

Post-Graduation Survey – Class of 2023 Initial Career Outcomes: The following graph provides information regarding the progress of the Deree graduating class 6 months following graduation. It is based on the 2023 Post-Graduation Survey, where the initial career outcomes of 207 out of 456 degree-seeking Deree students (45.4% knowledge rate) were recorded. Results showed that:

- **63.77%** are employed (54.59% working and 9.18% serving their military service)
- **13.04%** are continuing education/pursuing graduate studies
- **14.49%** are looking for a job
- **8.7%** are engaged in other activities (7.73 % are planning to continue education but not yet enrolled, 0.97% are not currently working nor looking for a job)

Table 1. Status

* The figures include all degree-seeking Undergraduate and Graduate students, excluding Minor Certificate recipients
