

Need-based tuition grants range from 5% to 35% and apply to tuition only, excluding other fees. They are awarded for up to 9 consecutive terms. They take effect upon approval, and their duration is determined based on the period of initial enrollment at the College. If the reduction is granted while the student is already enrolled, or in the case of readmission, the duration also depends on the number of courses remaining to complete the program.

### Application Periods

Although the college tries to support all students in need, the available funds are limited, and therefore, it is highly recommended that interested students apply within the set deadlines. Students, who apply late, run the risk of their application not to be evaluated.

- All communication regarding the progress of an application is done through the personal email address (as reported on the application form) and/or through the students' *ACG Mail*.
- Recipients are obliged to inform the Financial Assistance and Planning Office of any substantial increase in their family/individual income that might alleviate the need for a need-based tuition reduction.
- In order to safeguard the integrity of the Financial Assistance Program, every year a random sample of the recipients will be asked to reapply. These recipients will be notified via email.
- As funding for financial assistance originates from the College's own resources and from the generous contributions of donors, the College reserves the right to rename already awarded tuition reductions to named scholarships. Applications are assessed comprehensively: declared family income, as evidenced by official tax documentation, is evaluated first; additional social factors are taken into account only if financial need is confirmed.

This form must be signed by the person facing the issue or by an authorized representative. In any case, the income should be sufficient to cover basic living expenses as well as a portion of the tuition fees.
- **Independent Applicants:** Applicants applying as independent (self-supported) members must file their own taxes, live separately from parents/guardians, and have sufficient income to cover living expenses and a portion of their studies.
