A LETTER FROM VP ALISON TOWNLEY

Dear ACG Community,

It is with immense pride and gratitude that I present to you The American College of Greece Advancement - Alumni Office's Annual Report, shining a light on the profound impact of financial support from generous donors and funders across the institution in 2023.

As you'll read in the pages to follow, every gift makes a difference at ACG. Some of the year's highlights include:

- In celebrating ACG's 100 years of transformative impact in Greece, the Centennial Fund stands as a testament to our enduring commitment to excellence. Through the generosity of our donors, we raised an impressive \$1.6M, dedicated to empowering students through scholarships, fostering innovative educational programs, and nurturing the growth of our esteemed faculty.
- Furthermore, we are thrilled to announce our historic partnership with The Charles Antetokounmpo Family Foundation, which has provided invaluable support for under-resourced young people and refugee education, opening new pathways of opportunity and empowerment.
- The spirit of philanthropy was vividly demonstrated by the remarkable contribution of ACG Former Trustee Kosmo Kalliarekos, who pledged \$100K to support Education Unites, Greece's only university-based scholarship program for refugees.
- Our dedication to fostering leadership and diversity in STEM fields has been furthered by the generous \$100K award from The Henry Luce Foundation, empowering early-career women to excel and innovate.
- We're grateful for our new partner Viva.com, whose generous donations have enabled us to expand Pierce scholarship programs and foster innovation within our community.
- We are proud to highlight the support of the U.S. Embassy in Athens, aimed at creating inclusive learning environments and enhancing professional development opportunities for educators.
- I am also thrilled to share that our President's Circle has seen unprecedented growth, with 52 members contributing \$1,875 or more, reaffirming their steadfast commitment to our mission.
- Lastly, the establishment of the Pierce Parents Fundraising Committee marks a significant milestone in building a culture of philanthropy within our parent community, setting new records for generosity and engagement.

As we reflect on these achievements, we extend our deepest gratitude to each member of the ACG community for their unwavering support and dedication. Together, we continue to shape the future of education and innovation at The American College of Greece.

With warm regards,

Alison Townley
Vice President of Advancement

IMPACT ACROSS ACG

100 Years of Excellence

ACG's Centennial Gala at Athens Concert Hall in December was a dazzling tribute to our institution's 100 years of profound impact in Greece. **The Centennial Fund** raised \$1.6M, exceeding our goal and helping pave the way for ACG's next century of excellence through support for student scholarships, new educational programs and faculty development. We extend our heartfelt gratitude to the **many generous benefactors** who supported the Centennial Fund in honor of ACG's century of impact.

Alums awarded during the Centennial Gala, from left to right: The Arts & Culture award was presented to **Sophia Kalogeropoulou** (Pierce '64), while the Business Awards were bestowed upon **Elena Chouliara** (Alba '01), **Nelly Katsou** (Pierce '83), **Vassilios Katsos** (Pierce '91), and **Nikos Koumettis** (Deree '86). **Barbara Geladakis**, MD (Pierce '95) received the Education & Science award, and the Social Impact award was granted to **Vana Lavidas** (Pierce '79) and **Lena Papalexopoulou** (Pierce '82). The pinnacle of recognition was reserved for **Athina Martinou** (Pierce '45), and her son, **Thanasis Martinos**, who graciously accepted the prestigious Maria West Lifetime Achievement award on behalf of his mother. The award statues were created by sculptor **Athena Politopoulou-Kargsten** (Pierce '56 & '57).

IMPACT ACROSS ACG

ACG entered into a new partnership with the **Charles Antetokounmpo Family Foundation**, established by the family of champion Greek-Nigerian NBA players. The new partnership includes educational programming at Pierce for 100 under-resourced youth participating in the foundation's AntetokounBros Academy and scholarships for AntetokounBros Academy graduates to attend Deree. CAFF is also joining the U.S. Embassy Athens and Kosmo Kalliarekos in generously contributing to Greece's only university-based, comprehensive scholarship program for refugee students, Education Unites ACG. The program provides scholarships for 40 refugee students from the Middle East, Africa and Ukraine each year.

"We created the Charles Antetokounmpo Family Foundation to honor our father Charles, who taught us that each of us has a responsibility to help others achieve their dreams. Our journey is proof that investing in others can unlock the potential inside every person—no matter where they start or what difficulties they face." —
Giannis, Kostas, Thanasis, Alex and Francis Antetokounmpo.

Viva.com, a Greek start-up and the first European entirely cloud-based neobank, stepped forward with a generous first-time gift to ACG. Viva.com's \$125K gift supports three programs aligned with the company's priorities: scholarships for Deree students studying entrepreneurship management, management information systems, Information Technology and Cybersecurity and Networks; scholarships for Deree students to study abroad; and The Pierce Innovation and Entrepreneurship Academy Powered by Viva.com.

Groundbreaking Partnerships

A generous Greek family foundation's \$25K grant award supported an interdisciplinary team from history, visual culture, design studies and digital humanities to meet the demands of studying tourism and nation branding in Greece. The project provides a resource on the history of Greek tourism from the perspective of the government, private and transnational stakeholders who created the image of Greece and made the nation a highly popular tourism destination.

IMPACT ACROSS ACG

Helidoni Foundation

The Helidoni Foundation supported ACG's role in The Lesvos Mission Blue Project in 2023, promoting the conservation of the Mission Blue Avlaki Hope Spot on Lesvos in partnership with the nonprofit Healing Lesvos and The University of the Aegean. The project set up a prototype of best practices that can be adopted by other islands or regions in Greece and the Mediterranean, with an emphasis on environmental conservation through the engagement of youth and empowerment of the most vulnerable social groups, such as refugees.

The President's Circle

The President's Circle sets the standard for philanthropic commitment to ACG with annual gifts of \$1,875-plus, symbolizing ACG's founding in 1875. This distinguished group of individuals, companies and foundations gathered on campus in January for updates on ACG's growth and impact from President David G. Horner. Alba MBA student and scholarship recipient Tasos Ntaskas balances his studies with a finance position at General Mills and inspired the crowd with gratitude for the scholarship support that has made his academic and professional career possible.

"I like to dream my journey might lead me to become a CFO, a CEO or to embark on my own venture, but the truth is I don't know how my path will unfold," Tasos said. "What I do know is that one of the catalysts towards this future will be the Alba MBA experience, which I wouldn't be able to afford without your help." — Tasos Ntaskas, Alba '23

2023 Campaigns

1. **Annual Fund:** Seventy-seven donors contributed to the 2023 Annual Fund, raising \$39K to support scholarships for promising students with financial need. The majority of all ACG students received financial aid in 2023.
2. **Take-a-Seat:** The campaign to support the East Campus and Aghia Paraskevi Stadiums raised more than \$98K from 101 generous families and UBITECH, supporting operations and maintenance of the stadiums.
3. More than 393 Pierce alumni and 194 Deree alumni contributed to **ACG's Scholarship Fund** through purchase of 2023 Reunion Homecoming tickets.

IMPACT ACROSS ACG

Beyond the Degree: Evaluating ACG's Impact on the Lives of Alumni

At The American College of Greece, we believe the institution's most significant contribution is long-term investments in human capital so that 67,000+ alumni generate critical social and economic impact in Greece and globally. To test this belief and better understand the long-term impacts of ACG on the lives of alumni, we conducted a comprehensive year-long research project in collaboration with the independent market research firm MindSearch. The study involved over 550 alumni representing diverse ages, professions, and backgrounds through focus groups, interviews, and phone surveys. The aim was to understand the unique ways in which ACG has influenced the lives of its alumni, how it stands apart within the educational ecosystem, and how we can improve.

Key Findings:

- **90%** of alumni rank ACG at the top of the scale for high academic standards and, diversity of educational experience
- **90%** say the ACG experience prepared them with the hard and soft skills they need to step into the workforce, be competitive, and grow as professionals.
- ACG alumni are entrepreneurial. **38%** report they are either business owners or self-employed professionals compared to Greece's **32%** national average.

Zephyros Maritime Company made a €10K commitment to fund the first maritime academy for elementary school students at Pierce Elementary School. The gift from Zephyros was spearheaded by Pierce parent, Theodoros Zografos, Managing Director, Zephyros Maritime. Launched with financial support from Lloyd's Register Foundation under the auspices of ACG's Center of Excellence in Logistics, Shipping and Transportation, the Pierce Maritime Academy's mission is to inspire the next generation of maritime professionals from an early age through experiential learning.

Epistimi was founded by Pierce alumna and MIT faculty member Angeliki - Artemis Rigos who earned a BA in chemistry from Cornell University, a Ph.D. in physical chemistry from MIT, and an MBA from Northeastern University and has dedicated her career to teaching and leadership in STEMM fields. Dr. Rigos piloted Epistimi at ACG in 2023 with 14 international women in STEMM.

Dedicated to the memory of Maria Laina

Reflecting on our team's accomplishments in 2023, we are keenly reminded of the extraordinary contributions of our beloved colleague and friend Maria Laina, Deree '94, who passed away earlier this year. Beginning in 2015, Maria brought her grace and formidable spirit to significantly grow and strengthen ACG's alumni programs as Executive Director of Advancement-Alumni.

We dedicate this report to Maria, who was more than a colleague; she was a friend, a mentor, and a beacon of light within our community. Maria embodied the values of kindness, professionalism, and empathy, setting an example for us to follow.

Rest in peace, dear Maria. You will be profoundly missed but never forgotten.
