualitative and quantitative data, to develop lines of argument and make sound judgements in accordance with basic theories and concepts of Marketing.

Typically, holders of the qualification will be able to:

1. Evaluate the appropriateness of different approaches to solving problems related to Marketing;
2. Communicate the results of their study/work accurately and reliably, and with structured and coherent arguments;
3. Undertake further training and develop new skills within a structured and managed environment; and will have:
4. Qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

Upon completion of level 4 (120 credits or 8x15-credit modules), students will be able to:

1. Recognize and be familiar with key marketing concepts that are present in both everyday as well as professional decision making;
2. Apply basic mathematical techniques to marketing topics, thus aligning theory to practice.

Specifically, holders of the Certificate of Higher Education in Marketing will be able to demonstrate:

- Knowledge and understanding of the external environment and its impact on business (EC 1101, BU 2003)
School of Business and Economics

- Knowledge and understanding of relevant business functions (MG 2003, MK 2030, AF 2007, CS 2179)
- Knowledge and understanding of methodological approaches, frameworks, and tools in conducting research in a business context (MA 2021, MA 2105)

In addition, they will have the following cognitive skills:
- Ability to apply critical thinking to create, evaluate and assess a range of options in solving complex marketing problems (MG 2003, AF 2007, MK 2030, CS 2179)

Holders of the Certificate of Higher Education in Marketing will also have the following practical/professional skills:
- Ability to use quantitative and qualitative methods and tools in analyzing, solving marketing problems, and communicate information (AF 2007, MA 2021, MA 2105, MK 2030, CS 2179)

... and the following key/transferable skills:
- Ability to demonstrate effective written and oral communication skills in different business settings (MK 2030, CS 2179)

II. Intermediate level

The intermediate level includes the Diploma of Higher Education in Marketing and the ordinary (non-Honours) degree in Marketing.

In accordance with the framework for higher education qualifications, holders of qualifications at this level will have developed a sound understanding of the principles in Marketing and will have learned to apply those principles more widely. Through this, they will have learned to evaluate the appropriateness of different approaches to solving problems. They will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

Non-Honours degrees are awarded to students who have demonstrated:

(i) Knowledge and critical understanding of the well-established principles of Marketing and of the way in which those principles have developed;
(ii) Ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context;
(iii) Knowledge of the main methods of enquiry in Marketing and ability to evaluate critically the appropriateness of different approaches to solving problems in Marketing;
(iv) An understanding of the limits of their knowledge, and how this influences analyses and interpretations based on that knowledge.

Typically, holders of the qualification will be able to:

[a] Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis;
[b] Effectively communicate information, arguments, and analysis, in a variety of forms, to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively;
[c] Undertake further training, develop existing skills, and acquire new competences that will enable them to assume significant responsibility within organisations; and will have:
[d] Qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

II.a. Diploma of Higher Education in Marketing

Upon completion of levels 4 and 5 (240 credits or 16x15-credit modules), students will be able to (i) recognize and be familiar with key marketing concepts that are present in both everyday as well as professional decision making; (ii) apply basic mathematical techniques to marketing topics, thus aligning theory to practice; (iii) demonstrate detailed knowledge of theories, models, and tools of marketing; (iv) analyze and evaluate major policy debates; (v) analyse and report on marketing data; (vi) communicate effectively analysis of specific marketing issues.

Specifically, holders of the Diploma of Higher Education in Marketing will be able to demonstrate detailed knowledge and critical understanding of:
- the external environment and its impact on business (PH 3005)
- relevant business functions (FN 3105)
- methodological approaches, frameworks, and tools in conducting research in a business context (BU 3233)

1. An honours graduate in sport-related courses is able to understand and explain human responses to sport, exercise and/or performance in its social, health-related, environmental, managerial and/or performance contexts. The following learning outcomes reflect the five areas of focus for courses in sport described in paragraph 3.20. Depending on the nature of their individual course, honours graduates demonstrate achievement of the outcomes from at least one area.

   1. An honours graduate in sport-related courses is able to understand and explain human responses to sport and exercise, including being able to:
      • make effective use of knowledge and understanding of the disciplines underpinning human structure and function
      • critically appraise and evaluate the effects of sport and exercise intervention on the participant
      • demonstrate the skills required to monitor and evaluate human responses to sport, exercise and/or rehabilitation
      • critically appreciate the relationship between sport and exercise activity and intervention in a variety of participant groups, this could include special populations such as older adults, disabled people, people with a chronic disease and children.

   2. An honours graduate in sport-related courses is able to understand and critically appraise the study of the performance of sport and its enhancement, monitoring and analysis, including being able to:
      • monitor, analyse, diagnose and prescribe action to enhance the learning and performance of the component elements of sport, including, where appropriate, injury diagnosis and treatment, in ways underpinned by current research
      • evidence the skills required to monitor and evaluate sports performance in laboratories and/or field settings
      • display a critical appreciation of the integration of the variables involved in the delivery (teaching, instructing and coaching) of enhanced sport performance.

3. An honours graduate in sport-related courses is able to demonstrate an understanding of the health-related and disease management aspects of exercise and physical activity, including being able to:

   • display an awareness of current government policy on disease prevention and the relevance of exercise
   • demonstrate an ability to monitor health through exercise and prescribe appropriate interventions
   • display a broad range of skills, including awareness of health and safety, ethical considerations, exercise prescription, population differences and the role of education, health and sports bodies in improving the health of the nation.

4. An honours graduate in sport-related courses is able to understand the influence of the historical, social, political, economic and cultural diffusion, distribution and impact of sport, including being able to:

   • demonstrate a critical insight into the organisations and structures responsible for sport, the political ramifications arising from these and their impact on the funding and delivery of sport
   • employ social, economic and political theory to explain the development and differentiation of sport throughout society
   • demonstrate the application of the social and cultural meanings attached to sport and their impact on participation and regulation.

5. An honours graduate in sport-related courses is able to recognise, understand and critically reflect upon the policy, planning, management and delivery of sporting opportunities, including being able to:

   • understand and apply the theories, concepts and principles of practice from the generic management areas of operations, finance, human resources, economics and marketing to sports facilities and events in the voluntary, public and private sector
   • employ strategic planning and development planning skills in analysing, understanding and addressing the development needs and intentions of sport organisations and communities
   • demonstrate a critical appreciation of sport development and facilitation principles in at least one vocational context.
   • In relation to the above framework, the following paragraphs demonstrate the coverage of these requirements at the different stages of the students’ progression in the programme by relating them to the content and assessment of modules delivered at each level of study.

   In accordance with the framework for higher education qualifications, holders of a Certificate of Higher Education in Sports Management will have a sound knowledge of the basic concepts of General Business and Management and will have learned how to apply different business functions to solving problems. They will have introductory knowledge in sports as field of study and in Sports Management. They will be able to communicate accurately and will have the qualities needed for employment requiring the exercise of some personal responsibility.

   The Quality Assurance Agency’s Quality Code for Higher Education in relation to the ‘Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies’ (November 2014) specifies that students who exit a Bachelor’s programme prior to completing its full requirements are eligible to receive an exit award subject to the coverage of specific learning outcomes. Depending on the extent of coverage of these learning outcomes, students may receive a Certificate of Higher Education (CertHE), Diploma of Higher Education (DipHE), or ordinary Bachelor’s degree (BSc(Ord)).

   This Appendix details the exact requirements for the award of one of the above exit qualifications based on QAA’s generic specifications of each Level’s requirements, as well as the relevant Subject Benchmark Statements corresponding to Sports Management.

   Specifically, an honours graduate in sport-related courses is able to critically appraise and evaluate sport in its social, health-related, environmental, managerial and/or performance contexts. The following learning outcomes reflect the five areas of focus for courses in sport described in paragraph 3.20. Depending on the nature of their individual course, honours graduates demonstrate achievement of the outcomes from at least one area.

   1. An honours graduate in sport-related courses is able to understand and explain human responses to sport and exercise, including being able to:

Facilities
Facilities

Campus

The Aghia Paraskevi Campus
The American College of Greece’s main campus is located in Aghia Paraskevi, an eastern suburb of Athens. The campus contains the following buildings and facilities: The Deree main building, the Communication building, the Center for the Arts building, the Library, the Athletic Complex, the College Chapel, the Open Air Theatre, and Residence buildings. In addition, the campus houses Pierce, ACG’s high school.

The Athletic Complex
Deree - ACG has an athletic complex of international scope and standards. Its gymnasium is built on three levels and includes on the main level two cross-court basketball/volleyball areas, one game court. A modern fitness center and three dance aerobics studios are located on the lower level of the gym. The top level includes the Office of Athletics and a sports lounge area. The outdoor facilities consist of an Olympic-size heated outdoor swimming pool, 6-lane synthetic 400 meter track, soccer field surfaced with synthetic turf and environmental friendly cork infill, and four acrylic latex tennis courts. All outdoor athletic areas are lighted. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and wellness. The athletic complex houses a robust physical activities program which includes intercollegiate athletics, intramural sports, physical education, and fitness non-credit classes.

The Black-Box Theatre
The studio theatre is the simplest form of theater space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

The Center for the Arts
The Center for the Arts, a 1,900-square-meter three-story building, includes gallery space for exhibitions, classrooms specially designed for the teaching of painting and sculpture, rooms for music performance practice, a state-of-the-art computer lab, a Starbucks coffee shop and an atrium for outdoor displays and events.

The College Chapel
A Byzantine-style chapel, on a slope overlooking the Aghia Paraskevi campus, serves the College community on occasions such as christenings and weddings. Students may also visit the chapel for meditation and quiet reflection.

The Communication Building
The Communication Building houses a Black box theatre, appropriately designed classrooms, labs and workspaces, and faculty offices. The Black-Box Theatre is the simplest form of theatre space, its interior consisting merely of four walls covered with black velour. Stage settings are spartan, with only a few scenic pieces and props highlighted by ceiling lights against the black velour surround.

ACG Health & Wellness Center
The ACG Health & Wellness Center consists of the Pierce and Deree infirmaries offering first aid, and referral to specialists and wellness coaching in the Wellness Coordinator’s office at Deree.

Library

John S. Bailey Library, named in honor of the College’s sixth president, provides extensive print, electronic and audio-visual resources in support of the College’s academic programs.

The library building features a variety of spaces including a large open reading area, individual and group study rooms, two activity classrooms, individual study carrels, comfortable seating, a café and informal meeting space, offering a welcoming environment for students to do research, study, and connect with peers. In addition, a digital museum showcases the history of the school as well as digital collections and projects.

A wealth of resources including over 115,000 print books, over 620,000 e-books, 49,000 journals and magazines, 780 music CDs, a large collection of digital images, 2 streaming video collections, as well as databases providing access to statistical data, reports, electronic encyclopedias, handbooks, dictionaries and more, is available to all students and academic staff. The library website (library.acg.edu) serves as the main information portal where users can access these resources, as well as an array of online tools and tutorials. A discovery service offers a powerful tool to users to search all library resources through a single search box. Most electronic resources are also available remotely.

Specialized personnel provide individual research assistance and offer training sessions on the use of the library, the library discovery system and the online resources and tools. Information literacy skills workshops are incorporated into Writing Program courses that students are required to complete. Special information literacy sessions are also organized for the needs of specific courses or disciplines.

Library resources are complemented with an extensive document delivery service through libraries around the world as well as pay-per-view and document supply services from publishers and vendors.

An array of media services is also available to students and faculty. The Media Center houses the library’s audio-visual and multimedia collections and provides equipment for viewing and listening.

The Library provides 32 computer stations with access to the library resources, and the internet as well as software such as Microsoft Office and SPSS Statistics and two multi-function printers with printing, photocopy and scanning facilities. Wireless access is available in all areas of the library for users to connect through their laptops, tablets, or hand-held devises.
Student support, guidance and advice
Student support, guidance and advice

STUDENT SERVICES

Orientation
All new students participate in an orientation program as they begin their first semester at the College. The orientation program is designed to introduce them to the campus, the academic system, College regulations and policies, and student life.

Student Success Center (SSC)
The Student Success Center supports students by offering comprehensive, integrated services in the areas of academic advising, OU validation, student records, registration, and payments, all in one-stop area. The center is committed to providing students with consistent, high-quality service, both in person and through technology. It aims to create the optimum conditions for students to follow the path to academic success.

Students may visit the Student Success Center to pay a bill, request a certificate, obtain a form, arrange to bring a visitor on campus, obtain their transcript, see an academic advisor, ask about OU validation, change a course, and obtain or replace their student ID.

The SSC web page has been set up to reflect the one-stop concept of the Center and includes information from different departments. It may be accessed from “Quick Links” on the ACG homepage (www.acg.edu) and allows students to print forms or view the academic calendar, academic policies, final exams schedule, course schedule, graduation instructions, major requirements, frequently asked questions (FAQs), the e-mail directory, and financial aid and international student information. From the SSC web page students can log on to the myACG portal, where they can print their personal course schedule and their unofficial transcript. To log on, students need to go to the SSC to get their PIN, which is private, should not be shared with anyone, and will be given to students only if they have no obligations (business office, library, or academic advising).

Academic Advising
All students are assigned an academic advisor responsible for assisting them in gaining the greatest benefit from their educational experience at the College. Good academic advising is a vital part of the learning process and an integral part of the basic teaching function of the College.

Effective academic advising provides specific aid to students in considering and completing academic programmes, but it goes beyond mere course scheduling: it includes planning, decision making, implementation, and evaluation of academic, personal, and career-related matters, and exploration. The College assigns all entering freshmen a First-Year advisor from the Office of Academic Advising. Thereafter, the advising program is faculty-based and fosters personal contact between students and faculty. Department heads, assistant department heads and area coordinators act as educational consultants.

New incoming students and continuing Deree - ACG students are required to consult every semester and during the announced advising period with an advisor at the Office of Academic Advising.

Advisors never make decisions for students. Their overriding objective is to assist students in developing the maturity required to make their own choices and to be responsible for the consequences of those choices.

Office of the Registrar
The Office of the Registrar is principally responsible for all aspects of the registration process, including the preparation of schedule material, demographic updates, registration, scheduling, and processing of student grades. Such information is available on the College website.

Students become officially registered through the WEB. During designated dates and times, stipulated by the Registrar’s Office, students may use their College ID and pin number to log on to the WEB Registration system and register. Students without Internet access off campus may use the campus computers. Students may register late only during the late registration period as stipulated for each semester/session by the Registrar’s Office.

The Validation Office
The Validation Office (Deree-OU) is responsible for all logistics regarding validation of Deree College academic programs and modules validated by The Open University, UK. It also functions as the liaison between The Open University, the external examiners, and Deree academic departments, Academic Council, Registrar’s Office, Academic Advising, Curriculum Committee, Committee on Academic Standards and Policies (CASP), and program committees. The executive director of the Validation Office in their role as a member of the Academic Council ensures that all policies, processes, and procedures pertaining to validation are followed.

Moreover, the executive director of the Validation Office acts as the first contact person for students wishing to transfer credits from US regionally accredited colleges/universities, UK universities or from other accredited institutions of higher education in Greece and abroad, or request an evaluation of their prior learning for credit (transfer credit). At admissions level, the executive director checks the academic credentials of prospective international incoming or prospective transfer students.

Deree students must visit the Validation Office ahead of time when they plan to study for a semester/year abroad and transfer the earned credits back to Deree College.

Services for the Physically Challenged
Services, such as access to parking for the physically challenged, are available to students to assist them while on campus. Please contact the Student Success Center for further information.

The Office of Student Affairs
The Office of Student Affairs is dedicated to promoting student development and to continually improving the quality of student life. Through programmes, services, and activities, the office attempts to assist students in active learning, to help them develop values and ethical standards, and to forge partnerships to advance the learning experience.

Financial Assistance and Planning
In order to assure the continuing quality of our academic programmes as well as access for students and their families to these programmes, the College, through the Office of Financial Assistance and Planning, is committed to supporting students who demonstrate financial need and academic promise.

The Financial Assistance Program at Deree provides several types of financial aid based on need and/or academic achievement. The fundamental philosophy of our Financial Assistance Program is that lack of funds should never prevent academically qualified students from receiving a quality education. Funding for financial assistance comes from the College’s own resources and from generous contributions by donors.
Financing a college education can be a daunting prospect, and the College is committed to helping students and their families understand the available financial aid programmes and assist in finding ways to meet college expenses.

For detailed information relating to grants, scholarships and other forms of financial assistance please consult the Financial Assistance section of the College’s website.

Student Academic Support Services

Student Academic Services (SASS) is an academic service vital to the educational experience of Deree students. Through one-to-one and group workshop-style sessions, SAS learning facilitators support skills development of Deree students across all schools. Through a learner-centered, non-instructional approach, facilitators promote individual development and respond to the needs of each student.

The Office of Career Services

The Office of Career Services assists students and alumni of all the divisions of The American College of Greece in developing fulfilling and rewarding careers. Its goal is to ensure that their academic investment in skills and knowledge is effectively integrated into their future career path. Through individual advising sessions with the staff, special computerized programmes, and an extensive library of resource materials, students who are uncertain about a major or career direction can more sharply define their interests, skills, and personal characteristics to better plan for their future.

Career Services also helps students formulate a strategy to make the most of their studies before they graduate. Such a strategy, encompassing activities like work experience, volunteerism, and campus involvement, can strongly affect a student’s employability. Thus, the office encourages all students to begin their career planning early, during their freshmen and sophomore years and prior to declaring a major to ensure there is adequate consideration, planning, and preparation for their career path.

Career Advising: One-to-One Appointments

We provide individual half-hour advising sessions scheduled to talk about career path planning, building a resume, job search strategies, interview preparation, and interview techniques. We work with students by exploring the issues they have and developing strategies and an action plan appropriate to them.

Graduate Studies Advising: One-to-One Appointments

We provide individual half-hour advising appointments scheduled to talk about students’ plans for further graduate studies, graduate school search, application personal statements and the application process.

Choosing a Major

If you are undecided about your major or are thinking of adding a second major to your degree, schedule a half-hour session to take an online internationally recognized self-report test that helps identify strengths and personality preferences, and then meet with a career advisor to discuss the results and apply them toward selecting your major.

Skills Workshops

Throughout the academic year we offer Interview skills and job search workshops, as well as graduate studies workshops.

Connecting with the Market

Various activities and programmes which connect the students with the job market such as Company Visitation Day, company presentations on campus, mock-interviews, job shadowing program.

Career Planning e-Tools

JobBank

A database of a variety of part time and trainee positions offered to current Deree students who wish to enter the job market.

Sigil

A software that examines key motivators and matches work-related values, interests, personality, and skills to educational and career pathways. Individuals explore a range of options based on their personal choices.

Goinglobal

A database containing country-specific career and employment resources to facilitate finding jobs and internships in 35 countries. Topic areas include: job search resources, work permit/visa regulations, country specific resume guidelines and examples, interview and cultural advice, employment outlook/industry trends, professional and social networking groups.

The Deree Student Association

The Student Association is committed to strengthening the ties between students and their alma mater: creating a heightened sense of school spirit. It strives to provide responsible leadership through fair, democratic representation of students’ needs and interests to the College administration and to promote equality and unity on campus among the student population.

Co-Curricular Activities

Co-curricular activities include social, cultural, recreational, and other student pursuits. Events such as exhibits, tournaments, and symposia, as well as dances, plays, and athletic activities, extend into the late afternoon and evening hours.

Social, Cultural, and Recreational Clubs

Clubs are formed according to student interests. The names of clubs are self-defining in both activity and scope: AFCEA Club, Algorithms and Programming Club, Arts and Crafts Club, Astronomy Club, Better Days for Strays Club, Book Club, Broadway Club, Cyber Club, Dance Club, Debate Club, Deree Advertising Club, Diversity & Inclusion Club, Entrepreneurship and Innovation Club, Fashion Club, Film Club, Gaming Club, Inside Autism Club, Investment Club, MUN Club, Music Club, Public Relations Club, SDG – Sustainable Development Goals Student Program, Self-Awareness & Meditation Club, Social Issues Club, Theater in the Making Club, Videography Club, Volunteer Club, Women Empowerment Club, Women in Technology and Science Club. Club activities are coordinated by the Office of Student Affairs. As a rule, an advisor or instructor with expertise in the area concerned offers guidance to each club. Students are free to join one or more of the clubs, depending on their interests and available time, as long as they are in good academic standing.

Educational and Field Trips

Educational and field trips may be planned within the context of any course or area of concentration. In accordance with Greek law, such trips are organized by instructors with the approval of the respective academic dean.

Cultural Events

The College sponsors a variety of cultural events throughout the academic year, including lectures, recitals, and art exhibitions. Lecturers from distinguished universities, diplomats, and scholars residing in Athens are invited to speak by student academic societies. The proximity of the College to the center of Athens provides...
many opportunities for cultural enrichment. Among these are concerts by the National Symphony Orchestra, performances by the National Opera Company, and concerts and operas at the Megaron Moussakis, the concert hall of Athens. In addition, there are dance and performance pieces that take place in the city’s remarkably large number of theatres, as well as at the internationally renowned Summer Festival of Athens. The classical ruins and superb museums in and around the city are an education in themselves.

Athletic Program

The athletic program offers a diversified approach to exercise designed to meet all the physical activity needs of the College community. Intercollegiate athletics (held at the local, national and international levels), intramural sports, physical education (credit and non-credit) and outdoor recreation offer the student a choice of programmes and provide opportunities for the development of sports participation, fitness and healthcare.

The intramural sports program offers a variety of team and individual sports competition between members of the College community. Tournaments last from one day to one semester and emphasize the fun aspect of sports.

Intercollegiate athletics teams offer opportunities to students to compete in basketball (men and women), soccer (men and women), volleyball (women), water polo (men), rugby (men), swimming (men and women), tennis (men and women), and cheerleading. Deree teams compete against other teams from athletic clubs and colleges and universities in Greece and abroad.

Group fitness classes (credit and non-credit) give students the opportunity to learn basic and intermediate skills in a variety of activities: aqua aerobics, pilates, yoga, zumba, total fitness, circuit training, ABS & legs, body sculpting, TRX.

The outdoor recreation program offers opportunities for hiking and camping, climbing outdoors, rafting, mountain biking, paintball, skiing and other alternative athletic activities. It offers students, staff and faculty opportunities to meet Greece’s majestic nature and appreciate a natural and simpler way of life.

Special events include a relay marathon, the International Sports Festival and participation in an international tournament.

ACG Health and Wellness Center

The ACG Health and Wellness Center provides accessible, high-quality first aid, advice, referral to specialists, wellness coaching and educational programming to meet the needs of members of the College community. It supports and encourages students, staff and faculty members to realize their optimal physical, emotional, social and intellectual goals through health promotion and disease prevention programs and services. It is the aim of this innovative service to assist members of the College community in cultivating their own healthy lifestyles that will follow them throughout the course of their college experience and beyond.

Through the Health and Wellness Center:

- Nurses are available Monday-Friday from 8:00-22:00 and are also available on Skype.
- The wellness coordinator is available for individual and group consultations as well as workshops on topics such as setting exercise goals, understanding eating patterns, making healthy food choices, addressing addictive habits such as smoking and excessive cell phone use, causes of stress and healthy ways to relieve it.
- The ACG Health and Wellness Center also researches developments in the areas of health, wellness and spirituality, fitness, and nutrition, and shares this with the ACG community through the Know the Facts series of brochures, announcements through educational displays and posts on Blackboard, the ACG website, social media.

Learning Support Services - The Educational Psychologist

The Educational Psychologist is the head of Learning Support Services at Deree - The American College of Greece and helps young adults who are experiencing problems within the educational setting with the aim of enhancing their learning. Challenges many include social or emotional problems or learning difficulties or other disabilities or other issues that may affect their learning. The educational psychologist offers psycho-educational intervention, coordination, and referral to other professionals. All services are provided confidentially and free of charge. We encourage students to consult the educational psychologist about educational matters that may concern them.

Food Services

The Aghia Paraskevi campus offers students a variety of food choices. There is a comfortable, modern lounge that offers healthy, freshly prepared meals and salads as well as music. There are vending machines for coffee, hot chocolate, and tea. An additional area for coffee and snacks is located on the deck of the Center for the Arts, and in the Black Box Theatre lounge.

The Advancement Office

The Advancement Office’s (AO) role is to continuously link the College and its over 65,000 Alumni community and to inform, engage, partner with, and secure financial support from diverse stakeholders through integrated strategically aligned communications, engagement programs, and philanthropic opportunities. Upon completing their first three credits, students automatically become lifetime members of the Alumni community at no cost to them. They are eligible to receive Alumni benefits and services, including invitations to Alumni in person and online events, participation in various programs and international alumni chapter events, access to career services, an alumni-led Mentoring Program, the Alumni platform ACG Connect and more. Students are encouraged to connect with Alumni through the Alumni /Students Communities available on the ACG Connect platform as well as through the mentoring program to establish a professional network early on and get valuable support through the expertise and experience of ACG Alumni.

The Advancement Office’s focus is to connect and engage alumni with ACG and each other to support ACG’s mission and goals. The Advancement Office is committed to forging strong relationships with the alumni body, increasing alumni giving, involvement, and advocacy, and highlighting alumni successes.

Philanthropic donations secured by the Advancement Office’s fundraising efforts help support much of what happens at ACG, including but not limited to student scholarships and financial assistance, student internships, campus renovations, capital projects, faculty research, and curriculum development. The Advancement Office is responsible for cultivating a culture of philanthropy among our students, alumni, families, and community partners that will help attract support and investment critical to the school’s long-term financial sustainability. Supporters have historically included Alumni, friends, corporations, U.S. government agencies, foremost USAID-ASHA, and foundations, such as the Stavros Niarchos Foundation, the John S. Latsis Public Benefit Foundation, AEGEAS Non-Profit Civil Company (AEGEAS CNPC) and the A.C. Laskaridis Charitable Foundation.

Note: The ACG CONNECT database and any information collected by ACG [more details on ACG Alumni Privacy Policy] are kept in accordance with the provisions of Regulation (EC) 2016/679 of the European Parliament and the Council («General Data Protection Regulation») and the Greek legislation on the protection of personal data (Law 4624/2019), as in effect from time to time (the «Personal Data Legislation»). Alumni can exercise the rights provided by the Personal Data Legislation. If Alumni have any related queries, they can contact the Data Protection Officer of The American College of Greece at dpo@acg.edu.
Work-Based Learning (Internship)
Information
Scope - Definitions

Work-based learning (Internship) can be defined as learning which normally takes place outside the school but which is credit-bearing within a program of study. Work-based learning is achieved and demonstrated through the designation of appropriate learning outcomes, engagement with a workplace environment, and the assessment of reflective practice.

Successful completion of assessed elements of work-based learning is awarded credit.

Work-Based Learning Student Handbook

The Work-Based Learning Student Handbook summarizes the policies and guides the student through the work-based learning experience.

The Work-Based Learning Administrator (Internship Administrator)

The Work-Based Learning Administrator (Internship Administrator):

- Prepares the students who qualify for a work-based learning experience. This includes advising, checking whether the students wishing to enroll for a work-based learning opportunity have completed the necessary prerequisites, as these are described in the respective work-based learning opportunity module syllabus.
- Provides students with help and advice in securing work-based learning opportunities, including CV drafting and practice interviews. The Internship Administrator works closely with the Office of Career Services to prepare the student for the placement.
- Searches and matches internship openings to students, based on the students’ interests and skills, and the requirements of the work-based learning partners.
- Informs students of the openings, their tasks, duties, responsibilities and entitlements during the work-based learning opportunity.
- Informs students of the academic program requirements, progress reports and assessment tools to be used during the work-based learning opportunity, as these are described in the respective module syllabus.
- Informs students on points of contact in case of emergency or complaints.
- Oversees work-based learning placements, making sure that the work-based agreement terms are honored.
- Monitors the assessment of the student’s planning and development logs and journals and the evaluation of the students’ written projects or reports by the appropriate faculty member. Debriefs students returning from work-based learning opportunities, and advises them on their future educational and professional development.
- Investigates complaints made by the partners or the students and addresses them or refers them to the Work-Based Learning Team, which comprises the chief academic officer, the academic dean of the respective school, the respective department head or area coordinator, the internship administrator, and the controller, who acts as a resource person.
Academic Rights and Academic Integrity

ACADEMIC RIGHTS

Right to Pursue Knowledge and the Right to Free Expression

The student’s right to pursue knowledge and to express views responsibly is of the utmost importance in an academic institution and it is so recognized by the College.

Right of Confidentiality

No information or document referring to a student’s academic or personal life (such as the student’s address, college e-mail address, grade report card, or transcript of record) is released to anybody outside the College without the written permission of the student, subject to legal requirements. Should students, ex-students, or graduates want information from their personal files to be released to persons outside the College, such requests must be made in writing and include the student’s signature.

Right to Know and Participate

Students have a right to be informed about policies and procedures that affect their academic progress. Detailed information regarding all course offerings is available to students in course syllabi, deposited in the libraries.

Students have the right to make recommendations for changes to the existing rules through their representatives. Such recommendations, when referring to the academic area, must be submitted to the respective academic dean, who will channel the suggested changes to the proper administrative or academic body for consideration.

Right to Organize and Associate

Students may organize and assemble to pursue their common interests, subject to the guidelines established by the College’s governing bodies. Such gatherings, however, should not interfere with the physical operations of the campus, neither should they impinge on the rights of others to conduct their work, and they must not conflict with regularly scheduled programmes.

INTEGRITY

Honesty is an integral part of the learning process. Breaches of academic integrity and personal integrity undermine that process. Maintaining high ethical standards is the responsibility of both students and instructors.

Breaches of Academic Integrity

Responsibility of Students

For students, a valuable and enriching academic experience begins with personal integrity and the commitment to taking examinations, writing papers, and carrying out all other required assignments based on independent thinking and without improper or unauthorized assistance. The fair and accurate evaluation of a student’s performance is possible only if the work is truly that of the student. When a grade is assigned, instructors are, in effect, attesting that, to the best of their knowledge, the grade is a true indication of the student’s achievement. Offenses against academic integrity include not only misrepresenting one’s own work but also aiding fellow students to do the same.

Cheating

Cheating is defined as the use of (or the attempted use of) unauthorized or inappropriate assistance, material, or study aids in examinations or other academic work. The use of books, notes, calculators and conversation with others is forbidden in certain academic exercises and work; their use in these cases constitutes cheating. Similarly, students must not request others to conduct research for them or prepare any work for them; this includes, but is not limited to, the services of commercial term paper companies. Cheating also involves giving or receiving unauthorized help before, during, or after an examination. Examples of cheating include, but are not limited to, the use of prepared notes, “crib sheets,” or electronic aids during an examination (unless specifically approved by the instructor), attempting to observe another student’s paper or giving or receiving oral or visual information; intentionally allowing another student to view one’s own examination; copying the work of another student during an examination or other academic exercise or permitting another student to copy one’s work; and taking an examination for another student or allowing another student to take one’s examination. Taking an exam by proxy for someone else is an infraction of academic integrity on the part of both the student enrolled in the course and the proxy or substitute (see “Facilitating Academic Dishonesty”). Cheating also includes doing a take-home exam for another student.

Facilitating Academic Dishonesty

Knowingly helping or attempting to help another violate any provision of the academic integrity code is a breach of that code. Students who knowingly or negligently allow their work to be used by other students or who otherwise aid others in academic dishonesty are violating the College’s code of academic integrity. Such students are as guilty of intellectual dishonesty as the student who receives the material even though they may not themselves benefit academically from that dishonesty.

Falsification and Fabrication

Misrepresenting material or fabricating information in an assignment is a breach of academic integrity. Examples include, but are not limited to, false citations of sources, use of invented information, or falsification of data. Fabrication includes submitting false documents for the purpose of being excused from a scheduled examination or other academic assignment. Altering the answers given on an exam or changing the letter and/or numerical grade after the instructor has graded the examination and has distributed it to students for review constitutes falsification. Committing or attempting to commit forgery or alteration of College or personal documents or records, and furnishing false information to the College or its instructors are considered violations of academic integrity and must be reported to the respective academic dean for disciplinary action.

Multiple Submissions

It is a violation of academic integrity to submit the same work or substantial portions of it for academic credit more than once, or for more than one student to submit the same work, without the prior approval or authorization of the instructor. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing that the current work submitted for academic credit is cumulative in nature.

Plagiarism

A form of academic theft, plagiarism is the act of using another’s words, ideas, or organizational patterns without crediting or acknowledging the source. It includes any paraphrasing or summarizing of another’s work without acknowledgment as well as the failure to acknowledge the quotation of paragraphs, sentences, or even phrases written or spoken by someone else. Any use of published (books, magazines, newspapers, websites, photos, textbooks, etc.) and unpublished sources (class lectures or notes, handouts, speeches, other students’ papers, or material from a research service) without acknowledgment of the original author constitutes plagiarism. Moreover, the use of charts, pictures, graphs, diagrams, data, websites or other communication or recording media without acknowledgment constitutes plagiarism. The submission of research, completed papers or projects prepared by someone
else also constitutes plagiarism, as does the unacknowledged use of research sources gathered by someone else. The resubmission of the student’s own work in a previous class or as a resit/retake may also constitute self-plagiarism. Students resitting assessments or retaking courses must clarify with the instructor what is permitted in terms of resubmission of prior work. Students are responsible for understanding the legitimate use of sources, the appropriate ways of crediting sources (both print and electronic) through documentation, and the consequences of violating this responsibility.

Unauthorized Collaboration
Students may not collaborate on course work that will be graded unless they have faculty authorization. Unauthorized collaboration means working with others without the specific permission of the instructor on assignments that will be submitted for a grade. This rule applies to in-class or take-home tests, papers, or homework assignments. Examples of unauthorized collaboration can include, but are not limited to, jointly calculating homework problems, checking homework answers with other students, having another help one (re)write a paper, and sharing sources for a take-home examination. Submission for academic credit of work represented as one’s own effort but which has been developed with substantial assistance from another person is a violation of academic honesty. It is also a violation of academic honesty to provide such assistance. Unauthorized collaboration can even occur within the context of group projects when the degree or type of collaboration exceeds the parameters of what an instructor has expressly authorized. The purpose of a particular assignment and the acceptable method of completing it are determined by the instructor, not the student.

Unauthorized Possession of Academic Materials
Unauthorized possession of academic materials includes the selling or purchasing of examinations, papers, reports or other academic work; taking another student's academic work without permission; and possessing examinations, papers, reports, or other assignments not released by the instructor. Unauthorized removal of an examination or quiz from a classroom, faculty office, or other facility also constitutes a violation of academic integrity.

Use of Generative Artificial Intelligence tools in the preparation of assessments
Unauthorized use of Generative Artificial Intelligence tools, including chatbots, such as Chat GPT, and other tools, such as paraphrasers, to generate and/or rewrite material is strictly prohibited. This act constitutes deliberate cheating and falls under the category of academic misconduct. Any student found to have committed academic misconduct will be reported to the Committee on Academic Standing and Conduct (COSC) and be subject to the penalties specified in the Regulations for validated awards of The Open University for Institutions offering Dual Awards. (Appendix 9, Schedule of Student Academic Misconduct Penalties). These penalties aim to uphold the principles of academic integrity and maintain a fair and equitable learning environment for all students.

Breaches of Personal Integrity

Computer Misuse
The framework of responsible, considerate, and ethical behavior expected by the College extends to cover the use of computers. The College expects that students use the College’s and their own personal information technology resources responsibly and comply with all applicable College policies as well as local and international laws. The College provides electronic resources and services in support of its educational, research, and service mission. Use that threatens or interferes with the mission of the College, the integrity of the network, the privacy or safety of others, or that is illegal, is prohibited and subject to penalty.

Unacceptable activities and behaviors include, but are not limited to, misrepresentation (including forgery) of the identity of the sender or source of electronic communication; alteration of the content of a message originating from another person or computer with the intent to deceive; unauthorized use or attempted use of restricted-access computer resources or accounts; electronic theft of computer programmes, data, or text belonging to another, and commercial use of the College’s electronic resources.

Computer misuse consists of, but is not limited to, creation, use, storage, or transmission of information, programmes, or any other data that can reasonably be judged to be inappropriate or offensive to other users. The College’s policy on harassment applies to electronic displays or communications. No member of the College community may display or transmit images, sounds, or messages that are threatening, abusive, or offensive.

Discrimination and Harassment
It is the College’s policy that all employees and students work in an educational environment free from harassment of any nature. Therefore, sexual, racial, or religious harassment or other forms of an abuse of a power relationship, or bullying or threatening behavior are not tolerated. Harassment is defined as verbal (including harassment by phone, mail, Internet, or e-mail) or physical conduct that shows hostility toward an individual and has the purpose or effect of creating an intimidating, hostile, or offensive educational environment, or has the purpose or effect of interfering with an individual’s academic performance.

Lying
Lying consists of, but is not limited to, communicating untruths to gain an unfair academic or employment advantage. This includes requesting classmates to sign attendance registers on your behalf or giving a false reason to a faculty member when requesting a change in an examination date or an extension on a paper or project.

Responsibility of Instructors
Instructors are similarly responsible for ensuring that the College’s rules and regulations are enforced. When academic honesty is breached, instructors are obliged to detect and then report the violation. Laxity on the part of instructors includes having tests or test items exposed where they can be seen by students; returning tests and then using the same test again; reading, correcting papers, leaving the room, or conversing or giving help to students during an examination, and ignoring attempts to cheat.

Laxity or negligence in monitoring exams, preventing plagiarism, or guarding against other violations of academic integrity may result in disciplinary action. Failure to report cases of academic dishonesty to the Committee on Standing and Conduct will be considered as evidence of negligence and may result in disciplinary action.

To initiate a charge against an instructor, a signed statement must be submitted to the academic dean or to the chief academic officer. The academic dean, after assessing the seriousness of the charge, may issue an informal warning (not part of the record) or a reprimand (to be included in the instructor’s dossier). In more serious cases, or in the case of repeated charges, the College president or the chief academic officer may appoint a committee of faculty members and administrators to hear the charges and the defence and to make recommendations.

Policy Concerning Copyright and the Use of Images for Students
Students are required to comply with copyright laws and general data protection regulations regarding use of
images. Disregard for intellectual property and privacy issues constitutes infringement of ethical standards and violation of laws, involving potential legal action. "Copyright-protected works" range from literary works, to recordings, musical scores, plays, films, visual works of art, choreographic works, typographical works, photographs and more. As not everything available on the web is free to use, students must keep in mind that images are likely protected by copyright. It’s better not to use images whose copyright has not been ascertained. We encourage students to use images which are in the public domain or available through subscription resources. However, there is less rigidity involved when material protected by copyright is used for educational purposes, especially in non-profit institutions. This is referred to as "fair use": students may exceptionally use relevant material for a class project, but must acknowledge the source and the creator/author if appropriate. Fair use does not apply when the project is made known to parties other than the instructor and classmates eg through social media or publications. Images in the public domain are not subject to copyright laws. Ethical issues should be taken into consideration when manipulating/changing an image. Furthermore, fair use is not free of any limits whatsoever, eg students cannot photocopy their entire textbook(s). Generally, one may make one copy of up to 10% of a book or one chapter.

In addition, students must secure written permission/consent from:

a) anyone who has been the subject in a photograph, video or other medium even taken/made by the student who intends to use this material in an educational or other manner

b) anyone who has participated in a performance should the student wish to publicize, record or display such recordings to others.

STUDENTS ARE REQUIRED TO FILL OUT RELEVANT RELEASE AND CONSENT FORMS AND OBTAIN SIGNATURES BY ALL PARTIES INVOLVED.

Definition of public domain

The term "public domain" refers to creative materials that are not protected by intellectual property laws such as copyright, trademark, or patent laws. The public owns these works, not an individual author or artist. Anyone can use a public domain work without obtaining permission, but no one can ever own it. An important wrinkle to understand about public domain material is that, while each work belongs to the public, collections of public domain works may be protected by copyright. If, for example, someone has collected public domain images in a book or on a website, the collection as a whole may be protectable even though individual images are not. You are free to copy and use individual images but copying and distributing the complete collection may infringe what is known as the "collective works" copyright....
PURPOSE STATEMENT
In order to create an environment whereby students can live safely, succeed academically, and develop skills for life, leadership, and service, the College relies upon students to know and adhere to standards of behavior pertaining to personal and academic integrity, guided by the Student Honor Pledge, College policies and Greek laws. Students are expected to respect the rights and privileges of others and to exhibit both inside and outside the classroom conduct becoming of a student in both manner and attitude. To this end, the College has developed its own standards for student conduct as well as procedures for disciplinary action.

INTERPRETATION AND REVISION
Any question of interpretation or application of the Student Code of Conduct or the ACG Housing Regulations should be referred to the Office of the Dean of Students or the Offices of International Student Services and Housing & Residential Services. The Office of Student Affairs reviews the Student Code of Conduct on an annual basis. Students have the right to be informed about changes in a timely manner.

STUDENT RIGHTS
The choice to become a member of the Deree community implies the commitment to accept the rights and responsibilities of that membership. These stem from the understanding that the individual is responsible to the community and the community is equally responsible to the individual. As such, all student members of the Deree community have certain rights:

• The right to learn, including the right of access to ideas, the right of access to facts and opinions, the right to express ideas, and the right to discuss those ideas with others;
• The right to be treated as an individual member of the community, including the right to be free of discrimination based on age, sex, religion, ethnic or national origin, handicap, sexual orientation, and the right to be free from harassment of any type;
• The right of peaceful coexistence, including the right to be free from violence, force, threats, and abuse, and the right to move about freely;
• The right to be free of any action that unduly interferes with student rights and/or the learning environment;
• The right to express an opinion, which includes the right to state an agreement or disagreement with the opinions of others and the right to an appropriate forum for the expression of that opinion.

STUDENT RESPONSIBILITIES
All students of Deree – The American College of Greece (Deree-ACG) are responsible for reading and upholding the College Policies available on the website and blackboard container:

• Academic Appeals
• Acceptable Use of College Technology Resources
• ACG Equality, Diversity and Inclusion Policy
• ACG Harassment and Sexual Misconduct Policy
• ACG Housing Regulations
• ACG Non-Discrimination, Anti-Harassment, Sexual Misconduct, Relationship Violence and Stalking Policy
• ACG Safeguarding Policy
• Applicant Grievance Procedure
• Computer Ethics Policy
• E-Mail Policy
• FCPA (Anti-Bribery Anti-Corruption Policy)
• Graduate Catalog
• Intramural Sports Handbook
• Mass Broadcast E-Mail Policy
• Password Policy
• Personal Data Protection Policy
• Regulations for Validated Awards
• Student Code of Conduct
• Student Privacy Policy
• Undergraduate Catalog & Student Handbook

Once admitted at Deree - ACG, students are expected to comply with and sign the Student Honor Pledge.

Deree-ACG expects that its students comply with the Greek law. In addition to imposing disciplinary sanctions, the College may refer students for prosecution for conduct prohibited in accordance with the Greek law, such as discrimination; assault; harassment; sexual violence/assault/harassment; theft; possession and/or use of weapons or explosives; possession, sale, purchase, use or distribution of illegal substances; such violations are marked with an asterisk (*).
Student Participation and Evaluation
Student Participation and Evaluation

Deree - ACG has several mechanisms through which students may offer input on a variety of issues affecting the governance of the College.

Student Representation on Committees

One of the primary mechanisms through which students may influence College governance is through their participation on College and Faculty standing committees. The following committees have student representation:
- Committee on Standing and Conduct
- Library Committee
- Committee on Disability and Learning Differences
- Committee on Academic Standards and Policies
- Curriculum Committee
- Program Committees

Library Committee
This Committee assists the College Librarian in developing the Library collection, and in formulating Library policies. The Committee has two student representatives selected by the Student Council.

Committee on Disability and Learning Differences
This Committee monitors and recommends policies and procedures in order to accommodate individuals with disabilities and learning differences. The Committee has one student representative recommended by the Educational Psychologist and approved by the Director of Student Affairs, with a minimum CI of 2.50, with at least 60 credits earned, who attends policy meetings only.

Committee on Academic Standards and Policies
This Committee studies, clarifies and proposes academic policies and procedures. The Committee has one student representative (from the junior or senior classes, with a C.I. of 3.0 at least) to attend policy making sessions, only, with full voting rights selected by the student government.

Curriculum Committee
This Committee studies, monitors and improves College curricula and academic programmes, and makes recommendations to the Faculty Assembly. The Committee has three senior students (without voting rights) (one from the School of Arts and Sciences, one from the School of Fine and Performing Arts and one from the School of Business, each with a C.I. of 3.0 or above, to be selected by the student government and to be present only during the presentation of new programmes).

Program Committees
The Presidents of student academic societies are members of the Programme Committees which among other things have responsibility for the routine monitoring of programmes, including the consideration of student feedback, performance data and external examiners’ reports.

Student Evaluation

Students are encouraged to actively provide constructive feedback on their experiences at Deree - ACG, and thereby contribute to enhancing those learning experiences for themselves and for future students at the College.

Student Module (Course) Evaluation
Near the end of each semester/session, students are given the opportunity to assess the effectiveness of each course and its instructor, by anonymously completing an online evaluation form for each course in which they are enrolled. Instructors use this information for course improvement. The results of these evaluations are processed and disseminated electronically to each Instructor, Department Head, Academic Dean, the Executive Dean, the

Senior Vice President, Administration & Pierce and the President. This information is taken into consideration during the College’s formal performance appraisal for each instructor. Summarized results are published online to students. The OpenUniversity (OU) receives feedback on the student evaluation results through the OU Annual Monitoring Report (AMR).

Senior Exit Survey
Students who are graduating at the end of a session or semester are asked to provide their feedback on the academic curricula and academic support services they experienced during their course of study at Deree - ACG. The senior exit survey is administered at the departmental level, and summarized by department and by school. Deans and Department Heads share the summary information with the relevant department faculty and with Administration. The information from the surveys is used by Program Committees for curricula and academic support services improvement.

Other Forms of Student Feedback
From time- to- time, the College may invite students to provide their feedback on a variety of issues affecting student learning experiences and College life in general. This may take the form, for example, of student participation on ad hoc committees or student participation in opinion surveys on a particular topic eg organizing debates or panel discussions on academic integrity in collaboration with the Committee on Standing and Conduct.

Student Opportunity for Input
Deree – ACG, frequently seeks student feedback and input. Online surveys are used to gather information on any number of subjects. In addition, paper surveys are occasionally used to gather data as well.

Career Services Survey
Career Services performs an annual survey at the conclusion of the academic year for all graduating seniors on the day of Academic Regalia Gown distribution. Information is gathered regarding the use of Career Services, employment data, graduate studies, career planning, etc.

Clubs and Student Organizations
Clubs and organizations are part of the vibrant student life available at Deree. There is a wide variety of clubs ranging from those that are academic or theoretical in nature to those that are more practical, all of which contribute to community life at the College. There are also student organizations that support activities and events that originate from administration offices of the College. Overall students join a club or organization because they share a common interest and wish to develop that interest through group discussions, presentations, competitions, exhibitions and much more.

The Clubs & Student Organization Guidebook, located on blackboard under Student Life and Athletics, serves as a handbook for the governing bodies of clubs and organizations. Student learn how to form a new club, retain recognition, amend their constitutions, elect new governing bodies, manage finances, plan and promote events and much more.

All Deree students in good academic standing (C.I. 2.0 and above) are eligible to join college clubs. The Office of Student Affairs (OSA) oversees all clubs and organizations. Clubs, however, must attain and continue to receive official recognition and budget allocation by the Student Government.

Should you wish to find out more about any student club or organization come by the Office of Student Affairs, the Office of the Student Government Association, or contact its members directly through email.

Student Participation and Evaluation

Student Organizations

ACG Choir
The Music Department has launched a College Choir to provide opportunities to students, faculty and staff to share the pleasure of singing and to participate in cultural, collaborative and service activities. The Choir functions in the context of an ‘academic’ organization, is open to students, and to faculty, staff and alumni as associate members with no audition or experience required and meets and rehearses on campus. It participates in college events, community outreach and inter-institutional events and collaborations and focuses on enjoyment of singing, aiming to help its members learn and improve along the way.

ACG Peer Alumni Network
The ACG Peers Alumni Network is a network of people who have participated and served as ACG Peers for a Heritage Greece Program session. They are proud advocates for the College from a position of leadership and service. They foster the mission and the vision of Deree, introduce new ACG Peers to the Heritage Greece Program and community, and represent the College and the ACG Peers at official events promoting the Program. The ACG Peers Alumni network seeks to connect both past American participants and ACG Peer alumni across the years of the Heritage Greece Program. The database of the Network will offer both parties the opportunity to meet and connect whilst travelling, working or studying abroad.

ACG Sustainability Leaders
The ACG Sustainability Leaders is a dedicated volunteer student organization launched in 2018 following US best practices in the context of peer-to-peer education. Its members engage with sustainability-related initiatives both on and off-campus and they promote a sustainability culture among ACG members.

Career Readiness Team
The Career Readiness Team (CRT) team of students works under the supervision and guidance of the Office of Career Services (OCS) to promote services offered by the OCS and implement pre-determined projects such as Promotion for the Job & Internship Coaching Program, the Libra Internship, the career portal app and many more.

Deree College Ambassadors
The Deree Ambassadors are undergraduate students of high academic standing who are advocates for Deree from a position of leadership and service. Ambassadors are guided by their desire to serve, commitment to improve, and attitude of selflessness. They assist in events organized by the College.

Deree Orientation Leaders
The Deree Orientation Leaders are highly motivated students whose main purpose is to assist new students in their transition to academic and social life at Deree. This organization helps plan the student orientations held before each semester. During orientation, they lead small groups, serving as mentors for new students, providing information, and having fun!

Deree Student Activities Board (Deree SAB)
The Deree Student Activities Board (Deree SAB) provides programming that complements, reflects and responds to the College community. These programs are designed to be both fun and provide an educational experience for those involved in planning and presenting the programs.

Deree Student Association
Through hard work and dedication, the Deree Student Association aims to empower the voice of the students and actively promote a vibrant campus community at Deree - The American College of Greece. Acting as liaison between the undergraduate student body and the administration, faculty and staff of Deree – The American College of Greece, they strive to provide responsible leadership and fair, democratic representation of the students in an official capacity while promoting equality and unity among the student body.

Stavros Niarchos Foundation Scholars
The purpose of this organization is to empower a new generation of young scholars to improve their social and professional skills and integrate better into ACG. They do this by
- creating and maintaining strong relations among the scholars
- organizing academic activities and social events
- strengthening the interaction between the ACG and the public Institutions in which the scholars are enrolled
- promoting cooperation between the College and the Foundation
- supporting SNF Orientation by informing prospective SNF students about ACG opportunities
- promoting Career opportunities, workshops and trainings related to their studies at the Greek university and Deree
- promoting SNF Study Abroad program
- organizing an annual event with important topics related to their studies and future professions

Student Emergency Response Force (S.E.R.F)
Student Emergency Response Force, better known as S.E.R.F., is Deree’s emergency response team. Organized in 1998, team members are trained to assist in emergency situations on campus (earthquakes, medical emergencies, and evacuations) and escort students from campus to the bus stop or their cars. Team members are trained in CPR (cardiopulmonary resuscitation) and first aid, self-defense, climbing/rappel, the use of scuba equipment, orienteering, wilderness survival, fire fighting, using two-way radios, self-defense, and other skills. The spirit of the team is one of unity, service, and volunteerism.

Academic Societies

Accounting and Finance Society
Discusses issues and concerns on the local and international financial reality.

Art History Society
Though lectures and presentations explores the latest developments in art history.

MIS Society
The MIS Society promotes the academic and professional interests of the MIS students.

Communication Society

EVDOKIA KARAYANNI (2007-2009); Phychion, University of Athens; M.A., Central Michigan University; Ph.D., University of Ioannina
In 1994 the College established the Kimon Friar Lectureship in Modern Greek Arts and Letters to honor the memory of the distinguished Greek-American translator, poet, and anthologist. The lectureship brings renowned scholars to the College and fulfills the terms of Kimon Friar’s bequest to the Attica Tradition Educational Foundation of all his property in Greece, including his library and manuscripts, now deposited in the Special Collections, Rare Books and Archives division at the College library.

The Eleftherios Venizelos Chair of Modern Greek Studies has been created by the College primarily to focus research, debate and attention on the most important and interesting trends and developments in modern Greek history – a history in which Venizelos played a key role.

ACG Institute of Global Affairs

The Institute of Global Affairs (IGA) is a center of scholarship in public and international affairs, established at the American College of Greece in 2008. The Institute regularly hosts round tables, presentations, panel discussions, conferences, workshops or webinars. Through the participation of high-level academics, politicians, economists, diplomats, policy-makers and other opinion leaders, the Institute aims at enhancing the understanding of contemporary regional and international complex issues as well as promoting a sincere and open dialogue.

The Institute focuses on the study of six thematic areas: (i) European Affairs, (ii) Middle East and North Africa, (iii) East-West and Eurasian Relations, (iv) Energy Security and International Markets, (v) The Emerging New Strategic and Economic World Order, and (vi) The Rise of Populism and the challenges to Democracy. The study of these areas is policy-oriented and complemented by an identification and analysis of regional complexities and global developments. The relations between states, international organizations, intergovernmental agencies, NGOs and individual actors, are a key component of IGA’s objects of study.

The Institute is managed by a Director and operates under the Office of Public Affairs. An Academic Advisory Board, comprising Deree faculty members with relevant expertise, works closely with the VP of Public Affairs and the Institute’s Director in setting its strategy and planning its activities.

APPENDIX III
List of Support Staff
### Appendix III

In this catalog, the College makes its most inclusive and comprehensive statement about itself: the nature of the institution and its future aspirations; the rules, regulations, and requirements under which it operates and which it enjoins upon students who wish to become Deree graduates; the programmes it offers; and the people who constitute the College community.

The information in this catalog, including administration and faculty listings, is as current and accurate as was possible at the time of publication, the catalog is issued annually before the start of the new academic year. However, the College is a dynamic and evolving institution and changes may occur after publication that will cause some of the information as presented to be superseded. Because new catalogs cannot be printed promptly enough to reflect every change made by an active administration and faculty, the College reserves the right to alter its course offerings, academic programmes, campus regulations, fee structure, and calendar whenever necessary. Every effort will be made to inform students of such alterations when they occur and no student will be asked to meet degree requirements not in effect at the time of his or her admission to a degree program.

The American College of Greece is an equal opportunity educational institution, whereby qualified individuals are not discriminated against on grounds of age, gender, race, nationality, ethnicity, faith, disability, marital status, or sexual orientation. This non-discrimination policy applies to all educational policies and programmes. ACG strives to eliminate unfair bias and stereotyping in the institution.
